

Jabra GN2000 USB

# DESIGNED TO PERFORM. BUILT TO LAST.

The Jabra GN2000 USB is an award winning-headset ideally suited for Unified Communications (UC). It enables users to experience the true wideband sound of UC with superb call clarity even in noisy environments.

#### WELCOME TO TRUE WIDEBAND AUDIO QUALITY

Headsets play a central role in the UC-enabled world. When using UC applications, the headset is the delivery point for the entire solution. It's where the vision of hassle-free and intuitive softphone calls in full wideband sound quality comes to life. So why settle for less? Now you can get a professional grade headset designed to support all the great features of UC.

The Jabra GN2000 USB is a true plug-and-play product. Plug in the headset and the audio transfers to the headset instantly. The integrated volume and mute functionalities provide better call handling and the integrated answer/end call functionality can be used for leading UC clients. Drivers for many different softphones can be downloaded from Jabra PC Suite - [www.jabra.com/pcsuite](http://www.jabra.com/pcsuite).

#### ENHANCED USER EXPERIENCE - EASE OF USE

The Jabra GN2000 USB comes with our popular flex boom arm, equipped with a high-quality noise-canceling microphone. Feather-soft leatherette ear cushions provide exceptional comfort thanks to fully gimbale mountings. This means that our earpieces adjust to the shape and angle of individual ears automatically.

To sum it up, this plug-and-play solution combines superior audio performance and durability with all the hands-free advantages of a professional Jabra headset.
