Title 3—THE PRESIDENT

Proclamation 3825

RED CROSS MONTH, 1968

By the President of the United States of America

A Proclamation

On every battlefield, a flag of mercy flies. Its white field bears a Red Cross—the universal symbol of human compassion.

Under that flag, there are no enemies, no racial or religious animosities. There are only brothers.

The flag of the Red Cross flies in thousands of American cities and communities. Thirty million Americans are Red Cross members. Their support is an affirmation of the fundamental humanity of the American people.

In the tragedy and loneliness of war, the Red Cross is a familiar friend and companion to our men and women in uniform. It is with them in Vietnam, in 27 other nations where Americans serve, and in our bases at home.

Not only war, but trials of storm and earthquake, flood and fire, summon the Red Cross to service. Wherever disaster strikes, the Red Cross is there with food, shelter and relief from suffering—as it was last year in the ravaged valleys and lowlands of Alaska and Texas.

And every day of the year, the Red Cross serves all America with its programs to provide blood, and to teach first aid, water safety, and citizenship to tomorrow's citizens.

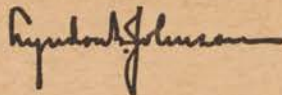

This year the demands on the Red Cross—and its financial needs—will be exceptionally heavy. It must continue to serve our fighting men, to keep ready to assist the victims of disaster, and to maintain its life-saving work in our communities.

To meet these needs, this March the American Red Cross will conduct a special SOS (Support Our Servicemen) Campaign.

Its success concerns all of us—for the mission of the American Red Cross is the mission of all America.

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America and Honorary Chairman of the American National Red Cross, do hereby designate March 1968 as Red Cross Month. I strongly urge all Americans to heed the special SOS (Support Our Servicemen) campaign by volunteering their time and to contribute what they can.

IN WITNESS WHEREOF, I have hereunto set my hand this fifth day of February in the year of our Lord nineteen hundred and sixty-eight, and of the Independence of the United States of America the one hundred and ninety-second.

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations by amending AD 66-4-1 applicable to General Electric Aircraft CJ805 Engines.

AD 66-4-1, Amdt. 39-191 required the removal of second stage turbine discs of the CJ805 engines prior to accumulation of 7,200 cycles or within 200 cycles from the effective date of the directive whichever was applicable. After issuing AD 66-4-1, service experience

established that upon compliance with certain General Electric service bulletins the service life could be extended to 10,000 cycles.

Since this amendment is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.85 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended as follows:

1. Amend AD 66-4-1 so as to add the following paragraph:

(d) The disc life specified in this AD may be extended to 10,000 cycles provided the discs meet the criteria outlined in paragraphs 1.k and 2 of General Electric Service Bulletin (880) 72-263 or (990) 72-272.

This amendment is effective February 7, 1968.

Issued in Jamaica, N.Y., on January 25, 1968.

WAYNE HENDERSHOT,
 Acting Director, Eastern Region.

PART 39—AIRWORTHINESS DIRECTIVES

Vickers Viscount Models 744, 745D, and 810 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring periodic inspection for cracks in the torsion link hinge pins of the nose landing gear of the Vickers Viscount Models 744, 745D, and 810 Series airplanes, the replacement of cracked hinge pins, and the discontinuance of the inspection after the present hinge pins are replaced with new type hinge pins, was published December 5, 1967 (32 F.R. 17439).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

VICKERS. Applies to Viscount Models 744, 745D, and 810 Series airplanes.

Compliance required as indicated, unless already accomplished.

To detect cracking of the upper and lower torsion link hinge pins of the nose landing gear, accomplish the following:

(a) For airplanes with pre Modification D.3045 (700 Series) and FG.1861 (800 Series) hinge pins with less than 4,000 landings on the effective date of this AD, before the accumulation of 5,000 landings, and thereafter at intervals not to exceed 1,000 landings from the last inspection until the accumulation

of 10,000 landings and thereafter at intervals not to exceed 500 landings from the last inspection, comply with paragraph (d).

(b) For airplanes with pre Modification D.3045 (700 Series) and FG.1861 (800 Series) hinge pins with 4,000 or more landings but less than 9,000 landings on the effective date of this AD, within the next 1,000 landings after the effective date of this AD and thereafter at intervals not to exceed 1,000 landings from the last inspection until the accumulation of 10,000 landings and thereafter at intervals not to exceed 500 landings, comply with paragraph (d).

(c) For airplanes with pre Modification D.3045 (700 Series) and FG.1861 (800 Series) hinge pins with 9,000 or more landings on the effective date of this AD, within the next 500 landings or before the accumulation of 10,000 landings, whichever occurs later, and thereafter at intervals not to exceed 500 landings from the last inspection, comply with paragraph (d).

(d) Remove pre Modification D.3045 (700 Series) and FG.1861 (800 Series) hinge pins and inspect for cracks using Magnaflex examination or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region, in accordance with British Aircraft Corp. (BAC) Preliminary Technical Leaflets (PTLs) No. 233, Issue 3 (700 Series) and No. 99, Issue 3 (800 Series), or later ARB-approved issues, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region.

(e) If cracked hinge pins are found during the inspections required by paragraphs (a), (b), and (c), before further flight, replace the pins with serviceable pins of the same part number and comply with the inspection requirements of paragraph (a), or replace the pins with Modification D.3045 (700 Series) and FG.1861 (800 Series) pins.

(f) The repetitive inspections required by paragraphs (a), (b), and (c) may be discontinued on those hinge pins replaced by Modification D.3045 (700 Series) and FG.1861 (800 Series) pins.

(g) Upon request of the operator, an FAA maintenance inspector, subject to prior approval by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

This amendment becomes effective March 7, 1968.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zones and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter controlled airspace in the San Antonio, Tex., terminal area.

On December 23, 1967, a notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 20780) stating the Federal Aviation Administration proposed to alter the San Antonio, Tex., International Airport and the Randolph AFB control zones and the San Antonio, Tex., transition area.

Interested persons were provided an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., March 28, 1968, as hereinafter set forth.

In § 71.171 (33 F.R. 2058) the San Antonio, Tex. (International Airport), and (Randolph Field) control zones are amended as follows:

SAN ANTONIO, TEX. (INTERNATIONAL AIRPORT)

That airspace within a 5-mile radius of San Antonio International Airport (lat. 29° 31' 50" N., long. 98° 28' 12" W.); within 2 miles each side of the San Antonio VORTAC 184° radial extending from the 5-mile radius zone to 1 mile south of the VORTAC; within 2 miles each side of the San Antonio ILS localizer northwest course extending from the 5-mile radius zone to 1 mile southeast of the OM, within 2 miles each side of the San Antonio ILS localizer northeast course extending from the 5-mile radius zone to 6 miles northeast of the airport, and within 2 miles each side of the San Antonio ILS localizer southeast course extending from the 5-mile radius zone to 7 miles southeast of the localizer, and within 2 miles each side of a 132° bearing from the LOM extending from the 5-mile radius zone to 15.5 miles southeast of the LOM.

SAN ANTONIO, TEX. (RANDOLPH AFB)

That airspace within a 5-mile radius of Randolph AFB (lat. 29° 32' 09" N., long. 98° 16' 57" W.); within 2 miles each side of the LaVerna, Tex., VOR 329° and 338° radials, extending from the 5-mile radius zone to 1 mile northwest of the VOR, within 2 miles each side of the Randolph AFB TACAN 323° radial extending from the TACAN to 8 miles northwest, and within 2 miles each side of the Randolph AFB TACAN 156° radial extending from the TACAN to 8 miles southeast.

In § 71.181 (33 F.R. 2137) the San Antonio, Tex., transition area is amended as follows:

SAN ANTONIO, TEX.

