Vahe Jazmadarian	France
Felix Tsolakian	Head of RA State Tax Service

---

“We can not consider that our responsibility only lies within the boundaries of Armenia. More Armenians live outside the Homeland, as much as twice the population of Armenia. A state and its people, with such a great Diaspora, can not be separated from it. The Fund is a structure that in a way provides an institutional solution to this reality by keeping the Diaspora and Artsakh close to Armenia. The importance of this is significant and we are attempting to define it through concrete projects.”

**Robert Kocharyan**

President of Republic of Armenia  
President of the Board of Trustees  
of the “Hayastan” All-Armenian Fund

A handwritten signature in blue ink, consisting of stylized, overlapping loops and lines, representing the name Robert Kocharyan.

Arkady Ghoukasian  
President of NKR

## Arkady Ghoukasian President, Nagorno-Karabakh Republic

Every time, after evaluating "Hayastan" All-Armenian Fund's fiscal year, we extend our commendations to the organization for the work it carries out

Every time, after evaluating "Hayastan" All-Armenian Fund's fiscal year, we extend our commendations to the organization for the work it carries out. We chiefly examine this from the financial support conveyed by members of the Diaspora, as well as citizens of the Republics of Armenia and Nagorno-Karabakh, to the social, economic, cultural, and spiritual betterment of both Armenian states. In this respect, the issue of effectively using the financial resources received from Armenian compatriots becomes an urgent task. First of all, speaking of the efficient use of resources, I mean its wise distribution per necessary areas of state development, as well as, to critically important and urgent spheres pertaining to the quality of the rehabilitation works and a sense of ownership for respective financial means. Only this type of approach would give the critical momentum required for motivating individuals living in the Diaspora, Armenia and Nagorno-Karabakh to actively participate in annual telethons, phone-a-thons, as well as other patriotic initiatives.

Last year, generous contributions made by our compatriots, secured the continuing construction of the strategically and economically important North-South Highway. This road will give life to settlements in Karabakh, which previously were seen as forgotten sites. At the same time, during this very period, several educational, healthcare, cultural and other institutions were put into operation.

Taking this opportunity, once again, I would like to express my utmost gratitude to our donors abroad, as well as the citizens of Armenia and Nagorno-Karabakh and all those individuals, who are concerned with the future of Artsakh by making all possible contributions to support its rehabilitation. Their active participation during the telethon and phone-a-thon raised urgently needed funds for the redevelopment of the Mardakert region of Nagorno-Karabakh. This allows us to implement various projects in war torn areas of the region.

The reality is that in the coming years, Arstakh will continue to depend on the financial support of its compatriots. We still have to build new roads, construct new schools and hospitals, as well as water and energy supply systems and telecommunications. I hope that assistance in these areas will be provided for Artsakh.

At the same time, I find that the complete potential of the Armenian nation is not tapped for these reasons. It is no secret that when we note the financial support from Diaspora to Artsakh, we are referencing to the support primarily received from compatriots living in the United States, France, or other Western countries. However, I am convinced that through proper organization and coordination, Armenians living in post-Soviet countries, the Middle East, and other parts of the world, could certainly bring forth their active and benevolent involvement.

We are strong when we are united. It is through the efforts of all Armenians that enable us to solve national problems. I am sure that this will be the case.

# Charity

## The Culture of Benevolence

“Hayastan” All-Armenian Fund’s mission encompasses and operates on the basis of philanthropy. Those who contribute to charity certainly understand its merits and positive consequences. The reasoning behind their kind acts are for the betterment of a village or a town, regardless of its magnitude – large or small.

“Charity is the last shelter for the people who love to take care of their close ones”, stated Oscar Wilde in his interpretation of the incentives behind giving to charity. Those who voluntarily participate in acts of charity reflect upon their natural ideals of philanthropy, responsibility, and patriotism. These ideals drive one to help not only close loved ones, but those who are in need of aid and dire assistance. For Armenians, charity is a soulful fact. As a matter of fact, for Armenians living in the Diaspora and in the homeland, charity has become a vital part of their lifestyle and national culture, both on individualistic and societal levels. The “Hayastan” All-Armenian Fund stands as a testament to this reality in all realms of Armenian life. It is an organization that rallies and united the financial resources of the Homeland and Diaspora under one mission. During its fourteen year existence, the Fund has been the direct facilitator of Diaspora aid for the Homeland.

“Hayastan” All-Armenian Fund plays a critical and highly visible role in the implementation of philanthropy within Armenian society. On an annual basis the Fund registers growth in terms of participation; the tradition of giving to charity has been expanding throughout the Diaspora. Furthermore, residents of the Homeland continue to bring forth their active and humble participation in strengthening Armenia and Nagorno-Karabakh. Participation from the general public is not the only form of support that the Fund receives for its activities. More and more businessmen are involved with the Fund’s charitable activities. In fact, involvement with the Fund has become a philanthropic tradition throughout business circles in the homeland. More active participation from all walks of life contributes to the social stability of the homeland.

Every year, the Fund issues “National Certificates of Giving” as a token of appreciation to its worldwide and major donors. People have come to realize the importance of this token and certainly keep them with pride. Some even display it in their homes and businesses.

Regardless of wealth, charity has become a common culture among all sects of Armenian society. The Fund’s donors include businessmen, students, pensioners and individuals on limited incomes. The number of anonymous donors is not small either. Such expressions of charity present the vitality of its philosophy and reflect upon the culture of the nation.

Charity is a necessity of life, regardless of its need. It exists in countries with high levels of socio-economic standards. It is also a culture of displaying humanitarianism. **By helping others live you help live yourself.** In the process of building a newly independent homeland, this is perhaps one of the most important morals that Armenians living anywhere in the world could take. Society and individuals developed on the base of charity remain united and indeed have a hopeful future of growth.

### Information

Special Purpose Projects of “Hayastan” All-Armenian Fund implemented in Artsakh in 2005

- Maintenance of Goris - Stepanakert highway**  
Status: completed

Donor: Local committee of Argentine

**Procurement of computers for the school in Shosh community, Askeran region**

Status: completed  
Project Cost: \$ 3 527,00  
Donor: Toronto local committee /Canada/

- Over the years, “Hayastan” All-Armenian Fund has focused on the implementation of large scale projects such as the Goris-Stepanakert and North-South Highways and the regional development project entitled “Rebirth of Artsakh.” Is the Fund going to continue the implementation of such large scale projects and what are the plans for the future?

- “Hayastan” All-Armenian Fund will certainly continue implementing large-scale projects, because it serves the Fund’s mission in accomplishing projects of this magnitude. Since the organization is a Pan-Armenian structure, its activities must be of Pan-Armenian significance too. The Fund has embarked on various projects due to a lack of government funding or availability of adequate resources, in order to meet the ever growing demands of the population.

Ever since its establishment, the organization has embarked on monumental projects, relevant to the needs of the respective times periods, which have demanded great resources and time. Throughout the years, the projects have changed their trends but maintained their scale.

During the initial years of 1992-1994, when the country was faced with numerous socio-economic calamities, “Hayastan” All-Armenian Fund accomplished a great humanitarian project called “Winter”. After the completion of this project, the Fund prioritized the implementation of infrastructure development programs that carried economic and strategic significance. I mean the construction of Goris-Stepanakert highway – providing reliable transportation and communications between Armenia and Artsakh as well as the North-South highway connecting the regions of Artsakh with one another. These projects escalated development of economy and tourism in the regions and promoted active communications between rural towns and villages.

During the past years, the Fund has been involved in specific specialized projects, for example, road and residential unit constructions. Today, it has undertaken a project where several facets of regional development are combined under one major plan of reconstruction. This project is dubbed as the “Rebirth of Artsakh.” Among many projects, the Martakert Regional Development plan will focus in the spheres of agriculture, water supplies, education, healthcare, road repair, and residential unit constructions. Since the issue of transportation and communication between the regions of Artsakh is solved, the Fund’s priorities are projects of a socio-economic importance, specifically pertaining to the restoration of settlements.

### - How do you evaluate the Fund’s affiliates’ activities in 2005?

- Last year, the affiliates of the Fund carried out successful projects, however inequalities among the bodies still exist. It is noteworthy that the Fund’s works depend on the efficiency of their activities. Our international affiliates across the globe are the driving forces behind the Fund’s projects in

the Homeland.

Beginning in 2006, we will start the implementation of numerous special-purpose projects in Armenia and Artsakh, financed by our affiliates. The United Kingdom affiliate has undertaken the financing of Artik Hospital's basic reconstruction. The French affiliates will undertake the reconstruction of the hospital in the Sisian region. The U.S. Eastern Region - New York affiliate will finance the construction of a water supply system in the village Nor Getashen, Shahumian Region of the Republic of Nagorno Karabakh and the reconstruction of the medical center "Sourp Astvatsamayr" in Yerevan, Armenia. The Lebanese affiliate has allocated construction financing for the water supply network of the Marmarashen village in the Ararat province of Armenia.

In 2005, we started construction of a secondary school in the Mataghish village of the Martakert region in Nagorno-Karabakh through the financing of the Canadian affiliate of Toronto.

In 2005-2006, reconstruction works were carried out in the "Nork-Marash" Infection Hospital of Yerevan through the financing of the Brazilian affiliate. This list could certainly continue, however, I would like to focus their participation in the annual telethons as well. In this regard, the results of Telethon 2005 were quite satisfactory. The affiliates were involved in the preparation of the Telethon with utmost enthusiasm. The results were equivalent to the great efforts, since the affiliates, through their wide-ranging publicity programs within the Armenian communities, were able to achieve a high rate of public participation during the Telethon. The 2005 Telethon certainly distinguishes by this very fact. The success of previous telethons largely depended on significant contributions, whereas the 2005 Telethon yielded \$7.77 million through public participation – in terms of mid to large scale donors. I would like to commend the fundraising efforts of the newly formed Lebanese affiliate. They were able to raise \$100,000.

The French affiliate's effective fundraising campaigns are worthy of being mentioned. Once again, the Phone-a-thon held throughout Europe, generated high returns – this time raising \$1.2 million. The affiliates always try new method of fundraising. For example, for the first time in 2005, the affiliates of New York and Los Angeles, apart from the Telethon, conducted a phone-a-thon campaign which we hope will become a tradition. Speaking about the Telethon, I would like to commend the high professionalism undertaken in the organization of this special event. As a highly artistic and interesting program, Telethon 2005 was outstanding as well. As a matter of fact, the 2005 Telethon parallels similar campaigns held throughout the world. We hear this from non-Armenians as well.

**- The 15th annual Board of Trustees meeting of the Fund will be held in May of 2006. Considering the activities during the past year, what can you tell us about the future of the Fund?**

- In 2002, the Board of Trustees set an objective of increasing the Fund's annual donations up to \$10 million. On the verge of the 15th annual meeting, I am pleased to announce that in 2005, "Hayastan" All-Armenian Fund not only managed to reach \$10 million but it surpassed that figure by \$2 million more – for a total of \$12 million.

As for the question regarding the future of the Fund, I see it as a grassroots national fund. "Hayastan" All-Armenian Fund does not only implements

Construction of the Stepanakert polyclinic  
Status: completed  
Project Cost: \$ 843 638,90  
Donor: USA East Coast affiliate

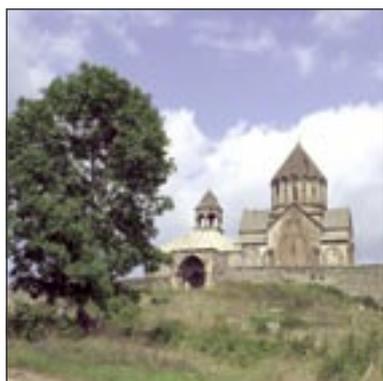

Construction of the boiler for the Stepanakert polyclinic

Status: on-going  
Project Cost: \$9 959,12  
Donor: Local committees of France

projects that the government is unable to undertake due to a lack of resources, but it also serves as a bridge between the homeland and the Diaspora.

