## Welcome to Knox Horticulture's 2023-2024 Season!

As a second generation, family-owned business since 1962, all of us at Knox Horticulture share a passion for plants. There are many reasons to choose Knox Horticulture as your young plant supplier — our extensive selection as shown in this program guide (over 6,000 varieties!), the years of collective experience our staff has helping growers across the country with their starter plant needs, the technologies that we use to make sure that the right seed gets sown in the right tray and then packed in the right rack or right box, and the Knox Grower Truck shipping options we have throughout the South and throughout much of the Midwest and reaching as far as Massachusetts in the Northeast.

But one of the best reasons to choose Knox Horticulture is our location — plants love Central Florida sunshine. Florida sun means longer days, higher light levels and warmer temperatures compared to northern states, particularly when sourcing starter plant material for your Spring production.

University research has shown that a total daily light integral (a measure of the amount of light a plant has received in a day) of at least 10 moles within the greenhouse is required for favorable growth and development of young plants. That equates to about 20 moles outside the greenhouse. These maps, published by Dr. Jim Faust of Clemson University, show that light levels are below 20 moles outside from late fall through late spring for much of the northern US, while Central Florida receives 20 moles or better outside year-round.

Here's to a successful 2023-2024 season for all of us!

# KNOX HORTICULTURE YOUNG PLANTS TEAM

---

All of us at Knox Horticulture share a passion for plants. These 15 key team members have over 350 combined years of experience in the Horticulture field, including experience involving propagation and growing, production planning, customer support, people management, logistics operations, and program development. They know the challenges involved with producing and delivering live material on a weekly basis and make working with us as a supplier as easy as possible for all of our customers.

On behalf of all 100+ employees at Knox Horticulture, we thank you for your business and look forward to meeting your young plant needs in the 2023-2024 season.

# OUR YOUNG PLANT PROGRAMS

2023-2024

## Seed Annuals

Our Florida-grown plugs can be a tremendous advantage for more northern growers, especially for spring production - leading to plants that finish up to 2 weeks faster and more sales.

## Vegetative Annuals

We select varieties from the best genetics from the most innovative breeders in the world. We source from over a dozen different stock farms to bring you well-rooted liners in 102C 25mm ellepot trays, providing easy transplant and fast take-off on your benches.

## Perennials

Our focus is first-year flowering, Southern perennials with no vernalization required, and includes items started from seed, vegetative cuttings, and stage 3 tissue culture. While most items are perennial in Zones 6 through 9, many have a wider range, and most can be grown as annuals in other zones. Most liners from both cuttings and tissue culture are produced in 72C 30mm ellepot trays.

## Ferns

Sourced from the stage 3 tissue culture of the premier fern source, the Netherlands' Vitro Plus, we produce approximately 5 million tropical fern liners used for baskets, tables, and landscapes for ship weeks 25-45. Our fern liners are produced in 72-cell trays.

# OUR YOUNG PLANT PROGRAMS

2023-2024

## Geraniums

We offer rooted cuttings of Syngenta and Dümmen Orange Pelargonium genetics. We propagate the liners in 30mm ellepot strips, spacing 15 of our 104C trays per bench, to encourage even, strong growth and the highest quality liner.

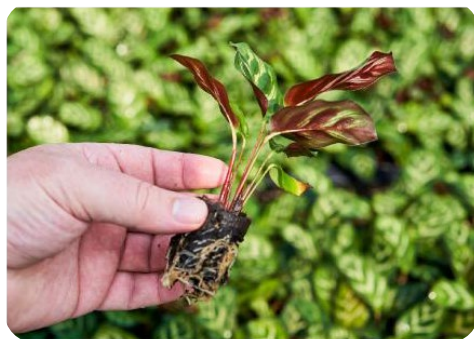

## Poinsettias

Our program includes top performing Poinsettia genetics. Similar to our Geraniums, we provide even more spacing on our 30mm ellepot strips - 9 104C trays per bench.

