

New for the 2021-22 season, Knox Horticulture is offering a separate program for Perennials. We have collected together all the best first-year flowering, southern perennials from our other programs into one combined program with plugs from seed and liners from both unrooted cuttings and stage 3 tissue culture.

Knox Horticulture Perennials are a great option for focused perennial growers as well as annual growers who are looking to expand their offerings in our changing marketplace.

Achillea (<i>Achillea hybrida</i>)			
SERIES	BREEDER	FORM	TRAYS