The Fund will continue its existence as long as the Diaspora continues to support it nation-building mission in the Homeland. Concurrently, Armenians living in the Homeland continue to increase their level of contributions to the Fund. I am proud that this has significantly increased over the years.

The Fund will continue to remain a necessity, regardless of the economic development of Armenia and Artsakh. We must also factor in that the Fund is unique in its type. I believe our Diaspora understands this very well.

Today, young Diasporans are linked with Armenia through the very same warmth and enthusiasm. They have established a level of cooperation with the Fund. This is extremely important for me, because future generations will be able to pass down their national values. Today's youth continues the mission of the Diaspora.

This means that "Hayastan" All-Armenian Fund will continue to be the bridge between the Diaspora and the Homeland. Annual telethons, fundraising campaigns, and various projects will continue to be the driving force behind the Fund. This will provide individuals an opportunity to leave their legacy even through small scale projects.

## Regional development

### "Rebirth of Artsakh".

#### Restoration of the Mardakert Region, Nagorno-Karabakh Republic

It is not the first time that "Hayastan" All-Armenian Fund has embarked on large-scale infrastructure development projects that carry a significant and positive socio-economic impact on the Homeland. The construction of the Goris-Stepanakert Lifeline Highway secured a reliable and safe transportation and communication between Armenia and Nagorno-Karabakh. This is followed by the near completion of the North-South Backbone Highway, which will connect more than 150 towns and villages in Nagorno-Karabakh and pave the way for more economic activity. The Fund raised a record \$11.5 million during the 2004 Telethon – securing the financial resources required for the completion of the strategically important highway.

In 2005, the Fund, at the approval of its Board of Trustees, adopted the three-year, multi-level project dubbed as the "Rebirth of Artsakh".

The program is composed of a regional development plan for the catastrophically war torn regions of Nagorno-Karabakh. The program is designed to enhance the quality of life in all spheres: education, healthcare, water supplies, and agricultural development. The Board of Trustees slated the three regions for large-scale development: Mardakert, Hadrut, and Martouni.

By far, the most damaged region is Mardakert. This northern border region is the richest in terms of natural resources and carries the most potential for economic development. Mardakert possesses a rich cultural past. Unfortunately, the lack of major infrastructure has prevented the region's economic and social development. The priority programs for the Mardakert region include a comprehensive agricultural and food production development plan, rehabilitation and reconstruction of drinking and irrigation water networks, re-

construction of rural roads and residential units, and reconstruction of critically needed healthcare and education facilities. The program is set to increase the population, boost tourism in the region, as well as enhance the quality of life in all aspects: economic, cultural, and social.

The Fund has been working with regional development experts from the United States, Armenia and France, as well as representatives from the Nagorno-Karabakh government. This project sheds new light into the introduction of public policies designed to enhance the region's potential areas of development. During the implementation of this project, the Nagorno-Karabakh government will continue to address agricultural and infrastructure development problems in the context of population growth and economic enhancement. However, the case of Mardakert is quite unique, because all problems at the moment require immediate attention. The region lacks a modern healthcare facility, schools, as well as tools required for large-scale agricultural development. The Fund has taken the initiative of developing these sectors.

### Build a New Horizon – Mardakert Regional Development

With a slogan of "Build a New Horizon", the Fund's 2005 Telethon focused on the presenting the Madakert reconstruction and development program. Prior to the Telethon, a group of 19 Armenian student volunteers (17 from Armenia and 2 from the Diaspora), joined their 10 counterparts in Nagorno-Karabakh to reconstruct School #1 of Mardakert. Among various renovations, the students also participating in the construction of an apartment building for financially distraught families and those who lost loved ones during the war. The students promised to continue this tradition every year.

Thanks to the extensive public relations activities carried out by the Fund, the 2005 Telethon marked record numbers in terms of public participation. The Fund presented high quality segments on the war-torn region of Mardakert and specifically highlighted the areas needed for improvement – leaving no Armenian indifferent to the needs of the region.

The Fund raised an unprecedented \$7.77 million – paving the way for construction to begin in 2006 in several spheres. The population of the region is looking forward to the commencement of the development program.

## Road construction

### North-South Highway Construction Nears Completion

The 2004 Telethon gave a renewed impetus to the construction of the North-South Highway. More than \$11.5 million were raised to complete the construction of this vital highway within the next 2-3 years. At the beginning of 2005, "Hayastan" All-Armenian Fund opened a bidding process for the construction of the remaining sections of the highway. Concurrently, portions that were under construction since 2003 and 2004 were rapidly nearing their completion.

During November 2005, the Vank-Kichan crossroad section, at a length of 5,1 kilometers, was opened. Naira Melkoumian, Executive Director of the Fund and Arkady Ghoukasian, President of the Nagorno-Karabakh Republic

**Furnishing of the school # 29 in Gyumri, Shirak marz**

"North - South" Highway.  
Kichan - Drmbon section

A road through the rock...

...one section is completed

were among the many participants of the opening ceremony. The remaining sections of the highway will be completed in late 2006. Of these sections is the Tsakouri-Hadrut portion of the highway that stretches 11,1 kilometers. Construction began in 2003 and its completion is slated for September of 2006. The last 3,5 kilometers of the this section will undergo complete asphaltting. Also slated for completion in September 2006 is the Azohk-Tsakouri section. Construction on this portion started in 2004 and stretches 10 kilometers.

Since last year, the double-phase construction of the Stepanakert-Karmir Shouka section (8,7 km and 12,4 km) has been proceeding. Asphaltting will begin in the Spring of 2006. The opening of the section is scheduled for November-December of 2006.

Started in 2004, construction of the 5,2 km long Kichan-Drmbon section is nearing completion. Currently, the 6,4 and 6,9 kilometers sections of Kichan-Drmbon are being constructed and is slated for completion in November of 2006.

The construction of the Drmbon-Mardakert section is also divided into stages. The multiphase construction of the 11,6 kilometer long section started in April 2005. Asphaltting in this section will begin in spring. In addition to ongoing works, in February 2006, the Fund announced a tender for the 4,865 kilometers section of Drmbon-Mardakert.

According to preliminary estimations, the entire construction of the highway will be completed at the end of 2007.

## Prizes

### “Robert Boghossian and Sons” Fund Finances New Prizes

#### Annual Genocide Research/Action Prize

During 2005, when Armenians around the world actively commemorated the 90th anniversary of the 1915 Armenian Genocide, President of the Republic of Armenia H.E. Robert Kocharian and Mr. Jean Boghossian, representing the Robert Boghossian and Sons Fund of France announced the establishment of a new academic prize. Through the generous sponsorship of the Fund, the President, on an annual basis, will award the individual who has made a significant contribution to the recognition of the Armenian Genocide in various academic fields such as literature, science, music, theatre, cinema, fine arts and humanities. Application to this special prize is open to residents and non-residents of Armenia.

The prize includes a monetary grant of \$10,000 to the individual as well as a special recognition by the President. Recently, the prize has generated profound interest among the many authors. So far 19 applications have been submitted, out of which nine are from Armenia and ten from abroad. The commission will make its final selection through two stages. The first award ceremony is expected to take place in 2006.

#### Presidential Prize – Art and Sciences

In April 2005, the President of the Republic of Armenia awarded annual prizes to representatives from the arts and sciences field. The prizes are

divided into eight specialized fields: art, literature, technical sciences and information technologies, physics, natural sciences, medical sciences, humanities, activities and projects promoting the development and spreading of humanities. The monetary prize is awarded in the amount of \$5000. 62 academic works have been submitted in the aforementioned fields. Prizes will be distributed in 2006. It is noteworthy that at the end of the year, the award recipients presented their findings through public reports in the National Academy of Sciences and several universities of Yerevan.

### Presidential Youth Prize

In 2005, for the first time the President's Youth Prize was awarded in three categories: Fine Arts and Film, Literature, and Music. The prize amounted to \$2500 and it was awarded to 18-25 year old young authors.

Prior to the ceremony, the young authors presented their works to the public. In order to ensure transparency of this initiative, the works of the authors were displayed on a public exhibit. Several works of the young painters, sculptures, photographers, designers, filmmakers were exhibited in the Armenian Painters' Union hall. The young composers and musicians performed their pieces at the Chamber Music hall. The audience had the opportunity to view or hear these pieces prior to the Commission's decision, thereby allowing for a fair decision.

For the 2006 Presidential Youth Prize 47 applications have been submitted. The prize will be awarded in two nominations: Fine Arts and Film; and Literature. The nomination for Music will be a separate prize and young authors will be awarded in the area of Classical Music as well.

### Presidential Youth Prize - Classical Music

In 2006 the first award ceremony of the Presidential Youth Prize for Classical Music will take place. The young performers at the age of 18-27 will be awarded in the categories of vocal art and instrumental performing art. The monetary prize is \$5000 per category.

37 applications have been submitted for this prize. The selection will be made in two stages. As that second, an open concert will be held so that both Commission members and the audience can judge the works. Creation of this prize aroused an enthusiasm among the young music professionals. They highly appreciated the attention of the government towards the advancement of classical music.

corporation in the Republic of Armenia. The head of the company is Mr. Rich Goldman, the general director.

Factoring in the favorable prerequisites for IT development in the country, Synopsys Armenia continues to make sound investments in this promising sector. In 2005, Synopsys Armenia entered into an agreement with "Hayastan" All-Armenian Fund, whereby the former will provide funding for the Fund's IT awards to students. The award is granted on an annual basis by the President of Armenia.

The first award ceremony took place in September of 2005. Eighteen participants were selected for the award, out of 87 students and 58 pupils. The awards were granted in the following categories: "The Best Bachelor", "The Best Master", "The Best Postgraduate Student", "The Best Female Student" and "The Best Pupil".

Mr. Goldman welcomed the professional abilities of the students. Below in an interview with Mr. Goldman on this matter.

**- The "Synopsys" company is making investments in Information Technologies in Armenia. How would you comment on the interest towards the Armenian IT by such an outstanding foreign company?**

- As a worldwide leader in Electronic design Automation that creates some of the most sophisticated software in the world, Synopsys is constantly searching the globe for locations that provide an excellent environment for research and development. In Armenia, we think we found a country with a unique combination of attributes that makes it an ideal home for Synopsys. The government has been hard at work creating a favorable environment for IT. The fact that it is a stable democracy is very important to us. Also, it is key that Armenia has created an open and capitalistic market, using similar foundations as Western economies and abiding by the Rule of Law. Since the product that we produce is Intellectual Property it is important to us that there are strong Intellectual Property laws in place, and people respect others' IP. As a technology center for the Soviet Union, Armenia has a long standing history of excellent engineering development, engineers, and a strong technical university system, with an emphasis on education. These are all important for Synopsys. In addition, we have found the infrastructure in Armenia to be well developed and generally reliable. The most important thing about Armenia is the people, and they have been extraordinarily welcoming to us, and well suited to extreme technical work, such as we perform,

**- Does the Armenian market meet your company's expectations?**

Armenia has been everything we hoped for and more. The government, businesses, and universities have been extremely cooperative and encouraging to us. The potential that we see in Armenia is immense, and we look forward to working with the people here to fulfill that potential.

Our groups in Armenia have already delivered important software and chip designs for us. We are very happy with the development of our groups, and are more convinced than ever that we want to aggressively grow in Armenia.

