B. NEW BUSINESS

1. Proxy Voting

a. Proxy Voting Reports

Proxy voting records of public equity managers for June 30, 2019

Retirement Administrator Jeff Wickman presented proxy voting reports as of June 30, 2019. He pointed out that some of the managers are highlighting no votes and asked for comments. Trustee Silberstein expressed appreciation for the consistent formatting of the reports and commented on specific managers, comparing and contrasting their votes to the guidelines in MCERA's Proxy Voting and Corporate Governance Policy. Dimensional Fund Advisors (DFA) votes for pay packages being reviewed every three years, whereas management almost always recommends annual review which aligns with MCERA's policy. DFA votes on CEO pay are better than ISS recommendations as it votes against a fair number of CEO pay packages and many Directors. Trustee Silberstein commended KBI for comparing proxy votes to ISS recommendations and for voting for the shareholder resolution to disclose political lobbying at Tyson.

Trustee Silberstein expressed dissatisfaction with State Street Global Advisors (State Street) with respect to its abstaining policy and votes against only 3% of pay packages. Also, State Street votes very few times for shareholder resolutions and against many that ISS recommends voting for, including those on political contributions and diversity. For these reasons Trustee Silberstein said the Committee should address State Street's proxy voting not aligning with MCERA's policy and ISS recommendations. Trustee Gladstern indicated these are pertinent observations that can lead to further questions for the related managers.

b. Manager Responses on Proxy Voting Policy Alignment

Mr. Wickman presented responses from the three managers the Committee identified at its April meeting for follow up. The Administrator observed the DFA response was not a surprise given their previous responses to MCERA's inquiries. Parametric addressed the question on board composition and provided additional details on proxy votes in this period. State Street responded to inquiries on voting on CEO pay packages and litigation over opioids with articles they have published that cover both issues.

Mr. Wickman asked if there is any follow up the Committee would like to do. Trustee Silberstein said we should look at taking over proxy voting for the DFA and State Street accounts. Chair Cooper asked whether other '37 Act systems vote their own proxies and the Administrator replied he was not aware of any '37 Act systems that voted their own proxies. Trustee Silberstein said the Los Angeles City Employees' Retirement System (LACERS) has internal proxy voting.

For consideration at May Committee meeting

Trustee Jones asked who would do the work, and Trustee Silberstein explained that MCERA could select a model from a service provider such as ISS and vote proxies with minimal staff effort. Mr. Wickman agreed that the mechanics of proxy voting can be managed but said the Investment Committee would need to review all the potential items that could be voted and agree on which items it would want to vote and how it wants to vote. Upon further discussion Mr. Wickman recommended following up with more questions for DFA and State Street before the Committee asks the Investment Committee to consider voting proxies. Trustee Silberstein views State Street as the more important manager to follow up with because their voting record is worse than DFA's. Chair Cooper directed staff to follow up as noted and then determine the character of the conversation.

2. Governance Risk Report – Institutional Shareholder Services (ISS) – Nathan Worthington and Jack Ferdon

Review and discuss the ISS quarterly Risk Assessment Report

Mr. Wickman introduced Jack Ferdon of Institutional Shareholder Services (ISS) who presented the quarterly ISS Governance Risk Report for proxy voting. The Administrator explained this new ISS service is another way for the Committee to analyze our managers' proxy votes on key matters.

Mr. Ferdon discussed his background which includes reviewing proxies and making vote recommendations for ISS. He stated that ISS shares views expressed in an article in the New York Times and by John Vogel of Vanguard indicating that shareholders are leaving money on the table as a result of the way proxies are voted. Mr. Ferdon highlighted two features of the ISS Governance Risk Report: the quality score indicator and identifying proxy voting records. The quality score gives an idea which managers are holding governance risk, and which are paying attention to governance matters. It is a relative assessment of companies that held a meeting in the quarter ending September 30, 2019. Scores range from 1, indicating lowest risk, to 10, indicating highest risk. Mr. Ferdon reported that 15 companies have low quality scores in the 8 to 10 range. As an example, FedEx is on the list due to votes on compensation and say-on-pay; in addition, the firm has no women in leadership positions. The quality score takes into account whether managers have the support of shareholders at shareholder meetings. Staff will look into Trustee Gladstern's request for more detail on which of MCERA's managers hold specific investments with the companies.

Further statistics on managers' proxy voting records are summarized in the Investment Manager Summary. Mr. Ferdon pointed out that for managers in the smaller equity markets, such as emerging markets, there are additional factors affecting proxy voting. These include onerous requirements before a manager can vote that some managers do not exert time or resources to meet. Another is that local banks may not segregate votes, or if they get different voting instructions on the same topic from one source, they can reject that ballot. Furthermore, in China issuers have the ability to reject a vote with no explanation.

Trustee Silberstein observed that active managers like TimesSquare have less governance risk than the passive State Street Global Investors' S&P 500 portfolio. Mr. Ferdon noted

For consideration at May Committee meeting

the data can vary from quarter to quarter depending on when shareholder meetings are held. Mr. Ferdon referred to a public fund proxy voting policy that Parametric votes in line with. Trustees Gladstern and Silberstein expressed an interest in the ISS public fund policy and Mr. Ferdon said he would share the policy with the Committee.

Mr. Ferdon stated the most widely used metric on proxy voting is the percentage of votes cast against the ISS benchmark policy for those who do not want to customize proxy voting. This reflects best practices that incorporate public and regulator comments every year. He indicated that the public fund policy can be customized.

Metrics in the Governance Risk Report include how many meetings were voted and votes against management on at least one policy. The analysis may include assessments of voting on management proposals including say-on-pay, director elections, votes on mergers or spinoffs, anti-takeover related measures, and capitalization. Shareholder proposal vote assessments may have to do with gun sales, human rights, health and environmental topics, and diversity, for example. Trustee Silberstein noted most shareholder proposals are typically presented from January to May.

3. Existing Policies – Standard Review with Proposed Updates

a. Actuarial Economic Assumptions Policy (Action)

Consider possible recommendation to Board on update to policy

Mr. Wickman stated there are no changes to actuarial economic assumptions and the only update to the Policy Regarding Adoption of Actuarial Economic Assumptions is to change the effective date of the assumptions to June 30, 2019.

It was M/S Gladstern/Silberstein to adopt the update to the Policy Regarding Adoption of Actuarial Economic Assumptions.

4. Existing Policies – Standard Review without Proposed Updates

Mr. Wickman said the policies scheduled for standard review below have no recommended updates.

It was M/S Gladstern/Jones to accept the review of the policies listed below as Agenda Items B.4.a - f.

Trustee Silberstein asked if the language in the Proxy Voting and Governance Policy on commingled accounts could be clarified as to domestic versus international accounts. Trustee Gladstern noted this policy aligns with CII's governance policy and she suggested reviewing the policy more broadly. Mr. Wickman recommended revising the motion to remove the Proxy Voting and Corporate Governance Policy and have staff review it and report back to the Committee.

For consideration at May Committee meeting

It was M/S Gladstern/Jones to accept the review of the policies listed below as Agenda Items B.4.a – e.

The Proxy Voting and Corporate Governance Policy will undergo further review by staff based on the discussion above and will be returned to the Committee for further discussion or possible action at a later meeting.

5. Next Committee Meeting

Mr. Wickman stated at the request of Investment Committee Chair Klein, the Governance Committee should look at governance practices for MCERA's private equity investments including Institutional Limited Partners Association (ILPA) standards. Trustee Silberstein noted one concern is with managers dismantling companies versus those that are developing companies. Chair Cooper directed that the matter be considered at the next Governance Committee meeting. There was discussion about customizing data in the ISS quarterly Governance Risk Report.

There being no further business, Chair Cooper adjourned the meeting at 10:15 a.m.

Institutional Shareholder Services (ISS) and Glass Lewis are the two largest global providers of proxy advisory and vote execution services. Both firms provide ballot-level, voting recommendations at more than 20,000 global annual meetings each year. These recommendations are the culmination of input from each firm's client base, which comprise more than 1,000 active and passive asset managers and owners. While Morgan Stanley Investment Management (MSIM) appreciates the utility of these voting recommendations, we have developed our own policies and procedures to meet the investment styles of our portfolio managers and do not rely on either firm's vote recommendations. MSIM has a dedicated team that reviews global governance trends and we base our votes on this insight, coupled with portfolio managers' deep insight of their companies and our active engagement with portfolio companies.

In the second half of 2019, MSIM reviewed 105 ballot resolutions in the International Equity Portfolio. Of those, the MSIM vote differed from an ISS recommendation 5% of all proposals reviewed and differed from a Glass Lewis recommendation 7% of all proposals reviewed. While there is no single reason that accounts for these differing views three common themes emerge. Most of the differences in the International Equity Portfolio were around say-on-pay and equity plan proposals and general meetings with two weeks' notice.

For example, MSIM views remuneration over a five-year pay/performance period and we look closely at the types of pay metrics used to incentivize executives. ISS and Glass Lewis view pay through a short performance window, typically one- to three-years. Another example is equity compensation plans, where ISS and Glass Lewis have strict guidelines on share dilution for non-US companies. MSIM supports the use of equity awards and plans that are not overly dilutive to shareholders; all incentive schemes are reviewed on a case by case basis. On the election of directors, as a long-term investor, MSIM has the opportunity to know our boards through engagement and long holding periods. We may vote against directors where we feel capital allocation has been mismanaged whereas ISS and Glass Lewis primarily view directors through a governance lens.

Subject: Proxy Voting Questions and Responses

Background

At your December 17, 2019 meeting, the Committee reviewed proxy votes cast by MCERA's equity managers over the prior six months. During this review follow-up questions were identified based on proxy votes cast by Dimensional Fund Advisors (DFA) and State Street Global Advisors (SSGA). The following represents the questions that were posed to each manager and the manager's response:

Dimensional Fund Advisors (DFA)

Regarding the issues of votes cast on "say on pay" and disclosure of political expenditures, the Committee continues to be concerned that DFA votes contrary to the guidelines outlined in MCERA's Proxy Voting and Corporate Governance Policy, noting that in some situations DFA votes against management recommendations to review pay packages on an annual basis. Can you provide an explanation of what it might take to bring the voting practices in line with MCERA's voting guidelines?

Response

After conferring with their Portfolio Management and Corporate Governance teams, DFA reported that there are two possible options they could provide MCERA:

- a. MCERA takes back voting proxies for the account, or
- b. Utilize the Institutional Shareholder Services (ISS) custom "say on pay" Policy option. If MCERA chose this option, it would require approval from the DFA CIO since it deviates from the way they currently vote proxies. If MCERA does decide that it wants to pursue annual say on pay, there is a cost from ISS of \$2,500 per year for voting on an annual frequency rather than triennial. The cost only includes the one change and would likely

B.1.b

increase if there are further customization requests. The cost would be allocated to DFA under its ISS contract and then would need to be invoiced to the account.

State Street Global Advisors (SSGA)

Regarding the issue of votes cast on CEO Pay, the Committee noted that SSGA has increased the number of abstentions cast for pay packages. As a result, the original question remains, when will the abstentions become “no” votes? Can you provide an explanation of what it might take to make this change happen?

Response

SSGA indicated that their response was the same as previously provided regarding abstentions (see attached). CEO pay votes are assessed on a case-by-case basis and SSGA’s voting to abstain reflects the nuance of compensation issues.

Should MCERA have a desire to vote differently, it has the option to hire and engage directly with a third-party proxy voting service to develop its own proxy voting guidelines and vote proxies according to such guidelines. The alternative is what is in place at this time, which is for SSGA to vote according to SSGA’s proxy voting guidelines.

Transparency in Pay Evaluation: Adoption of Abstain as a Vote Option on Management Compensation Resolutions

April 2019

Key Takeaways

- Ahead of the 2018 proxy season, State Street Global Advisors announced that in addition to the use of ‘For’ and ‘Against’ vote options on management compensation resolutions we will introduce an ‘Abstain’ vote, in situations when we cannot provide unqualified support for compensation proposals globally.
- We believe that this change will result in companies being more responsive to our vote on pay proposals and subsequent engagement efforts, thereby improving impact.
- We cannot predict all instances when we will use an ‘Abstain’ vote but based on past practice typical cases would include:
 - Large one-time payments that cannot be justified or explained
 - Lack of adequate disclosure or some concerns with performance metrics but recognition of strong long-term performance etc.
 - Where companies have responded to some but not all of our concerns.
- There will be no change to State Street Global Advisors’ Asset Stewardship Team’s evaluation of compensation votes.

Our Approach to Compensation Proposals

- We recognize the increasing reputational risk that poorly structured executive compensation plans pose to companies.
- We utilize our proxy voting guidelines and proprietary compensation screens to identify companies where pay practices may be of concern. Consequently, screened companies are reviewed manually by the Asset Stewardship Team to reach a vote decision. The team reviews over 1,900 pay votes annually.
- Our framework for analyzing compensation proposals includes:

- Evaluation of pay for performance alignment: Assessment of C-suite pay relative to peer group and long-term performance
- Scenario testing of executive compensation packages to threshold, target and stretch goals established by the board to understand the variability of the total compensation
- Assessment of the balance and variability between short-term and long-term plans
- Assessment of the link between long-term strategy and pay drivers
- Where we feel that companies are not receptive to our concerns we will vote against compensation proposals.

Our Historic Compensation Voting Practices

Prior to 2018, State Street Global Advisors used two voting options for compensation proposals: ‘For’ and ‘Against’ and in most cases our rationale for votes ‘Against’ compensation proposals included:

- Pay packages were misaligned in terms of performance and pay-out
- There was a lack of adequate disclosure on short-term/long-term pay-outs
- There was inadequate disclosure on how pay metrics are aligned to long-term strategy
- Pay plans contained re-testing of performance metrics or repricing of options

As such compensation proposals that were not fully in line with our expectations based on concerns that were not significant enough to warrant an ‘Against’ vote, received a qualified ‘For’ vote. Subsequently, such votes were then tracked internally to be analyzed in the following year with some companies being targeted for engagement.

Transparency in Pay Evaluation: Adoption of Abstain as a Vote Option on Management Compensation Resolutions

Benefits of ‘Abstain’ as a Vote Option: Driving Impact through Transparency

Beginning with the 2018 proxy season, we will exercise ‘Abstain’ as a vote option, in situations where we cannot provide unqualified support for compensation. In addition we may also use an ‘Abstain’ vote where companies have responded to some but not all of our concerns on pay.

However, the use of an ‘Abstain’ vote should not be considered as an outright rejection of a specific pay plan, but as qualified support based on some reservations. For example, in the past where we had concerns around a specific pay structure or one-off payments we may have supported such pay proposals with unease or a “heavy heart.” Therefore, the use of an ‘Abstain’ vote allows us to demonstrate more clearly our qualified support for pay proposals where we have concerns and increase transparency to both companies and clients.

