COMPANY PROFILE

For five decades, Airbus commercial airliners, helicopters, military aircraft and satellites have flown the skies of Africa and the Middle East. Airbus has a significant presence throughout the region, employing more than 3,000 people across Morocco, Tunisia, South Africa, Nigeria, Saudi Arabia, the United Arab Emirates, Qatar and Oman. Airbus regional headquarters is in Dubai, also home to Emirates airlines, the largest customer of the flagship A380 jetliner.

Airbus' products and services are widely recognized as being well-suited to Africa and the Middle East, yet the company's commitment to the region goes beyond selling: Airbus pursues humanitarian objectives and also provides training and support by building local entities, creating jobs and ultimately contributing to the economic development of the region. In addition, Airbus identifies knowledge, skills, talent and capacities that can be developed to address global talent shortages.

Airbus sources supplies and components from multiple companies within African and Middle Eastern countries, and is proud to be a part of a region united in its embrace of innovation to build future prosperity for the generations ahead.

Airbus has in the Kingdom of Saudi Arabia since several decades through a variety of projects and entities with the intention to seek long-term commitment and partnership.

Eversince, as Airbus grew as a company the engagement in the Kingdom of Saudi Arabia grew as well. Airbus has developed its business and expanded its engagement by building bold connections with the Saudi defence, civilian and private sectors.

Based on this, the Kingdom of Saudi Arabia has trusted Airbus in the last twenty years to execute a business volume of 20bn SAR. As a result Airbus is able to employ 900 employees in the Kingdom, with over 30 nationalities

SHORT BIOGRAPHY OF THE DELEGATE

Mikail HOUARI is the President of Airbus for Africa & Middle East. Based in the UAE, Mr. Houari was appointed to this role in January 2017 and brings 30 years of global and regional industry experience to his position.

He joined Airbus in 2005 as Vice President for Latin America, overseeing the defence and space divisions from where he moved to the UAE in the same capacity covering the Middle East region. In 2011, Mr. Houari was appointed as General Delegate for Airbus Group, before taking the position as Deputy President for Airbus in Africa and Middle East.

Mr. Houari's career began in Madrid in 1988 at Alcatel as a Program Manager on the switching exchange systems for Indonesia. Soon after, he was appointed the General Delegate of Alcatel SESA in 1990 for China. Two years later he was promoted to Director of Sales for Latin America, followed by being appointed as the Vice President for Latin America based in Buenos Aires, Argentina in 1994.

A year later, he joined the French Interior Ministry company SOFREMI, and was appointed General Delegate in Colombia, and was in charge of Latin America. He later moved to Washington DC with the same responsibilities, becoming more oriented to the partnership with US companies for the region. He then returned to Paris, where he was appointed as the Sales Director for the company.

Thereafter, Mr. Houari joined Thales as Vice President of Sales and Marketing in Saudi Arabia. In 2003, he was appointed the Sales Director of the Information System Business Unit within Thales in France, and was in charge of the sales of the SCADA systems worldwide (metro, electricity operators, and pipelines).

In 2005, he joined EADS (European Aeronautics Defence and Space Company) in Sao Paulo as Vice President for the Latin America region for all of the group's defence activities. Three years later, he was appointed to oversee the Middle East region, based out of the UAE.

Mr. Houari is an active member of the Conseillers du Commerce Extérieur de la France (CCEF), the official French trade advisors, in the UAE and has been elected President of the association for the last seven years. He is also the President of the Groupement des Industries Françaises Aéronautiques et Spatiales (GIFAS) in the UAE, the French Aerospace Industries Association.

A business graduate from the Ecole Supérieure des Sciences Commerciales Appliquées in Paris, Mr. Houari is fluent in French, English, Arabic, Portuguese and Spanish. Mikail is also a private pilot; he obtained his private pilot license at the age of 17. He currently lives in Dubai with his wife and children.

Adel FEKIH is Head of Airbus KSA since end of 2017, and as such he is in charge of the various operations and in defining an integrated strategy of the company in the Kingdom.

Prior to his current position, he was Vice President Business Development in the Africa and Middle East structure of Airbus Group since 2015. He is in charge of the Group's development in various African countries, more specifically North African, enhancing local footprint and coordinating the Group's activities.

Previous to his position within Airbus, he was Ambassador of Tunisia to France where he served from 2012 to 2014. Member of the Socialist and progressive Party Ettakatol, he was appointed following the first free

elections after the “Arab spring”. He was key in defining a new scope of partnership between political institutions and in intensifying links between the two civil societies during a delicate transitional period. At the end of his mission, he was elevated to the rank of *Officier de la Légion d’Honneur* by President Hollande for his contribution to the Tunisian-French relationship

Adel Fekih holds a Bachelor of Science degree in Industrial and Systems Engineering and a Master of Science in Agricultural Economics (Ohio State University – ‘95).

In 2009, Adel Fekih graduated with an Executive MBA from the *Ecole Supérieure de Commerce de Paris* (ESCP Europe)

ACCOR HOTELS

Eddy Tannous

Vice President – ACCOR KSA

JEDDAH

Quartz Building| 4th floor, Office No. 401
Al-Korniche Street, Jeddah, Saudi Arabia.

COMPANY PROFILE

Accor is a world leading hospitality Group consisting of more than 5,100 properties and 10,000 food and beverage venues throughout 110 countries. The Group has one of the industry's most diverse and fully-integrated hospitality ecosystems encompassing luxury and premium brands, midscale and economy offerings, unique Lifestyle concepts, entertainment and nightlife venues, restaurants and bars, branded private residences, shared accommodation properties, concierge services, co-working spaces and more. Accor also boasts an unrivalled portfolio of distinctive brands and approximately 260,000 team members worldwide. Through its Planet 21 - Acting Here, Accor Solidarity, RiISE and ALL Heartist Fund initiatives, the group is focused on driving positive action through business ethics, responsible tourism, environmental sustainability, community engagement, diversity and inclusivity. Founded in 1967, Accor SA is headquartered in France and publicly listed on the Euronext Paris Stock Exchange (ISIN code: FR0000120404) and on the OTC Market (Ticker: ACCYY) in the United States. For more information visit group.accor.com or follow Accor on Twitter, Facebook, LinkedIn and Instagram.

SHORT BIOGRAPHY OF THE DELEGATE

Worked in the hospitality industry around the Middle East Region for the last 22 years holding leadership roles in various divisions, including Revenue Management, Sales & Marketing, Hotel and Regional Operations, in multinational hotel companies such as Marriott, Ritz Carlton, Fairmont and ACCOR. In his last role as Vice President Operations, Luxury brands in Middle East & Africa, he managed a portfolio of luxury Hotels under the ACCOR brands portfolio throughout a diverse region that included GCC & Levant and extending out to Seychelles and Mauritius.