**- Every year RA President Awards will be granted to the best IT students and pupils. Please, share your impressions on the professional quality of the first year's participants.**

- I am extremely impressed by the professional quality of the first year's participants. There were so many high quality contestants, that we were not

able to honor all the excellent students. We hope that the students we were not able to honor participate again this year. The winners are an extraordinary group. I had the wonderful opportunity to interact with them, and it is clear to me that this is a group that Armenia should be very proud of. They are the standard bearers for Armenia's future. The awards are a great honor, but they also carry a heavy burden. We look to the winners to be shining examples for students that come behind them, and for them to inspire others to go into this field that is so important for Armenia's future.

**- How would you estimate the cooperation between "Synopsis Armenia" and "Hayastan" All-Armenian Fund ?**

- I am very impressed with the cooperation with the Hayastan All-Armenia Fund. To me, this cooperation epitomizes our cooperation with the Armenian people. Though we shared a vision for these awards with the president, they could not have become a reality without the Hayastan All-Armenian Fund. They had all the skills and abilities to turn this vision into a very professionally run competition and award, in a very short timeframe. I look forward to many more years of cooperation with Hayastan All-Armenian Fund. I am indebted to them for the wonderful job they have done with us in administrating these awards.

## Projects of the Fund

### "Hayastan" All-Armenian Fund Implementing Infrastructure Development Projects in Armenia and Nagorno-Karabakh Fiscal Year 2005 Project Summary

#### Nagorno-Karabakh

**Healthcare.** The "Hayastan" All-Armenian Fund completed the construction of the Stepanakert Central Polyclinic. The vital healthcare project started in 2003 and was sponsored by the U.S. East Coast affiliate – Armenia Fund USA.

The four storied building features modern medical standard accommodations. For the first time, the citizens of Nagorno-Karabakh will have a premier healthcare facility. In addition to constructing the polyclinic's building, the Fund built its boiler-house, a pump station, as well as a water storage reservoir. This effectively solved the polyclinic's heating issue and provided safe and constant source of water. The Fund also improved the areas surrounding the polyclinic. In addition to major construction, the Fund also installed modern medical equipment and furniture. Furthermore, a major healthcare training program was implemented by the Fund for the polyclinic's staff.

The polyclinic will have the unique capabilities of Telemedicine. This innovative technology will allow the medical staff of the polyclinic to immediately consult with specialists around the world via live video connection.

**Education.** In November 2005, the "Hayastan" All-Armenian Fund started construction of a school in the village of Madaghis, NKR. The school is designed for 120 students and its sponsor is the Toronto, Canada affiliate of the Fund. The current dilapidated school building was a dangerous environment for the children.

The new school will open its doors in the autumn of 2006. The three-storied building will have 12 classrooms. The Fund will also construct a boiler-house

Construction of secondary school in Mataghis, NKR

The construction works shall be completed by the end of 2006

Residential building 8a in "Yerankyuni" district, Spitak

No 10 French school in Gyumri

and install a heating system to address the crucial heating requirements of the building.

The Fund carried out water-supply projects in the two villages of the Shahumian Region. In 2005, the U.S. Western Region affiliate, Armenia Fund, Inc. financed the construction of two water mains in the Nor Gharachinar village. One main originated from the source spring to the storage reservoir, whereas the second main originated from the reservoir to the internal network. Each house in the village had a new faucet and pipeline installed, connecting them to the safe and reliable water system.

The Fund also implemented the water supply project of the Nor Getashen village through the generous sponsorship of the Miller family. The U.S. East Coast affiliate of the Fund undertook the financing of the project in one of the three districts of the region. In 2006, the water issues of the remaining two districts will also be solved. The project will encompass the construction of springs in the districts, as well as main water-pipes and an internal network system. One of the storage reservoirs will be replaced, whereas the other will be reconstructed.

### Provinces of the Republic of Armenia

#### Lori

In 2005, construction works in the Yerankyuni district were nearing completion. In July, the 8A building residential building opened its doors. The project was financed by the German affiliate of the Fund. The district includes 11 buildings, of which 10 have been undertaken by the United Kingdom affiliate. Construction of 7B and 8B residential buildings will be completed in 2006. The entire project will be finalized as soon as the construction for 7B and 8B are finalized. Construction on the 7B building started in 2004 and 8B in 2005. The surrounding environs of the buildings will be improved through funding provided by the government.

In 2005, through the sponsorship of the Armenian Support Committee, the Fund started the reconstruction of the sewer system of Stepanavan. The system of the Saint Nshan Street and nine other streets in the fourth micro-district of the left bank were reconstructed. Systems in 1A, 4, 5, 9, 10, 16, 17, 18, 19 streets have been repaired. The system on the Saint Nshan Street was entirely reconstructed.

After the 1989 Earthquake, construction of the Left Bank district started. The area is home to 3000 residents. However, due to a lack of funds, the construction works halted. The rehabilitation works of the sewer system for the district also stopped, which resulted in anti-sanitary conditions in the town. This caused for the potential of a serious epidemic. The waste was being collected in the yard behind the kindergarten building. The Fund immediately adopted the project and completed the rehabilitation works beginning in April and ending in December 2005.

#### Shirak

During the spring of 2005, construction of two sports facilities started. Through the financing of the French affiliate, the Fund began construction works on a two storied gymnasium for Gyumri School #9. The Fund's subsidiary, HATM, was carrying out the construction, which completed at the end of the year. The new gymnasium is equipped with modern facilities. The Fund is currently constructing a boiler-house and installing a heating system for the school. This project is also financed by the French affiliate; construction began in February 2006.

In addition to the gymnasium, the Fund will construct a swimming pool in

Gyumri. Due to the catastrophic earthquake, all three swimming pools in the city were destroyed. Construction will be completed by autumn 2006. The project is jointly financed by the Development Agency of Local Self-Governing units of Greece and Armenian donors.

#### Tavush

In 2005, the Fund implemented a water supply rehabilitation project in Dilijan. The water mains of Ivanovo, Shamakhyan and Aygestan streets of Dilijan were reconstructed. Since the pipes were never renovated and lacked proper maintenance, the residential area never had a reliable source of water. Thanks to the financing of the Montreal, Canada affiliate, the town now enjoys a safe and reliable supply of water.

In the context of the Fund's Ororots project, more than 323 packages containing infant care accessories were distributed to economically disadvantaged families in the region. Packages were delivered to families living in Dilijan, Ijevan, Noyemberyan and Berd districts.

#### Armavir

Through the generous donation of Mr. and Mrs. Burj and Belet Shahbazian of Los Angeles, the Fund's U.S. Western Region affiliate, Armenia Fund, Inc. financed the reconstruction works of Vagharshapat School #5. The project encompassed repairing the three-storied main building and reconstruction of the roof. The school has been properly furnished. The project was completed in May. Thanks to Mr. and Mrs. Shahbazian, 380 students now enjoy a modern and safe educational facility.

#### Aragatsotn

Through the financing of the Dutch affiliate of the Fund, the Areg village school was completely reconstructed. The main building was renovated and a boiler-house was constructed. On September 1, the school reopened its doors. It was renamed after Tatul Krpeyan, an Armenain martyr who was born in Areg.

Since February 2006, Ashtarak School #4 is being repaired through financing provided by the Austrian affiliate of the Fund. The affiliate had partially financed the refurbishment. This stage of the reconstruction encompasses internal renovations and repairs to the auditorium's flooring. Ashtarak School #4 caters to 500 students.

#### Yerevan

In April of 2005, the first stage of reconstruction works of sport complexes and schools was launched in Yerevan. The Fund carried out large scale rehabilitation works on the State Olympic Reserve College, "Spartak" Sport Complex of the "Hayastan" Union, Wrestling Olympic School and the "Working Reserves" NGO Yerevan building.

These sports facilities had not undergone any repair or maintenance since Soviet times. The scope of the construction included repair of different sports halls, centers, buildings, and the construction of boiler houses. In September of 2005, the Fund completed the reconstruction works and opened its doors to athletes and fans. The facilities now enjoy modern accommodations and standards. H.E. Robert Kocharian, President of the Republic of Armenia and Chairman of the Board of Trustees of the Fund, Mr. Ishkhan Zakarian, Chairman of the State Committee of Sports and Gymnastics, Mr. Gagik Tsarukian, Chairman of the National Olympic Committee visited these facilities and commended the works carried out by the Fund.

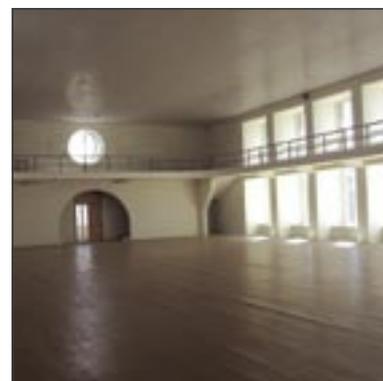

In 2006, the Fund will continue large-scale reconstruction works on Yerevan sports facilities. Three athletic institutions will be reconstructed by this stage:

Reconstruction of public swimming pool in Gyumri

Public swimming pool will serve all population of Gyumri

Sports hall of No 10 school in Gyumri

Residential building 8b in "Yerankyuni" district, Spitak

No 1 Children Hospital

The hospital is reconstructed and equipped

...everything for our children

Drinking water supply system for Nor Getashen and Gharachinar, NKR

the Sports Center of the Collective Teams, the Hrant Shahinyan Gymnastics School, the State College of Olympic Teams, as well as a new building will be constructed for the Yerevan School of Young Shooters. Completion of the second stage is slated for late 2006.

During the years of 2005-2006, the Fund implemented construction works in the Nork-Marash Isolation Hospital, which is the only medical facility of its kind in the country. This two-phase project is sponsored by the Brazilian affiliate of the Fund. The isolated hospital was built in 1956 and since then has not undergone any repair and maintenance. As a result the building was deteriorated. The first stage included the reconstruction of the roof, internal and external repair of the ground floors and renovation of the heating system. The second stage encompassed repair and internal furnishing of the first floor.

In 2005 through the generous financing of the United Kingdom affiliate, the Fund reconstructed three pediatric wards in the plastic and reconstructive surgery department of the Kanaker-Zeitun Medical Center in Yerevan. The project was sponsored in the loving memory of the late Mr. Hagop Klendjian.

In 2005-2006, the Fund constructed a comprehensive heating system for the Children's House in Yerevan. The project lasted three years and as a result the orphanage now has a reliable supply of gas and is equipped with boilers. It now has an internal heating system. Thanks to financing provided by the Girtilian Family of Istanbul, Turkey, through the Fund's U.S. Eastern Region affiliate, Armenia Fund USA, the 75 little residents of the orphanage were kept warm in winter.

The Fund is currently rehabilitating the Pushkin Park. The construction will start in 2006. The park has not undergone any repair for last 15 years. The new park will create favorable conditions for the public. According to the design schematics, the park will have pavilions, a waterfall, and an open air auditorium. Trees and shrubs will be planted at the end of the construction. In 2005 a Memorandum of Understanding was signed between the Robert Boghossian and Sons Fund and the Kentron Municipal Administration allowing for young architects to design the new park.

In the context of cultural projects, the Fund co-sponsored the first Alexander Spendiaryan Contest-Festival for young musicians. In addition, the Fund also held the annual Pan-Armenian Contest-Festival dubbed as "Giff" which took place in the Nagorno-Karabakh Republic. The Fund was among the many sponsors of the second international film-festival – Golden Apricot – which was held in Yerevan, Armenia.

The Flora Family Fund provided a grant through the Fund's U.S. Western Region affiliate, Armenia Fund, Inc. to the Archeological and Ethnographic Institute of Armenia. The donation will be used to publish scientific researches and significant finds.

