### CHAIRMAN

Antoine Bernheim

### VICE- CHAIRMAN

Gabriele Galateri di Genola

### MANAGING DIRECTORS

(\*) He acts also as General Manager

Sergio Balbinot (\*) / Giovanni Perissinotto (\*)

### DIRECTORS

(\*\*) Directors who, together with the Chairman, Vice-Chairman and Managing Directors, form the Executive Committee

Luigi Arturo Bianchi / Ana Patricia Botin

Gerardo Broggini (\*\*) / Claudio Consolo

Laurent Dassault / Diego Della Valle / Enzo Grilli

Piergaetano Marchetti (\*\*) / Klaus-Peter Müller / Alberto Nicola Nagel (\*\*)

Alessandro Ovi / Alessandro Pedersoli

Reinfried Pohl / Vittorio Ripa di Meana

### GENERAL COUNCIL

Comprising, besides the below listed elective Members, the Members of the Board of Directors and the General Managers

Giorgio Davide Adler / José Ramón Álvarez Rendueles

José María Amusátegui de la Cierva / Francesco Maria Attaguile

Raymond Barre / Claude Bébér / Kenneth J. Bialkin / Giacomo Costa

Maurizio De Tilla / Enrico Filippi / Carlos Fitz-James Stuart y Martínez de Irujo

Albert Frère / Roberto Gonzales Barrera / Georges Hervet

Dietrich Karner / Khoon Chen Kuok / Stefano Micossi

Benedetto Orsini / Arturo Romanin Jacur

Guido Schmidt-Chiari / Theo Waigel / Wilhelm Winterstein

### BOARD OF AUDITORS

Gianfranco Barbato, Chairman

Paolo D'Agnolo / Gaetano Terrin

Giuseppe Alessio Vermì ( substitute) / Paolo Bruno ( substitute)

### GENERAL MANAGER

Raffaele Agrusti

### DEPUTY GENERAL MANAGERS

(\*\*\*) Secretary of the Board of Directors

Mel Carvill / Claudio Cominelli / Aldo Minucci / Vittorio Rispoli (\*\*\*)

(\*) On equivalent terms: on equivalent exchange rates and consolidation area compared to the same period of the previous financial year and without considering the one-off single premium underwritten by Generali China Life in the first half of 2005

(1) The amounts are calculated net of consolidation adjustments

(2) The result of the period is included in share capital and reserves attributable to the Group

## Economic and insurance market developments

The first half of 2006 saw the world economy develop at even faster rates than in recent years. This is despite the fact that the price of oil remains at historically very high levels due to the strong demand for energy from the emerging countries and the uncertainty regarding future supplies, while many of the major producer countries are in the midst of serious political tensions. The key element distinguishing the six-month period compared to recent years is the increased contribution made to world development by the industrialized countries, with the boost provided by the emerging countries remaining strong.

Growth in the United States has continued to be very sustained due to the positive trend both in terms of internal demand and exports, whilst the effects of the ongoing monetary squeeze are still awaited. The high levels of public deficits and deficits in the trade balance, which are currently financed with massive inflows of capital from abroad, continue to be a risk factor for the dollar and for growth. As a result, the current trend is considered unlikely to continue. Private consumption also represents a risk factor in a situation of high levels of household debt and rising interest rates.

In Japan there has been robust growth in the economy, driven by all the private components. As far as China is concerned, growth in the first half of the year is estimated to exceed 10%. This is giving the authorities cause for concern due to the possibility of over-investment and the resultant overheating of the economy. The process of revaluing the renminbi continues with the aim of rebalancing the balance of payments and shifting demand away from production investment to consumer spending, thanks also to the improved purchasing power abroad.

Latin America has benefited from the recovery in the Brazilian economy, where the return of inflation has allowed interest rates to be lowered with immediate benefit for internal demand, in particular for investments. In Argentina, the economy continues to be sustained by the strong worldwide demand for produce. Consumption has remained high, whilst investment has tailed off.

For countries recently admitted to the European Union the virtuous cycle of exports and investments continues, encouraged by the stability and new commercial opportunities arising from entry to the Union. Among these countries, the main ones have continued to grow at annual rates of more than 4%, the Czech Republic in particular (up 7.4%).

In the euro Area, overall recovery has intensified and seems to have acquired stability, with rates of the order of 1.5% in the main countries and greater dynamism in the minor ones. Internal demand has been lively everywhere as has foreign demand in general, which has resulted in an overall trading balance with overseas that is close to even.

Also the Italian economy has benefited from the favourable international context, despite the loss of market shares in international trade. This is a consequence of Italian production system

being concentrated in low-tech sectors. Growth has been sustained primarily by consumption and investment, rising fast due to the improvement in the confidence levels of households and businesses and the upward trend in disposable income.

At international level, inflation — which is currently under control despite the prolonged shock of energy prices and the persistent rise in other raw material costs — does, however, continue to preoccupy the monetary authorities, which have adopted additional measures to limit the liquidity available in the system. In the United States the Fed has raised the key interest rate several times and in the six-month period this has gone up from 4.25% to 5.0% and to 5.25% in July, with the seventeenth increase in two years. As the Euro Area's economy has continued to enjoy steady recovery, the European Central Bank has adjusted the key rate on two occasions, each time by a quarter of a point, bringing it up to 2.75%.

The euro started the six-month period in a phase of relative weakness against the dollar, with values (1.18) close to the minimum of the last two years, and then appreciated substantially, reaching 1.29 between April and May, and closing the half-year above 1.27.

The first half of 2006 was positive in overall terms for the equity markets, although the major expansion in the first four months of the year was followed by a sharp fall between May and June and a partial recovery from mid-June. This trend can be explained by the aforementioned gradual reduction of liquidity taking place through action of the central banks in almost all the main markets, and also in many minor markets, in order to contain inflationary pressures. The reduction of liquidity in turn has led investors to reduce share investments. In Europe, during this period, the Stoxx50 index rose by 2.0%, driven by the commodities and financial services sectors; the euro zone insurance sector index, on the other hand, fell by 1.0%. In Italy, the appreciation of the S&P/Mib index was aligned to that of the general European index (up 2.0%). The American market saw the S&P500 and Dow Jones indexes rise by 1.76% and 4.0% respectively, but the Nasdaq fall by 1.5%. Finally, the Asian area was characterized by the downturn in Japan and Korea, following the exceptional performance in 2005, whilst India continued its positive trend (up 12.9%), and the Chinese domestic market (Shanghai) also showed significant recovery (up 44.0 %), after years of weak performance.

On the American bond market, long-term rates (ten-year government bonds) have risen gradually, from 4.39% at the end of 2005 to 5.13% at the end of June. This has kept the rates curve substantially flat, curbing expectations for a further growth in American economy. In Europe, the rates of ten-year government bonds increased from 3.3% to 4% in the six-month period. The average yield differential of European corporate bonds compared with government securities continued to widen during the six-month period, rising from 0.495 to 0.583 percentage points.

As far as the European insurance markets are concerned, the trends recorded last year have been substantially confirmed, albeit with some exceptions relating to individual countries.

In general, the life sector has continued to be the engine driving the sector's growth. Most of the European countries recorded significant increases in income, particularly of linked products, in

line with the positive trend of the financial markets in the first few months of the year. The exceptions are Italy — where there was a drop in the volume of premiums in contrast with the sharp increase recorded in the first half of 2005 — and Spain, where premium income fell due to the uncertainties arising from the tax reform currently underway, which is set to abolish a number of tax concessions for savings products. The significant growth recorded in France was largely the result of the sharp increase in bancassurance, which has benefited from the conversion of PEL bank products (home purchase savings plans) into life insurance contracts, following the end of the tax concessions enjoyed by the aforementioned plans.