That airspace extending upward from 700 feet above the surface bounded by a line beginning at lat. 29° 22' 30" N., long. 97° 47' 00" W., thence west via lat. 29° 22' 30" N., to and clockwise along the arc of a 23-mile radius circle centered at lat. 29° 31' 50" N., long. 98° 28' 12" W., to lat. 29° 46' 30" N., east of long. 98° 30' 00" W.; thence to lat. 29° 43' 00" N., long. 98° 01' 30" W., thence to point of beginning, within 5 miles northeast and 8 miles southwest of the LaVerna VOR 149° radial extending from the VOR to 12 miles southeast, within 2 miles each side of the Kelly VOR 189° radial extending from the VOR to 26 miles south; within 2 miles each side of the Stinson VOR 166° radial extending from the VOR to 8 miles southeast, and within 2 miles each side of the Stinson VOR 148° radial extending from the VOR to 16 miles southeast.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zones and Transition Areas

The purpose of these amendments to Part 71 of the Federal Aviation Regulations is to alter the Greensboro, N.C., Fort Rucker, Ala., Fayetteville, N.C., and Huntsville, Ala., control zones and the Greensboro, N.C., Huntsville, Ala., Goldsboro, N.C., and Manning, S.C., transition areas.

The Greensboro, N.C., control zone is described in § 71.171 (32 F.R. 2071 and 10839).

The Fort Rucker, Ala., control zone is described in § 71.171 (32 F.R. 2071 and 5367).

The Fayetteville, N.C., control zone is described in § 71.171 (32 F.R. 2071).

The Huntsville, Ala., control zone is described in § 71.171 (32 F.R. 2071 and 15809).

The Greensboro, N.C., transition area is described in § 71.181 (32 F.R. 2148 and 10839).

The Huntsville, Ala., transition area is described in § 71.181 (32 F.R. 2148 and 15809).

The Goldsboro, N.C., transition area is described in § 71.181 (32 F.R. 2148).

The Manning, S.C., transition area is described in § 71.181 (32 F.R. 2148 and 5253).

In the Greensboro, N.C., control zone and transition area descriptions, reference is made to the Greensboro/High Point/Winston-Salem Airport. Since the name of this airport has been changed to "Greensboro/High Point/Winston-Salem Regional Airport," it is necessary to amend the descriptions accordingly.

In the Fort Rucker, Ala., control zone description, the geographic coordinate for Hooper, Ala., Stage Field was published as lat. 31° 23' 50" N., long. 85° 42' 00" W. Since Coast and Geodetic Survey verified the geographic coordinate as "lat. 31° 24' 25" N., long. 85° 41' 20" W." it is necessary to amend the description accordingly.

In the Fayetteville, N.C., control zone reference is made to Grannis Field. Since the name of this airport has been changed to "Fayetteville Municipal Airport (Grannis Field)," it is necessary to amend the description accordingly.

In the Huntsville, Ala., control zone description, reference is made to the new Huntsville-Madison County Airport and the new Huntsville ILS. In the Huntsville, Ala., transition area description, reference is made to the new Huntsville ILS. Additionally, in the Huntsville control zone description, an exclusion is

described as " * * * excluding the airspace within a 1-mile radius of the old Huntsville-Madison County Airport (lat. 34°41'18" N., long. 86°35'20" W.) * * *". Since the old Huntsville-Madison County Airport has been permanently closed and the old Huntsville ILS has been decommissioned, it is necessary to alter the descriptions accordingly.

In the Huntsville, Ala., control zone description, an extension is predicated on the 352° bearing from the Redstone RBN. Since this extension was erroneously predicated on the 352° bearing instead of the 356° bearing, it is necessary to alter the description accordingly.

In the Goldsboro, N.C., transition area description, an exclusion is described as " * * * excluding the airspace within a 1.5-mile radius of the Goldsboro Municipal Airport (lat. 35°26'55" N., long. 78°05'00" W.) * * *". Since this airport has been permanently closed, it is necessary to alter the description accordingly.

In the Manning, S.C., transition area description, an extension is described in part as " * * * and within 2 miles each side of the Vance VOR 060° radial * * *". Because of the redefinition of the final approach radial, it is necessary to redesignate this extension on the Vance VOR 061° radial.

Since these amendments are either editorial, minor, or less restrictive in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.171 (33 F.R. 2058), the Greensboro, N.C., control zone is amended as follows: " * * * Greensboro/High Point/Winston-Salem Airport * * *" is deleted and " * * * Greensboro/High Point/Winston-Salem Regional Airport * * *" is substituted therefor, wherever it appears.

In § 71.181 (33 F.R. 2137), the Greensboro, N.C., transition area is amended as follows: " * * * Greensboro/High Point/Winston-Salem Airport * * *" is deleted and " * * * Greensboro/High Point/Winston-Salem Regional Airport * * *" is substituted therefor, wherever it appears.

In § 71.171 (33 F.R. 2058), the Fort Rucker, Ala., control zone is amended as follows: " * * * Hooper, Ala., Stage Field (lat. 31°23'50" N., long. 85°42'00" W.); * * *" is deleted and " * * * Hooper, Ala., Stage Field (lat. 31°24'25" N., long. 85°41'20" W.); * * ." is substituted therefor.

In § 71.171 (33 F.R. 2058), the Fayetteville, N.C., control zone is amended as follows: " * * * Grannis Field * * *" is deleted and " * * * Fayetteville Municipal Airport (Grannis Field * * *" is substituted therefor, wherever it appears.

In § 71.171 (33 F.R. 2058), the Huntsville, Ala., control zone is amended as follows:

" * * * new Huntsville-Madison County Airport * * *" is deleted and " * * * Huntsville-Madison County Air-

port * * *" is substituted therefor, wherever it appears.

" * * * new Huntsville ILS * * *" is deleted and " * * * Huntsville ILS * * *" is substituted therefor, wherever it appears.

" * * * excluding the airspace within a 1-mile radius of the old Huntsville-Madison County Airport (lat. 34°41'18" N., long. 86°35'20" W.) * * *" is deleted.

" * * * within 2 miles each side of the 352° bearing from the Redstone RBN, * * *" is deleted and " * * * within 2 miles each side of the 356° bearing from the Redstone RBN, * * *" is substituted therefor.

In § 71.181 (33 F.R. 2137), the Huntsville, Ala., transition area is amended as follows: " * * * new Huntsville ILS * * *" is deleted and " * * * Huntsville ILS * * *" is substituted therefor, wherever it appears.

In § 71.181 (33 F.R. 2137), the Goldsboro, N.C., transition area is amended as follows: " * * * excluding the airspace within a 1.5-mile radius of the Goldsboro Municipal Airport (lat. 35°26'55" N., long. 78°05'00" W.); * * *" is deleted.

In § 71.181 (33 F.R. 2137), the Manning, S.C., transition area is amended as follows: " * * * and within 2 miles each side of the Vance VOR 060° radial, * * *" is deleted and " * * * and within 2 miles each side of the Vance VOR 061° radial, * * *" is substituted therefor.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Roswell, N. Mex., control zone.

On July 20, 1967, the Roswell, N. Mex., control zone was altered by combining the two separate but adjacent control zones existing at Roswell, N. Mex. (Roswell Municipal Airport and Walker AFB) into a single control zone.

Walker AFB, was declared to be a surplus facility and was given to the city of Roswell, N. Mex., which assumed its operation. It was subsequently renamed the Roswell Industrial Air Center. Operation of the control tower was transferred to the Roswell Industrial Air Center; however, due to the lack of suitable quarters the Flight Service Station and the Weather Bureau offices have remained at the Roswell Municipal Airport site and their services continue to be provided from this location. The Roswell Municipal Airport has subsequently been

abandoned and flight operations moved to the Roswell Industrial Air Center.

A certified weather observer and weather observations must be available at the primary airport within a control zone during the times and dates the control zone is designated and effective. Although control tower personnel at Roswell Industrial Air Center are certified weather observers, the control tower does not operate full time so weather observations are not available for this location at all times. In view of this, the control zone description is being amended to indicate that it is a part time designation.

As this amendment imposes no additional burden on the public, notice and public procedures hereon are deemed unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0001 e.s.t., February 1, 1968, as hereinafter set forth.

In § 71.171 (33 F.R. 2058) the Roswell, N. Mex., control zone is amended by adding, "This control zone will be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual."

A Notice to Airmen has been issued specifying the dates and times the Roswell, N. Mex., control zone will be effective.

mitted in petitions filed by The Norwich Pharmacal Co., Post Office Box 191, Norwich, N.Y. 13815, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use in chicken feed of buquinolate in combinations with procaine penicillin, zinc bacitracin, and bacitracin methylene disalicylate for growth promotion and feed efficiency. Therefore, pursuant to the provisions of the Federal Food, Drug and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.291(a) is amended in the table by adding to item 1.3 three new subitems, as follows:

§ 121.291 Buquinolate.