## Garden Mums

Grown in 51C 25mm ellepot trays, split from our standard 102C trays, our late spring and summer Garden Mums program offers the best choice possible for growers large and small.

## Foliage & Houseplants

Our newest program, we launched at the beginning of 2022 based on request of those seeking a reliable supplier for liners from stage 3 tissue culture. Our Foliage & Houseplants program meets three distinct market needs: landscape foliage for Florida, standard houseplants for all growers, and "premium" items for speciality IGCs. We look forward to seeing how this program grows in the future.

# SEED ANNUALS

2023-2024

Our Florida-grown plugs can be a tremendous advantage for more northern growers, especially for spring production - leading to plants that finish up to 2 weeks faster and more sales.

Performance**

**Massive  
COLOR**

**GREEN, BRONZE  
AND CHOCOLATE  
FOLIAGE**

Viking<sup>®</sup> begonia is the ultimate all-weather garden performer, thriving in both sun and shade. This award-winning begonia is available in three distinct habits, including Viking, Viking XL, and the unique trailing habit, Viking Explorer. Viking begonia features three foliage color options, including Chocolate, the darkest foliage in its class! Viking is absolutely covered in blooms, bringing massive color to landscapes and containers!

The difference is crystal clear:

Earlier; better plug vigor; dense flower clusters & bigger florets

For the brightest color show– Graffiti® 20/20

MANDEVILLA

# BELLA

*BELLA™ Mandevilla hosts vivid clear colors on well branched plants bred to perform in multiple size containers. Early flowering varieties extend bloom time from April through autumn. Warm summer months and full sun environments push the plants to peak performance. BELLA™ variety selection improves rooting and ease in growing.*

- *BELLA™ flowers in strong, vivid colors.*
- *BELLA™ flowers all summer long.*
- *BELLA™ their flowers stay open and are heat tolerant.*
- *BELLA™ is consumer friendly and easy to handle.*
- *BELLA™ branches very well and has great characteristics in production*
- *BELLA™ has a good habit and doesn't produce long vines.*
- *BELLA™ offers a great choice of opportunities for sales.*

*BELLA™ 'Scarlet'*

*BELLA™ 'White Improved'*

# LABELLA<sup>®</sup> DAHLIA

From big to small,  
**we have it all!**

## MAGGIORE SERIES

Broad colour range including 'fun' colours

- ✱ A Dahlia for every program and pot size
- ✿ Extensive range of solid and fun colors
- ☀ Easy branching, easy to grow
- ☀ Uniform timing and habit within each series
- ✱ Just one plant per recommended pot size means less inputs

# Go Nuts

Over Pistachio White.

## Introducing Pistachio White

Delicious from tip-to-top, the new Pistachio White tradescantia from GreenFuse Botanicals, boasts the most stable creamy white variegation, evenly distributed from leaf-to-leaf. The variety maintains a robust and fast-to-finish habit for maximum profitability. Use Pistachio White as a year-round staple for urban indoor jungles or as an exhilarating combination component for shade baskets in the garden.

# PERENNIALS

2023-2024

Form (Propagation Method): S=Seed • V=Vegetative • T=Tissue Culture

Our focus is first-year flowering, Southern perennials with no vernalization required, and includes items started from seed, vegetative cuttings, and stage 3 tissue culture. While most items are perennial in Zones 6 through 9, many have a wider range, and most can be grown as annuals in other zones. Most liners from both cuttings and tissue culture are produced in 72C 30mm ellepot trays.

## ColorGrass®

A diverse collection of easy to produce ornamental seed grasses designed to add texture and color. The collection includes Anemanthele, Carex, Festuca, Isolepis, Juncus, Koeleria, Luzula, and Stipa.

**TERRANOVA**  
NURSERIES, INC.

**NEW** **'Pink Pearl'**  
*Agastache*

Mid-sized, full, and compact mound of large flower spikes. Incredibly unique, glowing light pink color brightens any garden. Large, dense blooms cover the entire plant with contrasting flowers and deeply colored flower buds.