The performance of the non-life sector was more modest due to the economic situation and the unceasing intense competition particularly in the motor segment. Again this year, the latter has slowed down in Italy, France and Spain and suffered a contraction in Germany.

In the other areas in which the Group operates, Central-Eastern Europe and Asia have recorded good growth both in the life and non-life sectors, in the wake of the excellent economic progress made. Growth has been exceptionally healthy in Latin America, particularly as regards the life line of business in Argentina and Mexico and the motor line of business in Mexico.

The sector's profitability remains good. This is the result of the ongoing prevalence of careful underwriting policies combined with the business consolidation and reorganization operations designed to achieve cost synergies, which have continued to affect the insurance industry as a whole.

## The Generali Group's strategy for growth

On 5 March 2006, the Company's Board of Directors approved the **2006-2008 Business Plan** which identifies important objectives for further growth, continuing and completing the process of organizational and business innovation launched with the previous Plan. The new Plan is founded on three pillars for the achievement of these objectives: growth and innovation, a unique country organizational model and important transnational structures, optimization of capital. The projects provided for in the Plan, designed to achieve important synergies and disseminate best practices throughout the Group, have already been started in all the main countries of operation. The most significant transnational projects launched include those relating to the concentration of the asset management activity and the IT platforms.

The events that stand out in the first half of the year are therefore the major development operations in Italy and countries with high growth potential and the reorganization measures designed to optimize management performance.

As part of the plan of expansion through acquisitions, during the six-month period an agreement was reached in June in **Italy** with the De Agostini group for the acquisition of a controlling stake in the Toro Assicurazioni group. This will be followed by a mandatory public purchase offer and the subsequent removal of Toro Assicurazioni from the list of quoted companies. The related contract of sale was signed on 17 July. With this acquisition, Generali is aiming to increase its market share in the non-life segment, and become the leader in this sector as well, whilst at the same time rebalancing the composition of its own portfolio with an increase in retail customers. The transaction is currently being examined by the competent authorities.

As part of the implementation of asset management strategies, Generali Property Investments Sgr was set up. The objective was to establish real estate funds with a view to optimizing the investments of the Group's insurance companies in the real estate sector.

Effective as of 1 January 2006, the transport insurance business of the Italian subsidiary UMS Generali Marine was concentrated in the Parent Company in order to rationalize its position in the marine transport insurance sector.

The process of reorganizing the Group's Italian operations continued with the strategic plan aimed at rationalizing and integrating not only the individual organizational and corporate structures, but also the shared services. In this context, it was decided to merge Generali Vita into Assicurazioni Generali in order to form a single company, operating in the life and non-life segments, under the "Assicurazioni Generali" name. INA and Assitalia will also be merged, giving rise to a single company which will adopt the name of INA Assitalia. SIA, a company operating in the loss prevention and risk analysis field for the Group's corporate customers in Italy, will be merged into Assicurazioni Generali. The guidelines have also been approved for the integration between GGL (Gruppo Generali Liquidazione Danni) — operating in claim settlement for the Group companies in Italy — and its subsidiary Datel, a company specializing in the management of claim call centres for the Group. The operations described will be

completed by the end of the year, once the necessary legal authorizations have been obtained. In this context, the process of centralizing the administrative services, already largely realized with the previous Business Plan, has continued by also concentrating the Parent Company's accounting area in Generali Servizi Amministrativi (GSA).

In **Serbia**, March saw the conclusion of the acquisition by the Delta Group of a majority holding in the capital of Delta Osiguranje, the insurance company ranked third in the Serbian market, operating in both the life and non-life segments. The company will take on the name of Generali Delta.

In June, in the **Ukraine** an agreement was signed with the UkrAvto group for the acquisition of 51% of the capital of Garant Auto and Garant Life, the second company in the non-life sector and third in the life sector of that country, respectively.

In **Croatia**, May saw the signing of an agreement for the acquisition of 100% of the holding in Libertas Osiguranje, a company operating in the life sector, and also authorized to operate in the accident and health sectors.

In **India**, again in May, an agreement was signed for the establishment of a life and non-life joint venture with the most important Indian retail distribution group. The joint venture, which will mark Generali's entry into this market, will take the name of Future Generali and Generali will hold a stake within the limits of 26%, as laid down by current Indian legislation for foreign investments in the capital of companies lying in the country. Once the necessary authorizations have been obtained, Future Generali will be able to operate throughout the Indian territory through two distinct life and non-life companies using its partner's extensive network of sales outlets.

It should also be noted that in **China** the Group has obtained from the competent regulatory body authorization to form a company to operate in the non-life lines. Generali will hence be able to provide insurance in the country both in the life and non-life sectors.

In **Israel**, as part of the process to reinforce its position in the asset management, Migdal Capital Markets – the financial holding company of the Migdal group operating in joint venture with the American investment bank Bear Stearns – has acquired a number of investment funds. In addition, the merger of all the pension funds has been concluded with a view to optimizing the management process.

In **Switzerland**, the BSI bank acquired the Banca Unione di Credito (BUC) from the Fiat Group in June. This transaction forms part of BSI's expansion programme into the asset management sector, in line with the mission attributed to it within the Generali Group.

Measures have also been put in place to increase the efficiency of the capital employed, preserving the Group's solid equity position and credit rating, whilst at the same time ensuring the potential for expansion through acquisitions. To achieve these goals, a voluntary public

offering was launched **in Germany** for the shares owned by the minority shareholders of AMB Generali Holding which was concluded in April. The subscriptions received brought the share of AMB Generali capital held by the Group to 85.05%, thus exceeding the 75% threshold which allows full control of the Shareholders' General Meeting. In **Austria**, in July a similar process was concluded with the acquisition of all the capital of Generali Holding Vienna. In **Switzerland**, the voluntary public offering for the acquisition of all the capital of Generali (Schweiz) Holding is coming to a close. In **Israel**, the acquisition of 10.0% of Migdal by Bank Leumi was finalized, with the consequent increase in the Group's controlling stake from 60.0% to about 70.0%. Subordinated debt was issued for the total sum of €2,800 million to finance the aforesaid acquisitions.

## Part A – Information on operations

The Generali Group's half-yearly report at 30 June 2006 was drawn up taking into account the IAS/IFRS issued by the IASB and endorsed by the European Union, and in accordance with Art. 81 of Rules for Issuers No. 11971/99, amended by CONSOB Resolution No. 14990 of 14 April 2005. In detail, profit and loss account and balance sheet data was presented based on IAS 34 requirements for interim financial reports.

In this half-yearly report the Generali Group prepared its consolidated financial statements and Notes according to the requirements of ISVAP Provision No. 2460 of 10 August 2006 and Consob Communication No. 6064293 of 28 July 2006. As allowed by the aforementioned Provision, the Generali Group decided to supplement its consolidated financial statements with detailed items without prejudice the clarity and to provide further details in the Notes in order to meet the IAS/IFRS requirements.

Comments about the performance in the period are mainly based on the segment information, regulated by IAS 14. In conformity with its managerial model, the Generali Group identified the following three major business segments: life, non-life and financial. Each segment shows the financial position and the performance of the companies belonging to that segment, perceived as a separate and independent business unit with respect to the other segments.

### The Generali Group

At 30 June 2006, subsidiaries consolidated line by line and associated companies valued at equity were 308, compared to 306 at 31 December 2005. In detail, the former went from 297 to 299, whereas the latter remained stable at 9.