* * * * *
(a) * * *

BUQUINOLATE IN ANIMAL FEED

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1.3 * * *	* * *	* * *	* * *	* * *	* * *
a. 1.1.....	Penicillin.....	2.4-50	As procaine penicillin.....	Growth promotion and feed efficiency.
b. 1.1.....	Bacitracin.....	4-50	As zinc bacitracin or bacitracin methylene disalicylate.	Do.
c. 1.1.....	Penicillin + bacitracin.	3.0-50	Not less than 0.6 gm. of penicillin nor less than 3 gm. of bacitracin; as procaine penicillin plus zinc bacitracin or bacitracin methylene disalicylate.	Do.

2. Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507(c), 59 Stat. 463, as amended; 21 U.S.C. 357(c)), and delegated as cited above, the Commissioner finds that chicken feed containing combinations of buquinolate and certifiable antibiotics need not comply with the requirements of section 507 to insure their safety and efficacy when used as prescribed in § 121.291. Therefore, § 144.26(b) is amended by adding thereto a new subparagraph, as follows:

§ 144.26 Animal feed containing certifiable antibiotic drugs.

(b) * * *

(61) It is a medicated chicken feed containing antibiotics and buquinolate in the amounts and for the purposes indicated in § 121.291 of this chapter; its labeling bears adequate directions and warnings for such use; and there has been submitted to the Commissioner, in triplicate, adequate information of the kind described in § 146.10 to establish safety and efficacy of the article and to guarantee its identity, strength, quality, and purity. The exemption shall expire

at the beginning of any act changing the composition of such drug, or the methods used in and the facilities and controls used for its manufacturing, processing and packaging, or its labeling, unless the person who obtained the exemption has submitted to the Commissioner, in triplicate, amended information that describes such proposed changes and such amendment has been accepted by the Commissioner.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a

memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

PART 145—ANTIBIOTIC DRUGS; DEFINITIONS AND INTERPRETATIVE REGULATIONS

PART 148w—CEPHALOSPORIN

Cephaloridine

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.120), the antibiotic drug regulations are amended as follows to provide for certification of the antibiotic drug cephaloridine:

1. Section 145.3 is amended by adding to paragraphs (a) and (b) one new subparagraph each, as follows:

§ 145.3 Definitions of master and working standards.

(a) * * *

(37) *Cephaloridine*. The term "cephaloridine master standard" means a specific lot of cephaloridine that is designated by the Commissioner as the standard of comparison in determining the potency of the cephaloridine working standard.

(b) * * *

(37) *Cephaloridine*. The term "cephaloridine working standard" means a specific lot of homogeneous preparation of cephaloridine.

2. Section 145.4(b) is amended by adding thereto a new subparagraph, as follows:

§ 145.4 Definitions of the terms "unit" and "microgram" as applied to antibiotic substances.

(b) * * *

(39) *Cephaloridine*. The term "microgram" applied to cephaloridine means the cephaloridine activity (potency) contained in 1.00806 micrograms of the cephaloridine master standard when dried for 3 hours at 60° C. and a pressure of 5 millimeters or less.

3. Part 148w is amended by adding thereto the following new section:

§ 148w.2 Cephaloridine.

(a) *Requirements for certification—*

(1) *Standards of identity, strength, quality, and purity.* Cephaloridine is 7-[α -(2-thienyl) acetamido] - 3 - (1 - pyridylmethyl) - 3 - cephem-4-carboxylic acid

betaine. It is a white to off-white powder. It is so purified and dried that:

(i) Its potency is not less than 900 micrograms of cephaloridine per milligram.

(ii) It is sterile.

(iii) It is nonpyrogenic.

(iv) It passes the toxicity test.

(v) Its moisture content is not more than 2.5 percent.

(vi) Its pH in an aqueous solution is not less than 3.5 and not more than 6.

(vii) The specific rotation in an aqueous solution containing 10 milligrams of cephaloridine per milliliter at 25° C. is $+48^{\circ} \pm 4^{\circ}$.

(viii) It is crystalline.

(ix) The ultraviolet absorption spectrum between the wavelengths of 220 and 310 millimicrons compares qualitatively to that of the cephaloridine working standard. The ratio of the absorbance of the maximum at the wavelength of 240 millimicrons to that of the shoulder at 225 millimicrons is not less than 1.05 and not more than 1.17.

(2) *Packaging.* In addition to the requirements of § 148.2 of this chapter, if it is packaged for dispensing, each vial shall contain either 500 or 1,000 milligrams of cephaloridine.

(3) *Labeling.* It shall be labeled in accordance with the requirements prescribed by § 148.3 of this chapter. Its expiration date is 12 months.

(4) *Requests for certification; samples.* In addition to the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays of the batch for potency, sterility, pyrogens, toxicity, moisture, pH, specific rotation, crystallinity, and identity.

(ii) Samples of the batch:

(a) If the batch is packaged for repackaging or for use as an ingredient in the manufacture of another drug:

(1) For all tests except sterility: 10 packages, each containing at least 500 milligrams.

(2) For sterility testing: 20 packages, each containing equal portions of approximately 300 milligrams.

(b) If the batch is packaged for dispensing:

(1) For all tests except sterility: A minimum of 13 immediate containers of the batch.

(2) For sterility testing: 20 immediate containers collected at regular intervals throughout each filling operation.

(5) *Fees.* \$5 for each container submitted in accordance with subparagraph (4) (ii) (a) (1) or (b) (1) of this paragraph; \$12 for all containers in the sample submitted in accordance with subparagraph (4) (ii) (a) (2) or (b) (2) of this paragraph; and \$24 for all containers in the sample submitted for any repeat sterility test, if necessary, in accordance with § 141.2(f) of this chapter.

(b) *Tests and methods of assay—*(1) *Potency.* Use either of the following methods; however, the results obtained from the method in subdivision (i) of this subparagraph shall be conclusive:

(i) *Microbiological plate assay.* Proceed as directed in § 148w.1(b)(1)(i), except that: The cephaloridine working

standard is used and the suggested inoculum of the adjusted *Staphylococcus aureus* (ATCC 6538P) suspension is 0.1 milliliter for each 100 milliliters of seed layer agar.

(ii) *Chemical assay.* Proceed as directed in § 148w.1(b)(1)(ii), except use the cephaloridine working standard.

If it is packaged for dispensing, its content of cephaloridine is satisfactory if it contains not less than 90 percent nor more than 115 percent of the number of milligrams of cephaloridine that it is represented to contain.

(2) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e)(1) of that section.

(3) *Pyrogens.* Proceed as directed in § 141a.3 of this chapter, using as a test dose 1 milliliter per kilogram of a solution containing 50 milligrams of cephaloridine per milliliter.

(4) *Toxicity.* Proceed as directed in § 141a.4 of this chapter, using as a test dose 0.5 milliliter of a solution containing 50 milligrams of cephaloridine per milliliter.

(5) *Moisture.* Proceed as directed in § 141a.5(a) of this chapter.

(6) *pH.* Using an aqueous solution containing 250 milligrams of cephaloridine per milliliter, proceed as directed in § 141a.5(b) of this chapter, except if it is packaged for dispensing, use the solution obtained after reconstituting the drug as directed in the labeling.

(7) *Specific rotation.* Proceed as directed in § 148w.1(b)(7), except use an aqueous solution containing 10 milligrams of cephaloridine per milliliter, and a 200-millimeter cell.

(8) *Crystallinity.* Mount a few particles of the sample in mineral oil and examine by means of a polarizing microscope. The particles reveal the phenomena of birefringence and extinction positions as the microscope stage is rotated.

(9) *Identity.* Using a 0.0025 percent solution of the sample in water and a suitable spectrophotometer, record the ultraviolet absorption spectrum from 220 to 310 millimicrons. The spectrum compares qualitatively to that of the cephaloridine working standard similarly tested. The ratio of the absorbance of the maximum absorption peak at the wavelength of 240 millimicrons to that of the shoulder at 255 millimicrons should be not less than 1.05 and not more than 1.17.

