Tombow ABT DUAL BRUSH PEN

The ABT Dual Brush Pen has two tips for maximum creativity. The fine tip (line width: approx. 0.8 mm) is mainly used when drawing exact lines. The second tip is a flexible brush tip made of nylon. Its line width varies depending on the pressure applied to up to approx. 10 mm. Available in 107 vivid colors + blender. Water-based colors can be mixed together and used as watercolors. Perfect for hand lettering, watercoloring, bullet journaling, stamping and much more. Colors are not light-resistant.

Blending Kit

The 4-in-1 Blending Kit consists of practical tools to blend water-based colors. 1. Colorless ABT Blender Pen with two tips. Fine tip for exact color gradients; wide brush tip for extensive blending. To clean the tips simply wipe them several times on a clean paper. 2. Fillable, compact Blending Mister to spray water onto the blending palette or directly onto the paper. 3. Washable, handy blending palette. 4. Instructions with practical tips concerning the blending of colors. The Blending Kit is especially suitable for drawing with ABT Dual Brush Pens and of course also for all other, water-based dye inks.

Blending Mister

The Blending Mister is a compact bottle (empty) to fill with water. It is a practical tool to blend colors and to create color transitions and gradients. Simply sprinkle paper with water and then apply color to it or mix colors on a blending palette by sprinkling with water. The Blending Mister is especially suitable when drawing with ABT Dual Brush Pens and of course also for all other, water-based dye inks. Capacity: 8 ml.

Water Brush

The fillable Water Brush is a handy tool for watercoloring techniques. By squeezing the barrel the flow of water is regulated. The Water Brush has a protective cap and is perfect for on the move. Ideal for use with Tombow ABT Dual Brush Pens or other water-based products. The Water Brush is suitable for watercoloring, brush lettering, sketching and much more. Easy to refill by unscrewing the barrel. The tip can easily be cleaned with water. The Water Brush is available with three differently shaped tips.

Tombow ABT PRO

The ABT PRO is an alcohol-based marker with a slim case and two tips: a broad chisel tip and a fine nylon brush tip, which is particularly flexible and dynamic. When no more pressure is applied to the tip, it returns to its original shape. The paint runs slowly, is well controllable and allows precise drawing. The alcohol-based ink provides a strong, streak-free coverage by repeated application of paint. By layering the ink effects, depth and shadows can be created. The ABT PRO is ideal for illustrations, manga, sketching and many other areas. Available in 107 colors and blender. Note: Store pens horizontally; close caps tightly.

MONO edge

MONO edge is a creative highlighter with a broad chisel tip (approx. 3.8 mm) and an extra-fine fineliner tip (0.5 mm). The six vibrant colors are perfect for color-coding and decorating planners, journals, notebooks and much more. The fast drying ink does not smear or bleed through most papers. The tips have a unique design with a protective plastic sleeve that keeps metal rulers and stencils clean. Recycling ratio over 50% of gross weight.

Fudenosuke

The Fudenosuke brush pen has an elastic brush tip and is especially suited for calligraphy, sketching and outlines. The line width varies from thin to wide depending on the pressure exerted on the tip. Available with two different tips: Hard tip, which is easier to control and particularly suitable for delicate letterings and soft tip for larger letterings such as place cards. Fudenosuke is available in various versions and colors: black with soft tip, black with hard tip, twin version with two soft tips (black and gray), nine basic colors with hard tip and six neon colors with hard tip. Water-based ink with color pigments.

MONO twin

The MONO twin marker is especially suited for marking and labeling in daily life as well as for outlines of illustrations and other drawings. It writes on different materials like glass, stone or wood. The MONO twin has two tips: one round tip (approx. 0.8 mm) and one fine tip (approx. 0.4 mm). The ink is oil-based, water-proof and dries quickly. It can be painted over immediately without smearing. Perfect in combination with the bright colors of the Tombow ABT Dual Brush Pens. Recycling ratio over 60% of gross weight.

