

Light is state-of-the-art

OEM LED Program 2015

OSRAM brings together outstanding future-proof LED lamps, modules, drivers and controls for professional lighting partners.

Light is **OSRAM**

Light is OSRAM

Light is state-of-the-art
OEM LED Program 2015
OSRAM brings together outstanding future-proof LED lamps, modules, drivers and controls for professional lighting partners.

Light is state-of-the-art

• **world lighting giant #2**

OSRAM

among global companies
in the lighting market

• **365 days innovation generation**

luminaires + solutions

professional, private, projects and services

• **worldwide revenue**

€ 5,288.7 million

with net income of €33.6 million and revenue
growth 11.4% in SSL technologies

• **award-winning symbiosis
of form and function**

SITECO

designer luminaires for professional,
private, projects and services solutions

• **remarkable technology
breakthrough**

OLED

cutting edge flexible light source
with endless possibilities

• **over 5,000 installations
worldwide**

TRAXON & e:cue

dynamic lighting solutions and
controls for professional projects

• **over 100 years of experience with light**

General Illumination

promoting sense of well-being and productivity
by capitalising on the right light source

• **more than 8,000 LED patents**

lamps + components

retrofit, ballasts, LED modules, drivers, controls

Equity Growth

11.3%

€ 2,169.3 million as of
September 30, 2013

• **radiates in perfect harmony**

Arts

photometric measurement technology
and custom luminaire construction

• **50% to 75% energy savings**

ENCELIUM

lighting control and energy
management systems

• **lights alleviates pain**

Medical

biologically effective light therapy
program for medical centers

• **world #1 supplier of automotive
lamps for vehicles**

Specialty Lighting

automotive lighting and display optic solutions in
projection, medical, airfield, microlithography

• **most trusted performance
and design car lamps**

Automotive

optimized luminous efficacy and visual
design in motion with light

• **a pioneer of lighting technologies**

Opto Semiconductors

future-proof components for general lighting,
automotive, industrial, consumer electronics,
medical applications

OSRAM is your perfect partner for light

As the integrated lighting expert and premium provider, OSRAM plays a leading role in the lighting market. With state-of-the-art technology, best brand quality, appealing prices and professional sales support, we are your perfect partner in the lighting business, both now and in the future.

A focus on light

The OSRAM brand has been standing for innovative and sustainable light for more than 100 years. Today we are the only globally active pure lighting group and one of the world's leading light manufacturers. We cover the complete value-added chain with our portfolio, ranging from LED chips, modules, components, lamps, luminaires and light management systems to comprehensive, customer-specific lighting solutions and complex project business.

Conforming with standards

Global "lighting regulations" and especially European ones have become more stringent, and target the widespread use of energy-efficient light sources. All OSRAM products already meet all legal standards and regulations in the respective countries from the start.

Highly effective support

OSRAM not only knows the best way to produce ideal light – we are also experts on how to market it professionally. You can always depend on our support.

OSRAM is designing the future of light.

The global lighting market is currently undergoing fundamental changes. Regulatory changes are accelerating the introduction and development of semi-conductor-based products (SSL), while the demand for traditional products is declining. At the same time, falling prices for LED components and products, particularly in the field of general illumination, have increased the attraction of more widespread use in many market segments. Technological changes also offer major opportunities for growth and new solutions for our customers.

Our innovative, tailor-made solutions for the entire spectrum of lighting create added value for our customers all around the world. As the only globally-active, pure lighting group with a strong brand, we are the leading player on the market and set standards in our industry.

Our product range includes vertically integrated products and solutions along the entire chain of added lighting value, from light sources including lamps, components and optical semiconductors, through control gear, complete luminaires, light management systems and lighting solutions. OSRAM is THE integrated lighting expert.

In keeping with the slogan “Light is OSRAM,” the OSRAM brand supports customers by providing lighting solutions for all areas of life such as in the home, at educational and professional facilities, and in all facets of public spaces. In addition to being energy efficient, OSRAM products and solutions also provide positive biological effects such as the ability to concentrate and a sense of well-being — improving quality of life through quality of light.

Light with latest LED technology for you

LED Light Engines

10

With defined parameters and perfectly matched components, PrevaLED® light engines enable manufacturers to design highly efficient, future-proof LED luminaires.

LED Modules

28

Long-life LED modules from OSRAM impress with their high efficiencies and offer a modern alternative to traditional lighting. Thanks to their versatility, they allow great flexibility in terms of creating innovative lighting solutions.

Electronic Control Gear

48

Our electronic control gear, together with LED modules and accessories, form an efficient unit that gives creative lighting design a fresh boost.

LED Lamps

64

They are highly efficient and achieve enormous light output from small dimensions. High-performance LED lamps from OSRAM provide an entry into the exciting world of LED technology.

Light Management Systems 70

Meeting individual lighting demands and saving energy at the same time is easy with light management systems from OSRAM – our solutions for efficient LED lighting projects.

Lighting solutions for today with excellent efficiency

LED technology from OSRAM provides perfect illumination for all areas of application

LED Modules

LED modules can be used in the most varied areas of application, from general lighting through decorative and architectural lighting, right up to illuminated advertising. Both design and technical development can vary greatly, in order to meet the most varied requirements with LED technology.

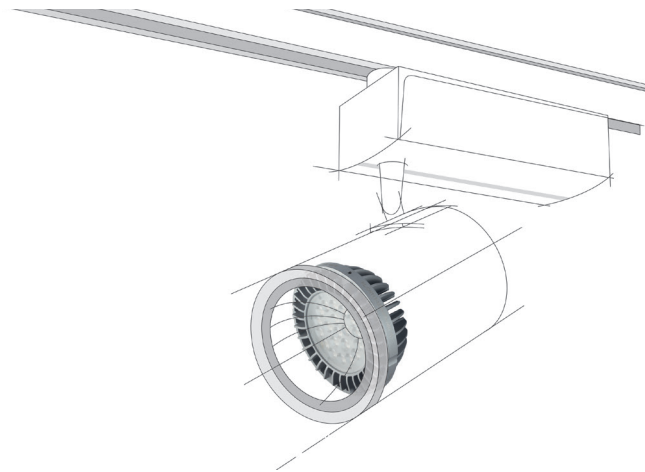

Electronic control gear (OPTOTRONIC®)

The lead in technology provides guaranteed future. The OSRAM OPTOTRONIC control gear family consists of highly innovative products for controlling LED modules. It supports the departure towards an energy-efficient future.

LED Light Engines

Thanks to fixed interfaces, LED light engines from OSRAM are the ideal platform for future-proof developments in LED luminaires. Read what is special about these modules, how they are called and why they are best suited to design-in in LED luminaires.

Background information: Standardization of LED light engines

The Zhaga consortium is an industry-wide cooperation of luminaire manufacturers, lamp manufacturers, producers of LED modules and suppliers in the lighting industry. The Zhaga consortium aims to standardize LED light sources (LED light engine = LED module + cable + control gear).

The interchangeability of LED light engines is achieved by defining interfaces for a variety of application-specific light engines while providing room for improvement in LED and

driver technology. The Zhaga standards cover the physical dimensions, as well as the photometric, electrical and thermal specifications of various LED light engines.

