PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 71, as Amended
Aug. 2, 1945]

OPERATIONS OF STEEL PRODUCERS AFTER JULY 1, 1945

The following amended direction is issued pursuant to CMP Regulation 1:

(a) General. The amendment to CMP Regulation 1, dated May 10, 1945, defines unrated orders and authorizes their accept-

ance by producers for delivery of steel July 1 and later. Priorities Regulation No. 27, also dated May 10, 1945, tells how a small manufacturer may purchase steel by the use of the Z-3 allotment symbol. Orders placed with the Z-3 allotment symbol are authorized controlled material orders and are handled in accordance with Direction 54 to CMP Regulation 1. These changes in War Production Board regulations necessitate certain changes in the rules applicable to operations of producers, which are outlined below.

(b) Steel for further conversion. (1) Effective July 1, 1945, a producer may use the symbol FC-1 only to replace steel of the same product group listed in Schedule 1 that was used as conversion material to fill authorized controlled material orders, excluding orders bearing the Z-3 allotment symbol. A producer may use the allotment symbol FCZ to obtain conversion material of the same product group listed in Schedule 1 needed to fill orders bearing the Z-3 allotment symbol. Orders placed with the allotment symbol FCZ are deferrable authorized controlled material orders and must be handled in accordance with Direction 54 to CMP Regulation No. 1. A producer must use the allotment symbol FCN to order steel on an unrated basis as conversion material to fill unrated orders.

(2) Cancellation of FC allotments. The War Production Board will no longer issue FC allotments to steel producers not operating under production directives for steel for further conversion as the result of applications received on Form CMP-4B under CMP Regulation 8 and all such allotments for the third calendar quarter of 1945 and thereafter are hereby cancelled. Orders placed against such previously granted allotments and accepted for delivery in July, August and September, 1945, shall be considered as bearing the symbol FC-1. Orders placed against such previously granted allotments and accepted for delivery after September 30, 1945 (but not beyond December 1945) must be maintained in the producer's CMP order acceptance up to 45 days prior to the first of the month for which delivery is specified, at which time they shall be cancelled unless they have been revalidated with an FC-1 or FC-Z symbol in accordance with paragraph (b) (3) of this direction.

(3) Producers not under production directives. A producer not operating under production directives may use the FC-1 allotment symbol to replace conversion material used in filling authorized controlled material orders as follows:

For delivery during the month of July, 1945, a producer may use the FC-1 allotment symbol to place orders for carbon and alloy steel interchangeably for further conversion equal to the tonnage procured from other producers by extension of the FC symbol and used by him in filling authorized controlled material orders shipped by him in April. Similarly, August purchase authorizations may be equal to the tonnage used in filling authorized controlled material orders shipped in May. The same sequence shall be followed for future months; that is, conversion material used for filling authorized controlled material orders for the third Prior month constitute purchase authority to place "FC-1" orders in any one month. In determining the tonnage to be replaced by the use of the FC-1 allotment, orders bearing allotment symbol Z-3 shall not be considered as authorized controlled material orders. Conversion steel needed to fill orders bearing the allotment symbol Z-3 may be obtained through the use of the allotment symbol FCZ.

(4) Producers under production directives. The production directives under which certain producers operate will be adjusted to reflect only the order load of authorized controlled material orders. To the extent required to meet their order book pattern of

authorized controlled material orders (excluding orders bearing the Z-3 allotment symbol) producers will be given specific allocations of steel for further conversion on Series B allocations, Form GA-193, which authorizes the use of symbol FC-1. Since Z-3 allotments are deferrable, FC-1 allocations will not include tonnage to fill such orders. However, in the case of allocations of steel for conversion to carbon and electrical sheet and strip, FC-1 allocations may be made where necessary against total order book pattern of the producer. Producers will receive instructions how to show in report form WPB-2848 the extent to which Z-3 orders are included in their order acceptance records. (FC-1 allocations will accordingly be adjusted by that amount.) A producer may use the allotment symbol FCZ to obtain conversion material needed to fill an order bearing a Z-3 allotment symbol. All orders now placed against effective Series B allocations for delivery after June 30, 1945, bearing the symbol FC plus a Series B allocation number shall be considered as bearing the symbol FC-1. Orders placed hereafter against all Series B allocations must be identified with the symbol FC-1 and the allocation number.

When the supply-demand situation indicates production directives on a specific product may be eliminated, FC-1 Allocations for conversion material for that product will be cancelled and a producer now obtaining conversion steel through allocations will thereafter operate in the same manner as other producers under paragraph (b) (3) above. However, in the case of FC-1 allocations which are cancelled because the production directive for the product into which the allocated material would be converted has been cancelled, orders previously placed against such FC-1 allocations and accepted for delivery in the first and second months succeeding the cancellation of such production directive, shall be considered as bearing the symbol FC-1. Space reservations established by such FC-1 allocations for the third and later months (not beyond December 1945) succeeding the cancellation of the Production Direction, must be maintained in the producer's CMP orders acceptance up to 45 days prior to the first of the month for which delivery is specified, at which time the space reservations will be cancelled unless orders have been applied against them in accordance with paragraph (b) (3) above.

(5) An order with the FC-1 symbol is an authorized controlled material order and must be accepted as required by CMP Regulation 1. A producer receiving any "Further conversion" order must report it under the appropriate FC symbol on his WPB-2633 report of shipments. When resold by the purchasing producer, the material must be recorded on his WPB-2633 reports of shipments under the appropriate allotment symbol furnished by his customer. The material will be considered as part of the production of both producers. An order placed pursuant to an allocation on Form GA-193 must be endorsed in accordance with instructions on that form.

(c) *Warehouse load directives.* Most warehouses load directives will continue in effect at least until September 30, and producers may, pursuant to Direction 3 to Order M-21, accept unrated orders as well as authorized stock replacement orders within the load directive. However, the producer must remove unrated orders to make space available for authorized stock replacement orders as received. After the expiration date of the space reservation, unrated orders accepted from distributors within the load directive have the same status as unrated orders accepted from users of steel and must be set back when it is necessary to accept authorized controlled material orders either from warehouses or from users of steel.