**syngenta.flowers**

**NEW** **Prairie Blaze™**  
**Vintage Lime**  
*Echinacea purpurea*

The first OP seed Echinacea available in novelty colors and optimized for mass production. First-year flowering and a direct match to the Prairie Splendor™ Compact in habit and timing.

**DANZIGER**

**NEW** **SOLANNA™**  
**Sunset Bright**  
*Coreopsis grandiflora*

Large flowers and early to bloom. Mounded, compact habit with vibrant flowers. First-year flowering with no bulking benefit or vernalization requirements.

# THINKPLANTS®

[www.thinkplants.com](http://www.thinkplants.com)

Think Perennials.  
Think Supply Chain.  
Think Quality.

Knox Horticulture brings in Stage 3 Tissue Culture from Vitro Plus, the world's Fern leader. We produce up to 5 million fern liners per year and ship them throughout the US and Canada between Ship Week 25 and Ship Week 45.

**We recommend a minimum lead time of 6 months for us to schedule the Tissue Culture material.**

We bring in stage 3 tissue culture material and transplant them into 72-cell trays

Newly-transplanted 72-cell trays can take advantage of our Florida sunshine

Ready to ship to the customer

# POINSETTIAS

2023

Knox Horticulture offers rooted cuttings from all Poinsettia breeders. Grown in strips of 30 mm ellepots (the same size cell as a 72C tray), the liners are spaced within our greenhouses to encourage even, strong growth. The strips are then packaged as a 104C strip tray, secure for shipping and saving on freight.

## Foliage & Houseplants

---

---

Knox Horticulture launched its first Foliage and Houseplant program in the spring of 2022. Since that launch, our growing team has gained much experience growing multiple cultivars of stage 3 tissue culture.

Knox Horticulture has been working with some of our industry-leading Tissue Culture Labs and Broker partners to offer you the program we have today. It is our goal to provide you with a diverse list of foliage that not only fills your landscape needs, but also your needs for unique and rare house plants.

The Rare Foliage trend has taken the greenhouse industry by storm and still seems to be a growing segment in the marketplace. We are offering Rare and Unique house plants in a 36 count Quick Plug. The 36 count Quick Plugs are 2" in diameter x 3" tall, they are conical in shape and taper to 1" bottom diameter. These Quick Plugs will offer growers a great option for a quicker turn in a 6" container. They will also work great in combinations.

We offer landscape and regular house plant items in our standard 72C 30 mm Ellepot that everyone knows and loves. These 72C plugs work great for shipping, ensuring each plug arrives in the best condition possible.

# FOLIAGE AND HOUSEPLANTS

2023-2024

Our newest program, we launched at the beginning of 2022 based on request of those seeking a reliable supplier for liners from stage 3 tissue culture. Our Foliage & Houseplants program meets three distinct market needs: landscape foliage for Florida, standard houseplants for all growers, and “premium” items for speciality IGCs. We look forward to seeing how this program grows in the future.

### WHAT IS AN EZ-POT?

The EZ-Pot is Knox Horticulture's brand for Ellepots, a degradable paper pot. EZ-Pots promote better air exchange compared to average plastic pots. This results in stronger root growth and overall more healthy plants. Better air exchange also promotes root pruning, an advantage in a bump-up transplant program that results in faster establishment and time to finish.

#### The EZ-Pot system offers you:

- ❖ Total control:
  - You choose the size.
  - You choose the media.
  - Knox does the work.
- ❖ Transplant efficiency: quick removal and faster planting
- ❖ Rooting efficiency: higher yields & less bench time
- ❖ Landscaper friendly: Easy removal, no pots/cell packs to collect and discard = faster planting
- ❖ Environmentally sound: The EZ-Pot is completely degradable

Pre-filled EZ-Pot trays are available in a wide variety of Ellepot sizes and tray configurations. These EZ-Pots can be filled with our premium soil mix. Pre-filled trays are available to ship to customers by shrink-wrapped pallet or full truck load.