The Zhaga consortium was established in February 2010 and currently includes more than 170 companies worldwide. OSRAM AG is a full member. Members meet regularly in different regions of the world. Large parts of the new PrevaLED® Core portfolio meet the Zhaga specification book 3 for “spot light source systems with separate electronic control gear”.

Innovative LED technology from OSRAM provides major benefits for luminaire manufacturers, lighting designers and end users alike.

Due to their outstanding energy efficiency, high light quality and numerous application possibilities, LEDs are today's most flexible sources of light. Their ruggedness, along with their extremely long service life, ensures low maintenance requirements and long replacement intervals, and thus leads to lower total cost of ownership over time.

LED products from OSRAM can be installed and used almost anywhere. They provide perfect illumination in domestic, industrial or office environments. They create a pleasant ambience in restaurants, hotels, shops and other public places. Outdoors, they can be used to highlight architectural details, such as facades, towers or entire buildings, to name just a few.

As the highly competent and experienced manufacturer, OSRAM offers a broad range of LED products – from LED lamps, modules, light engines, drivers and controllers to entire luminaires. Even customised LED modules can be produced in order to meet individual requirements. And thanks to perfectly matched components, everything can be easily combined, creating highly efficient, easy to use LED system solutions.

LED Light Engines

Thanks to fixed interfaces, LED light engines from OSRAM are the ideal platform for future-proof developments in LED luminaires. Learn about the features and benefits of these modules, and why they are best suited to design-in LED luminaires.

Product features

- Module for Spot & Downlights with external Driver
- Complete portfolio
 - 2000lm - 3000lm - 5000lm
 - 2700K - 3000K - 3500K - 4000K
 - CRI >80- CRI >90
- Dimension: Ø 50 x 7mm

Product benefits

- Easy design-in
 - Compatible with all Zhaga Book 3 accessories
 - 1 Reflector: 3 x LES19 for 2000lm, 3000lm and 5000lm
 - Poke-ins for stranded and solid wires
- Small heat sink
 - Efficacy: up to 130lm/W (Module, typ)
 - Tc max: 90°C
- System approach
 - System match & warranty
 - With On/off and intelligent OPTOTRONIC® ECG ranges
- Thermal protection
 - Reversible shutdown build in on module
 - Thermal derating (and auto calibration) with OTi

Areas of application

- Shop (track spots, cardan lights, recessed spot)
- Office (corridor, meeting room)
- Hospitality (lobby, corridor, room, restaurant)

**make to order

Product features

- LED light engine with integrated driver
- Light emitting surface, diameter, mounting holes positioning according to Zhaga Book 3
- Poke-in wire connection (no special connector required)
- Available with luminous flux: 800lm, 2000lm
- System efficacy: up to 82lm/W
- Color temperature: 2700K, 3000K or 4000K
- Color rendering index Ra: typ. 83
- Maximum housing temperature: 80°C at t_c point
- Initial color consistency: ≤3 SDCM
- Power factor: >0.95

Product benefits

- Connect directly to 220-240V AC mains voltage for class 1 luminaires
- No external driver required
- Enabling low cost and compact luminaire designs
- Simplified logistics as no external driver or special cables are required
- Enhanced safety thanks to protective cover glass and reversible thermal shutdown
- Easy to integrate thanks to compatibility with Zhaga book 3 heat sink and reflector
- Reduced luminaire cost thanks to cheaper light engine and less housing material
- Uniform Chip-On-Board technology with great homogeneity, no diffuser required

Areas of application

- Spotlighting in shops
- Down light and wall lighting in offices, corridors, meeting rooms, workplaces
- Decorative and functional lighting in the hospitality industry

PrevaLED® Core AC PRO

Product features

- Module for Spot & Downlights with integrated Driver
- Focus portfolio
 - 2000lm - 3000lm
 - 3000K - 4000K
 - CRI >80
- On/off only
- Smoothing for
 - System efficacy up to 103lm/W
 - 'Flicker free' <40% modulation
- Dimension: Ø 68 x 80mm

Product benefits

- Easy design-in
 - Compatible with all Zhaga Book 3 accessories
 - 1 Reflector: LES19
 - Poke-ins for stranded and solid wires
 - Optional holder for easy attachment of optical elements
- "BOM-saver"
 - Omission of 'gearbox', cables and cover glass
 - Cost saver on assembly
 - Small and passive cooling thanks to high efficacy
 - Reversible shutdown
- Simplified logistics

Areas of application

- Shoplighting in retail stores
- Down light and wall light in offices, corridors, meeting rooms, workplaces
- Decorative and functional lighting in the hospitality industry
- Applicable for class 1 luminaires

Product features

- Consistent white light: ≤3 SDCM
- Temperature at t_p point (according to IEC/PAS 62717): 70°C
- Diameter of light emitting surface: 61mm
- Light management and system guarantee available when used with OSRAM OPTOTRONIC®
- Lifetime (L70 B50): 50,000h (temperature at t_c point <80°C) acc. to IEC/PAS 62717
- Lifetime (L0 C10): 50,000h (temperature at t_c point <80°C) according to IEC/PAS 62717
- Common mechanic and optical connection for standard heat sinks and reflectors

Product benefits

- Low height for compact luminaire designs
- Near Lambertian light distribution at 110° beam angle for high quality of light
- Robust design for easy thermal management and long lifetime

Areas of application

- Suitable for diffuser and reflector luminaires
- Hospitality, hotels, restaurants
- Public and commercial buildings
- Offices
- Secondary rooms, garages, storerooms, cellars

Product features

- Mains voltage driven LED engine
- Integrated control gear
- Diameter of light emitting surface: 61mm
- Common mechanic and photometric interfaces
- Initial color consistency: ≤3 SDCM
- Lifetime (L70 B50): 50,000h (temperature at t_c point <80°C) acc. to IEC/PAS 62717
- Temperature at t_p point (according to IEC/PAS 62717): 70°

Product benefits

- Enabling low cost and compact luminaire designs
- Low profile
- Future-proof dimensions for reliable designs
- Near Lambertian light distribution at 110° beam angle for high quality of light
- Safety through thermal shutdown

Areas of application

- Suitable for diffuser and reflector luminaires
- Hospitality, hotels, restaurants
- Public and commercial buildings
- Offices
- Secondary rooms, garages, storerooms, cellars

Product features

- LED engine available with 24° or 40° beam angle
- Versions with color rendering index Ra 90 available
- Integrated heat sink and lens optics
- Dimmable (with many common dimmers)
- Fits into standard MR16 fixtures

Product benefits

- Improved fixing compared to previous version COINlight Pro
- Easy and quick design-in

Areas of application

- LED replacement for halogen and HCl reflector lamps
- Hospitality
- Shop lighting
- Museums, galleries
- Offices

PrevaLED® Coin 50 AC

Product features

- Integrated driver, heat sink and lens optics
- Fits in most existing MR16 traditional luminaires
- Narrow beam angles, 24°, 40° or 60°
- IP44 - Suitable for semi-outdoor applications
- Flexibility through 2 lumen packages and 2 CCTs

Product benefits

- Easy & fast design-in for luminaire manufacturers
- Turn-key solution for projects

Areas of application

- Chain stores, Retail shops
- Shopping malls
- Exhibition halls
- Museums
- Toilets, Kitchens, SPA

Product features

- LED engine available with 24° or 40° beam angle
- Versions with color rendering index Ra 90 available
- Integrated heat sink and lens optics
- Dimmable (with many common dimmers)