(d) *Acceptance of orders.* (1) All steel producers may accept unrated orders without limit, but authorized controlled material orders, including Z-3 and FCZ orders, must be accepted in accordance with CMP Regulation 1. A producer will continue to accept orders by month of delivery and fill them in accordance with CMP Regulations.

(2) Production directives will be related to the available capacity in the case of tight items. Should a producer desire to accept additional authorized controlled material orders which can be filled in the month required, he may request the War Production Board to increase his production directive.

(3) It is not permissible for a producer to fill unrated orders at the expense of authorized controlled material orders. When the demand is heavy for a specific steel product a producer must fill authorized controlled material orders to the extent of his available capacity and in the case of a producer who has a production directive the excess demand must be handled on the basis of increases in production directives rather than by over-acceptance of orders.

(e) *Orders superseded.* This direction supersedes paragraph (a) (2) of Direction 6 to CMP Regulation 1.

Issued this 2d day of August 1945.

(c) *Restrictions on production of leaded zinc oxide*. No person shall put into process in any calendar quarter for the production of leaded zinc oxide more than 25 percent of the quantity of white lead (not the lead content) he put into process for the same purpose during the year 1944.

(d) *Restrictions on lead content of certain products*. No person shall put into process in any calendar quarter in the manufacture of any of the products listed below for the uses appearing opposite those products, a greater quantity of lead than is indicated opposite those products. With respect to the remainder of the first quarter of 1945, each person shall take into account the quantity

¹ Society of Dyers, and Colourists "Colour Index," Bradford, Yorkshire, January 1924.

of lead already used during that quarter in determining whether he has already used his quota for the first quarter of 1945. If he has already used his quota, he shall not use any additional lead during the quarter for the manufacture of any of the products listed below for the uses indicated.

NOTE: Table amended in its entirety Aug. 2, 1945.

Commodity	Uses	Percentage of quantity of lead put into process for the manu. of same product for same use during first six months of 1944
Insecticides.....	All.....	45% or 1000 lbs. of lead per calendar quarter, whichever is greater.
Glass—all..... Glass—optical, chemical, electrical (including radio, radar and X-ray), industrial equipment, scientific and signal.	Preferred Civilian.....	Unlimited.
	Civilian.....	50% or 1000 lbs. of lead per calendar quarter, whichever is greater.
Glass—all other.....	Civilian.....	25% or 1000 pounds of lead per calendar quarter, whichever is the greater.
Vitrified china tableware designed for institutional or mass feeding.	All.....	50% or 1000 lbs. of lead per calendar quarter, whichever is greater.

Ceramics—all other.....	All.....	25% or 1000 lbs. of lead per calendar quarter, whichever is greater.

(e) *Restrictions on use of red lead for paints, etc.* No person shall put into process in any calendar quarter in the production of paints, varnishes and lacquers (including paste red lead) for civilian uses, more than 40 percent of the quantity of red lead (not the lead content) which he put into process for those products for civilian uses in the first six months of 1944, or 1,000 pounds per quarter, whichever is the greater. This paragraph is not applicable to red lead consumed for preferred uses.

(f) *Restrictions on use of white lead for paints, etc.* No person shall put into process in any calendar quarter in the production of paints, varnishes and lacquers (including paste white lead) for civilian uses, more than 12½ percent of the quantity of white lead (not the lead content) which he put into process for those products for civilian uses in the first six months of 1944, or 1,000 pounds per quarter, whichever is the greater. This paragraph is not applicable to white lead consumed for preferred uses.

(g) [Deleted Aug. 2, 1945]

(h) [Deleted Aug. 2, 1945]

(i) *No restrictions on lead content of lead chrome pigments.* There are no restrictions on the lead content of lead chrome pigments for the reason that the use of all chrome pigments (including lead chrome pigments) is controlled by Order M-370, and the distribution and use of bichromate for all chrome pigments is allocated under Order M-300, Schedule 62.

(j) *Toll arrangements.* For the purpose of this order a toll arrangement is an arrangement under which lead owned

by one person (referred to as "the owner") is put into process by another person (referred to as the "processor"), for the production of certain products affected by this order, for the owner of the lead. Toll arrangements are subject to the following restrictions:

(1) Any quantity of lead put into process under toll arrangement in any calendar quarter for the production of any product for the particular use described in paragraphs (d), (e) and (f) shall be charged against the owner's lead quota instead of the processor's, if the owner manufactured the product himself for that use or had it manufactured for him for that use in the corresponding calendar quarter of 1944.

(2) Any quantity of lead put into process under toll arrangement during any calendar quarter for the production of any such product for any such use, must be charged against the lead quota of the processor, and not against the lead quota of the owner, if the owner did not manufacture that product for that use or have it manufactured for him for that use during the corresponding quarter of 1944.

(3) Any processor who is offered lead for processing on toll arrangement, shall assume that he is required to charge the lead against his own lead quota, unless he is advised in writing by the owner that the owner manufactured the same product or had it manufactured for him for the same use during the calendar quarter of 1944 corresponding to the calendar quarter in which the lead is to be put into process, and that the quantity offered can and will be charged against the owner's lead quota.

(4) Quantities charged against a lead quota pursuant to this paragraph (j) shall be considered as having been put into process by the holder of that quota.