Data supplied by the manufacturer concerning the safety and efficacy of the subject antibiotic drug have been evaluated. Since the conditions prerequisite to providing for certification of the drug have been complied with and since it is in the public interest not to delay in providing for such certification, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

PART 148m—OLEANDOMYCIN

Miscellaneous Amendments

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.120), Part 148m of the antibiotic drug regulations is amended in the following respects to effect editorial and technical changes:

1. In § 148m.1(b), subparagraphs (i) (iii) and (viii), (8), and (10) are revised to read as follows:

§ 148m.1 Oleandomycin phosphate.

(b) * * *

(1) * * *

(iii) *Working standard.* Dissolve a suitable weighed quantity (usually 25 milligrams or less) of the working standard in 2 milliliters of ethyl alcohol, then add sufficient 0.1M potassium phosphate buffer, pH 8.0, to give a concentration of 1,000 micrograms of oleandomycin base per milliliter. Store stock solution under refrigeration. Discard unused portion after 30 days.

(viii) *Assay.* Use three plates for each sample. Fill three cylinders on each plate with the standard 5 micrograms per milliliter solution and three cylinders with the 5 micrograms per milliliter (estimated) sample, alternating standard and sample. Incubate all plates, including those containing the standard curve at 32° C.—35° C. overnight, and measure the diameter of each circle of inhibition. To estimate the potency of the sample, average the zone readings of the standard and the zone readings of the sample on the three plates used. If the sample gives a larger zone size than the average of the standard, add the difference between them to the 5 micrograms per milliliter zone on the standard curve. If the average sample value is lower than the standard value, subtract the difference between them from the 5 micrograms per milliliter value on the curve, and read the potencies corresponding to these corrected values of zone sizes. If packaged for dispensing, its content of oleandomycin phosphate is satisfactory if it contains not less than 90 percent and not more than 120 percent of the number of milligrams of oleandomycin that it is represented to contain.

(8) *Residue on ignition.* Proceed as directed in § 141e.401(g) of this chapter, except use a platinum crucible.

(10) *Identity.* Dissolve about 10 milligrams of oleandomycin phosphate in 5 milliliters of hydrochloric acid; a greenish-yellow color is produced.

(a) * * *

(3) * * *

(i) * * *

(a) The triacetyloleandomycin used in making the batch for potency, toxicity, moisture, pH, residue on ignition, identity, R_f value, acetyl value (only if more than one spot is present in the determination of R_f value), and crystallinity.

(ii) * * *

(a) Triacetyloleandomycin used in making the batch: 10 packages, nine containing approximately equal portions of not less than 500 milligrams and one containing not less than 2 grams.

(ii) * * *

(a) Triacetyloleandomycin used in making the batch: 10 packages, nine containing approximately equal portions of not less than 500 milligrams and one containing not less than 2 grams.

Proposed Rule Making

POST OFFICE DEPARTMENT

[39 CFR Ch. 1]

SOLICITATIONS IN THE GUISE OF BILLS OR STATEMENTS OF ACCOUNT

Notice of Proposed Rule Making

Notice is hereby given that the Post Office Department is proposing to adopt the regulations set out below. Regulations on this subject are required by section 4001(c) of Title 39, United States Code as added by section 118 of Public Law 90-206 approved December 16, 1967. That section provides that matter otherwise legally acceptable in the mails which could reasonably be considered a bill, invoice or statement of account due, but is in fact a solicitation for an order, is nonmailable matter, unless it bears on its face the notice prescribed by the law in conspicuous and legible type in contrast by typography, layout or color with other printing on its face, in accordance with regulations of the Postmaster General.

Interested parties are invited to submit written arguments, data, and views regarding the proposed regulations within 20 days after publication of this notice in the FEDERAL REGISTER to the General Counsel, Post Office Department, Washington, D.C. 20260. Since the provision of law which the proposed regulations are designed to implement becomes effective April 6, 1968, it is impracticable to give interested persons a longer period to submit their written arguments, data, and views. It is anticipated that the rules finally adopted will be published at least 30 days prior to April 6, 1968, the mandatory effective date.

(1) Each solicitation subject to 39 United States Code 4001(c) shall prominently display the following prescribed notice:

This is a solicitation for the order of goods and/or services and not a bill, invoice, or statement of account due. You are not under obligation to make any payments on account of this offer unless you accept this offer.

(2) The prescribed notice shall be printed on the face of the solicitation.

(a) In a size not smaller than the type size used for printing any other word on the solicitation nor under any circumstances shall it be less than 12 point type.

(b) In no less conspicuous type than the boldest type used to print other words on the solicitation.

(3) The background on which the prescribed notice is printed shall not diminish the contrast between the back-

ground and the printing so that it is less than the contrast between the background and the printing of any other words on the face of the solicitation.

(4) There shall be a clear space no less than one-quarter of an inch surrounding the prescribed notice.

(5) The prescribed notice shall be printed in boldface type capital letters.

(6) In the case of a solicitation for the order of goods not involving services the following may be omitted from the prescribed notice: "And/or services." Similarly, in the case of a solicitation for the order of services not involving goods the following may be omitted from the prescribed notice: "Goods and/or."

(7) No solicitation shall state that it has been approved by the Post Office Department or by the Postmaster General or that it conforms to any Federal law or regulations issued thereunder.

(8) Notwithstanding 39 United States Code 4001(c) and these regulations, users of the mail retain full responsibility for conducting their operation so as not to violate the postal fraud laws, 18 United States Code 1341, 39 United States Code 4005, and any other applicable Federal or State laws.

[Docket No. 67-EA-150]

AIRWORTHINESS DIRECTIVES

Piper Aircraft

The Federal Aviation Administration is considering amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Piper Airplanes PA-23-250.

There have been instances of cracks in engine mounts of the PA-23-250 which could result in failure and resultant damage to the engine and aircraft. Since this condition is likely to exist in airplanes of the same type design the proposed airworthiness directive would require repetitive inspections for cracks and replacement when necessary of engine mounts.

Interested persons are invited to participate in the making of the proposed rule by submitting written data and views. Communications should identify the docket number and be submitted in duplicate to the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before taking action upon the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments will be available in the Office of Regional Counsel for examination by interested parties.

In consideration of the foregoing, it is proposed to issue a new airworthiness directive as hereinafter set forth:

Amend § 39.13 of Part 39 of the Federal Aviation Regulations so as to add a new airworthiness directive applicable to Piper Aircraft as follows:

PIPER. Applies to Type PA-23-250 airplanes Serial Nos. 27-2505 and up having engine mounts date-stamped prior to May 26, 1965.

Compliance is required within the next 50 hours' time in service after the effective date of this AD unless already accomplished within the last 50 hours' time in service and thereafter at intervals not to exceed 100 hours' time in service from the last inspection.

To detect cracks prior to possible failure of the engine mount accomplish the following:

(a) Visually inspect the engine mount for cracks in the following areas:

(1) The lower forward lateral tube;
(2) The three-tube horizontal diagonal truss, in and around the three welded junctures with the lower forward lateral tube and the lower left horizontal fore-and-aft tube, and

(3) The lower left horizontal fore-and-aft tube.

(b) If cracks are found, replace the engine mount prior to further flight with a new engine mount or one which has been in-

spected for and in which no cracks have been found or repair the engine mount in accordance with FAR Part 43. Conduct a magnetic particle, or equivalent method, inspection of the entire engine mount for cracks prior to approval of a repaired engine mount.

NOTE: A pictorial description of the affected areas can be found in Piper Service Letter No. 462. The engine mount is date-stamped on either of the two diamond-shaped gusset plates located near the upper firewall attachment points.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Jamaica, N.Y., on January 29, 1968.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter controlled airspace in the Clovis, N. Mex., terminal area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, Tex. 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

Changes proposed in controlled airspace will accommodate instrument approach/departure procedures serving the Clovis Municipal Airport and Cannon AFB, as well as provide adequate airspace to permit necessary vectoring of instrument operations within this area.

The Clovis, N. Mex., control zone described in § 71.171 (32 F.R. 2084) would be amended to read as follows:

CLOVIS, N. Mex.