In his current role as the Vice President Operations - KSA at Accor Hospitality, he oversees a portfolio of 39 Operational Hotels and a robust pipeline of over 40 project throughout the kingdom of Saudi Arabia.

COMPANY PROFILE

L'Agence Française Afalula a pour mission d'accompagner son partenaire saoudien, la Commission Royale pour AIUla (RCU), dans la transformation de la région d'AIUla en une destination culturelle et touristique mondiale.

SHORT BIOGRAPHY OF THE DELEGATE

Gérard MESTRALLET is Honorary Chairman of SUEZ, Honorary Chairman of ENGIE and Co-Chair of the Carbon Pricing Leadership Coalition (CPLC). Having held various positions at the Treasury Department and on the staff of the Minister of Economy and Finance (J. Delors), Gérard Mestrallet joined Compagnie Financière de SUEZ in 1984. In 1991 he was named Chairman of the Management Committee of Société Générale de Belgique. In 1995, he became Chairman and Chief Executive Officer of Compagnie de SUEZ. Gérard Mestrallet was appointed Chairman and Chief Executive Officer of GDF SUEZ (now ENGIE) when SUEZ merged with Gaz de France on July 2008. Gérard Mestrallet is member of the Board of Société Générale, of Saudi Electric Company (SEC) until January 2021 (Saudi Arabia). He was member of the Shanghai and Beijing

Mayors' International Economic Advisory Council and he is member of the Chongqing Mayor's International Economic Advisory Council and of Moscow. He was also member of the International Council of JP Morgan Chase. Gerard Mestrallet has been recently appointed by the French President of France as Executive Chairman of the French Agency for Al Ula (Kingdom of Saudi Arabia) cultural, heritage and tourism development in cooperation with the Kingdom.

Laura KWIATOWSKI has a long senior experience in public affairs, as well as in industry. A graduate in Public Policy from Harvard Kennedy School of Government, she holds a Masters degree from the Paris Institute of Political Sciences, and a graduate degree in Journalism.

Laura started her career as a TV reporter. In 2007, she joined the cabinet of the Secretary of State for strategic planning and public policy evaluation. She was then Advisor to the Minister for Immigration and Integration. Thereafter, she became deputy Diplomatic Advisor to the Minister for Industry, Energy and Digital Economy.

In 2012, Laura entered the strategy department of GDF SUEZ (later becoming ENGIE), from May 2016 to May 2018, Laura has been Director, Special Advisor to the Chairman of the Board of ENGIE.

She joined Afalula Agency in July 2018 as Secretary General and director for Public Affairs, corporate relations, and project finance.

Mathias CURNIER has more than 22 years of experience in the environment, energy and services industry in the field of business development, strategy, communication and marketing and innovation.

Mathias joined the GDF SUEZ (now ENGIE) group in 1996. From 1996 till 2001, he was successively Market Analyst and Business Development Manager for United Water and Degrémont, subsidiaries of SUEZ Environment, in the US. Back to France in 2002, Mathias became Marketing Program Manager in the areas of pulp and paper, oil and pharmaceutical industries for SUEZ Industrial Solutions. He was then Deputy to the Executive Vice President of ENGIE, Communications, Marketing, Environmental & Social Responsibility until April 2016. Mathias was then Director, Special Advisor to the Chairman of the Board of ENGIE until the end of May 2018.

Mathias is now Chief of Staff, Director of Communications, Marketing, Innovation & Public Relations of **the French Agency for the Development of AIUla** (region of the Kingdom of Saudi Arabia). Mathias holds a BBA and an MBA in Marketing and Strategy from the Fox School of Business, Temple University, Philadelphia, in

the US. Mathias attended and graduated from the 68th session of the High Institute for National Defense Studies (IHEDN).

Franck STAUB has a solid and proven experience in the areas of public and corporate affairs.

He served the public service in many capacities : from 2004 to 2006 at the French National Assembly as parliamentary assistant ; from 2008 to 2012 as an advisor to several Ministers (Family, Labour, Industry) under the French Presidency of Nicolas Sarkozy.

For 10 years, Franck was General Secretary of the French crystal and glass organization in charge of promoting the interests of companies in the sector. As part of these functions, he also held executive positions in the field of the French Arts and Crafts. He was President of the French confederation of Arts and Crafts, and member of the Economic, Social and Environmental Council of the Ile-de-France Region.

Franck is now Corporate relations manager at the French Agency for AIUla Development (region of the Kingdom of Saudi Arabia). He graduated from the Institute of political studies of Bordeaux (2000), the University of Paris Panthéon-Assas in Law and from HEC Paris. Franck is Knight of the french National Order of Merit (2018)

ALTEIA

Michael DE LAGARDE

CEO

Postal address :
676 Rue Max Plank
31670 Labege, France

Website : www.alteia.com

COMPANY PROFILE

Alteia is a leading enterprise AI software provider focused on streamlining the use of visual data to create real-time business intelligence.

The Alteia software environment provides comprehensive services to build enterprise-scale visual AI applications. It supports any industry critical business need, such as predictive maintenance, quality control, productivity management and equipment lifetime optimization thanks to prebuilt, configurable, high-value AI tools.

Located at the heart of the Aerospace Valley in Toulouse, Paris, and California, Alteia's team includes the best talents in computer vision, spatial imagery analysis, and software engineering. The team has successfully deployed its AI solutions across the largest corporations worldwide to accelerate their digital transformation, analyzing billions of images and thousands of hours of video streams.

SHORT BIOGRAPHY OF THE DELEGATE

In 2011, Michael founded Delair, which pioneered the professional drone sector. Delair has manufactured thousands of Drones, exported worldwide and is to date one of the top manufacturers of fixed-wings long-endurance drones.

Prior to founding Delair, Michael worked in the Oil&Gas Industry, first in Schlumberger then in Perenco. He held various positions from field engineer to site manager, onshore and offshore, in Canada, Colombia, Egypt, West Africa and France.

Michael holds a MSc Physics from Ecole Polytechnique, Paris, France.

Engineer, Michael is passionate about science, technologies and entrepreneurship. He is a glider pilot and loves mountain sports. As side project, he built the smallest long-range human powered autonomous submarine, for a dive across the English Channel. Discover The Pilot Fish Project here: <http://www.projetpoissonpilote.com/en/>

DENNINGER Fabrice

CEO Alvest Equipment Services

Postal address : 100-104 Boulevard du Montparnasse
75014 PARIS - FRANCE

Website : www.aes-ges.com/fr/

COMPANY PROFILE

ALVEST is a group dedicated to the design, manufacture and distribution of technical products for the aviation industry, which include aviation ground support equipment, spare parts and services, and technical adhesives and markings for the aerospace and industrial markets.

ALVEST aims to lead in these markets and consistently invests in innovation, product development and manufacturing and customer support process improvement. We pride ourselves in our ability to increase and strengthen the effectiveness, safety and energy efficiency of aviation ground support.