Within the framework of cooperation with non-governmental organizations, the Fund carried out "A Glance at the City" program in 2005 by awarding grants NGOs dealing with problems facing Yerevan. Thanks to these grants, the Yelk NGO and the Modern Generation NGO implemented their projects within 7 months of commencement.

According to the decisions made at the 2000 and 2001 Meetings of the Board of Trustees the Executive Board of the "Hayastan" Fund launched quality monitoring of the projects implemented during the previous five years. The working group comprised of qualified specialists made site visits to ascertain how the areas and facilities are preserved. In general, the picture was satisfactory.

# Telethon Sponsors

## Working with the Fund – A Basis of Trust and Collaboration

“Hayastan” All-Armenian Fund’s benefactors not only support the organization’s activities through charitable donations, but also sponsor the live international Telethon.

The Fund would like to express its gratitude to the corporate sponsors of the 2005 Telethon: General Sponsor - Ardshinvestbank; ACBA Bank; Unibank; Artsakhbank; Ararat Gold Recovery Company, LLC; Eurowagen Company; Yerevan Brandy Company.

The Fund presents the sponsoring corporations’ perspectives below.

### **Aram Andreasian, Chairman of the Board. Ardshinvestbank**

**- Why did you decide to participate as one of the corporate sponsors of Telethon 2005?**

- When Armenians from all over the world participate in the nation-building projects of Armenia, Ardshinvestbank could not stand apart from those efforts, especially when the bank’s corporate motto is “Together we are powerful”. The bank always takes part in the Telethon; as a matter of fact we sponsored the television broadcast of the program.

**- How would you evaluate the Fund’s activities?**

- I believe the patriotic and nation-building efforts of the Fund are highly appreciated by all Armenians. The best testament to this is that on an annual basis more Armenians join the efforts of the Fund. It is beyond doubt that all good deeds are directed to support the development of the country.

**- Do you plan on expanding your cooperation with the Fund in the coming future?**

- Our future cooperation depends on the urgency of the Fund’s upcoming projects. We are always open for cooperation.

**- What were your impressions of the Telethon?**

- I felt a surge of pride. Once again we proved that wherever we live we wish to realize the dream of our ancestors: to have a prosperous and powerful country. We collectively do our best to contribute to the realization of that dream. I would like to commend the Fund’s professional staff for successfully organizing the event and in general the activities of the Fund.

### **Stepan Gishyan, General Director. ACBA Bank.**

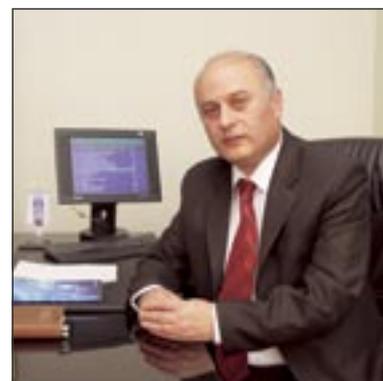

**- ACBA Bank was a corporate sponsor during the 2004 and 2005 Telethons. What do you make of the bank’s consistent participation?**

- First of all I should say that we are proud to support the efforts of the “Hayastan” All-Armenian Fund. The unity of Armenia and Diaspora businesses in the context of solving issues facing Armenia is a guarantee to the nation’s present and future achievements. Factoring the rate of economic growth in Armenia, we can expect that Armenian businessmen will become more active year by year.

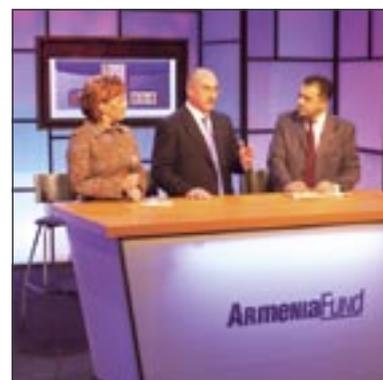

**- In 2004 and 2005, ACBA bank provided the means to make donations**

Telethon 2005 in Los Angeles

President Arkady Ghoukasian and  
Arsine Khanjian

Telethon 2005 presenters

B.K. Sharma, CEO, AGRC LLC

**to the Fund by ARCA and VISA credit cards. How do you assess this year's participation through credit cards versus 2004?**

- As it was expected, in 2005 the number and amounts of such donations exceeded 2004's figures. Despite the fact that 2005 witnessed growth in these numbers, most people are still not aware of this method. Prior to the Telethon, video commercials were shown to the public informing them about credit card donations. I believe that the number of such donations through credit cards will continue to grow, because it is by far the most practical way to donate. The donation is transferred to the Fund's bank account within a few days.

**- How would you evaluate the Fund's activities?**

- The Fund plays an important role in the development of our country. It implements various crucial projects and provides the opportunity for every Armenian to participate in the country's rebirth. Its activities are highly appreciated by the people of Armenia and the Diaspora.

**- Do you plan on expanding your cooperation with the Fund in the coming future?**

- Yes, there are new prospects of cooperation and we are currently considering them.

**B.K.Sharma, CEO**

**Ararat Gold Recovery Company, LLC**

**- Considering that the company you are a senior officer of is well known in Armenia and does not need any promotion or PR, what was the reason that you decided to provide a sponsorship for Telethon?**

- AGRC LLC is a gold mining and processing company in Armenia and is fully owned by Sterlite Gold Ltd., a company listed on Toronto, Canada Stock Exchange.

The major shareholders and having the management control in Sterlite Gold Ltd, are also running mining business in various countries including Australia, India, Zambia and are major players in the world in non-ferrous metals like copper, zinc, aluminum, silver, lead, etc. The purpose of their business is to harness natural resources in harmony with nature to enhance economical well being and quality of life. The core values of their business are:

- to have concern for environment;
- to be entrepreneurial and innovative;
- respect and care for people;
- passion to excel.

Wherever we have our business activities, we have long term commitments and we want to contribute towards community development, economical progress and all-round growth of the country. We were also aware of the activities of All Armenian Fund, doing a very constructive good work in Armenia to build new schools, hospitals, construction and maintenance of roads, etc. Therefore, we thought that All Armenian Fund was a good medium to contribute for the progress of this country as a part of our overall culture and also to act as a very responsible corporate citizen of this country and hence we made a contribution as our sponsorship.

**- Are you planning to enhance your relations with the Fund in the future?**

Yes, we will like to be associated with the Fund in future also as part of our overall culture, business plans and as an opportunity to contribute to a

good cause.

- **There is an Armenian Community in India. Before coming to Armenia had you ever contacted Armenians in India; did you know anything on Armenian history and culture?**

- Frankly speaking, I was not aware of Armenian community in India and had never interacted with them. It is a real revelation to me to know that very good relationship existed between Armenian and Indian communities since 2000BC. Myself and my colleagues in AGRC are trying to learn more about Armenian history and its relationships with India.

## Key Fundraising Events

### Telethon 2005

On November 24, 2005, "Hayastan" All-Armenian Fund held its international Telethon that was broadcasted live from Los Angeles. During the 12 hour live program, a record number of donors from the general public participated for reconstruction efforts in the Mardakert Region. Telethon 2005 was the first time, since 1996, that the Fund registered an unprecedented number of donors from the public and mid-level strata. Previous years' Telethons have been successful due in part to grand donors, however, this year a record \$7.77 million was raised through a grassroots effort. Mrs. Louise Manoogian Simone, a long time benefactor of the Fund, donated \$1 million. Mr. Ara Abrahamyan of Russia donated \$250,000 for the critically important Mardakert Regional Development plan.

Following days and even months from the Telethon, contributions were still pouring in from the public. The Fund had to publish the names of Armenia and Nagorno-Karabakh donors twice since the list kept on growing. Once again, Diaspora donors from France and the United States kept their active participation with the Fund.

\$1.2 million was raised through donors in Armenia and Karabakh. Armenians from all walks of life participated during Telethon 2005. In Armenia and Karabakh, individuals from 329 state institutions, 56 health care facilities, 21 universities, 13 banks, 13 ministries, 29 police and prosecutor's offices, 107 private enterprises, 122 secondary schools, 30 colleges, 8 orphanages, 7 NGOs, 218 individuals and other organizations contributed for the Telethon. A total of 1087 phone calls were received, of which 961 were from Armenia, 50 from Artsakh, 76 from Belgium, Belarus, Bulgaria, Denmark, France, Germany, Greece, Iran, Israel, Netherlands, Russia, Spain, Turkey, Ukraine, United Arab Emirates. It is noteworthy, that the Fund registered a record number of young donors as well.

The Fund, along with its international affiliates, maintained a large Telethon broadcast footprint throughout the globe. Prior to the program, the Fund conducted a widespread public relations campaign in order to inform the public about the beneficiary project of the Telethon – the Mardakert Regional Development Plan in the general context of the "Rebirth of Artsakh". The campaign's slogan was "Build a New Horizon".

The Telethon started with the song "Barev Erkir", music video exclusively produced and directed in Armenia. The Telethon's results reflected the effective and widespread public relations campaign. The urgency of rebuild the

Artak Herikhyan and Terry Philips

region was clearly relayed to the public thanks to the high quality programming of the Telethon. In addition, the fact that \$515,000 was already raised prior to the Telethon is proof of the Fund's powerful public outreach program. This was due in part to the 2005 Phone-a-thon, which was held prior to the Telethon.

The 2005 Telethon is not a mere fundraising program. The event culminates the best of entertainers in Armenia and the Diaspora as well as features well-known celebrities, political and community leaders, and heads of various Armenian organizations.

The live 12 hour program, originating from Los Angeles, had one intent and that was to unite people under one common goal and encourage them to donate to the rebuilding efforts of the Mardakert Region. President of the Nagorno-Karabakh Republic Arkady Ghoukasian, the Primate of the Artsakh Diocese of the Armenian Apostolic Church, Archbishop Barkev Mardirossian, Foreign Affairs Minister of Armenia, Vardan Oskanian, his assistant Mrs. Salpi Ghazarian, and the Executive Director of the Fund Naira Melkounian were among the many political and community leaders present during the Telethon. The Fund's U.S. Western and Eastern region affiliates made appeals during the Telethon. Joining live via satellite were the Fund's Argentinean, French, and Russian affiliates.

The program also featured well-known Diaspora movie star Arsine Khanjian, celebrity attorney Mark Geragos and Mr. Larry Zarian. In addition to monetary contributions, the Fund received in-kind donations. The Fund's U.S. Western and Eastern region affiliates undertook their management. The U.S. Western Region affiliate will provide the Mardakert Regional Hospital with medical equipment donated by California-based hospitals, whereas the U.S. Eastern Region will further work on the development of the agriculture initiatives by sending a group of experts.

### Phone-a-thon 2005 – An Unprecedented Success

Prior to the annual Telethon, the Fund conducts Phone-a-thons through its various international affiliates. From November 16 – 18, 2005, a Phone-a-thon was held in Armenia. In addition, from November 17 – 20, 2005, a Phone-a-thon was held throughout Europe. Results from the European Phone-a-thon, through the participation of donors from France, Germany, Switzerland, Portugal and Spain were extremely unprecedented. Thanks to the volunteer efforts of more than 700 individuals, the Fund was able to reach more than 45,000 Armenian families living in France and an additional 10,000 families living in Switzerland and Germany. As a result, \$1.2 million was raised. The 2004 Phone-a-thon alone had raised more than \$1.5 million. On an annual basis, Armenian families living in Europe, bring forth their active participation and always raise more than \$1 million for infrastructure development assistance to Armenia and Nagorno-Karabakh.

These communities remained active also during the Telethon and the days following it, by continuing their financial contributions to the Fund. The French affiliate's office was flooded with phone calls following days after the Telethon. Donors were still calling in to pledge their contributions.