Product benefits

- Improved fixing compared to previous version COINlight AR111
- Easy and quick design-in

Areas of application

- LED replacement for halogen and HCl reflector lamps
- Hospitality
- Shop lighting
- Museums, galleries
- Offices

Product features

- Integrated driver, heat sink and lens optics
- Fits in most existing R111 traditional luminaires
- Narrow beam angles, 24° or 40°
- LED replacement up to HID 35W
- Flexibility through 2 lumen packages and 2 CCTs

Product benefits

- Easy & fast design-in for luminaire manufacturers
- Turn-key solution for projects

Areas of application

- Chain stores, Retail shops
- Shopping malls
- Exhibition halls
- Museums

PrevaLED® FLAT AC

Product features

- Rated luminous flux: typ. 1500lm, 2300lm and 2500lm
- Light colors: 3000K, 4000K
- Color rendering index: typ. 83
- System efficacy: typ 120lm/W at 4000K
- Diameters: 170 and 240mm
- Operation with mains voltage: 220 – 240V AC; 50/60Hz
- Power factor > 0.9
- Modulation of 100Hz with 40% depth
- L70B50 @ 50,000 hours at $t_p=75^{\circ}\text{C}$ (see IEC/PAS 62717)
- L0C10 @ 50,000 hours at $t_p=75^{\circ}\text{C}$ (see IEC/PAS 62717)
- Specialised touch safe accessory (PL-FLTP 170 and PL-FLTP 240) to cover line-voltage carrying parts and enable easy and safe installation in existing luminaires.
- Separate LED-circuit for operation on local-battery emergency units (for L-EM version)

Product benefits

- High performing low cost LED-engine for diffuse wall- / ceiling-mounted luminaires
- Power on-board through integrated driver electronics
- Low height luminaires with high uniformity realisable
- Two Flat AC diameters for multiple luminaire diameters
- High system efficacy for simple thermal management
- Safety through thermal shutdown
- Touch protect accessory available for safe installation in existing luminaires (sold separately)

Areas of application

- Corridors, stairways, entrances
- Hotels and restaurants
- Public, commercial and office buildings
- Garages and storage rooms

Product features

- Poke-in wire connection for 0.5mm² wire
- VDE-certified safety
- Initial high color consistency: 4 SDCM
- Geometry according to Zhaga specification
- CE marked and UL listed
- High module efficacy: up to 130lm/W
- Lifetime (L70 B50): 50,000h

Product benefits

- SELV module for easy luminaire design
- Modules can be easily joined together to make seamless strip lighting
- Slim module (comparable to a fluorescent T8 tube)
- Quick and simple installation
- Energy saving compared to T5 or T8 fluorescent lamps
- Simple system construction
- Self-cooling, no additional heat sink required
- Homogeneous illumination without shadows

Areas of application

- Retail outlets
- Car parks
- Warehouses
- Outdoor applications only in suitable luminaires

Product features

- Suitable T8, T5 HE/HO replacement and with extra brightness mode
- Poke-in wire connection for 0.5mm² wire
- Initial high color consistency: 4 SDCM
- Geometry according to Zhaga book 7 specification
- CE marked
- High module efficacy: up to 162lm/W
- Lifetime (L70 B50): 50,000h

Product benefits

- Non-SELV module for cost competitiveness reliable system
- Modules can be easily joined together to make seamless strip lighting
- Slim module (comparable to a fluorescent T8 tube)
- Quick and simple installation
- Energy saving compared to T5 or T8 fluorescent lamps
- Simple system construction
- Self-cooling, no additional heat sink required
- Homogeneous illumination without shadows

Areas of application

- Office
- Retail outlets
- Car parks
- Warehouses
- Hospitality
- Outdoor applications only in suitable luminaires

Product features

- High module efficacy: up to 135lm/W
- High initial color consistency: 4 SDCM
- Poke-in wire connection for 0.5mm² wire
- Self-cooling
- SELV system
- VDE-certified safety
- CE marked and UL listed
- Lifetime (L70 B50): 50,000h

Product benefits

- Homogenous light
- 5 years system guarantee

Areas of application

- Offices
- Interior lighting

Product features

- High optical efficiency and high performance light distribution fulfill various applications such as low-bay, path and flood lighting
- IP66 protection
- Constant current driven maximizing system efficiency
- Simple screw fixing module allowing multiple module configuration in luminaires
- Optimized for extended lifetime and lumen maintenance

Areas of application

- Low-bay flood lighting, path lighting
- Street lighting for roads

This page has been intentionally left blank.

LED Modules

LED modules can be used in a wide range of applications, from simple, general lighting through to dynamic architectural lighting, including illumination for advertising. The design and technology can be modified in order to meet the most varied requirements with LED technology.

Product features

- Flexible and cuttable LED strip
- Luminous flux: up to 1850lm/m
- Module efficacy: up to 82lm/W
- Dimmable
- Fine White (3 SDCM)

Product benefits

- High luminous flux
- Great design freedom with flexibility and cuttability of module
- Simple mounting and connection
- Toolless connection with the optional CONNECTsystem
- Easy mounting on smooth surfaces with self-adhesive tape

Areas of application

- Cove lighting
- Advertising and lettering

LINEARlight Flex® ShortPitch

Product reference	Product number	Voltage [V]	Power [W]	Nominal wattage per meter [W]	Color temp. [K]	Light color	Luminous flux per meter [lm]	Luminous flux [lm]	Beam Angle [°]	Number of LEDs per meter	Standard pack in PCS.	Fig. no.

Product features

- Flexible LED strip
- Luminous flux: up to 850lm/m
- Module efficacy: up to 88lm/W

Product benefits

- Very small LED spacing
- Great design freedom with flexibility and cuttability of module
- Simple mounting and connection
- Toolless connection with the optional CONNECTsystem
- Easy mounting on many smooth surfaces with self-adhesive tape

Areas of application

- Edge coupling, small coving, pathways
- Contour accent lighting, advertising and billboard illumination

LF05A2-R3	4052899924086	24	83	8.3	-	red	110	1100	120	50	8	2

Product features

- Flexible and cuttable LED strip
- Luminous flux: up to 425lm/m
- Module efficacy: up to 88lm/W
- Dimmable
- Fine White (3 SDCM)

Product benefits

- Very long for seamless bands of light
- Large selection of light colors
- Great design freedom with flexibility and cuttability of module
- Simple mounting and connection
- Toolless connection with the optional CONNECTsystem
- Easy mounting on many smooth surfaces with self-adhesive tape

Areas of application

- Cove lighting
- Advertising and lettering

LINEARlight Colormix Flex

Product reference	Product number	Voltage [V]	Power [W]	Nominal wattage per meter [W]	Light color	Power factor [λ]	Luminous flux per meter [lm]	Luminous flux [lm]	Beam Angle [°]	Number of LEDs per meter	Standard pack in PCS.	Fig. no.
LF05CA2-RGB3	4008321851536	24	72	18	RGB	625 / 525 / 465	470	1880	120	50	8	1