ALVEST EQUIPMENT SERVICES (AES), an Alvest Group company, offers a full range of services for the ground support equipment (GSE) and the airport environment, using the best combination of robust processes, dedicated software platform and agile support of a dedicated team.

AES aims to offer tailor-made services with high quality standards, delivered with a strong technical know-how and supply chain expertise.

Those services include Rental & Leasing, Fleet Management & Pooling, Maintenance services, Refurbishment of equipment, Second hand GSE and Consulting.

SHORT BIOGRAPHY OF THE DELEGATE

Antoine MAGUIN graduated from the Ecole des Mines de Paris.

After 18 months in the automotive industry, he spent five years in the mining equipment industry first as Production Manager, before becoming the COO of a division of the TAMROCK Group.

He joined in 1993 the TLD group (that further evolved into ALVEST) and he has remained since contributing to his strong development and worldwide leadership. In 1993, he first started as CEO of TLD Europe and later, in 1999, he was appointed CEO of TLD USA and its subsidiaries, whereupon he moved to America. He spent five years in the US, after which he returned to France in 2004 to become Group COO of the TLD, then Group COO of ALVEST. Antoine was appointed CEO of the ALVEST group in July 2021.

Fabrice DENNINGER graduated from IUT d'annecy, and has start his career in his own company. After 5 years Fabrice moved to Honeywell in the Home & building division. After 2 years in the position of South Of France manager, Fabrice was promoted as France Service Manager. In 2005, Fabrice has moved to CARRIER France, and United Technology company as Service Manager for 4 years, then France General Manager for 5 years then as VP Sales, Marketing & Service for 86 countries.

In 2018, Fabrice has joined the ALVEST Group in order to create and launch the new activity of ALVEST EQUIPMENT SERVICES (AES) as CEO. Today AES is operating in Europe, USA and Middle East. Fabrice is also the Chairman of the Board of our JV in Saudi Arabia names TLD ARABIA Equipment Services since 2020.

www.architecturestudio.fr

COMPANY PROFILE

Founded in 1973 in Paris, Architecturestudio is an international practice based in Paris, Shanghai, and Zug, Switzerland. It brings together 13 partner architects and 150 architects, urban designers, landscape architects and interior designers of 25 different nationalities. Architecturestudio is a team: we believe in the virtues of exchanging ideas, common effort, shared knowledge and enthusiasm. We believe these virtues are essentials for providing continually renewed answers to environmental, urban and architectural challenges, in a changing world, both global and polymorphous.

Our wide scale of achievements goes from urban design, master-planning and large public amenities (culture, education, health, sport facilities, public institutions) to mixed-use architectural projects including hotels, offices, retail and housing.

Among Architecturestudio's major achievements are, in Europe and France, the European Parliament (Strasbourg), the Arab World Institute (Paris) that received the Aga Khan award, Onassis Cultural Centre (Athens), the restructuring of Jussieu University Campus (Paris), the Grand Auditorium of the Maison de la Radio (Paris), the Eco district of Parc Marianne (Montpellier); and in the Middle East and Asia, the initial urban design of Makkah Western Gateway, the public realm design of Lusail City (Qatar), Bahrain National Theatre, Amman Rotana hotel (Jordan) and Jinan Cultural Centre (China).

SHORT BIOGRAPHY OF THE DELEGATE

Roueïda AYACHE is Partner Architect of Architecturestudio since 2001.

Among Architecturestudio's emblematic projects and achievements, Roueïda Ayache was particularly in charge of the following projects: National Theater of Bahrain, Amman Rotana Hotel tower (Amman), Le Gray mixed use complex (Amman), AlNahr landmark tower (Beyrouth), urban and public space design of the new city of Lusail (Qatar), Iconic buildings of King AbdulAziz University (Jeddah), Jame'Unnas Complex (Dammam), master plan of Tirana City Center (Albania). She is also directing the team of Architecturestudio's resident architects working in AIUla with the Royal Commission of AIUla and Afalula.

Roueïda Ayache participated in numerous juries of international design competitions, among which, Liget Park Cultural buildings in Budapest (2014 and 2015), Young European Architects, Young African Architects and Young Arab Architects presented at Venice Biennale of Architecture (2012, 2014 and 2021), National Federal Council of the United Arab Emirates (2010), Urban Design of Martyrs Square Axis in Beirut in 2005. She has also given numerous conferences around the world on the themes of the ecological city and contemporary architecture.

ARIA TECHNOLOGIES

Jacques MOUSSAFIR

Deputy CEO – Vice-President / Strategy

8-10 Rue de la Ferme
92100 Boulogne-Billancourt FRANCE

www.aria.fr

COMPANY PROFILE

One single concern: the atmospheric environment

ARIA Technologies is a French company, leader in its field in Europe, recently acquired by the SUEZ Group to join the “Air Solutions” division based in Paris, with scientists and engineers in France, Italy, Brazil, Chile and the UK . The company provides solutions :

- From building scale to continental scale
- From simple screening models to nationwide complete solutions
- Consulting: industry & governments
- Software: full catalogue of solutions
- Systems: 24/7 connected
- Training: in France or on site

ARIA Technologies continually strengthens its competence through collaboration with leading laboratories in the area of fluid dynamics and environmental modeling (EDF, CEA – French Atomic Energy Authority, CNRS – French National Council for Research, US-DOD – United States Department of Defense, and many others).

- **Compute Impact of Industrial emissions, on air quality and health**, both short-term and long-term; including real-time on-line systems on plants.

- **Model Urban and Regional Air quality** : evaluate the comprehensive impact of industry, vehicular traffic and diffuse sources, for cities, regions and governments.

- **Model Risks linked to the airborne dispersion of toxic releases** (storage accidents, pipe failure, fire clouds), for industry and defense.

- **Assess Renewable energy potential**, optimize the design of wind and solar farms, forecast production and determine the variability of the energy production.

- **Study Climate Change** : greenhouse gases emissions, emissions, long-term adaptation, meteorological downsizing, CO2 fluxes evaluation

ARIA Technologies generates more than 60% of its turnover from exports and accumulates references worldwide, in particular with its regional air quality forecasting systems: Beijing (2008 Olympic Games), Delhi (2010 Commonwealth Games), Concepción in Chile (2015) and Rio de Janeiro (2016 Olympic Games). The company has installed other forecasting systems in Romania, Qatar, Tunisia (national system) and in many European cities (Paris, Rome, Milan, Turin, Toulouse, etc.).

SHORT BIOGRAPHY OF THE DELEGATE

Jacques MOUSSAFIR, 1956, is the Founder and has been the Chairman and Chief Executive Officer of ARIA Technologies SA since its foundation in 1990. He is now Vice-President in charge of strategy since the company joined the SUEZ group.

