This return policy is in addition to your statutory rights. The IKEA stores reserves the right to refuse a refund and offer an exchange or IKEA gift card only if the return criteria are not met.

What type of kitchen are you looking for?

Whether you're looking for a complete kitchen system like METOD that you can personalise any way you want, or a simpler kitchen that you can install in a day, we have what you're looking for. Here you have three different types of IKEA kitchens to suit different needs and wishes.

METOD kitchen system

Our METOD kitchen system includes cabinets in several different sizes to fit your room layout as well as your kitchen habits. The flexibility of the system offers endless of choices, giving you the freedom to customise a kitchen that's ideal for you and your space. We've also developed an extensive range of kitchen organisers and interior fittings allowing you to quickly see and reach even the things furthest back in the corner cabinets. In addition you have a vast choice in front expressions, worktops, lighting, sinks, taps, knobs, handles and much more to personalise every inch of your kitchen **See page 10.**

ENHET kitchen

Whatever shape your homes takes, your ENHET kitchen will fit right in. Find pre-combined and affordable solutions online and assemble them without special tools – they are simply clicked together. ENHET gives you great freedom to personalise your kitchen, offering open and closed storage, a corner cabinet and doors in different colours, as well as different accessories. **See page 48.**

KNOXHULT kitchen

KNOXHULT comes in pre-set modules that you can arrange the way you prefer. Together with our LAGAN appliances you can get a complete kitchen with all the basic functions you need at a low price. Add sink, tap, knobs and handles of your choice to complete the look. The simplicity of the pre-set modules makes the installation so easy that you can have a fully functional kitchen up and running the same day you bring it home from the IKEA store. **See page 68.**

Kitchenettes

Not all of us have a lot of space or money for a larger, built-in kitchen - and for different reasons, many of us are just looking for a practical solution that isn't so complicated. Our range of kitchenettes, offers all the ingredients for this very important function in clever, compact designs. You can choose between our basic or modern expressions and add TILLREDA appliances to customise your culinary space according to your needs. It's all there, personal, functional, affordable and easy to install. And there's no need to part from your beloved kitchenettes when you move because you can easily take it with you. Simple as that. **See page 74.**

METOD kitchen system

Endless possibilities

The modular design of METOD kitchen system is easy to install and gives you endless of possibilities when designing your kitchen. Whether you have a taste for the traditional, love the minimalism in modern style or land somewhere in between, you'll surely find something that fits you.

To become truly beautiful, the kitchen has to be functional and take care of all your kitchen needs, too. With METOD you have the freedom to get the look you want on the outside and keep everything in perfect

order on the inside. Start by deciding the style of your dream kitchen by choosing the doors and drawer fronts, lighting, worktop, sink, tap, knobs, handles and accessories that you like.

Door and drawer front styles

Sleek doors and drawer fronts

Sleek doors offers you straight lines and smooth, easy to clean surfaces, simplicity in its truest form. Choose from a wide variety of finishes, colours and materials.

Frame doors and drawer fronts

Frame doors and drawer fronts are rich in detail, with a crafted look and feel -they create a kitchen with a rustic and traditional look. All our frame door families have a matching glass door.

High-gloss doors and drawer fronts

Glossy surfaces suit everyone from the minimalist to the wild family with kids. Stains are no problem as they are just as easy to wipe clean as they were to make.

Doors and drawer fronts with integrated handles

You might not notice them at first glance – and that's the idea! Integrated handles lend a minimalistic and modern feeling to your kitchen.

Material for kitchen fronts

Kitchen fronts that suit you

Are you looking for a completely new kitchen or are you going to update your existing one? Regardless, we want to help you choose the best kitchen fronts for you and your home. Material, surface treatment and appearance affect your fronts and before you choose, it may be good to think about a few things. What style, colours and patterns do you like? And what are your requirements when it comes to durability, and maintenance? Here we summarise the features and advantages that IKEA kitchen fronts have. All fronts have a 25-year guarantee, so you can be sure to enjoy them for a long time.

Wood – warm and unique

Real wood has a warm and natural expression. Massive wood and wood veneer has its own unique look, since the grain and pattern are different from plank to plank, giving your kitchen a vibrant and natural feel. The colour of the wood deepens and becomes richer over time – and if you take care of your fronts, they will stay beautiful for a long time. The surface can be varnished with clear lacquer, oiled, stained or left untouched to maintain the natural expression.

