

BROADBAND INFRASTRUCTURE DEVELOPMENT IN MONGOLIA

ITU workshop on "Universal Service and ICT for Poverty Alleviation"

Dunhuang, Gansu Province, P.R. China

01 - 02 August 2019

Mrs. URANCHIMEG Andrai

Deputy Director

Communications and Postal Policy Planning Department,
Communications and Information Technology Authority

- **GENERAL INFORMATION**
- **LEGAL AND POLICY ENVIRONMENT**
- **CURRENT SITUATION OF THE MONGOLIAN BROADBAND NETWORK**
- **POLICIES AND BEST PRACTICES FOR RURAL AREAS**
- **MAIN INDICATORS OF ICT SECTOR 2018**
- **INTERNATIONAL LEVEL OF ICT DEVELOPMENT**

COUNTRY PROFILE

GEOGRAPHY

1,564,116 square kilometer
Mountains, forest, steppe, desert

POPULATION

Total 3.2 Mln, 1.4 Mln In UB

CAPITAL

Ulaanbaatar city

ADMINISTRATION

21 Provinces, 331 counties

CLIMATE

Continental, marked by 4 seasons, with sharp variations, Average Temperature : summer 22C, winter -25C

POLIITICAL SYSTEM

Parliamentary

ECONOMY

Traditional livestock, mining, agriculture

GDP (nominal)

Total \$11.5 billion
Per capita \$3.7

LANGUAGE

Mongolian

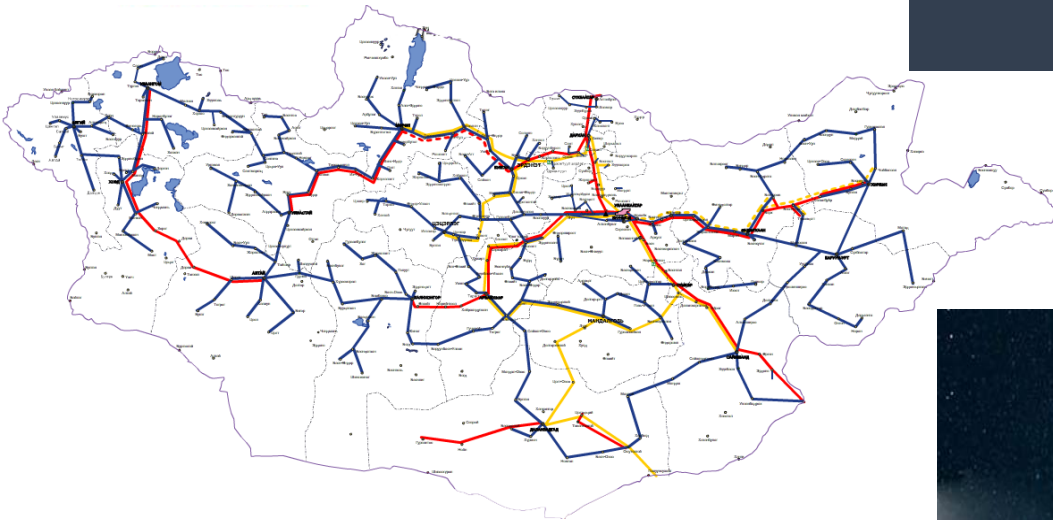

TECHNOLOGIES for MONGOLAN BROADBAND NETWORK

Overland backbone networks
(Optic fiber and Copper cable)

Satellite network

Terrestrial Microwave

STATE POLICY DOCUMENTS

Communications law, approved by the Parliament in 1995, amended in 2001, 2019.

Mongolian Sustainable Development Vision up to 2030, approved by the Parliament in 2016;

The Action Plan of the Government of Mongolia 2016-2020, approved by the Parliament in 2016;

State policy on the development of ICT up to 2025 approved by the Government in 2017;

Objective 7. Expand information technology and telecommunications coverage, install and increase the use of high-speed networks in rural areas, and launch a national satellite.

- Phase I - (2016-2020): Provide high-speed internet connection for 70 percent of the population, enforce the same price/tariff across all territories, and increase the information flow speed running through the high-speed network connecting Asia and Europe by 10 times.
- Phase II - (2021-2025): Provide high-speed Internet connection for 90 percent of the population, ensure that at least 70 percent of the rural populations use broadband Internet services, and digitize no less than 50 percent of public services.
- Phase III - (2026-2030): Provide high-speed Internet connection for 95 percent of the total population, digitize no less than 85 percent of public services, and launch and use a national satellite.