The table listing subsidiaries consolidated line by line and associated companies valued at equity is attached to the Notes, together with the list of non-consolidated subsidiaries and other associated companies, which are considered immaterial

## Business performance

The result of the period attributable to the Group amounted to €1,403.3 million, compared to €1,139.4 million in the first half of 2005 (up 23.2%).

(€ million)	30/06/2006	30/06/2005
Net earned premiums	30,072.2	30,763.2
Net insurance benefits and claims	28,668.0	32,119.9
Net income from investments not at fair value through profit or loss	6,612.3	5,857.4
Net result from financial instruments at fair value through profit or loss	-456.4	2,774.2
Acquisition and administration costs	4,564.4	4,433.3
Interest and investment management expenses	630.0	598.7
Net other expenses	-76.9	-222.6
<b>Earnings before taxes</b>	<b>2,288.8</b>	<b>2,020.2</b>
Income taxes	546.6	631.0
<b>Consolidated result of the period</b>	<b>1,742.3</b>	<b>1,389.2</b>
<b>Result of the period attributable to minority interests</b>	<b>339.0</b>	<b>249.9</b>
<b>Result of the period attributable to the Group</b>	<b>1,403.3</b>	<b>1,139.4</b>

Net earned premiums totalled €30,072.2 million (€30,763.2 million at 30 June 2005). Of this amount, gross premiums written were €32,274.8 million (up 2.7% on equivalent terms), of which gross life premiums written reached €22,682.3 million (up 3.1%) and gross non-life ones amounted to €9,592.5 million (up 1.8%).

In the life segment, premiums related to investment contracts, which were not accounted for among premiums, amounted to €499.5 million, compared to €254.0 million in the first half of 2005 (up 96.6%).

Net insurance benefits and claims went from €32,119.9 million to €28,668.0 million. The significant decrease is attributable to changes in life insurance provisions, which were reduced as a consequence of the reduction in assets backing life insurance provisions caused by the increase in interest rates.

Acquisition and administration costs totalled €4,564.4 million (up 3.0%), of which €4,234.1 million acquisition and administration costs related to insurance business (up 1.7%). On equivalent terms, the ratio of the latter to net earned premiums decreased to 14.1% from 14.4% at 30 June 2005. The combined ratio remained almost stable at 95.9% (96.0% at 30 June 2005).

Net income from investments not at fair value through profit or loss totalled €6,612.3 million (up 12.9%). This amount resulted from the following items: €5,377.6 million dividends and interest; €313.3 million net income from investment properties (of which €48.6 million net

impairment losses and depreciation and €51.3 million net realized gains); €1,074.3 million net realized gains on available for sale financial assets; €10.0 million net realized gains on other investments; €97.2 million net impairment losses of available for sale financial assets; and €65.7 million net impairment losses of other investments.

Net result from financial instruments at fair value through profit or loss went from €2,774.2 million to €-456.4 million (of which €-276.8 million represented net expenses from financial assets and liabilities where the risk is borne by the policyholders) due to financial market trends. As already explained, this decrease was mostly offset by a similar decrease in changes in life insurance provisions.

A breakdown of result from investments is shown in the table below.

(€ million)	30/06/2006	30/06/2005
Net income from land and buildings (investment properties)	313.3	444.7
Net income from investments in subsidiaries, associated companies and joint ventures	18.1	-98.4
Net income from held to maturity investments	43.6	16.5
Net income from loans and receivables	1,047.5	791.8
Net income from available for sale financial assets	5,189.8	4,702.7
Interest and other income	4,212.6	3,899.1
Net realized gains	1,074.3	843.8
Net impairment losses	-97.2	-40.2
<b>Total net income from investments not at fair value through profit or loss</b>	<b>6,612.3</b>	<b>5,857.4</b>
Net result from financial assets and liabilities where the risk is borne by the policyholders	-276.8	1,757.0
Net result from other financial instruments at fair value through profit or loss	-179.6	1,017.2
Interest and other net income	546.6	476.2
Unrealized gains and losses	-782.8	445.9
Net realized gains	56.7	95.1
<b>Total net result from financial instruments at fair value through profit or loss</b>	<b>-456.4</b>	<b>2,774.2</b>
<b>Total</b>	<b>6,155.9</b>	<b>8,631.6</b>

Interest and investment management expenses amounted to €630.0 million (up 5.2%). Interest expense totalled €405.3 million (€365.5 million at 30 June 2005), of which €190.0 million interest expense on liabilities linked to financing activities (€183.0 million in the same period of 2005).

Net other expenses reached €76.9 million, compared to €222.6 million in the first half of 2005.

Compared to year-end 2005, total staff of consolidated Group companies increased 406 to 61,931, based on the consolidation area at 30 June 2006. A total of 12,325 employees worked in Italy and 49,606 abroad.

## Asset and financial management

### Investments

	30/06/2006		31/12/2005

Receivables from banks or customers	4,353.0		4,363.0	
Other investments	17,822.0		14,714.6	
<b>Total investments</b>	<b>308,849.2</b>	<b>100.0</b>	<b>307,417.4</b>	<b>100.0</b>

(\*) Investment fund units amounted to € 4,689.4 million (€ 4,412.9 million at 31 December 2005)

(\*\*) Investment fund units amounted to € 6,560.5 million (€ 7,300.7 million at 31 December 2005)

(\*\*\*) Investment fund units amounted to € 2,130.0 million (€ 1,504.7 million at 31 December 2005)

The breakdown of investments remained almost stable except for loans and receivables and available for sale financial assets. The weight of loans and receivables rose from 15.5% to 18.2%, whereas the weight of available for sale financial assets decreased from 71.0% to 68.2%. The increase in loans and receivables is due to new investments during the first half of the year, which are included in this financial assets category cost valued. The reduction in available for sale financial assets fair valued is mainly attributable to the decrease in the fair value of bonds.

### Net insurance provisions

(€ million)	30/06/2006	31/12/2005
<b>Non-life insurance provisions</b>	<b>25,023.9</b>	<b>24,165.3</b>
Provisions for unearned premiums	4,767.6	4,046.1
Provisions for outstanding claims	19,962.8	19,817.6
Other insurance provisions	293.6	301.5
<b>Life insurance provisions</b>	<b>253,461.7</b>	<b>250,976.2</b>
Mathematical provisions	194,819.7	188,130.1
Provisions for outstanding claims	3,566.4	3,689.8
Provisions for policies where the investment risk is borne by the policyholders	37,389.6	35,468.6
Other insurance provisions	12,948.4	12,714.5
Deferred policyholder liabilities	4,737.6	10,973.2
<b>Total</b>	<b>278,485.6</b>	<b>275,141.5</b>

The increase in net insurance provisions was influenced by the considerable decrease in deferred policyholder liabilities due to financial market trends.

### Debt

In accordance with the IAS/IFRS managerial model adopted by the Generali Group, the consolidated debt was split into two categories:

- liabilities linked to operating activities, which are all financial liabilities with a relationship to specific consolidated balance sheet items. For instance, the operating liabilities are included in this category;
- liabilities linked to financing activities, which include the remaining subordinated liabilities, bonds and other loans. For instance, the debts issued as part of the acquisition transaction of companies belong to this category.

Total debt was as follows:

(€ million)	30/06/2006	31/12/2005
Liabilities linked to operating activities	21,934.4	21,062.9
Liabilities linked to financing activities	10,159.0	7,584.9
<b>Total</b>	<b>32,093.4</b>	<b>28,647.8</b>

The increase in liabilities linked to financing activities is mainly attributable to subordinated bonds issued by Assicurazioni Generali and Generali Finance BV in June 2006 to acquire the minority interests mentioned in paragraph *The Generali Group's strategy for growth*.

