"It has always been an unbearable thought to me that someone could inspect one of my products and find it inferior in some way. For that reason I have consistently tried to produce products which can withstand the closest scrutiny products which prove themselves to be superior in every respect."

Robert Bosch 1861•1942, Stuttgart, Germany

## About BSH.

BSH Hausgeräte GmbH is one of the world's leading companies in the sector and the largest home appliance manufacturer in Europe. Driven by the individual customer needs of people all over the world, BSH aspires to continuously improve the quality of life for people with its outstanding brands, innovative products and top-class solutions. Alongside the global brands Bosch and Siemens, as well as Gaggenau and Neff, the global brand portfolio includes the local brands Thermador, Balay, Profilo, Constructa, Pitsos, Coldex, Ufesa and Zelmer. While the global brands are aligned to their respective target groups practically everywhere in the world, the local BSH brands each maintain a strong local relationship to the consumers in their target group.

BSH is a trademark licensee of Robert Bosch GmbH for the Bosch brand and Siemens AG for the Siemens brand.

## Successful all over the world

Founded in 1967 as a joint venture of Robert Bosch GmbH (Stuttgart) and Siemens AG (Munich), BSH has been 100 percent owned by Bosch Group since January 2015. Over its 50-year history, BSH has grown from a German exporter into the world's second-largest home appliance manufacturer. With more than 58,000 employees worldwide, BSH increased its revenue in 2016 to around 13.1 billion euros. BSH produces the entire range of modern home appliances at around 40 factories worldwide. The product portfolio ranges from cookers, ovens and extractor hoods, dishwashers, washers and dryers, fridges and freezers to small appliances such as vacuum cleaners, coffee machines or food processors. With Home Connect, BSH offers a cross-brand platform as the basis for a rapidly growing ecosystem of connected home appliances and customer-centric services for a special future experience in the kitchen.

## Consumer-centric

The consumer is at the center of all of BSH's developments. The company's aim is to improve their quality of life. In user experience labs set up specifically for this purpose, BSH repeatedly puts prototypes and products through their paces daily under real-life conditions in all phases of development. The results are thus constantly incorporated into the development of new BSH home appliances, leading to products and solutions that precisely meet the needs of consumers worldwide: innovative home appliances with outstanding quality and reliability, characterized not only by intelligent design, user friendliness and energy efficiency, but also practical additional benefits from the options offered by the connected world.

## Bosch design and style

Give your home an edge with stylish products that complement both modern and traditional designs. The kitchen can become the most stylish area of a modern home or apartment. With this in mind, Bosch ensures our products not only perform the best, but also look the best.

Curved lines and high-grade stainless steel reflect the trend towards rounded and elegant contours. Appliances by Bosch offer premium quality, advanced technology, ease of operation and outstanding quality. These attributes have earned us many accolades, national and international, such as the Red Dot design award, the iF design award and other endorsements. Designing the new line of Bosch built-in appliances presented us with a major challenge: how to combine an attractive design with the latest technology and functions. The result was a timeless style that creates an outstanding degree of harmony in your kitchen. For, after all, what could afford greater pleasure than when everything matches.

-Robert Sachon, Bosch Brand Design Manager

Robert Sachon and the design team of Robert Bosch Hausgeräte GmbH received the top award from the prestigious Red Dot Award

reddot award 2015  
design team of the year

## ISLAND HOOD

The Bosch island hood creates a dramatic focal point with a slim and sleek design that doesn't obstruct the views beyond your kitchen. With 600KW of power, it quickly clears the air of grease, steam, smoke and odor.

## GAS HOB

Gas cooktop burners feature high heat and low simmer options for optimal cooking flexibility. Our Benchmark® gas cooktops feature a dual-stacked burner that delivers both low simmer and a powerful 20,000 BTUs for fast boiling. Continuous grates make moving heavy pots easy, while seamless, one-piece stainless steel design makes clean-up simple.

## ELECTRIC HOB

Our induction hobs can't perform miracles. But they can save lots of time compared to conventional hobs. An induction hob, for example, can bring 2 litres of water to the boiler twice as quickly as a ceramic hob. You can serve dinner faster and save time and energy, leaving you more time for your family.

## OVEN

We measure them by much more than their perfect baking results. We build them from the most stable materials and test their durability in endless stress tests. The yardstick for all our home appliances is you, and your everyday life. Because only if our home appliances make your life easier, day by day, are they truly Bosch in every detail.

## REFRIGERATOR

A good fridge should contain plenty of fresh food and the finest Bosch engineering. Our HydroFresh technology keeps fruit and vegetables fresh up to twice as long. That's great for the environment, as it means there's less waste.

## DISHWASHER

These dishwashers can be installed anywhere in your kitchen. They have a lid which can be removed if the dishwasher is built under a worktop.

# Technologies that not only improve our life today, but tomorrow as well.

45% of our research and development budget on resource-conserving and energy-saving technologies.

