ACCESSORIES GUIDE

ET1 TABLET ACCESSORY FAMILY

NOT ONLY IS OUR ET1 TABLET FLAT OUT ENTERPRISE — BUT SO IS ITS ACCESSORY FAMILY.

The ET1 offers real business-class accessories that not only make life easier for IT and your workforce — but also allow you to add new features to extend the ET1 lifecycle.

With multi-slot chargers, multi-slot cradles and extra batteries on hand, IT can easily ensure fully-powered devices are available at the beginning of every shift.

Our unique hand strap rotates 360°, making it easy for workers to switch between portrait and landscape modes — or flip the device around for a customer to view.

With our belt clip or hip holster, your workers can comfortably keep the ET1 close at hand, ready to help answer customer questions and execute tasks.

And you can even add brand new features to your ET1 as your business needs change and grow, with accessories such as a magnetic stripe reader for on-the-spot processing of payment cards or a high-performance scanner for inventory takes and more.