- + Sturdy and solid.
- + Can be oiled and stained.
- + Colour deepens with time.
- + Unique expression

Stainless steel – durable and professional

Stainless steel is a very durable material. It is an elegant, attractive, and modern material that has stood the test of time and maintained its popularity year after year. Stainless steel fronts give the feeling of a professional restaurant kitchen. It is beautiful in its own right and complements other materials and colours well. Stainless steel is easy to manufacture from recycled metal – and to recycle again.

- + Very resistant to grease, dirt, water, heat and chemicals.
- + Gives your kitchen a professional feeling.
- + Easy to clean and maintain.

Foil – easy-care and versatile

With foil coating, kitchen fronts can have many different expressions – everything from a matte or high-gloss surface to embossed effects and a wide choice of colours and patterns. Foil coating is usually produced from a flexible plastic foil, that is heated and cast over particleboard. The result is a front with an even, smooth and durable surface. Foil with an extra-matte finish may need a little more love and care to remove stains.

- + Scratch resistant.
- + Great variation in appearance.
- + Moisture resistant.
- + The colour does not fade over time.

Lacquered - many colours and a smooth surface

We have lacquered fronts in many different colours, so you can choose one that suits your home best. Lacquered fronts do not need an edging strip, and have a uniform colour and texture over the entire front. They can also be painted or re-varnished in new shades, making it easy to update your kitchen and extend the life of the fronts. Lacquered fronts are produced by spraying paint over compact particleboard. The paint is applied very evenly over the board, and the surface is smooth and easy to wipe dry.

- + Uniform colour and texture over the entire front.
- + Can be repainted.
- + Easy to clean.

Tempered glass – strong and decorative

With glass doors, you can display your favourite objects and add lighting to the cabinet for an extra-cosy touch. The glass in the door is industrially tempered glass, which is a stronger and safer type of glass. It can withstand heavier weight and better resist scratches. If the glass does break, it breaks into smaller and more harmless pieces than ordinary non-tempered glass.

- + Stronger than ordinary glass.
- + Easy to clean.
- + The glass gives a sense of the contents in the cabinet and evokes interest.
- + Combine with lighting in the cabinet for an extra-cosy touch

Melamine laminate – durable and easy-care

Laminate offers a lot of possibilities in terms of shape and colour, while at the same time it has a very smooth, hardwearing and durable surface that does not fade over time and is easy to clean. Melamine laminate comprises of an impregnated paper sheet that is pressed together with glue and fixed in place on a particleboard. The edgeband can be made of plastic or wood.

- + Scratch resistant.
- + Easy to clean.
- + Moisture resistant.
- + The colour does not fade over time

Decorative strips

Decorative strips provides the finishing touch to your kitchen. They come in many different styles, but we have something for all of our door and drawer families. Use them to tie your style together, hide lighting or just as a decorative element.

You can choose how to mount them on your cabinets. Below we show the entire range and some different ways of mounting them both above as mouldings and below your cabinet, either wrapped around the whole cabinet or just between your cover panels.

METOD cabinets

Modular cabinets that fits your space

What does your dream kitchen look like? How much time will you spend in it and how will you use it? When it comes to kitchens, we're all different. We have different dreams, different needs and different preconditions. To meet this diversity, what could be better than a highly flexible kitchen system with

cabinets that can suit everyone, and be planned in everywhere? Whatever the size of your home or family, with cabinets in different sizes, drawers with endless possibilities and interior organisers made to match, you can turn the kitchen of your dreams into the kitchen in your home.

ENHET kitchen system

Plan less, live more

ENHET is easy to buy and equally easy to update if you need to, or simply feel like it. You can choose between ready-made combinations online and buy your favourite with a few clicks. All parts are easy to assemble, intuitively and without any special tools.

The playful design in different colours inspires you to adapt ENHET to reflect your personality. With a combination of closed cabinets and open shelves in stable metal frames you can display your favourite things and hide the rest. The ENHET kitchen units also come in different widths and depths, making them easy to adapt to a smaller space.

Helping you keep your kitchen utensils neatly organised and close at hand, the ENHET accessories include a hook rail that can be moved around without having to drill into the wall, a swivel shelf for smaller items and a hanging shelf insert that you simply hang in the grooves of an open frame to maximise storage space – no tools needed.