IROJITEN

The IROJITEN are high-quality, handmade colored pencils. „IROJITEN“ is the Japanese word for „dictionary of colors“ – which embodies how these high-quality pens are presented. The IROJITEN are available in three different sets of 30 colors each (assorted in three individual boxes of ten pencils per box). Together, the three sets create the impression of a „dictionary of colors“ – the perfect gift for collectors of high-quality art material.

Lettering Set

The lettering sets contain all materials needed to begin with lettering and for advanced lettering respectively. Both sets include an instruction guide with tips and tricks for each lettering level. The sets and instructions are put together and designed by lettering artist „Frau Hölle“. The core of both sets is the Tombow ABT Dual Brush Pen with flexible brush tip and fine bullet tip in various colors. As complementary products both sets contain: MONO 100 pencil (degree of hardness: 3H) for sketching guidelines, brush pen Fudenosuke with a fine brush tip, permanent black marker MONO twin for outlines and eraser MONO XS for clean and exact erasing of guidelines.

GLUING

MONO multi

The MONO multi is a liquid glue with two tips: fine tip for precise gluing; soft silicone tip for smooth gluing of large areas. It allows two ways of gluing: permanent and repositionable. Permanent gluing: apply glue, position, let dry. Repositionable gluing: apply glue, let dry, position. The white glue of MONO multi enables strong and clean gluing of paper, cardboard, photos and many other crafting materials such as wood, cork, glass, glitter, plastic and aluminum. Acid-free and photo-safe. Content: 25 g.

WARNING
 May cause an allergic skin reaction.
 IF ON SKIN: Wash with plenty of water.
 If skin irritation or rash occurs: Get medical advice.

*Sand erasers do not erase graphite from the paper. Instead the micro sand particles scratch finest layers from the sheet of paper. Possible for ink or ballpoint pen or printer.

MONO zero

The innovative eraser MONO zero is an essential utensil for all professional or recreational use that requires pinpoint erasing. MONO zero is available with two differently formed tips for precise erasing: Round tip in 2.3 mm diameter and rectangular tip in 2.5 x 5 mm. The slim casing is available in different colors and materials. It has a push mechanism which adjusts the eraser precisely by 0.7 mm. The long sturdy and slim metal tip protects the eraser. Refillable. Recycling ratio over 60% (EH-KUSxx) / 70% (EH-KURxx) of gross weight. Awarded with the iF product design award 2010 and the red dot design award 2010 (EH-KURxx and EH-KUSxx) and the iF product design Award 2018 (EH-KUMSxx). PVC free and latex free. Refills: ER-KUS / ER-KUR.

MONO eraser

MONO dust CATCH

MONO dust CATCH collects its own residues: Small eraser bits stick to the eraser and do not remain on the paper due to a special polymer formula. This enables especially clean erasing and avoids that drawings are unintentionally damaged by eraser residues. Material: PVC, phthalate free and latex free. Weight: 19 g.

EN-DC

- 20
- 1 / 20 / - / 600

4 901991 652963

MONO light

MONO light enables especially soft erasing with excellent erasing results. Due to its solid consistency the eraser sticks less to the paper than standard erasers. Therefore, it can be used even with low pressure and is perfect for delicate papers. A paper sleeve protects eraser from dirt. Due to left-out edges the sleeve does not tear easily when used under pressure. Material: PVC, phthalate free and latex free. Weight: 13 g.

PE-LTS

- 1 / 40 / - / 1200

4 901991 005356

MONO eraser

MONO sand

MONO sand „erases“ even ink due to its fine micro sand particles. The micro sand particles scratch finest layers from the sheet of paper instead of erasing graphite from the paper. MONO sand enables clean erasing without smearing. A paper sleeve protects eraser from dirt. Material: natural rubber, PVC free. Weight: 13 g.

ES-512A

□ 10
 ▣ 1 / 10 / - / 1200

MONO sand & rubber

MONO sand & rubber combines two functions in one eraser. The light side erases lead, while the darker side with micro sand particles is suitable for the erasing of ink. A handy tool for school, university and workplace. Material: natural rubber. Weight: 13 g.

