Jetdirect 2700w USB Wireless Print Server

Add fast wireless capability[1] with advanced security to select HP ePrint-enabled devices. Without the constraints of network cables, you have the flexibility to place devices in more convenient locations.

Wireless and easy to install

Enjoy the ease and convenience of wireless printing across your network of HP ePrint-enabled devices. With the HP Jetdirect 2700w USB Wireless Print Server, there is no need to bother with complex installation instructions or yards of extra wires. Installation is quick and easy—simply connect the print server via the USB port on your device. The 802.11 b/g/n signals deliver reliable printing at improved speeds and a greater range.

Enterprise-class security

Rely on HP for secure wireless network printing. Robust security features such as authorization, authentication, and encryption help keep your confidential information private and secure on protected wireless networks.

Extended capability for HP ePrint-enabled devices

HP ePrint mobile printing solutions let you print from virtually anywhere.[2] Simply email whatever you'd like to print, including messages, documents, web pages, or photos to your HP ePrint-enabled device—no app is required. And with the HP Jetdirect 2700w USB Wireless Print Server, you get the added benefit of wireless printing for even greater flexibility and increased productivity in your workplace.