Product features

- Flexible and splittable LED strip with inline multichip RGB LEDs

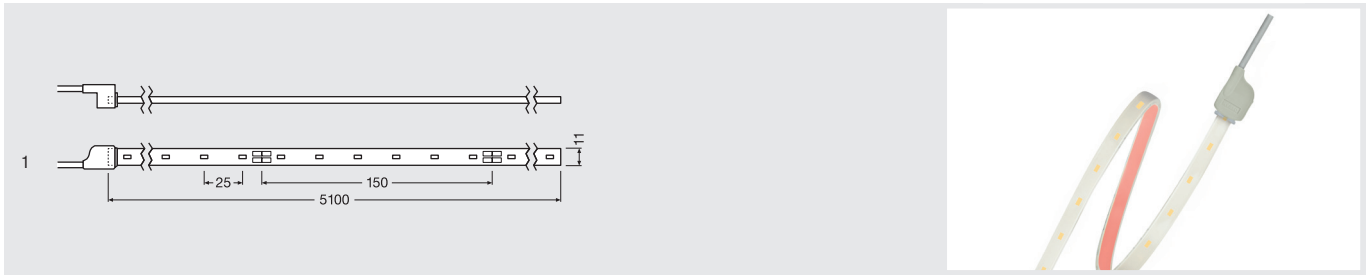

Product benefits

- Uniform color changing
- Great design freedom with flexibility and cuttability of module
- Simple mounting and connection
- Toolless connection with the optional CONNECTsystem
- Easy mounting on many smooth surfaces thanks to self-adhesive tape at the back

Areas of application

- Effect lighting in architecture
- Injection of light into displays and low-profile light guides
- Dynamic effects in public zones

LINEARlight POWER Flex Protect

Product reference	Product number	Voltage [V]	Power [W]	Nominal wattage per meter [W]	Light color	Luminous flux per meter [lm]	Luminous flux [lm]	Beam Angle [°]	Number of LEDs per meter	Standard pack in PCS.	Fig. no.

LF06P2-W4F-876-P	4008321789969	24	88	17.3	white	1400	7140	120	40	8	1

Product features

- Flexible and cuttable LED strip
- Luminous flux: up to 1400lm/m
- Type of protection: IP67
- Dimmable
- Fine White (3.5 SDCM)
- Salt mist proof
- Highly UV-resistant

Product benefits

- High luminous flux
- Great design freedom with flexibility and cuttability of module
- High-performance silicon for extremely long life and flexibility
- Simple connection with premounted connectors
- Extraordinary design and high quality materials
- Toolless connection with the optional CONNECTsystem
- Easy mounting on many smooth surfaces with self-adhesive tape

Areas of application

- Facade accent lighting, ceiling integration, wall integration, cove lighting, machine lighting, path lighting
- Suitable for outdoor use

- Type of protection: IP66
- Self-cooling
- Luminous flux: up to 290lm/m
- Low profile: 4mm
- High color consistency: 4 SDCM
- Multi-cutable LED strip
- Matches with SLIMCONNECTsystem FLEX IP54
- Type of protection: IP54 (when connected with SLIMCONNECTsystem FLEX IP54)
- Protection against water according to IP66

Product benefits

- Easy mounting on many smooth surfaces with self-adhesive tape
- Lighter, slimmer and brighter compared to predecessor due to its lower profile

Areas of application

- Wet or damp areas
- Path lighting
- Architecture lighting
- Wall integration

BoxLED® XS Plus G15

Product reference	Product number	Voltage [V]	Wattage of chain [W]	Module wattage [W]	Color temp. [K]	Light color	Luminous flux of chain	Luminous flux of module	Beam Angle [°]	Standard pack in PCS.	Fig. no.

Product features

- Chain of 32 LED modules
- Connected with flexible cables
- Type of protection (modules): IP66
- Special robust encapsulation

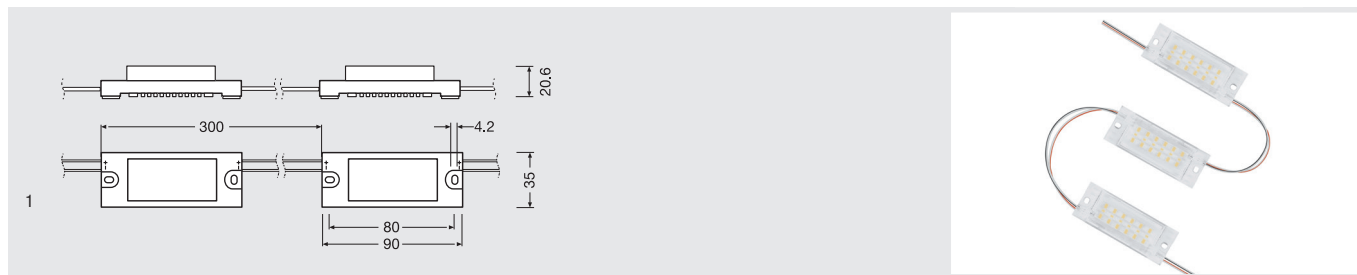

Product benefits

- Elliptical Optics (close beam angle to receive perfect light reflection inside a light box)
- PCB and LEDs are protected inside a complete over-molded housing
- Mounting profile for faster installation available
- Very long lifetime

Areas of application

- Signage and illuminated advertising
- Backlighting in single and double-sided light boxes (side lighting)
- Permanent outdoor use in enclosed light boxes

BoxLED® Side Plus

Product reference	Product number	Voltage [V]	Wattage of chain [W]	Module wattage [W]	Color temp. [K]	Light color	Luminous flux of chain	Luminous flux of module	Beam Angle [°]	Standard pack in PCS.	Fig. no.

Product features

- Chain of 32 linear LED modules
- Connected with flexible cables
- Maximum length of one chain: 9.60m
- Type of protection (modules): IP66
- Special robust encapsulation
- Fully integrated heat sink

Product benefits

- Modules are compatible with the BoxLED® mounting profile
- Uniform illumination with optimized elliptical lenses
- Several options for quick and simple mounting: bolting or snap-in
- Excellent module efficacy
- Very long lifetime

Areas of application

- Signage and illuminated advertising
- Backlighting in single and double-sided light boxes (side lighting)
- Permanent outdoor use in enclosed light boxes

BoxLED® L Plus G15

Product features

- Chain of 32 linear LED modules
- Connected with flexible cables
- Maximum length of one chain: 12.80m
- Type of protection (modules): IP66
- Special robust encapsulation
- Fully integrated heat sink

Product benefits

- Modules are compatible with the BoxLED® mounting profile
- Uniform illumination at high LED pitches thanks to Flat Ray technology
- Several options for quick and simple mounting: bolting or snap-in
- Excellent module efficacy
- Very long lifetime

Areas of application

- Signage and illuminated advertising
- Backlighting in single and double-sided light boxes (backlighting)
- Permanent outdoor use in enclosed light boxes

BoxLED® Back DS Plus G15

Product reference	Product number	Voltage [V]	Wattage of chain [W]	Module wattage [W]	Color temp. [K]	Light color	Luminous flux of chain	Luminous flux of module	Beam Angle [°]	Standard pack in PCS.	Fig. no.
BX-DS-PL 865 G15	4052899232419	24	99.2	6.2	6500	cool white	9760	310	155	5	1

Product features

- Chain of 16 linear LED modules
- Connected with flexible cables
- Maximum length of one chain: 6.40m
- Type of protection (modules): IP66
- Special robust encapsulation
- Fully integrated heat sink