ES-510A

□ 10
 ▣ 1 / 10 / - / 1200

MONO smart

MONO smart is an eraser with extra-thin (5.5 mm) erasing surface. It is perfect for the exact erasing of single lines, letters or digits. MONO smart enables pinpoint and clean erasing: the ideal tool for professional and hobby artists, architects, designers and much more. A paper sleeve protects the eraser from dirt. Due to left-out edges the sleeve does not tear easily when used under pressure. Awarded with iF design award 2014. Material: PVC, phthalate free and latex free. Weight: 9 g.

AirPress Pen

The AirPress Pen is ready for writing - anywhere, anytime. Due to its air press technology, the ballpoint pen also easily masters unusual situations such as writing overhead, in dusty locations, on wet paper or in frosty temperatures (to -5°C). The AirPress Pen is the ideal companion for outdoor, hobby, school and professional use. The rubberized grip causes a comfortable and safe hold even with wet fingers or gloves. One can fix the AirPress Pen with its tough metal clip at the bag, pocket or working clothes. Awarded with the red dot design award 2010. Ink: black, document-proof according to ISO 12757-2:1998. Ball diameter: 0.7 mm. Refillable. Refill: BR-SF33.

DESIGN WRITING INSTRUMENTS

ZOOM ying

ZOOM ying Hashi

The new „ying“ series is a range of new forms of rollerball representing Japanese culture and spirituality based on a unique interpretation. The shape of the pen runs from square to round and resembles chop sticks (Hashi). The golden version features a gold leaf produced in Kanazawa, which is used for art and craftwork as well as for restoration of cultural properties. The platinum version is decorated with a platinum leaf. Both leaves are hand-crafted. The pens are coated with deep and glossy black acrylic paint. Each pen comes in a high-quality gift packaging. Ink color: black. Ball diameter 0,5 mm. Refill: BK-LP03-33.

□ 1

BW-ZYH06

golden

BW-ZYH04

platinum

ZOOM ying Samon

Inspired by sand waves (Samon) in a Japanese rock garden, an elaborate wavy pattern is recalled in the surface design of this rollerball. The precise machining and careful carving of aluminum creates the pen's detailed structural style. Available in gray and indigo, two of the traditional Japanese colors. Each pen comes in a high-quality gift packaging. Ink color: black. Ball diameter 0.5 mm. Refill: BK-LP03-33.

ZOOM 505 Havanna

The writing instruments of the Havanna Collection convince with their clear and puristic design, which will never be out of fashion. The Havanna Collection sits extremely comfortably in your hand for a pleasurable writing experience. The pens lie pleasantly heavy, but not massively in your hand. The Havanna collection is made of an exceptional material mix of black rubber grip zone and lacquered aluminum of the shaft. Available as rollerball in four colors. Ink color: black. Ball diameter: 0.7 mm. Refill: BK-LP05-33. Also available as champagne fountain pen with the nib widths fine, medium, broad. Ink color: blue. Refill: FP-300-RE-16. Awarded with iF design award 1990.

ZOOM 707

ZOOM 707 is a Tombow-classic with a strikingly slender shape. The delicate design evokes the form of a dragonfly („Tombow“ is derived from the Japanese word for „dragonfly“). ZOOM 707 is available as ballpoint pen and mechanical pencil, each in four color combinations and one de luxe version. Ballpoint pen ink color: black, ball diameter: 0.7 mm. Mechanical pencil line width: 0.5 mm, degree of hardness: HB. All writing instruments are refillable. Awarded with red dot design award, design-price by Design Centrum Stuttgart and Design Plus Award.

ZOOM L102

ZOOM L102 is a multi function pen with an elegant, puristic design. Its soft surface makes it extremely pleasant to hold due to the smooth transitions between the separate shaft sections. The pen combines three cartridges: a black and red ballpoint cartridge (ball diameter: 0.7 mm) and a mechanical pencil cartridge (line width: 0.5 mm, degree of hardness: HB). Simply use the small icons to select the function you wish by turning the pen so that the desired icon faces upwards, then press the special button. ZOOM L102 is extraordinarily lightweight - only 19 g including the cartridges. Available in four colors. Refillable. Refills: BR-VS-33 (black), BR-VS-25 (red).