Within a 6-mile radius of Cannon AFB, N. Mex. (lat. 34°23'01" N., long. 103°18'58" W.); within 2 miles each side of the Cannon AFB TACAN 040° radial (028° magnetic) extending from the 6-mile radius zone to 9.5 miles northeast of the TACAN; within 2 miles each side of a 045° bearing (033° magnetic) from lat. 34°18'48" N., long. 103°25'12" W., extending from the 6-mile radius zone to lat. 34°18'48" N., long. 103°25'12" W.; within 2 miles each side of the Cannon AFB TACAN 230° radial (218° magnetic) extending from the 6-mile radius zone to 9.5 miles southwest of the TACAN, and within 2 miles each side of the Cannon AFB TACAN 232° radial (220° magnetic) extending from the 6-mile radius zone to 7 miles southwest of the TACAN.

The Clovis, N. Mex., transition area described in § 71.181 (32 F.R. 2169) would be amended as follows:

CLOVIS, N. Mex.

That airspace extending upward from 700 feet above the surface within a 23-mile radius of Cannon AFB, Clovis, N. Mex. (lat. 34°23'01" N., long. 103°18'58" W.); within 2 miles each side of a line from the Clovis Municipal Airport (lat. 34°25'38" N., long. 103°04'44" W.) extending from the 23-mile radius area to the Texico, Tex., VORTAC; within 2 miles each side of a 057° bearing (045° magnetic) from lat. 34°27'30" N., long. 103°01'30" W., extending from the 23-mile radius area to 8 miles northeast of lat. 34°27'30" N., long. 103°01'30" W.; within 2 miles each side of a line from lat. 34°27'30" N., long. 103°01'30" W., extending from the 23-mile radius area to the Texico, Tex., VORTAC; and that airspace extending upward from 1,200 feet above the surface within a 52-mile radius of Cannon AFB.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Fort Worth, Tex., on January 22, 1968.

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter the Lafayette, La., control zone and transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, Tex. 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with

Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

The Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

(1) In § 71.171 (32 F.R. 2108), the Lafayette, La., control zone is amended by substituting "VORTAC" for "VOR" wherever it appears.

(2) In § 71.181 (32 F.R. 2209, 16,202), the Lafayette, La., transition area 700-foot portion is amended by adding " * * * within a 5-mile radius of the Abbeville Municipal Airport (lat. 29°58'19" N., long. 92°05'06" W.); and within 2 miles each side of the Lafayette VORTAC 207° (200° magnetic) radial, extending from the VORTAC to the Abbeville Municipal Airport;" and by substituting "VORTAC" for "VOR" wherever it appears.

This action will provide controlled airspace necessary for instrument approach/departure procedures proposed for the Abbeville Municipal Airport, Abbeville, La. Since the Lafayette VOR has been replaced with a VORTAC, the substitution of "VORTAC" for "VOR" is necessary to correct the airspace descriptions.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Fort Worth, Tex., on January 24, 1968.

FEDERAL AIRWAYS

Proposed Alteration and Revocation

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations that would accomplish the following actions:

1. Redesignate V-429 from Cape Girardeau, Mo., 1,200 feet AGL to Marion, Ill., 1,200 feet AGL INT Marion 011° T (007° M) and Bible Grove, Ill., 207° T (204° M) radials; 1,200 feet AGL Bible Grove; 1,200 feet AGL Mattoon, Ill.; 1,200 feet AGL Champaign, Ill.

2. Revoke the segment of V-313 east alternate from Cape Girardeau to Centralia, Ill., via Marion, Ill.

3. Designate V-191 east alternate from Decatur, Ill., 1,200 feet AGL via Champaign, 1,200 feet AGL to Roberts, Ill.

4. Realign V-52 from Troy, Ill., via INT Troy 099° T and Evansville, Ind., 311° T (308° M) radials; to Evansville.

The redesignation of V-429 would provide a numbered route in controlled airspace for aircraft operating in accordance with Instrument Flight Rules between Cape Girardeau, Marion, Mount Vernon, Mattoon, and Champaign. The segment of V-313 east alternate between Cape Girardeau and Marion could be revoked as this segment would be covered by V-429 and V-179. Designation of V-191 east alternate would provide a numbered airway between Decatur and Champaign served by V-429 in its original alignment. The realignment of the Evansville segment of V-52 would provide a common intersection of V-52 with V-429 and V-446 and would enhance aeronautical chart legibility.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Mo. 64106. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. An informal docket also will be available for examination at the Office of the Regional Air Traffic Division Chief.

These actions are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Washington, D.C., on January 30, 1968.

The primary air carrier direct route from Muscle Shoals, Ala., direct to Tuscaloosa, Ala., is not presently contained in controlled airspace. The proposed addition to the Birmingham 1,200-foot transition area west of Birmingham is required to provide this protection.

The proposed addition to the Birmingham 1,200-foot transition area northeast of Birmingham is required to provide controlled airspace protection for radar vectoring of aircraft arriving and departing the Birmingham area.

The official docket will be available for examination by interested persons at the Southern Regional Office, Federal Aviation Administration, Room 724, 3400 Whipple Street, East Point, Ga.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)).

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt Rule 51 (17 CFR 250.51) under the Public Utility Holding Company Act of 1935 ("Act") (15 U.S.C. 79a et seq.).

Section 9(a) of the Act makes it unlawful unless the acquisition has been approved by the Commission for a regis-

tered holding company or subsidiary company thereof to acquire any securities or utility assets or any interest in any business. Certain acquisitions by other persons also require prior approval of the Commission. Rule 51 (17 CFR 250.51) defines the term "acquire" as used in section 9(a) of the Act.

The purpose of the rule is to make clear what steps a person whose proposed acquisition requires Commission approval may take in advance of such approval. Two recent cases, both of which involved invitations for tenders from public security holders, have indicated the desirability of clarification in this area.

The proposed rule takes into account the possibility that an application for approval of an acquisition under section 10 of the Act, particularly a contested one, may take a substantial period of time for disposition, and contemplates the possibility of issuance of interim certificates of deposits with the approval of the Commission, after a hearing limited to the fairness of the interim exchange. Pending further experience the Commission has not attempted advance prescription of the certificate of deposit terms which might be considered fair, but it will be necessary, on a case by case basis, to give consideration to such matters as provision for interim voting rights and dividends, possible adjustment of the proposed tender price for accumulated undistributed earnings since the date of the invitation for tenders and like matters.

The text of the proposed rule is as follows:

**§ 250.51 Definition of "acquire" as used
in section 9(a) of the Act—preliminary
agreements.**

(a) For the purpose of section 9(a) of the Act the term "acquire" is defined to include the making of a contract or agreement (herein called Preliminary Agreement) pursuant to which a person subject to section 9(a) (of the Act) (herein called the Proposed Acquirer) acquires, or becomes subject to, any right or obligation (contingent or otherwise) to purchase or acquire directly or indirectly any securities or utility assets or any interest in any business subject to section 9(a) (of the Act), and the making of such Preliminary Agreement or the taking of any action in connection therewith, without prior approval of the Commission, by any person subject to section 9(a) (of the Act) shall be deemed unlawful, unless each of the following conditions is satisfied:

(1) Consummation of the Preliminary Agreement is subject to approval of the Commission and the application for such approval is filed as promptly as practical after execution of the Preliminary Agreement.

(2) No fees, commissions or other remuneration are paid by or on behalf of the Proposed Acquirer in connection with the making of the Preliminary Agreement, and any agreement in connection therewith for the payment of any such fees, commissions, or other remuneration, or to indemnify any other person for any loss or expense, whether or not

the Preliminary Agreement shall be consummated, is subject to the approval of the Commission.

(3) The Proposed Acquirer does not acquire, or purport to exercise, without prior approval of the Commission, any right to assign the Preliminary Agreement or any interest therein.

(4) The Proposed Acquirer does not cause any other person to acquire, except as a depository in conformity with subparagraph (5) of this paragraph any interest (contingent or otherwise) in the subject matter of the proposed acquisition, or any part thereof, pursuant to any understanding whereby the Proposed Acquirer has rights or obligations with respect to such subject matter.