STATE POLICY ON THE DEVELOPMENT OF ICT UP TO 2025

1. Legal environment

2. Network, infrastructure

3. Services

4. Research, innovation

5. ICT industry

6. Investment

7. Information security

8. eGovernance

- Ensuring benefits of advancement of information and communications to the public
- Giving priority to knowledge intensive high technologies and development of export oriented national industry

- 67th decision “To decrease tariff of internet service in rural area” approved by the Government in 2012
- 6th decision “To eliminate the duplication of information communication network” approved by the Government in 2013
- 123th Resolution “To enforce the same price/tariff for internet service across all territories”

- The Universal Service Obligation Fund (USOF) was legally created by Law of Mongolia on Communications in 2001.
- “Regulation on Accumulation and Use of the USOF Resources” has been approved by the Government Resolution No.151 of 2009.

Mission

- To provide citizens with the most common ICT services at real cost regardless their residing locations and living standards within the framework of the state policy.
- To create environment to deliver ICT services to rural areas through establishing, fixing, expanding and using the broadband networks.

USOF has been implemented over 100 projects and programmes from 2007-2018.

Most of the projects focused on the creation favorable environment to deliver ICT services to rural areas, establish and expand broadband networks as well as to improve ICT skills for rural population.

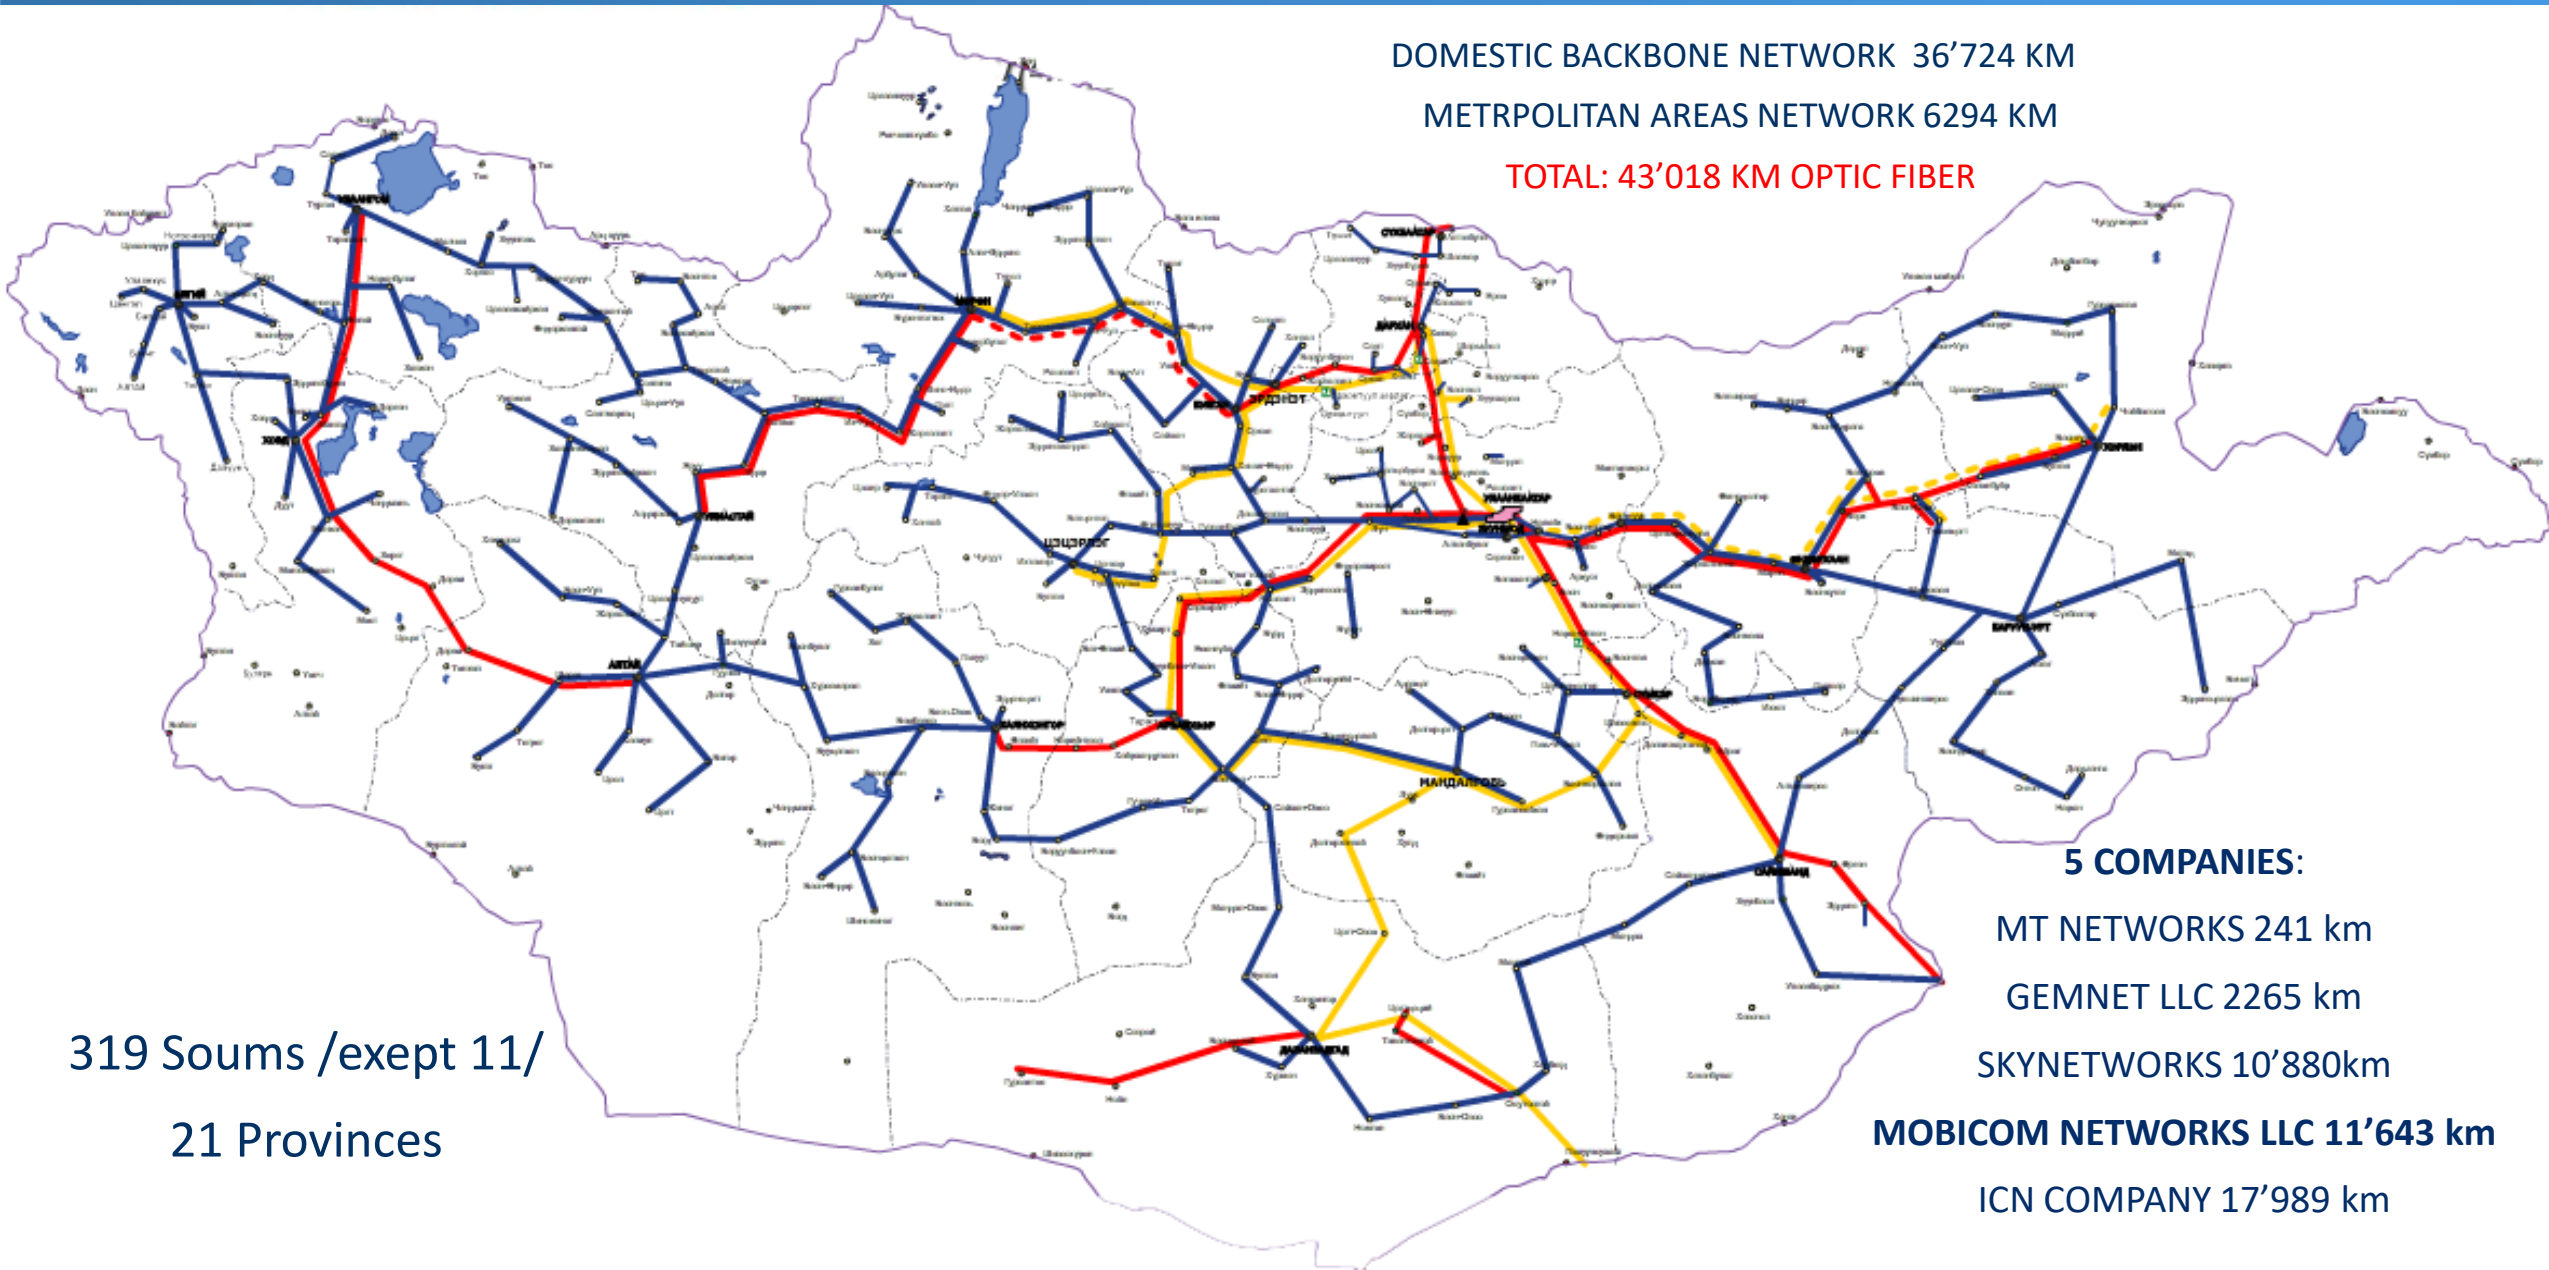

NATIONAL BACKBONE NETWORK

DOMESTIC BACKBONE NETWORK 36'724 KM

METROPOLITAN AREAS NETWORK 6294 KM

TOTAL: 43'018 KM OPTIC FIBER

319 Soums /exept 11/
21 Provinces

5 COMPANIES:

MT NETWORKS 241 km

GEMNET LLC 2265 km

SKYNETWORKS 10'880km

MOBICOM NETWORKS LLC 11'643 km

ICN COMPANY 17'989 km

INTERNATIONAL NETWORK

Mongolia can become a major part of the transit network between Asia and Europe as a result of a geographic advantage. The fiber optic network is 1000 kilometers long from the southern to the northern border.

4 COMPANIES:

INFORMATION
COMMUNICATIONS NETWORK
COMPANY

GEMNET LLC

MOBICOM NETWORKS LLC

MT NETWORKS LLC

Capacity of wholesale internet
service 140 Gbps
