

## KEIZER TREES OF HISTORY AND INTEREST

Kentucky Coffee Tree, *Gymnocladus dioica*  
Rainbow Court @ Chemawa Road NE  
Uncommon, fall color.

Eastern Redbud, *Cercis Canadensis*,  
5353 Verda Lane, 5291 Arcade, and  
5451 Kafir Drive NE. Spring flowers.

Katsura Tree, *Cercidphyllum japonicum*  
5355 Verda Lane NE  
Spring new growth, fall color.

### NATIVE

Pacific  
Dogwood,  
*Cornus  
nuttallii*  
997  
Dearborn,  
also on  
corner of  
Arcade &  
Kalmia.  
Spring & fall  
flowers, fall  
color.

Tanyosyo Pine, *Pinus densiflora*  
'Umbraculifera' 5394 Verda Lane NE.  
Interesting structure, colorful bark.

Pin Oak, *Quercus palustris*,  
Claggett Creek Park south end along  
Dearborn. Fine specimens, fall color.

Silk or Mimosa Tree, *Albizia julibrissin*  
103 Dearborn Avenue NE. 2 trees

**NATIVE** Oregon Bigleaf Maple, *Acer macrophyllum*  
Intersection of Dearborn & Paulette another good sized specimen at Wallace House Park

Cutleaf European Birch

*Betula pendula*  
'cutleaf'

Planted along  
Linda Avenue NE

Big leaf Magnolia

*Magnolia macrophylla*,

357 Dearborn

Large leaves,  
large summer  
flowers.  
Possibly the  
best specimen  
in Salem-  
Keizer area.

Monkey Puzzle Tree

*Araucaria araucana*

4923 Delight ♀  
5362 Newberg ♀  
854 Orchard ♂.  
Unusual conifer.

**NATIVE**

Western Red Cedar

*Thuja plicata*

629 Dearborn

Uncommonly  
used conifer.

Smoke Tree, *Cotinus coggygia*,  
4687 Rivercrest Street N  
Spring flowers, summer "seeds", fall color.

Northern Red Oak, *Quercus rubra*, corner  
Ventura Street N & Shoreline Drive N  
Large, beautiful form, fall color.

Empress Tree, Princess Tree, *Paulownia  
tomentosum*, 5395 Joan Drive N. Heavy bloom  
of lavender trumpet-shaped flowers in spring.

Crapemyrtle  
*Lagerstroemia  
indica*  
4230 Shoreline  
Drive N. Late  
summer to fall  
very colorful  
flowers, beautiful  
bark.

**NATIVE**  
Port Orford Cedar  
*Chamaecyparis  
lawsoniana*  
Shoreline Drive N.  
4475 Delight Street  
N  
4720 Delight Street  
N Hedge along  
Evans. Beautiful  
foliage.

American Chestnut, *Castanea dentate*,  
410 Evans Avenue N. This is a rare tree. In  
Eastern US it has been almost completely  
obliterated by Chestnut blight.

Tulip Tree

*Liriodendron tulipifer*

623 Maine NE

Great specimen. Late spring flowers, attractive foliage, yellow fall color.

Weeping Giant Sequoia

*Sequoiadendron giganteum*  
'Pendulum'

703 Maine Street

Many planted together.. Perhaps a school project?

Akebono Flowering Cherry, *Prunus lisitanica*

672 Maine NE

Heavy shell-pink flowers in spring, fall color.

Golden Weeping Willow, *Salix alba* 'Tristis'

1630 Chemawa Road NE

Attractive foliage and form.