### Shareholders' equity

(€ million)	30/06/2006	31/12/2005
<b>Shareholders' equity attributable to the Group</b>	<b>13,203.0</b>	<b>13,947.2</b>
Share capital and reserves	9,936.3	8,881.7
Reserve for unrealized gains and losses on available for sale financial assets	1,863.4	3,146.9
Result of the period	1,403.3	1,918.6
<b>Shareholders' equity attributable to minority interests</b>	<b>3,189.0</b>	<b>3,607.0</b>
<b>Total</b>	<b>16,392.0</b>	<b>17,554.2</b>

Shareholders' equity attributable to the Group amounted to € 13,203.0 million (€ 13,947.2 million at 31 December 2005). The reduction is attributable to the change in the reserve for unrealized gains and losses on available for sale financial assets, i.e. the balance between unrealized gains and losses on financial assets, net of life deferred policyholder liabilities and deferred taxes. The above-mentioned reserve decreased from € 3,146.9 million to € 1,863.4 million, mainly as a consequence of the reduction in net unrealized gains on bonds caused by the increase in interest rates, which also had a positive impact on the value of life portfolio.

The shares of the Parent Company held by the Parent Company or by other Group companies were € 291.2 million (€ 167.1 million at 31 December 2005). These shares were carried in reduction of the share capital and reserves attributable to the Group.

Other liabilities	4,396.8	4,766.3
<b>Total liabilities - life segment</b>	<b>277,924.0</b>	<b>274,946.7</b>

Net life premiums amounted to €22,189.8 million, of which €22,710.2 million were gross life premiums written (up 3.1% compared to 30 June 2005). In detail, gross direct premiums written reached €22,143.2 million, and accounted for 70.4% of the total direct insurance portfolio (both life and non-life segments), whereas gross premiums written of accepted reinsurance amounted to €567.0 million.

Gross premiums, and premiums of ceded reinsurance totalled €22,708.7 million and €518.8 million, respectively.

Premiums related to investment contracts, which were not accounted for among premiums, amounted to €499.5 million, compared to €254.0 million in the first half of 2005 (up 96.6%).

New business premiums totalled €13,332.7 million (up 7.3%).

The expense ratio of the life segment<sup>1</sup> remained almost stable at 9.6% (9.7% at 30 June 2005). Specifically, the ratio of acquisition costs to net premiums<sup>1</sup> was 7.6% (7.8% in the same period of 2005), and that of administration costs<sup>1</sup> was 2.0% (1.9%).

#### Insurance business trends in the main countries of the life segment

##### Italy

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	8,884.5	9,039.9
Expense ratio (%)	6.3	5.9

In **Italy**, the Generali Group's new business remained more or less stable during the first half of the year (down 0.9%), against a fall of 6.3% recorded by the market. This result bucked the trend due to a better performance compared to that of the market both of the proprietary networks (agencies up 4.4% against up 0.3%; financial advisers up 65.8% against up 3.1%) and the banking channel (down 1.2% against down 8.4%).

Total premiums underwritten in the country have fallen slightly (down 1.7%) — against the market's sharper downturn — due to the decision to reduce significantly the large-amount single premiums as a result of the decrease in the profit margins of this particular type of business. Against positive growth in single-premium income in the individual policy business, recurring premiums have fallen, due in particular to the non-contribution of annual premium contracts which have reached maturity. It should, however, be pointed out that the annual-premium component has increased by 6.4% within new business. As regards product type, linked policies have shown healthy growth (up 16.2%), in which both the index component (up 2.8%) and the unit component (up 73.3%) have played their part. The trend remained positive also for Individual Pension Plans (up 37.6%) and pension funds (up 10.5%), albeit as regards volumes that are still quite modest.

<sup>1</sup> The ratios are calculated net of consolidation adjustments

Premiums related to investment contracts amounted to € 117.7 million (€ 43.0 million at 30 June 2005).

### Germany

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written <sup>(*)</sup>	5,268.1	4,909.7
Expense ratio (%)	15.1	16.1

(\*) Gross direct premiums written include premiums drawn from the provision for profit sharing sharing, which amount to € 218.3 million at 30 June 2006 (€ 262.3 million at 30 June 2005)

In **Germany**, growth in premiums amounted to 7.3% and was due to a 48.0% rise in the new life business, which proved significantly higher than the market trend (up 29.8%). This movement can be attributed to the significant growth in single-premium contracts and the good performance of state-supported pension policies, a sector in which Generali occupies a leading position. More than 80% of portfolio customers have subscribed to the option to increase the premium with the aim of maximizing the state subsidies and new contracts have been underwritten.

The health insurance line has continued to expand, confirming the growth trend in progress for several quarters.

### France

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	5,052.7	4,925.6
Expense ratio (%)	7.0	6.3

In **France**, premiums increased by 2.6%, with a 4.1% rise in new business. The development of unit-linked products (up 56%) has been particularly significant and they now represent 33% of the savings business (24% at the end of 2005). Premiums relating to contracts underwritten via the Internet grew 80% during the period, reaching a volume equivalent to € 480 million, a little under the income figure of this distribution channel for the whole of 2005.

Premiums related to investment contracts amounted to € 30.0 million (€ 21.7 million at 30 June 2005).

### Spain

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	569.5	536.4
Expense ratio (%)	4.8	4.7

In **Spain**, premiums recorded 6.2% growth. Mention should be made of the steady increase in individual contracts, driven by recurring and high-return products, such as risk policies. Capitalization financial products and unit-linked single premium policies — whose success has been due to the launch of new products featuring high flexibility in the investments — have recorded sustained growth. Both the agency channel and the bancassurance channel have contributed to the achievement of these results. As far as group policies are concerned, the risk covers have recorded positive growth, whilst single-premium saving policies have remained at the same levels of the corresponding period in the previous year.

### Austria

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	455.3	386.9
Expense ratio (%)	18.4	18.9

In **Austria**, the increase in premiums (up 17.7%) was significantly higher than the market trend, thanks to the sharp increase in new business (up 21.8%) due primarily to the linked policies. This result was supported by the major expansion (up 66%) in single-premium contracts and the growth in recurring premiums. This was mainly attributable to the sale of an index-linked product with a capital guarantee clause and maintenance of the yield threshold reached, introduced by the Group into the market at the end of 2005.

### Israel

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	424.2	404.3
Expense ratio (%)	17.0	17.1

In **Israel**, the increase in premiums compared well against the same period in 2005 (up 5.0%), sustained by a 10.5% growth in new business. The greatest contribution was provided by the supplementary pension plans sector, which recorded accelerated growth in the latter part of the six-month period.

### Switzerland

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	385.9	383.2
Expense ratio (%)	19.4	20.9

In **Switzerland**, premiums increased by 1.7% thanks to the good performance of the new issues targeted at individual unit-linked saving products, both recurring and single premium.

Premiums related to investment contracts amounted to €39.6 million (€10.3 million at 30 June 2005).

#### Central and Eastern Europe

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	200.8	151.3
Expense ratio (%)	24.9	24.1

Data includes premiums and underwriting expenses related to investment contracts

In **Central and Eastern Europe**, premiums rose by 34.8%, boosted to a significant degree by the good performance of unit-linked products and, particularly in Poland and Slovakia, also of pension funds. Mention should be made in particular of the growth recorded in Poland, where single-premium policies received a special boost from the banking channel, and in Hungary, where new business levels remained very high, especially as regards linked products. In Slovakia, income grew at steady rates despite the slowdown in business generated through the banking channel following the exceptional growth in the previous year.

