A Genealogy Tree With A Missing Twig

Florina Jones of Beaverton, Oregon writes: There is a small twig that is missing on my area of the Gurulé Family Tree. I am looking for any information on the Mirabal part of my family. My GGreat grandfather Juan (Jesus) Mirabal was a criado to the Gurulé family. On most records he appears to have used the Gurulé surname and Jesus as his first name. He married another criada named Vidal Ramirez. He may have married in approximately 1877-1878 as he appears in the 1880 census with only one child. If you have any information that might help me with this family, I would really appreciate it. – Florina Jones e-mail florina.jones@attbi.com
