WWW.VWHERITAGE.COM

PARTS, PARCELS AND PROJECTS

At VW Heritage we live and breathe classic Volkswagen.

Our mission is to offer the largest range of VW parts on the planet, not just any old parts though, parts of quality, available to our customers at the right time, for the right price. These parts make the difference to our projects, and make all the difference to your VW projects too.

We take pride in our purchasing and our parts come from all over the world, but we are very active in supporting UK industry as well. 25% of all our parts are sourced or manufactured inside the United Kingdom, including our premium SSP engine range, manufactured in Weston-super-Mare.

We currently have 8 catalogues, between them they cover 16,000 different parts. From the largest panel and the heaviest engine to the most fragile piece of trim and the smallest clip, they are equally important to us; you couldn't build a complete VW without them.

Classic Volkswagens are a way of life, and we are happy to have spent the last 28 years as part of this vibrant community. We regard our customers as friends, and as we are customers too we know just how we wish to be treated. Our customer service is accredited by Trading Standards, and we have an industry leading 3 month returns policy* for any parts you bought "just in case".

Our blog, Facebook, Twitter and Instagram will keep you well up to date with what we have been up to; you can also find us in a handful of specialist forums, follow our builds or pick our brains, we are here to help you. We love to see what you have been working on, why not send us a picture of your project with your next email?

THOUSANDS OF CLASSIC AND PERFORMANCE PARTS FROM THE VW EXPERTS

WHY USE US?

VW Heritage is run by enthusiasts who live and breathe VWs. It's what makes us what we are; Parts Specialists. Got a question? Chances are one of us has asked it too, and now we know the answer! Our warehouse is full with more than 16,000 lines; we should be able to help no matter what your part requirements are.

PRICED TO SELL

£ We strive to have the most competitive prices out there – if you've seen it somewhere cheaper we will aim to beat it... and if we can't it probably means ours is better! All prices include VAT at 20%.

THAT'S NOT RIGHT

? Got a washer when you needed a window? Give us a call and we will get on it straight away. Be it a supplier error or just a plain human mistake, we will do our best to rectify all issues within 24hours.

ERMM, IT SHOULDN'T BE LIKE THIS?

☒ So an elephant's sat on the box? Please, please have a look in it now. Check the contents of every order, if there's a problem to sort we need to know ASAP.

QUALITY PARTS

⚙️ All parts are sold with at least a standard one year warranty* (excluding a few specific items) As much as we would love to say nothing ever breaks – it does happen, so give us a call and we will make sure it gets sorted. Let us have a look too, a picture speaks a thousand words.

DIDN'T NEED THAT BIT AFTER ALL

♻️ Our 30 Days no quibble returns policy is simple. Complete the form on our website or give us a call and we will give you a specific returns number for the unwanted items. Had the part longer? Parts can be returned up to 90 days, subject to a 20% handling charge. See terms and conditions for full details.

COME ON DOWN

🏠 Our doors are open 9am to 5.30pm in the week and 10am to 4pm on a Saturday. If you are making the journey for a specific part why not call us first, we can get it reserved on an order for you so it doesn't sell in the meantime.

SO WHAT NOW

💻 You can order online at www.vwheritage.com from the comfort of your own living room, and with free carriage available on most orders over £35 it's almost too easy! If you have a question, how about calling our mail order hotline 0845 873 7277. We can offer you the advice you need, and if you order before 3pm we can usually get your parts to you by the next working day!

PAYMENT

CARING FOR THE VW COMMUNITY...

At VW Heritage we enjoy interacting with our customers, many of whom become friends over time.

Whether you are local to us and able to attend our Heretics meets, or you join in the fun on Facebook or Instagram, it is always good to hear your feedback and see what you have been up to with your Volkswagen projects.

We are very lucky in the UK, being spoilt for choice with VW shows for us to attend during the spring and summer months. Keep an eye on our website and Facebook page for where we will be next and of course read all about it afterwards on the blog.

We normally discount parts ordered for collection at shows, and offer discount and free delivery for any parts order taken at shows. For those needing to know more about a part you are more than welcome to come along and pick our brains too.

Working as a team of enthusiasts, we are constantly on the look out for great parts, and things to enhance our hobby further. Why not share with us the parts you find hard to source, which ones you wish you could get, and if you have any ideas for something fresh and new. You never know we might just go and make them!

We are active in many specialist forums; chatting all things VW, offering advice and checking out what's happening on driveways across the world. The T4 Forum offers a great resource for trouble shooting and is a perfect place to find inspiration for every element of your T4 project.

A couple of dedicated magazines exist for the T4 and T5 scene, there's something still quite special about seeing your own VW in print, and reading about others to get the creative juices flowing!

UNDERSTANDING YOUR T4

Continuing where the T25 left off, in fact overlapping in production the T4 was an instant favourite. An inline front mounted engine powering the front wheels was the set up of choice for the first commercial to be officially called the Transporter by VW. Being manufactured from 1990 in Germany, Poland and Indonesia, the production spanned 14 years. There are 6 main body types that can be found on the T4 models.