## Responsibility

Bosch has always taken its responsibility towards man and nature seriously. This creates an obligation and incentive to develop resource-efficient household appliances. 'Green Technology' can create the potential to not only improve the future but also our quality of life today. Our appliances are manufactured with respect and sensitivity to the environment and designed to operate more efficiently than our previous models.

## Preservation

As a leading industrial company, we are conscious of our responsibility towards society and future generations. We act in harmony with our environment with the aim of preserving values like trust and integrity, promoting health and treating the environment and natural resources with due care. In 2008, we were awarded the German Sustainability Award in acknowledgement of this Commitment.

## Transparency

Our actions are driven by integrity. Our trusting relationship with customers, employees and suppliers is built on honesty and openness. This also includes a policy devoted to information transparency: we provide clear, understandable information and facts to assist in decision-making. The 'Green Technology' signet for example, draws attention to the particular 'Green Technology' used in our individual products, specifies the relevant savings, special efficiency of operation and manufacturing process.

## Green Technology inside

This signet denotes products that focus on energy and water efficiency while achieving top performance based on Bosch technologies – and, like all Bosch products, have been manufactured with the aim of minimizing their impact on the environment. The signet stands for the resource-efficiency of our products quite simply, for their 'Green Technology'.

## Green Technology inside

We deploy ground-breaking technological innovations to develop some of the most economical and resource-efficient household appliances in the world. Our ActiveWater dishwashers, for instance, considerably reduce both water and electricity consumption in comparison to our previous models, while ActiveAir Technology, found in the EcoLogixx 7, dries laundry so efficiently, it consumes up to 55% less energy than our previous models. Likewise, our fridges offer up to 2.5 star energy efficiency, rating them among the most efficient in their class. And these are no exceptions – approximately 40% of the patents we file are for products designed with the aim of minimizing their impact on the environment.

# Green Machines

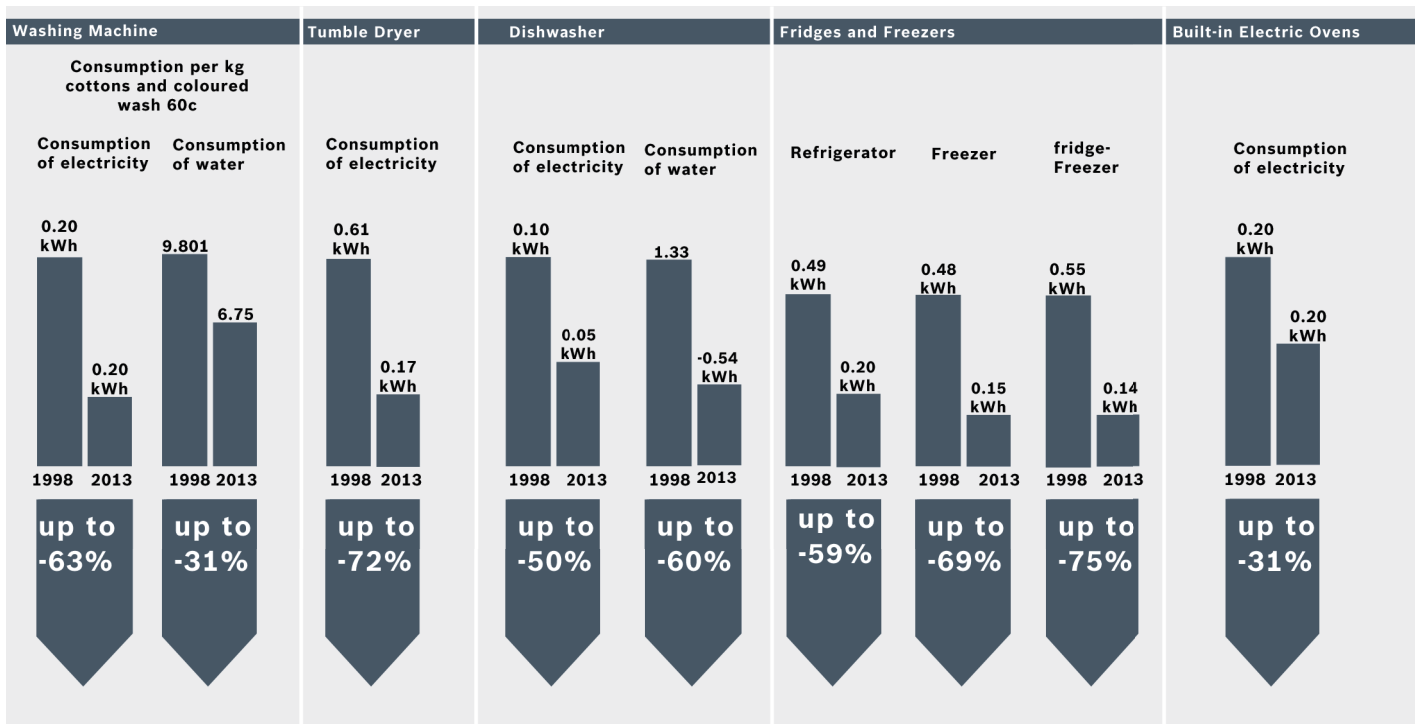

Great journeys start with a single step.