ENHET open frames

Open storage creates a dynamic and airy kitchen atmosphere. ENHET open frames allows you to express your personality through the items you choose to arrange and display on the shelves. For even more personalisation opportunities, the frames come in different colours that you can mix and match any way that suits you. Open storage also provides a good overview

of all your kitchen items and you can keep the things you use the most on the shelves for easy access. With a mix of closed and open storage, it is possible to create a kitchen that doesn't only make preparing your everyday meals a breeze, but is a real eye-catcher that inspires you to cook and your friends and family to keep you company.

Lighting and sound

A brighter kitchen life

Good lighting is an essential part of any kitchen. That's why we have different families of integrated lighting series that are perfectly dimensioned to fit our kitchen cabinets. Having integrated lighting in your kitchen is a great way to show off your favourite dinnerware behind glass doors or in drawers. And, good lighting brings alive your cabinet doors, worktop and wall panels, too.

Get an even better kitchen life with the ability to dim and turn off and on light wirelessly. All you need is STYRBAR remote control. Or, use the TRÅDFRI

gateway and IKEA Home smart app to control every beam of light with your smartphone. We call it IKEA Smart lighting.

Sound is a powerful mood booster, much in the same way as light. Both are crucial for creating the right atmosphere at home and both are deeply personal – each of us has our own unique preferences in terms of volume, brightness, type, and genre. Like light, sound is culturally and socially important; it brings people together.

Kitchen installation

If you want we can install all your kitchen lighting for you, as a part of our Kitchen Installation service. See more on [page 4](#).

Sound has the ability to change the atmosphere at home dramatically. So, turning a grey day into a great day is only a touch of a button away.

Drawer lighting simplifies finding what you need even during those midnight kitchen raids. Opening and closing the drawer turns the light on and off automatically.

Spotlights provide a focused light that is good for lighting smaller areas and behind glass doors.

Worktop lighting should give you a clean, clear view of all the work you're doing in the kitchen.

Cabinet lighting illuminates your favourite kitchen doors and creates cosy mood light in the entire kitchen.

Complete your combination with lighting

How to build

SKYDRAG LED cabinet lighting is easy to install by yourself.

- When you start building your system, you must first consider the widths of your cabinets. E.g. for a cabinet with a width of 60 cm, you'll need the SKYDRAG lighting strip 60 cm too.
- Choose the number of SKYDRAG lighting strips that you need.
- Add the TRÅDFRI driver, you can connect up to 3 or 9 units to the driver, as long as the total wattage does not exceed 30W. TRÅDFRI drivers need to be connected to the plug with a ANSLUTA power cable.
- RODRET wireless dimmer or STYRBAR remote control to dim your lighting. Pair the dimmer to the TRÅDFRI driver and the entire combination will dim at the same time.
- Add the DIRIGERA hub to control SKYDRAG connected lighting from the IKEA Home smart app in different ways together with other smart lighting product in your home.
- If you chose our ready-made ENHET solutions just add the SKYDRAG/RODRET Lighting kits fits to this combination from page XX.

Worktops

Your kitchen is the heart of your home, it's a room for everyone! How it performs and how it looks are two important factors. Even though doors and drawer fronts are the main style decision you make when updating your kitchen, your worktop can have a big impact on the overall look. However, the perfect worktop is not just about completing the look of your kitchen, it has an impact on its functionality too. When picking the right worktop there are many factors to

consider, including your style, durability, maintenance, lifestyle and cost. Our worktops are available in pre-cut and custom made as well as in a wide range of durable materials, finishes and thicknesses. Each surface has unique properties, with differing levels of water, wear and heat resistance.

How to choose your worktop:

01

What's your budget?
A stylish look does not have to cost a fortune, our worktops are available in wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

02

What kind of material do you prefer? When deciding on material, consider how robust you need your worktop to be, how much you are prepared to look after it, and how you want it to look in your kitchen scheme.

03

Custom made worktops are made to fit your kitchen layout, you can order the exact length and depth you need, as well as cut-outs for your sink, tap and hob.

25

All worktops come with a 25-year guarantee. Find out more on [page 132](#).

Built to last

When we test our worktops we put them up against everything they'll face in your kitchen: liquids, oil, steam, heat, thumps, bumps and scratches. Once we're done we're so sure our worktops will last, we guarantee it.