Kombi – These have rear side panels, and windows between B and C pillars.

Panel Van – These have no windows in the sides behind the cab, used mainly as a commercial vehicle.

Caravelle/Eurovan/Multivan – These have windows all round.

Single Cab – As the name suggests, with the back being a pick up, and one row of seats in the front

Double Cab - Or Crew Cab, these have seating behind the driver for additional passengers, and a smaller pick up bed.

Camper – Originally only offered as the Westfalia conversion by VW, many Camper conversions have followed, some with high tops, others with pop up roofs.

All models were offered as either short or long wheel base.

1996 saw the introduction of the VR6 engine in the T4 range, and as a result a facelift to the Caravelle models that were to receive it in order to accommodate the larger V6 engine.

Commonly referred to as the “Long Nose” the facelift was exclusive to Caravelle models until 1999 when the option was offered on all of the range as a replacement to the earlier “Short Nose”.

Know your Model!

As well as having a unique chassis number, each T4 has a list of PR codes. These codes are used to identify the parts used on each unique vehicle. They can be found on the sticker either on your service book or in the drivers footwell on the underside of the fusebox. Having these numbers to hand will really help when ordering parts for your Transporter due to so many changes in specification over the years.

VW CLASSIC PARTS COULD BE THE ANSWER TO YOUR PRAYERS!

Our partnership with VW Classic Parts is helping enthusiasts all over the UK to track down those missing pieces for their projects from the very source that the parts came from in the first place!

Whether it is a single screw or a side panel, a headlamp or a hose, VW Classic Parts could have that elusive part you require. Having collected over 40,000 parts of obsolete stock from warehouses and dealerships around the globe this is a fantastic resource for us to be able to share with you.

David Ward, founder of VW Heritage explains the importance of this partnership to VW Heritage and the UK VW community.

“Since starting out in the early eighties we have travelled full circle. We are still supplying hard to find and obsolete genuine parts for Beetles and other classic Volkswagen models, just now they come shipped direct from Wolfsburg –not collected by me from a German VW dealer in the family Camper!

This is such great news for VW enthusiasts in the UK, it’s real proof that VW care about their heritage and are in full support of the UK Volkswagen scene.”

Volkswagen haven’t just drawn a line in the sand to define their classic cars, it is a rolling cut off which means your T4 van is now classed as a classic! So we can help you get genuine parts for it, even if the main dealer can’t.

Carsten Thrandorf, International Sales Director at VW Classic Parts has reinforced his commitment to VW Heritage with some great news.

“We are expecting to reproduce 500 original parts in the next 5 years, and we firmly believe our partnership with VW Heritage will go a long way to making sure these are the “right parts” to manufacture, and that they are available to the enthusiasts who really need them.

In VW Heritage we have found a company with over 25 years experience and a strong team of knowledgeable enthusiasts who are able to offer the level of service that is expected by existing and new customers of the VW brand. We can only look forward with anticipation and excitement to the future of this partnership.”

VW HERITAGE BECOMES A TÜV ACCREDITED PARTS MANUFACTURER!

Having recently passed the strictest of audits for German TÜV Quality Management Processing, we are proud to say VW Heritage is now a certified and approved TÜV manufacturer.

With this coveted TÜV approved production standard, we have been able to receive TÜV certifications on all our SSP Cosmic wheels, and we plan for more TÜV certified wheels to follow very soon!

What is it all about?

The German Ministry of Transport only accepts non-standard parts installed on cars which are tested and certified by the German TÜV. This certification process is well known for its very high safety requirements and is enforced by the German TÜV and the German Police force.

Our intention is to manufacture SSP wheels to comply fully with TÜV requirements for use in the German market.

Whilst this is great news for our German customers, for those that the TÜV doesn't yet apply to, it is a guarantee of maximum durability and safety with regards to fitment as passed and approved by the TÜV Certification Tests.

What does this mean for you?

Although currently only legislation in Germany, there are drafts made for an EU-wide TÜV testing system that will become standard in mainland Europe and set to head across the channel to the UK in the next few years. TÜV approval will be required for all non standard additions you make to your vehicle.

We are pleased to offer AMC brand new cylinder heads for your T4 Transporter. Manufactured in Spain they are top quality and come complete with new valves, springs and camshaft. For peace of mind, we suggest a brand new cylinder head rather than chancing a second hand or rebuilt unit, especially taking into account the labour cost to change it.

ENGINES - PETROL

Looking for Ignition parts?
Check out the electrical section
on page 50.

Knowing the engine code for your T4
will really help us and you when it
comes to finding the correct parts.
Need help - See our guide on page 8
which explains where to find it.

The engine parts in this catalogue
have been separated into Diesel and
Petrol sections to make finding the
parts you need as simple as possible.

Diesel parts are listed from page 12.