Ferrill's Crimson Flowering Crabapple, *Malus*

'Ferrill's Crimson' Rainbow Court, Chemawa Road NE (Locally developed and selected by Ed Ferrill, Ferrill's Nursery, Keizer, probably before 1960; not best flowering crabapple, flowers attractive)

Giant Sequoia

*Sequoiadendron giganteum*

McNary Golf Club;

1297 Dearborn

557 Dearborn

5185 Verda

Specimen	H/D	Address	Comment
<i>Abies grandis</i> (Oregon Native) Grand Fir	99/35	BiMart, Cherry Avenue	Unbelievably high grand fir in cultivation
<i>Acer macrophyllum</i> (Oregon Native) Oregon Big Leaf Maple	102/62	Wallace House Park	Good sized tree for this species
<i>Acer pseudoplatanus</i> Sycamore	68/38	771 Dietz Ave NE	May be the best specimen in the Salem Keizer area
<i>Acer shirasawanum</i> 'Aureum' Golden Fullmoon Maple	6/20	254 Juedes N	A small tree; quite rare; sought after. Only one in the area.
<i>Castanea dentate</i> American Chestnut	38/39	410 Evans N	This is a rare tree. In eastern US has almost been completely obliterated by the Chestnut blight.
<i>Clerodendrum trichotomum</i> Harlequin Glorybower	13/22	791 Moneda Ct. N	Possibly the biggest specimen in the Salem/Keizer area
<i>Cotinus coggygria</i> Smoke Tree	15/28	4675 Rivercrest N	Excellent specimen
<i>Crataegus suksdorfii</i> (Oregon Native) Black Hawthorn	35/23	Cherry Ave NE	Excellent specimen
<i>Juglans nigra</i> Black Walnut	96/51	5220 Joan Drive	Excellent specimen
<i>Liriodendron tulipifera</i> Tulip Tree	87/94	623 Maine NE	Huge tree. Excellent specimen
<i>Magnolia grandiflora</i> Evergreen Magnolia	50/30	4735 Harcourt	Possibly the largest specimen in Salem/Keizer area
<i>Malus</i> 'Ferrill's Crimson' Ferrill's Crimson Crabapple	13/10	Rainbow Court along Chemawa Road NE	This tree was developed by Keizer resident and nurseryman Bill Ferrill about 60-70 years ago.
<i>Metasequoia glyptostroboides</i> Dawn Redwood	50/34	4372 Thorman NE	Excellent deciduous conifer. Not many around. This may be the only one in Keizer.
<i>Pinus sabiniana</i> Digger/Gray Pine	73/43	700 Dietz Ave NE	Grows in southern Oregon. This may be the only specimen outside of southern Oregon. Nice specimen. Huge cones. Woodier than pine cones.
<i>Prunus x subhirtella</i> 'Pendula' Weeping Higan Cherry	14/21	1858 Claxter Drive	Very old tree. Perhaps 100 years old.
<i>Quercus garryana</i> Oregon White Oak	94/54	5435 Bundy Ave N 4845 Verda Lane NE	Verda specimen may be oldest tree in Keizer
<i>Sequoiadendron giganteum</i> Giant Sequoia	145/55	557 Dearborn Ave N	Many planted together. Perhaps a school planting project?
<i>Sequoiadendron giganteum</i> 'Pendulum' Weeping Giant Sequoia	50/17	703 Maine	This is an unusual tree – a "character tree". Good sized. Only one other in Salem/Keizer area that may be larger. Great specimen.
<i>Trachycarpus fortunei</i> Windmill Palm	25/12	1613 Chemawa NE	Many being planted around the city. This palm does well in this area.

## General and Miscellaneous Information on Keizer Trees

1. Information to help explain results of tree survey.
2. Characterization of some Keizer trees.
3. Botanical names of trees growing in Keizer and their common names.
4. Words, abbreviations, and other terms used throughout this report.