Resource efficiency is a subject that affects us all. Continuing climate change caused by the damaged ozone layer is the result of carbon dioxide emissions from the burning of fossil fuels. These emissions are increasing on a daily basis due to the vast amount of resources we consume. To minimize our consumption, we need to slow down the rate of growth by making more efficient use of our resources. At Bosch, we design some of the most efficient home appliances in the world. For example, our ActiveWater Plus dishwashers are among the most resource-efficient in the world, generating the cleaning power of over 4000 litres from as little as 10.3 litres per wash.

Buying Bosch resource efficient appliances means you can reduce your water and energy consumption without compromising on performance. At Bosch, we believe you should never have to sacrifice excellence to embrace the planet we live on.

## Enter a new era in energy-saving and water saving appliances

Bosch in every detail: Super-efficient household appliances with remarkable improvements in energy and water consumption

Comparison between the consumption values as determined based on the standard program cottons and coloured wash 60c at full load for the Bosch washing machine WAY287W2 from 2013 and the similarly determined consumption values as determined consumption values for a comparable Bosch appliance in 1998

Comparison between the consumption values as determined based on the standard program for the Bosch Electric oven HBG388722D/HBG-38B752D/HBG38B762D from 2013 and the similarly determined consumption values for comparable Bosch appliance in 1999

# Perfect heating modes to meet your every cooking need.

Truly perfect baking and roasting requires not only the ideal temperature, but also the appropriate heating mode. From 4D Hotair to Hotair Eco to desiccation, Series 8 ovens offer up to 15 different heating modes that deliver great results, whatever the dish. For everything from haute cuisine to simple daily dishes, exceptional quality is guaranteed.

## 4D Hotair

Thanks to 4D Hotair, you can place your food on any shelf level from one to four and the results will be consistently perfect. Our new fan wheel makes it possible: it changes the direction of rotation during operation to distribute heat evenly on every level. And that's not aU: with 4D Hotair, you can bake and roast on up to four different levels simultaneously, for reliable results from top to bottom.

## HotAir Eco

Our research shows that cooking on a single level is the most common form of cooking in an oven. HotAir Eco uses less energy by using a single tray. This energy efficient function distributes less heat into the oven and uses residual heat to maintain the set temperature.

## Top and bottom heat Eco

In addition to the Top and bottom heat function, selected Series 8 ovens feature a new eco-friendly mode, which supports cooking on a single shelf for energy efficient cooking. Prepare perfect sponges, pound cakes, delicate pastries and bread rolls while saving valuable energy.

## Bottom heating

For cooking in a bain-marie and for the final baking stage. The heat is emitted from the lower heating element.

## Intensive heat

Combines the top element with a more powerful bottom heating element that is perfect for crispy bases and baking in tins.

## Hot air grilling\*

Achieve rotisserie-style cooking for meat and poultry. The grill and fan alternate, which produces even and crisp cooking results.

## Full-width grill

For grilling flat items, such as steaks and sausages, for making toast, and for cooking a gratin.

## Half-width grill

For grilling small amounts of steaks or sausages, for making toast or where grilling a smaller surface area is required.

## Pizza setting

Create crispy pizzas or give any dish that extra heat that's needed from underneath by using a combination of heating elements.

## Low temperature

For gentle and slow cooking of seared, tender pieces of meat in ovenware without a lid. The heat is emitted evenly from the top and bottom at low temperatures.

## Keeping warm\*

A new feature that keeps cooked food warm.

## Rapid heating

With rapid heating, you can shorten the heat-up time for selected heating functions, including 4D HotAir and Top and bottom heating

**HBG633BS1J 539.06.191**  
60 cm Stainless Steel Built-in Single Oven

#### PERFORMANCE

- 10 Heating methods:
  - 4D Hot Air
  - Hot Air Eco
  - Top and Bottom Heat
  - Top and Bottom Heat Eco
  - Hot Air Grilling
  - Full-width Grill
  - Half-width Grill
  - Pizza Setting
  - Bottom Heat
  - Defrost
- Energy Efficiency Class: A+

#### CLEANING FUNCTIONS

- EcoClean Direct: Back Panel

#### FEATURES

- Cavity: 71L
- TFT color and text display with touch control buttons
- Rapid heating up
- Temperature range: 30°C - 300°C
- Softmove: oven with soft closing & opening

#### SAFETY FUNCTIONS

- Childproof lock
- Automatic switch off
- Maximum window temperature: 40°C
- 3 Layered glass door
- Integral cooling fan
- Residual heat indicator