PERFORMANCE EXHAUST SYSTEMS

**UPGRADES
& CUSTOM PARTS**

We are pleased to offer a range of custom exhausts for the T4 Transporter. Made in the UK from high grade stainless steel, each system is produced on a jig to ensure a great fit every time.

Offering a sportier soundtrack in comparison to the standard system, non-turbo models having a deeper tone to the turbo vehicles; the turbocharger itself acts as a silencer.

TRANSMISSION AND DRIVETRAIN

Be sure to check your engine number or measure your old clutch if possible. It will make it easier for us to help you.

Only LHD models were fitted with a clutch cable, most LHD though, and all RHD models came with hydraulic clutches.

Don't forget your gearbox oil! When was it last changed?

STEERING AND SUSPENSION

Check out our range of OEM + Polyurethane bushes - Longer lasting, better performing, and they look just like originals!

Ideally, fit your choice of wheels and tyres before lowering your bus. Then you will know what you are working with, and how much to drop it by.

After fitting new suspension or steering components get your tracking set up correctly or you'll be wearing tyres out before you know it!

T4 front suspension, the low down!

The T4 is equipped with "Torsion Bar" front suspension, meaning it only has shock absorbers to worry about, no springs.

What's great is that, with a twist of a nut, you can lower the front of your T4 pretty easily. Generally speaking you will lower your van by 25mm for each 10mm of thread you use on the bolt (mark it with paint before you start).

We recommend this is completed only by a competent mechanics to ensure the road safety of your vehicle. A full guide to lowering your T4 can easily be found online.

T4 suspension - The shocking truth

We offer a number of choices for the T4 Transporter, and at first it may look a little daunting as to which shock you want, and what combination you require to give you the set up you desire. So, we've put this little guide together for you, hopefully to make it nice and easy!

Standard shock absorbers - Meyle Gas filled, great for general use.

Heavy duty shock absorbers - Meyle Oil filled, these are ideal if you are carrying extra weight ie. Minibus, Camper, builders van etc.

Performance shock absorbers, for a sportier, firmer ride. We offer the following:

Bilstein B4 - Gas filled performance shock absorber

Gaz - Performance shock absorber with adjustable bump and rebound to fine tune comfort and driveability.

Bilstein B6 - Oil filled performance shock absorber, fixed damping but ideal for moderately lowered buses.

Performance suspension kits are a more complete handling package these will take care of lowering your bus and make it handle better too.

JOM - This is a great selling budget kit with the benefit of a height adjustable rear springs, will lower your T4 between 35-75mm.

Bilstein B12 Pro - Our personal favourite, combining the Bilstein B6 shock absorbers with Eibach's signature springs, to create a great handling, long lasting and top quality suspension solution. Lowers by 45mm.

BRAKES

Please check your PR code before ordering brake components.

Not sure on your vehicles wheel size?
- It's written on the side of your tyres. i.e. 195-70-R15.
R15 means 15" wheels.

Brakes are a safety critical part, if you are unsure always consult an expert or get a garage to do the job for you, we don't want any accidents happening!

Upgrade to stainless steel brake hoses for improved pedal feel and better performance.

CABLES AND CONTROLS

Our 1 piece Speedo cables have been made exclusively for VW Heritage. Beware of imitations!

Don't let your foot slip - Missing pedal rubbers are an MOT fail!

Struggling to get a gear?! Sounds like its time to replace the bushes in your linkage.

WHEELS

Fitting spacers? Budget for longer wheel bolts for anything thicker than 3mm. Standard bolts are 34mm long.

Fit radius wheel bolts on steel wheels and OEM alloys. Upgrade wheels are likely to use taper fit, get this wrong and your wheel could come loose! Call if you need advice.

We only offer wheels that have been designed with the strength to support the load capacity of your T9, as specified by VW.

If your T9 is fitted with wheels that aren't load rated it could result in them cracking or failing while in use, which could be nasty.

PANELS AND BODY

Long or short nosed model?
The wings, bonnets and bumpers are all different.

Left or right? - This is as you sit in your van facing forward.

Long wheel base (LWB) or short wheel base (SWB)? You'll need to know for side panels, side bars etc.

Front bumpers aren't as simple as they look - has yours got fog lights fitted?

From London or the East:

- Take the M23 south from London until it becomes the A23. As you approach Brighton, turn onto the A27, in the direction of Worthing.
- Exit the A27 onto the A283 to Shoreham and at the roundabout, take the first exit onto Steyning Road.
- At the roundabout, take the first exit onto Upper Shoreham Road. At the supermarket, opposite the park, turn right onto Eastern Avenue.
- Directly before the level crossing, turn left onto Dolphin Road.

From the West:

- Exit the A27 onto the A283 to Shoreham and at the roundabout, take the second exit onto Steyning Road.
- At the roundabout, take the first exit onto Upper Shoreham Road. At the supermarket, opposite the park, turn right onto Eastern Avenue.
- Directly before the level crossing, turn left onto Dolphin Road.