In **Asia**, total turnover amounted to € 310.7 million. In China, premiums reached €291.0 million which established Generali China as one of the leading overseas-owned companies operating in the market.

In **Latin America**, premiums totalled €270.7 million (up 45.0%). In Mexico, the growth can be attributed above all to a new single-premium savings product, which has been marketed from this year through the banking network. The period also registered growth in the pension fund segment and the permanent disability annuity sector; in the latter the Group ranks second in the Mexican market, despite the strong competition. In Argentina, premiums, concentrated in the pure risk group policy sector, recorded a rise of 3.8%.

## Asset and financial management of the life segment

### Net income from investments of the life segment

(€ million)	30/06/2006	30/06/2005
Net income from land and buildings (investment properties)	107.3	261.7
Net income from investments in subsidiaries, associated companies and joint ventures	315.6	15.4
Net income from held to maturity investments	41.4	13.4
Net income from loans and receivables	791.7	700.1
Net income from available for sale financial assets	4,447.9	4,113.7
Interest and other income	3,748.6	3,464.6
Net realized gains	751.1	680.2
Net impairment losses	-51.8	-31.1
<b>Total net income from investments not at fair value through profit or loss</b>	<b>5,703.8</b>	<b>5,104.4</b>
Net result from financial assets and liabilities where the risk is borne by the policyholders	-276.8	1,757.0
Net result from other financial instruments at fair value through profit or loss	-263.2	880.0
Interest and other net income	469.3	409.6
Unrealized gains and losses	-759.6	394.9
Net realized gains	27.1	75.5
<b>Total net result from financial instruments at fair value through profit or loss</b>	<b>-540.0</b>	<b>2,636.9</b>
<b>Total net income from investments - life segment</b>	<b>5,163.7</b>	<b>7,741.3</b>

Net income from investments not at fair value through profit or loss amounted to € 5,703.8 million (up 11.7%), and the increase mainly came from interest income on bonds.

Net result from financial instruments at fair value through profit or loss went from € 2,636.9 million to € -540.0 million. The significant decrease is mainly attributable to net unrealized losses both on financial assets and liabilities where the risk is borne by the policyholders and on backing life insurance provisions. Therefore, net negative result from above-mentioned financial instruments was offset by a reduction in life insurance provisions, as previously explained.

With reference to investment properties, net realized gains amounted to € 5.5 million and net impairment losses and depreciation were € 10.2 million.

## Investments of the life segment

(\*) Investment fund units amounted to € 4,098.1 million (€ 3,857.7 million at 31 December 2005)

(\*\*) Investment fund units amounted to € 5,869.7 million (€ 6,549.7 million at 31 December 2005)

(\*\*\*) Investment fund units amounted to € 1,690.0 million (€ 979.9 million at 31 December 2005)

During the first half of the year the Group's investment policy was designed to keep the weight of the equities unchanged, and so activity was limited to a modest level of sector rotation involving primarily investments in companies in the financial sector or sectors particularly sensitive to changes in the economic cycle. The rate risk on bonds was further reduced, mainly through disposals of inflation-linked securities which, in the current context of gradually rising interest rates and substantially stable inflation, are less advantageous. The credit risk on corporate bonds was reduced by underwriting issues with a high rating on the primary market and lightening the weight of the telecommunications and subordinated bond bank sector.

At 30 June 2006, investments of the life segment amounted to €232,146.1 million, showing an increase of 0.1% compared to 31 December 2005.

Investments back to policies where the risk is borne by the policyholders were €42,733.3 million (€41,187.5 million at 31 December 2005), bringing total investments to €274,879.4 million (€273,061.4 million at 31 December 2005).

#### Net insurance provisions of the life segment

Net non-life earned premiums amounted to €7,898.7 million, of which €9,629.8 million were gross non-life premiums written (up 1.8% compared to 30 June 2005). In detail, gross direct premiums written — on which the Group's business is focused — reached €9,312.6 million, and accounted for 29.6% of the total direct insurance portfolio (both life and non-life segments). Gross premiums written of accepted reinsurance were €317.2 million. Gross earned premiums, and earned premiums of ceded reinsurance totalled €8,763.3 million and €864.3 million, respectively.

The loss ratio<sup>2</sup> — net of ceded reinsurance — went to 69.2% from 68.6% at 30 June 2005. The expense ratio<sup>2</sup> was 26.7% (27.4% at 30 June 2005). Specifically, the ratio of acquisition costs to net earned premiums<sup>2</sup> increased from 20.3% to 20.6%, whereas that of administration costs<sup>2</sup> decreased from 7.1% to 6.1%. Therefore, the combined ratio<sup>2</sup> slightly improved from 96.0 % to 95.9%.

#### Insurance business trends in the main countries of the non-life segment\*

##### Italy

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	2,710.5	2,680.5
Loss ratio (%)	76.1	74.7
Expense ratio (%)	22.7	22.3
Combined ratio (%)	98.7	96.9

Premiums underwritten in **Italy** recorded growth of 1.9% on equivalent terms, sustained by the healthy expansion of the non-motor lines of business, particularly accident and health. The motor third-party liability insurance has regained its positive performance, albeit still on a modest level. This is despite the fact that the effects of the restructuring of the motor third-party liability portfolio currently underway in Assitalia are still being felt, although to a lesser extent. Assitalia's premium volume returned to positive performance, due to the growth achieved in the elementary lines of business. Noteworthy is the sharp increase (up 12.5%) recorded by the direct channels (telephone and Internet).

The loss ratio increased due to several major claims, during the six-month period.

<sup>2</sup> The ratios are calculated net of consolidation adjustments

\* At 30 June 2005, this was made consistent considering the data, all of which relates to the French territory for the companies reporting to Europ Assistance

## Germany

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	1,831.6	1,850.3
Loss ratio (%)	63.7	62.6
Expense ratio (%)	31.3	32.2
Combined ratio (%)	95.0	94.8

In **Germany**, the fall in premiums (down 1.0%) can be attributed to the motor sector, in which strong competition continues at market level as regards rates. In this sector, the Group has adopted a highly selective rates policy and has applied lower discounts than its competitors, thus achieving a better performance compared to the market trend. The other lines of business have recorded good growth.

## France

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	1,748.1	1,732.4
Loss ratio (%)	70.7	74.1
Expense ratio (%)	26.3	26.0
Combined ratio (%)	97.0	100.0

In **France**, in a very difficult market context due to the strong competitive pressures, the performance of premiums (up 0.9%) has been determined by stability in the motor, transport and accident and health lines of business, countered by a slight drop in the personal lines and a contraction in the corporate sector.

## Spain

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	799.0	764.9
Loss ratio (%)	61.8	62.8
Expense ratio (%)	23.8	24.2
Combined ratio (%)	85.6	87.0

In **Spain**, premiums grew (up 4.5%) at a satisfactory rate in all the lines of business, both in individual risks and in corporate lines of business. The motor segment recorded modest growth overall, with individual motor risks affected by the strong climate of competition. Mention should be made of the growth achieved in the accident and health lines of business and the multi-risk segment, both in the retail sector — where the Group is ranked second — and the small and medium-sized enterprise area.

## Austria

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	722.7	704.3
Loss ratio (%)	66.7	66.9
Expense ratio (%)	31.2	29.9
Combined ratio (%)	97.9	96.8

In **Austria**, the rise in premiums (up 2.6%) can be attributed to growth both in the personal and corporate lines of business, especially in the general third-party liability sector. There was a rise of premiums in the motor sector as a result of the good performance of the individual segment.