(k) *Method of computing lead content of lead chemicals.* This order limits the amount of lead which a person may put into process in any calendar quarter for the production of certain products to a percentage of the lead which he put into process during the first six months of 1944. In order to determine this percentage in lead chemicals, the following table should be used:

Lead Chemicals:	Pounds of lead per 100 pounds of lead chemicals
Lead acetate (basic).....	60
Lead acetate (normal).....	55
Lead antimonate.....	63
Lead arsenate.....	60
Lead arsenite.....	50
Lead chloride.....	75
Lead dioxide.....	87
Lead nitrate.....	63
Lead silicate (mono).....	80
Lead silicate (di).....	61
Litharge.....	93
Red lead.....	91
Basic carbonate of white lead.....	80
Basic sulphate of white lead.....	75
Sodium plumbite.....	73

(l) *Inventory restrictions on white lead.* No person whose use of white lead is restricted by this order, shall accept any delivery of white lead which shall result in his having an inventory at the time of such delivery in excess of the

amount of lead he is entitled to put into process under the provisions of this order in that calendar quarter, for the production of paint, varnish, lacquers (including paste white lead) and ceramics. For the purposes of this paragraph, the term "inventory" includes inventory at factory, as well as in transit to factory.

(m) *Special directives.* The War Production Board may from time to time issue special directives with respect to the use, production or processing of lead chemicals, notwithstanding the other provisions of this order.

(n) *Reports.* On or before the 20th day of each month following a calendar quarter, each person who put into process more than 1,000 pounds of lead for the production of any of the products or uses described in paragraphs (b) to (h), inclusive, of the order, during the preceding quarter shall file two copies (one certified) of Form WPB-4138, with the Chemicals Bureau, War Production Board, Washington 25, D. C.

(o) *Appeals.* Any appeal from this order must be filed by letter in duplicate addressed to the Chemicals Bureau, War Production Board, Washington 25, D. C., Ref: M-384, setting forth the reasons for the appeal and the necessary supporting information. Such information should include:

(1) The product for which the lead will be used. If the appeal is taken from the provisions of paragraphs (d), (e), (f), (i) or (j), indicate proposed use of the product, i. e., preferred, civilian, or both.

(2) Period of time, not exceeding one calendar quarter, for which relief is requested.

(3) Monthly schedule of amount of lead appellant would like to use for the particular product and the portion of this which is in excess of the quota permitted by the order.

(4) If the appeal is for an increase in quota to fill orders for preferred uses, state the name of the procuring agency, the end use description, prime contract numbers and dates when the orders were received.

(5) If the appeal is filed because the restrictions of the order will prevent the filling of civilian orders of extreme urgency, give exact information as to the use of the product in which the lead would be used, names of the customers and preference ratings, if any, covering the orders.

(6) Any other information pertinent to the appeal.

Ordinarily, consideration will be given only to those appeals showing that the quota limits on the consumption of lead will prevent the filling of orders for "preferred uses" or most essential "civilian uses". The War Production Board will not consider favorably appeals based on the fact that the appellant would be unable to fill orders for civilian uses in amounts as large as he had previously delivered, or that he will be unable to fill orders for civilian uses to the same extent as other persons. Attention is called to the provisions of Priorities Regulation 16 with respect to the statement of manpower requirements which must be submitted with the appeal.

(p) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(q) *Communications to War Production Board.* All communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-384.

Issued this 2d day of August 1945.

¹ Prices, f. o. b. conveyance.

² Prices include free delivery within a radius of 20 miles of the seller's place of business. For the purposes of this section loading on a freight car constitutes delivery. On deliveries to points in excess of 20 miles distant from the seller's place of business these prices are f. o. b. conveyance. Where such deliveries are made by common carrier, the actual charges paid or incurred by the seller in making delivery may be added to the f. o. b. conveyance price. However, if delivery is by truck owned or controlled by the seller, the addition may not exceed 80 percent of the common carrier truck charge for a similar delivery.

*Except that the following prices may be charged by dealers for recoopered and/or reconditioned barrels where the buyer receives physical delivery in seaport towns or cities in Maine, New Hampshire, Massachusetts, Rhode Island or Connecticut: Large barrels—single head, \$1.10, double head, used head supplied \$1.10; medium barrels, single head—90¢, small barrels, single head—75¢.

NOTE 1: Dumpers or emptiers may charge peddlers' prices on transactions of 350 or more barrels on which free delivery is made and barrels are unloaded by the seller at the dealer's plant. Delivery in full on such transactions shall be made within a period of 48 hours after the first delivery subject to that transaction. If delivery in full is not completed in 48 hours after the first delivery no more than the dumper's price may be charged.

NOTE 2: On sales by dealers to dealers out of the selling dealer's plant or warehouse prices not in excess of the indicated prices for recoopered and/or reconditioned barrels may be charged provided the price to the consumer does not exceed the maximum price established by this regulation.

On sales by a dealer to other dealers of as they run barrels on which delivery starts from a point other than his plant or warehouse, no more than the peddler's prices may be charged.

NOTE 3: For any barrel other than those meeting specifications listed in the above table the maximum price shall be the price for the barrel listed in the tables with the nearest gallonage content. The gallonage for large barrels is 35 or over, for medium barrels 31 and under 35, for small barrels, 12 and under 31 and for kegs under 12 gallons.

Sec. 4. *Definitions.*—(a) *Dumper or emptier.* One who purchases commodities in barrels and empties the contents.

(b) *"Peddler".* One who obtains used barrels from emptiers for the purpose of resale and makes local delivery to purchasers or, in cases of shipment by rail, makes delivery to freight car, without storing, selecting or reconditioning them.

(c) *"Dealer".* One who buys and sells used slack barrels, maintains storage space and has facilities for repairing, recoopering, reconditioning and washing such barrels.

(d) *"As they run".* Used slack barrels which have not been selected and reconditioned in any way.

(e) *"Recoopered and/or reconditioned".* Barrels repaired to such condition that they can without further servicing be used for the packaging and

shipment by rail or otherwise, of the purchaser's commodities; broken staves replaced or reinforced; cleaned or washed; protruding nails, except those necessary to hold head hoop in place, removed; with complete set of hoops, and with extra hoops or head liners supplied, if required by purchaser.

(f) *"Single-head barrels".* Barrels which have one sound head in place.

(g) *"Double-head barrels".* Barrels with two heads, one of which must be sound and the other either sound or reinforced. One head may be dropped.

(h) *"Used head".* A head which has been a part of a barrel which was used for storing, packaging or shipping of commodities.