Product benefits

- Modules compatible with the BoxLED® DS mounting profile
- Uniform illumination at high LED pitches with Flat Ray technology
- Quick, simple and tool-free snap-in fixing of LED modules to mounting profiles
- Excellent module efficacy
- Very long lifetime

Areas of application

- Signage and illuminated advertising
- Backlighting in double-sided light boxes and pylons
- Permanent outdoor use in enclosed light boxes

BackLED Mini Plus

Product benefits

- Flexible reel comprising two chains each having 90 LED modules
- Specially designed optics provide uniform backlighting
- Best-in-class application efficiency

Areas of application

- Signage and illuminated advertising
- Backlighting in small and flat channel letters

BackLED M Plus

Product benefits

- Flexible chain comprising 40 LED modules
- Specially designed optics provide uniform backlighting
- Best-in-class application efficiency

Areas of application

- Signage and illuminated advertising
- Backlighting in standard size channel letters
- Backlighting in flat light box

BackLED S Plus

Product benefits

- Flexible chain comprising 90 LED modules
- Specially designed optics provide uniform backlighting
- Best-in-class application efficiency

Areas of application

- Signage and illuminated advertising
- Backlighting in small and flat channel letters

BackLED L Plus G15

Product benefits

- Flexible chain comprising 32 LED modules
- Specially designed optics provide uniform backlighting
- Best-in-class application efficiency

Areas of application

- Signage and illuminated advertising
- Backlighting in large channel letters
- Backlighting in large light box

BackLED XS Basic G15

Product reference	Product number	Voltage [V]	Wattage of chain [W]	Module wattage [W]	Color temp. [K]	Light color	Luminous flux of chain	Luminous flux of module	Beam Angle [°]	Standard pack in PCS.	Fig. no.
BA-XS-BC 865 G15	4052899226241	12	12	0.24	6500	cool white	1050	21	120	5	1

Product features

- Chain of 50 LED modules
- Connected with flexible cables
- Type of protection (modules): IP66
- Special robust encapsulation

Product benefits

- Modules are compatible with BackLED mounting profile
- Several options for quick and simple mounting: bolting or snap-in
- Excellent module efficacy
- Long lifetime

Areas of application

- Signage and illuminated advertising
- Backlighting of small size channel letters
- Backlighting of small single-sided light boxes
- Permanent outdoor use in enclosed light boxes or channel letters

BackLED M Basic G15

Product reference	Product number	Voltage [V]	Wattage of chain [W]	Module wattage [W]	Color temp. [K]	Light color	Luminous flux of chain	Luminous flux of module	Beam Angle [°]	Standard pack in PCS.	Fig. no.
BA-M-BC 865 G15	4052899231979	12	30	0.78	6500	cool white	3078	81	120	5	1

Product features

- Chain of 38 LED modules
- Connected with flexible cables
- Maximum length of one chain: 8.0m
- Protection class of LED module: IP66
- Special robust encapsulation
- Fully integrated heat sink

Product benefits

- Modules are compatible with BackLED mounting profile
- Several options for quick and simple mounting: bolting or snap-in
- Excellent module efficacy
- Long lifetime

Areas of application

- Signage and illuminated advertising
- Backlighting in medium to large size channel letters
- Backlighting in single and double-sided light boxes
- Permanent outdoor use in enclosed light boxes or channel letters

BackLED L Basic G15

Product reference	Product number	Voltage [V]	Wattage of chain [W]	Module wattage [W]	Color temp. [K]	Light color	Luminous flux of chain	Luminous flux of module	Beam Angle [°]	Standard pack in PCS.	Fig. no.

Product features

- Chain of 40 LED modules
- Connected with flexible cables
- Maximum length of one chain: 9.0m
- Protection class of LED module: IP66
- Special robust encapsulation
- Fully integrated heat sink

Product benefits

- Modules are compatible with BackLED mounting profile
- Several options for quick and simple mounting: bolting or snap-in
- Excellent module efficacy
- Long lifetime

Areas of application

- Signage and illuminated advertising
- Backlighting in large and/or deep channel letters
- Backlighting in single and double-sided light boxes
- Permanent outdoor use in enclosed light boxes or channel letters

BackLED S Indoor

Product reference	Product number	Voltage [V]	Wattage of chain [W]	Module wattage [W]	Color temp. [K]	Light color	Luminous flux of chain	Luminous flux of module	Beam Angle [°]	Standard pack in PCS.	Fig. no.
BI01SA-W4F-765	4008321868527	12	28.8	0.24	6500	white	25	3000	120	8	1
BI01SA-R2	4008321868602	12	28.8	0.24	-	red	6.4	768	120	8	1

Product features

- LED reel comprising 120 LED modules connected by flexible cables
- The maximum length of the entire reel is 2 x 4.8 = 9.60m
- The maximum LED pitch is 80mm
- One LED per module
- Minimum operating unit after cutting the chain is three modules
- Mounting holes (Ø 3mm) and pre-mounted adhesive tape allow for easy mounting
- Optimal operation on OPTOTRONIC® 12V power supplies
- Parallel connection up to two LED chains with power feed in the centre of one OT 30W
- Only parallel connection allowed
- Conformal coating protects against condensation

Product benefits

- One reel comes with two chains each comprising 60 LED modules
- Easy and fast installation
- Suitable for any shape of channel letter
- Outstanding uniformity

Areas of application

- Signage and illuminated advertising
- Backlighting in indoor small size channel letters
- Backlighting in indoor light box

BackLED M Indoor

Product reference	Product number	Voltage [V]	No. of LEDs per reel	Module wattage [W]	Color temp. [K]	Light color	Luminous flux of chain	Luminous flux of module	Beam Angle [°]	Standard pack in PCS.	Fig. no.
BI03MA-W4F-765	4052899157323	12	40	0.72	6500	white	-	-	120	8	1

Product features

- LED reel comprising 80 LED modules connected by flexible cables
- The maximum length of the chain is 6.00m
- The maximum LED pitch is 150mm
- Three LED per module
- Minimum operating unit after cutting the chain is one module
- Optimal operation on OPTOTRONIC® 12V power supplies
- Mounting hole (Ø 3mm) allows easy installation with screws
- Parallel connection up to two LED chains with power feed in the centre of one OT 60W
- Conformal coating protects against condensation

Product benefits

- One reel comes with two chains each comprising 40 LED modules
- Easy and fast installation

Areas of application

- Signage and illuminated advertising
- Backlighting in indoor medium size channel letters
- Backlighting in indoor light box

