

FireWire 800 ExpressCard 34

Two FireWire 800 Ports for Your Laptop

Quick and Easy Upgrade

Now you can affordably upgrade your Mac® or PC laptop to fast FireWire 800 connectivity with the LaCie FireWire 800 ExpressCard 34*. It provides two independent 9-pin 1394b bilingual ports so you can connect two external FireWire 800 devices simultaneously. Since it's plug & play and hot-pluggable, you can quickly attach your favorite peripherals such as hard drives, CD/DVD drives, scanners, printers, etc. and use them instantly.

Connect FireWire Devices

The LaCie FireWire 800 ExpressCard 34 can run at 800Mbps/s or 400Mbps/s because it's also FireWire 400 (IEEE 1394a) backward compatible. In addition, it can support 200Mbps/s and 100Mbps/s devices. Based on the IEEE 1394b chipset from Texas Instruments, it's a versatile FireWire solution that's i.LINK compatible and OHCI compliant. It even comes with an external 12VDC jack for high current consumption devices (12V power supply not included).

Simple and Mobile

Installation is extremely easy; there's no need to install any driver software because the LaCie FireWire 800 ExpressCard 34 is driver-free for computers running on Windows® XP, Vista®, or 7 or Mac OS X 10.5 or higher. It's small and lightweight for easy transporting and provides a communication distance of up to 100 meters. Whether you and your laptop are at home, at work or on the road, just plug it into an ExpressCard 34 or 54 slot and enjoy making new connections.

Multiple Uses

This "all-in-one" FireWire host solution is the ideal combination of wide compatibility and speedy performance. Whether you want to back up data from your laptop to your external LaCie hard disk, capture video from your camcorder, or download photos from your camera, the LaCie FireWire 800 ExpressCard 34 is the right choice for making all of it possible.

- Add two FireWire 800 ports to your laptop
- Connect high-speed devices like hard drives and camcorders
- Compatible with Apple® MacBook® Pro
- Plug & play, hot-pluggable

FireWire 800 ExpressCard 34

Features

- Fast interface transfer rate up to 800Mbps/s
- Hot-plug/unplug hardware
- ExpressCard 34 and 54 slot compatible
- FireWire 400 compatible
- Plug & play
- External 12VDC jack for high current consumption devices

Box Content

- LaCie FireWire 800 ExpressCard 34
- Utilities CD-ROM including Quick Install Guide,
- User Manual, and optional drivers for Windows

Minimum System Requirements

- PC or Mac laptop with a ExpressCard 34 or 54 slot
- Latest version of Windows XP, Windows Vista, Windows 7 / Mac OS X 10.5, 10.6

Item Number	130787
Interface	2 FireWire 800 ports
Max Interface Transfer Rates	up to 800Mbps/s
Hardware Compatibility	ExpressCard 34 and 54 Type II standard 1-Lane (x1) PCI-Express with up to 2.5Gbits/s throughput 1394 OpenHCI specification v1.2 Provisions of IEEE P1394b Revision 1.33+ FireWire 400, i.LINK™ and SB1394™ implementation of IEEE 1394 standard
Dimensions (WxDxH)	34 x 112 x 21 mm / 1.3 x 4.4 x .8 in.
Weight	33 g / 1.1 oz.
Warranty	1-year limited

* This card is not compatible with PCMCIA and PC Card slots.
