

Changes to legislation: Commission Decision of 22 December 2009 adopting, pursuant to Council Directive 92/43/EEC, a third updated list of sites of Community importance for the Boreal biogeographical region (notified under document C(2009) 10424) (2010/46/EU) is up to date with all changes known to be in force on or before 04 September 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

ANNEX

Third updated list of sites of Community importance for the Boreal biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

- A : SCI code comprising nine characters, the first two being the ISO code for the Member State;
 B : name of SCI;
 C : * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;
 D : surface area of SCI in hectares or length in km;
 E : geographical coordinates of SCI (latitude and longitude).

All the information given in the Community list below is based on the data proposed, transmitted and validated by Estonia, Finland, Lithuania, Latvia and Sweden.

A SCI code	B Name of SCI	C *	D Area of SCI(ha)	Length of SCI(km)	E Geographical coordinates of SCI	
					Longitude	Latitude
EE0010101	Tuhala	*	188,1		E 24 57	N 59 12
EE0010102	Paraspõllu	*	476,5		E 25 6	N 59 17