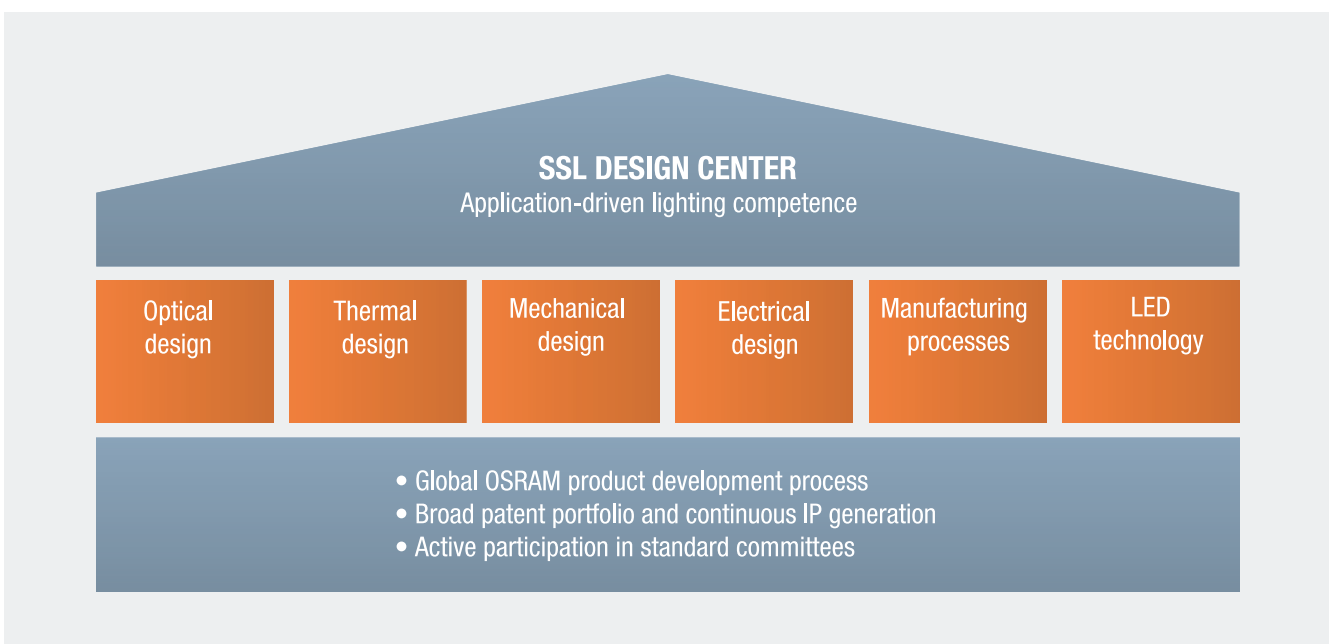

As flexible as your requirements – customised LED modules

The design of efficient lighting solutions often calls for customised components in order to meet individual requirements. In special applications, the best efficiency and performance combined with low cost of ownership and low maintenance requirements can only be achieved by a system specifically developed for this purpose. In terms of efficiency, light quality and flexibility, OSRAM is able to adapt its standard LED modules to suit your needs. Based on continuous product development and our broad portfolio of patents, our experts use a wide range of state-of-the-art technologies to ensure reliable, high-performance and future-proof lighting systems which fulfill your individual objectives.

In order to reply quickly to market needs, OSRAM provides:

- Customised module adapted to your requirement in SSL business
- World-class LED technologies from LED chip to complete system solution
- Design and manufacturing excellence – proven by extensive standard portfolio
- Application support
- Global sites of manufacturing and global sales offices
- Patent protection
- One face to the customer – dedicated contact to follow your projects and ideas

Electronic Control Gear

LEDs herald the start of an energy-efficient and flexible future. However, the numerous benefits of LEDs can only be achieved in a perfectly matched system. The solution: OSRAM's ECG. With an exceptionally wide range of products, OSRAM's ECG supports the goal to an energy efficient future.

Product features

- Supply voltage: 220-240V
- Line frequency: 0Hz / 50Hz / 60Hz
- Line voltage: 198-264V
- Safety according to IEC 61347-1, 61347-2-3, 61347-2-13
- Performance: IEC 62384
- RI suppression according to CISPR15
- Line harmonics according to IEC 61000-3-2
- Immunity according to IEC 61547
- Lifetime: up to 100,000h (temperature at $t_c = 65^\circ\text{C}$, max. 10% failure rate)

Product benefits

- Versatile DALI window driver up to 90W due to flexible output characteristic
- Very high efficiency and reliability
- Protection of the system thanks to thermal management and Smart Control

Versatile scope of features due to DALI (GII) Ideology

- Easy to use in corridors and restrooms because of three-level corridor function
- Touch DIM® application: easy to control via pushbutton or sensor
- Energy efficient Touch DIM® operation due to automatic switch-off at sufficient residual light
- Suitable for emergency installations with DC detection (0Hz, pulsating DC), on/off switchable
- Feedback of power consumption and operating hours (Fit for SMART GRID)
- Suitable for buildings according to EPBD/BREEAM/LEED due to automatic constant lumen output setting

Areas of application

- Installation in emergency lighting systems according to IEC 61347-2-3, appendix J
- Suitable for use in luminaires with flexible current setting (DALI, CLO, LEDset)
- Suitable for indoor SELV and non-SELV installations
- Suitable for luminaires of protection class I

- Immunity according to IEC 61547
- Lifetime: up to 100,000h (temperature at $t_c = 65^\circ\text{C}$, max. 10% failure rate)

Product benefits

- Versatile scope of application due to output power range of up to 80W
- Safety requirement due to overload, overtemperature, Hot Plug protection
- High efficiency and reliability
- Higher quality of light thanks to low output current ripple

Areas of application

- Installation in emergency lighting systems according to IEC 61347-2-3, appendix J (DC capable)
- Suitable for use in luminaires with flexible current setting (Tri-Tap)
- Suitable for indoor SELV equivalent installations
- Suitable for luminaires of protection class I

Product features

- Supply voltage: 220-240V
- Line frequency: 0Hz / 50Hz / 60Hz
- Line voltage: 198-264V
- Safety according to IEC 61347-1, 61347-2-13
- Performance: IEC 62384
- RI suppression according to CISPR15
- Line harmonics according to IEC 61000-3-2
- Immunity according to IEC 61547
- Lifetime: up to 100,000h (temperature at $t_c = 65^\circ\text{C}$, max. 10% failure rate)
- LED protection by Hot Plug

Product benefits

- Versatile DALI window driver up to 55W due to flexible output characteristic
- Very high efficiency and reliability
- Protection of the system thanks to thermal management and Smart Control

Versatile scope of features due to DALI (GII) Ideology

- Easy to use in corridors and restrooms because of three-level corridor function
- Touch DIM® application: easy to control via pushbutton or sensor
- Energy efficient Touch DIM® operation due to automatic switch-off at sufficient residual light
- Suitable for emergency Installations with DC detection (0Hz, pulsating DC), on/off switchable
- Feedback of power consumption and operating hours (Fit for SMART GRID)
- Suitable for buildings according to EPBD/BREEAM/LEED due to automatic constant lumen output setting

Areas of application

- Installation in emergency lighting systems according to IEC 61347-2-3, appendix J
- Suitable for use in luminaires with flexible current setting (DALI, CLO, LEDset)
- Suitable for indoor SELV equivalent installations
- Suitable for luminaires of protection classes I and II
- Installation and independent mounting via Cable Clamp Kit possible

OPTOTRONIC® – Constant current LED power supplies with Phasecut

Product features

- Dimmable via leading edge/trailing edge
- Integrated cable clamp for separate installation

Product benefits

- Compact housing for mounting in very tight spaces
- Compatible with the most common leading-edge and trailing-edge phase dimmers

Areas of application

- Optional cable clamp E-style for independent installation
- Suitable for indoor installations

OPTOTRONIC® FIT – Compact constant current LED power supplies – Non dimmable

- Immunity according to IEC 61547
- Lifetime: up to 100,000h (temperature at $t_c = 65^\circ\text{C}$, max. 10% failure rate)
- LED protection by Hot Plug

