

HP COMPAQ 6535B NOTEBOOK PC

SMART COMMUTER.

Scalable, 14.1-inch diagonal display, AMD processors

HP recommends Windows Vista® Business

The HP Compaq 6535b Notebook PC delivers a highly mobile business tool that helps keep you connected and productive so your office can now go where you go. This dependable, newly-designed notebook is feature-packed and offers the latest AMD Business Class solutions as well as compatibility with HP Universal Accessories¹¹ for the complete business solution around the office and on the road.

Technology in tune with your needs

With the 14.1-inch diagonal widescreen display, you choose between a high-resolution, anti-glare or an HP BrightView display. You choose the AMD processor model that is right for you: AMD Turion™ X2 Ultra Dual-Core Processor,² AMD Turion™ X2 Dual-Core Processor, AMD Athlon™ X2 Dual-Core Processor, or AMD Sempron™ Processors for Notebook PCs. With the Upgrade Bay with Dual HDD Support, easily replace your optical with an optional secondary hard drive¹¹ or upgrade to the next-generation optical drive. Quickly synchronize and store your data with different types of devices or other users with the integrated Media Card Reader.

Enjoy wireless in more places

Whether you're across the street or across the country, HP Mobile Broadband,⁴ Wi-Fi CERTIFIED™ WLAN⁵ and Bluetooth® technologies allow you to conveniently stay connected in more places.

HP Professional Innovations help you focus on your business

Built to protect. An array of multi-layered, customizable security solutions help defend your network, your applications, and your data.

Built to simplify. Boost your productivity while maximizing simplicity with features such as HP QuickLook 2, which allows you to quickly view your e-mail, calendar, contacts, and tasks information with one touch of a button.

Built to last. Reliable features such as HP DuraFinish, magnesium alloy support structure, and HP 3D DriveGuard help give you a reliable notebook that can go the distance.

HP COMPAQ 6535B NOTEBOOK PC

HP recommends Windows Vista® Business

HP COMPAQ 6535B NOTEBOOK PC

HP recommends Windows Vista® Business

1. Certain Windows Vista product features require advanced or additional hardware. See www.microsoft.com/windowsvista/getready/hardwarereqs.msp and www.microsoft.com/windowsvista/getready/capable.msp for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.windowsvista.com/upgradeadvisor.
2. This system requires a separately purchased 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of AMD Turion 64 X2 technology. Dual-core processing available with AMD Turion 64 X2 technology is recent technology innovation designed to improve performance of this system. Given the wide range of software applications available, performance of a system including a 64-bit operating system and a dual-core processor will vary. This notebook pc does not support the AMD Turion X2 Ultra Dual Core processor over-clocking feature.
3. Do not copy copy-right protected materials. Intended for creation and storage of your original material and other lawful uses. Double Layer discs can store more data than single layer discs. Double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. LightScribe creates a monochrome image. LightScribe media required and sold separately. Note that DVD-RAM cannot read or write to 2.6 GB Single Sided/5.2 GB Double Sided – Version 1.0 media.
4. Wireless broadband use requires separately purchased service contract. Check with service provider for availability and coverage in your area. Available in select countries only.
5. WiFi access point and Internet service required and not included. Availability of public wireless access points limited. Wireless, internet, and VoIP require separately purchased service contract.
6. The specifications for the 802.11n WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11n WLAN devices.
7. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8 GB (for XP) and 10 GB (for Vista) of system disk is reserved for the system recovery software.
8. Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by programs.
9. The term "10/100/1000" or "Gigabit" Ethernet indicates compliance with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/sec. For high speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.
10. Fast Charge technology recharges your battery up to 90% within 90 minutes when the system is off. Fast Charge does not apply to 12-cell Ultra-Capacity battery.
11. Sold separately or purchased as an optional feature.
12. This Windows Vista® Business licensed product will ship to you with Genuine Windows XP Professional custom installed on the hard drive. Customers buying these downgraded systems are expected to purchase at least 25 licenses annually.
13. HD content required to view HD images.
14. Dual Channel is only supported when the system is configured with DDR2 symmetric memory (ie: 2x256).
15. 60 day trial period. Internet access required to receive updates. First update included. Subscription required for updates thereafter. This McAfee Total Protection for Small Business software is licensed to you by McAfee under the terms of the McAfee end user license agreement which can be read at www.mcafee.com.