Consequently, the introduction of an ‘Abstain’ will increase transparency and positive impact by:

- Providing a clear signal to investee companies where we have reservations or unease concerning compensation
- Increasing the pro-activeness of companies to our vote and subsequent engagement on pay

- Enhanced transparency on compensation-related votes. ‘Abstain’ is a vote option on proxy cards and its use will now be reflected in the voting record that we publish annually
- Previously, ‘Abstain’ has been characterized as a vote of “no opinion” on management resolutions and therefore was not actively used, but going forward we will use it to signal support with reservations on management compensation resolutions
- Improving accuracy and/or peer comparisons of voting record

Impact of ‘Abstain’ Vote on Our Approach to Compensation Proposals

- There will be no change to the Asset Stewardship Team’s evaluation of compensation votes and we will continue to evaluate executive compensation using our custom proxy voting guidelines and proprietary compensation screens.
- The introduction of the ‘Abstain’ vote for compensation-related proposals is expected to cause a decrease in our reported votes ‘For’ management’s recommendation.
- Figure 1 below illustrates typical examples for our votes ‘For’ and ‘Against’ on pay and circumstances where we may consider the use of an ‘Abstain’ vote.

Figure 1: Examples of Vote Decisions on Compensation Proposals

State Street Global Advisors’ Vote on Compensation	Potential Rationale for Vote Decision
For	<ul style="list-style-type: none">• Pay metrics are clearly disclosed and aligned to strategy and the pay structure supports long-term value creation.• Pay is aligned with long-term company performance.
Against	<ul style="list-style-type: none">• Pay quantum is excessive despite poor performance.• Disclosure of the specific performance targets for long-term/short-term plans is inadequate.• The pay program includes a re-testing feature.
Abstain	<ul style="list-style-type: none">• A one-time award grant is made for retention purposes and is not deemed to be excessive and company performance is strong.• Company has responded to some of our concerns on pay, but other significant concerns persist.• There is a lack of adequate disclosure or some concerns with performance metrics but there is evidence of strong long-term performance.

Contested Meetings Overview

Company	Ticker	ISS Governance QualityScore	Meeting Date	Position Value (USD)*	ISS Recommended Slate	Slate Voted	Key Takeaways
Occidental Petroleum Corporation	OXY	3	31-Dec-2019	706,081.1	Dissident	Management	<p>> Carl Icahn, a 4.4 percent shareholder who has criticized Occidental's \$38 billion acquisition of Anadarko, is attempting to solicit the consent of at least 20 percent of outstanding shares to ask the board to fix a record date for determining the stockholders entitled to participate in a follow-up consent solicitation in which he will seek to amend the charter and bylaws and replace four members of the board.</p> <p>> Given the large cash component of the Anadarko deal structure, OXY shareholders will not be granted a vote on the merger, and the consequent fact that Occidental is not required to file a proxy statement has limited public disclosure regarding the board's decision process. As evidenced by significant shareholder opposition to the reelection of board members at the company's uncontested AGM in May 2019, there appears to be substantial shareholder frustration with the process by which Occidental acquired Anadarko, if not with the deal itself.</p> <p>> Occidental's governing documents establish a relatively onerous process for shareholders to provide consent. As outlined in the dissident proxy, shareholders must provide several documents, including a Record Date Request Form and a Stockholder Information Questionnaire, as well as detailed information regarding purchases and sales of OXY securities, in addition to instructing their Depository Trust Company (DTC) to take certain actions on their behalf.</p> <p>> It appears that, at a minimum, a more transparent debate regarding the company's strategic direction would be beneficial for shareholders. The cumbersome process that shareholders must undertake in order to exercise certain governance rights, such as providing consent in this solicitation, likewise warrants closer review. Shareholders should therefore PROVIDE CONSENT for the request to fix a record date. Shareholders seeking to provide consent should contact the dissident's proxy solicitor to ensure that all required materials have been properly submitted.</p>
Argo Group International Holdings, Ltd.	ARGO	5	20-Dec-2019	410,630.6	Dissident	Did Not Vote	<p>> Voce Capital Management LLC (Voce), a 5.8 percent shareholder that ran a proxy contest to replace five of Argo's directors at the May 2019 AGM, is soliciting consent to call a special meeting at which it plans to nominate new directors for the board. The threshold to call a special meeting is 10 percent of shares, such that Voce only needs consent from another 4.2 percent of ARGO shareholders.</p> <p>> In the months since the last AGM, at which Voce's campaign was unsuccessful, Argo confirmed an SEC investigation into the company's executive compensation and perquisites disclosures. Following that confirmation, Argo's longstanding CEO has retired and all five directors previously targeted by Voce, including the board chairman and three committee chairs, have announced their intent to retire at the next</p>

						<p>AGM.</p> <ul style="list-style-type: none"> > The board recommends that shareholders wait until the next AGM, which will take place no later than March 24, 2020, because it believes a shareholder meeting will be more productive with the benefit of the company's 2019 10-K, proxy statement, declassification proposal, revised executive compensation program, and proposed slate of nominees to replace the five departing directors. > Though there may be certain benefits to waiting for an AGM, an EGM at an earlier date appears more advantageous to shareholders given the dramatic change underway in the company's leadership, the ongoing investigation into past compensation disclosures, and the decisions that directors will have to make about the investigation findings. Support for the EGM solicitation is therefore warranted, primarily to allow new independent directors to vet the appropriateness of the succession plan crafted by the departing board leadership, confirm the board's assertion that the business is indeed stable, provide additional oversight of the internal investigation, and evaluate proposed changes to the compensation program – while ensuring that Voce, which has served as the catalyst in this situation by unearthing what appear to be material concerns, plays a robust role in helping reconfigure the board.
Farmer Bros. Co.	FARM	3	10-Dec-2019	37,331.4	Management	<p>Management</p> <ul style="list-style-type: none"> > A shareholder group headlined by former director and founding family member Jeanne Farmer Grossman, which collectively owns approximately 4.9 percent of shares outstanding, has nominated two directors to the eight-member board. > One of the dissident nominees is Grossman's nephew, while the other ran unsuccessfully as a dissident nominee in a proxy contest waged by another founding family member at the 2016 AGM. > FARM is attempting to execute on a revised turnaround strategy, necessitated by financial and operational deterioration under the former CEO. The board has proactively recruited several new directors and a new CEO who appears appropriate for the endeavor, and it is addressing the primary operational concerns raised by the dissident, which has failed to articulate a convincing argument in favor of its nominees or to offer solutions that the board is not already exploring. > As such, the dissident has failed to make a compelling case that further board change is necessary at this time. Support for all management nominees on the management (WHITE) card is warranted. > Transitioning to annual elections for all directors would enhance board accountability to shareholders. However, shareholders should note that Item 4 and Item 5 are not interchangeable. Shareholders should support Item 4 (the management proposal) to effect the declassification, and they should support Item 5 (the shareholder proposal) to express continued support for the process.

Contested Meetings Overview

Company	Ticker	ISS Governance QualityScore	Meeting Date	Position Value (USD)*	ISS Recommended Slate	Slate Voted	Key Takeaways
Verso Corporation	VRS	6	31-Jan-2020	56,334.8	Dissident	Dissident	<p>> Atlas Holdings LLC and Blue Wolf Capital Partners LLC, with a combined stake of 9.4 percent, are seeking to replace three of seven management nominees standing for election at this annual meeting (Item 1).</p> <p>> Verso's total shareholder return and operational performance have shown mixed results. The company's belated changes to its board and to corporate governance appear to have been in reaction to pressure from the dissident. Taken as a whole, the dissident has made the case that additional change at the board level is needed. The dissident nominees seem qualified to contribute industry expertise and an investor perspective, which could better align the board with the interests of shareholders. As such, votes for two of the three dissident nominees, Sean Erwin and Jeffrey Kirt, are warranted on the dissident (BLUE) card.</p> <p>> The company ran a strategic alternatives process, during which it talked with the dissident about a possible transaction. After the two parties could not agree on a deal, the company agreed to sell two of its paper mills to Pixelle Specialty Solutions LLC for \$400 million (Item 2). The process appears reasonably thorough and the transaction should benefit the company financially. Furthermore, the valuation looks attractive, the market reaction has been positive, and the company's use of proceeds seems reasonable. Therefore, a vote for the asset sale is warranted.</p> <p>> The absence of a plurality carve-out for contested elections largely negates the positive effect of having a majority voting standard (proposed under Item 8) since the absence of a carve-out may favor incumbents in a contested election.</p> <p>> While the poison pill (Item 7) has a one-year term, less than the three-year threshold, it includes a 15 percent trigger and does not contain a qualified offer provision.</p>
Enzo Biochem, Inc.	ENZ	8	25-Feb-2020	7,533.2	Dissident	Dissident	<p>> Harbert Discovery, an 11.8 percent holder, is seeking to replace two of board's five directors (only three of which are standing for election at this meeting due to the classified board).</p> <p>> The dissident has made a compelling case that board change is warranted, as evidenced by operational deterioration, prolonged absolute and relative TSR underperformance, and substandard corporate governance.</p> <p>> Dissident nominee Blank seems qualified to contribute industry expertise and a fresh perspective which would be additive to the board and appears to be sufficient to prompt the board to address</p>

I. PURPOSE

Pursuant to the provisions of the Government Code sections 87300, et seq., the Board of Retirement of MCERA first adopted a Conflict of Interest Code in 2000 by its Resolution No. 00/01-1. The substantive provisions of that Resolution are set forth under "Code Provisions" below. For purposes of facilitating amendments to the Code and its Exhibit 1 and Appendix, the existing Conflict of Interest Code is hereby restated and reconfirmed. Nothing contained herein is intended to modify or abridge the provisions of the Political Reform Act of 1974 (Gov. Code secs. 81000, et seq.).

II. CODE PROVISIONS

A. The terms of 2 Cal. Code of Regs. Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference as "Exhibit 1" and, along with the attached Appendix consisting of Attachments A through E, in which members and employees are designated and disclosure categories are set forth, and the place of filing is specified, shall constitute the Conflict of Interest Code of the Marin County Employees' Retirement Association.

B. Designated employees, including consultants, as set forth on Attachment B of the Appendix shall file Statements of Economic Interests (Form 700s) with the Retirement Administrator, through the MCERA Clerk of the Board, or by using the electronic filing process specified in Attachment E.

C. Upon receipt of the statements from individuals in the identified and designated positions, MCERA shall retain the original of these statements and maintain a record of their receipt.

D. Board members, as set forth on Attachment A of the Appendix, shall file Statements of Economic Interests (Form 700) with the Retirement Administrator, through the MCERA Clerk of the Board, or by using the electronic filing process specified in Attachment E.

E. Upon receipt of the statements from Board members, MCERA shall retain the original of these statements and maintain a record of their receipt.

F. As soon as possible, MCERA will prepare a Form 806 identifying all of the current paid appointments to MCERA standing committees as to which compensation is \$250 or more per annum, and the completed Form will be posted on MCERA's website. Thereafter, the

B.3.a

posted Form will be amended to include future appointments. If any appointees to such committees vote on those appointments, the Form 806 will be updated and re-posted prior to, and after, such vote, in accordance with FPPC Regulation 18705.5. The Form 806 will also be amended and re-posted promptly upon any of the following circumstances if such circumstance changes any information included on the Form 806: (1) the number of scheduled meetings is changed; (2) there is a change in the compensation paid to the members; or (3) there is a change in membership on the standing committee.

III. CODE REVIEW

The Retirement Board shall review this Code at least every even-numbered year to ensure that it remains relevant and appropriate. The Code may be amended from time to time by majority vote of the Board.

IV. RETIREMENT ADMINISTRATOR'S CERTIFICATE

I, Jeff Wickman, the duly appointed Retirement Administrator of the Marin County Employees' Retirement Association, hereby certify that this policy was revised, and made effective by the Marin County Employees' Retirement Association on ~~this _____ day of June~~, 201820.

B.3.a

(Regulations of the Fair Political Practices Commission, Title 2, Division 6, California Code of Regulations.)

§ 18730. Provisions of Conflict of Interest Codes.

(a) Incorporation by reference of the terms of this regulation along with the designation of employees and the formulation of disclosure categories in the Appendix referred to below constitute the adoption and promulgation of a conflict of interest code within the meaning of Section 87300 or the amendment of a conflict of interest code within the meaning of Section 87306 if the terms of this regulation are substituted for terms of a conflict of interest code already in effect. A code so amended or adopted and promulgated requires the reporting of reportable items in a manner substantially equivalent to the requirements of article 2 of chapter 7 of the Political Reform Act, Sections 81000, et seq. The requirements of a conflict of interest code are in addition to other requirements of the Political Reform Act, such as the general prohibition against conflicts of interest contained in Section 87100, and to other state or local laws pertaining to conflicts of interest.

(b) The terms of a conflict of interest code amended or adopted and promulgated pursuant to this regulation are as follows:

(1) Section 1. Definitions.

The definitions contained in the Political Reform Act of 1974, regulations of the Fair Political Practices Commission (Regulations 18110, et seq.), and any amendments to the Act or regulations, are incorporated by reference into this conflict of interest code.

(2) Section 2. Designated Employees.

B.3.a

The persons holding positions listed in the Appendix are designated employees. It has been determined that these persons make or participate in the making of decisions which may foreseeably have a material effect on economic interests.

(3) Section 3. Disclosure Categories.

This code does not establish any disclosure obligation for those designated employees who are also specified in Section 87200 if they are designated in this code in that same capacity or if the geographical jurisdiction of this agency is the same as or is wholly included within the jurisdiction in which those persons must report their economic interests pursuant to article 2 of chapter 7 of the Political Reform Act, Sections 87200, et seq.

In addition, this code does not establish any disclosure obligation for any designated employees who are designated in a conflict of interest code for another agency, if all of the following apply:

(A) The geographical jurisdiction of this agency is the same as or is wholly included within the jurisdiction of the other agency;

(B) The disclosure assigned in the code of the other agency is the same as that required under article 2 of chapter 7 of the Political Reform Act, Section 87200; and

(C) The filing officer is the same for both agencies.¹

Such persons are covered by this code for disqualification purposes only. With respect to all other designated employees, the disclosure categories set forth in the Appendix specify which kinds of economic interests are reportable. Such a designated employee shall disclose in his or her statement of economic interests those economic interests he or she has which are of the kind described in the disclosure categories to which he or she is assigned in the Appendix. It has been determined that the economic interests set forth in a designated employee's disclosure categories

B.3.a

are the kinds of economic interests which he or she foreseeably can affect materially through the conduct of his or her office.

(4) Section 4. Statements of Economic Interests: Place of Filing.

The code reviewing body shall instruct all designated employees within its code to file statements of economic interests with the agency or with the code reviewing body, as provided by the code reviewing body in the agency's conflict of interest code.²

(5) Section 5. Statements of Economic Interests: Time of Filing.

(A) Initial Statements. All designated employees employed by the agency on the effective date of this code, as originally adopted, promulgated and approved by the code reviewing body, shall file statements within 30 days after the effective date of this code. Thereafter, each person already in a position when it is designated by an amendment to this code shall file an initial statement within 30 days after the effective date of the amendment.

(B) Assuming Office Statements. All persons assuming designated positions after the effective date of this code shall file statements within 30 days after assuming the designated positions, or if subject to State Senate confirmation, 30 days after being nominated or appointed.