The Phone-a-thon in Armenian has been an ongoing event since 2003 and it has been quite successful. On an annual basis, more small and medium sized businesses continue to bring their active participation with the Fund. Whereas previous years saw less participation from businesses, the

2005 Phone-a-thon registered an unprecedented growth from them. On the second day of the Phone-a-thon, a record 19 million Drams was pledged, far exceeding last year's results. On the third and final day, the total had reached to 27 million Drams – compared to last year's total of 15 million Drams, this was a true success. The Fund called households and around 1500 small and medium companies in Armenia. This is a testament to the growing interest and participation in the annual fundraiser.

The newly reestablished affiliate of Lebanon organized a Radio-a-thon – “National Donations for the Homeland's Prosperity – through the “Vanadzain” radio channel. The affiliate was able to raise \$100,000 – a record for the affiliate.

The Argentinean affiliate conducted a Phone-a-thon prior to the Telethon. Around 135 volunteers called 15,000 households and businesses, raising \$51,000. In addition to the Telethon, the U.S. Western and Eastern Regions held their respective Phone-a-thons as well. The newly established Russian affiliate participated during the 2005 Telethon for the very first time.

## Telethon Guests

Celebrities as Telethon Host

Mark Geragos on “Hayastan” All-Armenian Fund and the Telethon

Prominent members of the greater Armenian Diaspora actively participated during Telethon 2005. They made live appeals calling forth all Armenians to participate in the nation-building initiatives of the Fund.

Among many guests, world-renowned Canadian-Armenian actress Arsine Khanjian, for the first time, participated as a host. In addition, celebrity attorney and legal analyst, Mark Geragos took an active part during the Telethon. His appeals greatly inspired the public during the peak hours of the Telethon. Below, we present a special interview with Mr. Geragos.

### - What motivated you to play an active role in the Telethon 2005?

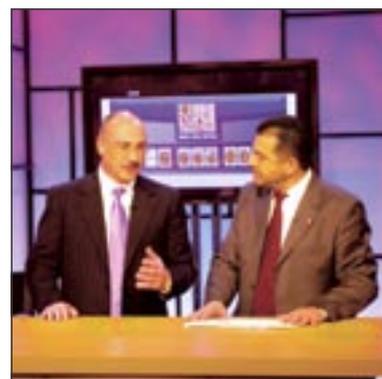

2005 was I believe the 3rd Thanksgiving that I have been involved with the Telethon. What initially attracted me to Armenia Fund is the ecumenical nature of the organization. Armenia Fund is one of the few causes where political party, religious affiliation and social status are irrelevant. What is relevant is helping Armenia build the infrastructure that it needs.

### - How would you comment on the Telethon 2005? Was it different from the previous years?

It seems that each year that the Telethon is more professionally run and that the community increasingly becomes more involved. Also, in 2005 we for the first time started to reach out to Non-Armenians as well. My hope is that the Telethon continues to build to the point where it becomes the focal point of everyone's Thanksgiving Day.

### - How could the relations formed between Armenia and Diaspora be developed better? What is necessary to ensure that development?

The Diaspora needs to reach out to Armenia through our youth. Summer programs, study abroad programs and exchange student type programs will build not only better relations but foster a real understanding of our link to our motherland.

President Ghoukasian and Hrant Tokhatyan

V. Oskanian, RA Minister of Foreign Affairs

Donor: USA West Coast affiliate, Flora Family Fund

- If you had opportunity to implement a project in Armenia or Artsakh, what would be the nature of the project?

I would love to see a world class Medical facility with teams of doctors from throughout the Diaspora who rotate through periodically.

## Volunteers of the Fund

**I will continue to volunteer for Himnadram...**

**Young volunteers share their impressions and call others to take part.**

Prior to the November Telethon and Phone-a-thon campaigns, young volunteers contact the Himnadram offices to participate in these fundraisers. Volunteers from the capital and provinces of Armenia, as well as from the Diaspora take part in the works of "Hayastan" Himnadram. Staff members from Himnadram warmly welcome the volunteer participants.

Why do the young people act as volunteers and devote their time and efforts to that work? Why do they find the work attractive in this kind of humanitarian organizations? Diasporan Armenians, who volunteered during the 2005 Telethon, Tania Sahakian and Hrug DerManvelian, share their thoughts and experience with "Hayastan" Himnadram.

**Tanya** - I have volunteered for various Armenian organizations, and what impressed me about Armenia Fund in its pre-Telethon planning and operations was their efficiency. No detail was overlooked, and all activities were carried out to a high professional standard. I was overcome by a feeling of unity. Everyone came together and dedicated their time and effort for one cause.

Armenia Fund is one of the few organizations that create a direct link of support between the Diaspora and Armenia. It allows each and every Armenian all over the world a reliable manner in which to become a participant in the rebuilding of Armenia and Artsakh. What is even more critical is that Armenia Fund allows different Diaspora communities to link to each other, thus uniting Armenians to achieve a common goal. This is primarily attributed to Armenia Fund's status as one of the few Armenian organizations that promotes unity across different political, religious, and social spheres. This is key to Armenia's future, because by being united we are not hindered and can achieve more.

I feel that if one believes in the cause, one should always give their time and effort towards it. That is how I feel about Armenia Fund, therefore I will keep volunteering my time to such a great cause. I encourage others to do so as well. Rebuilding Armenia and Artsakh is not a job for one, but a duty for all Armenians.

**Hrug** - The experience I gained this summer at the All-Armenian Fund was incredibly enlightening. Working under the wing of Deputy Executive Director Ara Vardanyan, I was able to see, first-hand, the inner workings of the organization. As a member of the Armenian Diaspora who contributes to the "Hayastan" Fund, this was my opportunity to see how our donations are put to good use. I was able to see how the organization works and how the donated funds are translated into much-needed infrastructure and social projects in Armenia

During those months, I was consistently impressed with the hard-working staff. And I truly believe that Armenia would be a different place without the organization.

Tania Sahakian, volunteer

Hrug DerManvelian, volunteer

I was a witness to many of the decisions that effected the day-to-day operation of the organization and how the altruistic ideas proposed by others that became reality.

It's a monumental task to plan for the annual Telethon. When visiting Armenia next time, I would like to be more active in the individual projects of the All-Armenian Fund. I would also like to be more involved in the preparations for the annual telethon and visit the numerous project sites to witness the progress and the work that still needs to be done.

## Armenians of Lebanon

### Reestablishing the Lebanese Affiliate of "Hayastan" All-Armenian Fund

Since August 2005, the Lebanese affiliate of the Fund jumpstarted its activities within the greater Armenian community of Lebanon. Mrs. Naira Melkounian, Executive Director of the Fund, visited Beirut, Lebanon prior to the affiliate's reestablishment. Among many meetings, Mrs. Melkounian met with community leaders and heads of Armenian political parties, as well as leaders of various Armenian churches and organizations. It was apparent that the affiliate's reestablishment was simply a matter of time. The Armenian community was impatiently waiting for the organization to restart its activities, through they would be able to support small and large scale projects carried out in the Homeland.

The affiliate reached new heights immediately following its formation. Led by Sarkis Armenian, the organization raised an unprecedented \$100,000 during the November Telethon. The affiliate not only proved its effectiveness in this campaign, but the Armenian community of Lebanon conveyed its devotion to the rebuilding efforts in the Homeland, through the "Hayastan" All-Armenian Fund. The Lebanese Affiliate continues to support the implementation of special projects as well.

The active participation of Lebanon's Armenian community is certainly not new to "Hayastan" All-Armenian Fund. Ever since the organization's establishment, the community has led an active role in fundraising efforts for the Homeland. Based on financial figures, the Lebanese community has rendered the following support:

**1992-1995:** Total donations amounted to \$116,100 of which \$10,000 was allotted for the "Winter" project of 1993-1994.

**1995-1996:** Total donations amounted to \$336,000 of which \$321,000 was given to Telethon 1996 and the rest was allotted \$7,000 for the Scientific Conference dedicated to the 50th anniversary of Byurakan Observatory (Donor - Ramkavar Liberal-Democratic Party, 1995).

**1996-1997:** Total donations amounted to \$125,000. This amount was allotted to the construction of four apartment buildings in the Ani District of Gyumri and the completion of unfinished residential buildings. (Finances were also allotted from the Earthquake Relief Fund). Another \$7,700 was allocated for the construction of an independent gas supply pipeline for the eternal flame of the Genocide Monument (Donor - Central Committee of Ramkavar Liberal-Democratic Party)

**1997-1998:** Total donations amounted to \$445,000 of which \$70,000 was allocated for the completion of unfinished residential building 9.1-10 in Gyumri and \$93,700 also for the completion of unfinished residential buildings of 10.3-7, 10.1-7, 10.1-3, and 10.1-2 in Gyumri (finances were allocated from the Earthquake Relief Fund).

#### Financial assistance to the development of the web-site of the Institute of Archeology

Status: completed  
Project Cost: \$999,58  
Donor: Hayastan Fund, director fund

#### Archeological dig of the newly built Ani district's suburbs in Gyumri, Shirak marz

Status: completed  
Project Cost: \$14 417,80

Donor: Synopsys Armenia

#### First republican festival of puppet shows

Status: completed  
Project Cost: \$888,51  
Donor: Hayastan Fund, director's fund

#### "Association of cultural representatives" NGO

Status: completed  
Project Cost: \$500,00  
Donor: Hayastan Fund, director's fund

#### Assistance to the development of "My Yerevan" foto album and CD

Status: completed  
Project Cost: \$399,83  
Donor: Hayastan Fund, director's fund

#### Assistance to the "Young Saxophonists Association of Armenia"

Status: completed  
Project Cost: \$888,51  
Donor: Hayastan Fund, director's fund

Solid Track Record.  
3a building, "Yerankyuni", Spitak

3a building inhabitants

Archut village school

Drinking water supply is a priority project

**1999:** \$105,700 was allocated for the completion of unfinished residential building 9.1-13a in Gyumri.

**2001:** Total donations amounted to \$44,900.

**2004:** Total donations amounted to \$29,900 of which \$3,300 was allocated for the acquisition of musical instruments for music school students of Armenia and NKR.

During the years of 1992 through 2002, the total amount of donations from the Armenian community of Lebanon amounted to \$1 million. This shows the unyielding efforts of the community dedicated to rebuilding Armenia and Nagorno-Karabakh.

## “Hayastan” All-Armenian Fund – Yesterday and Today

A Solid Track Record 

### One School – Three Lives

The Archut Village School, located by the road connecting Vanadzor and Spitak, could have seen its ultimate end during the 1988 catastrophic earthquake. The two story building came crashing to the ground. Following the aftermath of the earthquake, five desks and a blackboard were recovered from the ruins.

The history of the school was not over. Andranik Soghomonian, the director, led students and teachers into temporary wooden houses that were used as classrooms. In the meantime, a group of construction experts from one of the former Soviet republics came to the school's ruined site. The group, in the context of restoring the Disaster Zone, prepared the strong foundation of the school and cleared the area of rubble and cement. The group prepared to carry out construction by raising the walls of the school. However, in 1992, with the collapse of the Soviet Union, the project came to a halt, as was the case with other type of projects throughout the country. The students continued their classes in temporary wooden houses, but that did not long last either. The houses deteriorated and were torn apart and burned for heating purposes.

Ten years after the earthquake, the history of the school continued. In 1998, after years without a permanent facility, a new school was built through the generous support of “Hayastan” All-Armenian Fund's benefactors: Ms. Zaruhi Demirian, Mr. Krikor Shahinian, the Guendjian Family, and the St. Chamond Armenian Association. The school was named after the famous Diaspora based writer – Shahan Shahnour.