### Central and Eastern Europe

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	336.6	304.1
Loss ratio (%)	67.9	63.2
Expense ratio (%)	25.5	26.9
Combined ratio (%)	93.4	90.1

In **Central and Eastern Europe**, premiums rose overall by 9.9%, due mainly to the growth in the motor sector and the good results achieved in the corporate sector, despite the sharp rise in competition that has occurred in the latter at market level. Worthy of note is the growth recorded in Slovakia (up 33.4%), attributable to the performance of the motor sector, whilst in Poland premiums (down 23.0%) once again felt the negative effects of the restructuring of the motor portfolio started the previous year, which has resulted in a significant improvement in the loss ratio.

### Switzerland

(in milioni di euro)	30.06.2006	30.06.2005
Premi diretti lordi emessi	321.9	310.2
Loss ratio (%)	73.0	73.2
Expense ratio (%)	24.3	20.4
Combined ratio (%)	97.3	93.6

In **Switzerland**, growth in premiums (up 4.8%) was more pronounced in the non-motor lines of business (up 6.1%), but was also good in the motor sector (up 4.1%). The rise in the expense ratio is due to the general costs incurred on concentrating the structures currently distributed between Geneva and Lausanne in the Nyon central office, with the cost benefits forecast from 2007.

### Israel

(€ million)	30/06/2006	30/06/2005
Gross direct premiums written	179.9	175.2
Loss ratio (%)	68.9	68.3
Expense ratio (%)	30.0	27.7
Combined ratio (%)	98.9	96.0

In **Israel**, premiums rose by 2.8%, an improvement on the corresponding period in the previous year. Income in the motor sector rose only marginally, despite the increase in the number of vehicles insured, due to the reduction in the average premium as a result of pressures on rates. On the other hand, the third-party liability sector enjoyed good growth, due to the signing of several new contracts with companies and professional associations, as did the individual health insurance line of business.

In **Latin America**, premiums totalled €278.2 million (up 16.9%). In Mexico, the 14.7% growth can be attributed mainly to the motor segment. The health insurance also contributed to the expansion in income. The growth (up 14.2%) in Argentina as well is almost entirely attributable to the motor sector. In particular, individual motor policy premiums have risen significantly, due to the increase in the number of vehicles insured and above all to the increase in the average premium. This is the result of the commercial policy aimed at customers interested in more extensive cover, both in terms of guarantees and sums insured.

## Asset and financial management of the non-life segment

### Net income from investments of the non-life segment

(€ million)	30/06/2006	30/06/2005
Net income from land and buildings (investment properties)	205.9	187.2
Net income from investments in subsidiaries, associated companies and joint ventures	343.7	179.1
Net income from held to maturity investments	2.3	3.1
Net income from loans and receivables	130.2	83.0
Net income from available for sale financial assets	675.3	552.8
Interest and other income	434.8	405.4
Net realized gains	285.9	156.5
Net impairment losses	-45.3	-9.1
<b>Total net income from investments not at fair value through profit or loss</b>	<b>1,357.4</b>	<b>1,005.3</b>
Interest and other net income	35.7	39.4
Unrealized gains and losses	-21.6	53.4
Net realized gains	18.4	-2.1
<b>Total net income from financial instruments at fair value through profit or loss</b>	<b>32.4</b>	<b>90.8</b>
<b>Total net income from investments - non-life segment</b>	<b>1,389.8</b>	<b>1,096.1</b>

Net income from investments not at fair value through profit or loss was €1,357.4 million (up 35.0%), and the main contribution came from dividends and interest income on bonds.

With reference to investment properties, net realized gains amounted to €56.8 million, and net impairment losses and depreciation were €38.4 million.

## Investments of the non-life segment

<b>Total investments - non-life segment</b>	<b>42,729.2</b>	<b>100.0</b>	<b>41,980.6</b>	<b>100.0</b>

(\*) Investment fund units amounted to € 588.6 million (€ 552.6 million at 31 December 2005)

(\*\*) Investment fund units amounted to € 454.8 million (€ 496.6 million at 31 December 2005)

(\*\*\*) Investment fund units amounted to € 421.6 million (€ 369.2 million at 31 December 2005)

In the non-life segment, the Group's investment policy focused, initially, on increasing the weight of equities to reach the peak by mid-April, and then gradually reducing it so as to benefit from the position reached. The interest rate risk on bonds remained unaltered, whereas the credit risk was reduced.

At 30 June 2006, investments of the non-life segment amounted to € 42,729.2 million, increasing by 1.8% compared to 31 December 2005.

The financial segment showed €277.1 million net commissions for financial services rendered and received (up 30.4%).

### Business trends in the main countries of the financial segment

At 30 June 2006, assets managed by Group banks and asset management companies totalled €316,310.7 million (up 13.3%).

Asset management accounts for most of the Group's financial activity and concentrates on the management of the Group companies' financial instruments. The largest units in this field are the Swiss bank BSI and Banca Generali.

In **Switzerland**, BSI benefited from the positive trend in the financial markets both in lending and in result of the period. Income reached €215.5 million (up 36.0% compared to the first half of 2005), of which €112.3 million represented commissions. Operating expenses amounted to €131.8 million or 61.1% of income, sharply decreasing compared to 68.3% in the same period of 2005. The result of the period of BSI came to €57.9 million, increasing by 39.3% compared to the corresponding period of 2005. At 30 June 2006, assets under management amounted to €34,144.5 million, with an increase of 2.5% compared to 31 December 2005.

Within the expansion programme into the asset management sector, in June BSI acquired the Banca Unione di Credito (BUC) from the Fiat group in accordance with the Generali Group mission. Thanks to this transaction, BSI enhances its position in its main reference market, thus reinforcing its presence in Canton Ticino and in the most important Elvetic financial markets, specifically in Zurich and Ginevre.

In **Italy**, Banca Generali's net inflow in the first half of 2006 rose to €1,385 million, with an increase of 38% compared to the same period of 2005. Income increased by 63% compared to the first half of 2005. Specifically, fee and commission income showed very positive growth of 39% and also net interest income expanded by 63%. The ratio of operating expenses to income significantly improved to 67.3% from 81.1% at the end of June 2005. At 30 June 2006, assets under management totalled € 26,517 million, with an increase of 6.5% compared to 31 December 2005. At the end of the half of 2006, Banca Generali's distribution network consisted of 4,750 financial advisors, of whom 2,813 also belonged to the networks of agencies of the Group's Italian companies.

As from the beginning of the year, the new asset management company controlled by Banca Generali, BG Sgr — into which the Generali Asset Management business unit responsible for running investment funds and asset management was incorporated — became fully operational.

The founding of BG Sgr is part of the concentration process of the Generali Group's Italian asset management for retail customers in Banca Generali.

In July, Banca Generali asked to Consob and Italian Stock Exchange to be listed in Mercato Telematico Azionario.

## Asset and financial management of the financial segment

### Net income from investments of the financial segment

(€ million)	30/06/2006	30/06/2005
Net income from land and buildings (investment properties)	0.7	0.4
Net income from investments in subsidiaries, associated companies and joint ventures	5.1	3.1
Net income from held to maturity investments	0.0	0.0
Net income from loans and receivables	208.9	185.3
Net income from available for sale financial assets	66.8	37.3
Interest and other income	29.4	30.2
Net realized gains	37.3	7.1
Net impairment losses	0.0	0.0
<b>Total net income from investments not at fair value through profit or loss</b>	<b>281.5</b>	<b>226.1</b>

(\*\*\*) Investment fund units amounted to € 18.4 million (€ 155.6 million at 31 December 2005)

At 30 June 2006, investments of the financial segment amounted to €14,446.6 million, with a decrease of 3.3% compared to 31 December 2005.