Product benefits

- Versatile scope of application due to output power range of up to 38W
- Safety requirement due to overload, overtemperature, Hot Plug protection
- High efficiency and reliability
- Higher quality of light thanks to low output current ripple

Areas of application

- Installation in emergency lighting systems according to IEC 61347-2-3, appendix J (DC capable)
- Suitable for use in luminaires with flexible current setting (Tri-Tap)
- Suitable for indoor SELV equivalent installations
- Suitable for luminaires of protection classes I and II
- Installation and independent mounting via Cable Clamp Kit possible

Product features

- Output voltage: 21V DC – 42V DC
- Input voltage : 220 – 240V AC
- Typ. Efficiency : ≥87%
- Ambient temp range, ta: -10°C to +50°C
- Fixed Output (i.e. no dimming)
- Safety: IEC 61347-1, IEC 61347-2-13
- Performance: IEC 62384
- Immunity: IEC 61000-3-3, IEC 61547

Product benefits

- High reliability
- Extra small compact housing

Areas of application

- Suitable for downlights, spotlights and other Indoor LED applications
- Suitable for class I and II luminaires

OPTOTRONIC® – Constant voltage LED power supplies 24V with DALI

Product features

- 4 channel DALI converter

Product benefits

- Flexible addressing via DALI

Areas of application

- Suitable for indoor applications
- Suitable for luminaires of protection classes I and II
- Suitable for separate mounting

Product features

- Dimmable via fully isolated 1-10V interface
- Driver with output power range of up to 240W

Product benefits

- Versatile 1-10V window driver up to 240W due to flexible output characteristic
- Very high efficiency and reliability
- High IP protection (IP67)
- High surge protection: up to 3kV (L-N) / 6kV (L/N-PE)

Areas of application

- Suitable for use in tight, flat luminaires or installation in suspended ceilings
- Suitable for indoor and outdoor SELV installations

Product benefits

- Versatile scope of application due to output power range of up to 240W
- Very high efficiency and reliability
- High IP protection (up to IP67)
- Constant luminous flux for very low and high temperatures due to Smart Power Supply

Areas of application

- Suitable for use in tight, flat luminaires or installation in suspended ceilings
- Suitable for indoor and outdoor SELV installations
- Outdoor applications only in suitable luminaires

Product features

- Overload protection
- SELV
- Over temperature protection
- Output power range up to 90W
- Short circuit protection
- Case temperature up to 85°C
- Lifetime (L70 B50): 30,000h (temperature at tc point = 85°C)

Product benefits

- Compatible with Osram Flex
- High efficiency up to 87%
- Class II design for wide application
- Excellent price/quality/watt ratio

Areas of application

- Hospitality – decorative lighting, night light
- Restaurants – decorative lighting
- Shops – decorative lighting, shelf lighting
- Residential – cove lighting, under cabinet lighting

OPTOTRONIC® Cable Clamp – Driver accessories kit

Product reference	Product number	Length l [mm]	Width b [mm]	Height h [mm]	Standard pack in PCS.
OT CABLE CLAMP A-STYLE	4052899089570	35	65	25	20

OT CABLE CLAMP E-STYLE	4052899167896	38	53	25	20

Product features

- Easy to install and flexible cable clamps
- Separate cable clamps for primary and secondary side
- Pre-fixed, captive screws

Areas of application

- Suitable for different cable types
- Suitable for indoor installations

Product benefits

- Simple and quick mounting of the cables with one screw per flap
- Sufficient space for cable connection
- Flaps stay open during cable assembly
- Immediate installation thanks to pre-assembled cable clamps

Product benefits

- Versatile scope of application due to output power range of up to 120W
- Very high efficiency and reliability
- High IP protection (up to IP67)
- High surge protection: up to 3kV (L-N) / 6kV (L/N-PE)

Areas of application

- Suitable for indoor and outdoor installations
- Ideal for mounting in very tight spaces

OPTOTRONIC® – Constant voltage dimmers with DALI

Product reference	Product number	Power [W]	Input voltage [V]	Output voltage [V]	Dimmable	Dimming range	Type of protection	Ambient temperature range in °C	Length l / l1 [mm]	Width b [mm]	Height h [mm]	Standard pack in PCS.	Fig. no.

Product features

- Intelligent digital dimmer (DALI) with constant output voltage

Product benefits

- Safety requirement due to overload, overtemperature, short-circuit protection

Areas of application

- Suitable for indoor installations
- Separate installation (ceiling mounting)

OPTOTRONIC® – Constant voltage dimmers with DMX

Product reference	Product number	Power [W]	Input voltage [V]	Output voltage [V]	Dimmable	Dimming range	Type of protection	Ambient temperature range in °C	Length l / l1 [mm]	Width b [mm]	Height h [mm]	Standard pack in PCS.	Fig. no.
OT DMX RGB DIM	4008321160829	144	10.5-24	10.5-24	Yes	0-100%	IP20	-20-+50	172 / 164	42	20	20	1
OT DMX 3X1 RGB DIM	4008321279835	72	10.5-24	10.5-24	Yes	0-100%	IP20	-20-+50	80 / 72	40	22	10	2

Product features

- Intelligent DMX Dimmer with multi-channel topology and single control
- Automatic or manual addressing

Product benefits

- Safety requirement due to overload, overtemperature, short-circuit protection

Areas of application

- Suitable for indoor installations
- Luminaire installation and separate or top-hat rail mounting

OPTOTRONIC® – Constant voltage dimmers with 1-10V

Product reference	Product number	Power [W]	Input voltage [V]	Output voltage [V]	Dimmable	Dimming range	Type of protection	Ambient temperature range in °C	Length l [mm]	Width b [mm]	Height h [mm]	Standard pack in PCS.	Fig. no.

OT RGB DIM	4050300793108	144	10.5-24	10.5-24	Yes	0-100%	IP20	-20-+50	172	42	20	20	1

Product features

- Intelligent analog dimmer (1-10V) with constant output voltage
- Up to 3 output channels
- Cable clamp housing for independent mounting

Product benefits

- Safety requirement due to overload, overtemperature, short-circuit protection

Areas of application

- Suitable for indoor SELV installations

OPTOTRONIC® Outdoor – Constant current LED power supplies with 4DIM / DALI

Product reference	Product number	Power [W]	Input voltage [V]	Operating frequency [Hz]	Output voltage [V]	Dimmable	Dimmable Range	Type of protection	Ambient temperature range in °C	Length l / l1 [mm]	Width b [mm]	Height h [mm]	Standard pack in PCS.	Fig. no.

Product features

- Output current range 0.35 – 1.05A
- Output power up to 165W
- High surge capability up to 8kV
- Analog dimming down to 70mA
- Narrow output current tolerance 3%
- AstroDIM, StepDIM, MainsDIM, DALI
- Constant Lumen function
- External NTC support
- LED Module Interface, LEDset2
- 5 years guarantee

Product benefits

- Long lasting and high reliability
- Suitable for class I/II luminaires
- Double isolation between primary/secondary side
- Fully programmable with Tuner4TRONIC™

Areas of application

- Street, Urban and Industrial lighting
- Suitable for outdoor applications in fixtures with IP > 54

OPTOTRONIC® Outdoor – Constant current LED power supplies with 2DIM / DALI

Product features

- Output power up to 110W
- High surge capability up to 6kV
- AstroDIM, 0-10V
- Constant Lumen function
- External NTC support
- LED Module Interface, LEDset2 (LT2)
- 80,000h lifetime at tc = 75°C
- 5 years guarantee

Product benefits

- Suitable for class I/II luminaires
- Double isolation between primary/secondary side
- Fully programmable with Tuner4TRONIC™ software

Areas of application

- Street, Urban and Industrial lighting
- Suitable for outdoor applications

LED Lamps

OSRAM LED lamps are replacing the conventional technologies in many different areas. They guarantee easy replacement and are an energy efficient alternative to classic incandescent and halogen lamps.