Today, thanks to the generosity of benefactors, the 112 students enjoy a comfortable, two story school building. Mr. Andranik Soghomonian proudly accompanied us to the classrooms. Indeed, Mr. Soghomonian has the right to be proud. Unlike other students, the children of Archut are well aware of their school's values. The school is very immaculate with spotless white walls and gleaming desks. The director tells a story of a child who once drew a Christmas tree on the back of a chair, on the eve of New Year. The school's teachers scrambled to clean his little “creation”. The child was shown the five original desks that were recovered from the earthquake – an implication to appreciate the values of the school. Ever since that incident, the children of the school diligently draw and sketch in their notebooks.

This small village school is not only distinguishable by its cleanliness and appearance. The students of Archut continue to win academic and athletic medals in regional and municipal competitions. Mr. Souren Mirzoyan, the

physical education instructor and former USSR boxing coach, shares his pride as the students record the highest results in all athletic competitions. It is no surprise that 7 out of 8 boxing prizes at the Vanadzor Municipal competition are won by the students of Archut.

“If we can afford to have an athletic hall, we will not only train champions for municipal competitions, but for international ones as well”, promises the famous trainer. He is certain that the school will one day see a modern athletic hall, because the history of this small village school sees a bright and happy future ahead.

### Twelve Out of Half-Million

On the verge of completion, the new residential building can be seen from Apartment Building N3 of the Yerankyuni District. The construction workers are finalizing the building and its exteriors. Very soon, the Dallakian family will enjoy the company of new neighbors, as they move into the new building. The Dallakians are among the many families who suffered during the catastrophic earthquake of 1988.

Lena Dallakian walks away from the window with mixed feelings – joy for the future and sad recollections of the past. The earthquake and the difficult years after are fused into her memory as nightmares. She moved into the temporary wooden shacks with her husband and three children. Lena did not imagine that this temporary shelter will be their house for the next fourteen years.

As life progressed, her children grew up and created their families. Soon they saw their grandchildren growing up in front of their eyes. Yet, their joy was constantly darkened by the uncertain future facing their grandchildren. Were these young members of their family going to face horrible living conditions inside temporary wooden houses that had rotten over the years? At the time, the Dallakian family consisted of 12 members – among the half-million population of the city that lacked proper and reliable housing.

Now, Lena, a grandmother of many, is tortured with such thoughts. In 2002, their familial history paralleled that of the historical construction of the Yerankyuni residential district in Spitak. The construction was completed by the “Hayastan” All-Armenian Fund. Currently, the Dallakians are among the many who enjoy the new residential buildings. The new units feature large three rooms with all necessary accommodations. The financing of the construction was made possible through the Fund’s British committee.

Thanks to their Diaspora compatriots, the Dallakians now have a house – something that is taken for granted elsewhere in the world. The population of Spitak still has hope for the future despite the many problems facing the region. Lena’s next grandchild will be born soon – proof that the people are growing amid hardship. By that time, the construction of residential units 7B and 8B in the Yerankyuni District will be completed. Its new residents will move in and start a new life, filled with joy and hope.

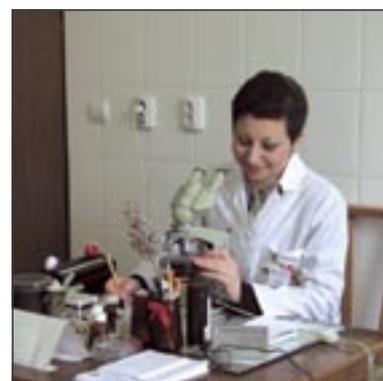

### A Hospital in Despair

The Yerevan Children’s Hospital #1 is well known for its professional staff and cordial treatment of its pediatric patients. Unfortunately, the hospital’s condition was exacerbated by the collapse of state institutions during the early 1990s. The hospital faced a serious financial crisis. The hospital no longer was able to update its outdated and worn out equipment. The clean rooms were in shambles and disrepair. This took its toll on the quality of healthcare that the children received while at the hospital. It was apparent that the hospital itself needed urgent treatment.

From 1997 to 2000, “Hayastan” All-Armenian Fund completed three major

Infrastructure reconstruction

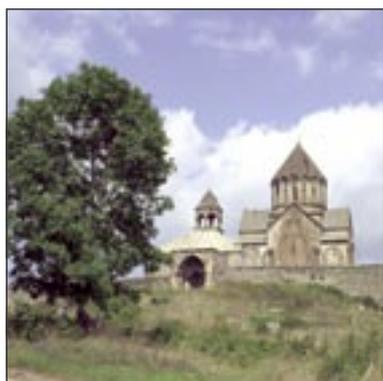

Healthcare projects

Sports facilities

Educational establishments

Project Cost: \$444,26  
Donor: Hayastan Fund

projects in the hospital. First, Argentinean-Armenian benefactor Mr. Armen Ekserciyan financed the reconstruction of the Emergency Department. A year later, another benefactor from Argentina, Mr. Samuel Margossian, sponsored the reconstruction of the Surgical Department. Finally, in 2000, Mr. Eddie Sarian, an Argentina based philanthropist, undertook the financing of the hospital's laboratory renovation and its refurbishing. Thanks to the vision of these individuals, the Yerevan Children's Hospital is up to date and properly caters to its young patients.

"We immediately noticed the changes", state Ms. Maria Gevorgian, a laboratory technician. She adds, "Previously, in the old laboratory we could receive nearly twenty patients a month. The patients preferred to go to private clinics, where conditions were much better than ours. Thanks to the upgrades, we now receive a thousand patients per month. We provide them quality, free healthcare. In addition, the medical staff has changed its working methods. The physicians feel that they are at home and they ensure the proper cleanliness of the facility".

"We certainly enjoy working here", adds Maria's colleague, Arsen Aslanian, a surgeon. "Previously, the medical staff did not even have a room. All areas in the hospital were occupied by patients. Now we enjoy entering the rooms and wars...they are clean and professionally kept. Each ward has its restroom facility and an area where parents could stay and spend time with their children..." adds the surgeon.

Without the renovations carried out by "Hayastan" All-Armenian Fund, the hospital would have been in shambles and faced continued dire conditions. The history of the hospital is certainly connected to the thousands of life stories of young patients who have benefited from its reconstruction. The important factor here is that each project is able to change and positively impact the lives of hundreds and thousands of our compatriots. The Fund continues to leave its positive impact on the lives of the people living in Armenia, Artsakh or even the Diaspora.

## Special Project in the Republic of Georgia

### Revival of the Armenian Church in Tbilisi

Since ancient times, Armenians have lived in Georgia. Around 460,000 Armenians have lived in Georgia prior to the civil war, which followed the collapse of the Soviet Union. During the 19th century, Tbilisi, the capital of the country was the center of Armenian intellectual and political life. A significant Armenian population was present in Tbilisi compared to other capitals of the world.

The Armenian district of Tbilisi, named Havlabar, is located at the heart of the capital. It is situated between the central part of the left bank of the Kur River and Navtlouga District. Among many other features, the district has its unique color and famous tiled streets. The residential areas have one or two storied cozy houses, which are combined into an area dubbed as the "Italian Yards". The Havlabar Hills are indeed a beautiful sight. The district has transformed in an elite area of the capital. In fact, the President of the Republic of Georgia, Michael Sahakashvilli has moved his residence to the district. The rising popularity of the district makes it very difficult to purchase land and property in the area. Large-scale reconstruction works, designed to

enhance the area, were launched.

Situated on the top of Elia Mountains, the Holy Trinity Church is being built. The church is being constructed on Khojivank, an ancient Armenian cemetery. The area was destroyed in 1936. According to some, the church will be the largest of its kind in the world. Stairs from the church will lead to the bank of the Kur River. The current plan calls for the destruction of old residential units in the area and the construction of a park instead.

The district is home to three ancient Armenian churches – St. Minas, St. Red Testament, and St. Etchmiadzin. The St. Minas Church is destroyed and desolated, whereas the St. Red Testament Church is completely destroyed to the point that one will only find ruins in its place. The St. Etchmiadzin church is dilapidated and needs urgent reconstruction. The church was damaged due to earthquakes and other natural disasters. It has severe cracks on its internal and external support walls. The church has never seen any renovation and it is on the verge of collapsing completely.

“Hayastan” All-Armenian Fund has long planned its reconstruction. Thanks to the generous support of the Holy See of Etchmiadzin and the Fund’s Argentinean affiliate, the church will be reconstructed and restored to its cultural splendor. According to the construction plan, the initial stage would be to strengthen the foundation and all support walls of the building. Thereafter, the church will be repaired and renovated. It is noteworthy, that this is not the first time the Fund has embarked on a cultural restoration project, namely the reconstruction of a church. In 2001, the Fund reconstructed the Arjovit village church which was destroyed by the 1988 earthquake. The Tbilisi church reconstruction is a special project in itself as it is the first time the Fund is implementing a project outside of Armenia.

The Armenian community of Georgia continues to thrive and grow. Certainly, Armenians will live in the country for many years to come. After the church is restored, visitors will be able to visit it and appreciate its historical and cultural value. The church will also be home to the future generations of the Armenian community, securing their cultural and national identity. The Fund’s hope is that all the Armenian churches will operate in Georgia one day through collective efforts of Armenians living around the world.

## Friends of the Fund

“An organization that brings all Armenians together”

### A Few Words from Friends of the Fund

Among its many friends, “Hayastan” All-Armenian Fund has thousands of supporters and donors from the Homeland and the Diaspora, as well as individuals who have firmly believed in its importance from the very early years of its establishment. Each of these individuals have brought forth their support within their realms. The Foreign Affairs Minister of the Republic of Armenia, Vartan Oskanian, and his assistant Mrs. Salpi Ghazarian are among long time devoted friends of the Fund. Both have actively participated in its activities, notably during the November Telethons.

“Hayastan” All-Armenian Fund had a unique opportunity to sit down with Minister Oskanian and Salpi Ghazarian and further learn of their perspective on the vitality of the Fund.

- What role does the idea of philanthropy play in Armenia-Diaspora relations?

Donor: Hayastan Fund, director’s fund

Vartan Oskanian - Friend of the Fund

**Vardan Oskanian** - Armenia-Diaspora relations have always included a large element of philanthropy -- on an individual basis, as well as institutionally. The large Diaspora organizations, which themselves were founded as philanthropic benevolent organizations, have found ways to help and support similar organizations and institutions here in Armenia. This was especially necessary in the early days -- following earthquake, war and all the well-known ravages.

However, it is good to see that the same emotions and attitudes which have created a very generous Diaspora are now being directed not solely at direct charity, but at projects which enable development. That is what makes the Armenia Fund unique -- that it supports infrastructure and development projects. And the Diaspora's large and small donors know that simply by helping individuals and individual projects, they cannot make significant difference in the life of a community. That takes a centralized, government sanctioned approach and that is what the Himnadram offers -- the ability to use donor funds to make institutional improvements.

**- What do you make of Telethon 2005? What moment was the most memorable one for you? Was made the Telethon distinctive from others?**

The Telethon 2005 was wonderful in that it produced the greatest amount of spontaneous donations, not previously solicited, not from the very generous donors we've all come to appreciate. People saw and heard the urgency of the need and donated. Mark Geragos's great bursts of energy, Arsine Khanjian's genuine appeals -- all of this was appreciated by the audiences at home. It was a pleasure to join them and try to find genuine people-to-people links between Armenia and the Diaspora.

**- As a Board of Trustees member of "Hayastan" All-Armenia Fund, how do you evaluate its activities?**

The Armenia Fund has grown in its work and capacity each year since its inception. The idea was a good one then, and it continues to demonstrate that it is a good idea still. To complete and support all that the government can't do, but to do it in a coordinated, transparent, institutional way to achieve the greatest benefit for the people of Nagorno-Karabakh and Armenia.