(5) If the Preliminary Agreement results from a public invitation for tenders of securities, provisions are made for release of each person tendering such securities (the Tenderer) from all commitment with respect to the tendered securities, and for return of any deposited security to the Tenderer, on written demand therefor, if such demand is made after the expiration of 60 days from the mailing or publication of the invitation or such longer period as the Commission may approve, unless prior to such written demand either (i) the Commission shall have approved consummation of the acquisition and any other conditions precedent to a binding commitment to consummate the acquisition shall have been satisfied, or (ii) the Commission shall have approved issuance to the Tenderer of a transferable certificate of deposit upon terms specified in the invitation for tenders, except that the invitation for tenders may specify that the terms of the proposed certificate of deposit as stated in the invitation for tenders may be modified in such respects as the Commission may require or approve, but subject to the right of the Tenderer to withdraw the tendered security within 10 days after receipt of written notice of any such modification if such modification is in any material way adverse to the Tenderer. Commission approval of the issuance of a certificate of deposit, as initially proposed or as required to be modified, shall be after hearing limited to the fairness of the terms and conditions of such issuance in exchange for the tendered security, and all persons to whom it is proposed to issue the certificate of deposit will be entitled to appear at such hearing.

(Sec. 20(a), 49 Stat. 833, 15 U.S.C. 79t(a))

All interested persons are invited to submit views and comments on the proposed rule. Written statements of views and comments in respect of the proposed rule should be submitted to the Securities and Exchange Commission, Washington, D.C. 20549, on or before February 26, 1968. All such communications will be available for public inspection.

By the Commission.

Secretary.

Agency for International Development HOUSING PROJECTS IN LATIN AMERICAN COUNTRIES

Notice of Change of Dates for Acceptance of Applications

The Agency for International Development announced in the FEDERAL REGISTER on August 19, 1967, the reopening of the Housing Guaranty Program for pilot demonstration projects in five Latin American countries. The purpose of this notice is to announce that the terminal dates on which applications may be accepted for Panama and British Honduras have been extended from January 15, 1968, and February 15, 1968, respectively to March 15, 1968, for both countries. The terminal date for acceptance of applications in Jamaica is also being extended and a new terminal date will be announced at a later date.

Applications under the Program will be accepted by A.I.D. only at the office of the A.I.D. Mission in Panama or Jamaica or the U.S. Consulate in British Honduras only during the first 15 days of the month in which applications are due, in accordance with the schedule which follows:

Country	Terminal date
Panama	Mar. 15, 1968.
British Honduras	Do.
Jamaica	To be announced.

Applications will be accepted during ordinary business hours Monday through Friday from the first day of the month until close of business on the terminal dates shown.

The following "Special Addendum" for Panama and British Honduras have been publicly announced by the USAID Mission in Panama and the U.S. Consulate in British Honduras.

SPECIAL ADDENDUM FOR PANAMA

In Panama, the need for housing costing substantially less than the \$7,500 maximum sales price specified in the attached announcement is so critical that USAID Mission to Panama will give preference to those applications which propose houses whose sales price is in the vicinity of \$4,000, and preferably less. This would enable families earning as little as \$150 per month to purchase these houses. Because the most critical need for housing exists in the urban centers of Panama City and Colon, pilot demonstration projects planned to serve only these two urban centers will be considered. Mortgage repayments by homebuyers will be in U.S. dollars.

SPECIAL ADDENDUM FOR BRITISH HONDURAS

1. *Location.* Preference may be given to applications which propose a division of total residential units between sites in Belize City and new capital of Roaring Creek. This will not preclude favorable consideration of ap-

plications for construction of residential units at other sites.

2. *Sales Prices.* Preferences will be given to applications which propose sales prices within a range of BH \$5,000 and BH \$9,000. (US \$3,000-US \$5,400).

3. *Construction Materials.* Preference will be given to applications which propose use of native BH materials either directly in construction or indirectly through manufacturing process of items utilized in construction.

4. *Government Approval.* Approval of plans, specifications, and construction sites by BH Government will be required.

Dated: January 26, 1968.

Deputy U.S. Coordinator,

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation
SALES OF CERTAIN COMMODITIES

February 1968 Sales List

Notice to buyers. Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F.R. 6669), and subject to the conditions stated therein as well as herein, the commodities listed below are available for sale and, where noted, for redemption of payment-in-kind certificates on the price basis set forth.

The U.S. Department of Agriculture announced the prices at which CCC commodity holdings are available for sale beginning at 3 p.m., e.s.t., on January 31, 1968, and, subject to amendment continuing until superseded by the March Monthly Sales List.

The following commodities are available: Cotton (upland and extra long staple), wheat, corn, oats, barley, rye, rice, grain sorghum, peanuts, flax, tung oil, butter, cheese, and nonfat dry milk. Nonfat dry milk has been added for export sale.

Information on the availability of commodities stored in Commodity Credit Corporation bin sites may be obtained from ASCS State offices shown at the end of the sales list, and for commodities stored at other locations from ASCS commodity and grain offices also shown at the end of the list.

Corn, oats, barley, or grain sorghum, as determined by CCC, will be sold for unrestricted use for "Dealers' Certificates" issued under the emergency livestock feed program. Grain delivered against such certificates will be sold at the applicable current market price, determined by CCC.

In the following listing of commodities and sales prices or method of sales, "unrestricted use" applies to sales which permit either domestic or export use and "export" applies to sales which require export only. CCC reserves the right to determine the class, grade, quality and available quantity of commodities listed for sale.

The CCC Monthly Sales List, which varies from month to month as additional commodities become available or commodities formerly available are dropped, is designed to aid in moving CCC's inventories into domestic or export use through regular commercial channels.

If it becomes necessary during the month to amend this list in any material way—such as by the removal or addition of a commodity in which there is general interest or by a significant change in price or method of sale—an announcement of the change will be sent to all persons currently receiving the list by mail from Washington. To be put on this mailing list, address: Director, Procurement and Sales Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Interest rates per annum under the CCC Export Credit Sales Program (Announcement GSM-3 or 4) for February 1968 are 6 percent for U.S. bank obligations and 7 percent for foreign bank obligations. Commodities now eligible for financing under the CCC Export Credit Sales Program include wheat, wheat flour, barley, bulgur, corn, cornmeal, grain sorghum, upland and extra long staple cotton, tobacco, cottonseed oil, soybean oil, dairy products, tallow, and beef breeding cattle. Commodities purchased from CCC may be financed for export as private stocks under Announcement GSM-4.

Information on the CCC Export Credit Sales Program and on commodities available under Title I, Public Law 480, private trade agreements, and current information on interest rates and other phases of these programs may be obtained from the Office of the General Sales Manager, Foreign Agricultural Service, U.S. Department of Agriculture, Washington, D.C. 20250.

The following commodities are currently available for new and existing barter contracts: Oats, cotton (upland and extra long staple), and tobacco. Wheat and grain sorghum are also available under conditions noted in the individual commodity listings. (In addition, free market stocks of corn, grain sorghum, wheat, and wheat flour, under Announcement PS-1; tobacco under Announcement PS-3; and cottonseed oil and soybean oil under Announcement PS-2 are eligible for programing in connection with barter contracts covering procurements for Federal agencies that will reimburse CCC except that Hard Red Winter, Hard Red Spring, and durum wheats, and flour produced from those wheats, may not be exported through west coast ports, nor may Hard Red Winter wheat 13 percent or higher

protein be exported from Gulf Coast ports under announcement of January 2, 1968, pertaining to quality incremental subsidy. Further information on private-stock commodities may be obtained from the Office of Barter and Stockpiling, Foreign Agricultural Service, USDA, Washington, D.C. 20250.

The CCC will entertain offers from responsible buyers for the purchase of any commodity on the current list. Offers accepted by CCC will be subject to the terms and conditions prescribed by the Corporation. These terms include payment by cash or irrevocable letter of credit before delivery of the commodity, and the conditions require removal of the commodity from CCC stocks within a reasonable period of time. Where sales are for export, proof of exportation is also required, and the buyer is responsible for obtaining any required U.S. Government export permit or license. Purchases from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

Applicable announcements containing all terms and conditions of sale will be furnished upon request. For easy reference a number of these announcements are identified by code number in following list. Interested persons are invited to communicate with the Agricultural Stabilization and Conservation Service, USDA, Washington, D.C. 20250, with respect to all commodities or—for specified commodities—with the designated ASCS commodity office.

Commodity Credit Corporation reserves the right to amend from time to time, any of its announcements. Such amendments shall be applicable to and be made a part of the sale contracts thereafter entered into.

CCC reserves the right to reject any or all offers placed with it for the purchase of commodities pursuant to such announcements.

