ABRSM JAZZ PROGRAM

Announcing the ABRSM Jazz Program!

Hal Leonard is proud to present the new jazz program from the Associated Board of the Royal School of Music (ABRSM). Created across five levels on a foundation of improvisation, the program makes jazz accessible to musicians of all levels and backgrounds.

The four elements to the program are:

- **Jazz Tunes** – Tunes books feature 15 carefully selected songs – five **Blues & Roots** selections, five **Standards**, and five **Contemporary Jazz** tunes. The accompanying CDs for Levels 1-3 contain full performances of all of the songs, as well as “minus-one” backing tracks
- **Jazz Scales** teach in detail the scales and modes found in the sample songs
- **Aural Tests** foster the essential jazz skill of playing by ear
- **Quick Studies** help to develop improvisation skills in all players

The songs in Levels 4 and 5 draw from *The AB Real Book*, a unique collection of nearly 100 songs suitable for intermediate players. It contains authentic lead sheets, lyrics, written-out piano accompaniments, background on the song and musicians, and suggestions for further listening.

OF THE MAXWELL STREET
KLEZMER BAND

Tara Publications

These arrangements are based on recordings from between 1910 and 1940 of Eastern European immigrant musicians who played traditional Jewish dance music for weddings and other celebrations. Many of these pieces were transcribed to help teach klezmer styling to participants of the biennial Midwest klezmer workshop. The arrangements have been prepared to accommodate different ensemble instrumentation, with many parts partially or completely doubling each other. The score edition includes a full performance CD of all 10 tracks.

**BIG BAND
HIGHLIGHTS**

arr. Joban Plomp
Book/CD Packs

The special instrumentation of the big band guarantees amazing tutti but equally allows the opportunity to perform quiet ballads. Playing in a big band is an experience

you will not forget in a hurry. Unfortunately, playing a solo – as the genre name suggests – is reserved for only a few. However, with this book, you can be the center of attention as you get the opportunity to play the leading part in these swinging pieces. Almost all the pieces have been newly written in the style of the great big bands but you will also come across two famous hits: Barry Manilow's sultry "Copacabana" and Stevie Wonder's fabulous "You Are the Sunshine of My Life."

ESSENTIALS FOR JAZZ AND CLASSICAL FLUTE

by *Daniel Schnyder*
Second Floor Music

This book is an exploration of modern compositional devices and their interaction with jazz harmony and phrasing.

"This is not just one more exercise book! Most of the traditional exercise books are based on a diatonic concept. Here, finally, is a method which emphasizes a chromatic context. The combination of music tunes and exercises makes hard work very interesting for both beginners and advanced students. Very refreshing for your fingers and your brain!" - *Matthias Ziegler, virtuoso classical and jazz flute artist.*

ENJOY THE RECORDER

by Brian Bonsor
Schott

The best way to learn any instrument is to have lessons from a

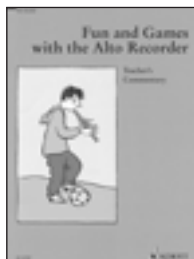

good, experienced teacher. Although, happily, the number of such teachers is constantly growing, the recorder is still frequently taught by enthusiastic but inexperienced teachers and many players start by teaching themselves. This series of books sets out to help learners of all ages in all three situations. Experienced teachers, who may choose to disregard much of the text as personal demonstration is always clearer than the written word, will find exercises and fine tunes a-plenty to support their own method at each stage. The less experienced will benefit from many valuable teaching hints culled from long experience and may rely on the books to lead to a sound playing technique and a mastery of simple notation.

STUDIES

Book/CD Packs

De Haske Publications

Allen Vizzutti has put together a blend of technical and lyrical challenges that

all have their roots in familiar classical and dance styles. These dances do not test extremes of range, and as such, are accessible to most euphonium and baritone players. Some of them are very quick, but in the early stages of practice, it's recommended to keep the tempi moderate and speed them up as you progress. Includes an intro by and bio of Steven Mead, and a play-along accompaniment CD.