## Following information will help explain the results of tree survey by Wilbur Bluhm.

- During the summer of 2011 I walked most of the streets of Keizer south of Lockhaven Drive. In this past summer of 2012 I walked all of the streets north of Lockhaven, plus the streets in southeast Keizer, east of Cherry Avenue and a few streets in west Keizer just south of Lockhaven. Plans are to provide you with maps that will show all of this. All streets in the City have been “walked”.
- Although finding the most significant trees was the goal, it is possible, even probable, that some have been unintentionally overlooked. The number is not thought to be large.
- At least 241 different kinds of trees are growing in Keizer. The attached list includes 241 and it likely does not include all of them. For example, many red maples have been planted in the City, surely involving a number of cultivars (“varieties”). I’ve only identified two of the cultivars, lumping all others under the species name, simply as red maple (*Acer rubrum*). If all red maple cultivars were identified the total number would be closer to 250 different kinds of trees in Keizer. And, there are almost certainly other unidentified cultivars of other tree species.
- Botanical names are used for accuracy and precision. A given tree may be known by more than one common name. A list of trees by botanical name, with each tree’s common name(s), is provided at the end of this attachment. Also, common names are given in the list of tree locations by street, and the list of trees by species (botanical names).
- What is a significant tree? Size may be the first criterion to come to mind. However, if size is the only criterion, many of the City’s most interesting, beautiful, high quality, and useful trees are eliminated. One solution might be to categorize the Keizer trees, then having several or more categories of significance. Potential categories could include size, flowering quality, superior performance (including resistance to or freedom from insects and diseases), rarity, historical interest, native trees, color abundance, and probably other qualities. Also, division might be made between deciduous broadleaf, evergreen broadleaf, and conifer trees. Just ideas.
- Largest found deciduous broadleaf tree is a native black cottonwood, *Populus trichocarpa*, on Rivercrest Drive N near the Willamette River. It measured 155 feet tall and had a diameter of 77 inches. Largest conifer is a giant sequoia, *Sequoiadendron giganteum*, among a group on Dearborn Avenue N. It measured 145 feet tall and had a diameter of 55 inches. Both were found in summer of 2011, and have now had the opportunity for another year’s growth.
- Should size be a criterion, it is suggested the larger trees be submitted to a more rigorous measurement system where height, trunk size, and canopy size are used. My measurements have only included height and trunk size, but are believed to be useful in finding the more significant specimens for further scrutiny and measurement.

- There are some great trees in our City. Not only are there large ones, there are also quality trees. There are unusual trees, and there are uncommon and even rare trees.
- From my observations, the largest trees, generally and with some exceptions, are growing in south Keizer. This is logical since it's the earliest developed part of the City. There is a tendency, and it's no more than that, for newer kinds to be growing north of Lockhaven Drive, in newer areas of the City.
- There are some trees of considerable size that have been improperly pruned, many "topped", in prior years. I would suggest that such trees not be recognized as significant trees, though a few may otherwise qualify. To recognize these trees could imply approval of improper pruning techniques, very harmful to a tree.
- Most Keizer streets are included in the trees by street list. Where a given street is missing, and there are some, it is because trees were either too small, or less significant in other ways, to be included.
- Some trees are quite dominant in the City. *Sequoiadendron giganteum*, the Giant Sequoia, native to the Sierra Nevada mountain range, impacts Keizer's skyline. It is most prevalent south of Lockhaven Drive, but they were planted in most areas of the City. Many of them are of a similar size range, from about 80 to 150 feet. Fewer have since been planted. It would be interesting to know why they were planted during a time frame of perhaps 1940s to 1960s. Might they have been a school project?

More recently *Acer rubrum*, Red Maple, a native of eastern United States and southeastern Canada, and its cultivars have been heavily planted. They appear to be more prevalent in newer areas of Keizer, but can be found in all areas of the City.

- The *Cedrus deodara* 'Glauca Pendula', Pendulous, or Weeping, Blue Deodar Cedar, has been quite widely planted. Very few are included in lists of Keizer trees. This is an unusual tree, a difficult one to size because of its horizontal growth habit.

### Characterization of Some Keizer Trees

(Note: It is not suggested the following classifications be used to determine significance. Not all may be appropriate for that purpose. Also, this is not inclusive of all the trees seen, measured, and included in this report. This list may be useful for publicity and other support programs, for which use of common names may be better.)