Jacques trained in Fluid Mechanics at the Ecole des Mines de Paris (ParisTech) and is a Doctor in Meteorology and Oceanography from Pierre and Marie Curie University (UPMC). He developed the first French Doppler acoustic radar (SODAR) with REMTECH, taught meteorology for the United Nations in Oran (Algeria), and joined EDF R&D (Electricité de France) in 1983 to develop simulation models of the dispersion of radioactive substances in the environment, and build accident response systems for French nuclear power plants.

Jacques founded ARIA Technologies in 1990 with the vision of developing numerical modeling techniques used in the nuclear industry in other fields, for governments, regions, cities, and other industries.

His role at ARIA Technologies includes managing a large part of the company's international activities, as well as managing a limited number of key R&D projects (micro-scale urban simulations, climate change).

ARTELIA HOLDING

Lionel VEROT

Head of Business Development

16 rue Simone Veil
93400 Saint-Ouen-Sur-Seine FRANCE

www.arteliagroup.com

COMPANY PROFILE

Artelia is a multidisciplinary independent group offering a full range of engineering-related services over the **mobility, water, energy, building** and **industrial sectors**, from technical expertise through to complex project delivery: consulting, master planning & feasibility, design & engineering, construction & project management, asset & facility management, turnkey solutions.

Artelia is wholly-owned by its staff and managers. We are deeply attached to this shareholding model which promotes long-term vision, creates a spirit of ownership and guarantees our independence.

With **6,100 employees** and a turnover of **€637m** in 2020, Artelia is in the top 15 consulting engineering firms in Europe. Internationally, the Group carries out projects in more than 100 countries and has offices in 40 countries in Europe, Africa, the Middle East, Asia-Pacific and the Americas.

SHORT BIOGRAPHY OF THE DELEGATE

More than 30 years' experience in design, construction supervision, project management in the industrial, tertiary, commercial healthcare and logistics sectors.

Management of several Business Units inside ARTELIA GROUP including Business Development worldwide.

Now Head of Business Development with a global view on all ARTELIA's domains: INDUSTRY, MOBILITY, WATER, BUILDING, ENERGY

ASSYSTEM KSA - AL KHOBAR

Website : www.assystem.com

COMPANY PROFILE

As an independent engineering group, Assystem has over 50 years of experience providing industrial infrastructures with engineering services and managing projects that are complex in size, technological content, and safety requirements.

Assystem supports its clients in the design, construction supervision, commissioning and operation of their industrial infrastructures, ensuring that their facilities are safe and effective, in line with their budget and schedule. Assystem is focused on continuous development of its expertise in the infrastructure sector.

As a major player in digital transformation, Assystem also supports its clients in their digital projects with digital engineering and industrial data science solutions to meet their operational performance challenges.

We currently employ more than 7,000 people working in fifteen countries in Europe, the Middle East, and Asia.

SHORT BIOGRAPHY OF THE DELEGATE

Stéphane AUBARBIER : Member of the Executive Committee

As an engineering graduate of the Lyon INSA (National Institute for the Applied Sciences) and holding an MBA from the ESCP-EAP (European School of Management in Paris), Stéphane AUBARBIER started his career at Assystem on operational positions and took over the development of the automotive sector.

Subsequently, Stéphane applies his skills in marketing to work on the service offers at ABB group. He successively occupied the positions of Director of the maintenance contracts division for France, then for Southern Europe, finally taking over ABB Service's Marketing and Business Development Management for Southern Europe.

In 2002, Stéphane joined Assystem's Executive Committee to develop engineering activities. Since 2005, Stéphane is Executive Vice-President of the Assystem group.

Between 2012 and 2014 Stéphane was the president of Syntec Ingénierie (French federation gathering engineering companies). He is now a member of the CSFN (French nuclear industry strategic committee) board.

Guillaume PURAVET holds an engineering degree from ENSMM, a French Engineering School, and one "Executive MBA" from HEC, ranking #1 by Financial Time. He possesses 19 years of experience.

After obtaining his engineering degree, he joined ASSYSTEM Group and made all his career within the company. He started as mechanical engineer for the automotive sector in France and succeeded to reach a wide range of position within the Group allowing him to carry out international missions, to manage projects, to handle Business Units and to lead Key Account Relationships.

Today Guillaume assume the role of VP for Nuclear International Business meaning that he is responsible for all Nuclear New Build International Projects, the ones linked with international collaboration in France and/or for which the licensee will be outside France.

Guillaume is also Managing Director for some Joint Ventures on which Assystem is the main shareholder, to address various customers or regions in the world and Co-President of the Nuclear Group within SYNTEC-Ingénierie, the Federation gathering French engineering firms.

MEYER GERAUD GUILLAUME is CEO of Assystem in Saudi Arabia and French Foreign Trade Advisor in KSA. More than 20 years experience in the infrastructure sector in Africa, Middle East and Central Asia, with major French groups such as Bouygues, Oger and Assystem.

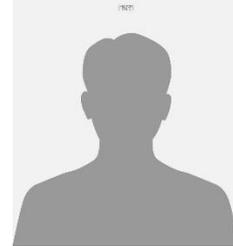

AXENS

Jean SENTENAC

Chairman & CEO

89bd, Franklin Roosevelt
92500 Rueil Malmaison, France

Website : axens.net

COMPANY PROFILE

Axens Group' mission is to provide clients with innovative and reliable a complete range of solutions for the conversion of oil and biomass to cleaner fuels, the production and purification of major petrochemical intermediates as well as treatment and conversion options for natural gas and industrial waste, a better sustainable mobility and help them meet their challenges linked to environmental issues and to the energy transition. The offer includes technologies, equipment, heaters, furnaces, modular units, catalysts, adsorbents and related services.

SHORT BIOGRAPHY OF THE DELEGATE

Jean Sentenac was named Axens President and Chief Executive Officer in 2002. Since then he has guided the development of Axens as leading supplier to clients in the hydrocarbon processing industries providing reliable and effective technologies, products and services. Among Axens' and Jean Sentenac's top priorities are ensuring client trust and satisfaction, advancing employee development and technical expertise while continuing to uphold safety in operations and respect for the environment. Prior to this, Jean Sentenac was Deputy CEO at Axens and Deputy Executive Director of IFP's Industrial Division.

He began his career in engineering and construction with Air Liquide in Spain and Italy followed by ten years of experience in the chemical industry with Rhone-Poulenc and Rhodia in the management of business units in the fields of Life Science and Aroma Organic Chemicals. Jean Sentenac graduated from "France's Ecole Polytechnique" and holds a post-graduate engineering degree from the "IFP School".