## Significant events after 30 June 2006

In **Italy**, the contract for the acquisition of the Toro Assicurazioni group was signed in July. The transaction is currently being examined by the competent authorities.

After the end of the six-month period, the Group has continued its international development strategy pursued in recent years. This has led to a gradual expansion not only in major Asian markets but also in the markets of Central-Eastern Europe, where the Generali companies currently operate in ten countries, with about 4 million customers.

Within this framework, an agreement was signed in July in **Bulgaria** for the acquisition of 51% of the Orel-G group, which operates in the Bulgarian market through three separate companies: Orel AD operating in the non-life sector, Orel Life AD operating in the life sector and Zatrila AD, the country's leading company in the health insurance sector. In addition to the traditional sales channels, the Orel-G group also uses bancassurance agreements above all for the distribution of life products.

## Conclusions and outlook for operations

For 2006 the forecasts indicate that the American economy will continue to develop at sustained rates (+3.4%), despite the persistence of factors of imbalance — such as high public and trade deficits — which are risk factors particularly for consumer spending. In Europe, the improved economic situation recorded in the first months of the year should consolidate, with growth in EU countries estimated to be slightly over 2%. In Italy, the growth trend is expected to be more modest (1.4%).

In the first months after the end of the half-year, the price of oil has remained at historically very high levels, albeit with fluctuations linked to the lessening/heightening of tensions in the Middle East. To prevent any increase in inflation, which for the moment is still under control, both the Federal Reserve and the European Central Bank have adjusted the key rates by a further 0.25 percentage points, increasing them to 5.25% and 3% respectively. The American rate rise cycle is believed to be drawing to a close; this belief has resulted in a fall in the yield of the ten-year government bonds to 4.8%. The European bond market has followed the same trend, with ten-year government bonds currently yielding 3.79%. This has also benefited the equity markets, which have risen further since 30 June, with Europe performing better than the United States. The euro/dollar exchange rate has appreciated further after the end of the six-month period, albeit with a degree of fluctuation.

Against this backdrop, which should characterize the last months of the year as well, and in light of the technical performance recorded both in the life and non-life lines of business in the first half-year and the actions taken by the Group under the 2006-2008 Business Plan, results

are expected to be in line with the targets set, if no events of an exceptional nature or significant changes in the financial markets take place.

## Information on Parent Company

Interim disclosures and financial statements for the Parent Company were drawn up in accordance with local GAAP.

Profits totalled €1,069.5 million, compared to €560.1 million in the first half of 2005.

(\*) Including changes to life business mathematical reserves and outstanding claims

(\*\*) Including net income on investments, net income on realisation, value adjustments and net profits on internal fund investments

As the result of agreements between ceding companies — on which details of reinsurance treaties are promptly provided as to prepare financial statements — the Parent Company decided not to defer accepted and retroceded business to the next period, thus influencing the result of the period for a total amount of €110.9 million. Therefore, insurance items include reinsurance activity of the first half of 2006 and that of the year 2005.

Effective as of 1 January 2006, the transport insurance business of the Italian subsidiary UMS Generali Marine was concentrated in the Parent Company. In the first half of 2006, its premiums and net underwriting result amounted to € 80.3 million and € 0.8 million, respectively.

From now on, the changes in percentage terms are presented on equivalent terms, i.e. on equivalent exchange rates and taking into consideration of the above-mentioned effects.

The underwriting balance, only including technical interest attributable to life lines of business, reported a profit of €244.1 million.

Non-life net earned premiums amounted to €1,592.0 million (+1.5%); direct premium income in Italy totalled €1,470.9 million (+ 2.6%), whereas foreign direct premium income amounted to €121.1 million, showing a decrease of 10.5%.

Premium income from reinsurance business totalled €520.7 million, increasing by 0.7%.

Direct life premium income, underwritten abroad, totalled €54.2 million, decreasing by 2.2%. Premium income from reinsurance business amounted to €2,379.8 million, showing a decrease of 6.7%.

The expense ratio was 21.5% (22.8% in 2005); specifically, the ratio of acquisition costs to net premiums improved to 17.1% from 17.5% of the first half of 2005. The ratio of administration costs to net premiums was 4.4% (5.3% in 2005).

In the non-life segment, the loss ratio — net of reinsurance — was 75.5% (71.9% in 2005). The combined ratio was 99.6% (97.3% in 2005) or 97.3% if only direct business underwritten in Italy is considered.

Insurance provisions, net of reinsurance, amounted to €17,147.5 million (€19,179.6 million at 31 December 2005), of which €6,716.3 million in the non-life segment and €10,431.2 million in the life segment; investments amounted to € 31,134.6 million (€ 32,879.9 million at 31 December 2005). The decrease in insurance provisions and in investments is attributable to reinsurance business as a consequence of the closing of an important treaty with a French subsidiary.

The total current financial and asset management results totalled €1,618.5 million, of which € 1,014.0 million were reported in the technical accounts.

Net investment return amounted to €1,581.9 million (+27.2% on equivalent terms); the increase can largely be attributed to the higher volume of dividends paid out by Group companies.

Securities and other financial investments generated €20.3 million profits, compared to €32.9 million in the first half of 2005; overall net write downs amounted to €3.7 million (€-37.8 million in the first half of 2005).

Interest charges on bond issued and loans totalled €142.1 million (€ 145.5 million in the first half of 2005).

Adjustment to the new par of exchange of asset and liability items expressed in currency other than the euro, generated a loss of €13.8 million (€7.0 million of proceeds in the first half of 2005).

Realized capital gains on durable assets amounted to €172.6 million (€12.2 million in the first half of 2005). Of this amount €170.5 million represent realized gains on BNL shares as a consequence of the mandatory public purchase offering launched by BNP Paribas.

Taxes for the period reported a negative balance of 4.2 million euros.

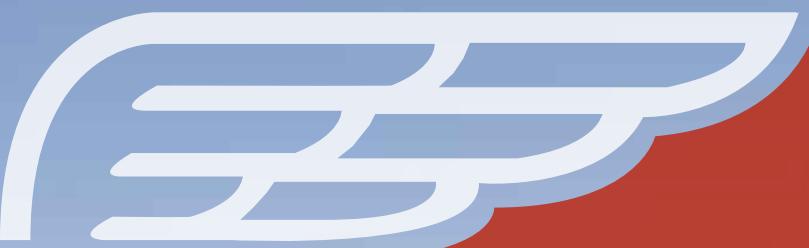

At 30 June 2006, the headcount in service in the Parent Company reached 3,439 (3,308 at the end of 2005), of which 2,559 in Italy and 783 abroad.

Venice, 7 September 2006

(\*) Cash and cash equivalents at the beginning of the period include cash and cash equivalents (€5,730.7 million), liabilities to banks payables on demand (€78.4 million) and bank overdrafts (€269.6 million)

(\*\*) Cash and cash equivalents at the end of the period include cash and cash equivalents (€6,969.5 million), liabilities to banks payables on demand (€84.6 million) and bank overdrafts (€264.9 million)

NOTES

## Part C – General criteria for preparing the financial statements and valuation criteria

The Generali Group's half-yearly report at 30 June 2006 was drawn up taking into account the IAS/IFRS issued by the IASB and endorsed by the European Union, and in accordance with Art. 81 of Rules for Issuers No. 11971/99, amended by Consob Resolution No. 14990 of 14 April 2005. In detail, profit and loss account and balance sheet data was presented based on IAS 34 requirements for interim financial reports.