(i) *"New head".* A head which has been purchased new and has never been used in a barrel.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

Sec. 3. *Maximum prices.* The maximum prices for used slack cooperage are shown in the following table:

Sec. 5. What the invoice must contain. All invoices must contain a sufficiently complete description of the items sold to show whether or not the price is proper. They must also show the name and address of the seller, the name and address of the purchaser, the origin and destination of the shipment, the quantity and price and any items, including delivery charges, affecting the price.

Sec. 6. Prohibited practices. Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings, and the like.

ARTICLE III—MISCELLANEOUS

Sec. 7. Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

Sec. 8. Applications for adjustment and petitions for amendment—(a) Government contracts. See Procedural Regulation No. 6¹ for adjustments on certain government contracts and sub-contracts.

(b) Petitions for amendment. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,² issued by the Office of Price Administration.

Sec. 9. Records. Sellers must maintain records of all transactions in used slack cooperage showing the name and address of the seller, name and address of the purchaser, quantity sold, price, description of the barrels or kegs sold as to condition (as they run, recoopered and/or reconditioned), size, number of heads (new or used), origin and destination of shipment, manner of delivery and delivery charges.

Purchasers should maintain records showing name and address of seller,

quantity, description of barrels or kegs and the price.

All records must be kept for a period of two years or for the duration of the Emergency Price Control Act of 1942, as amended, whichever period is shorter.

SEC. 10. Registration. On and after 30 days after the issuance of this regulation the dealers prices may be charged only by those dealers who have received from the appropriate regional office, or duly authorized district office, of the Office of Price Administration a certificate of registration as a dealer in used slack barrels.

All persons desiring to sell at dealers' prices must register their qualifications with the Regional Office, or duly authorized District Office, of the Office of Price Administration having jurisdiction over the area in which their places of business are located within 30 days after the issuance of this regulation, or upon entering business as a dealer, and receive a certificate of registration. Certificates of registration from the Regional Administrator or his designee will be granted by letter to persons who can show that they qualify as dealers under section 4 and whose applications contain (a) the number of reconditioned slack barrels sold during the first six months of 1945 and the dollar value of such sales, (b) the names of at least four of their customers for reconditioned slack barrels, and (c) a complete description of their facilities for repairing, recoopering, reconditioning, and washing used slack barrels.

Sellers entering business as used slack barrel dealers for the first time need only describe their facilities as outlined in (c) above.

The Regional Administrator or duly authorized District Director may deny applications of those who fail to qualify.

SEC. 11. Labelling. On and after 45 days after the issuance of this regulation, no used slack barrel may be sold at the dealer's price unless it has been marked with a gum label or rubber stamp, indicating that it is a recoopered and/or reconditioned barrel, the dealer's name, address and Office of Price Administration registration number.

SEC. 12. Licenses. The provisions of Licensing Order No. 1,³ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more maximum price regulations. A person whose license is suspended, may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 13. Enforcement. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

SEC. 14. Relation to other regulations—(a) General Maximum Price Regulation.⁴ Any sale or delivery covered by this Maximum Price Regulation 593 is not

subject to the General Maximum Price Regulation.

(b) Second Revised Maximum Export Price Regulation.⁵ The maximum prices for export sales of used slack cooperage are governed by the Second Revised Maximum Export Price Regulation.

The effective date of this regulation shall be August 7, 1945.

NOTE: All reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 2d day of August 1945.

Acting Administrator.

PART 1418—TERRITORIES AND POSSESSIONS
[RMPR 373, Amdt. 13]

GROCERY ITEMS IN HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 373 is amended in the following respects:

1. Section 39 (c) (3) (iii) is amended to read as follows:

(iii) "Net cost" in Zones 2 and 3 on the Island of Maui shall be determined in the manner set forth in subparagraph (2) above, except that no transportation costs to Zones 2 and 3 from any point within the Island of Maui shall be included, whether incurred by you or by your supplier.

2. Section 39 (d) (2) is amended to read as follows:

(2) Prepare and keep a "Price Book" and enter therein, in the case of items for which you must compute your ceiling prices under Table B (not the items for which dollars-and-cents ceiling prices are specified), the following information with respect to each such item:

- (i) The date of your supplier's invoice,
- (ii) The name of your supplier,
- (iii) Your "net cost",
- (iv) The number of retail units in the customary wholesale unit (e. g., 48 cans to a case),
- (v) The division factor used, and
- (vi) The resulting ceiling price per case (or other wholesale unit) and the ceiling price per retail unit.

In addition, multiple outlet retail stores must enter in the "Price Book" the quantity purchased in case their ceiling price for a particular item is computed on weighted average net cost basis.

You may, with the prior approval of the Office of Price Administration, omit the entries in your "Price Book" required by items (i) and (ii) listed above. Such approval will be granted if you can demonstrate to the satisfaction of the Office of Price Administration that your invoice filing system is such that the invoice supporting any entry in your

"Price Book" can be readily produced for examination by any Office of Price Administration representative.

You must show your records and your "Price Book" to any Office of Price Administration representative on request.

3. Table A of section 39 is amended to read as follows:

TABLE A—DOLLARS-AND-CENTS MAXIMUM PRICES FOR CERTAIN GROCERY ITEMS IN THE TERRITORY OF HAWAII

(a) This Table A applies to all retailers of grocery items covered by this section located in the Territory of Hawaii. If the item being priced is not listed in this Table A, then the retailer shall compute his maximum prices in accordance with the provisions set forth in Table B of this section.

(b) "Commodity Classification Number", as used in this table, means the number assigned to the particular subdivision contained in paragraph (f) of this section, in which the grocery items listed are classified and defined.

(c) The following maximum prices are established for sales by retailers in the Territory of Hawaii. To these prices may be added the transportation differentials of 2% in Zone 2 and 3% in Zone 3 set forth in paragraph (e) of this section.