BIOLOG-ID

Bruno CHAPPERT

CEO

46 avenue du Général Leclerc
92100 BOULOGNE BILLANCOURT FRANCE

www.biolog-id.com

COMPANY PROFILE

BioloBiolog-id has developed Biolog-connect®, a solution that uses Radio Frequency Identification (RFID) technology to manage and trace sensitive health products: blood and blood products (platelets, plasma ..), plasma for fractionation, and chemotherapy.

By guaranteeing real time access to the Product & Patient Information they need, Biolog-id is helping health-care professionals to concentrate on what they do best so that they can

- Enhance patient safety
- Reduce operational costs
- Improve their working conditions

SHORT BIOGRAPHY OF THE DELEGATE

Bruno CHAPPERT is a Senior Executive who is successful at devising strategies that create efficiencies, facilitate sustainable growth and drive profitability across diverse environments.

During his international career, including the United States, - in Thales, then PRTM, IBM, Thomson, Superior Essex, IN Groupe - Bruno Chappert held various management responsibilities in the areas of Technology Development, Systems Integration, Supply Chains management, and Business Units General Management.

In the last ten years, Bruno played a key role in IN Groupe by setting up Digital Services in the area of Identification, Authentication and Traceability. He specifically led strategic key programs supporting the Health sector's Digital Transformation : digital authentication services for health professionals (Agence du Numérique en Santé), epidemiological studies / citizen ID anonymization (INSERM), tobacco traceability (Customs & Health Ministeries).

Bruno Chappert has graduated from the Ecole Centrale Paris.

BOUYGUES TRAVAUX PUBLICS

www.3ds.com

Mahel ABAAB-FOURNIAL

Senior Director Public Sector

10 rue Marcel Dassault
78410 Velizy-Villacoublay, France

www.3ds.com

COMPANY PROFILE

Dassault Systèmes, the 3DEXPERIENCE Company, is a world leader in 3D modeling & simulation, data analytics, AI and collaborative solutions for business and people. By creating 'virtual experience twins' of the real world with our 3DEXPERIENCE platform and applications, our customers push the boundaries of innovation, learning and production. Dassault Systèmes' 20,000 employees are bringing value to more than 270,000 customers of all sizes, in all industries (from manufacturing to life sciences and cities & infrastructure), in more than 140 countries.

SHORT BIOGRAPHY OF THE DELEGATE

Jacques Beltran started his career as a research fellow at the French Institute of International Relations (IFRI), focusing on European security and transatlantic relations. In 2003, he joined EADS-AIRBUS as senior manager in charge of international development. In 2005, he was appointed diplomatic advisor to the French Minister of Transport and Infrastructure, D. Perben. From 2007 to 2016 he worked for ALSTOM in the energy and rail transportation sector, in different capacities: VP public affairs, Senior VP Asia-Pacific, Senior VP Europe-CIS and finally Head of sales & marketing for Alstom Transport in France. Back to the public sector in 2016, he joined the Council of Paris Region, as deputy director general, in charge of European affairs, international cooperation and tourism; and special advisor to the President of Paris Region. He joined Dassault Systemes in September 2019 as Vice President, Public Sector in charge of developing the company's business in the public sector worldwide. He studied at Sciences Po Paris, at the military academy of Saint-Cyr and at INSEAD (advanced management program). He is a member of the young global leaders program of the World Economic Forum.

Mahel ABAAB-FOURNIAL began his career at the United Nations Headquarters in New York, as assistant to the NGO Division chief of staff within the Economic and Social Directorate (ECOSOC). In 2011, he moved to the United Arab Emirates to open the regional headquarter of GEOIMAGE. French SME specializing in the enrichment of satellite data for the defense, telecommunications and urban planning sector. He became responsible to set up a new team and develop the activity in Asia and the Middle East for the company. In 2012, he joined the Swiss American company ASCOM, world leader in the optimization of telecom networks and the analysis of network signals. His mission was to structure a business development strategy and team over Asia, Middle East and Africa, to accelerate the growth plan of a new division. In 2016, he joined the company DASSAULT SYSTEMES as Head of the Defense and Homeland Security business unit. In 2018, he was appointed Head of Sales over Benelux, Scandinavian countries and the United Kingdom. In 2020, he integrated Dassault Systèmes Public Sector Division as Director. Developing the company's relations and projects worldwide with public entities. He studied at SKEMA business school and at Dauphine / ENA (M2 public management). He is a founding member of the Cercle K2 and is part of the steering committee of the digital task force of MEDEF International.

EDF S.A

LEVKOV Valérie

Senior Vice President Africa, Middle East & Eastern Mediterranean

Postal address 20 Place de la Défense
Postal index ; City ; Country 92050 LA DEFENSE

COMPANY PROFILE

EDF is a French power utility company, headquartered in Paris and operating on the entire energy value chain. It employed around 165 000 employees worldwide in 2019. The main stakeholder is the French Government, owning 83.68% of the company.

In 2020, the generation capacity was 122.3 GW of 90% carbon-free electricity. In France, EDF operates 58 nuclear reactors and 25.5 GW of hydro capacities. EDF is also the number 1 producer of renewable energy in France and Europe, and number 5 globally, with the ambition to double its renewables capacity by 2030. EDF is active in the distribution field and owns 1,4 million Km distribution network with 26 million smart meters installed worldwide. In our energy service branch, 340 heating and cooling networks are operated by Dalkia.

SHORT BIOGRAPHY OF THE DELEGATE

Valérie Levkov holds Master degrees in Engineering and Business Management. She began her professional career with EDF in 1987. She started her career in the R&D Division, where she held several positions, from researcher and project manager to head of a division of 150 engineers, all dedicated to the introduction of new IT technologies in power plants. From 2001 to 2005 she worked in the Purchasing Division, and was in charge of the first cost reduction program within EDF Group. In 2005 she became the executive assistant to the Group CFO before becoming in 2008 head of Internal Communications for the EDF Group. In May 2009, she was appointed Vice President in charge of the development of new nuclear projects worldwide. In July 2015, she became the Senior Vice President Africa & Middle East. From June 2018 she is Senior Vice President Africa, Middle East, East Mediterranean.

ENGIE

Turki Alshehri

Chief Executive Officer

2181-Qurtubah Dist.
13247, Riyadh, Saudi Arabia

Website : <https://engiemiddleeast.com/our-sectors/renewable-energy/>

COMPANY PROFILE

ENGIE in KSA

ENGIE has been present in the region for almost 30 years. ENGIE develops its activities in partnership with Saudi actors on energy production, seawater desalination, district cooling, energy efficiency services and high value-added facilities management. We have 2000 employees and have mobilized over USD 7.9 Billion of capital investment in the Kingdom. ENGIE generates 7600 MW of power, equivalent to 10% of the installed capacity of Saudi Arabia and produces 176 MIGD of desalinated water per day, equivalent to 11% of market production.

