THIS INDEX is based on a consolidation of contents entries appearing in the January-December subject references. The entries are arranged first under the name of the agency which issued the document. Under each agency, the entries are then listed alphabetically within the categories of Rules, Proposed Rules, and Notices. Executive Orders, Proclamations, and other documents from the President are listed under Presidential Documents. The number at the end of each entry gives the pages in the **Federal Register** where the document begins. Use the table of Federal Register Pages and Dates at the back of this index to locate the issue date for each page number. This index is published monthly and is cumulated for 12 months.

A general index to the entire Code of Federal Regulations, is found in the CFR Index and Finding Aids volume, and is revised as of January 1 each year.

The LSA (List of CFR Sections Affected), a cumulative numerical finding aid, is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

All **Federal Register** publications are available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Gary Posselt is Chief Editor of the **Federal Register Index**, assisted by Thomas Wright. The Index is prepared under the direction of Raymond A. Mosley, assisted by Brian Swidal.

The **Federal Register Index** is on the Internet at http://www.archives.gov/federal_register/the_federal_register/indexes.html.

O/D's are used by the NSF Director and Deputy Director to communicate information to the staff. O/D's also may be used to convey short-term policy statements or the initial statement of long-term policy. NSF Bulletins transmit approved changes to policy and convey administrative or "housekeeping" information. Significant NSF policy and procedure are located in NSF Manuals. NSF Circulars (historically used to communicate policies and procedures of a continuing nature) are being converted to Manuals and will be discontinued. Handbooks, less formal than Manuals, provide compendia of information concerning NSF programs, i.e., they do not establish NSF policy. Important Notices are the Director's primary means of communicating with organizations receiving or eligible for NSF support. Important Notices are issued over the Director's signature and convey information on NSF policies and procedures or other subjects determined to be of interest to the academic community and to other selected audiences.</p> <p>Index of NSF regulations promulgated in the Code of Federal Regulations under Title 48, Public Contracts and Property Management; and Title 45, Public Welfare.