CCC reserves the right to refuse to consider an offer, if CCC does not have adequate information of financial responsibility of the offerer to meet contract obligations of the type contemplated in this announcement. If a prospective offerer is in doubt as to whether CCC has adequate information with respect to his financial responsibility, he should either submit a financial statement to the office named in the invitation prior to making an offer, or communicate with such office to determine whether such a statement is desired in his case. When satisfactory financial responsibility has not been established, CCC reserves the right to consider an offer only upon submission by offerer of a certified or cashier's check, a bid bond, or other security, acceptable to CCC, assuring that if the offer is accepted, the offerer will comply with any provisions of the contract with respect to payment for the commodity and the furnishing of

performance bond or other security acceptable to CCC.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate ASCS office promptly upon appearance and therefore, generally, they do not appear in the Monthly Sales List.

On sales for which the buyer is required to submit proof to CCC of exportation, the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions and have a person, principal or resident agent upon whom service of judicial process may be had.

Prospective buyers for export should note that generally, sales to United States Government agencies, with only minor exceptions will constitute domestic unrestricted use of the commodity.

Commodity Credit Corporation reserves the right, before making any sales, to define or limit export areas.

The Department of Commerce, Bureau of International Commerce, pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or re-exportation by anyone of any commodities under this program to Cuba, the Soviet Bloc or Communist-controlled areas of the Far East including Communist China, North Korea, and the Communist-controlled area of Viet Nam except under validated license issued by the U.S. Department of Commerce, Bureau of International Commerce.

For all exportations, one of the destination control statements specified in Commerce Department Regulations (Comprehensive Export Schedule § 379.10(c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of International Commerce or one of the field offices of the Department of Commerce.

Exporters should consult the applicable Commerce Department regulations for more detailed information if desired and for any changes that may be made therein.

Atlantic proposes rate increases under its FPC Gas Rate Schedule No. 160 for gas sold to Texas Eastern Transmission Corp. from various fields located in Texas Railroad District Nos. 1 and 2. The 14.8733 cents and 15.3733 cents rate increases pertain to gas produced in fields other than the Loma Alta Field, McMullen County, Tex., and amount to \$7.110 annually. The rates proposed in such increases exceed the area's increased ceiling rate as established by the second amendment to the Commission's statement of general policy No. 61-1 and should be suspended for 5 months from February 5, 1968, the proposed effective date. The 14.6 cents rate increase pertains to gas produced, dehydrated and delivered at a central point in the Loma Alta Field, against pressures existing in Buyer's line provided such pressures do not exceed 1,200 p.s.i.g., amounts to \$157 annually. The rate proposed in such increase does not exceed the area's increased ceiling rate for pipeline quality gas as established by the seventh amendment to the Commission's statement of general policy No. 61-1 and we conclude that it should be accepted for filing and permitted to become effective as of February 5, 1968, the proposed effective date.

The proposed 14.8733 cents and 15.3733 cents per Mcf rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) The 14.6 cents per Mcf rate applicable to acreage in the Loma Alta Field, McMullen County, Tex., contained in Supplement No. 27 to Atlantic's FPC Gas Rate Schedule No. 160 should be accepted for filing and be permitted to become effective February 5, 1968, the proposed effective date, and the proceedings in Docket No. RI63-312, insofar as such proceeding pertains to gas produced from the Loma Alta Field, McMullen County, Tex., should be terminated and Atlantic relieved of any refund obligations related thereto.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the 14.8733 cents and 15.3733 cents per Mcf rates contained in Supplement No. 27 to Atlantic's FPC Gas Rate Schedule No. 160, and such supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) The 14.6 cents per Mcf rate applicable to acreage in the Loma Alta Field, McMullen County, Tex., contained

in Supplement No. 27 to Atlantic's FPC Gas Rate Schedule No. 160, is accepted for filing and permitted to become effective on February 5, 1968, the proposed effective date.

(B) The proceeding in Docket No. RI63-312, insofar as such proceeding pertains to gas produced from the Loma Alta Field, McMullen County, Tex., is terminated and Atlantic is relieved of any refund obligation with respect thereto.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges (14.8733 cents and 15.3733 cents) contained in the above-designated supplement.

(D) Pending such hearing and decision thereon, Atlantic's aforementioned rate supplement is hereby suspended and the use thereof deferred until July 5, 1968, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(E) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(F) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before March 18, 1968.

By the Commission.

BROOKS GAS CORP.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

JANUARY 31, 1968.

Respondent named herein has filed a proposed change in rate and charge of a currently effective rate schedule for the sale of natural gas under Commission

jurisdiction, as set forth in appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be referred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act: *Provided, however,* That the supplement to the rate schedule filed by Respondent shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order Respondent shall execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of a copy thereof upon the purchaser under the rate schedule involved. Unless Respondent is advised to the contrary within 15 days after the filing of its agreement and undertaking, such agreement and undertaking shall be deemed to have been accepted.

(C) Until otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before March 15, 1968.

By the Commission.

‡ Pressure base is 14.65 p.s.i.a.

Brooks Gas Corp. (Brooks) proposes a periodic rate increase, from 16 cents to 17 cents per Mcf, for gas sold to Northern Natural Gas Co. from the Velreux Field, Schleicher County, Tex. (Railroad District No. 7-C) (Permian Basin Area). Brooks filed a quality statement for the subject sale, showing the applicable area ceiling rate of 17.08 cents per Mcf, consisting of an area base rate of 16.5 cents per Mcf, plus 0.58-cent per Mcf B.t.u. price adjustment. The quality statement was not signed by the buyer. Even though the proposed rate appears to be within the applicable area ceiling determined in Permian, we believe it should be suspended for 1 day from February 5, 1968, the proposed effective date, because Brooks has not filed a quality statement executed by the buyer. At such time as Brooks files a quality statement, signed by the buyer, that establishes an applicable area rate equal to or in excess of the rate proposed herein, the suspension proceeding ordered herein may be terminated.

[Docket No. E-7355]

BUCKEYE POWER, INC., AND OHIO POWER CO.

Notice of Supplemental Application

FEBRUARY 1, 1968.

Take notice that on January 22, 1968, Buckeye Power, Inc. (Buckeye), incorporated under the laws of the State of Ohio with its principal place of business at Columbus, Ohio, and Ohio Power Co. (Ohio Power), incorporated under the laws of the State of Ohio with its principal place of business at Canton, Ohio, jointly filed a supplemental application in the above-entitled proceeding for an order, supplemental to the Commission's orders issued August 4 and 28, 1967, under section 205 of the Federal Power Act, section 5(d) of the Administrative Procedure Act, and § 1.7(c) of the Commission's rules of practice and procedure, (1) determining and declaring that the provisions, rates, and charges specified in certain proposed contracts which were filed as a part of the supplemental application are, in each case, just and reasonable within the meaning of section 205 (a) of the Federal Power Act and do not make or grant any undue preference to any person or maintain any unreasonable difference in rates, charges, service or facilities within the meaning of section 205(b) of the Federal Power Act; and (2) approving each such proposed contract as a lawful rate schedule under the Federal Power Act and authorizing, upon the execution of such proposed contracts by the parties thereto, the filing of the proposed contracts with the Commission and the acceptance for filing of the proposed contracts by the Commission as initial rate schedules within the meaning of Part 35 of the Commission's regulations under the Federal Power Act. In addition, Buckeye and Ohio Power request in their supplemental application that the Commission "reactivate" the joint application filed by Buckeye and Ohio Power on May 22, 1967, as amended, in Docket No. E-7355 and authorize, pursuant to sections 203 and 204 of the

Federal Power Act, certain proposed transactions described hereinafter.

By order issued August 4, 1967, in Docket No. E-7355, the Commission granted the afore-mentioned joint application to the extent of authorizing Buckeye, under sections 203 and 204 of the Federal Power Act, to (1) acquire from Ohio Power a 615,000 kw. generating unit, designated as Unit Two, and related facilities in the Cardinal Station, a steam electric generating plant constructed by Ohio Power near Brilliant, Ohio; (2) acquire 250 shares of Capital Stock of Cardinal Operating Co., an Ohio corporation organized by Buckeye and Ohio Power to operate the Cardinal Station as agent for Buckeye and Ohio Power; and (3) issue and sell \$62 million principal amount of first mortgage bonds, 6½ percent series, due 1997, to certain institutional investors and \$2 million principal amount of promissory notes, 6¼ percent, due 1969, to certain banks for the purpose of financing the acquisition of Unit Two and related facilities, all as fully set forth in that order.