ENGIE Globally

Our group is a global reference in low-carbon energy and services. Together with our 170,000 employees, our customers, partners and stakeholders, we are committed to accelerate the transition towards a carbon-neutral world, through reduced energy consumption and more environmentally-friendly solutions. Inspired by our purpose (“raison d’être”), we reconcile economic performance with a positive impact on people and the planet, building on our key businesses (gas, renewable energy, services) to offer competitive solutions to our customers. Turnover in 2020: 55.8 billion Euros. The Group is listed on the Paris and Brussels stock exchanges (ENGI) and is represented in the main financial indices (CAC 40, Euronext 100, FTSE Eurotop 100, MSCI Europe) and non-financial indices (DJSI World, DJSI Europe, Euronext Vigeo Eiris - Eurozone 120/ Europe 120/ France 20, MSCI EMU ESG, MSCI Europe ESG, Euro Stoxx 50 ESG, Stoxx Europe 600 ESG, and Stoxx Global 1800 ESG).

SHORT BIOGRAPHY OF THE DELEGATE

Turki Al Shehri is the Chief Executive Officer for ENGIE in the Kingdom of Saudi Arabia. Al Shehri is responsible for ENGIE’s vast business that covers renewables, conventional power, green hydrogen, gas storage, smart city applications, and downstream LNG. Currently ENGIE in Saudi Arabia has over \$8 billion in investments and over 2000 employees. ENGIE is a major contributor to the Country’s vision through foreign direct investments, local job creation, and knowledge transfer. ENGIE has strong ambitions to double its investments and employment in the next 3 to 5 years.

Prior to joining ENGIE, Al Shehri was the Head of the Renewable Energy Project Development Office leading the Country’s renewable program, a role he assumed after nearly a decade at Saudi Aramco as the Head of Power Investments. He began his career with Saudi Aramco in 2002 as an electrical engineer, after graduating from the University of South Florida with a B.Sc. in electrical engineering.

Al Shehri brings to ENGIE nearly 20 years of experience as a visionary leader in power systems and renewables. He has strong expertise in energy strategy and policy, integrated resource supply planning, market regulations, cogeneration, efficiency enhancements, and power system analysis.

With €27 billion in assets under management, including €19.2 billion from limited partners and more than 450 portfolio companies invested or funded, Eurazeo is one of Europe's leading private equity companies. The Group is listed on Euronext Paris and supported by prominent shareholders, including the David-Weill family, the Decaux family and the Richardson family. We have a longstanding presence in France and the rest of Europe and we have global aspirations, having expanded into North America and Asia over the past ten years. We specialize in three asset classes in which we have developed substantial expertise, helping finance businesses right across the investment spectrum. We invest for both ourselves and institutional clients. We apply our expertise across all expanding sectors, including tech, healthcare and financial services. As a committed investor, we can help companies achieve virtuous and responsible growth.

SHORT BIOGRAPHY OF THE DELEGATE

Benoist GROSSMANN is CEO Eurazeo Investment Manager, Managing Partner Venture & Growth. Benoist Grossmann joined Idinvest Partners in 2002, which became Eurazeo Investment Manager (EIM) in 2021. He was appointed a board member in 2003, Managing Director in March 2021 and runs the Venture and Growth equity expertises. Before joining Idinvest Partners, Benoist worked for several venture capital funds for over 10 years. He was a Partner at Viventures from 1998 to 2002 and worked as Investment Manager at La Financière de Brienne. He had previously spent over 10 years working in the industry as a laser systems specialist at EDF, NASA and Thomson-CSF Optronique, for whom he invented five patents and authored over twenty publications. Benoist has been President of France Digitale – a leading European startup organization – since 2019 and is the newly elected board member of the French Space Agency – CNES. He is also a member of Facebook Profil France's Advisory board and a member of BPI France's recently formed Innovation Committee. He is currently on the boards of Ogury, Molotov, Spacecargo and Frichti and was previously on the boards of Criteo, Dailymotion, Deezer and Meetic. Benoist Grossmann holds a PhD in Physics from the Université de Paris VI and an MBA from the Institut d'Etudes Politiques in Paris.

Christophe BAVIERE was the co-founder, Chairman of the Executive Board of Idinvest Partners which joined the Eurazeo group in 2017. He held senior positions within the AGF-Allianz Group, including CIO of Allianz Private Equity Partners and CEO of Allianz Global Investors France. Starting in 1997, he was instrumental in developing private equity as a separate asset class within diversified portfolios and in establishing Idinvest Partners (formerly AGF Private Equity). Previously, Christophe had worked at the Caisse des Dépôts et Consignations as well as BNP Paribas. Christophe Bavière is a Board Member of AFG, the French Asset Management Association. Until 2015, Christophe Bavière was Vice President of France Invest, a private equity trade association, and served for several terms on the Consultative Commission of the AMF, the French financial markets authority. He is also a Colonel in the French Air Force Reserve. Christophe Bavière holds an MBA from the University of Ottawa and a business degree from ESLSCA. He is also a member of the French Institute of Actuaries (IAF). In 2007, he was elected "Private Equity Personality of the Year" for 2006 by Les Echos – Capital Finance.

Mathieu TEISSEIRE is a Partner at Eurazeo in charge of the International Investment Partners since 2019. Prior to that, Mathieu acted as a Venture Partner at Eurazeo in charge of developing business in the Middle East amongst sovereign investors. Prior to joining Eurazeo in January 2015, Mathieu was a Senior Advisor to Rothschild & Co, accompanying the bank's development in the Middle East. Before that, he was in charge of developing the European and Middle Eastern business of Protégé Partners, a New York-based fund of hedge funds that specializes in seed money for up-and-coming talents. In his earlier career, Mathieu worked at the New York State Office of Attorney General Eliot Spitzer after his time at the law offices of King & Spalding and Lafarge et Associés, where he specialized in white-collar crime.

Mathieu holds a master's degree in law and political science from Paris I Pantheon-Sorbonne University and has taught criminal justice at the Sorbonne in Abu Dhabi. He is admitted to the Paris Bar.

EUTELSAT

MURAT Ghassan

CEO Eutelsat MENA

FIGEAC AERO

Jean-Claude MAILLARD

Chairman & CEO

Zone industrielle de l'Aiguille
46100 FIGEAC
France

<https://www.figeac-aero.com>

Camille TRINEAU

VP Corporate development

Zone industrielle de l'Aiguille
46100 FIGEAC
France

<https://www.figeac-aero.com>

COMPANY PROFILE

Figeac Aero is a specialized metallic detail parts manufacturer (including machining, sheet metal fabrication and surface treatment processing) for civil and military aviation.

The Figeac Aero Group is an industrial group that operates as a Tier 1 subcontractor for aircraft manufacturers, equipment manufacturers and sub-assemblers in the aeronautical sector.