4. Table B of section 39 is amended to read as follows:

TABLE B—CALCULATED MAXIMUM PRICES FOR CERTAIN GROCERY ITEMS IN THE TERRITORY OF HAWAII

(a) This Table B applies to all retailers of grocery items covered by this section located in the Territory of Hawaii. However, if a specific dollars-and-cents maximum price for any item is set forth in Table A of this section, the retailer may not compute his maximum price for that item under this Table B.

(b) "Commodity Classification Number", as used in this table, means the number assigned to the particular subdivision, contained in paragraph (f) of this section, in which the grocery items listed are classified and defined.

(c) You shall compute your maximum price, under this table, by dividing your "net cost", as defined by paragraph (c) of this section, by the appropriate division factor set forth in this table. You may add to the prices so computed the transportation differentials, of 2% in Zone 2 and 3% in Zone 3, set forth in paragraph (e) of this section.

(d) Division factors. (1) If you are a retailer whose store is located in the Island of Molokai, you shall use the division factors set forth in column numbered (2).

(2) If you are a retailer located elsewhere in the Territory of Hawaii, you shall use the division factors set forth in the column numbered (1).

PART 1420—BREWERY, DISTILLERY, AND WINERY PRODUCTS

[MPR 445, Amdt. 28]

DISTILLED SPIRITS AND WINES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 445 is amended in the following respects:

1. Section 2.4 (a) is amended by deleting the figure "\$2.48" and substituting in place thereof the figure "\$1.70".

2. Section 2.4 (b) (2) (i) is amended by deleting the figure "\$2.48" and substituting in place thereof the figure "\$1.70".

3. Paragraph (a) (2) of Appendix G to Article III is amended by deleting the figure "\$1.92" and substituting in place thereof the figure "\$1.14".

4. Table II of Appendix I to Article III is amended by deleting the following figures shown opposite Class 9—"\$29.88, 29.88, 30.63, 23.73, 24.33, 0.3969, 0.3969, 0.3969, 0.3176 and 0.3176", respectively, and substituting in place thereof the following figures "\$27.66, 28.26, 29.01, 22.43, 23.03, 0.3737, 0.3737, 0.3737, 0.2990, and 0.2990", respectively.

5. Subparagraph (vi) is added to section 4.2 (a) (3) to read as follows:

(vi) For sales of bulk or packaged American grape wines which are blends containing at least 25% Eastern regional grape wine.

6. The last sentence of section 4.2 (e) (1) is amended by inserting the word "discounts" between the words "that" and "allowances".

7. Paragraph (b) of Appendix AA to Article IV is redesignated (b) (1) and the headnote is amended to read as follows:

(1) Procedure for establishing March 1942 maximum prices for packaged domestic wine other than California and American grape wine.

8. Redesignated paragraph (b) (1) of Appendix AA is amended by inserting the phrase "except California and American grape wine" between the words "packaged domestic wine" and "to a customer of a particular class".

9. A new subparagraph (2) is added to paragraph (b) of Appendix AA to Article IV to read as follows:

(2) Procedure for establishing adjusted March 1942 maximum prices for packaged California and American grape wine. The processor's adjusted March 1942 maximum price per case for sales of

an item of packaged California and American grape wine to a customer of a particular class is the highest price per case at which the processor sold or offered to sell the same item during March 1942 to a customer of the same class, in accordance with the processor's March 1942 customer classifications, adjusted in the following manner:

(i) Revise the price determined as above to include the applicable amount of Federal excise tax at rates in effect on November 2, 1942:

(ii) Deduct from the resulting figure at (i) the amount of any state or local excise tax included in the March 1942 price:

(iii) Multiply the resulting figure at (ii) by .75; and

(iv) Add to the resulting figure at (iii) the applicable amount of any state or local excise taxes effective prior to November 3, 1942;

(v) The resulting figure at (iv) is the processor's adjusted March 1942 maximum price per case for an item of packaged California or American grape wine; Provided, That the amount of any Federal, state or local excise taxes imposed is actually paid or has accrued and become payable by the processor to the proper taxing authorities or to any prior vendor.

NOTE: For addition of applicable Federal, state, or local excise taxes which became effective after November 2, 1942, see section 7.3 of Article VII.

10. The last sentence of paragraph (e) (2) of Appendix BB to Article IV is amended to read as follows: "Except as otherwise expressly provided in this regulation no amount shall be added for license fees, income taxes, franchise taxes, sales taxes, import taxes, export taxes, state processing taxes, and fees for affixing state stamps."

11. The last sentence of subparagraph (f) (5) (i) (b) of Appendix BB is amended to read as follows: "Transportation charges per case shall be determined by using an average weight of 37 pounds per case for cases containing 3 gallons or less and 48 pounds per case for cases containing over 3 gallons."

12. The explanation following the note at the end of subparagraph (f) (5) (i) (b) is amended to read as follows:

Explanation. Transportation charges under (b) above are calculated on the "base point system" and will result in any purchaser of a given class in a locality being able to buy any item of packaged California grape wine covered by this appendix at a generally uniform delivered price regardless of the location of his supplier. For example, the lowest regular published carload rate exclusive of Federal transportation tax from Bakersfield, California to Baltimore, Maryland, is 99¢ per cwt. This is for a minimum weight load of 50,000 lbs.; other carload rates are published for lower minimum weight loads, but since these rates are higher than 99¢ per cwt., they may not be used in the calculation. \$0.0099 per pound plus 3% Federal transportation tax equals \$0.0102, which, at 37 lbs. per case for cases containing 3 gallons or less, equals \$0.3774, or \$0.38, per case. Thus, a purchaser in Bal-

This amendment shall become effective as of July 9, 1945.

NOTE: The reporting and record keeping provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

timore is entitled to a delivered price in which transportation charges do not exceed \$0.38 per case containing 3 gallons or less, regardless of whether his supplier is a New York bottler, a Baltimore bottler, or a California winery. If his supplier sells on an f. o. b. basis, the supplier must make such deductions from his prescribed uniform maximum price as will compensate the purchaser for actual transportation charges

paid or payable by the purchaser (other than any amount paid for hauling, drayage, or handling within the metropolitan area of the purchaser's receiving point).