(C) Annual Statements. All designated employees shall file statements no later than April 1. If a person reports for military service as defined in the Servicemember's Civil Relief Act, the deadline for the annual statement of economic interests is 30 days following his or her return to office, provided the person, or someone authorized to represent the person's interests, notifies the filing officer in writing prior to the applicable filing deadline that he or she is subject to that federal statute and is unable to meet the applicable deadline, and provides the filing officer verification of his or her military status.

B.3.a

(D) Leaving Office Statements. All persons who leave designated positions shall file statements within 30 days after leaving office.

(5.5) Section 5.5. Statements for Persons Who Resign Prior to Assuming Office.

Any person who resigns within 12 months of initial appointment, or within 30 days of the date of notice provided by the filing officer to file an assuming office statement, is not deemed to have assumed office or left office, provided he or she did not make or participate in the making of, or use his or her position to influence any decision and did not receive or become entitled to receive any form of payment as a result of his or her appointment. Such persons shall not file either an assuming or leaving office statement.

(A) Any person who resigns a position within 30 days of the date of a notice from the filing officer shall do both of the following:

(1) File a written resignation with the appointing power; and

(2) File a written statement with the filing officer declaring under penalty of perjury that during the period between appointment and resignation he or she did not make, participate in the making, or use the position to influence any decision of the agency or receive, or become entitled to receive, any form of payment by virtue of being appointed to the position.

(6) Section 6. Contents of and Period Covered by Statements of Economic Interests.

(A)) Contents of Initial Statements.

Initial statements shall disclose any reportable investments, interests in real property and business positions held on the effective date of the code and income received during the 12 months prior to the effective date of the code.

(B)) Contents of Assuming Office Statements.

B.3.a

Assuming office statements shall disclose any reportable investments, interests in real property and business positions held on the date of assuming office or, if subject to State Senate confirmation or appointment, on the date of nomination, and income received during the 12 months prior to the date of assuming office or the date of being appointed or nominated, respectively.

(C) Contents of Annual Statements. Annual statements shall disclose any reportable investments, interests in real property, income and business positions held or received during the previous calendar year provided, however, that the period covered by an employee's first annual statement shall begin on the effective date of the code or the date of assuming office whichever is later, or for a board or commission member subject to Section 87302.6, the day after the closing date of the most recent statement filed by the member pursuant to Regulation 18754.

(D) Contents of Leaving Office Statements.

Leaving office statements shall disclose reportable investments, interests in real property, income and business positions held or received during the period between the closing date of the last statement filed and the date of leaving office.

(7) Section 7. Manner of Reporting.

Statements of economic interests shall be made on forms prescribed by the Fair Political Practices Commission and supplied by the agency, and shall contain the following information:

(A) Investment and Real Property Disclosure.

When an investment or an interest in real property³ is required to be reported,⁴ the statement shall contain the following:

1. A statement of the nature of the investment or interest;

B.3.a

2. The name of the business entity in which each investment is held, and a general description of the business activity in which the business entity is engaged;

3. The address or other precise location of the real property;

4. A statement whether the fair market value of the investment or interest in real property equals or exceeds \$2,000, exceeds \$10,000, exceeds \$100,000, or exceeds \$1,000,000.

(B)) Personal Income Disclosure. When personal income is required to be reported,⁵ the statement shall contain:

1. The name and address of each source of income aggregating \$500 or more in value, or \$50 or more in value if the income was a gift, and a general description of the business activity, if any, of each source;

2. A statement whether the aggregate value of income from each source, or in the case of a loan, the highest amount owed to each source, was \$1,000 or less, greater than \$1,000, greater than \$10,000, or greater than \$100,000;

3. A description of the consideration, if any, for which the income was received;

4. In the case of a gift, the name, address and business activity of the donor and any intermediary through which the gift was made; a description of the gift; the amount or value of the gift; and the date on which the gift was received;

5. In the case of a loan, the annual interest rate and the security, if any, given for the loan and the term of the loan.

(C) Business Entity Income Disclosure. When income of a business entity, including income of a sole proprietorship, is required to be reported,⁶ the statement shall contain:

1. The name, address, and a general description of the business activity of the business entity;

B.3.a

2. The name of every person from whom the business entity received payments if the filer's pro rata share of gross receipts from such person was equal to or greater than \$10,000.

(D) Business Position Disclosure. When business positions are required to be reported, a designated employee shall list the name and address of each business entity in which he or she is a director, officer, partner, trustee, employee, or in which he or she holds any position of management, a description of the business activity in which the business entity is engaged, and the designated employee's position with the business entity.

(E) Acquisition or Disposal During Reporting Period. In the case of an annual or leaving office statement, if an investment or an interest in real property was partially or wholly acquired or disposed of during the period covered by the statement, the statement shall contain the date of acquisition or disposal.

(8) Section 8. Prohibition on Receipt of Honoraria.

(A) No member of a state board or commission, and no designated employee of a state or local government agency, shall accept any honorarium from any source, if the member or employee would be required to report the receipt of income or gifts from that source on his or her statement of economic interests.

(B) This section shall not apply to any part-time member of the governing board of any public institution of higher education, unless the member is also an elected official.

(C) Subdivisions (a), (b), and (c) of Section 89501 shall apply to the prohibitions in this section.

(D) This section shall not limit or prohibit payments, advances, or reimbursements for travel and related lodging and subsistence authorized by Section 89506.

(8.1) Section 8.1. Prohibition on Receipt of Gifts in Excess of \$~~470~~500.

B.3.a

(A) No member of a state board or commission, and no designated employee of a state or local government agency, shall accept gifts with a total value of more than \$~~470~~500 in a calendar year from any single source, if the member or employee would be required to report the receipt of income or gifts from that source on his or her statement of economic interests.

(B) This section shall not apply to any part-time member of the governing board of any public institution of higher education, unless the member is also an elected official.

(C) Subdivisions (e), (f), and (g) of Section 89503 shall apply to the prohibitions in this section.

(8.2) Section 8.2. Loans to Public Officials.

(A) No elected officer of a state or local government agency shall, from the date of his or her election to office through the date that he or she vacates office, receive a personal loan from any officer, employee, member, or consultant of the state or local government agency in which the elected officer holds office or over which the elected officer's agency has direction and control.

(B) No public official who is exempt from the state civil service system pursuant to subdivisions (c), (d), (e), (f), and (g) of Section 4 of Article VII of the Constitution shall, while he or she holds office, receive a personal loan from any officer, employee, member, or consultant of the state or local government agency in which the public official holds office or over which the public official's agency has direction and control. This subdivision shall not apply to loans made to a public official whose duties are solely secretarial, clerical, or manual.

(C) No elected officer of a state or local government agency shall, from the date of his or her election to office through the date that he or she vacates office, receive a personal loan from any person who has a contract with the state or local government agency to which that elected

B.3.a

officer has been elected or over which that elected officer's agency has direction and control.

This subdivision shall not apply to loans made by banks or other financial institutions or to any indebtedness created as part of a retail installment or credit card transaction, if the loan is made or the indebtedness created in the lender's regular course of business on terms available to members of the public without regard to the elected officer's official status.

(D) No public official who is exempt from the state civil service system pursuant to subdivisions (c), (d), (e), (f), and (g) of Section 4 of Article VII of the Constitution shall, while he or she holds office, receive a personal loan from any person who has a contract with the state or local government agency to which that elected officer has been elected or over which that elected officer's agency has direction and control. This subdivision shall not apply to loans made by banks or other financial institutions or to any indebtedness created as part of a retail installment or credit card transaction, if the loan is made or the indebtedness created in the lender's regular course of business on terms available to members of the public without regard to the elected officer's official status. This subdivision shall not apply to loans made to a public official whose duties are solely secretarial, clerical, or manual.

(E) This section shall not apply to the following:

1. Loans made to the campaign committee of an elected officer or candidate for elective office.
2. Loans made by a public official's spouse, child, parent, grandparent, grandchild, brother, sister, parent-in-law, brother-in-law, sister-in-law, nephew, niece, aunt, uncle, or first cousin, or the spouse of any such persons, provided that the person making the loan is not acting as an agent or intermediary for any person not otherwise exempted under this section.
3. Loans from a person which, in the aggregate, do not exceed \$500 at any given time.

B.3.a

4. Loans made, or offered in writing, before January 1, 1998.

(8.3) Section 8.3. Loan Terms.

(A) Except as set forth in subdivision (B), no elected officer of a state or local government agency shall, from the date of his or her election to office through the date he or she vacates office, receive a personal loan of \$500 or more, except when the loan is in writing and clearly states the terms of the loan, including the parties to the loan agreement, date of the loan, amount of the loan, term of the loan, date or dates when payments shall be due on the loan and the amount of the payments, and the rate of interest paid on the loan.

(B) This section shall not apply to the following types of loans:

1. Loans made to the campaign committee of the elected officer.
2. Loans made to the elected officer by his or her spouse, child, parent, grandparent, grandchild, brother, sister, parent-in-law, brother-in-law, sister-in-law, nephew, niece, aunt, uncle, or first cousin, or the spouse of any such person, provided that the person making the loan is not acting as an agent or intermediary for any person not otherwise exempted under this section.

3. Loans made, or offered in writing, before January 1, 1998.

(C) Nothing in this section shall exempt any person from any other provision of Title 9 of the Government Code.

(8.4) Section 8.4. Personal Loans.

(A) Except as set forth in subdivision (B), a personal loan received by any designated employee shall become a gift to the designated employee for the purposes of this section in the following circumstances:

B.3.a

1. If the loan has a defined date or dates for repayment, when the statute of limitations for filing an action for default has expired.

2. If the loan has no defined date or dates for repayment, when one year has elapsed from the later of the following:

- a. The date the loan was made.
- b. The date the last payment of \$100 or more was made on the loan.
- c. The date upon which the debtor has made payments on the loan aggregating to less than \$250 during the previous 12 months.

(B) This section shall not apply to the following types of loans:

1. A loan made to the campaign committee of an elected officer or a candidate for elective office.
2. A loan that would otherwise not be a gift as defined in this title.
3. A loan that would otherwise be a gift as set forth under subdivision (A), but on which the creditor has taken reasonable action to collect the balance due.
4. A loan that would otherwise be a gift as set forth under subdivision (A), but on which the creditor, based on reasonable business considerations, has not undertaken collection action. Except in a criminal action, a creditor who claims that a loan is not a gift on the basis of this paragraph has the burden of proving that the decision for not taking collection action was based on reasonable business considerations.
5. A loan made to a debtor who has filed for bankruptcy and the loan is ultimately discharged in bankruptcy.

(C) Nothing in this section shall exempt any person from any other provisions of Title 9 of the Government Code.

B.3.a

(9) Section 9. Disqualification.

No designated employee shall make, participate in making, or in any way attempt to use his or her official position to influence the making of any governmental decision which he or she knows or has reason to know will have a reasonably foreseeable material financial effect, distinguishable from its effect on the public generally, on the official or a member of his or her immediate family or on:

(A) Any business entity in which the designated employee has a direct or indirect investment worth \$2,000 or more;

(B) Any real property in which the designated employee has a direct or indirect interest worth \$2,000 or more;

(C) Any source of income, other than gifts and other than loans by a commercial lending institution in the regular course of business on terms available to the public without regard to official status, aggregating \$500 or more in value provided to, received by or promised to the designated employee within 12 months prior to the time when the decision is made;

(D) Any business entity in which the designated employee is a director, officer, partner, trustee, employee, or holds any position of management; or

(E) Any donor of, or any intermediary or agent for a donor of, a gift or gifts aggregating ~~\$470~~500 or more provided to, received by, or promised to the designated employee within 12 months prior to the time when the decision is made.

(9.3) Section 9.3. Legally Required Participation.

No designated employee shall be prevented from making or participating in the making of any decision to the extent his or her participation is legally required for the decision to be made. The

B.3.a

~~made.~~ The fact that the vote of a designated employee who is on a voting body is needed to break a tie does not make his or her participation legally required for purposes of this section.

(9.5) Section 9.5. Disqualification of State Officers and Employees.

In addition to the general disqualification provisions of section 9, no state administrative official shall make, participate in making, or use his or her official position to influence any governmental decision directly relating to any contract where the state administrative official knows or has reason to know that any party to the contract is a person with whom the state administrative official, or any member of his or her immediate family has, within 12 months prior to the time when the official action is to be taken:

(A) Engaged in a business transaction or transactions on terms not available to members of the public, regarding any investment or interest in real property; or

(B) Engaged in a business transaction or transactions on terms not available to members of the public regarding the rendering of goods or services totaling in value \$1,000 or more.

(10) Section 10. Disclosure of Disqualifying Interest.

When a designated employee determines that he or she should not make a governmental decision because he or she has a disqualifying interest in it, the determination not to act may be accompanied by disclosure of the disqualifying interest.

(11) Section 11. Assistance of the Commission and Counsel.

Any designated employee who is unsure of his or her duties under this code may request assistance from the Fair Political Practices Commission pursuant to Section 83114 and Regulations 18329 and 18329.5 or from the attorney for his or her agency, provided that nothing in this section requires the attorney for the agency to issue any formal or informal opinion.

(12) Section 12. Violations.

B.3.a

This code has the force and effect of law. Designated employees violating any provision of this code are subject to the administrative, criminal and civil sanctions provided in the Political Reform Act, Sections 81000-91014. In addition, a decision in relation to which a violation of the disqualification provisions of this code or of Section 87100 or 87450 has occurred may be set aside as void pursuant to Section 91003.

¹ Designated employees who are required to file statements of economic interests under any other agency's conflict of interest code, or under article 2 for a different jurisdiction, may expand their statement of economic interests to cover reportable interests in both jurisdictions, and file copies of this expanded statement with both entities in lieu of filing separate and distinct statements, provided that each copy of such expanded statement filed in place of an original is signed and verified by the designated employee as if it were an original. See Section 81004.

² See Section 81010 and Regulation 18115 for the duties of filing officers and persons in agencies who make and retain copies of statements and forward the originals to the filing officer.

³ For the purpose of disclosure only (not disqualification), an interest in real property does not include the principal residence of the filer.

⁴ Investments and interests in real property which have a fair market value of less than \$2,000 are not investments and interests in real property within the meaning of the Political Reform Act.-

However, investments or interests in real property of an individual include those held by the individual's spouse and dependent children as well as a pro rata share of any investment or interest in real property of any business entity or trust in which the individual, spouse and dependent children own, in the aggregate, a direct, indirect or beneficial interest of 10 percent or

B.3.a

greater.

⁵ A designated employee's income includes his or her community property interest in the income of his or her spouse but does not include salary or reimbursement for expenses received from a state, local or federal government agency.

⁶ Income of a business entity is reportable if the direct, indirect or beneficial interest of the filer and the filer's spouse in the business entity aggregates a 10 percent or greater interest. In addition, the disclosure of persons who are clients or customers of a business entity is required only if the clients or customers are within one of the disclosure categories of the filer.