Materials

Laminate

Laminate worktops are affordable, easy to maintain and there are lots of colours and expressions to choose from. They are made of laminate pressed onto particleboard. Both heat and pressure are applied to harden the surface and create a durable worktop.

Thick veneer

Thick wood veneer worktops offer the natural colour and grain of wood, adding warmth to your kitchen. They are pre-treated for quicker installation and can be sanded and treated when needed. The thick veneer technique allows us to create patterns and expressions that are otherwise difficult and expensive to achieve - with the efficient use of natural resources.

Acrylic

Acrylic worktops have a smooth, non-porous surface that is resistant to stains and moisture, making them easy to clean. The colour and design run all the way through the material. This means they can be polished to remove any surface damage such as scratches, allowing you to restore the surface to its original condition.

Quartz composite

Quartz composite worktops are extremely durable, resistant to scratches, moisture and impacts. They are made by combining ground quartz (one of the hardest materials in nature), resins and pigments. This creates a very hard, non-porous surface that is smooth, easy to clean and does not require any sealing treatment. Our quartz composite worktops are 2 or 3 cm thick and come in a wide variety of expressions.

Thick veneer worktops 3.8 cm thick

Natural and hard-wearing, wood brings a warm feeling to your kitchen and makes each worktop unique. With thick veneer worktops, a 3 mm layer of wood covers a particle-board core to add excellent stability. This construction makes the worktop less sensitive to humidity and much less likely than solid wood to bend, split or crack. Also, with this technique, we can create new unique expressions using less wood, and reducing the impact on the environment.

The worktops are pre-treated with hard wax oil to create an easy-care surface for immediate use. Over time, it will only look better, gaining in character. They can be sanded and treated when needed meaning that they will age gracefully.

Thick veneer worktops come in the following crafted patterns: narrow stave, full plank, butcher-block, fine line and chevron.

Thick veneer worktops are available as pre-cut (take home today). Pre-cut worktops can be cut into the exact length you need and finished with the edge strip included in the package.

Walnut

Walnut wood is relatively heavy, hard and resilient. The natural colour light brown to dark chocolate brown adds warmth to your kitchen decor. Walnut gets lighter in colour with age. It has a rich variation in colour and a decorative, curved grain pattern.

Wall panels

Walls to match your style!

Adding wall panels is a quick and easy way to update your kitchen with new colors and texture. Our durable and easy-to-clean wall panels protect your walls from splashes and stains when you are cooking. They give you a neat finish where your worktop meets the wall and add a subtle accent of color to your

kitchen walls creating a stylish look. You can choose wall panels in various colors, materials and expressions, some are even double-sided! But if you want to go very personal, you can have your own customized one.

How to choose your wall panel:

01

What's your budget?
A stylish look does not have to cost a fortune, our wall panels are available in a wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

02

What kind of material and expression do you prefer? The material of the wall panel you choose is just as important as the colour. Your wall panel is always going to be right up against your worktop, make sure the two materials and colours work well together.

03

Your wall panel has to end up somewhere! Where it ends is up to you – along the length of the wall, up to the bottom of your wall cabinets, up to the ceiling in areas where there are no cabinets (over the sink or over the hob).

25

All custom-made wall panels come with a 25-year guarantee. Find out more on [page 132](#).

Sinks

A busy place in the kitchen

The sink and the area around it, is one of the busiest places in the kitchen. You use it for everything from preparing food and rinsing vegetables, to storing dirty dishes and washing up. To make

the activities as easy as possible, choose a sink and sink accessories that match your needs and the way you work in the kitchen.

How to choose your sink

01

How much space have you allocated for the sink? Our sink cabinets are 40, 60 or 80 cm wide.

02

Think about how you prepare food, but also how you wash up. Do you have a dishwasher or do you wash the dishes by hand? Do you need one bowl, two bowls or a sink with drainboard?

03

Complete your sink with sink accessories that help you organise the area in and around the sink, both when you prepare food and when you wash up. (see page 109).

25

We test our sinks to ensure they can withstand the demand of everyday life in the kitchen. That's why all our sinks come with a 25-year guarantee (except FYNDIG). Find out more on page 132.

Our range of sinks

Single bowl sinks

If space is an issue, one single bowl is a good option. Plus, in a big single bowl you can easily wash large pots and pans. Combine with sink accessories to make the bowl as functional as possible (see page 100).