- **Rarity** – *Castanea dentata* (American Chestnut), *Diospyros kaki* (Oriental Persimmon), *Franklinia alatamaha* (Franklin Tree), *Gymnocladus kentuckea* (Kentucky Coffee Tree)
- **Relatively New** – *Cryptomeria japonica* 'Sekkan-sugi' (Sekkan-sugi Cedar), *Fraxinus americana* cvs. (American Ash cultivars), *Fraxinus angustifolia* 'Raywood' (Raywood Ash)
- **Unusual** – *Araucaria araucana* (Monkey Puzzle Tree), *Corylus avellana* 'Pendula' (Weeping Filbert or Hazelnut), *Juniperus chinensis* 'Kaizuka' (Hollywood Juniper), *Musa basjoo* (Hardy Banana), *Pinus densiflora* 'Umbraculifera' (Tanyosho Pine), *Pinus strobus* 'Pendula' (Weeping Eastern White Pine), *Robinia pseudoacacia* 'Twisty Baby' (Twisty Baby Black Locust), *Salix babylonica* var. *pekinensis* 'Tortuosa' (Corkscrew Willow), *Sequoiadendron giganteum* 'Pendulum' (Weeping Giant Sequoia), *Trachycarpus fortune* (Windmill Palm)

- **Historical** – *Quercus garryana* var. *garryana* (Oregon White Oak), Verda Lane; *Juglans nigra* (Black Walnut), *Juglans regia* (English, or Carpathian, Walnut)
- **Fossil Trees** – *Ginkgo biloba* (Ginkgo, or Maidenhair Tree), *Metasequoia glyptostroboides* (Dawn Redwood)
- **Heavily Planted** – *Acer rubrum* (Red Maple) cvs., to lesser extent *Pyrus calleryana* (Flowering Pear) cvs.
- **Trendy Trees** – *Acer rubrum* (Red Maple) cvs., *Betula nigra* (River, or Red, Birch) cvs., *Callitropsis nootkatensis* (Alaska Yellow Cedar), *Lagerstroemia* (Crape Myrtle), *Musa basjoo* (Hardy Banana), *Sequoiadendron giganteum* ‘Pendulum’ (Weeping Giant Sequoia), *Salix integra* ‘Hakuro-nishiki’ (Dappled Willow), *Styrax japonicus* (Japanese Snowbell), *Trachycarpus fortunei* (Windmill Palm)
- **Oregon natives** – *Abies grandis* (Grand, or White, Fir), *Abies procera* (Noble Fir), *Acer circinatum* (Vine Maple), *Acer macrophyllum* (Oregon Bigleaf Maple), *Alnus rubra* (Red Alder), *Arbutus menziesii* (Pacific Madrone), *Callitropsis nootkatensis* (Alaska Yellow Cedar), *Calocedrus decurrens* (Incense Cedar), *Cercis occidentalis* (Western Redbud), *Chamaecyparis lawsoniana* (Port Orford Cedar), *Cornus nuttallii* (Pacific Dogwood), *Crataegus suksdorfii* (Black Hawthorn), *Fraxinus latifolia* (Oregon Ash), *Picea sitchensis* (Sitka Spruce), *Pinus contorta* (Coast, or Lodgepole, Pine), *Pinus monticola* (Western White Pine), *Pinus ponderosa* (Ponderosa, or Western Yellow, Pine), *Populus tremuloides* (Quaking Aspen), *Populus trichocarpa* (Black Cottonwood), *Pseudotsuga menziesii* (Douglas Fir), *Quercus garryana* (Oregon White Oak), *Sequoia sempervirens* (Coast Redwood), *Taxus brevifolia* (Pacific Yew), *Thuja plicata* (Western Red Cedar), *Tsuga heterophylla*, Western Hemlock, *Umbellularia californica*, Oregon Myrtlewood, California Laurel)
- **Edible Fruits/Nuts** – *Asimina triloba* (Pawpaw), *Carya illinoensis* (Pecan), *Castanea dentata* (American Chestnut), *Castanea mollissima* (Chinese Chestnut), *Corylus avellana* (Filbert, or Hazelnut), *Diospyros kaki* (Oriental Persimmon), *Ficus carica* (Common Fig), *Juglans nigra* (Black Walnut), *Juglans regia* (English, or Carpathian, Walnut), *Malus* species & cultivars (Apple & Crabapple), *Prunus avium* (Sweet Cherry), *Pyrus communis* (Common Pear)
- **Broadleaf Evergreen Trees** – *Arbutus menziesii* (Pacific Madrone), *Magnolia grandiflora* (Southern, or Evergreen, Magnolia), *Photinia x fraseri* (Fraser Photinia), *Prunus lusitanica* (Portuguese Laurel), *Umbellularia californica* (Oregon Myrtlewood, California Laurel)
- **Interesting/Colorful Bark** – *Acer griseum* (Paperbark Maple), *Acer palmatum* ‘Sango Kaku’ (Sango Kaku Japanese Maple), *Betula nigra* (River, or Red, Birch) cvs., *Betula pendula* (European White Birch), *Betula pendula* ‘Cutleaf’ (Cutleaf European White Birch), *Betula utilis* var. *jacquemontii* (Himalayan White Birch), *Cornus kousa* (Kousa Dogwood), *Lagerstroemia* (Crape Myrtle) cvs., *Parrotia persica* (Persian Parrotia, Persian Ironwood), *Phellodendron amurense* (Amur Corktree), *Pinus densiflora* ‘Umbraculifera’ (Tanyosho Pine), *Pinus ponderosa* (Ponderosa, or Western Yellow Pine), *Prunus serrula* (Birch Bark Cherry), *Stewartia pseudocamellia* (Japanese Stewartia), *Taxus brevifolia* [old trees] (Pacific Yew)
- **Uncommon** – *Acer palmatum* ‘Shishigashira’ (Shishigashira Japanese Maple), *Acer shirasawanum* ‘Aureum’ (Golden Fullmoon Maple), *Acer tataricum* ssp. *ginnala* (Amur Maple), *Acer triflorum* (Three Flowered Maple), *Asimina triloba* (Pawpaw), *Betula pendula* ‘Purple Rain’