B.4.a

1.1 Nature and Purpose of MCERA’s Proxy Voting and Corporate Governance Policies:

The Marin County Employees’ Retirement Association (“MCERA”) policies neither bind members nor corporations. They are designed to provide guidelines that MCERA has found to be appropriate in most situations.

1.2 Federal and State Law Compliance: MCERA expects that corporations will comply with all applicable federal and state laws and regulations and stock exchange listing standards.

1.3 Disclosed Governance Policies and Ethics Code: MCERA believes every company should have written, disclosed governance procedures and policies, an ethics code that applies to all employees and directors, and provisions for its strict enforcement. MCERA posts its proxy voting and corporate governance policies on its Web site (www.mcera.org); it hopes corporate boards will meet or exceed these standards and adopt similarly appropriate additional policies to best protect shareholders’ interests.

1.4 Accountability to Shareholders: In general, MCERA believes that corporate governance structures and practices should protect and enhance accountability to and ensure equal financial treatment of, shareholders. An action should not be taken if its purpose is to reduce accountability to shareholders.

1.5 Shareholders Participation: MCERA also believes shareholders should have meaningful ability to participate in the major fundamental decisions that affect corporate viability, and meaningful opportunities to suggest or nominate director candidates and to suggest processes and criteria for director selection and evaluation.

1.6 Business Practices and Corporate Citizenship: MCERA believes companies should adhere to responsible business practices and practice good corporate citizenship. Promotion, adoption and effective implementation of guidelines for the responsible conduct of business and business relationships are consistent with the fiduciary responsibility of protecting long-term investment interests.

1.7 Governance Practices at Public and Private Companies: MCERA believes good governance practices should be followed by publicly traded companies, private companies and companies in the process of going public. As such, MCERA believes that, consistent with their fiduciary obligations to their limited partners, the general members of venture capital, buyout and other private equity funds should use appropriate efforts to encourage companies in which they invest to adopt long-term corporate governance provisions that are consistent with MCERA’s policies.

1.8 Reincorporation: MCERA believes that U.S. companies should not reincorporate to offshore locations because corporate governance structures there are weaker and therefore reduce management accountability to shareholders.

2. Proxy Voting Policy

2.1 Proxy Voting – Standards by Investment Type

2.2 Proxy Voting – Policies and Procedures

2.1 Proxy Voting – Standards by Investment Type

Public Equity Investments in Separate Accounts

Proxy voting may be performed by staff, contracted to a third-party vendor, or delegated to the investment manager in accordance with MCERA's Proxy Voting and Corporate Governance Policy.

U.S. Equity Commingled Accounts

For U.S. equity commingled accounts, MCERA will vote proxies in the companies in which MCERA holds an indirect public equity interest, in accordance with the guidelines set forth in MCERA's Proxy Voting and Corporate Governance Policy.

Other Mutual Funds and Commingled Funds

With respect to mutual funds and commingled funds, MCERA does not have a direct equity position, but holds units or shares in a mutual fund or commingled fund. The mutual fund or commingled fund is responsible for establishing appropriate guidelines and voting proxies. These proxies are voted according to the guidelines outlined in the mutual fund prospectus and/or established by the investment company managing the commingled fund. MCERA will inform the mutual funds and the commingled funds in which it invests of MCERA's Proxy Voting and Corporate Governance Policy on at least an annual basis. MCERA will work with the mutual funds and commingled funds, where possible, as to how MCERA might provide input to the funds on proxy voting issues.

International Proxy Voting and Market Differences

Proxy voting in international markets differs somewhat from proxy voting in the U.S. markets, due to the various country specific laws, customs, and regulations. The proxy voting rights in international equity investments will be exercised as deemed appropriate by MCERA, taking into consideration any restriction that may be placed on the liquidity of the position or any other impediment to proxy voting. In making these decisions, MCERA will follow conventions considered best practice that allow for differences in local market conditions.

2.2 Proxy Voting – Policies and Procedures

MCERA acknowledges that the ownership of equities requires proxies to be voted. MCERA commits to managing its proxy voting rights with the same care, skill, diligence and prudence as is exercised in managing its other assets. As responsible fiduciaries, the Board of Retirement will exercise its proxy voting rights in the sole interest of the Plan's members and beneficiaries in accordance with all applicable statutes. Furthermore, the following policies and procedures shall be utilized in the determination of voting shareholder proxies:

- All proxies shall be voted by MCERA's equity investment managers consistent with their respective policies on proxy voting and in the best interest of the shareholders. The investment managers will provide a copy of their proxy voting guidelines to MCERA annually.
- For proxy proposals that are deemed by MCERA to merit review, MCERA may temporarily revoke an investment manager's proxy voting authority in writing. After MCERA has voted on the proxy, proxy voting responsibilities may be delegated (in writing) to the investment manager.

B.4.a

- The investment managers are required to report not less often than semi-annually on all proxy votes cast on MCERA's behalf, which will be reported to the MCERA Governance Committee.
- A record of said proxy votes shall be maintained in the Retirement Office.

3. The Board of Directors

- 3.1 Annual Election of Directors**
- 3.2 Director Elections**
- 3.3 Independent Board**
- 3.4 Independent Chair/Lead Director**
- 3.5 All-independent Board Committees**
- 3.6 Board Accountability to Shareholders**
- 3.7 Board/Director Succession Planning and Evaluation**
- 3.8 CEO Succession Planning**
- 3.9 "Continuing Directors"**
- 3.10 Board Size and Service**
- 3.11 Board Operations**
- 3.12 Auditor Independence**
- 3.13 Charitable and Political Contributions**

3.1 Annual Election of Directors: All directors should be elected annually and should not be classified (staggered).

3.2 Director Elections: Directors in uncontested elections should be elected by a majority of the votes cast. In contested elections, plurality voting should apply. An election is contested when there are more director candidates than there are available board seats. Directors who fail to receive the support of a majority of votes cast should step down from the board and not be reappointed. A modest transition period may be appropriate under certain circumstances, such as for directors keeping the company in compliance with legal or listing standards. But any director who does not receive the majority of votes cast should leave the board as soon as practicable.

3.3 Independent Board: At least two-thirds of the directors should be independent; i.e., their seat on the board should be their only non-trivial professional, familial or financial connection to the corporation, its chairman, CEO or any other executive officer. The company should disclose information necessary for shareholders to determine whether directors qualify as independent, whether or not the disclosure is required by state or federal law. This information should include all financial or business relationships with and payments to directors and their families and all significant payments to companies, non-profits, foundations and other organizations where company directors serve as employees, officers or directors (see Explanatory Notes at Section 7, below).

3.4 Independent Chair/Lead Director: The board should be chaired by an independent director. The CEO and chair roles should only be combined in very limited circumstances; in these situations, the board should provide a written statement in the proxy materials discussing why the combined role is in the best interests of shareholders, and it should name a lead independent director who should have approval over information flow to the board, meeting

B.4.a

agendas and meeting schedules to ensure a structure that provides an appropriate balance between the powers of the CEO and those of the independent directors.

Other roles of the lead independent director should include chairing meetings of non-management directors and of independent directors, presiding over board meetings in the absence of the chair, serving as the principle liaison between the independent directors and the chair and leading the board/director evaluation process. Given these additional responsibilities, the lead independent director should expect to devote a greater amount of time to board service than the other directors.

3.5 All-independent Board Committees: Companies should have audit, nominating and compensation committees, and all members of these committees should be independent. The board (not the CEO) should appoint the committee chairs and members. Committees should be able to select their own service providers. Some regularly scheduled committee meetings should be held with only the committee members (and, if appropriate, the committee's independent consultants) present. The process by which committee members and chairs are selected should be disclosed to shareholders.

3.6 Board Accountability to Shareholders

3.6a Majority Shareholder Votes: Boards should take actions recommended in shareholder proposals that receive a majority of votes cast for and against. If shareholder approval is required for the action, the board should seek a binding vote on the action at the next shareholder meeting.

3.6b Interaction with Shareholders: Directors should respond to communications from shareholders and should seek shareholder views on important governance, management and performance matters. All directors should attend the annual shareholders' meetings and be available, when requested by the chair, to answer shareholder questions. To accomplish this goal, all companies should establish board-shareholder communications policies. Such policies should disclose the ground rules by which directors will meet with shareholders. The policies should also include detailed contact information for at least one independent director (but preferably for the independent board chair and/or the independent lead director and the independent chairs of the audit, compensation and nominating committees).

Shareholder-director communication: All companies should also establish mechanisms by which shareholders with non-trivial concerns could communicate directly with all directors, including independent directors. At a minimum, there should be an open meeting in connection with the company's annual meeting (before or after) in which shareholders could ask questions and communicate their concerns to the independent directors. Policies requiring that all director communication go through a member of the management team should be avoided unless they are for record-keeping purposes. In such cases, procedures documenting receipt and delivery of the request to the board and its response must be maintained and made available to shareholders upon request. Directors should have access to all communications. Boards should determine whether outside counsel should be present at meetings with shareholders to monitor compliance with disclosure rules.

During the annual general meeting, shareholders should have the right to ask questions, both orally and in writing. Directors should provide answers or discuss the matters

B.4.a

raised, regardless of whether the questions were submitted in advance. While reasonable time limits for questions are acceptable, the board should not ignore a question because it comes from a shareholder who holds a smaller number of shares or who has not held those shares for a certain length of time.

3.7 Board/Director Succession Planning and Evaluation

3.7a Board Succession Planning: The board should implement and disclose a board succession plan that involves preparing for future board retirements, committee assignment rotations, committee chair nominations and overall implementation of the company's long-term business plan. Boards should establish clear procedures to encourage and consider board nomination suggestions from long-term shareholders. The board should respond positively to shareholder requests seeking to discuss incumbent and potential directors.

3.7b Board Diversity: MCERA supports a diverse board. MCERA believes a diverse board has benefits that can enhance corporate financial performance, particularly in today's global market place. Nominating committee charters, or equivalent, ought to reflect that boards should be diverse, including such considerations as background, experience, age, race, gender, ethnicity, and culture.

Board evaluation. Boards should evaluate themselves and their individual members on a regular basis. Board evaluation should include an assessment of whether the board has the necessary diversity of skills, backgrounds, experiences, ages, races and genders appropriate to the company's ongoing needs. Individual director evaluations should include high standards for in-person attendance at board and committee meetings and disclosure of all absences or conference call substitutions.

3.7c Evaluation of Directors: Boards should review their own performance periodically. That evaluation should include a review of the performance and qualifications of any director who received "against" votes from a significant number of shareholders or for whom a significant number of shareholders withheld votes.

Boards should review the performance and qualifications of any director from whom at least 10 percent of the votes cast are withheld.

3.7d Board and Committee Meeting Attendance: Absent compelling and stated reasons, directors who attend fewer than 75 percent of board and board-committee meetings for two consecutive years should not be renominated. Companies should disclose individual director attendance figures for board and committee meetings. Disclosure should distinguish between in-person and telephonic attendance. Excused absences should not be categorized as attendance.

3.8 CEO Succession Planning: The board should approve and maintain a detailed CEO succession plan and publicly disclose the essential features. An integral facet of management succession planning involves collaboration between the board and the current chief executive to develop the next generation of leaders from within the company's ranks. Boards therefore should: (1) make sure that broad leadership development programs are in place generally; and (2) carefully identify multiple candidates for the CEO role specifically, well before the position needs to be filled.

B.4.a

3.9 “Continuing Directors”: Corporations should not adopt so-called “continuing director” provisions (also known as “dead-hand” poison pills or “no-hand” provisions) that allow former directors who have left office to take action on behalf of the corporation. Such provisions are most commonly seen in connection with a potential change in control of the company) that allow board actions to be taken only by: (1) those continuing directors who were also in office when a specified event took place or (2) a combination of continuing directors plus new directors who are approved by such continuing directors.

3.10 Board Size and Service: Absent compelling, unusual circumstances, a board should have no fewer than five and no more than 15 members (not too small to maintain the needed expertise and independence, and not too large to function efficiently). Shareholders should be allowed to vote on any major change in board size.

Companies should establish and publish guidelines specifying on how many other boards their directors may serve. Absent unusual, specified circumstances, directors with full-time jobs should not serve on more than two other boards. Currently serving CEOs should not serve as a director of more than one other company, and then only if the CEO’s own company is in the top half of its peer group. No person should serve on more than five for-profit company boards.

3.11 Board Operations

3.11a Informed Directors: Directors should receive training from independent sources on their fiduciary responsibilities and liabilities. Directors have an affirmative obligation to become and remain independently familiar with company operations; they should not rely exclusively on information provided to them by the CEO to do their jobs. Directors should be provided meaningful information in a timely manner prior to board meetings and should be allowed reasonable access to management to discuss board issues.

3.11b Director Rights Regarding Board Agenda: Any director should be allowed to place items on the board’s agenda.

3.11c Executive Sessions: The board should hold regularly scheduled executive sessions without the CEO or staff present. The independent directors should also hold regularly scheduled in-person executive sessions without non-independent directors, any of the management team or its staff present.

If the CEO is chairman, a contact director should be specified for directors, wishing to discuss issues or add agenda items that are not appropriately or best forwarded to the chair/CEO.

3.12 Auditor Independence

3.12a Audit Committee Responsibilities Regarding Outside Auditors: As prescribed by law, the audit committee has the responsibility to hire, oversee and, if necessary, fire the company’s outside auditor.

3.12b Competitive Bids: The audit committee should seek competitive bids for the external audit engagement no less frequently than every five years.

B.4.a

3.12c Non-audit Services: The company's external auditor should not perform any non-audit services for the company, except those required by statute or regulation to be performed by a company's external auditor, such as attest services.

3.12d Audit Committee Charters: The proxy statement should include a copy of the audit committee charter and a statement by the audit committee that it has complied with the duties outlined in the charter.

3.12e Liability of Outside Auditors: Companies should not agree to limit the liability of outside auditors.

3.12f Shareholder Votes on the Board's Choice of Outside Auditor: Audit committee charters should provide for annual shareholder votes on the board's choice of independent, external auditor. Such provisions should state that if the board's selection fails to achieve the support of a majority of the for-and-against votes cast, the audit committee should: (1) take the shareholders' views into consideration and reconsider its choice of auditor and (2) solicit the views of major shareholders to determine why broad levels of shareholder support were not achieved.

3.12g Disclosure of Reasons Behind Auditor Changes: The audit committee should publicly provide to shareholders a plain-English explanation of the reasons for a change in the company's external auditors. At a minimum, this disclosure should be contained in the same Securities and Exchange Commission (SEC) filing that companies are required to submit within four days of an auditor change.

3.13 Charitable and Political Contributions

3.13a Board Monitoring, Assessment and Approval: The board of directors should monitor, assess and approve all charitable and political contributions (including trade association contributions) made by the company. The board should only approve contributions that are consistent with the interests of the company and its shareholders. The terms and conditions of such contributions should be clearly defined and approved by the board.

3.13b Disclosure: The board should develop and disclose publicly its guidelines for approving charitable and political contributions. The board should disclose on an annual basis the amounts and recipients of all monetary and non-monetary contributions made by the company during the prior fiscal year. Any expenditures earmarked for political or charitable activities that were provided to or through a third-party should be included in the report.