#### TECHNICAL INFORMATION

- Total connected load: 2.85kW
- Voltage: 220 – 230 V
- Power Frequency: 50/60 Hz / 13A
- Cable length: 1.2m
- Appliance Dimensions: H595 x W595 x D548 mm
- Cut out Dimensions: H585 x W560 x D550 mm

**CTL636ES1 539.56.020****45 cm Stainless Steel Fully Automatic Espresso Maker / Fully Automatic Coffee Machine****BEVERAGES**

- One-touch preparation: Ristretto, Espresso, Espresso Macchiato, Coffee, Cappuccino, Latte Macchiato, Caffè Latte
- MyCoffee feature: Save 8 favourite beverages with individual names and adjustable mixing ratio of milk and espresso
- Coffee outlet and milk frother height-adjustable: Up to 15 cm high Latte Macchiato glasses fit underneath
- Individual Cup Volume: Cup sizes adjustable individually
- OneTouch Double Cup: Prepare two cups simultaneously for all coffee and milk specialties

**FEATURES**

- Water tank capacity: 2.4L
- Unique SensoFlow heating System guarantees highest espresso indulgence with every cup with its ideal, constant brewing temperature
- AromaDouble Shot prepares extra strong coffee with less bitterness and full aroma
- One touch function for drinks with milk

**CONVENIENCE**

- Intuitive control ring
- TFT display with interactive menu
- Early warning if water tank or bean container is almost empty
- Flexible milk solution: connects the provided milk container or using any other container, e.g a milk carton

**HYGIENE**

- Removable brewing unit: Easy and hygienic cleaning under running water
- AutoMilk Clean: Fully automatic steam cleaning of the milk system after every beverage
- Milk frother removable and dishwasher proof
- SinglePortion Cleaning: Complete emptying of all pipes after each brewing process
- Automatic rinsing program when switching off, switching on
- Removable and dishwasher proof drip tray and coffee grounds container
- Automatic cleaning and descaling programme
- Reminds in time of water filter change, descaling, cleaning; including display of remaining cups

**ADDITIONAL FEATURES**

- Concealed accessories storage
- Bean container with aroma protection lid (500g volume)
- Illuminated coffee outlet
- Grinding fineness adjustable (multi-level)
- Childproof Lock

**TECHNICAL INFORMATION**

- Total connected load: 1.6kW
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz / 13A
- Cable length: 1.7m
- Appliance Dimensions: H455 x W594 x D375 mm
- Cut out Dimensions: H449 x W558 x D356 mm

**BIC630NS1 539.56.810****14 cm Stainless Steel Warming Drawer****Performance**

- Stepless temperature control for 40°C - 80°C
- Maximum loading espresso cups: 64 pieces
- Maximum loading plates: 12 pieces

**FEATURES**

- Cavity: 20L
- Dough proving
- Thawing foods
- Keeping drinks and food warm
- Pre-heating utensils

**SAFETY FUNCTIONS**

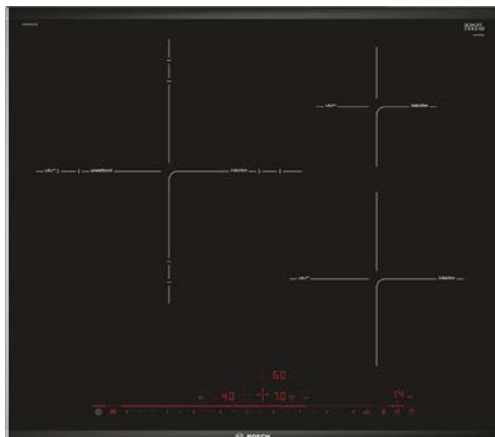

- Loading up to 25kg
- Telescopic pull-out drawer
- Cool door
- Operating indicator light

**TECHNICAL INFORMATION**

- Total connected load: 0.81kW
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz / 10A

- Appliance Dimensions: H140 x W595 x D548 mm
- Cut out Dimensions: H140 x W560 x D550 mm

# HOB

**PID675DC1E 539.06.621**  
60 cm Ceramic Induction Hob

#### PERFORMANCE

- 3 Induction Cooking zones, (triple zone max. of Ø 320 mm)
- Ø 260 mm – 3.3kW (max. power levels 4.4 kW)
- Ø 145 mm – 1.4kW (max. power levels 2.2 kW)
- Ø 210 mm – 2.2kW (max. power levels 3.7 kW)

#### FEATURES

- Automatic Pan recognition sensor
- PowerBoost function for all zones
- PanBoost
- PerfectFry sensor with 5 temperature settings
- QuickStart and ReStart function
- Power Management function
- Quality ceramic top: Schott Ceran glass