Salpi Ghazarian. "I believe in the mission of Armenia Fund"

**- Please, share your impressions on the Los Angeles Telethon.**

**Salpi Ghazarian** - This year's telethon was different and satisfying in a number of ways: the huge turnout from unexpected sources, the wonderful camaraderie and genuine commitment of the various professionals who had agreed to host, and the funds that were raised from the masses, not just from the major donors who are always generous and involved. What was also interesting this year is that the whole process was carried out not in an atmosphere of urgency or emergency, but in a natural, regular, predictable sort of way -- that this is the time of year when we are asked to pay our dues, do our part to make sure that the country and its institutions are made stronger and healthier, and the lives of the people of Nagorno-Karabakh especially are made easier. This is what the telethon can do that no other fundraising mechanism makes possible -- to actually see and hear from the people whose lives are being affected, and to facilitate the regular engagement and commitment of the men, women and children of the Diaspora.

**- What motivated you to participate in the 2005 Telethon and to be a host of that event?**

- I believe in the mission of the Armenia Fund. I believe that every Armenian must contribute to the development of Armenia and Nagorno-Karabakh and

that the Armenia Fund makes this easy and does so efficiently and effectively. That is why I have supported the Himnadram's efforts from its inception, and continue to do so happily now. I also believe that unfortunately, information flow from Armenia to the Diaspora is incomplete and as a result, there is a lack of good, solid, accurate information about successes and challenges. The Armenia Fund telethon serves to inform and educate as well, and that function is, I believe, very important. Finally, it is a people-to-people effort - it is people who believe in this process and this goal, talking to people just like themselves and making Armenia's future and stability a pan-Armenian effort.

**- How do you evaluate activities of the "Hayastan" Fund?**

- Armenia Fund does for Armenia and Nagorno-Karabakh what the government would and should be doing if it had sufficient funds. I can't say this enough -- send all the money you want to help your aunt, cousin, godson, or former neighbor. But you can't, on your own, with all your generosity and good will, build decent roads, hospitals, electricity grids or sewage systems. And without those basic infrastructure fundamentals, there is no quality of life. That is what the Armenia Fund does, and we must do all we can to help in that work.

## Funding Sources

### Establishment of New Endowment Funds

"Hayastan" All-Armenian Fund's project funding does not only come from proceeds collected at annual telethons and phone-a-thons. The Fund has special endowment funds established by benefactors for long term projects. Educational and social projects are sponsored through these funds. The history of endowment funds for "Hayastan" All-Armenian Fund date back to its early years of 1993-1994, when the first fund was established.

The Yervant Gralian Fund was established to provide financial assistance to socio-economically disadvantaged talented students of the Yerevan State Medical University. The main amount established for the Fund was \$35,000

The Hripsime Pirzadian Fund was established to sponsor talented students of the Yerevan State University who are in need of financial assistance. The main amount established for the Fund was \$40,600. In 2004, Paren and Regina Bazarians added \$10,000 to the Fund bringing the total to \$50,600.

Since 1995, various Funds provide financial assistance to children of deceased or first degree disabled soldiers. Among these funds are the following endowments: In Memory of Catholicos of All-Armenians H.H. Karekin I Fund, established in 1999 in the amount of \$500,000; the Krikor and Daniel Shahinian Fund reestablished in 2000 in the amount of \$14,600; the Mrs. Paul Zekian Fund established in 2000 in the amount of \$14,200; the Dikran Izmirlian Fund established in 2000 in the amount of \$ 650,000; the Lillian Terchunian Fund established in 2001 in the amount of \$100,000; the Arsham Simsarian Fund and the Vardanoush Ter-Minasian Fund established in 2001 each in the amount of \$70,700.

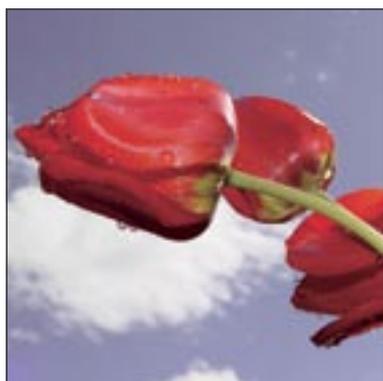

The total amount of Endowment Funds has significantly grown during the past decade. In 1995, the total amount totaled to \$770,000; in 2003, the amount rose to \$867,900; in 2004 the funds grew to \$900,400 and in 2005 it reached over a million dollars, totaling to \$1,016,000.

The recently established endowment funds include the Vilen Hakobian

In addition, in 2005, two more funds were established: the Mrs. Geguhi Vasilian Fund in the amount of \$50,100 and the Stepan Ignegoghlu Fund in the amount of \$65,900.

### Testaments for "Hayastan" All-Armenian Fund

During the 14th meeting of the Board of Trustees of "Hayastan" All-Armenian Fund, in 2005, the Chairman of the Fund's French affiliate, Mr. Bedros Terzian touched upon the issue of French-Armenians' legal wills that have no legatees. Diaspora Armenians in France register the Fund's French affiliate, Fonds Armenien de France, as their legatee or recipient of the will. The Fund receives the property and assets of the donor and uses it for various projects in the Homeland.

Mr. Terzian mentioned that the French affiliate expects vital income from these wills since its number is increasing on a yearly basis. Mr. Terzian recommended that other affiliates of the Fund seek similar initiative in urging their donors to leave their property to the Fund. He regards this as an important and long-term initiative of the Fund. "Just imagine how many projects we could implement in Armenia and Artsakh through those funds", said Mr. Terzian.

The French affiliate's efforts in this area are certainly successful. Since the affiliate is an officially registered charity, it has all legal right to being a legatee of a testament. Those who do not mention a legatee, their property is handed over to the French government. Thus, Armenians of France realize the importance of leaving their property and assets to the French affiliate of the Fund that could serve nation-building activities in the Homeland, rather than end up with the French government.

In its 14 year history, the French affiliate has been receiving testaments during the past four years. In 2004, the amount of these testaments totalled to 300,000 Euros and in 2005 it grew to 520,000 Euros – marking an increase of 75%.

## International Affiliates

### "Hayastan" Fund's Affiliates in the Armenian Communities

"Hayastan" All-Armenian Fund has 19 international affiliates operating across the globe. Affiliates of the Fund carry out various fundraising events within their respective communities. In addition to their work, the affiliates adopt specific projects in Armenia and Nagorno-Karabakh.

The Fund presents the works and activities of its three affiliates: Argentina, United Kingdom, and Brazil.

#### Great Britain

##### Armenian Community of Great Britain

Ten thousand Armenians, around 2500 families, reside in Great Britain, mainly in London and Manchester. Three Apostolic churches, namely, St. Yeghishe and St. Sarkis in London and The Holy Trinity Church in Manchester are active in the community. The "Gevork Tahta" Sunday School

and “Armenian Classes” Saturday School are available to the community for Armenian language tuition. Around 15 religious, charitable, cultural, sports, youth and political organizations are also active in the community.

### The Local Committee

The “Hayastan” All-Armenian Fund’s Local Committee in Great Britain (HAAF GB) was established in 1992. It now consists of 8 members: Bishop Nathan Hovhannisian, Mr. Norayr Torikian, Ms. Armineh Carapeti (contact person), Mr. Garo Garabedian, Mr. Haig Tahta, Mr. Vicken Couligian, Mr. Vernon Hovsepian and Mr. Hratch Tokatlian.

The HAAF GB’s Ladies Auxiliary Committee was also established in 1992.

The HAAF GB sends National Giving appeals twice yearly, in January and August, to the Armenian community in GB. These appeals summarize the report of the “Hayastan” Fund Executive Board, as well as the fund-raising activities of the HAAF GB Local Committee. The latter organizes fund-raising charity events such as dinners, trips to Armenia and Artsakh, concerts, and various song and dance recitals to celebrate Armenian Independence Day. They also publish a bi-lingual calendar summarizing all projects of the Fund and containing recent images of architecture and nature from Armenia and Artsakh.

### Activity

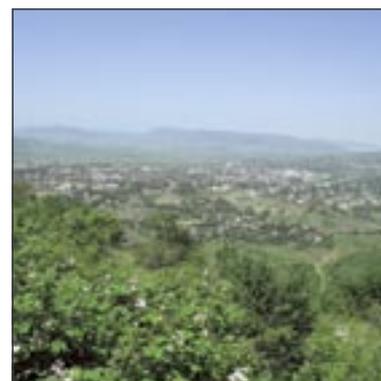

In conjunction with HAAF Local Committees in other countries, the HAAF GB Local Committee has co-financed the following nationally important projects:

- Winter 94 (contributed \$138,000; implemented in 1993-1994 throughout Armenia);
- Construction of Goris-Stepanakert highway (implemented in 1995-2000);
- Aid to disadvantaged and orphaned children (contributed \$5150; implemented in 2000-2002 throughout Armenia and Artsakh);
- Earthquake zone benefits (contributed \$120,221; implemented in 1992-1995 in Lori and Shirak marzes of Armenia);
- Provision of benefits to children of deceased and first-degree invalid soldiers throughout Armenia and Artsakh (contributed \$25,600 in 1999; \$38,000 in 2004 -2005);
- Participation in all telethons organized by HAAF. For the Mardakert Regional Development Project in Artsakh, HAAF GB will contribute \$30,000; implementation started in 2006.

In addition to the above, the HAAF GB Local Committee has funded the following projects in full:

Establishment of the Armenian Embassy in London (:185,000, approximately \$300,000; implemented in 1992-1993) and construction of “Yerankyuni” residential district (\$1,220,392; implementation started in 1998 in Spitak, Lori marz, Armenia). In total, 10 residential buildings were constructed with the funding received from HAAF GB as follows:

- Building 5a – constructed in 1998; cost \$90,794
- Buildings 1a and 1b – constructed in 1999-2000; cost \$144,005
- Building 2 - constructed in 2000; cost \$147,848
- Building 3b – constructed in 2000-2001; cost \$95,452
- Building 3a – constructed in 2001-2002; cost \$145,153
- Building 4 – constructed in 2003-2004; cost \$148,000
- Building 7a – constructed in 2003-2004; cost \$132,889
- Building 7b – constructed in 2005-2006; cost \$157,700

#### Information

Summary of funds contributed since 1992 by the Great Britain Local Committee

HAAF GB Local Committee & other sources in GB	
Year	Amount (USD)
1992 - 1995	\$ 868,659
1995 - 1996	\$ 1,397,759
1996 - 1997	\$ 98,388

Thank you - Armenia Fund

- Building 8b – constructed in 2005-2006; cost \$158,551
- Refurbishment of Yerevan School # 14 for the visually impaired children (\$1,965; implemented in 2001 and 2004);
- Gevork Tahta School annual donations to aid schoolchildren (\$16,000; implemented in 1999-2004 in Armenia and Artsakh);
- Refurbishment of Kanaker-Zeytun Medical Center (\$15,000; implemented in 2004-2005). Under the project three children’s wards, pediatric and gynecological operating rooms and post-anesthesia recovery units were renovated;
- Reconstruction of Artik Hospital (will donate \$370,000; implementation started in 2006 in Shirak marz, Armenia).

## Argentina

### Argentinean Armenians

Ever since the Creation of the Armenia Fund “Hayastan” Argentina’s Armenian community has tried to participate in all the important projects. At the beginning, we sent funds for the purchase of fuel from Iran during the winter of 1992- 93, when Armenia was freezing in the middle of the Turkish and Azeri blockade. We also participated in the building of the Strategic Road of Life, which paved the primitive highway connecting Yerevan and Meghri, on the border with Iran. A group of ladies also organized a Xmas Gift fair, which collected a percentage of the presents and Armenian food specialties which were sold during it, and used the proceeds for the construction of the School of Physics and Mathematics in Stepanakert. This activity continued for four years until the school was built. We are still providing the pupils of this school with some scholarships for university education.

