WinTV-Aero-m:

live TV on the go for your netbook or notebook

Receive the new Mobile Digital TV broadcasts in the U.S. Mobile Digital TV is based on the ATSC M/H broadcast TV standard.

Tune in to live local TV news, traffic information, weather, sporting events or entertainment programs using your Windows based netbook or notebook.

Watch live digital TV in a window on your notebook screen. Use your Windows based netbook or notebook, check your e-mail or your Facebook account, while you watch live over-the-air local TV. The WinTV-Aero-m delivers live mobile TV in a window on your netbook or notebook!

Easy to install: just plug the WinTV-Aero-m into a USB port on your netbook or notebook computer, and in a few minutes you can scan for the available ATSC M/H broadcasts in your area!

Includes WinTV v7, for TV on your PC screen!

WinTV v7 is an easy to use TV application for any Windows notebook or netbook.

Also for HD over-the-air ATSC TV.

WinTV-Aero-m also has a built-in high definition TV receiver for live, over-the-air, ATSC HD broadcasts. Watch free HD TV on your PC, notebook or netbook at home or when you travel. ATSC digital TV gives you the best video and audio quality of any type of TV broadcast!
