JSC Employee Alarm System

The JSC site-wide emergency alerting system is used to quickly notify employees and visitors of potential danger. In the event of an emergency, the following tones will be used, and people should respond as indicated.

Whoop (*low to high siren*) – Seek shelter and get more information

3-5 Minute Wavering Tone – Attack Warning (nuclear or conventional) (air raid warning)

Wail (single, constant tone) – All Clear

Short Wail (like a noon whistle) – Periodic System Test (1st Thursday of every month at noon)

When the siren sounds, take appropriate immediate protective actions. If you are already indoors, alert others who may not have heard the sound to prevent them from going outside. Close doors and windows, and notify the Facility Manager, Safety Officer, or supervisor. Call the emergency number (x33333) if you have critical information to provide. JSC Television and the Emergency Information Line (483-3351) will provide additional information as it becomes available.

JSC Emergency Warning (EWS) Policy & Procedures

- The JSC Emergency Warning System alert tones will be used only when employees are in imminent danger and must take immediate action for their protection
- EOC operation procedures will include instructions for immediate activation of the employee alarm system when employees are immediately threatened by a chemical release or tornado in close proximity to JSC.
- The JSC Incident Commander is authorized to activate the employee alarm system during emergency conditions.
- Any other use of the employee alarm systems requires approval of the Center Operation Director or higher authority.
- Warning tones and periodic testing have been coordinated with neighboring communities and the Bay Area Local Emergency Planning Committee.
- A monthly systems test will be conducted on the first Thursday of each month at noon. Neighboring communities also test the sirens on the first Thursday but at dinner time.
- Employees, neighboring communities, fire and police departments, and broadcast media will be informed of the periodic test schedule and will be notified whenever the siren system is used for an emergency.
- Facility Managers will be notified whenever the siren system is not operational.

The JSC Telephone Directory

Introduction

What's New?

As most users who have access to the JSC Home Page know, the most current directory information is available online from two sources: the Global Address List (GAL), which provides the directory information as part of the e-mail address of an individual, or through the online directory available at <http://phone.jsc.nasa.gov>. The Online Directory includes a wealth of information, such as the current JSC Organization Listing, lists of facility managers, conference rooms, off-site contractors and links to other directory services.

Recognizing that the need still exists for a hard copy version of the JSC Telephone Directory, the Information Resources Directorate is making a compromise. This version of the directory represents the LAST one of its kind—a completely new printed version made available to directorate, division and off-site contractor offices.

Where Does It Go From Here?

From this point forward, sections of the book will be made available on the Online Directory Web site as they are updated. Needed sections may be printed at your local printer. Organizations with valid requirements for hard copy versions may still request them by contacting the JSC Print Shop at 281.483.6156 or the IRD Customer Support Office at 281.483.7593.

What's Included?

The Online Directory includes most of the traditional sections that you're accustomed to seeing. See the table of contents for a full listing. To ensure that only the most current information is available in those areas used primarily by onsite residents, the telephone directory no longer includes printed versions of the list of facility managers, conference rooms, the blood drive schedule, etc. Instead, Page 3 contains the URLs for these lists.

Quick Tips:

- For the most current information, use the Telephone Directory link at the top of the JSC Home Page at <http://www4.jsc.nasa.gov/> or go directly to <http://phone.jsc.nasa.gov>
- Any questions? Contact the IRD Customer Support Office at 281.483.7593 or drop us an e-mail: IRD Customer Support

General Information

General

Telephones installed for Government use are for OFFICIAL business only.

The Information Resources Directorate (IA) and Information Technology Division (IT) / Communications Branch, through its contractors, furnishes all equipment necessary to provide telephone service. In the interest of safety and good service, no equipment, apparatus, or device not provided or approved by the Information Technology Division may be attached to, used or connected with JSC cable plant or other facilities. Under no circumstances shall telephone users move, add equipment to, alter, rewire jacks for, or attempt repair of telephones or associated equipment.

JSC Calls

All telephones at JSC, including Ellington Field and Sonny Carter Training Facility, are accessed using 5-digit dialing.

Local Calls

Access to off-site telephones is by dialing 9.

Long Distance Calling

JSC Policy is that long distance calls should be restricted to the conduct of official business of such urgency that no other means of communications will suffice. When telephone calls to other cities are necessary, every effort must be made to utilize the Federal Telecommunications System (FTS). Toll calls from non-Government telephones must be made using Federal calling cards provided by the Information Resources Directorate (IRD). Access to FTS is by dialing 9+1. Commercial Long distance carriers such as Telecom*USA (10-10-220) are blocked at JSC. Users are expected to dial their personal credit card toll free number for long-distance calls.

International Calling

International long distance calls originating from JSC on-site telephones and from Ellington Field should be made by dialing 9+ 011 + country code + city code + telephone number.

Calls from non-Government phones should be made using Federal Calling cards provided by IRD.

Incoming Collect Calls

Incoming collect local and long distance calls are to be discouraged and, if accepted, will require validation as to necessity in the performance of official business.

Directory Assistance

The use of, directory assistance is discouraged and the information number is blocked at JSC. Whenever possible,

employees are asked to look up telephone numbers in the appropriate telephone directory or use other measures to determine the number being dialed.

Call Detail Reports (CDR)

Long-distance call information is collected and provided to management each month for validation. All long distance calls to non-NASA numbers are listed in these reports. Long-distance calls dialed as shown below do NOT show up in the CDR provided to each organization:

9 + 1 + 800 (toll free numbers)

9 + 1 + 877 (toll free numbers)

9 + 1 + 888 (toll free numbers)

Federal Information Relay Service (FIRS)

1-800-877-8339

The FIRS relays calls between individuals who are deaf, hard of hearing, or speech impaired, with individuals who speak and hear. Both TDD/TTY and voice users may initiate calls through the FIRS by dialing 1-800-877-8339. The FIRS hours of operation are 8 a.m. through 8 p.m., Eastern Time, Monday through Friday, except for Federal holidays.