The Group operates through four business lines:

- Production of structural aeronautical parts (including aeronautical sheet metal);
- Precision machining and surface treatment;
- Workshop and on-site assembly of sub-assemblies for the aeronautics industry;
- General mechanics and heavy boiler making (excluding the aeronautical industry, especially for the oil industry).

The Group was founded in 1989 in Figeac by Jean-Claude Maillard, the current CEO. It then developed organically but also through several acquisitions.

SHORT BIOGRAPHY OF THE DELEGATE

Born in 1957, **Jean-Claude MAILLARD** graduated from a French engineering school.

He started his career as a sales engineer in a French aeronautical company to support the company business development.

Few years after, in January 1989, he founded the subcontractor Figeac Aero in Figeac (Lot department, France), with a share capital of €18,000 and 6 employees.

As former rugby player, he is convinced that it is the combined potential of individuals that moves the Group forward.

Jean-Claude is now CEO Figeac Aero Group and Share holder at 76%, with 450 million euros turnover and 3700 employees before covid time.

Born in 1988, **Camille TRINEAU** graduated in 2011 from a French engineering school with major in embedded systems and microelectronics. After completing a specialized master in Strategy and business development at Lyon Business School in 2012, he started his career as a project engineer in the Aerospace Valley in Toulouse (a French aeronautical cluster). Few months after, he joined Figeac Aero Group as a sales engineer to support the company business development. After taking care of most of the UK customers and Brazil and signing first significant contracts with Rolls Royce and Premium Aerotech in Europe, he joined the US sales force as a sales manager to support prospecting work with main OEMs. At the same time he started working on building a local partnership in Saudi Arabia to support the Kingdom's vision 2030 and expand Figeac Aero's business development work in the Middle-East. As of today, Camille is taking care of the whole corporate development and is in charge of public and investors relations.

FIVE CAPITAL

VIGIER Laurent

Executive Chairman

Central Park Towers – OT 14-48
DIFC, Dubai, United Arab Emirates

COMPANY PROFILE

Five Capital is an operationally oriented investment firm with a long-term focus pursuing control and minority investment opportunities in emerging markets.

Five Capital seeks to participate in and support the long-term economic transformation and diversification initiatives being undertaken in Saudi Arabia and other GCC countries.

Five Capital is a patient investor and seeks to develop small and medium sized companies to their full potential over a medium term investment horizon. Five Capital acquires significant interests in businesses, led by strong entrepreneurs/management teams, alongside Strategic Partners, who are industry leaders and have the ability to provide strategic and operational support, to create resilient business models and shape the business going forward.

France

www.navya.tech

COMPANY PROFILE

In a nutshell, NAVYA is a pioneer, leader and specialist for Autonomous Vehicles for shared transportation.

Over the last 5 years, we sold more than 200 AUTONOM SHUTTLES worldwide in 23 countries, in various use cases, such as city centres, campuses, hospitals, industrial sites.

Navya empowers businesses and communities, reshaping their future with a safe, profitable, and efficient mobility.

At the cutting edge of technology, NAVYA revolutionizes trips by offering innovative mobility solutions for the first & last mile.

SHORT BIOGRAPHY OF THE DELEGATE

Pierre LAHUTTE joined NAVYA as Chief Strategy and Development Officer in June 2020.

Pierre has more than 20 years of experience in the Agricultural Equipment and Truck & Bus industries, much of which he has gained through roles of increasing responsibility within New Holland, CNH and IVECO. He began his career in 1997 at New Holland with an international career in Italy, the United States and Brazil. He then continued his career with senior sales positions in Spain, Africa, Japan and Benelux where he was in charge of CNH's agricultural activities. In 2007, he was appointed Global Head of New Holland's Tractor Business, leading the complete overhaul of the product offering, successfully repositioning the brand and winning numerous international awards, including the SIMA gold medal in Paris with the first hydrogen-powered tractor.

In 2012, Pierre joins IVECO to take responsibility for the Bus activity. In 2014 he is promoted as President of the IVECO brand in charge of the Bus and Truck activities within CNH Industrial, the new company created by the merger of CNH and IVECO. Under his leadership IVECO returned to profitability, strongly developed its alternative powertrain offering and was the first ever manufacturer to display a zero diesel stand at the 2018 Hannover Commercial Vehicle Show.

From 2014 to January 2019, Pierre was a member of the Board of Directors of ACEA (European Automobile Manufacturers Association). Since May 2020, Pierre has been a member of the Board of Directors of FRIEM S.p.A.

Pierre holds a Tank Officer degree from the French Armored Cavalry School in Saumur, a Master Grandes Écoles in Marketing and Technology Management from NEOMA Rouen Business school and an MBA from the UMASS ISENBERG School of Management, Amherst, USA. He speaks 7 languages acquired during the course of his international career.

Since June 2021, Pierre's responsibilities at Navya have been extended to cover Product Management and Licensing on the one hand and Navya's CSR Strategy on the other. Pierre Lahutte is assuming, on a transitional basis, the Presidency of NAVYA's Management Board.

Graduated of the ICN Business School in Nancy, **Benoît JACHEET** is a specialist in business development and financing. He has solid experience in financial supervision, managing complex situations and change management. After starting his career in the banking sector as Deputy Director of the BNP Paribas office in Indonesia, Benoît held several positions in Business Control and Strategic Marketing in the IBM, Bouygues and Vivendi groups. He was then Director of Financial Projects at Neuf Cegetel and then held responsibilities as CFO in technology and telecom groups Imakys (ex-Ericsson) between 2006 and 2008 and at A&O Systems in 2009-2010. For the past 10 years, Benoît has led interim financial management assignments for listed, family-owned or LBO companies, and has accompanied the transformation of Ymagis (cinema), Wonderbox (gift boxes), Mauna Kea Technologies (medical devices), Movitex (ready-to-wear), Leosphere (atmospheric analysis lidar) and Promovacances (tourism).

In April 2020, Benoît joined Navya as CFO – Chief Financial Officer.

In June 2021, he was confirmed in this role, Finance and Human Resources, and saw his scope extended to cover the sales of the company Navya.

Aged 52 and holder of a Magistère in Minerals and Industrial Materials from the University of Orléans, **Olivier LE CORNEC** has extensive experience in the automotive sector combined with expertise in autonomous

driving systems. He started his career as a Consultant in the simulation of complex mechanical systems within the Altran Group for the Renault Group. He then joined the PSA Group as Head of Advanced Axles and Ground Linkage Projects for hybrid vehicles.

In 2010, Olivier was appointed Technical Manager of new generation Hybrid projects and in 2013, Technical Manager of ADAS developments (Advanced Driver Assistance Systems) and of the Electrical and Electronic architecture of the Group's new vehicle bases.

In 2017, he joins the Transdev group as Technical Director of Autonomous Transport Systems, where he was responsible for the launch of the Rouen Normandy Autonomous Lab and the development of the Cristal vehicle in partnership with Torc.

