- Increase team productivity
- Achieve 100% ROI within the first year

SMART TS XL™

ALL PLATFORMS. ALL LANGUAGES. ONE SOLUTION.

How SMART TS XL™ benefits our clients

1400 Hours Gained

"Each search increased productivity by 10 minutes over older antiquated methods; it's provided us with nearly 1400 hours of improved productivity per month."

- Sr. Manager, Architecture

Zero Production Bugs

"Since we have installed SMART TS XL™ in the Pier1 IT division, the number of errors during our production implementations has dropped to almost zero."

- Chief Information Officer

\$7 Million Savings

"We have reached savings of \$7 million in MIPS, and we expect that number at the end of the year to touch \$10 million in savings."

- Vice President, IT

100% ROI in a Month

"Just in the pilot period, JP Morgan WSS executed over 17,000 searches, thus paying for SMART TS XL™ many times over."

- Vice President, IT and Services

True Enterprise Search

"We reviewed several different products and SMART TS XL™ is simply the only Enterprise Search tool that works."

- Systems Architect

From 60 to 6 Hours

"A task that previously would have taken between 60-120 hours, with the use of SMART TS XL™ now takes 6 hours."

- Sr. Software Engineer