13. Tables I, II, III, IV, and V of Appendix BB to Article IV are redesignated tables II, III, IV, V, and VI, respectively, and a new Table I is added to read as follows:

Domestic packaged grape wines to which this table is applicable are wines of the kind named which bear on their labels, in conjunction with the class or type designation, either no appellation of origin or else the appellations of origin "California", or subdivisions thereof, or the appellation of origin "American". Prices are f. o. b. processor's premises including Federal taxes at rates in effect on November 2, 1942. 14. The heading of redesignated Table II is amended to read as follows:

TABLE II—WASHINGTON AND OREGON GRAPE WINE

15. The note following redesignated Table II is amended to read as follows:

Prices are f. o. b. processor's premises including Federal taxes at rates in effect on November 2, 1942. To determine delivered prices apply Freight Method B (see paragraph (f) (5) of this appendix).

16. Paragraph (a) of Appendix CC to Article IV is amended in the following respects:

(a) *Establishment of maximum prices under this appendix.* The provisions of this appendix are applicable to sales or deliveries of bulk domestic wine by any seller to retailers and consumers only. Sales or deliveries of bulk domestic wine by any seller to any class of customer except retailers and consumers are exempt from the provisions of this regulation and the General Maximum Price Regulation. Any seller of bulk domestic wine for his sales to retailers and consumers must establish a prescribed uniform maximum price under this appendix for his sales of any type of such wine for which a pricing table is contained in this appendix. A special maximum price may be established under Appendix DD for sales of bulk varietal or vintage wines to retailers and consumers and must be so established for sales of bulk varietal and vintage wines to retailers and consumers for which no pricing tables or pricing method is otherwise provided.

17. Paragraph (g) of Appendix CC to Article IV is revoked, and paragraphs (h) through (k) are redesignated (g) through (j), respectively.

18. Table I of Appendix CC to Article IV is amended to read as follows:

Prices are named, f. o. b. processor's premises in bond in carload quantity, and do not include Federal, state or local excise taxes, or California marketing order assessment. Domestic wines bearing no appellation of origin on the labeling are classified as "American" wines.

19. Redesignated subparagraph (i) of Appendix CC to Article IV is amended to read as follows:

(i) *Sales by wholesalers to retailers and consumers.* A wholesaler's maximum price per gallon for sales of bulk domestic wine to retailers and consumers shall be his net cost per gallon (instead of per case) for the wine, determined under section 5.3 of Article V (using as "supplier's price" the amount actually paid to the supplier but not in excess of the appropriate amount per gallon set forth in Table I) multiplied by 1.20 for sales to retailers or by 1.45 for sales to consumers.

20. The following sentence is added to paragraph (a) (1) (i) of Appendix EE to Article IV: "In making adjustments under this appendix for California or American grape wine the processor must first adjust his March 1942 maximum price in accordance with the provisions of paragraph (b) (2) of Appendix AA to Article IV."

21. Appendix FF to Article IV is revoked and sales or deliveries of Spanish type blending sherry, lees wine, and California grape concentrates by any seller to any class of customer are exempt from

the provisions of this regulation and the General Maximum Price Regulation.

22. Section 5.4 (c) (2) is amended by adding at the end thereof the following:

Anything to the contrary herein contained notwithstanding, between December 31, 1945 and February 28, 1946, inclusive, a wholesaler shall not be required to refigure his maximum prices for items of California and American grape wine which he purchases during that period. However, on March 1, 1946 he shall refigure his maximum prices for each item of California and American grape wine, using as the basis for refiguring, his net cost for his most recent purchase of the item prior to March 1, 1946, and such refigured maximum prices shall become applicable in accordance with the provisions of section 5.4 (c) (4).

23. Section 5.5 (c) (2) is amended by adding at the end thereof the following:

Anything to the contrary herein contained notwithstanding, between January 31, 1946 and March 31, 1946, inclusive, a retailer shall not be required to refigure his maximum prices for items of California and American grape wine, using as the basis for refiguring, his net cost for his most recent purchase of the item prior to April 1, 1946, and such refigured maximum prices shall become applicable in accordance with the provisions of section 5.5 (c) (4).

24. Section 5.6 (c) (2) is amended by adding at the end thereof the following:

Anything to the contrary herein contained notwithstanding, between December 31, 1945 and March 31, 1946, inclusive, a monopoly state shall not be required to refigure its maximum prices for items of California and American grape wine which it purchases during that period. However, on April 1, 1946 it shall refigure its maximum prices for each item of California and American grape wine, using as the basis for refiguring, its net cost for its most recent purchase of the item prior to April 1, 1946, and such refigured maximum prices shall become applicable in accordance with the provisions of section 5.6 (c) (4).

25. Section 5.7 (c) (2) is amended by adding at the end thereof the following:

Anything to the contrary herein contained notwithstanding, between December 31, 1945 and February 28, 1946, inclusive, a primary distributing agent shall not be required to refigure his maximum prices for items of California and American grape wine which he purchases during that period. However, on March 1, 1946 he shall refigure his maximum prices for each item of California and American grape wine, using as the basis for refiguring, his net cost for his most recent purchase of the item prior to March 1, 1946, and such refigured maximum prices shall become applicable in accordance with the provisions of section 5.7 (c) (4).

26. The last two sentences of section 7.8 (b) are revoked.

This amendment shall become effective on December 31, 1945, except that

the following provisions shall become effective on August 2, 1945.

(1) Paragraphs (a) through (f), inclusive, and redesignated paragraphs (g) through (j), inclusive, of Appendix CC. However, Table I, as amended, of Appendix CC shall become effective on December 31, 1945.

(2) The last sentence of subparagraph (f) (5) (i) (b) of Appendix BB and the explanation following that subparagraph.

(3) The revocation of Appendix FF.