#### CONVENIENCE

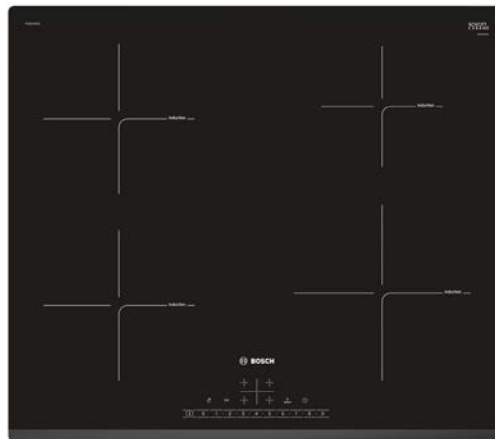

- DirectSelect Premium touch control: 17 power levels

#### SAFETY FUNCTIONS

- 2 Stage residual heat indicator for each zone
- Timer with switch off function for each zone
- Safety time switch off
- Childproof lock
- Wipe protection function

#### TECHNICAL INFORMATION

- Total connected load: 7.4kW
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz / 32A
- Cable length: 1.1m without plug
- Appliance Dimensions: H51 x W606 x D527 mm
- Cut out Dimensions: H51 x W560 x D490-500 mm

#### PERFORMANCE

- 4 Radiant Cooking zones,
- Ø mm – 1.2kW
- Ø mm – 2.0kW
- Ø mm – 1.2kW
- Ø mm – 2.2kW

#### FEATURES

- ReStart function
- Quality ceramic top: Schott Ceran glass

#### CONVENIENCE

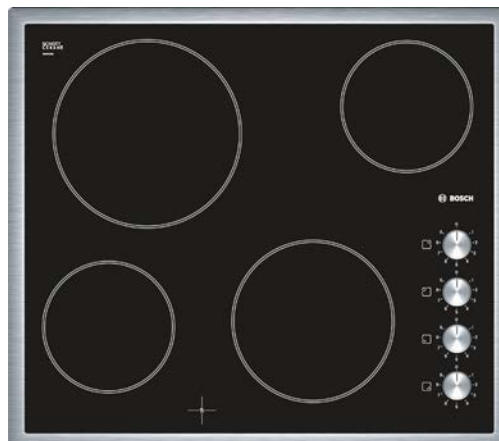

- TouchSelect control: 17 power levels

#### SAFETY FUNCTIONS

- 2 Stage residual heat indicator
- Timer with switch off function for each zone
- Safety time switch off
- Childproof lock
- Power on indicator light

#### TECHNICAL INFORMATION

- Total connected load: 6.6kW
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz / 30A
- Cable length: 1.0m without plug
- Appliance Dimensions: H45 x W592 x D522 mm
- Cut out Dimensions: H39 x W560 x D490-500 mm

**PKE645C17E 539.06.861**  
60 cm Ceramic Radiant Hob

#### PERFORMANCE

- 4 Radiant Cooking zones,
- Ø mm – 1.2kW
- Ø mm – 2.2kW
- Ø mm – 1.2kW
- Ø mm – 2.0kW

#### FEATURES

- Quality ceramic top: Schott Ceran glass

#### CONVENIENCE

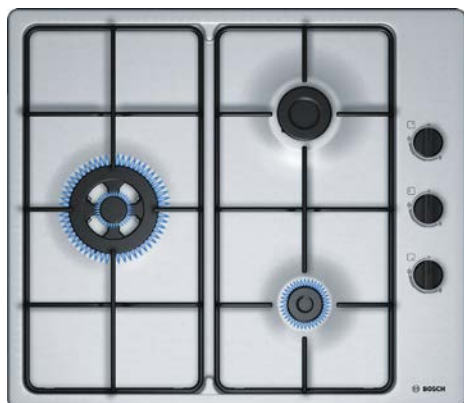

- Surface mounted control: 9 power levels

#### SAFETY FUNCTIONS

- 4 Stage residual heat indicator

#### TECHNICAL INFORMATION

- Total connected load: 6.6kW
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz / 30A
- Appliance Dimensions: H48 x W583 x D513 mm
- Cut out Dimensions: H48 x W560 x D490-500 mm

**PBC6B5B80 539.66.511**  
60 cm Stainless Steel Gas Hob

#### PERFORMANCE

- 3 Gas Burners,
- Left: WOK burner 3.3kW
- Rear Right: Standard burner 1.7kW
- Front Right: Economy burner 1kW

#### FEATURES

- Precise flame control

#### CONVENIENCE

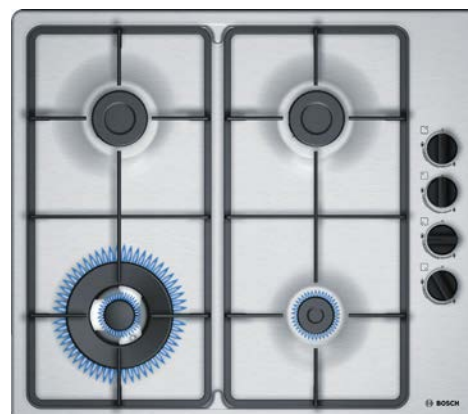

- Safe and quick ignition

#### SAFETY FUNCTIONS

- Flame failure safety device

#### TECHNICAL INFORMATION

- Total connected load: 1W
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz
- Cable length: 1.00m
- Appliance Dimensions: H43 x W580 x D510 mm
- Cut out Dimensions: H43 x W560 x D480-490 mm

- Cut out Dimensions: H51 x W270 x D490-500 mm

BOSCH

HOOD

# Hoods

## Features and benefits

### Design

#### New Bosch user Interface

The new design, MetalTouch control fit in perfectly with our new range of ovens. Its flat surface control panel makes cleaning even more easy.