(Purple Rain Birch), *Carya illinoensis* (Pecan), *Castanea dentata* (American Chestnut), *Castanea mollissima* (Chinese Chestnut), *Cercidiphyllum japonicum* f. *pendulum* (Weeping Katsura Tree), *Cercis occidentalis* (Western Redbud), *Chionanthus retusus* (Chinese Fringe Tree), *Corylus avellana* 'Pendula' (Weeping European Filbert), *Cotinus coggygria* (Smoketree), *Davidia involucrata* (Dove, or Handkerchief, Tree), *Fagus sylvatica* 'Dawyck Purple' (Dawyck Purple Beech), *Franklinia alatamaha* (Franklin Tree), *Gymnocladus dioica* (Kentucky Coffee Tree), *Larix occidentalis* (Western Larch, Tamarack), *Morus alba* (White Mulberry), *Nyssa sylvatica* (Black Tupelo, Sour Gum), *Pinus sabiniana* (Digger, Gray, or Foothill Pine), *Pinus wallichiana* (Himalayan White Pine), *Pistacia chinensis* (Chinese Pistache), *Prunus cerasifera* 'Newport' (Newport Flowering Plum), *Quercus macrocarpa* (Bur Oak), *Robinia x ambigua* 'Purple Robe' (Purple Robe Locust), *Styrax obassia* (Fragrant snowbell), *Taxodium distichum* (Baldcypress)

