524 Apricot		595 Sky Blue		583 Gold	
531 Sky Red		599 Aquamarine		585 Copper	
534 Rose Pink		560 Reseda			

Number of Colors Available	11
Most Permanent Workable Surfaces	Natural fabric or mixed fibers up to 20% man-made. Also works on paper, wood and most other absorbent surfaces.
Least Permanent Workable Surfaces	Mixed fiber blends over 20% synthetic content. Not suitable for glass, metal, ceramic glaze.
Techniques	Spraying, stenciling, tie-dye and Shibori.
FAQs	Shimmer effect on dark fabrics. The base color is most visible on lighter colored fabrics. • Colors blend easily and are re-workable when wet, can be brushed if desired (synthetic or synthetic/natural fiber blend brushes are recommended). • Fashion Spray can be used on dry fabric or using a wet onto wet technique for varying effects. • Coverage 50 ml/4.8ft ² • Shake bottle well before use. • Protect work surface and clothing. Insert card between layers of fabric. • Spray 2 or 3 times onto a test surface. • To prevent clogging, pump warm water through the spray nozzle and wash out. In the rare event that the spray becomes blocked, the nozzle can be cleaned by carefully inserting a pin into the sprayer. • Non-aerosol, cosmetic-grade, German-manufactured pump that delivers a fine consistent mist. • Recommended for 9yrs and over. • Accidental spills, wash immediately with soap and water.
Supporting Products	Stencils, Fashion Spray, Fashion Liner

HEAT SETTING ALL MARABU FABRIC PAINTS:

To make the colors washable up to 104 °F, heat set the fabric with a hot dry iron for 3 minutes. Iron the fabric, image side up, at the hottest temperature the fabric can bare, with a pressing cloth between the iron and the fabric.

Alternatively, (for shoes or other items that cannot be ironed) bake the fabric in the oven at 302 °F for 8 minutes.

FASHION LINER

Water-based fabric paint in a fine-line applicator, odorless and lightfast. Vivid, matt colors and elegant shimmering effects, soft to the touch. Ideal for embellishments and writing. 25 ml tube.