### Worktop lighting

Thanks to the light dimmer function, you can set the brightness of the hood to provide the perfect atmosphere lighting in the kitchen. Once activated, light builds up gradually before reaching its maximum strength. This ensures greater eye•comfort when moving from dark atmosphere to a bright surrounding. Similarly, the light gradually fades when deactivated. The intensity of the light can be set to provide a discreet hood or brighten the cooking zone that reflects your personal choice.

### Performance

#### Ducted extraction

Ducting is the most powerful effective method of extraction if the hood can be sited on an outside wall, or an outside wall can be reached via ducting.

### Recirculation extraction

If an outside wall cannot be reached the extractor can be set up for recirculation, Air is drawn into the appliances through the filters to neutralise odours and remove grease particles. The cleaned air is then returned to the kitchen. A carbon filter is necessary for recirculation (optional accessories)

### Powerful extraction rate

There is no need to step outside for ai fresh air. With Bosch line of efficient, high-performance ventilation hoods, you can clear The air quickly, quietly and beautifully. With models offering up to 1020 m<sup>3</sup>/h maximum extraction of ventilating capablllty, they quickly remove steam, odours, grease and smoke generated by cooking.

### Metal filter

A metal grease filter provides the ultimate in filtering efficiency. The dishwasher-proof metal mesh requires periodic cleaning but can be used over and over again.

### How to select the most suitable cooker hood?

#### First rule of thumb:

The right extractor hood should exchange the air in your kitchen between 6 and 12 times an hour, without creating a draught.

**Sample calculation using the first rule of thumb:**

Kitchen dimensions L x W x H	Volume of Kitchen
3 x 4 x 2.5m=	30m <sup>3</sup>
Air exchange x volume of kitchen	Recommended extraction rate
6x30m <sup>3</sup>	180m <sup>3</sup>

#### Second rule of thumb:

In order to calculate the required extraction rate even more precisely, the air resistance must also be taken into account. This can differ, depending on the different types of installation. The rule of thumb here is: each metre of ducting reduces the extracting performance by 20-50m<sup>3</sup>/h. This means that if a hood with a long extraction duct is required, a higher extraction rate is needed than that which was calculated with the first rule of thumb.

**Sample Calculation using the second rule of thumb:**

Recommended Extraction rate	Loss of performance per metre of ducting
180m <sup>3</sup> /h	20m <sup>3</sup> /h
Duct length	Actual capacity
7m	180-140=40m <sup>3</sup> /h

## Convenience

### Variable power setting

All Bosch hoods feature variable power settings, which can be set to effectively remove odours, smoke and moisture caused by cooking in the kitchen area. Many hood models also feature an intensive extraction setting, which gives an extra boost to the performance of the hood when required.

### After running

The hood automatically continues to run on for approx ten minutes, after normal operation to ensure that any remaining vapours and odours are effectively whisked away. The hood then automatically switches off.

### Automatic switch back

When the intensive setting is selected it may be set to automatically revert back to a pre-defined normal level after a short period of time.

### Electronic 'clean-filter indicator'

When the filter needs a cleaning, a light is illuminated ensuring the efficiency of the hood is maintained

DWW06W850 539.86.412

#### 60 cm Pyramid Design Chimney Hood

##### PERFORMANCE

- Max. extraction rate: 730m<sup>3</sup>/h according to EN 61591
- Suitable for ducted or re-circulated (re-circulated requires the installation of a special kit as optional accessory)
- Operating sound level: 70dB

##### FEATURES

- 2 x 30W Halogen light
- Energy efficient capacity motor
- 3 Speeds via Rocker switch
- Metal Grease filter

##### CONVENIENCE

- Dishwasher safe metal grease filter

##### SAFETY FUNCTIONS

- Flame failure safety device
- Residual heat indicator

##### TECHNICAL INFORMATION

- Total connected load: 275W
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz
- Cable length: 1.3m
- Diameter pipe: Ø 150 mm
- Dimensions (ducted): H799-976 x W600 x D500 mm
- Dimensions (recirculation): H799-976 x W600 x D500 mm