Voice Mail

Voice Mail is a voice telephone messaging system available at JSC.

Optiset Telephone Features

The Center Telecommunications System (CTS) provides a variety of special features available to users based on a Class of Service assignment. Please refer to the Optiset Quick Reference Guide or User's Guide for procedures relation these features. Copies of Quick Reference and User Guide can be obtained by downloading a version on the JSC Phone page. The URL is:

http://ird.jsc.nasa.gov/tele_comm/phones/index.html

CTS Coordinators

CTS Coordinators are designated by the Division Chief to provide telecommunications support and are the single point of contact between their organization and CTS. CTS Coordinators are listed in this directory.

Directory Distribution

The JSC Phone Directory is printed only on a limited basis. The most current information can always be found on the Directory Web site at <http://phone.jsc.nasa.gov/>. From that site, users may print locally PDF versions of any and all sections of the phone book as they are updated. If hard copies are required in larger quantities, please submit a JSC Form 31 to the JSC Print Shop.

Severe Weather Information

The annual hurricane season is from June 1 through November 30 with the peak period from July through September. JSC has prepared detailed plans in the event that a hurricane threatens this immediate area. Each directorate, program office, and contractor has designated a representative to assist in the implementation of storm protection procedures.

When it has been determined that a hurricane is threatening this area, JSC employees will be kept informed of the Center's readiness status through the JSC television system, by recorded telephone messages on extension 33351, and the toll-free Emergency Information Line (877-283-1947). Notice of changes in work assignments and the possible closing of various Center facilities will be disseminated by the media as well as through normal administrative channels.

All employees, prior to their departure from the Center, should secure their work areas to minimize wind and water damage. Classified information should be placed in proper storage; other important materials should be protected as feasible; and electrical appliances and equipment should be unplugged and stored as appropriate.

When a tornado threatens, take shelter in the interior of a building IMMEDIATELY. If shelter is not available or there is no time to get indoors, lie in a ditch or low-lying area or crouch near a strong building. Use arms to protect head and neck.

JSC employees are encouraged to be aware of the possibility of hurricanes and to make any necessary personal protection preparations well in advance of a possible storm.

Information
Resources
Directorate

Basic Telephone Features:

This quick reference guide is designed to allow you to start using your Optiset and voicemail right away. An in-depth user reference guide may be found on the JSC internal web on the CTS Information Bulletin Board.

The URL is:

[http://www6.jsc.nasa.gov/bbs/scripts/files/145/JSC%20ASA%20Optiset%20User%20Guide.doc](http://www6.jsc.nasa.gov/bbs/scripts/files/145/JSC%20NASA%20Optiset%20User%20Guide.doc)

Place a call:

1. Lift the handset.

The red status light associated with the line appearance lights.

2. Wait for dial tone.

3. Dial the number of the party you want to call.

4. Use the handset to listen for either audible ringing, your party's answer, or a busy tone.

5. When your party answers, use the handset to converse.

6. At the end of the call, return the handset to its cradle.

The red status light associated with the line appearance is extinguished.

Answer a Call:

1. The incoming call causes the ringer to sound.

The red status light associated with the incoming line appearance lights.

2. Lift the handset.

3. Use the handset to converse.

4. At the end of the call, return the handset to its cradle.

The red status light associated with the incoming line appearance is extinguished.

Answer a Call While Another Call Is Active:

1. The incoming call causes the red status light associated with the incoming call appearance to light.
2. Press the line key associated with the incoming second call.

The first call is placed on automatic hold, and a connection is made to the incoming call. The status light for the first call blinks to indicate that it is on hold.

3. When the second call has been disposed of, retrieve the first call by pressing the associated line key.

The status light for the second call is extinguished and the status light for the first call goes steady.

4. At the end of the original call, hang up.

The red status light associated with the call appearance is extinguished.

Transfer a Call:

A call is active.

1. Press the transfer key.
2. Dial the number of the party to whom you want to transfer the call.
3. Listen for ringing.

If the party doesn't answer, or the party does not want to accept the transferring call, refer to Back Out of a Transfer or Conference Setup.

4. When the transferee answers, press transfer.

Establish a Conference Call:

A call is active.

1. Press the conference key.
2. Dial the number of the party you want to add to the conference call.
3. Listen for ringing.

If the party doesn't answer, or the party does not want to be included in the conference call, refer to Back Out of a Transfer or Conference Setup.

4. When the conferee answers, announce the call and then press the conference key again.
5. When all parties are on the line, conduct the conference.
6. When the conference is finished and the other parties have disconnected, hang up.

Drop Last Party Added to a Conference:

A conference call is in progress.

1. To drop the last party who was added to the conference, press the drop last party key.
2. At the end of the call, hang up.

The red status light associated with the line appearance is extinguished.

Back Out of a Transfer or Conference Setup:

The transferee or conferee has been dialed.

The party doesn't answer or does not wish to receive the call.

1. You will see "Complete conference?" or "Complete transfer?" in your display.
2. Press the ◀ dialog key until you see "Release this call?"
3. Press the 4 dialog key.

The second call is released, and the first call is removed from hold.

4. Use the handset or the microphone to inform the first party of the unsuccessful transfer or connection.
5. Retry the transfer or conference or hang up.

Place a Call on Hold:

A call is active.

1. Press the HOLD key.

The line appearance light begins to flash, indicating a held call.