4. Shareholder Voting Rights

4.1 **Right to Vote is Inviolable**

4.2 **Access to the Proxy**

4.3 **One Share, One Vote**

4.4 **Advance Notice, Holding Requirements and Other Provisions**

4.5 **Confidential Voting**

4.6 **Voting Requirements**

4.7 Broker Votes

4.8 Bundled Voting

4.1 Right to Vote is Inviolable: The shareholders' right to vote is inviolate and should not be abridged.

4.2 Access to the Proxy: Companies should provide access to management proxy materials for a long-term investor or group of long-term investors owning in aggregate at least three percent of a company's voting stock, to nominate less than a majority of the directors. Eligible long-term investors must have owned the stock for at least two years. Company proxy materials and related mailings should provide equal space and equal treatment of nominations by qualifying investors.

To allow for informed voting decisions, it is essential that investors have full and accurate information about access mechanism users and their director nominees. Therefore, shareholders nominating director candidates under an access mechanism should adhere to the same SEC rules governing disclosure requirements and prohibitions on false and misleading statements that currently apply to proxy contests for board seats.

4.3 One Share, One Vote: Each share of common stock should have one vote. Corporations should not have classes of common stock with disparate voting rights. Authorized, unissued common shares that have voting rights to be set by the board should not be issued with unequal voting rights without shareholder approval.

4.4 Advance Notice, Holding Requirements and Other Provisions: Advance notice bylaws, holding requirements, disclosure rules and any other company imposed regulations on the ability of shareholders to solicit proxies beyond those required by law should not be so onerous as to deny sufficient time, limit the pool of eligible candidates, or otherwise make it impractical for shareholders to submit nominations or proposals and distribute supporting proxy materials.

4.5 Confidential Voting: All proxy votes should be confidential, with ballots counted by independent tabulators. Confidentiality should be automatic, permanent and apply to all ballot items. Rules and practices concerning the casting, counting and verifying of shareholder votes should be clearly disclosed.

4.6 Voting Requirements: A majority vote of common shares outstanding should be sufficient to amend company bylaws or take other action requiring or receiving a shareholder vote. Supermajority votes should not be required. A majority vote of common shares outstanding should be required to approve:

- Major corporate decisions concerning the sale or pledge of corporate assets that would have a material effect on shareholder value. Such a transaction will automatically be deemed to have a material effect if the value of the assets exceeds 10 percent of the assets of the company and its subsidiaries on a consolidated basis;
- The corporation's acquiring 5 percent or more of its common shares at above-market prices other than by tender offer to all shareholders;
- Poison pills;

B.4.a

- Abridging or limiting the rights of common shares to: (i) vote on the election or removal of directors or the timing or length of their term of office or (ii) make nominations directors or propose other action to be voted on by shareholders or (iii) call special meetings of shareholders or take action by written consent or affect the procedure for fixing the record date for such action;
- Severance payments in excess of two times the person's average annual compensation for the previous three years.
- *Provisions resulting in the* Issuance of debt to a degree that would excessively leverage the company and imperil the long-term viability of the corporation.

4.7 Broker Votes: Broker non-votes votes and abstentions should be counted only for purposes of a quorum.

4.8 Bundled Voting: Shareholders should be allowed to vote on unrelated issues separately. Individual voting issues (particularly those amending a company's charter), bylaws or anti-takeover provisions should not be bundled.

Stock option plans. Shareholder approval should be required for all equity-based compensation plans that include any director or executive officer of the company, and on plans where the number of reserved shares, together with the company's outstanding equity-based awards and shares available for grant, may have a material impact on the capital structure of the company and the ownership interests of its shareholders (generally, 5 percent dilution).

5. Shareholder Meetings

5.1 Selection and Notification of Meeting Time and Location

5.2 Shareholder Rights to Call Special Meetings

5.3 Record Date and Ballot Item Disclosure

5.4 Timely Disclosure of Voting Results

5.5 Election Polls

5.6 Meeting Adjournment and Extension

5.7 Electronic Meetings

5.8 Director Attendance

5.1 Selection and Notification of Meeting Time and Location: Corporations should make shareholders' expense and convenience of attendance primary criteria when selecting the time and location of shareholder meetings. Appropriate notice of shareholder meetings, including notice concerning any change in meeting date, time, place or shareholder action, should be given to shareholders in a manner and within time frames that will ensure that shareholders have a reasonable opportunity to exercise their franchise.

5.2 Shareholder Rights to Call Special Meetings: Shareholders should have the right to call special meetings.

B.4.a

5.3 Record Date and Ballot Item Disclosure: To promote the ability of shareholders to make informed decisions regarding whether to recall loaned shares: (1) shareholder meeting record dates should be disclosed as far in advance of the record date as possible, and (2) proxy statements should be disclosed before the record date passes whenever possible.

5.4 Timely Disclosure of Voting Results: A company should broadly and publicly disclose in a timely manner the final results of votes cast at annual and special meetings of shareholders. Whenever possible, preliminary results should be announced at the annual or special meeting of shareholders.

5.5 Election Polls: Polls should remain open at shareholder meetings until all agenda items have been discussed and shareholders have had an opportunity to ask and receive answers to questions concerning them.

5.6 Meeting Adjournment and Extension: Companies should not adjourn a meeting for the purpose of soliciting more votes to enable management to prevail on a voting item. Extending a meeting should only be for compelling reasons such as vote fraud, problems with the voting process or lack of a quorum.

5.7 Electronic Meetings: Companies should hold shareholder meetings by remote communication (so-called electronic or “cyber” meetings) only as a supplement to traditional in-person shareholder meetings, not as a substitute.

5.8 Director Attendance: As noted previously, all directors should attend the annual shareholders’ meeting and be available, when requested by the chair, to answer shareholder questions, and respond directly to oral or written questions from shareholders.

B.4.a

6.1 Introduction: MCERA believes that executive compensation is a critical and visible aspect of a company's governance. Pay decisions are one of the most direct ways for shareholders to assess the performance of the board. And they have a bottom line effect, not just in terms of dollar amounts, but also by formalizing performance goals for employees, signaling the market and affecting employee morale.

MCERA endorses reasonable, appropriately structured pay-for-performance programs that reward executives for sustainable, superior performance over the long-term, consistent with a company's investment horizon. "Long-term" is generally considered to be five or more years for mature companies and at least three years for other companies. While MCERA believes that executives should be well paid for superior performance, it also believes that executives should not be excessively paid. It is the job of the board of directors and the compensation committee specifically to ensure that executive compensation programs are effective, reasonable and rational with respect to critical factors such as company performance, industry considerations and compensation paid to other employees.

It is also the job of the compensation committee to ensure that elements of compensation packages are appropriately structured to enhance the company's short- and long-term strategic goals and to retain and motivate executives to achieve those strategic goals. Compensation programs should not be driven by competitive surveys, which have become excessive and subject to abuse. It is shareholders, not executives, whose money is at risk.

Since executive compensation must be tailored to meet unique company needs and situations, compensation programs must always be structured on a company-by-company basis. However, certain principles should apply to all companies.

6.2 CEO pay: Annual approval of at least a majority of a corporation's independent directors should be required for the CEO's compensation, including any bonus, severance, equity-based and/or extraordinary payment.

Boards should award CEOs no more than one form of equity-based compensation.

Pay for directors and managers should be indexed to peer or market groups, absent unusual and specified reasons for not doing so. Boards should consider options with forward contracts to align managers' interests with shareholders'.

6.3 Advisory Shareholder Votes on Executive Pay: All companies should provide annually for advisory shareholder votes on the compensation of senior executives.

6.4 Gross-ups: Senior executives should not receive gross-ups beyond those provided to all the company's employees.

6.5 Shareholder Approval of Equity-based Compensation Plans: Current listing standards require shareholder approval of equity-based compensation plans and material amendments to plans (with limited exceptions). MCERA strongly supports this concept and advocates that companies adopt conservative interpretations of approval requirements when confronted with choices. (For example, this may include material amendments to the plan.)

6.6 Role of Compensation Committee: The compensation committee is responsible for structuring executive pay and evaluating executive performance within the context of the pay

B.4.a

structure of the entire company, subject to approval of the board of directors. To best handle this role, compensation committees should adopt the following principles and practices:

6.6a Committee Composition: All members of the compensation committee should be independent. Committee membership should rotate periodically among the board's independent directors. Members should be or take responsibility to become knowledgeable about compensation and related issues. They should exercise due diligence and independent judgment in carrying out their committee responsibilities. They should represent diverse backgrounds and professional experiences.

6.6b Executive Pay Philosophy: The compensation philosophy should be clearly disclosed to shareholders in annual proxy statements. In developing, approving and monitoring the executive pay philosophy, the compensation committee should consider the full range of pay components, including structure of programs, desired mix of cash and equity awards, goals for distribution of awards throughout the company, the relationship of executive pay to the pay of other employees, use of employment contracts and policy regarding dilution.

6.6c Oversight: The compensation committee should vigorously oversee all aspects of executive compensation for a group composed of the CEO and other highly paid executives, as required by law, and any other highly paid employees, including executives of subsidiaries, special purpose entities and other affiliates, as determined by the compensation committee. The committee should ensure that the structure of employee compensation throughout the company is fair, non-discriminatory and forward-looking, and that it motivates, recruits and retains a workforce capable of meeting the company's strategic objectives. To perform its oversight duties, the committee should approve, comply with and fully disclose a charter detailing its responsibilities.

6.6d Pay for Performance: Compensation of the executive oversight group should be driven predominantly by performance. The compensation committee should establish performance measures for executive compensation that are agreed to ahead of time and publicly disclosed. Performance measures applicable to all performance-based awards (including annual and long-term incentive compensation) should reward superior performance—based predominantly on measures that drive long-term value creation—at minimum reasonable cost. Such measures should also reflect downside risk. The compensation committee should ensure that key performance metrics cannot be manipulated easily.

6.6e Annual Approval and Review: Each year, the compensation committee should review performance of individuals in the oversight group and approve any bonus, severance, equity-based award or extraordinary payment made to them. The committee should understand all components of executive compensation and annually review total compensation potentially payable to the oversight group under all possible scenarios, including death/disability, retirement, voluntary termination, termination with and without cause and changes of control. The committee should also ensure that the structure of pay at different levels (CEO and others in the oversight group, other executives and non-executive employees) is fair and appropriate in the context of broader company policies and goals and fully justified and explained.

6.6f Committee Accountability: In addition to attending all annual and special shareholder meetings, committee members should be available to respond directly to

B.4.a

questions about executive compensation; the chair of the committee should take the lead. In addition, the committee should regularly report on its activities to the independent directors of the board, who should review and ratify committee decisions. Committee members should take an active role in preparing the compensation committee report contained in the annual proxy materials, and be responsible for the contents of that report.

6.6g Outside Advice: The compensation committee should retain and fire outside experts, including consultants, legal advisers and any other advisers when it deems appropriate, including when negotiating contracts with executives. Individual compensation advisers and their firms should be independent of the client company, its executives and directors and should report solely to the compensation committee. The compensation committee should develop and disclose a formal policy on compensation adviser independence. In addition, the committee should annually disclose an assessment of its advisers' independence, along with a description of the nature and dollar amounts of services commissioned from the advisers and their firms by the client company's management. Companies should not agree to indemnify or limit the liability of compensation advisers or the advisers' firms.

6.6h Clawbacks: The compensation committee should develop and disclose a policy for reviewing unearned bonus and incentive payments that were awarded to executive officers owing to fraud, financial results that require restatement or some other cause. The policy should require recovery or cancellation of any unearned awards to the extent that it is feasible and practical to do so.

6.6i Disclosure Practices: The compensation committee is responsible for ensuring that all aspects of executive compensation are clearly, comprehensively and promptly disclosed, in plain English, in the annual proxy statement regardless of whether such disclosure is required by current rules and regulations. The compensation committee should disclose all information necessary for shareholders to understand how and how much executives are paid and how such pay fits within the overall pay structure of the company. It should provide annual proxy statement disclosure of the committee's compensation decisions with respect to salary, short-term incentive compensation, long-term incentive compensation and all other aspects of executive compensation, including the relative weights assigned to each component of total compensation.

The compensation committee should commit to provide full descriptions of the qualitative and quantitative performance measures and benchmarks used to determine compensation, including the weightings of each measure. At the beginning of a period, the compensation committee should calculate and disclose the maximum compensation payable if all performance-related targets are met. At the end of the performance cycle, the compensation committee should disclose actual targets and details on final payouts. Companies should provide forward-looking disclosure of performance targets whenever possible. Other recommended disclosures relevant to specific elements of executive compensation are detailed below.

6.6j Benchmarking: Benchmarking at median or higher levels is a primary contributor to escalating executive compensation. Although benchmarking can be a constructive tool for formulating executive compensation packages, it should not be relied on exclusively. If benchmarking is used, compensation committees should commit to annual disclosure of the companies in peer groups used for benchmarking and/or other

B.4.a

comparisons. If the peer group used for compensation purposes differs from that used to compare overall performance, such as the five-year stock return graph required in the annual proxy materials, the compensation committee should describe the differences between the groups and the rationale for choosing between them. In addition to disclosing names of companies used for benchmarking and comparisons, the compensation committee should disclose targets for each compensation element relative to the peer/benchmarking group and year-to-year changes in companies composing peer/benchmark groups.

6.7 Salary

6.7a Salary Level: Since salary is one of the few components of executive compensation that is not “at risk,” it should be set at a level that yields the highest value for the company at least cost. In general, salary should be set to reflect responsibilities, tenure and past performance, and to be tax efficient—meaning no more than \$1 million.

6.7b Above-median Salary: The compensation committee should publicly disclose its rationale for paying salaries above the median of the peer group.

6.8 Annual Incentive Compensation: Cash incentive compensation plans should be structured to align executive interests with company goals and objectives. They should also reasonably reward superior performance that meets or exceeds well-defined and clearly disclosed performance targets that reinforce long-term strategic goals that were written and approved by the board in advance of the performance cycle.

6.8a Formula Plans: The compensation committee should approve formulaic bonus plans containing specific qualitative and quantitative performance-based operational measures designed to reward executives for superior performance related to operational/strategic/other goals set by the board. Such awards should be capped at a reasonable maximum level. These caps should not be calculated as percentages of accounting or other financial measures (such as revenue, operating income or net profit), since these figures may change dramatically due to mergers, acquisitions and other non-performance-related strategic or accounting decisions.

6.8b Targets: When setting performance goals for “target” bonuses, the compensation committee should set performance levels below which no bonuses would be paid and above which bonuses would be capped.

6.8c Changing Targets: Except in extraordinary situations, the compensation committee should not “lower the bar” by changing performance targets in the middle of bonus cycles. If the committee decides that changes in performance targets are warranted in the middle of a performance cycle, it should disclose the reasons for the change and details of the initial targets and adjusted targets.

6.9 Long-term Incentive Compensation: Long-term incentive compensation, generally in the form of equity-based awards, can be structured to achieve a variety of long-term objectives, including retaining executives, aligning executives’ financial interests with the interests of shareholders and rewarding the achievement of long-term specified strategic goals of the company and/or the superior performance of company stock.