DWB098E50 539.86.653

#### 90 cm Box Design Chimney Hood

##### PERFORMANCE

- Max. extraction rate: Normal use - 460m<sup>3</sup>/h and Intensive 860m<sup>3</sup>/h according to EN 61591
- Suitable for ducted or re-circulated (re-circulated requires the installation of a special kit as optional accessory)
- Operating sound level: 55dB

##### FEATURES

- 3 x 3W LED light
- Twin channel high performance fan motor
- EcoSilence™ Drive
- 3 Speeds plus 2 intensive via Push button control with digital display
- SoftLight with dimmer function
- Automatic run-on: 10 minutes
- Intensive operation revert: 6 minutes
- Metal Grease filter

##### CONVENIENCE

- Dishwasher safe metal grease filter
- Saturation indicator for metal & charcoal filter

##### TECHNICAL INFORMATION

- Total connected load: 169W
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz
- Cable length: 1.3m
- Diameter pipe: Ø 150 mm
- Dimensions (ducted): H628-954 x W900 x D500 mm
- Dimensions (recirculation): H628-1064 x W600 x D500 mm

**DIB091E51 539.86.633**  
90 cm Island Hood

#### PERFORMANCE

- Max. extraction rate: 1000 m<sup>3</sup>/h according to EN 61591
- Suitable for ducted or re-circulated (re-circulated requires the installation of a special kit as optional accessory)
- Operating sound level: 46dB

#### FEATURES

- 4 x 3W LED light
- Twin channel high performance fan motor
- EcoSilence™ Drive
- 3 Speeds plus 2 intensive via Push button control with digital display
- SoftLight with dimmer function
- Automatic run-on: 10 minutes
- Intensive operation revert: 6 minutes
- Metal Grease filter

#### CONVENIENCE

- Dishwasher safe metal grease filter
- Saturation indicator for metal & charcoal filter

#### TECHNICAL INFORMATION

- Total connected load: 272W
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz
- Cable length: 1.3m
- Diameter pipe: Ø 150 mm
- Dimensions (ducted): H744-924 x W900 x D600 mm
- Dimensions (recirculation): H744-1044 x W900 x D600 mm

**DIB121U50 539.86.649**  
120 cm Island Hood

#### PERFORMANCE

- Max. extraction rate: 890 m<sup>3</sup>/h according to EN 61591
- Suitable for ducted or re-circulated (re-circulated requires the installation of a special kit as optional accessory)
- Operating sound level: 62dB

#### FEATURES

- 4 x 3W LED light
- Twin channel high performance fan motor
- EcoSilence™ Drive
- 3 Speeds plus 2 intensive via Push button control with digital display
- SoftLight with dimmer function
- Automatic run-on: 5/10/15 minutes
- Intensive operation revert: 6 minutes
- Rim ventilation
- Air Quality sensor
- Metal Grease filter

#### CONVENIENCE

- Dishwasher safe metal grease filter
- Saturation indicator for metal & charcoal filter
- Inner frame

#### TECHNICAL INFORMATION

- Total connected load: 272W
- Voltage: 220 – 240 V
- Power Frequency: 50/60 Hz
- Cable length: 1.3m
- Diameter pipe: Ø 150 mm
- Dimensions (ducted): H744-924 x W1200 x D650 mm
- Dimensions (recirculation): H744-1044 x W1200 x D650 mm

**DFT63AC50****60 cm Slimline Hood****PERFORMANCE**

- Max. extraction rate: 360 m<sup>3</sup>/h according to EN 61591

**WORLD'S  
BRAND NO.1\***

For dishwashers. Source: Euromonitor, volume sales, 2016

# DISHWASHER

# Do Your Dishes With A World Champion

The Bosch ActiveWater Eco uses 6.5 litres' of water and just 0.73kWh of electricity per normal program cycle.

World record holder in water and energy efficiencies helping you to save money and just 0.73kwh of electricity per normal program cycle

Innovative technologies for added convenience, flexibility and safety

## Activewater technology - a world's first in water efficiency

Multiplies the cleaning power of every drop of water by 400 times and maximizes water efficiency during the dishwashing cycle resulting in optimum dishwashing results of only 6.5 litres of water used per wash.

## Zeolite™ Drying for lower energy usage

Only Bosch dishwashers contain Zeolite™ which are naturally occurring minerals that are able to release heat or absorb moisture. Reduces energy consumption by more than 30% as compared to Energy Efficient Class A, Europe's highest standard. Zeolite™ minerals are regenerated during each rinse cycle, and can last a lifetime without replacement.

## Heat Exchanger

Maximises performance by using heat generated in the main washing cycle to pre-heat cold water used for the rinse cycles, minimizing risk of thermal shock which can cause cracking or breakage of warm delicate items. an extremely energy efficient method of heating the water.

## AquaSensor

Measures the degree of soiling in the pre-rinse water and decides whether it is clean enough to be used for the main wash cycle. Monitors the progress of the wash and decides the exact temperature, the duration of wash and amount of water to be used, saving around 20%, or 4 litres of water with each cycle.

