

HP ElitePad

The true tablet for business

Go beyond everyday business with the HP ElitePad. Its elegant design and touch experience put productivity at your fingertips.

HP recommends Windows.

Transform your workday with a tablet designed for business

The HP ElitePad is the true tablet for business, with a 10.1-inch diagonal screen and a complete suite of thoughtfully designed accessories,⁴ giving you an elegant solution.

Windows 8^{1,7} and x86 compatibility for legacy apps arm you with the tools you need—and the confidence of a familiar PC experience. All driven by the latest Intel[®] processors.

Sleek. Elegant. Thoughtfully designed.

With a 16:10 display, you spend less time scrolling. More time doing. Thanks to support for touch, pen, or voice-based input, you can work the way that suits you best.

It's built to last and designed to look great and work dependably everywhere from the boardroom to the warehouse, thanks to durable materials like Corning[®] Gorilla[®] Glass 2 and machined aluminum.

Deploy, manage, and secure like nobody's business

A familiar set up experience, plus available HP Custom Integration Services, make the HP ElitePad simple to deploy in existing IT environments.

You're protected with HP Client Security. HP BIOS Protection and Microsoft Defender⁹ help keep you up and running with enhanced defense against virus attacks and other threats.

Keep sensitive data and devices in-house—and save both time and money. With an optional do-it-yourself maintenance tool,^{4,12} updates are easy.

Flexible customization options

Slide the HP ElitePad into the HP ElitePad Expansion Jacket⁴ and the ElitePad Jacket Battery⁴ to extend battery life up to 20 hours²⁰ and work without worry about recharging. Dock at the office and the HP ElitePad becomes your desktop PC. The HP ElitePad Expansion Suite turns a true business tablet into a total business solution.

Whether it's sales, design, education or healthcare, you'll benefit from an assortment of industry-specific software and hardware options that have been thoroughly tested for compatibility.

Work on your terms with a tablet that fits your business.

Get 50GB free storage and sync.

Box[®] provides simple, secure sharing from anywhere with Internet access for your personal and business files.^{21,22}

Concierge-level support for elite professionals.

Great technical support isn't just about solving problems. It's about getting you back to business fast and eliminating stress. HP Elite Premium Support provides near-instant phone access to an elite-accredited, U.S.-based specialist at any time, any day of the year – and at no extra cost. Simply call us at 1.866.625.1175.

HP recommends Windows.

HP Slim Bluetooth Keyboard⁴

HP ElitePad Docking Station⁴

HP ElitePad Expansion Jacket⁴

1. Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See microsoft.com/.
2. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
3. For Solid State Drives (SSD), GB = 1 billion bytes. Actual formatted capacity is less. Up to 5 GB for Windows 8 is reserved for system recovery software.
4. Sold separately or purchased as an optional feature.
5. Wireless access point and Internet service is required and is not included. Availability of public wireless access points limited.
6. Memory operates at the maximum system supported speed of 533 MHz.
7. This system is Windows 8 certified and supports the new Windows UI. The integrated display resolution is below the threshold for Snap, a Windows UI feature that allows two Windows Store apps to be viewed simultaneously. This feature may be enabled by attaching an external 1366 x 768 or higher resolution display.
8. The mobile hotspot application requires an active internet connection and separately purchased data plan. While HP mobile hotspot is active, on-device applications will continue to work and will use the same data plan as the mobile hotspot. Mobile hotspot data usage may incur additional charges. Check your plan details. Requires Windows 8.
9. Opt-in and internet connection required for updates.
10. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit hp.com/go/lookuptool.
11. Planned to be available spring 2013.
12. For customers located in the United States and Canada, visit this link to find out more about our self-maintainer program and optional service tool: hp.com/partners/SMprogram. For customers in Latin America, EMEA and Asia Pacific, please work directly with your sales account representative to understand what self-repair program options may be available for you.
13. Computrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging for multiple years. Service is limited, check with Absolute for availability outside the U.S.
14. Requires initial user setup.
15. Broadband use requires separately purchased service contract. Check with service provider for coverage and availability in your area.
16. Requires separately purchased GPS navigation software available from multiple GPS applications. GPS access requires an unobstructed path to multiple satellites. Performance may be affected if/when used inside of buildings, bridges or heavily congested metropolitan areas.
17. Requires Microsoft Windows and initial user set up.
18. Requires Internet Explorer, some websites and applications may not be supported.
19. Requires an Internet connection to HP web-enabled printer. Printer requires HP ePrint account registration. Mobile device requires Internet connection. May require wireless access point. Separately purchased data plans or usage fees may apply. Driver update may be required. For more details, visit hp.com/go/eprintsoftware.com.
20. Requires separately purchased HP ElitePad Expansion Jacket with additional battery. Testing conducted by HP consisting of full battery discharge while running a series of productivity scripts against the following applications (which may or may not be included with your particular product): Adobe® Acrobat Reader 7.0, Adobe® Illustrator® CS2, Adobe® Photoshop® CS2, Apple® Quicktime 7.1, Intervideo® WinDVD® 8, Macromedia® Flash 8, Microsoft® Office® 2003 Pro, Microsoft® Project 2003, and Winzip® 10.0. Prior to testing, the system was fully charged, display brightness was set at 60 nits, wireless was turned off, and auto dim, suspend, hibernate and all other programs, utilities, and services not essential to running the computer system or battery life test were disabled. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage.
21. The Box Windows 8 tile comes pre-installed on the Start screen of ElitePad units shipping in the following countries: U.S., Canada, Mexico, Brazil, Colombia, Chile, Antigua, Barbuda, Barbados, Belize, Guam, Trinidad, Tobago, Venezuela, and Peru.
22. Not available in all countries. Click on the Box icon on your HP ElitePad desktop or the Box tile on the Start screen and register for a new account to receive the offer. Offer valid through July 31, 2014.