#### When you're ready to switch Knox Horticulture makes it easy!

- ❖ **Minimum Order:** 1 Pallet per Ellepot Size per ship date
- ❖ **Lead Time:** 2 weeks
- ❖ Other tray counts available upon special request
- ❖ Quantity discounts available upon special request
- ❖ Soil mix is variable. We have several media to choose from. The standard mix is 85% Peat and 15% Coarse Perlite, has Polyon 16-6-12 @ 6 lbs/yd<sup>3</sup> and Multicote 15-7-15 @ 2 lbs/yd<sup>3</sup> as slow-release fertilizer as well as Rootshield @ ¾ lb/yd<sup>3</sup>. Any custom media must be supplied by the customer.

### AVAILABLE EZ-POTS

Ellepot Size	Ellepot Cell Dimensions	Ellepots per Tray	Trays per Pallet
20mm	20mm X 40mm (0.787" X 1.575")	209	320
25mm	25mm X 40mm (0.984" X 1.575")	102	320
25mm	25mm X 40mm (0.984" X 1.575")	102 split (2 trays of 51)	320
30mm	30mm X 40mm (1.181" X 1.575")	72	320
30mm	30mm X 60mm (1.181" X 2.362")	72 (deep)	270
30mm	30mm X 40mm (1.181" X 1.575")	78 (6 strips of 13)	320
40mm	40mm X 40mm (1.575" X 1.575")	50	320
80mm	80mm X 60mm (3.150" X 2.362")	10	240

# TERMS & CONDITIONS OF SALE

## 2023-2024 All Programs

Revised: July 1, 2023

### ORDERING TERMS

#### SALES

Knox Horticulture (Knox Hort) is a leading wholesale supplier of young plants to growers throughout North America and the Western Hemisphere. All products and programs of Knox Hort are represented through leading brokerage companies. Please contact your preferred broker for pricing and booking your order. Brokers may email their orders to [new.orders@knoxhort.com](mailto:new.orders@knoxhort.com). Brokers may phone our Customer Care Team at 407.654.1972 Extension 1. A list of partner brokerages is found on our website at [www.knoxhort.com/young-plants/our-brokers/](http://www.knoxhort.com/young-plants/our-brokers/)

#### PRICING

All orders will be invoiced based on the price effective on the date the order ships. All pricing is Net to Broker - no broker commission included. All prices include royalty cost where applicable. All prices listed are per plug or per liner. Tray sizes offered and plant guarantees per tray are listed in the specific program release documents. All pricing is subject to change without notice.

Fuel and material surcharges may be applied as deemed necessary by Knox Hort to offset cost volatility in the transportation and raw materials marketplace.

#### EARNED VOLUME DISCOUNTS

Every customer of Knox Hort qualifies automatically for earned volume discounts. This calculation counts trays of young plants booked through all brokers from all Knox Hort programs. Actual trays shipped plus future trays committed to ship by calendar year are included. Invoice pricing is the higher earned volume level from either the current calendar year or the prior calendar year.

#### ASSIGNED VOLUME DISCOUNTS

Brokers may negotiate assigned volume discount levels by program for individual customers. Assigned volumes apply for orders booked through just that broker for the given customer, remain in effect until changed by Knox Hort management, and supersede earned volume levels.

#### QUOTED PRICING

Knox Hort supplies big box and other contract growers with our plugs and liners. Please contact us for quoted pricing.

#### ORDER MINIMUMS

Grow to order (sow/stick orders): 8 trays per ship date. Availability orders (at once orders): 4 trays per ship date. Orders below these minimums are subject to additional fee. Variety order minimums, when applicable, are listed in the specific program release documents.