- **Overplanted?** – *Acer rubrum* (Red Maple) cvs., *Liquidambar styraciflua* (Sweet Gum), *Pyrus calleryana* (Flowering Pear) cvs. (Note: Significant plantings of the *Pyrus calleryana* trees have been made in recent years as new cultivars were released. With age some are developing a more open canopy and showing other less desirable qualities than originally. The future will provide a more useful evaluation.)
- **Superior Trees** – *Cercidiphyllum japonicum* (Katsura Tree), *Cornus kousa* (Kousa Dogwood), *Ginkgo biloba* (Ginkgo, Maidenhair Tree), *Koelreuteria paniculata* (Goldenrain Tree), *Quercus rubra* (Northern Red Oak)
- **Flowering Trees** – *Aesculus x carnea* (Red Horsechestnut), *Aesculus hippocastanum* (Common Horsechestnut), *Albizia julibrissin* (Silk, or Mimosa, Tree), *Arbutus menziesii* (Pacific Madrone), *Asimina triloba* (Pawpaw), *Catalpa bignonioides* (Common Catalpa), *Catalpa speciosa* (Northern Catalpa), *Cercis canadensis* (Eastern Redbud) & cvs., *Cercis occidentalis* (Western Redbud), *Clerodendrum trichotomum* (Harlequin Glorybower), *Cornus* spp. (Dogwoods), *Cotinus coggygria* (Smoketree), *Crataegus laevigata* (English Midland Hawthorn), *Crataegus laevigata* (Paul's Scarlet Hawthorn), *Crataegus x lavalleyi* (Carrier, or Lavalley, Hawthorn), *Davidia involucrata* (Dove, or Handkerchief, Tree), *Franklinia alatamaha* (Franklin Tree), *Hibiscus syriacus* (Rose of Sharon) cvs., *Koelreuteria paniculata* (Goldenrain Tree), *Laburnum alpinum* 'Pendulum' (Pendulous Scotch Laburnum), *Laburnum anagyroides* (Goldenchain Tree), *Laburnum x watereri* 'Vossii' (Voss Goldenchain Tree), *Lagerstroemia* (Crape Myrtle) cvs., *Liriodendron tulipifera* (Tulip Tree), *Magnolia* (Magnolia, Tulip Tree) spp., *Oxydendrum arboreum* (Sorrel Tree, Sourwood), *Paulownia tomentosa* Empress Tree, *Prunus* spp. (cherries, plums), *Stewartia pseudocamellia* (Japanese Stewartia), *Stychnolobium japonicum* (Japanese Pagoda, or Chinese Scholar, Tree), *Styrax japonicus* (Japanese Snowbell), *Styrax obassia* (Fragrant Snowbell), *Syringa vulgaris* (Common Lilac), *Vitex agnus-castus* (Chaste Tree) Note: Many of the trees flower in spring, and some in summer, and others extending into fall.
- **Fall Color** - *Acer circinatum* (Vine Maple), *Acer griseum* (Paperback Maple), *Acer macrophyllum* (Oregon Bigleaf Maple), *Acer palmatum* (Japanese Maple) cvs., *Acer platanoides* (Norway Maple) & cvs., *Acer rubrum* (Red Maple) cvs., *Acer saccharinum* (Silver Maple), *Acer saccharum* (Sugar Maple), *Acer tataricum* var. *ginnala* (Amur Maple), *Acer triflorum* (Three Flowered Maple), *Aesculus hippocastanum* (Common Horsechestnut), *Cercidiphyllum japonicum* (Katsura Tree), *Cornus florida* (Eastern Dogwood) cvs., *Cornus*

*kousa* (Kousa Dogwood) cvs., *Cornus nuttallii* (Pacific Dogwood), *Cotinus coggygria* (Smoketree), *Franklinia alata* (Franklin Tree), *Ginkgo biloba* (Ginkgo, Maidenhair Tree), *Lagerstroemia* (Crape Myrtle) cvs., *Liquidambar styraciflua* (Sweet Gum), *Liriodendron tulipifera* (Tulip Tree), *Metasequoia glyptostroboides* (Dawn Redwood), *Nyssa sylvatica* (Black Tupelo, Sour Gum), *Oxydendrum arboreum* (Sorrel Tree, Sourwood), *Parrotia persica* (Persian Parrotia, Persian Ironwood), *Pistacia chinensis* (Chinese Pistache), *Prunus* spp./cvs. (cherries), *Pyrus calleryana* (Flowering Pear) cvs., *Quercus coccinea* (Scarlet Oak), *Quercus palustris* (Pin Oak), *Quercus rubra* (Red Oak), *Zelkova serrata* (Sawleaf Zelkova)

