

Sib & Co

Sib XL was created to harmonize with Plasma and LCD flat screens. Sib XL is delivered with the Polyfix® wall mount, which allows vertical and horizontal installation. The Bop (short) and Hop (tall) stands are available as an option to make Sib XL a totally universal solution.

Since the creation of Sib in 2002, this little speaker remains a musical reference in the high quality playback of all categories such as two-channel, home theatre, back ground music and multiroom. Delivered with its own integrated stand-wall mount, or the Hip (tall) stand as an option.

Thanks to its 8" (21cm) woofer and a 150W BASH® amplifier, the Cub 2 possesses unlimited resources for its small size. It is the natural complement to the speakers of the Sib & Co line for a marriage of integration and performance. Available in Pearl White finish.

	Sib XL	Sib
• Type	2-way bass-reflex LCR speaker. Polyfix® wall bracket.	2-way compact bass-reflex speaker.

Sib & Co

Sib & Co, a new way to live and listen

Sib & Co is a range of products designed for those who want an audio/video or stereo system that's compact and aesthetic but without compromising on Focal's renowned sound quality: we don't want to abandon the standards used to create the acknowledged world reference Grande Utopia EM speaker when designing our other products. On the contrary, Sib & Co is a range that is truly built to the same quality standards as any other Focal speaker; to guarantee the best level of performance within their sector. Designed to give the maximum integration in any room or home, Sib & Co is easy to live with and

use everyday, whether for music or multi channel home cinema sound, thanks to its practical design and multiple mounting options - either on stands or on-wall integrated around a Plasma screen - we could not let you buy a top of the range display and not give you the sound to go with it ...

> Sib XL, Jet Black and Sib, Pearl White

> Sib on Cub 2

Black and White

For 2009, the Sib&Co line changes to black and white with the Jet Black finish and the new Pearl White finish. The Jet Black finish harmoniously mixes glossy and matt black and perfectly matches the actual aesthetic trends (Plasma and LCD screens). The Pearl White finish is a perfect integration solution, ideally combining high performance and unobtrusiveness.

Technically, Sib & Co is not evolving, simply because this loudspeaker line has collected an impressive quantity of trophies in the international press thanks to its well-recognized technical qualities.