#### CUSTOM ITEMS

In addition to our extensive published program list, Knox Hort offers custom sows and sticks in select situations. The order minimum for a custom sow of seed plugs is 4 trays per variety per ship date plus an agreement to take successfully grown buffer trays (potential 15-20% of total order). Custom seed mixes generally have an additional fee. The order minimum for a custom stick of veg liners is 4 trays per variety per ship date.

#### ORDER LEAD TIMES

Each of our programs provides guidelines on the lead time we require to book an order. Most are relatively straightforward, but as we source more from tissue culture, customers should be aware most tissue culture labs require very long lead time, often 6 months or more.

#### ORDER CANCELLATIONS

Cancellations for Grow to order (sow/stick orders) are generally accepted up until 2 weeks prior to the production start date and may be longer when plant inputs can not be cancelled without charge from Knox Hort's supplier partners. Broker is responsible for reselling any cancelled items that have been produced. Broker will be invoiced for any unsold items. Cancellations for Availability orders (at once orders) will be honored only if received by 6 AM EST Friday prior to the week of shipment.

We offer a number of items secured from tissue culture. Most tissue culture labs often require very long lead times, often 6 months or longer. **Once orders have been placed for these items, cancellation is usually not possible**, and brokers will be invoiced for all items cancelled.

#### TAGS

Tags are available through Knox Hort from MasterTag for items in our Perennials, Veg Annuals, Geraniums, and Garden Mums programs. Tags will be drop-shipped by MasterTag and billed as a separate line on our invoice. Tags must be ordered at the same time as the plant material. Late tag orders are subject to additional fee.

#### CLAIMS

Customer satisfaction is the goal of all of us at Knox Hort. Please contact us immediately with any quality concerns or questions. Our growers are willing to work with you to ensure your satisfaction with our plugs and liners. Preliminary claim requests must be received with 24 hours for transit damage claims and 72 hours for plant quality claims. Photos in support of claims must be provided. Formal claims must be received within 21 days of shipment. Preliminary claims will be closed after 30 days. Email all documentation to [claims@knoxhort.com](mailto:claims@knoxhort.com).

#### FREIGHT ON BOARD (FOB) PRICING

All shipments are FOB Winter Garden, Florida. Freight cost is not included in the price of plugs or liners. Surcharges imposed by the freight carrier(s) will be prepaid and added to the invoice.

### FREIGHT AND LOGISTICS TERMS

#### SHIPPING

Knox Horticulture has over 60 years of experience shipping plant material safely, securely, and economically to customers throughout the United States and the Western Hemisphere. Young plants are securely packaged using our custom shipping boxes and inserts for palletized LTL or loose box FedEx shipments. Large orders ship on rolling racks via temperature-controlled Knox Grower Truck or on CC Carts with third party temperature-controlled transporters. Actual shipment method for orders is determined weekly by Knox Hort based on order size, destination, and overall shipment volume.

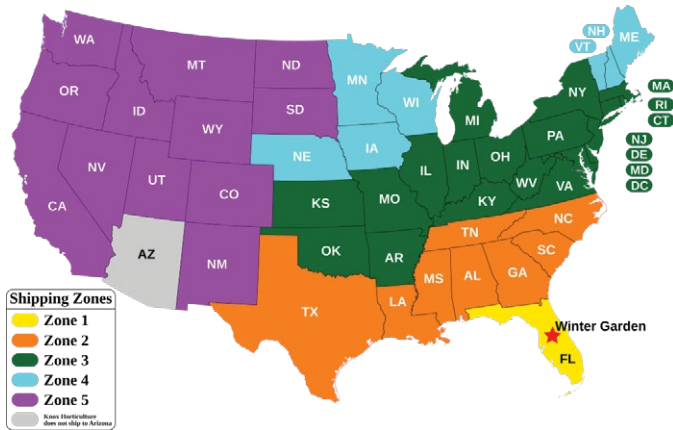

# TERMS & CONDITIONS OF SALE

## 2023-2024 All Programs

Revised: July 1, 2023

### FREIGHT CHARGES

Knox Hort charges a flat rate per tray type per zone for all standard delivery methods: Knox Grower Truck, FedEx Freight/Common Carrier/LTL, FedEx 2Day, and FedEx Ground. Brokers have the option to upgrade delivery method of orders below minimum size for additional charge pending schedule and space availability – please contact us for details.