But poorly structured awards permit excessive or abusive pay that is detrimental to the company

B.4.a

and to shareholders. To maximize effectiveness and efficiency, compensation committees should carefully evaluate the costs and benefits of long-term incentive compensation, ensure that long-term compensation is appropriately structured and consider whether performance and incentive objectives would be enhanced if awards were distributed throughout the company, not simply to top executives.

Companies may rely on a myriad of long-term incentive vehicles to achieve a variety of long-term objectives, including performance-based restricted stock/units, phantom shares, stock units and stock options. While the technical underpinnings of long-term incentive awards may differ, the following principles and practices apply to all long-term incentive compensation awards. And, as detailed below, certain policies are relevant to specific types of long-term incentive awards.

6.9a Size of Awards: Compensation committees should set appropriate limits on the size of long-term incentive awards granted to executives. So-called “mega-awards” or outsized awards should be avoided, except in extraordinary circumstances, because they can be disproportionate to performance.

6.9b Vesting Requirements: All long-term incentive awards should have meaningful performance periods and/or cliff vesting requirements that are consistent with the company’s investment horizon but not less than three years, followed by pro rata vesting over at least two subsequent years for senior executives.

6.9c Grant Timing: Except in extraordinary circumstances, such as a permanent change in performance cycles, long-term incentive awards should be granted at the same time each year. Companies should not coordinate stock award grants with the release of material non-public information. The grants should occur whether recently publicized information is positive or negative, and stock options should never be backdated.

6.9d Hedging: Compensation committees should prohibit executives and directors from hedging (by buying puts and selling calls or employing other risk-minimizing techniques) equity-based awards granted as long-term incentive compensation or other stock holdings in the company. And they should strongly discourage other employees from hedging their holdings in company stock.

6.9e Philosophy/Strategy: Compensation committees should have a well-articulated philosophy and strategy for long-term incentive compensation that is fully and clearly disclosed in the annual proxy statement.

6.9f Award Specifics: Compensation committees should disclose the size, distribution, vesting requirements, other performance criteria and grant timing of each type of long-term incentive award granted to the executive oversight group. Compensation committees also should explain how each component contributes to the company’s long-term performance objectives.

6.9g Ownership Targets: Compensation committees should disclose whether and how long-term incentive compensation may be used to satisfy meaningful stock ownership requirements. Disclosure should include any post-exercise holding periods or other requirements to ensure that long-term incentive compensation is used appropriately to meet ownership targets.

B.4.a

6.9h Expiration Dates: Compensation plans should have expiration dates and not be structured as “evergreen,” rolling plans.

6.10 Dilution: Dilution measures how much the additional issuance of stock may reduce existing shareholders’ stake in a company. Dilution is particularly relevant for long-term incentive compensation plans since these programs essentially issue stock at below-market prices to the recipients. The potential dilution represented by long-term incentive compensation plans is a direct cost to shareholders.

Dilution from long-term incentive compensation plans may be evaluated using a variety of techniques including the reduction in earnings per share and voting power resulting from the increase in outstanding shares.

6.10a Philosophy/Strategy: Compensation committees should develop and disclose the philosophy regarding dilution including definition(s) of dilution, peer group comparisons and specific targets for annual awards and total potential dilution represented by equity compensation programs for the current year and expected for the subsequent four years.

6.10b Stock Repurchase Programs: Stock buyback decisions are a capital allocation decision and should not be driven solely for the purpose of minimizing dilution from equity-based compensation plans. The compensation committee should provide information about stock repurchase programs and the extent to which such programs are used to minimize the dilution of equity-based compensation plans.

6.10c Tabular Disclosure: The annual proxy statement should include a table detailing the overhang represented by unexercised options and shares available for award and a discussion of the impact of the awards on earnings per share.

6.11 Stock Option Awards: Stock options give holders the right, but not the obligation, to buy stock in the future. Options may be structured in a variety of ways. Some structures and policies are preferable because they more effectively ensure that executives are compensated for superior performance. Other structures and policies are inappropriate and should be prohibited.

6.11a Performance Options: Stock options should be: (1) indexed to peer groups or (2) premium-priced and/or (3) vest on achievement of specific performance targets that are based on challenging quantitative goals.

6.11b Dividend Equivalents: To ensure that executives are neutral between dividends and stock price appreciation, dividend equivalents should be granted with stock options, but distributed only upon exercise of the option.

6.11c Discount Options: Discount options should not be awarded.

6.11d Reload Options: Reload options should be prohibited.

6.11e Option Repricing: Unless submitted to shareholders for approval, no “underwater” options should be repriced or replaced, and no discount options should be awarded, unless approved by shareholders. Repricing programs, with shareholder approval, should exclude directors and executives, restart vesting periods and mandate

B.4.a

value-for-value exchanges in which options are exchanged for a number of equivalently valued options/shares.

Companies should disclose in their annual proxy statement whether they have rescinded and re-granted options exercised by executive officers during the prior year or if executive officers have hedged (by buying puts and selling calls or employing other risk-minimizing techniques) shares awarded to them as stock-based incentive or acquired through options granted by the company. Such practices reduce the risk of stock-based incentive compensation awarded to executive officers and should be disclosed to shareholders.

Stock option expensing. Since stock options granted to employees, directors and non-employees are compensation and have a cost, companies should include these costs as an expense on their reported income statements with appropriate valuation assumptions disclosed.

6.12 Stock Awards/Units: Stock awards/units and similar equity-based vehicles generally grant holders stock based on the attainment of performance goals and/or tenure requirements. These types of awards are more expensive to the company than options, since holders generally are not required to pay to receive the underlying stock, and therefore should be limited in size.

Stock awards should be linked to the attainment of specified performance goals and in some cases to additional time-vesting requirements. Stock awards should not be payable based solely on the attainment of tenure requirements.

6.13 Perquisites: Company perquisites blur the line between personal and business expenses. Executives, not companies, should be responsible for paying personal expenses—particularly those that average employees routinely shoulder, such as family and personal travel, financial planning, club memberships and other dues. The compensation committee should ensure that any perquisites are warranted and have a legitimate business purpose, and it should consider capping all perquisites at a de minimis level. Total perquisites should be described, disclosed and valued.

6.14 Employment Contracts, Severance and Change-of-control Payments: Various arrangements may be negotiated to outline terms and conditions for employment and to provide special payments following certain events, such as a termination of employment with/without cause and/or a change in control. MCERA believes that these arrangements should be used on a limited basis.

6.14a Employment Contracts: Companies should only provide employment contracts to executives in limited circumstances, such as to provide modest, short-term employment security to a newly hired or recently promoted executive. Such contracts should have a specified termination date (not to exceed three years); contracts should not be “rolling” on an open-ended basis.

6.14b Severance Payments: Executives should not be entitled to severance payments in the event of termination for poor performance, resignation under pressure or failure to renew an employment contract. Company payments awarded upon death or disability should be limited to compensation already earned or vested.

B.4.a

6.14c Change-in-control provisions. Change-in-control provisions in compensation plans and compensation agreements should be “double-triggered,” stipulating that compensation is payable only (1) after a control change actually takes place and (2) if a covered executive’s job is terminated as a result of the control change.

6.14d Transparency: The compensation committee should fully and clearly describe the terms and conditions of employment contracts and any other agreements/arrangements covering the executive oversight group and reasons why the compensation committee believes the agreements are in the best interests of shareholders.

6.14e Timely Disclosure: New executive employment contracts or amendments to existing contracts should be immediately disclosed in 8-K filings and promptly disclosed in subsequent 10-Qs.

6.14f Shareholder Ratification: Shareholders should ratify all employment contracts, side letters or other agreements providing for severance, change-in-control or other special payments to executives exceeding 2.99 times average annual salary plus annual bonus for the previous three years.

6.15 Retirement Arrangements: Deferred compensation plans, supplemental executive retirement plans, retirement packages and other retirement arrangements for highly paid executives can result in hidden and excessive benefits. Special retirement arrangements—including those structured to permit employees whose compensation exceeds Internal Revenue Service (IRS) limits to fully participate in similar plans covering other employees—should be consistent with programs offered to the general workforce, and they should be reasonable.

6.15a Supplemental Executive Retirement Plans (SERPs): Supplemental plans should be an extension of the retirement program covering other employees. They should not include special provisions that are not offered under plans covering other employees, such as above-market interest rates and excess service credits. Payments such as stock and stock options, annual/long-term bonuses and other compensation not awarded to other employees and/or not considered in the determination of retirement benefits payable to other employees should not be considered in calculating benefits payable under SERPs.

6.15b Deferred Compensation Plans: Investment alternatives offered under deferred compensation plans for executives should mirror those offered to employees in broad-based deferral plans. Above-market returns should not be applied to executive deferrals, nor should executives receive “sweeteners” for deferring cash payments into company stock.

6.15c Post-retirement Exercise Periods: Executives should be limited to three-year post-retirement exercise periods for stock option grants.

6.15d Retirement Benefits: Executives should not be entitled to special perquisites—such as apartments, automobiles, use of corporate aircraft, security, financial planning—and other benefits upon retirement. Executives are highly compensated employees who should be more than able to cover the costs of their retirement.

6.16 Stock Ownership

B.4.a

6.16a Director stock ownership. Absent unusual and compelling circumstances, all directors should own company common stock, in addition to any options and unvested shares granted to them by the company. Directors should own a meaningful position in the company's common stock, appropriate to their personal circumstances.

Ownership Requirements: Executives and directors should own, after a reasonable period of time, a meaningful position in the company's common stock. Executives should be required to own stock—excluding unexercised options and unvested stock awards—equal to a multiple of salary. The multiple should be scaled based on position, such as two times salary for lower-level executives and up to six times salary for the CEO.

6.16b Stock Sales: Executives should be required to sell stock through pre-announced 10b5-1 program sales or by providing a minimum 30-day advance notice of any stock sales. 10b5-1 program adoptions, amendments, terminations and transactions should be disclosed immediately, and boards of companies using 10b5-1 plans should: (1) adopt policies covering plan practices, (2) periodically monitor plan transactions and (3) ensure that company policies discuss plan use in the context of guidelines or requirements on equity hedging, holding and ownership.

6.16c Post-retirement Holdings: Executives should be required to continue to satisfy the minimum stock holding requirements for at least six months after leaving the company.

6.16d Transparency: Companies should disclose stock ownership requirements and whether any members of the executive oversight group are not in compliance.

7.1 Introduction

7.2 Role of the Compensation Committee in Director Compensation

7.3 Retainer

7.4 Equity-based Compensation

7.5 Performance-based Compensation

7.6 Perquisites

7.7 Repricing and Exchange Programs

7.8 Employment Contracts, Severance and Change-of-control Payments

7.9 Retirement

7.10 Disgorgement

7.1 Introduction: Given the vital importance of their responsibilities, non-employee directors should expect to devote significant time to their boardroom duties.

Policy issues related to director compensation are fundamentally different from executive compensation. Director compensation policies should accomplish the following goals: (1) attract highly qualified candidates, (2) retain highly qualified directors, (3) align directors'

B.4.a

interests with those of the long-term owners of the corporation and (4) provide complete disclosure to shareholders regarding all components of director compensation including the philosophy behind the program and all forms of compensation.

To accomplish these goals, director compensation should consist solely of a combination of cash retainer and equity-based compensation. The cornerstone of director compensation programs should be alignment of interests through the attainment of significant equity holdings in the company meaningful to each individual director. MCERA believes that equity obtained with an individual's own capital provides the best alignment of interests with other shareholders. However, compensation plans can provide supplemental means of obtaining long-term equity holdings through equity compensation, long-term holding requirements and ownership requirements.

Companies should have flexibility within certain broad policy parameters to design and implement director compensation plans that suit their unique circumstances. To support this flexibility, investors must have complete and clear disclosure of both the philosophy behind the compensation plan as well as the actual compensation awarded under the plan. Without full disclosure, it is difficult to earn investors' confidence and support for director and executive compensation plans.

Although non-employee director compensation is generally immaterial to a company's bottom line and small relative to executive pay, director compensation is an important piece of a company's governance. Because director pay is set by the board and has inherent conflicts of interest, care must be taken to ensure there is no appearance of impropriety. Companies should pay particular attention to managing these conflicts.

7.2 Role of the Compensation Committee in Director Compensation: The compensation committee (or alternative committee comprised solely of independent directors) is responsible for structuring director pay, subject to approval of all the independent directors, so that it is aligned with the long-term interests of shareholders. Because directors set their own compensation, the following practices should be emphasized:

7.2a Total Compensation Review: The compensation committee should understand and value each component of director compensation and annually review total compensation potentially payable to each director.

7.2b Outside Advice: Committees should have the ability to hire a compensation consultant for assistance on director compensation plans. In cases where the compensation committee does use a consultant, it should always retain an independent compensation consultant or other advisers it deems appropriate to assist with the evaluation of the structure and value of director compensation. A summary of the pay consultant's advice should be provided in the annual proxy statement in plain English. The compensation committee should disclose all instances where the consultant is also retained by the committee to provide advice on executive compensation.

7.2c Compensation Committee Report: The annual director compensation disclosure included in the proxy materials should include a discussion of the philosophy for director pay and the processes for setting director pay levels. Reasons for changes in director pay programs should be explained in plain English. Peer group(s) used to compare director pay packages should be fully disclosed, along with differences, if any, from the peer group(s) used for executive pay purposes. While peer analysis can be valuable,

B.4.a

peer-relative justification should not dominate the rationale for (higher) pay levels. Rather, compensation programs should be appropriate for the circumstances of the company. The report should disclose how many committee meetings involved discussions of director pay.

7.3 Retainer

7.3a Amount of Annual Retainer: The annual retainer should be the sole form of cash compensation paid to non-employee directors. Ideally, it should reflect an amount appropriate for a director's expected duties, including attending meetings, preparing for meetings/discussions and performing due diligence on sites/operations (which should include routine communications with a broad group of employees). In some combination, the retainer and the equity component also reflect the director's contribution from experience and leadership. Retainer amounts may be differentiated to recognize that certain non-employee directors—possibly including independent board chairs, independent lead directors, committee chairs or members of certain committees—are expected to spend more time on board duties than other directors.

7.3b Meeting Attendance Fees: Directors should not receive any meeting attendance fees since attending meetings is the most basic duty of a non-employee director.

7.3c Director Attendance Policy: The board should have a clearly defined attendance policy. If the committee imposes financial consequences (loss of a portion of the retainer or equity) for missing meetings as part of the director compensation program, this should be fully disclosed. Financial consequences for poor attendance, while perhaps appropriate in some circumstances, should not be considered in lieu of examining the attendance record, commitment (time spent on director duties) and contribution in any review of director performance and in re-nomination decisions.

7.4 Equity-based Compensation: Equity-based compensation can be an important component of director compensation. These tools are perhaps best suited to instill optimal long-term perspective and alignment of interests with shareholders. To accomplish this objective, director compensation should contain an ownership requirement or incentive and minimum holding period requirements.