## 10 year Anti-Rust Through Warranty

Our appliances are made from top quality materials and in addition to our standard appliance warranty we provide a free of charge warranty against rusting-through of the dishwasher's inner stainless steel cavity.

## DosageAssist Detergent dispenser

- Maximizes the effectiveness of the detergent tablets as detergent is quickly and efficiently dissolved in a special tray.
- The dispenser prevents the detergent tablets from being stuck in between dishes, pots and pans for a more effective cleaning performance.

## Advanced Filter System

An additional 50% surface area allows up to 15% more water to be circulated through the system, providing even more cleaning power for every drop of water.

## The VarioDrawer for added flexibility and space

- Innovative feature, replaces the cutlery basket freeing up even more space in the bottom basket.
- Easily removable to allow loading and unloading of cutlery, leaving room for additional kitchen utensils and even the espresso cups.

# REFRIGERATOR

**KIS87AF30Q****SmartCool Built-in fridge freezer, bottom freezer****Cat. No. 539.16.170****Performance:**

- Energy consumption: 249 kWh/yr
- Net capacity: 271 l
- Noise level: 38 dB(A) re 1 pW

**Features**

- Touchcontrol- Electronic - 7 segment electronic control
- FreshSense - constant temperature by intelligent sensor technology
- Two Cooling Systems
- Supercool function
- Super freezing with automatic switch off
- Holiday mode
- Acoustic open door warning system
- Active Warning System by Temperatur increase, with failure memory function

**Design**

- LED interior light in fridge section
- Interior with metal applications

**Technical Information**

- Built-in / Free-standing : Built-in
- Number of compressors : 1
- Number of independent cooling systems : 2
- Width of the product (mm) : 558
- Height (mm) : 1772
- Depth of the product : 545
- Net weight (kg) : 68
- Required niche size for installation (HxWxD) : 1775.0 x 560 x 550
- Door panel options : Not possible
- Door hinge : Right reversible
- Number of Adjustable Shelves in fridge compartment : 4
- Shelves for Bottles : No
- Interior ventilator : Yes
- Reversible Door Hinge : Yes
- Length electrical supply cord (cm) : 230.00
- Current (A) : 10
- Voltage (V) : 220-240

Washing Machine

<b>WAT28400UC</b> 300 Series-White	
<b>Cat. No. 539.96.160</b>	
<b>Features</b>	Wash Up to 16 Towels in One Load * As compared to Perm Press Heavy Soil cycle without SpeedPerfect
<b>Design</b>	Neat White - European Design See-thru White Door Large LED Display with Remaining Time Electronic Control Snag Free Structured Stainless Steel Drum Stackable - Space Saving Anti-vibration Circular Side Walls Reduce Vibration
<b>Efficiency</b>	ENERGY STAR® Qualified Exceeds the March 2015 ENERGY STAR Water Consumption Standards Internal Water Heater Heats Water Quickly and Efficiently
<b>Capacity</b>	Wash Up to 15.4 lbs – Fits Up to 16 Towels in One Load
<b>Technical Information</b>	Dimension of the Product (mm) : 850 x 600 x 590 Current (A) : 12 Voltage (V) : 208-240 Frequency (Hz) : 60

Dryer

<b>WTG86400UC</b> 24" Compact Condensation Dryer	
<b>Cat. No. 539.96.590</b>	
<b>Features</b>	Condensation Drying Doesn't Require Ducting Perfect Design Match to Bosch 300 Series Washer Anti-vibration Circular Side Walls Reduce Vibration
<b>Design</b>	Galvalume Drum Neat White - European Design See-thru White Door Large LED Display with Remaining Time Electronic Control Stackable - Space Saving
<b>Efficiency</b>	Moisture Sensor Prevents Wasted Energy and Overdrying
<b>Capacity</b>	Dries Up to 15.4 lbs – Fits Up to 16 Towels in One Load 4 Cubic Foot Drum - Large Capacity for Compact Dryers
<b>Technical Information</b>	Dimension of the Product (mm) : 842 x 598 x 636 Current (A) : 12 Voltage (V) : 208-240 Frequency (Hz) : 60

# Service you can depend on.

Expert, fast and reliable customer service from Bosch before and after your purchase, Bosch is your partner life

Reliability guaranteed.  
No compromises.

All Bosch home appliances are produced with maximum care, in high quality materials. We promise it in our 2-year manufacturer's warranty on all appliances.

Quality service straight from the manufacturer. Original Bosch.

We are committed to quality - also when it comes to after sales service. For no one knows our appliances better than our highly trained service engineers. They are working with the latest equipment for measuring, diagnostics and repairs, and use only original Bosch spare parts.

On Call

Our friendly Bosch Customer Service team provides competent, reliable assistance for all of your needs; whether that is product advice, to arranging a visit from a service engineer, or ordering the right original accessories or spare parts.