- **Colorful Fruits** – *Arbutus menziesii* (Pacific Madrone), *Clerodendrum trichotomum* (Harlequin Glorybower), *Cornus* spp. (Dogwoods), *Crataegus x lavalleyi* (Carrier, or Lavalley, Hawthorn), *Diospyros kaki* (Oriental Persimmon), *Ficus carica* (Common Fig), *Ilex aquifolium* (English Holly), *Malus* spp. (Crabapples), *Pinus sabiniana* and *Pinus wallichiana* (large cones), *Sorbus* spp. (Mountain Ash)
- **Deciduous Conifers** – *Larix occidentalis* (Western Larch, Tamarack), *Metasequoia glyptostroboides* (Dawn Redwood), *Taxodium distichum* (Baldcypress)
- **Problem Trees** – *Crataegus laevigata* ‘Paul’s Scarlet’ (leaf diseases, defoliation), *Liquidambar styraciflua* (prickly seed balls, weak structure, slow leaf dropping), *Ulmus pumila* (diseases, breakage) [fruiting trees; *Ginkgo biloba* female trees (malodorous fruit); Any Fruit/Nut Tree – *Juglans nigra* (Black Walnut), *Juglans regia* (English, or Carpathian, Walnut), *Prunus cerasifera* (Flowering Plums), *Prunus avium* (Sweet Cherry); Trees with basal swelling, upheaving sidewalks, etc. – some maples, such as *Acer macrophyllum* (Oregon Bigleaf Maple), *Acer platanoides* (Norway Maple)
- **Invasive Trees** – *Acer platanoides* (Norway Maple), *Ailanthus altissima* (Tree of Heaven), *Ilex aquifolium* (English Holly) [Any seed producing tree has the potential for growth of seedlings.]

## Botanical Names of Trees Growing in Keizer and Their Common Names

1. <i>Abies amabilis</i> ,	Pacific Silver Fir – OR native	56. <i>C. d.</i> 'Pendula'	Weeping Deodar Cedar
2. <i>Abies concolor</i> ,	Concolor, or White, Fir – CA to CO	57. <i>C. d.</i> 'Silver Mist'	Silver Mist Deodar Cedar
3. <i>Abies grandis</i> ,	Grand, or White, Fir – OR native	58. <i>Cercidiphyllum japonicum</i>	Katsura Tree – China, Japan

## Words, Abbreviations, and Other Terms Used Throughout This Report

- Cultivar – literally a “cultivated variety” produced or selected by man. Cultivars will often produce seed, but will not usually reproduce themselves *exactly* from seed.
- cv., cvs. – abbreviation for cultivar and cultivars.
- A cultivar, when used in botanical nomenclature, follows the botanical name and is indicated by single quotation marks, for example, ‘Hashuro-nishiki’ in *Salix integra* ‘Hakuro-nishiki’. Notice the genus and species names are italicized, but the cultivar name is not.
- Genus – a category of biological classification which ranks between family and species; ***all botanic names used here are in this order – (1) name of genus, (2) name of species, and (3) name of subspecies (ssp.) or variety (var.), if any.***
- Species – a category of biological classification which ranks just below genus; individuals of this category all have common attributes and are designated by a common name.
- sp. – abbreviation for species
- ssp. – subspecies, a term used in biological classification to denote a further delineation of a species; a further division of a species.
- Variety – technically, in biological classification, this word, or its abbreviation (var.) immediately follows the species name and is followed by a varietal name; ***this word is commonly misused to indicate a cultivar, which see.*** A true plant variety, as used in biological classification, will reproduce itself almost exactly from seed.
- var. – abbreviation for variety.
- (2), (3), etc. – indicates number, within parentheses, of that specific kind of tree at the location. This is frequently used in the list of streets and the list of trees by botanical name.