### SHIPMENT METHODS

Knox Grower Truck, FedEx Freight, FedEx 2Day, FedEx Ground, Common Carrier/LTL, Air Freight, Customer Pick-Up.

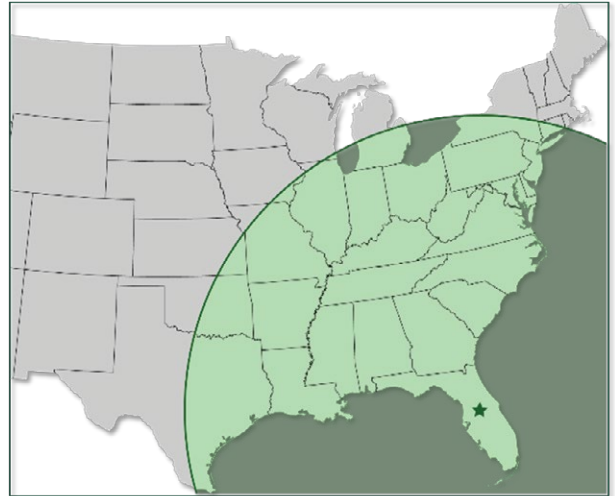

### TRAYS PER BOX / CC CART / RACK

Knox Hort's boxes, racks, and carts fit the following trays. Individual orders may vary due to spacing required for height or width of particular trays of young plants. Trays ordered from Availability tend to require more spacing. Knox Hort strives to, but does not guarantee, that multiple orders of the same tray type in the same week will ship in the same box.

Type	Size	Per Box	Per Rack	Per Cart	CC
Seed Plugs	288C	8	168	48	
Seed Plugs	144C	8	168	48	
Gerbera Plugs	144C	6	104	48	
Seed Plugs	72C	4	88	48	
Veg Liners	104C	4	42	24	
Veg Liners	102C	6	88	48	
Veg Liners	72C	4	88	48	
Combo Liners	50C	6	88	48	
Geranium Liners	104C	4	42	24	
Poinsettia Liners	104C	2	42	24	
TC Liners	72C	4	88	48	
TC Foliage	36C	2	56	28	
Garden Mums	51C	8	176	96	

### KNOX GROWER TRUCK

Knox Hort ships the majority of our young plants on our own 55F temperature-controlled Grower Trucks. Grower Truck delivery minimums are generally 40 trays for Zone 1, 1 rack for Zone 2, and 2-3 racks for Zone 3. Actual truck routing for individual orders is determined weekly based on availability and overall order volume and is not guaranteed. Brokers can reserve space for half or full truck load shipments – please contact us for details.

### FEDEX FREIGHT / COMMON CARRIER / LTL

Orders with a minimum of 40 trays (20 trays for Poinsettias) generally ship via palletized LTL. Up to 20 boxes fit on each pallet. LTL shipments have 1-2 day service delivery and are not climate controlled. LTL shipments generally ship on Monday year-round, expanding to Tuesday or Wednesday during peak season or for winter temperatures – please see WINTER BOX SHIPMENTS for more information.

### FEDEX 2DAY / FEDEX GROUND

Orders below 40 trays, or where LTL delivery transit is over 2 days, ship via loose box FedEx 2Day or FedEx Ground with 1-2 day service. FedEx loose box orders ship Monday through Wednesday weekly.

### CUSTOMER PICK-UP

Available by appointment Tuesday through Thursday 8:00am to 3:30pm. There is no charge for Customer Pick-Up. Please note the purchase order if the customer will prefer the young plants boxed or transferred from our racks to theirs.

