## Bluetooth headphones

### **Charging the headphones**

Charging the battery before use is recommended but not required. The headphones ship pre-charged however initial charge will vary. Low battery is indicated by the status indicator blinking red with an audible tone every 20 seconds.

### **Charging the battery with USB cable**

Connect charging cable with the charging port of headphones below the control panel of the right earpiece. Connect cable to the USB slot of any PC or Mac. The status indicator will be red while charging and will turn off when fully charged.

### **Wearing the headphones**

Right: Controls  
Left: No controls

## Pair Mode

The diagram for Pair Mode is contained within a light blue rounded rectangle. It features three main components from left to right: 1) A control panel with a central vertical slider and four buttons labeled '<', '>', '-', and '+'. 2) A blue horizontal bar with a clock icon and the number '6' above it. 3) A light blue square representing the status light, showing two interlocking rings, one blue and one red. To the right of this square is a text block.

Begin with SB1 powered off.

Push and hold multi-function button for 6 seconds until status light alternates red and blue. You are now in pair mode. See your phone/music device manual for pair instructions.

## Power On/Off

The diagram for Power On/Off is contained within a light blue rounded rectangle. It features three main components from left to right: 1) A control panel with a central vertical slider and four buttons labeled '<', '>', '-', and '+'. 2) A blue horizontal bar with a clock icon and the number '3' above it. 3) A light blue square representing the status light, showing a red power button icon above a blue power button icon, separated by a horizontal line. To the right of this square is a text block.

Push and hold multi-function button for 3 seconds until status light alternates red and blue. You are now in power on/off mode. See your phone/music device manual for power on/off instructions.

## Need more words for pairing?

See next page if simple just isn't simple. Skip it if you've got it down.

## Bluetooth headphones

### **Pair Mode (step by step)**

1. Keep the headset and mobile phone in the range of 1 meter when pairing.
2. Put the headphones into pairing mode by pushing the multi-function (center) button for 5-7 seconds.
3. Start the Bluetooth function of mobile phone and search the Bluetooth devices. After searched, select "SB1" in the Bluetooth device list.
4. Enter password or PIN No:"0000" on your mobile phone when prompted.
5. If required, after successful pairing, select "SB1" in the Bluetooth device list and press "connect".
6. After successful connecting, the blue light blinks twice every 4 seconds.

### **Note**

- If the pairing is not successful, switch off headphones by pushing the multi-function (center) button for 3 seconds, and then re-pair according to the steps outlined above.
- After pairing is successful, paired devices will remember each other. Unless pairing information is deleted, so there is no need to pair again.
- The headphones will connect with the latest paired device. If you want to pair with other Bluetooth devices, switch off the Bluetooth function of the current Bluetooth device, and then pair and connect it with the new Bluetooth device according to steps outlined above.

### **Pairing with a Bluetooth Adapter for iPhone or iPod**

1. Keep the Bluetooth adapter and headphones within 1 meter of each other when pairing.
2. Put the headphones into pair mode as outlined above.
3. Plug the Bluetooth adapter into the iPhone or iPod and play a song.
4. The headphones and adapter will pair automatically (passcode of adapter must be 0000)
5. After successful pairing and connecting, the blue (or red) light of headset blinks twice every 4 seconds.

## Bluetooth headphones

### **Pairing with several Bluetooth devices**

The headphones can connect with two devices at most. A mobile phone with HFP profile; and a device with A2DP profiles. If you want to pair two Bluetooth devices, please refer to the following steps.

1. Firstly, pair the headphones with the Bluetooth adapter
2. Disconnect the Bluetooth adapter from the iPhone or iPod
3. Pair and connect the headphones with the mobile phone
4. Reconnect the Bluetooth adapter, it will connect with headphones automatically.

### **Note**

Mobile phones that support HSP and A2DP profiles simultaneously may block the Bluetooth adapter from reconnecting to the headphones.