Double bowl sinks

Having two bowls is ideal if you have a lot going on at the same time. For example, if one of the bowls is piling up with dirty dishes, you can still rinse off vegetables and alike in the other.

1½ bowl sinks

A one and a half bowl sink gives you the same advantages as a double bowl sink, but in a smaller area.

Sinks with drainboard

A sink with a drainboard is ideal for drying dishes as the sloping surface make excess water flow back into the bowl. All our sinks with drainboard are reversible, so you can choose if you want the drainboard to the left or to the right.

Kitchen taps

Saving water at every step

Earth may be covered in a lot of water, but very little of it is drinkable and even less is accessible. No organism can survive without it, and no new water is created. It's constantly recycled, but our freshwater supply is overused; not evenly distributed; and impacted by pollution, contamination and climate change. That's why we equip all our

kitchen mixer taps with a water saving aerator that reduces water use – while maintaining the same water stream. We didn't invent aerators, but think they are an important example of how we can work together to save water for everyone's benefit.

10

All our kitchen mixer taps are tested and third party certified to meet, or exceed, the demands of the relevant national and international mechanical, quality, safety and hygienic standards. All IKEA kitchen mixer taps come with a 10-year guarantee. Find out more on [page 132](#).

Kitchen organisers

A kitchen easy to live in

Your kitchen isn't fully in function until everything in it has found a place of its own. With smart organisers and accessories, you'll find what you need, when you need it.

Your best kitchen friends

Trays, boxes and waste organisers help you to make the most of the space inside your kitchen cabinets.

The sink area is a busy place. We have accessories with multiple purposes that can help you utilise the area in and around the sink, supporting the workflow both when preparing food and washing up.

Utilise the full area in the kitchen, even the walls. With smart wall storage often used items can be close at hand, at the same time you free up workspace.

Create the perfect combination for your drawers

Less time searching, more time for cooking. Clever inside trays for your drawers keep cutlery and kitchen utensils organised and in place. To really make sure you

can see everything in the drawer, complete with kitchen lighting. See all kitchen lighting on **page 76 - 79**.

Waste sorting combinations

Are you curious about how your waste can become new resources? HÅLLBAR series helps you sort different materials into different bins – a simple action and the first step towards giving waste a new life. HÅLLBAR

waste sorting management serie is a waste management solution for any room of your home and can be built-in and freestanding, whichever you prefer.

The bin's ventilation holes and the form of the bottom allow the air to circulate and dry out the organic waste. This minimises unwanted odours.

A ring on the top edge of the bin hides the waste bag and keeps it in place. It's removable either for easy cleaning or if not being used

The folding handle makes it easy to carry the bin with you to the waste station.

Different-coloured stickers are included so you can mark each bin according to what you are sorting. You can also draw or write on the stickers to make it even more clear what goes in each bin.

MAXIMERA high drawer, 60 cm wide, 45 cm deep

HÅLLBAR bins are designed to meet different waste sorting needs. This narrow combination is suitable if you have limited space and choose to sort your waste at the recycling station.

Kitchen accessories

Whether you have a new, beautifully-planned kitchen or just looking to make improvements in your current one - there are a few secret ingredients that will make life simpler and more enjoyable. For instance, smart organisers create natural spots for storing cooking utensils and gadgets, so the whole family knows where to find them - and where to put them back. Trays, boxes and waste organisers work double

shift by preventing clutter and making the best use of space inside your cabinets and drawers. Wall storage does its magic by putting all those things you use the most, close at hand - right where you need them. And for the busiest place in the kitchen - don't forget the clever accessories around the sink that come in handy when preparing food and washing up.

Kitchen islands, sideboards, trolleys and step stools

All of these are easy additions to any kitchen design. A kitchen island serves as an extended worktop space and often becomes a favourite spot for snacking, working and socialising. Sideboards add that little extra storage we all need and a trolley on wheels offers roll-anywhere convenience. A step-stool is a must-have for any kitchen, for reaching things up high, letting kids join the fun at the worktop, or using as extra seating by the table.

Having things in plain sight has its advantages

With open shelves, hooks, rails and racks you can create a personal combination that gives a good overview of your kitchen and makes everything easily accessible. Inspired by restaurant kitchens, we created KUNGSFORS series of wall-mounted shelves and accessories so you can feel like a professional and enjoy a smooth workflow.