### TRANSIT DAMAGE AND REPORTING

Customers should inspect boxes and young plants in the presence of a representative of the carrier. Please note any transit damage on shipping documents and/or bill of lading at the time of receipt and signature. Please see CLAIMS in ORDERING TERMS for more information.

# TERMS & CONDITIONS OF SALE

2023-2024 All Programs

Revised: July 1, 2023

## DOMESTIC EXCLUSIONS

Knox Hort does not ship to addresses in the states of Arizona, Hawaii, or Alaska.

## DOMESTIC AIR FREIGHT

Knox Hort will arrange Air Freight shipments upon Broker request from Orlando International Airport (MCO). Brokers may choose either Southwest or Delta as airlines. Freight charges will be billed to Broker's air freight account. Knox Hort will arrange for air waybill on behalf of Broker. Broker is responsible for notifying customer of flight details. Delivery to MCO is available. Order minimum for Air Freight shipments is 40 trays. Orders below this minimum are subject to additional fee. Air Freight shipments are at customer risk; Knox Hort assumes no responsibility for transit delay or damage.

## EXPORT – PUERTO RICO AIR FREIGHT

Knox Hort will arrange Export shipments to Puerto Rico from Orlando International Airport (MCO). Brokers may choose either Southwest or Delta as airlines. Freight charges will be billed to Broker's air freight account. Knox Hort will arrange for air waybill on behalf of Broker. Broker is responsible for notifying customer of flight details. Broker is responsible for providing to Knox Hort required documentation including Import Permit and Commercial Invoice. All Export orders will have an International Export Fee added which includes required Phytosanitary certificate, inspection, and paperwork processing. Delivery to MCO is available. Order minimum for Export shipments is 40 trays. Orders below this minimum are subject to additional fee. Export shipments are at customer risk; Knox Hort assumes no responsibility for transit delay or damage.

## EXPORT – INTERNATIONAL AIR FREIGHT

Knox Hort accepts export orders for our plugs and liners to most countries in the Western Hemisphere. Broker is responsible for selecting a Freight Forwarder to handle transit and providing to Knox Hort required documentation including Import Permit and Commercial Invoice. All Export orders will have an International Export Fee added which includes required Phytosanitary certificate, inspection, and paperwork processing. Delivery to Freight Forwarder is available. There is no fee when Freight Forwarder picks up from Knox Hort. Order minimum for Export shipments is 40 trays. Orders below this minimum are subject to additional fee. Export shipments are at customer risk; Knox Hort assumes no responsibility for transit delay or damage.

## WINTER BOX SHIPMENTS

Knox Hort closely monitors conditions and temperatures at both the destination as well as transit hubs during winter. Impacted shipments with temperatures between 20F and 33F will ship using our winterized cold boxing for an additional fee per box. Impacted shipments with temperatures 19F and below will be delayed during the week to match warming trends when possible or will be held to ship the following week. Brokers may request shipments to proceed with temperatures 19F and below using our winterized cold boxing. Please note that any such requested shipments will be made at customer risk; Knox Hort assumes no responsibility for transit delay or damage.

## LIMITATION OF LIABILITY

This document limits our liability, please read it.

Acceptance of product shipped by Knox Horticulture, ("SUPPLIER") constitutes acceptance of the following conditions of sale:

### ALLOCATION OF RISK OF NONPERFORMANCE

Failure of plugs or liners to perform may occur as a result of environmental factors including cold temperatures, heat, excess moisture, drought, wind and hail, disease, pests, inadequate fertility or misapplication of pesticides. Young plants at times carry diseases which may not be apparent to the SUPPLIER, Buyer or User. All risks of nonperformance, reduced performance and/or crop damage due to these factors shall be assumed by the Buyer and User.

### DISCLAIMER OF WARRANTY

SUPPLIER makes no other express warranty. SUPPLIER disclaims all implied warranties including any implied warranty of merchantability and any implied warranty of fitness for a particular purpose. To the extent permitted by State and Federal Law, all SUPPLIER's plants are sold AS IS.