Product features

- Professional LED lamps for line voltage
- Dimmable
- Base: E27 & B22d
- Lifetime: up to 20,000 hours
- Mercury-free lamp

Product benefits

- Very low energy consumption
- Extremely long life
- Shockproof and vibration-proof with LED technology
- No UV or near-IR radiation in the light beam
- Instant 100% light, no warm-up time
- Simple replacement for standard incandescent lamps
- Lower thermal output (compared with the standard reference product)
- Correct operation even at low temperatures

Areas of application

- Domestic applications
- General illumination
- May be used outdoors only in outdoor fixtures (at least IP65)

Product features

- Professional LED lamp
- Dimmable
- Lifetime: up to 50,000 hours
- Mercury-free lamp
- High color consistency

Areas of application

- Shops
- Exhibitions, department stores
- Museums
- Hospitality
- Directional light sources

Product benefits

- Very low energy consumption
- Extremely long life
- Shockproof and vibration-proof
- No UV or near-IR radiation in the light beam
- Efficient generation of white light

Product features

- Professional LED lamp
- Dimmable (Advanced versions)
- Base: GU4 (MR11) / GU5.3 (MR16)
- Lifetime: up to 50,000 hours
- Mercury-free lamp
- High color consistency

Product benefits

- Very low energy consumption
- Extremely long life
- Shockproof and vibration-proof
- No UV or near-IR radiation in the light beam
- Efficient generation of white light

Areas of application

- As a downlight for marking walkways, doors, stairs, etc.
- Exhibitions, department stores
- May be used outdoors only in outdoor fixtures (at least IP65)
- Directional light sources
- Museums
- Hospitality
- Shops

Light Management Systems

Light management products from OSRAM provide the ideal basis for innovative tailor-made lighting concepts — from a simple individual luminaire to complex and extensive systems.

Light management systems from OSRAM – light in a new dimension

Light Management is much more than the use of motion sensors. It is the optimal connection of user interfaces, control units, daylight, motion sensors and electronic control gear.

Rising energy costs demand highly efficient lighting solutions. With more stringent regulations such as the Energy Performance of Buildings Directive (EPBD), OSRAM Light Management Systems can provide you with a cost effective, energy efficient solution. Benefit from our experience with more than 500 million installed ECGs. OSRAM ECGs do not offer only maximum reliability, they also improve efficiency, operating safety, and lighting comfort significantly – indispensable for modern lighting solutions.

Discover new illumination and energy-saving potentials

Light management solutions can bring the demands for comfort and energy savings into perfect harmony. Users can adjust the lighting level themselves at any time to suit their specific needs. At the same time, the lighting system can be faded up or down automatically depending on the amount of available daylight, leading to enormous potential energy savings.

Product portfolio

Street Light Control

Innovative light management system for outdoor lighting. OSRAM Street Light Control (SLC) facilitates a demand-oriented control and monitoring of thousands of individual luminaires. With the SLC software, the user keeps the entire street lighting system in view.

Easy Color Control

The multitasking OSRAM system is extremely versatile with completely new control elements. Easy Color Control provides the basis for static and dynamic lighting concepts for RGB and white light and provides atmospheric lighting in a wide range of applications.

Sensors

Pure efficiency: Modern daylight-dependent and presence-dependent sensors from OSRAM ensure that only as much artificial light as is needed is provided. Energy saving has never been so easy with wireless light management by remote control.

Touch DIM

The dimming revolution: Touch DIM enables dimming without additional controllers, allowing conventional switches to remain. A practical and simple solution for efficient energy savings.

MCU

Simple installation, no addressing and universal use. MCU makes scene-based lighting control simple. The two digital and analog rotary dimmers enable very different light sources to be controlled via the DALI interface.

DALI Professional

The perfect solution for large rooms or multiple rooms. DALI Professional controls complex lighting concepts. The light management system can be easily managed via PC software. The DALI Professional operates via a designer glass touch panel.

DALI eco

Intelligent energy saving solutions in office applications. DALI eco sets new standards in terms of flexibility in planning and installing a cost effective light management solution.

ENCELIUM

The right amount of light when and where required. The integrated lighting management system ENCELIUM improves personal comfort and light and at the same time preserves energy resources.

Information about each application solution

Offices & Public buildings

DALI eco – light management for a small office up to a large classroom. The multifunctional light management system sets new standards in terms of flexibility in planning and installing a cost-efficient light management solution. In connection with daylight and presence sensors, the 2-channel DALI eco system achieves energy savings of up to 80% compared with conventional systems using T8 lamps, control gear and without sensors. In addition to easy operation via remote control, the system offers six predefined operating modes for fast and uncomplicated configuration in all applications.

ENCELIUM- light for entire office buildings. Easy integration without programming, overview of the entire buildings lighting plan via 3D software, energy savings up to 75% compared with conventional systems using T8 lamps, control gear and without the use of sensors. Scalable to virtually any size of building thanks to DALI-Encelium.

Shop & Hospitality

The light management EASY Color Control is the perfect solution for ambient light. The EASY Color Control system with up to 64 channels enables direct control of a variety of luminaires – from small to large applications.

Industry

The high-performance light management system DALI PROFESSIONAL is especially suitable for complex applications. Large areas can be illuminated with different lighting requirements. For example, with DALI PROFESSIONAL the light in less frequented areas can be dimmed to a minimum and raised via sensors when needed. This is also possible for each individual luminaire. Brightness sensors allow controllable artificial light where necessary. Furthermore, the lighting installation can be individually configured to changing requirements at any time with the help of the free DALI PROFESSIONAL software.

Outdoor

The 3DIM concept stands for complex control tasks and the Street Light Control (SLC) systems for holistic and networked light management in outdoor lighting. Simply save costs: The 3DIM concept by OSRAM offers control gear units for LED modules and high-pressure discharge lamps, which can be operated depending on the type and scale of the control task. The 3DIM control system has three dimming modes in a single device: DALI mode, StepDIM reduced load mode and the self-sufficient AstroDIM functionality.

For integrated and networked light management of outdoor lighting, OSRAM offers the Street Light Control (SLC)

system. The product portfolio enables individual control and monitoring of individual luminaires, comprising of thousands of lighting points. Therefore, SLC ensures a reduction of power consumption, CO² emissions and light pollution without neglecting the required lighting flexibility. The central system element is the SLC software, with which the entire lighting installation is not only controlled, but also constantly monitored in real time.

Architecture

The OSRAM company Traxon Technologies is, with its brand e:cue, the worldwide leader in sustainable and intelligent solutions for solid state lighting and their control systems. Traxon Technologies delivers integrated solutions that add dynamic visual effects to architecture. From the first creative vision through product development and planning as well as on-site project management, all the way to perfect custom designed lighting.