7.4a Vesting of Equity-based Awards: To complement the annual retainer and align director-shareholder interests, non-employee directors should receive stock awards or stock-related awards such as phantom stock or share units. Equity-based compensation to non-employee directors should be fully vested on the grant date. This point is a marked difference to MCERA's policy on executive compensation, which calls for performance-based vesting of equity-based awards. While views on this topic are mixed, MCERA believes that the benefits of immediate vesting outweigh the complications. The main benefits are the immediate alignment of interests with shareholders and the fostering of independence and objectivity for the director.

7.4b Ownership Requirements: Ownership requirements should be at least three to five times annual compensation. However, some qualified director candidates may not have financial means to meet immediate ownership thresholds. For this reason, companies may set either a minimum threshold for ownership or offer an incentive to build ownership. This concept should be an integral component of the committee's

B.4.a

disclosure related to the philosophy of director pay. It is appropriate to provide a reasonable period of time for directors to meet ownership requirements or guidelines.

7.4c Holding Periods: Separate from ownership requirements, MCERA believes companies should adopt holding requirements for a significant majority of equity-based grants. Directors should be required to retain a significant portion (such as 80 percent) of equity grants until after they retire from the board. These policies should also prohibit the use of any transactions or arrangements that mitigate the risk or benefit of ownership to the director. Such transactions and arrangements inhibit the alignment of interests that equity compensation and ownership requirements provide.

7.4d Mix of Cash and Equity-based Compensation: Companies should have the flexibility to set and adjust the split between equity-based and cash compensation as appropriate for their circumstances. The rationale for the ratio used is an important element of disclosures related to the overall philosophy of director compensation and should be disclosed.

7.4e Transparency: The present value of equity awards paid to each director during the previous year and the philosophy and process used in determining director pay should be fully disclosed in the proxy statement.

7.4f Shareholder Approval: Current listing standards require shareholder approval of equity-based compensation plans and material amendments to plans (with limited exceptions). Companies should adopt conservative interpretations of approval requirements when confronted with choices.

7.5 Performance-based Compensation: While MCERA is a strong advocate of performance-based concepts in executive compensation, we do not support performance measures in director compensation. Performance-based compensation for directors creates potential conflicts with the director's primary role as an independent representative of shareholders.

7.6 Perquisites: Directors should not receive perquisites other than those that are meeting-related, such as air-fare, hotel accommodations and modest travel/accident insurance. Health, life and other forms of insurance; matching grants to charities; financial planning; automobile allowances and other similar perquisites cross the line as benefits offered to employees. Charitable awards programs are an unnecessary benefit; directors interested in posthumous donations can do so on their own via estate planning. Infrequent token gifts of modest value are not considered perquisites.

7.7 Repricing and Exchange Programs: Under no circumstances should directors participate in or be eligible for repricing or exchange programs.

7.8 Employment Contracts, Severance and Change-of-control Payments: Non-employee directors should not be eligible to receive any change-in-control payments or severance arrangements.

7.9 Retirement Arrangements

7.9a Retirement Benefits: Since non-employee directors are elected representatives of shareholders and not company employees, they should not be offered retirement

B.4.a

benefits, such as defined benefit plans or deferred stock awards, nor should they be entitled to special post-retirement perquisites.

7.9b Deferred Compensation Plans: Directors may defer cash pay via a deferred compensation plan for directors. However, such investment alternatives offered under deferred compensation plans for directors should mirror those offered to employees in broad-based deferral plans. Non-employee directors should not receive “sweeteners” for deferring cash payments into company stock.

7.10 Disgorgement: Directors should be required to repay compensation to the company in the event of malfeasance or a breach of fiduciary duty involving the director.

8. Explanatory Notes: MCERA’s Definition of Independent Director

8.1 Introduction

8.2 Basic Definition of an Independent Director

8.3 Guidelines for Assessing Director Independence

8.1 Introduction: Members of MCERA believe a narrowly drawn definition of “independent (coupled with a policy specifying that at least two-thirds of board members should meet this standard) is in the corporation’s and all shareholders’ ongoing financial interest because:

- Independence is critical to a properly functioning board;
- Certain clearly definable relationships pose a threat to a director’s unqualified independence;
- The effect of a conflict of interest on an individual director is likely to be almost impossible to detect, either by shareholders or other board members; and
- While an across-the-board application of any definition to a large number of people will inevitably miscategorize a few of them, this risk is sufficiently small and is far outweighed by the significant benefits.

Independent directors do not invariably share a single set of qualities that are not shared by non-independent directors. Consequently no clear rule can unerringly describe and distinguish independent directors. However, the independence of the director depends on all relationships the director has, including relationships between directors, that may compromise the director’s objectivity and loyalty to shareholders. Directors have an obligation to consider all relevant facts and circumstances to determine whether a director should be considered independent.

8.2 Basic Definition of an Independent Director: An independent director is someone whose only nontrivial professional, familial or financial connection to the corporation, its chairman, CEO or any other executive officer is his or her directorship. Stated most simply, an independent director is a person whose directorship constitutes his or her only connection to the corporation.

8.3 Guidelines for Assessing Director Independence: The notes that follow are supplied to give added clarity and guidance in interpreting the specified relationships. Following are the

B.4.a

relationships that MCERA members believe pose the greatest threat to a director's independence. A director will not generally be considered independent if he or she:

8.3a Is, or in the past five years has been, or whose relative is, or in the past five years has been, employed by the corporation or employed by or a director of an affiliate;

NOTES: An "affiliate" relationship is established if one entity either alone or pursuant to an arrangement with one or more other persons, owns or has the power to vote more than 20 percent of the equity interest in another, unless some other person, either alone or pursuant to an arrangement with one or more other persons, owns or has the power to vote a greater percentage of the equity interest. For these purposes, joint venture partners and general partners meet the definition of an affiliate, and officers and employees of joint venture enterprises and general partners are considered affiliated. A subsidiary is an affiliate if it is at least 20 percent owned by the corporation.

Affiliates include predecessor companies. A "predecessor" is an entity that within the last five years was party to a "merger of equals" with the corporation or represented more than 50 percent of the corporation's sales or assets when such predecessor became part of the corporation.

"Relatives" include spouses, parents, children, step-children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, aunts, uncles, nieces, nephews and first cousins, and anyone sharing the director's home.

8.3b Is, or in the past five years has been, or whose relative is, or in the past five years has been, an employee, director or greater-than-20-percent owner of a firm that is one of the corporation's or its affiliate's paid advisers or consultants or that receives revenue of at least \$50,000 for being a paid adviser or consultant to an executive officer of the corporation;

NOTES: Advisers or consultants include, but are not limited to, law firms, auditors, accountants, insurance companies and commercial/investment banks. For purposes of this definition, an individual serving "of counsel" to a firm will be considered an employee of that firm.

The term "executive officer" includes the chief executive, operating, financial, legal and accounting officers of a company. This includes the president, treasurer, secretary, controller and any vice-president who is in charge of a principal business unit, division or function (such as sales, administration or finance) or performs a major policymaking function for the corporation.

8.3c Is, or in the past five years has been, or whose relative is, or in the past five years has been, employed by or has had a five percent or greater ownership interest in a third-party that provides payments to or receives payments from the corporation and either: (i) such payments account for one percent of the third-party's or one percent of the corporation's consolidated gross revenues in any single fiscal year; or (ii) if the third-party is a debtor or creditor of the corporation and the amount owed exceeds one percent of the corporation's or third party's assets. Ownership means beneficial or record ownership, not custodial ownership;

B.4.a

8.3d Has, or in the past five years has had, or whose relative has paid or received more than \$50,000 in the past five years under, a personal contract with the corporation, an executive officer or any affiliate of the corporation;

NOTES: Council members believe that even small personal contracts, no matter how formulated, can threaten a director's complete independence. This includes any arrangement under which the director borrows or lends money to the corporation at rates better (for the director) than those available to normal customers—even if no other services from the director are specified in connection with this relationship;

8.3e Is, or in the past five years has been, or whose relative is, or in the past five years has been, an employee or director of a foundation, university or other non-profit organization that receives significant grants or endowments from the corporation, one of its affiliates or its executive officers or has been a direct beneficiary of any donations to such an organization;

NOTES: A "significant grant or endowment" is the lesser of \$100,000 or one percent of total annual donations received by the organization.

8.3f Is, or in the past five years has been, or whose relative is, or in the past five years has been, part of an interlocking directorate in which the CEO or other employee of the corporation serves on the board of a third-party entity (for-profit or not-for-profit) employing the director or such relative;

8.3g Has a relative who is, or in the past five years has been, an employee, a director or a five percent or greater owner of a third-party entity that is a significant competitor of the corporation; or

8.3h Is a party to a voting trust, agreement or proxy giving his/her decision making power as a director to management except to the extent there is a fully disclosed and narrow voting arrangement such as those which are customary between venture capitalists and management regarding the venture capitalists' board seats.

The foregoing describes relationships between directors and the corporation. MCERA also believes that it is important to discuss relationships between directors on the same board which may threaten either director's independence. A director's objectivity as to the best interests of the shareholders is of utmost importance and connections between directors outside the corporation may threaten such objectivity and promote inappropriate voting blocks. As a result, directors must evaluate all of their relationships with each other to determine whether the director is deemed independent. The board of directors shall investigate and evaluate such relationships using the care, skill, prudence and diligence that a prudent person acting in a like capacity would use.

9. Policy Review

The Board will endeavor to review this Proxy Voting and Corporate Governance Policy at least every three years to assure its efficacy and relevance, with the intention of timely considering substantive edits that may be made to the Council of Institutional Investors' Corporate Governance Policy, on which this Policy is based. This Proxy Voting and Corporate Governance Policy may be amended from time to time by majority vote of the Board.

REVIEWED:

I. Purpose.

The Board of Retirement of MCERA (the "Board") recognizes the importance of education and the conduct of regular, periodic on-site examinations and meetings with its investment professionals and outside advisers to the success of fulfilling its constitutional and statutory fiduciary duty to administer the retirement system prudently. It is also the policy of the Board to ensure that MCERA staff members are properly trained to perform their respective duties and are, on an ongoing basis, exposed to up-to-date benefit, financial, investment, and other information regarding best practices.

In furtherance of its stated Education and Due Diligence policies and in recognition of the need for proper training of staff, the Board recognizes the need to reimburse Trustees and MCERA staff members for reasonable and necessary travel expenses incurred while participating in educational programs and conducting due diligence and other business-related activities. The Board adopts this Trustee and Staff Travel Expense Policy (the "Travel Policy") to facilitate the appropriate reimbursement of activities pursuant to MCERA's Trustee Education and Due Diligence Policies. This Policy shall also apply to business-related travel of MCERA staff members. Because these are legitimate expenses of the retirement system, the amounts necessary to cover such expenses, as reflected in the Board's annual budget, shall be charged as an investment-related expense or as an administration expense, as appropriate.

This Travel Policy is intended to be applied and interpreted in compliance with the relevant provisions of the California Government Code and in harmony with the mission statement, policies and guidelines approved by the Board of Retirement from time to time.

II. Guidelines.

This Travel Expense Policy sets forth the guidelines by which MCERA shall reimburse Trustees and MCERA staff for their reasonable and necessary travel expenses incurred while participating in educational programs and conducting due diligence and other MCERA related activities. The purpose of this Travel Policy is to set forth approval procedures, impose certain limitations on travel reimbursement and identify expense guidelines to promote prudent and cost

B.4.b

effective travel. These guidelines are intended to be read and applied in conjunction with, and to complement, MCERA's Trustee Education and Due Diligence Policies.

A. Approval.

Reimbursement of travel and related expenses for a Trustee or staff members to attend an educational program or conduct a due diligence examination or other business for MCERA requires the prior approval of the Board, except under exigent circumstances when Board approval cannot be obtained in advance. All reimbursement of travel expenses for MCERA staff members, other than the Retirement Administrator, to attend an educational conference or seminar or for administrative purposes or due diligence visits, requires the prior approval of the Retirement Administrator. Trustee or staff member attendance at conferences outside of the United States are generally disfavored. In the event a due diligence audit requires international travel, reimbursement for expenses related to the audit shall require prior approval by a vote of not fewer than six members of the Board. Travel on MCERA business within the Northern California region need not be approved in advance as long as overnight accommodations are not required. In accordance with MCERA's Trustee Education Policy, travel by Trustees and/or the Retirement Administrator or designee to attend a program of the State Association of County Retirement Systems ("SACRS"), California Association of Public Retirement Systems ("CalAPRS"), National Conference of Public Employee Retirement Systems ("NCPERS"), the Council of Institutional Investors ("CII") and the National Association of State Retirement Administrators ("NASRA"), need not be approved in advance; provided, however, that MCERA will not pay for overnight accommodations in locations that are within fifty (50) miles of MCERA's offices, unless pre-authorized by the Board Chair after consultation with the Retirement Administrator; any Board Chair requests for an exemption from this limit must be pre-authorized by the Board Vice-Chair after consultation with Retirement Administrator.

B. Limitation on Attendance by Trustees.

A Trustee is authorized to attend up to three approved educational programs that require overnight lodging each calendar year. Attendance by board members and the Administrator at SACRS conferences, NCPERS' Annual Meeting and Legislative Workshop, CalAPRS roundtables and general assembly, CII general assembly, NASRA Annual Meeting, and educational sessions developed by retained consultants to the Plan are excluded from this limitation. No more than one conference may involve travel to a destination outside the United States. No more than four members of the Board, and less than a quorum of a Standing Committee of the Board, are authorized to meet together for business purposes unless there is appropriate public notice of the meeting. Attendance at educational conferences, seminars and social activities by more than four members of the Board is not a violation of this provision.

A training calendar will be presented for approval at the Board's monthly meetings, listing Board members and staff who anticipate attending specified educational programs. Additional attendees may be added to the calendar at and after each meeting as well.

C. Authorized Expenses.

Trustees and staff members shall be entitled to reimbursement for travel expenses and for all other reasonable and necessary expenses incurred in connection with MCERA business. Expenses are authorized by the Board of Retirement when by majority vote an educational event

B.4.b

is added to the trustee training calendar or due diligence meetings are scheduled by the Board. Reimbursement for expenses will occur in accordance with the schedule attached to this Travel Policy. To the extent that a sponsor of an educational conference provides meals, beverages and reasonable incidentals to conference attendees but does not charge a conference fee, the Board may consider authorizing payment to the conference sponsor for such reasonable and necessary expenses for Trustee and staff members to attend the conference and thereby cover the cost of such meals, beverages and reasonable incidentals.

D. Allocation of Travel Expenses.

Travel and other related business expenses incurred in connection with participation in educational programs or other business of MCERA where the principal focus is not related to investments shall be included in MCERA's annual budget as expenses of administration. Travel expenses for educational programs and due diligence evaluations relating to the system's investment portfolio shall be included in MCERA's investment budget as investment expenses.