PART 4003—SUBSIDIES: SUPPORT PRICES

ASSISTANCE TO PROCESSORS IN CONNECTION WITH 1945-CROP SUGARCANE IN LOUISIANA AND FLORIDA, 1946-CROP SUGARCANE IN PUERTO RICO, VIRGIN ISLANDS AND HAWAII, AND 1945 CROP SUGAR BEETS, AND SUGARS PRODUCED THEREFROM

The War Food Administrator, by letter and enclosures dated June 14, 1945, recommended that certain measures be authorized for the assistance of processors of 1945-crop sugarcane in Louisiana and Florida; of 1946-crop sugarcane in Puerto Rico, the Virgin Islands and the Territory of Hawaii; and of 1945-crop sugar beets. These measures would include, among other things: (a) the payment by Commodity Credit Corporation to processors of 1945-crop sugarcane in Louisiana and Florida and of 1946-crop sugarcane in Puerto Rico, the Virgin Islands and the Territory of Hawaii of a maximum amount of 15 cents per 100 pounds of raw sugar (96 degrees equivalent) derived from those crops; (b) the payment by Commodity Credit Corporation to processors of 1945-crop sugar beets of a maximum amount of 18 cents per 100 pounds of refined sugar derived from that crop, such payment to be in lieu of the previously-authorized payment of 12½ cents per 100 pounds of refined sugar, with respect to increased production costs, as authorized by Directive No. 36; and (c) the payment by Commodity Credit Corporation of certain excess freight costs for the movement of Louisiana and Florida raw sugar to other than the nearest refinery whenever such movement is considered necessary and directed by the Department of Agriculture.

I hereby find that the measures proposed to me by the War Food Administrator are necessary to effectuate the policy established by Executive Orders 9250 and 9328 and specifically to insure the maximum necessary production and distribution of raw and refined sugar to meet military, lend-lease and civilian requirements.

Accordingly, the Department of Agriculture is hereby authorized and directed to carry out, through the Commodity Credit Corporation, the measures described in the War Food Administrator's letter and the memorandum enclosed therewith.

PART 4003—SUBSIDIES; SUPPORT PRICES

ASSISTANCE TO GROWERS IN CONNECTION WITH 1946-CROP SUGAR BEETS AND 1946-CROP CONTINENTAL AND DOMESTIC OFFSHORE SUGARCANE

The Secretary of Agriculture has, by letter dated July 25, 1945, recommended certain measures for the assistance of growers of sugar beets and growers of sugarcane in Louisiana, Florida, Puerto Rico, Virgin Islands and Hawaii. These measures include: (1) the assurance to growers of a national average return of not less than \$13.50 per ton of sugar beets of the average quality of recent years, including payments under the Sugar Act of 1937 as amended. Assuming a continuation of present market conditions, this assurance will require a payment of approximately \$4 per ton of beets of average quality; (2) the payment to the above-mentioned growers of sugarcane of \$2.10 per ton of average sugarcane, equal in Louisiana to a payment in terms of "standard" sugarcane of \$2.04 per ton. These programs, by providing growers a return substantially above that afforded by present sugar prices, are designed to increase domestic sugar production.

I hereby find that the measures proposed by the Secretary of Agriculture are necessary to effectuate the policy established by Executive Orders 9250 and 9328 and specifically to assure the maximum necessary production of sugar to meet military, civilian and lend-lease requirements.

Accordingly, the Department of Agriculture is hereby authorized and directed, subject to appropriate legislative authorization, to carry out, through the Commodity Credit Corporation, the measures described in the Secretary's letter and the memorandum enclosed therewith.

[Docket Nos. IT-5962, IT-5963]

PUGET SOUND POWER & LIGHT CO.

ORDER SETTING MATTER FOR HEARING

AUGUST 1, 1945.

It appears that:

(a) Puget Sound Power & Light Company (hereinafter referred to as the Applicant) having its principal business office in Seattle, Washington, on July 31, 1945, filed an application (Docket No. IT-5962), pursuant to section 203 of the Federal Power Act, for an order authorizing the Applicant to sell or otherwise dispose of all of its electric properties; an application (Docket No. IT-5963), pursuant to section 204 of the act, for an order authorizing the issuance of certain notes in the principal amount of \$15,125,000, or in the alternative, to dismiss both applications for lack of jurisdiction inasmuch as Applicant is not a "public utility," as defined in section 201 of the act.

(b) There is now pending before the Commission a proceeding entitled In the Matter of Nelson J. Ambrose, et al., Docket No. ID-127, Puget Sound Power & Light Company, Intervenor, in which hearings have been held involving the issue of whether or not the Applicant is a "public utility" pursuant to section 201 of the act. This issue is also involved in the matter of Puget Sound Power & Light Company, Docket No. IT-5649, now pending before the Commission.

(c) Applicant requests that the Commission first determine whether or not it has jurisdiction over the Applicant as a "public utility" as defined in section 201 of the act before considering the merits of the applications referred to above, and further requests that the records in the proceedings mentioned in paragraph (b) above, and all sworn reports filed with the Commission by the Applicant and by The Washington Water Power Company be considered as a part of the record in this proceeding.

The Commission finds that: It is appropriate and in the public interest, in view of the circumstances related above, to consider first the public utility status of the Applicant pursuant to section 201 of the act before considering the merits of the applications described in paragraph (a), above.

The Commission orders that:

(a) A hearing be held commencing August 21, 1945, at 10:00 a. m. (e. w. t.) in the hearing room at the Federal Power Commission, Hurley Wright Building,

1800 Pennsylvania Avenue, N. W., Washington, D. C., with respect only to the question of whether the Applicant is or is not a "public utility" as defined in section 201 of the Federal Power Act, and accordingly whether the requirements of sections 203 and 204 apply for authorization and approval by this Commission to the proposed transactions, respectively.

(b) If the Applicant, or any person, desires to introduce evidence with respect to the question of whether the Applicant is or is not a "public utility," as defined in section 201, it shall on or before August 17, 1945, file with the Commission a notification of its desire to present such evidence. In the event no such request is received on or before that date, the question may be considered and disposed of by the Commission without holding the hearing.