In 1996, the community began financing the reconstruction of the villages of Vaghuhas and Haterk, which had been destroyed during the war with Azerbaijan. That same year, the Ekcerciyan family took over the construction of an intensive care unit of the no. 1 Children’s hospital of Yerevan.

In 1999, Doris and Krik Tchinnossian undertook the construction of a school in Aigebats, in collaboration with the World Bank and the Social Investment Fund.

In 2001, Joe and Kristin Tahta built a school in the village of Vaghuhas, northwest Karabakh.

The same year, Krikor Simsiroglu rebuilt a clinic in Tashir, in the north of Armenia. Rosa Majjan donated \$8000 to the Armenian Academy of Sciences.

During 2002, 2003 and 2004, Mr. and Mrs. Samuel Margossian undertook the modernization and purchase of new equipment for Childrens Hospital no 1 of Yerevan.

### The Local Committee

In 2002, Armenia Fund organized the first Phonethon in Argentina, for the reconstruction of the North-south road of Karabakh. DR Stamboulian began his vaccination project for Armenia, centred on the infectology department of Children’s Hospital no 1 of Yerevan. The Sarian family inaugurated the brand new state of the art laboratory of that same hospital. During and after 2001, the phonethons and other activities were adversely affected by the severe economic crisis in Argentina, however the Fund continued its activity. At present, the percentage of the population under the poverty line in Argentina is similar to that of Armenia, but the economy is gradually improving.

During 2005, the Argentine Committee of the Armenia Fund decided to

support the reconstruction of Saint Echmiadzin church in Tbilisi, with the approval of the central committee in Yerevan, as well as the vaccination program of Armenia, organized by Dr Stamboulian, which has had a resounding fundraising success locally.

The proceeds of the 2005 and 2006 phonethons will be used to finance the water distribution system of Vaghuhas, in Karabakh.

The present committee of the Armenia Fund in Buenos Aires is presided by Jorge Vartparonian. The vice-president is Carlos Potikian, secretary is Jorge Murekian, other members are Silvia Tamlian, Christine Sarkis, Eduardo Caramian, Rosita Sarafian and Carlos Hatcherian. We hope to have the attendance of Baroness Cox during the 2006 April 24 commemoration, in order to give more strength to the fundraising for Karabakh activities.

## Brazil

### Activity of the Local Committee

In 1988, on the occasion of the tragic earthquake that affected deeply our country, a Commission for the Earthquake was created, as in other parts of the World, headed by Dr. Varujan Burmaian, with the participation of all the local Armenian Institutions. Besides that, the Brazilian people and Government were highly concerned and participative. Thanks to this issue, a Boeing 707 of the Brazilian Air Force was sent to Armenia with clothes, food and remedies. The campaign continued and nearly \$ 1.300.000 were sent to Armenia.

When President Levon Ter-Petrossian visited Brazil, following his suggestion, this Commission was transformed to the Brazilian branch of Himnadram. Since then, we kept sending money but with no specific destination.

In 2002, with designation of Ochin Leon Mosditchian to Presidency, a new Campaign took place aiming to divulge the necessities of the Fund, increasing thus the number of permanent collaborators (monthly contributions). Moreover, we decided that actually our participation should be directed to a specific project. Since then, we undertook several campaigns.

The contribution of the Brazilian local committee in 2004 Telethon made \$ 10.000. It had no participation in 2005 Telethon because it was engaged with the Project of the Nork-Marash Infection Hospital. In 2005, \$100,000 was provided for the first stage of the project. In 2006 another \$30,000 was contributed for the second stage. In 2004, the local committee participated in the project "Ororots" with contribution of \$75,000.

Varujan Burmaian - Honorary President, Benefactor, Member of Central Board of Trustees,

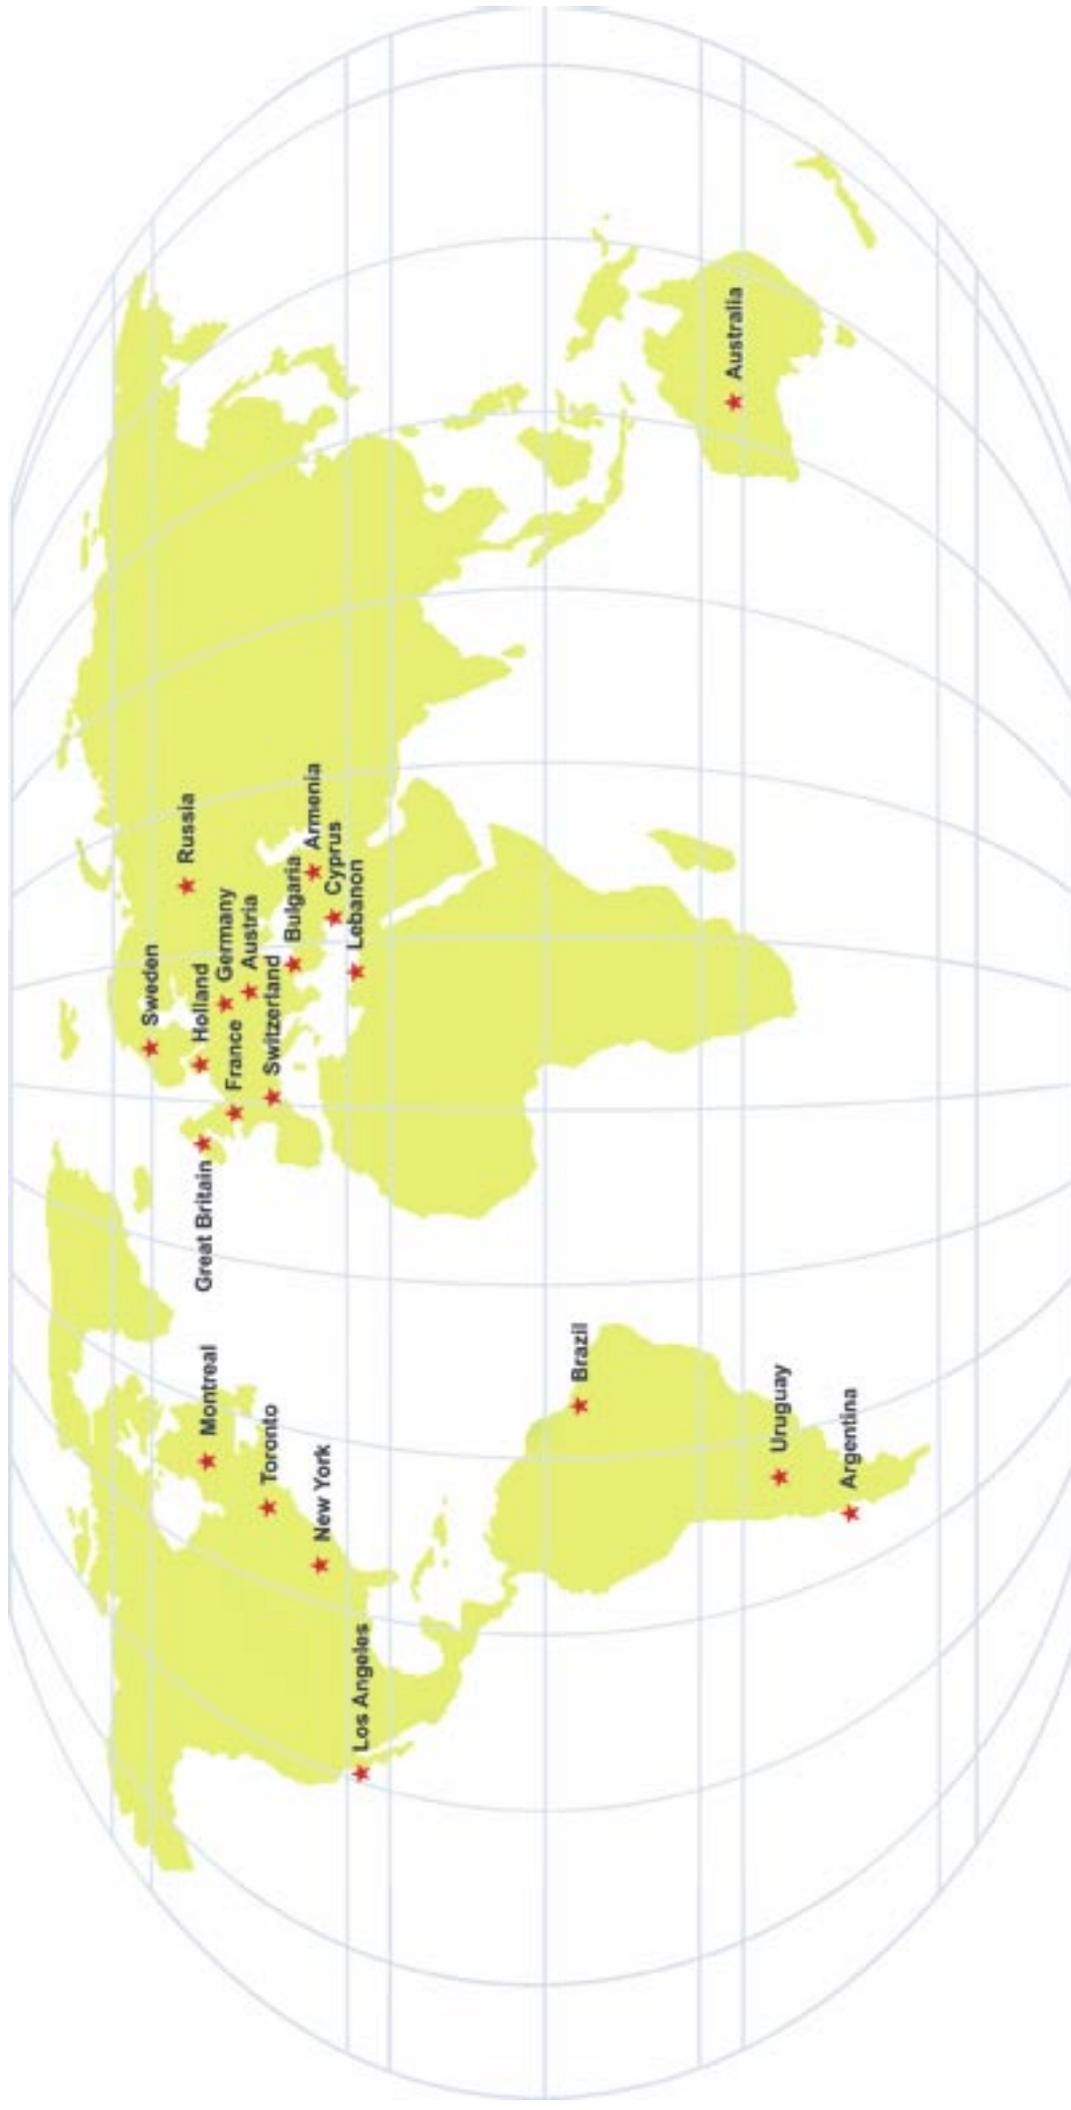

Ochin Leon Mosditchian – President, Zaven Der Haroutiounian - Vice-president, Garabed Deovlet Pilavjian - Vice-president, Tacvor Jorge Arapian – Secretary, Azad Gananian – Secretary, Eduardo Mekbekian – Treasurer, Nelson Nersessian - Public Relation, Kevork Guengdjian – Counsellor, Armen Krikor Jahadjian – Counsellor, Elie Chadarevian – Counsellor, Anahid Marzbanian – Counsellor, Ascengao Serapiao Kouyoumdian - Financial Counsellor, Hampartsum Momdjian - Financial Counsellor