E. Claims for Reimbursement.

Reimbursement for travel by a Trustee or staff member shall be submitted on MCERA's Expense Reimbursement Forms, which shall be reviewed and approved (or disapproved) by the Retirement Administrator in accordance with the provisions of this Travel Policy. The Board Chair shall approve expense claims for the Retirement Administrator in accordance with the provisions of this Travel Policy. All approvals are subject to review and concurrence by the Board, as requested by the Board from time to time. In addition, all reimbursement approvals provided to Trustees and the Retirement Administrator shall be reported in writing quarterly to the Finance and Risk Management Committee. All claims must be submitted within thirty (30) days following the date of travel. In no event will a claim for reimbursement be approved if submitted ninety (90) days after the end of the calendar year in which the expense was incurred. MCERA shall be reimbursed for all advances or reimbursements made in excess of allowable expenses within ninety (90) days from the date a refund request has been made.

F. Cash Advances.

Cash advances are allowed on an as needed basis, though they are disfavored for Board members. Consistent with County Administrative Regulation No. 1, cash advances may be limited to 90% of anticipated actual expenses.

G. Expenses for Traveling Companions.

Under no circumstances shall the expenses of a family member or traveling companion of a Trustee or staff member be reimbursed by MCERA.

H. Limitations on Expense Allowance.

Reimbursement for expenses shall not exceed that which is reasonable and necessary for travel to the precise destination and date of the covered occurrence, whether by private automobile or common carrier. Expense costs for extra days prior to or after a conference and/or meeting will be reimbursed only if such extension results in the same or lower overall trip costs in accordance

B.4.b

with this Travel Policy. Board members should consult with the Retirement Administrator in advance of any travel if there are questions regarding the reasonable and necessary expenses.

I. Travel and Lodging Cancellations.

Trustees and staff members are responsible for the timely cancellation of or change to any registration to a conference where fees may be charged and/or travel and lodging reservations are made on their behalf. Trustees and/or staff shall be responsible for the costs of any fees charged as a result of the failure to timely cancel or resulting from changes to said reservations, unless otherwise approved, on a case-by-case basis, by the Board Chair after consultation with the Retirement Administrator; any Board Chair requests for an exemption must be approved by the Vice Chair after consultation with the Retirement Administrator. Any fees paid as a result of Trustee or Retirement Administrator cancellations shall be included on the quarterly report on travel reimbursements made to the Finance and Risk Management Committee.

J. Travel Reports.

The Retirement Administrator shall report all travel by Trustees and Staff on the consent calendar that is submitted to the Board on a monthly basis.

K. Gifts of Travel and Education.

Under the California Political Reform Act, travel expenses, including transportation, lodging and meals, the value of which equals or exceeds \$50 from any single source in any 12 month period may not be paid or reimbursed by any third party for the benefit of any Trustee, the Retirement Administrator, or other public official who manages public investments as defined in Government Code §87200, unless such expenses are reported on the individual's Form 700 and ordinarily may not exceed \$470 in any given 12 month period (adjusted periodically for inflation; *see* Gov. Code section 89503 and FPPC Regulation section 18940.2(a)). The Board may no longer accept gifts of such expenses as gifts to the agency.

If the Board were to accept a gift to the agency of travel expenses as defined herein on behalf of any MCERA staff who do not manage public investments, any such approval by the Board shall be consistent with FPPC Regulation §18944.2, as amended.

In addition, effective February 10, 2010, there is a presumption that gifts provided to the spouse or registered domestic partner of a statutory filer, such as a Trustee, are *gifts to the official* that the official must include in gift reporting and limitation assessments, unless there is an established working, social or similar relationship between the donor/vendor and the official's family member, independent of the relationship between the donor/vendor and the official. FPPC Reg. 18944.

Education and educational materials, including books, reports, pamphlets, calendars, periodicals, videotapes, and free or discounted admission to informational conferences or seminars, may be provided by parties other than MCERA to Trustees and MCERA staff, because they are not considered "gifts" under Government Code §82028(b) and FPPC Regulation §18942.1. However, travel, accommodations, meals and beverages provided in connection with informational conferences or seminars for which admission is free or discounted to MCERA are

B.4.b

considered a gift to the attending Trustee or staff member, unless MCERA pays for those expenses, or some other exception applies.

Further, effective January 1, 2014, Trustees are permitted to have certain third parties pay for transportation, lodging, and food that is directly related to the official's public duties, is for a purpose that would otherwise be paid for with the agency's funds, and is authorized in the same manner as transportation, lodging, and food using the agency's own funds. However, in order to be permitted, those payments must meet detailed requirements and limitations of FPPC Reg. 19850.1. Those requirements include, but are not limited to, posting specified notices by MCERA of the gift(s). Thus, as a matter of policy and internal controls, any determination to accept such a gift of travel from a third party by MCERA on behalf of an official should be first brought to the MCERA Board for consideration.

However, if a Trustee or other public official under Government Code section 87200 makes a speech or other formal presentation at an informational conference or seminar within or outside of the United States, or if a Trustee is conducting bona fide business on behalf of another organization at a conference or seminar, then other rules regarding payment, reimbursement for expenses, and reporting obligations, may apply that would potentially not warrant MCERA Board consideration.

Trustees and staff are encouraged to work with the Retirement Administrator and MCERA's counsel, or their own counsel, to determine, before attending an event that its free or discounted to them, whether any aspect of the event would be considered a gift that is subject to reporting rules and limitations, or income that must be reported, under the Political Reform Act.

L. Travel Arrangements.

All travel arrangements for which reimbursement will be sought shall be made through or coordinated with the office of the Retirement Administrator.

III. Policy Review.

The Board shall review this Travel Policy at least every three years to assure its efficacy and relevance. This Travel Policy may be amended from time to time by majority vote of the Board.

IV. Certificate.

MCERA EXPENSE REIMBURSEMENT SCHEDULE

Airline Travel:

Trustees and staff shall be reimbursed for actual and reasonable expenses for airfare for approved travel on MCERA business. Any scheduled U.S. or recognized international air carrier may be used for domestic or international travel. A fully refundable coach class ticket shall be purchased, which shall be at competitive prices. If a restricted or excursion class ticket is purchased at the request of a Trustee or staff member and the ticket is subsequently cancelled, the Trustee or staff member shall be required to reimburse MCERA for the cost of the ticket, unless a credit voucher for future travel is issued by the air carrier; charges incurred because of urgent MCERA business or the cancellation of a meeting or event by the organizing entity are exempt from this requirement.

If savings can be realized on the airfare by having a Trustee or staff member extend their stay to include a Saturday night, at his or her option, said Trustee or staff member may extend his or her stay in order to realize such savings. MCERA shall reimburse the cost associated with the additional lodging and meals resulting from an extended itinerary, not to exceed the savings in airline fare.

If, at the conclusion of a business-related trip, it would be impractical for a Trustee or staff member to return home the same day and arrive home prior to 10:00 p.m. California time due to the distance that must be traveled, or the unavailability of a return flight, the Trustee or staff member may lay over for one additional night and MCERA shall reimburse the costs associated with the additional lodging and meals resulting from the extended stay.

Receipts must be submitted along with a completed MCERA Expense Reimbursement Form to obtain reimbursement.

Hotels

Actual expenses for lodging in a standard class of hotel shall be reimbursed by MCERA. Whenever possible, a request for a government or conference rate should be made. While meals charged to the hotel bill shall be reimbursed in accordance with this Travel Policy, MCERA shall not reimburse expenses related to alcoholic beverages, tobacco, in-room movies, barber/beauty shop, gifts, magazines, personal telephone calls and mini-bar charges. In the case of an extended trip or an emergency situation, laundry and dry cleaning expenses may be reimbursed. Cancellation fees incurred because of urgent MCERA business or the cancellation of a meeting or event by the organizing entity are exempt from this requirement.

Original hotel receipts must be submitted along with a completed MCERA Expense Reimbursement Form to obtain reimbursement.

Meals

A Trustee or staff member will be reimbursed for the cost of meals at a flat rate up to a maximum established by the County of Marin pursuant to the expense reimbursement policies established by its Board of Supervisors. Receipts shall not be required for per diem reimbursement.

For out-of-state travel, a Trustee or staff member will be reimbursed for the cost of meals at a flat rate up to a maximum established by the County of Marin pursuant to the expense reimbursement policies established by its Board of Supervisors.

A Trustee or staff member shall be reimbursed for up to a 15% gratuity. No reimbursement will be made for alcoholic beverages. A Board member and/or staff must provide a receipt for any meal that exceeds \$ 25.00 (excluding tax and tip). When requesting reimbursement for fewer than three meals per day, expenses for a particular meal shall be rounded to the nearest whole dollar, and then submitted not to exceed the maximum percentage of the Per Diem Rate shown below.

<u>Meal</u>	<u>Travel Begins On or Before</u>	<u>Portion of Per Diem Traveler is Entitled to Receive</u>
Breakfast	7:00 am	20%
Lunch	11:00 am	25%
Dinner	5:00 pm	<u>55%</u>
MAXIMUM TOTAL DAILY		100%

When a meal is included in the cost of a conference registration fee, mode of travel (e.g. airfare), or other MCERA-paid activity, employees will not be entitled to reimbursement for item.

Automobile Mileage

A Trustee or staff member who uses his/her personal automobile for transportation on MCERA business may be reimbursed for the actual mileage driven on business and shall report such mileage on a MCERA Expense Reimbursement Form. Reimbursement shall be made at the per-mile rate allowed by the Internal Revenue Service. Pursuant to item H. above, Board members should consult with the Retirement Administrator prior to using a personal vehicle for travel if the use of the vehicle would exceed reasonable and necessary expenses from an alternate method of travel. Staff who receives a car allowance shall not be entitled to reimbursement for miles driven on MCERA business, unless approved in advance by the Chair. Those who use a personal automobile for MCERA business shall carry full automobile insurance coverage

Parking And Tolls

Parking and tolls are reimbursed at cost. Receipts are required for amounts over \$25.00.

Public Transportation

Use of taxis, hired cars and public transportation for MCERA business shall be reimbursed at actual rates. A receipt is required for amounts over \$25.00.

Car Rentals

The use of a rental car by a Trustee or staff member shall be reimbursed when it is economically reasonable to rent a vehicle rather than use taxis, hired cars or public transportation. Rental car discounts must be used whenever possible and appropriate. If available, a compact vehicle will be requested, unless several Board members and/or staff will be using the vehicle together. Full insurance coverage must be purchased in connection with any car rental.

Incidental Business Expenses

Incidental business expenses reasonably incurred in connection with MCERA business, such as telephone, fax, internet access, and similar business expenses, shall be reimbursed as necessary and appropriate. Receipts are required in each instance of such business expense.

Porterage

Maximum reimbursement for porterage is \$10.00 per day of travel. Receipts not required.

B.4.c

MARIN COUNTY EMPLOYEES' RETIREMENT ASSOCIATION (MCERA) POLICY REGARDING IMPLEMENTATION OF CALIFORNIA FELONY FORFEITURE LAWS

Adopted: June 14, 2017

Reviewed:

I. BACKGROUND AND PURPOSE

Felony forfeiture laws applicable to public retirement benefits in California originally applied only to *elected public officers* who took public office, or were reelected to public office, on or after January 1, 2006. (Gov. Code §7522.70, formerly Gov. Code §1243.) The Public Employees' Pension Reform Act of 2013 ("PEPRA") added two broader felony forfeiture statutes applicable to *all public employees* as of January 1, 2013, and further provided that the pre-existing more narrow felony forfeiture statute would not apply in any instance in which the newly-enacted forfeiture statutes applied. (Collectively, such newly-enacted statutes are referred to hereinafter as the "Felony Forfeiture Statutes.") One of the Felony Forfeiture Statutes applies to public employees who were first employed, appointed, or elected *before* January 1, 2013. (Gov. Code §7522.72). The other applies to those who were first employed, appointed, or elected *on or after* January 1, 2013. (Gov. Code §7522.74).

Both Felony Forfeiture Statutes enacted by PEPRA provide that public retirement benefits may be forfeited, as described below, if a public employee is convicted by a state or federal trial court of any felony when the felony conviction is:

for conduct arising out of or in the performance of [the public employee's] official duties, in pursuit of the office or appointment [of the public employee], or in connection with obtaining salary, disability retirement, service retirement, or other benefits.

(Gov. Code §§ 7522.72, subdiv. (b)(1) & 7522.74, subdiv. (b)(1).) Further, the statutes provide as follows regarding felonies involving a child:

if a public employee who has contact with children as part of his or her official duties is convicted of a felony that was committed within the scope of his or her official duties against or involving a child who he or she has contact with as part of his or her official duties.

(Gov. Code §§ 7522.72, subdiv. (b)(2) & 7522.74, subdiv. (b)(2).) When the felony is for the conduct described in either of these two provisions, then the forfeiture permitted by the statute is as to "rights and benefits earned or accrued from the earliest date of the commission of [the] felony to the forfeiture date." (Gov. Code §§ 7522.72, subdiv. (c)(1) & 7522.74, subdiv. (c)(1).) Both statutes require the public employer who "employs or

B.4.c

employed a public employee [convicted of a felony] and that public employee” to notify MCERA “of the public employee’s conviction within 90 days of the conviction.” (Gov. Code §§ 7522.72, subdiv. (f) & 7522.74, subdiv. (f).)

II. POLICY

Upon receipt of notification from any source of a felony conviction of an MCERA member, the Retirement Administrator will investigate and analyze the matter, in consultation with MCERA’s counsel, and determine whether the conviction implicates one or more of the Felony Forfeiture Statutes and/or other applicable law.

If the Retirement Administrator determines that one of the Felony Forfeiture Statutes is implicated by the member’s conviction of a felony, then MCERA will promptly provide written notification to the member (i) regarding the Felony Forfeiture Statute that applies to his or her MCERA benefit(s); (ii) with documentary support for the conclusion that such Felony Forfeiture Statute applies, if available; (iii) showing how the forfeiture is calculated; and (iv) stating that the member has the right to challenge the determination, in which case the matter will be decided by the MCERA Board of Retirement (“Board”).

If the member challenges MCERA’s determination regarding applicability of a Felony Forfeiture Statute, the matter will be scheduled for determination by the Board at a regularly scheduled public meeting. At such meeting, MCERA will present its conclusions and Board members will be provided an opportunity to ask questions. The member and his or her counsel, if represented, will also be provided an opportunity to present to the Board and to provide any information or records pertinent to the issues. Public comment will be taken. The Board will then deliberate and determine whether it has sufficient information to take action on the matter. If so, it will decide the matter by majority vote. If not, it may refer the matter for an administrative hearing as provided in its *Procedures for Hearings on Matters Other than Disability Retirement*. In the event of significant exposure to litigation and proper notice in accordance with the Ralph M. Brown Act, the Board may deliberate on the matter in closed session.

III. POLICY REVIEW

The Retirement Board will review this Policy at least every three years to assure its efficacy and relevance. The Board may amend this Policy from time to time by majority vote.

IV. RETIREMENT ADMINISTRATOR’S CERTIFICATE

I, Jeff Wickman, the duly appointed Retirement Administrator of the Marin County Employees’ Retirement Association, hereby certify that this policy was ~~reviewed~~adopted