The Commission expressly declined in its order of August 4, 1967 to determine the lawfulness of certain proposed contracts as rate schedules within the purview of sections 205 and 206 of the Federal Power Act. Buckeye, Ohio Power, Cardinal Operating Co., Ohio Edison Co., The Cincinnati Gas & Electric Co., Columbus and Southern Ohio Electric Co., The Dayton Power and Light Co., Monongahela Power Co., The Toledo Edison Co., and Buckeye's rural electric cooperative members are the prospective parties to one or more of such contracts, which would provide for, among other things, the operation of the Cardinal Station and the transmission, delivery and sale of the output of Unit Two.

By order issued August 28, 1967, in Docket No. E-7355, the Commission denied the application of Buckeye and Ohio Power for rehearing and reconsideration of the Commission's order of August 4, 1967.

The authorization granted by the Commission's order of August 4, 1967, expired, by its terms, unless the transactions authorized by that order were consummated within 90 days from the date of issuance of the order. The supplemental application filed January 22, 1968, recites that such transactions were not consummated within the 90-day period and requests that the Commission again authorize those transactions.

Buckeye and Ohio Power state in their supplemental application filed January 22, 1968 that changes have been made in the proposed contracts which were submitted as exhibits to the joint application filed May 22, 1967, and that such changes are reflected in the revisions of those contracts which were filed as part of the supplemental application. According to Buckeye and Ohio Power, the "principal changes * * * are * * * necessitated by the passage of time and the fact of completion of construction of Unit Two * * *." The supplemental application also represents that changes in the "substantive terms" of the Buck-

eye Bonds and Promissory Notes are not contemplated "in any material respect".

Any person desiring to be heard or to make any protest with reference to the supplemental application, referred to above, should on or before February 26, 1968, file with the Federal Power Commission, Washington, D.C. 20426, a petition or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The supplemental application is on file with the Commission and available for public inspection.

Notice of Application

JANUARY 23, 1968.

Take notice that on January 11, 1968, the town of New Roads, La. (Applicant), filed in Docket No. CP68-195 an applica-

tion pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Texas Eastern Transmission Corp. (Respondent) to establish physical connection of its transmission facilities with the facilities to be constructed by Applicant and to sell and deliver to Applicant volumes of natural gas for distribution and resale through Applicant's existing distribution system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant presently operates a municipal gas distribution system serving the residents and businesses of New Roads and a municipally owned and operated electric power plant. Applicant states that its present natural gas requirements are supplied by Humble Gas Transmission Co., but in order to meet the future requirements of its system, Applicant has determined that the most economically feasible method of providing continued and dependable natural gas supply would be to construct a new 6-inch transmission line from a proposed point of delivery from Respondent.

Applicant, therefore, requests that Respondent be ordered to establish physical connection of its transmission facilities with the facilities to be constructed by Applicant and to sell and deliver to Applicant volumes of natural gas for resale and distribution through Applicant's existing distribution system.

The estimated 1970 peak day and annual requirements of Applicant's system are 389,400 Mcf and 2,610 Mcf, respectively.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 16, 1968.

A supplemental order of the Commission, Operating Rights Board dated December 29, 1967, and served January 25, 1968, as modified, finds that the present and future public convenience and necessity require operation by applicant in interstate and foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) *business papers, records, and audit and accounting media* (except cash letters), (a) between points in Hartford County, Conn., on the one hand, and, on the other, points in Atlantic, Cumberland, and Camden Counties, N.J.; (b) between points in Middlesex County, Conn., on the one hand, and, on the other, points in Middlesex County, N.J.; Onondago and Erie Counties, N.Y.; and Middlesex County, Mass.; and New York, N.Y.; (c) between Braintree, Mass., on the one hand, and, on the other, Plainfield, Toms River, Wayne, Cedar Grove, and New Brunswick, N.J.; and New York, N.Y.; (d) between Jackson, Mich., on the one hand, and, on the other, Van Wert and Youngstown, Ohio; (e) between Cleveland, Ohio, on the one hand, and, on the other, Buffalo and Rochester, N.Y.; (f) between Waterville, Maine, on the one hand, and, on the other, Lowell, Mass.; and (g) between Braintree, Mass., on the one hand, and, on the other, South Plainfield, N.J.

(2) Cotton piece goods, between points in Hartford County, Conn., on the one

hand, and, on the other, points in Atlantic, Cumberland and Camden Counties, N.J., restricted against the transportation of packages or articles weighing in the aggregate more than 45 pounds from one consignor to one consignee on any one day; (3) *payroll checks*, (a) between points in Middlesex County, Conn., on the one hand, and, on the other, points in Middlesex County, N.J.; Onondaga and Erie Counties, N.Y.; New York, N.Y.; and Middlesex County, Mass.; (b) between Jackson, Mich., on the one hand, and, on the other, Van Wert and Youngstown, Ohio; (c) between Waterville, Maine, on the one hand, and, on the other, Lowell, Mass.; (4) *exposed and processed microfilm and facsimiles*, between Cleveland, Ohio, on the one hand, and, on the other, Buffalo and Rochester, N.Y.; (5) *exposed and processed film and prints, complimentary replacement film, incidental dealer handling supplies and advertising literature* moving therewith (excluding motion picture film used primarily for commercial theater and television exhibition) between Cincinnati, Ohio, on the one hand, and on the other, points in Indiana and Kentucky; (6) *garments and swatches of cloth* for testing and research purposes moving at the same time and in the same vehicles with business papers, records, and audit and accounting media (except cash letters), otherwise authorized, between Waterville, Maine, on the one hand, and on the other, Lowell, Mass.

(7) *Cut flowers and decorative greens*, between points in Illinois, restricted to the transportation of traffic having a prior or subsequent movement by air; (8) *ophthalmic goods and commercial papers* (except cash letters), between Columbus, Ohio, on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, Maryland, Michigan, Pennsylvania, and West Virginia; and (9) *flexible hose lines, fittings, adapters, couplings, and other fluid ducting components*, between Jackson, Mich., on the one hand, and, on the other, Van Wert and Youngstown, Ohio, restricted against the transportation of packages or articles weighing in the aggregate more than 75 pounds from one consignor to one consignee on any one day; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The holding by applicant of the certificate authorized to be issued in this proceeding and of the permits issued or authorized to be issued in Nos. MC-112750 and subs thereunder, will be consistent with the public interest and national transportation policy. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this pro-

ceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 114045 (Sub-No. 286) (Republication), filed August 8, 1967, published FEDERAL REGISTER issue of August 25, 1967, and republished this issue. Applicant: TRANS-COLD EXPRESS, INC., Post Office Box 5842, Dallas, Tex. 75222. Applicant's representative: R. L. Moore (same address as applicant). An order of the Commission, Operating Rights Board dated December 27, 1967, and served January 31, 1968, as amended, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes of (1) *unexposed photographic paper, unexposed photographic film, photographic plates, photographic chemicals, advertising matter, matrix and surface coated paper* (not printed), in vehicles equipped with mechanical refrigeration and (2) *camera and camera outfits, and reproducing machines*, in mixed loads with the commodities in (1) above, from Teterboro, N.J., to points in Oklahoma, Texas, and California; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

A supplemental order of the Commission, Operating Rights Board dated December 29, 1967, and served January 24, 1968, as modified, finds that the present and future public convenience and necessity require operation by applicant, as a common carrier by motor vehicle, over irregular routes, of *alcoholic liquors*, in bulk, in tank vehicles.

(1) In foreign commerce only, from points in New York, New Jersey, Pennsylvania, and Maryland, to Peoria, Ill., San Francisco, Calif., and Port Huron and Detroit, Mich.; (2) in foreign commerce only, from points in New York, New Jersey, Pennsylvania, Maryland, Virginia, and Delaware, to Pekin, Ill., and Union City, Calif.; (3) in interstate or foreign commerce, from Lawrenceburg and Louisville, Ky., and Muscatine, Iowa, to Seattle, Wash., and San Francisco, Calif.; and (4) in interstate or foreign commerce, from Atchison, Kans., to Seattle, Wash.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder.