### EXCLUSIVE REMEDY

Buyer's and User's exclusive remedy and SUPPLIER's sole liability for loss or damage arising from purchase or use of SUPPLIER's plants shall be an amount equal to the price paid for the plugs or cuttings.

### LIMITATION OF LIABILITY

Buyer or User may not recover any amount for incidental or consequential damages, including loss of profit, loss of yield and amounts expended in using or growing such plants, or for harvesting the produce of such plants. This limitation of liability shall be applicable to any claim presented to SUPPLIER whether the legal theory forming the basis for such a claim involves contract, tort, negligence, strict liability or otherwise. Buyer and User agree that if SUPPLIER refunds an amount equal to the price Buyer or User paid for SUPPLIER'S products, this limitation of liability will not have failed of its essential purpose.

### IMPORTANT NOTICE REGARDING PLANT-BORNE DISEASES

Upon receipt of product, you may re-test samples of this material at an independent laboratory of your choice. If any positive test result is returned, you must notify us, in writing, within 3 business days. If we receive no written claims or complaints regarding the supplied material within two weeks of shipment you agree that SUPPLIER has performed its obligations under the contract. SUPPLIER shall not be liable in any way, directly or indirectly, for material that was not re-tested within the two-week period or if we were not informed of a positive test result within the 3 business day period.

### FORCE MAJEURE

No Party shall be liable for any failure to perform its obligations to the contract to the extent that performance is delayed or prevented by any circumstances (except financial) reasonably beyond its control or as a result of Acts of Nature (including fire, flood, earthquake, storm, hurricane or other natural disaster), war, invasion, act of foreign enemies, hostilities (whether war is declared or not), civil war, rebellion, revolution, insurrection, military or usurped power or confiscation, terrorist activities, nationalization, government sanction, blockage, embargo, labor dispute, strike, lockout, interruption or failure of electricity, telephone or internet service or unavailability of raw materials.

Knox Horticulture  
940 Avalon Road  
Winter Garden, FL 34787

## About Knox Horticulture

Knox Horticulture began in 1962, when Jim and Nadine Knox began growing cuttings in a mist box on their patio. In the early days, they brokered bedding plants from Green Thumb Nursery, selling to Five and Dime General Stores. When Ralston Purina closed Green Thumb in 1976, Jim and Nadine decided to grow their own bedding plants. In 1985, construction started on their first annual plug facility, and the GoPlug product line was launched in 1986. As the 1980's drew to a close, Jim and Nadine began relinquishing their roles at the facility to their sons, Bruce and Monty.

Today, Knox Horticulture is one of the top 100 wholesale greenhouse operations in the country. Our Young Plant Division supplies a wide range of annual and perennial plants, both as plugs from seed and as liners rooted from vegetative cuttings or from tissue culture. These are sold through our broker network, shipped to growers across the United States and exported to Canada, the Caribbean and South American countries. Our Finished Plants Division produces bedding plants for local landscapers and area theme parks.

The current facility began operations in 1997 and is located on 33 acres of former orange groves on Avalon Road in Winter Garden, just west of Orlando in Central Florida. Dutch rolling benches are incorporated throughout the entire facility for efficient transport of material throughout the greenhouses. With 700,000 sq. ft. of environmentally-controlled space, we produce over 150 million plugs and liners every year.

Our production processes make extensive use of automation and computer technology. We use the Eco-friendly EZ-Pot System to significantly reduce the use of traditional plastic pots and saving money, while providing our customers with plants that have a healthier root system, resulting in faster finish times after transplant.

An established second-generation family-run business, Knox Horticulture produces a wide range of Plugs from Seed, Vegetative Liners and Finished Products for growers, landscapers and area theme parks.

**We are Your Bedding Plant Specialist, and have been for over 60 years.**
