

# MINIX NEO C-X, USB-C Multiport Adapter with HDMI output

Unlock the full potential of your Apple MacBook®

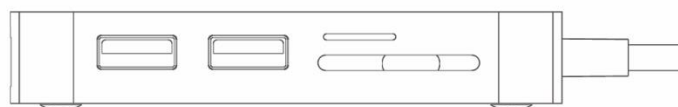

MINIX NEO C-X, USB-C Multiport Adapter with HDMI output is one of the world's most advanced USB-C adapters, delivering an array of connectivity options and ensuring the MacBook is backwards compatible with all your USB accessories.

Our USB-C Multiport Adapter with HDMI output lets you connect your MacBook to an HDMI display (support up to 3840x2160 at 30Hz), while simultaneously being connected to the internet via the Ethernet port.

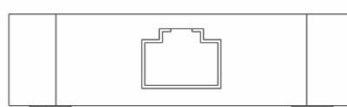

Plus, the adapter also features 2 x standard USB 3.0 ports, TF and SD card readers and USB-C port, so you can keep charging your MacBook while using the adapter.

Includes:

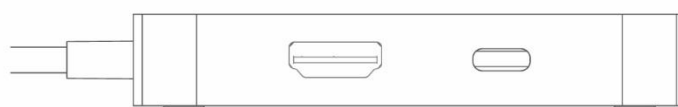

2 x standard USB 3.0 ports, TF and SD card readers

Ethernet port (10/100Mbps)

USB-C port (for charging), HDMI output

Available in four colours: Space Gray, Silver, Gold, Rose Gold