The consolidated half-yearly report includes consolidated financial statements and Notes as required by ISVAP Provision No. 2460 of 10 August 2006 and Consob Communication No. 6064293 of 28 July 2006.

Specifically, the aforesaid Provision does not require the consolidated financial statements to be changed or supplemented compared to the consolidated financial statements at 31 December 2005. However, as allowed by the above-mentioned Provision, the Generali Group decided to supplement its consolidated financial statements with detailed items without prejudice the clarity and to provide further details in the Notes based on IAS 34.

Comparative figures were restated compared to those presented in the half-yearly report at 30 June 2005 in order to harmonize them with data in the half-yearly report. Reclassifications are in line with those explained in the introduction of Part I of the Notes at 31 December 2005.

The Notes, which are mandatory as established by the Italian Regulator, are presented in Part G of this report.

Consolidation methods and valuation criteria adopted for preparing this half-yearly report are consistent with those reported in the consolidated financial statements at 31 December 2005, except for what follows.

Some figures were reasonably estimated as to safeguard the consistent application of the principle. Therefore, estimation does not invalidate the reliability of the interim report.

In detail, in order to supplement consolidation methods explained in the previous financial statements, minority interests acquired in a business combination involving subsidiaries already included in the consolidation area using the line-by-line method are accounted for in goodwill as the difference between the cost of the business combination plus accessory charges and the shareholders' equity attributable to minority interests.

With reference to valuation criteria, the Parent Company decided not to defer accepted and retroceded business to the next period. Therefore, the balance of reinsurance deferrals at 31 December 2005 was entirely charged to profit and loss account. The consolidated half-yearly report at 30 June 2006 thus reflects the estimates of these transactions. The above-mentioned

change has no material impact on the Group financial position and performance due to a limited extra-Group accepted and retroceded business.

Valuation criteria used for derivatives in the annual report were supplemented introducing the hedge accounting method. The cash flow hedge on interest expense rates and GBP/EUR exchange rate was accounted for following the issue of new subordinated liabilities.

Therefore, the unrealized gains or losses on hedging derivatives are recognized in the appropriate shareholders' equity reserve and reversed to the profit and loss account when the gains or losses on hedged items are recognized.

Accounting principles adopted for drawing up this consolidated half-yearly report and the contents of the items in the financial statements are detailed in Part C and Part D in the consolidated annual report.

This half-yearly report is drawn up in euros (the functional currency used by the Group), and the amounts are given in millions, rounded to the first digit.

The exchange rates used for the translation of the main foreign currencies for the Generali Group into euros are detailed in the following table. The balance sheet items of the financial statements denominated in foreign currencies were translated into euros based on the exchange rates at the end of the period. The profit and loss account items were instead translated based on the average exchange rates of the period.

#### Exchange rates

Currency	Exchange rate at the end of the period (€)	
	30/06/2006	31/12/2005
US dollar	1.2787	1.1796
Swiss franc	1.5664	1.5546
Israeli shekel	5.6731	5.4304
Argentine peso	3.9431	3.5696

Currency	Average exchange rate (€)	
	30/06/2006	30/06/2005
US dollar	1.2291	1.2855
Swiss franc	1.5614	1.5466
Israeli shekel	5.6388	5.6340
Argentine peso	3.7675	3.7431

## Part D - Notes on the balance sheet

### Balance sheet – Assets

#### 1 – Intangible assets

(€ million)	30/06/2006	31/12/2005
<b>Goodwill</b>	<b>2,732.2</b>	<b>2,085.2</b>
<b>Other intangible assets</b>	<b>840.0</b>	<b>824.3</b>
Purchased goodwill	437.4	438.3
Software	389.7	368.3
Purchased insurance portfolios	12.2	14.5
Other intangible assets	0.7	3.2
<b>Total</b>	<b>3,572.2</b>	<b>2,909.4</b>

The €647.0 million activation of the goodwill in the period represents both the public purchase offering for the acquisition of minority interests in AMB Generali Holding (€377.0 million goodwill) and in Generali (Schweiz) Holding (€186.7 million) and the acquisition of minority interests in Migdal Insurance and Financial Holding Ltd by Bank Leumi (€83.3 million).

#### 2 – Tangible assets

The € 538.5 million other tangible assets mainly consist of furniture, fittings and office equipment, which amount to € 458.6 million, net of any accumulated depreciation and impairment losses.

### 3 – Amounts ceded to reinsurers from insurance provisions

(€ million)	30/06/2006	31/12/2005
<b>Non-life amounts ceded to reinsurers from insurance provisions<sup>(*)</sup></b>	<b>3,842.9</b>	<b>3,836.3</b>
<b>Life amounts ceded to reinsurers from insurance provisions<sup>(*)</sup></b>	<b>1,379.5</b>	<b>1,412.7</b>
Provisions for policies where the investment risk is borne by the policyholders and provisions for pension funds	2.4	12.6
Mathematical provisions and other insurance provisions	1,377.1	1,400.1
<b>Total</b>	<b>5,222.4</b>	<b>5,249.0</b>

(\*) After the elimination of intra-group transactions between segments

## Parte F - Other information

### 1 – Information on employees

#### Number of employees

	30/06/2006
Managers	2,777
Employees	40,126
Sales attendant	18,942
Others	86
<b>Total</b>	<b>61,931</b>

### 2 – Earnings per share

	30.06.2006	30.06.2005
Result of the period (€ million)	1,403.3	1,139.4
Weighted average number of ordinary shares outstanding	1,268,732,784.5	1,266,938,996.0
Basic earnings per share (€)	1.1	0.9
	30.06.2006	30.06.2005
Result of the period (€ million)	1,403.3	1,139.4
Weighted average number of ordinary shares outstanding	1,268,732,784.5	1,266,938,996.0
Adjustments for stock option	2,495,481.2	793,989.0
Weighted average number of ordinary shares outstanding for diluted earnings per share	1,271,228,265.7	1,267,732,985.0
Diluted earnings per share (€)	1.1	0.9

### 3 – Related party disclosure

With regard to transactions with related parties, the main intra-group activities, conducted at market prices or at cost, were undertaken through relations of reinsurance and co-insurance, administration and management of securities and real estates, leasing, loans and guarantees, IT and administrative services, personnel secondment, and claim settlement.

These services substantially aim at guaranteeing the streamlining of operational functions, greater economies in overall management, appropriate levels of service and an exploitation of Group-wide synergies.

The most significant financial and performance transactions with the related parties are shown below.

(€ million)	Subsidiaries	Associated companies	Other related parties
Loans	244.3	95.0	912.3
Loans issued	35.8	-	571.3
Interest income	4.1	1.6	11.7
Interest expense	0.3	-	8.7

#### 4 – Significant non recurring events and transactions

As already explained in this report, during the first half of 2006 two public purchase offerings were launched to acquire the minority interests of AMB Generali Holding and Generali (Schweiz) Holding. Through the acquisition of AMB Generali Holding, for a total amount of €747.4 million, the Group share increased from 70.88% to 85.05%. The goodwill arising out from this transaction was €377.0 million. Through the acquisition of (Schweiz) Holding, for a total amount of € 192.6 million, the Group share increased from 65.78% to 94.91%. The goodwill arising out from this transaction was €186.7 million.

#### 5 – Atypical or unusual transactions

During the first half of 2006 there were no atypical or unusual transactions, which — because of materiality, nature of counterparties, subject of the transaction, transfer price determination method and occurrence close to the balance sheet date — might give raise to any doubts about the correctness and exhaustiveness of this report, conflict of interests, preservation of equity and protection of minorities.