[Region II Order G-2 Under RMPR 251]

INSTALLED RE-SIDING AND RE-ROOFING AND RELATED AND INCIDENTAL CONSTRUCTION WORK IN SYRACUSE, N. Y. AREA

An opinion accompanying this order issued simultaneously herewith, has been filed with the Division of Federal Register.

In the judgment of the Regional Administrator of Region II of the Office of Price Administration, the maximum prices established and the Regulations prescribed by this order are generally fair and equitable, are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, and do not exceed the general level of prices fixed by Revised Maximum Price Regulation No. 251.

Therefore, under the authority vested in the Regional Administrator of Region II of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended, and by section 9 of Revised Maximum Price Regulation No. 251, this order is hereby issued.

SECTION 1. Transactions covered by this order. This order covers all sales of composition re-siding and re-roofing on an installed basis, together with accessories on residential structures in the area hereinafter described. It also includes related and incidental construction work when sold by installers of re-

siding and re-roofing, whether such sale is made as a part of a general contract or not.

The term "composition re-siding" includes asphalt shingle re-siding, asbestos cement re-siding, insulated brick or stone re-siding and roll brick re-siding but shall not include wood shingles or wood re-siding.

The term "re-roofing" includes composition re-roofing such as asphalt shingles and mineral surface roll re-roofing and smooth surface roll re-roofing but does not include wood, metal or slate re-roofing.

The term "related" and "incidental" construction work means any installation of building materials or construction work other than installed re-roofing and re-siding, when sold by installers of re-roofing and re-siding.

SEC. 2. Relationship of this order to Revised Maximum Price Regulation No. 251—(a) The provisions of this order supersede sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of re-roofing and composition re-siding on an installed basis on residential structures and with respect to related and incidental construction work sold by installers of composition re-siding and re-roofing on an installed basis. All other provisions of Revised Maximum Price Regulation No. 251 are applicable to transactions subject to this order unless otherwise provided in this order.

(b) On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell, offer to sell or deliver composition re-siding and re-roofing on residential structures on an installed basis or related and incidental construction work as herein defined at prices higher than the maximum prices established by this order; *Provided*, That deliveries made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

(c) An employer paying or about to pay labor rates higher than those in effect for him on the effective date of this order by reason of the predetermination of wage rates by the Secretary of Labor under the Davis-Bacon Act or any order or authorization of the Wage Adjustment Board, National War Labor Board or Economic Stabilization Director, may file an application for an amendment of this order to reflect such increased labor rates. Such a petition for amendment shall conform in all respects to the provisions of Revised Procedural Regulation No. 1, except that it shall be filed with the New York Regional Office of the Office of Price Administration.

SEC. 3. Applicability. This order shall apply in the Syracuse, N. Y. area which includes the counties of St. Lawrence, Jefferson, Oswego, Wayne, Seneca, Cayuga, Onondaga, Madison, Herkimer, Oneida, Ontario and Lewis, all in the State of New York.

On all sales of re-roofing on silos, an additional charge of \$50.00 may be added to the maximum price as computed under the provisions of this order.

SEC. 5. *Guaranteed price.* A seller may sell a composition re-siding or re-roofing job covered by this order on the basis of a guaranteed price, but such guaranteed price must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order.

SEC. 6. *Related and incidental construction work.* If on any job, any installed building materials are furnished or any construction service performed by the seller, other than composition re-siding and re-roofing, the cost of such work shall not be included in the cost of installed composition re-siding and re-roofing, but shall be separately priced and billed on all invoices. SEC. 9. *Evasion.* Any practice or device which results in a higher price to the purchaser of composition re-siding and re-roofing on an installed basis and/or related and incidental construction work than is permitted by this order is as much a violation as an outright over ceiling charge and subjects the seller to all the penalties provided by Revised Maximum Price Regulation No. 251.

construction work covered by the terms of this order must keep records concerning each sale subject to this order, including the name and address of the purchaser, the location of the job, the date of the transaction, a description of the materials and services involved, the number of squares and price per square of re-siding and re-roofing, a list of all extras permitted under Tables I and II of this order with the quantity and price of each, and a separate statement of any related and incidental construction work. WAR MANPOWER COMMISSION.

HAMILTON, OHIO, AREA

MINIMUM WARTIME WORKWEEK

Designation of the Hamilton, Ohio, Area as subject to Executive Order No. 9301.

By virtue of the authority vested in me as Regional Manpower Director of Region No. V by § 903.2 of War Manpower Commission Regulation No. 3, "Minimum Wartime Workweek of 48 Hours" (8 F.R. 7225), and having found that such action will aid in alleviating labor shortages which are impeding the war effort, I hereby designate the Hamilton, Ohio, Area as subject to the provisions of Executive Order No. 9301.

1. For the purposes of this designation, the Hamilton Area shall include:

All of Butler County (except Lemon and Madison Townships).

All of Warren County (except Franklin Township).

2. The effective date of this designation is August 1, 1945.

3. Not later than the effective date, each employer in the Hamilton Area shall, in accordance with War Manpower Commission Regulation No. 3:

(a) Extend to a minimum wartime workweek of 48 hours, the workweek of any of his workers whose workweek can be so extended without involving the release of any worker;

(b) If extension of the workweek of any of his workers to a minimum wartime workweek of 48 hours would involve the release of any workers, submit to the Area Manpower Director the number and occupational classification of the workers whose release would be involved, together with proposed schedules for their release, and thereafter extend such workweek when and as directed in schedules authorized by the War Manpower Commission;

(c) File an application for a minimum wartime workweek of less than 48 hours for those workers engaged in employment in which the employer claims that a workweek of 48 hours would be impracticable in view of the nature of the operations, would not contribute to the reduction of labor requirements, or would conflict with any Federal, State or local law or regulation limiting hours of work. Such applications must be filed before July 30, 1945.

Date of issuance: July 9, 1945.

E. L. KEENAN,
Regional Director.