Before joining NAYA in April 2020 as Chief Technology Officer, Olivier was Director of Technical Policy and Industrial Partnerships within the RATP group for Autonomous Transport Systems, where he was responsible for launching the "Paris 2 Connect" intelligent infrastructure project, supporting autonomous mobility and future services for the city.

His experienced profile is a major asset to support NAVYA in the development of its technology and thus increase its leadership to become the reference player in the provision of level 4 autonomous driving systems.

Since June 2021, Olivier Le Cornec has been confirmed in his role as Chief Technology Officer at Navya, and his responsibilities have been extended to include Manufacturing and Customer Service.

Before joining NAVYA, **Antoine CLAUDEPIERRE** was part of Vinci Group, working on the development of their transport infrastructure construction subsidiary, EUROVIA. His focus was oriented on the Middle East region, guiding through market studies and strategy definition the approach of the group for road safety equipment and urban development in the region. His main interest is mobility, and the evolution of the way people move around our cities.

Antoine joined NAVYA in 2017. Since then, he is leading the company development toward implementation of innovative and sustainable mobility solutions in the Middle East & Asia Pacific region.

ORIGIN ARCHI

Salah-Eddine, SAIDOUNE of the delegate

CEO, Chairman

2 Impasse Lebouis
75014 ; Paris ; France

www.origin.archi

COMPANY PROFILE

ORIGIN is an architectural studio that accompanies the transformation of these places by creating projects that affirm their usefulness, durability, and originality.

Our work consists in designing places to live, work and play, placing the environment and the users at the center of our reflection.

A collective and creative instinct allow us to imagine and shape tomorrow's environments.

With more than 20 years of experience, our singularity lies in the plurality of programs carried out: from public facilities, including sports facilities, to urban planning and collective housing. We have already designed more than one million seats for the world's largest stadiums and built fifteen head offices on four continents. The workshop is recognized for having exported for the first time the French label HQE (High Environmental Quality) on the African continent and continues to be a pioneer in the development of environmental architecture in countries wishing to engage in ecological transition.

SHORT BIOGRAPHY OF THE DELEGATE

"The best guarantee to have work tomorrow is to do your best work today."

Thanks to his father, Salah grew up immersed in the international cinematographic culture. A young head full of dreams gave him the wish and will to travel and meet different cultures and visit new horizons. He naturally became an emissary for his native Algeria.

Later, becoming an Architect was his way to contribute to the crystallization of these different cultures and people through design. In architecture, like the making of a movie, every stone, every brick needs to sit perfectly in its context. Every detail must be in the right place so that the project unrolls naturally.

Salah can be very demanding to himself and his teams to achieve this result. Ambitious and symbolic projects motivate him even more.

Very confident and discreet, he is a trusted person who makes himself available as much as needed. His acute sense of responsibilities and duties makes him appreciated by our clients, partners, and consultants.

COMPANY PROFILE

ORPEA is a leading worldwide operator in dependency care.

We specialize in various types of long- and short-term physical and mental dependency, including:

- Diminished autonomy due to age;
- Rehabilitation and post-acute care;
- Mental health disorders.

In Europe, we provide a full, uniform range of care facilities and services for people with diminished autonomy through a network of specialized facilities:

- Retirement homes, mostly nursing homes but also assisted living facilities;
- Post-acute care and rehabilitation facilities;
- Psychiatric care facilities;
- Home care services.

All our facilities strive to:

- Care for residents and patients in a warm, friendly environment suited to their needs and their state of health;
- Provide a high level of comfort and safety;
- Provide personalized care plans and support residents and patients in activities of daily living;
- Encourage their personal fulfilment and well-being throughout their stay through suitable social, cultural and therapeutic activities;
- Help them to get back to normal life on a long-term basis.

ISG PARIS

French Navy Lieutenant-Commander - Citizen Reserve / June 2017 - Current position

Helping to promote the French Navy among our fellow citizens

Guillaume HUART was born and raised in France (SciencesPo Lille, MSc Health Law) and appointed in the French body of hospital directors in 2000 (School of High Studies in Public Health, Rennes). He started his career (2002-05) by managing the medical human resources in public hospitals. Then he was recruited by the French ministry of health (2005-08) to enforce the first National plan for rare diseases.

From 2008 to 2016, he was the Secretary general of Imagine - Institute of genetic diseases, a prominent research foundation, based at Necker - Sick Children hospital, in Paris, France.

From 2016 to 2020, he was the Regional Counselor for Health of the French embassies in the Middle East, based in Riyadh, Saudi Arabia, in charge of the deployment of the French healthcare model and know-how in the Middle East countries, through the implementation of public-private partnerships and the development of an ambitious residency and fellowship program.

In 2020, he was appointed CEO of ORPEA Middle East, based in Dubai, UAE, to develop the recognized expertise of the French internationally developed group in the fields of post-acute rehabilitation, long term care and mental health, to address the needs of the GCC population.

He is a Knight of the French National Order of Merit (2015).

Thibault SARTINI was born in 1980 in Bondy (France).

After graduating with a Master's degree in Human Resources Management and Labour Law at Paris II Pathéon-Assas University in 2008, he obtained an Executive Master's degree in Healthcare Strategy & Management at ESCP Europe Business School in 2013.

He started his career in 2003 working in the field as a nurse, and subsequently entered Orpea Group in 2008 as Clinic Director, before being promoted to the position of Regional Director. In 2016 he was appointed CEO of Orpea Italy, becoming the youngest Country Director of the Group.

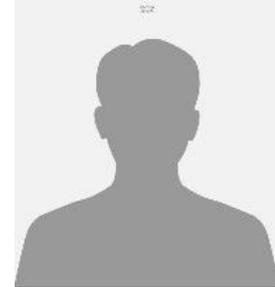

After only 3 years and the development of about 20 facilities, he confirmed his rapid professional growth when he was nominated in 2019, CEO of the Cluster New Countries, leading now 5 markets
Managing now 5 markets: Italy, Middle East, Poland, Latvia and China.

PASQAL

REYMOND Georges Olivier

Chairman

2 Avenue Augustin Fresnel
91120 ; Palaiseau ; France

<https://pasqal.io/>

Chayma, BOUAZZA

Business Development Manager

2 Avenue Augustin Fresnel
91120 ; Palaiseau ; France

<https://pasqal.io/>

COMPANY PROFILE

Founded in 2019, PASQAL develops and markets Quantum Processing Units (QPUs) that have the potential to address complex computing issues, from fundamental science to real-world grand challenges. The company is a spin-out from Institut d'Optique in Saclay, one of the leading Quantum Hubs in the world. The neutral atom technology, operating at room temperature, on which PASQAL's QPU are built has great potential in terms of scalability. The company is already operating a 100-qubit QPU and plans to achieve a 1,000-qubit QPU by 2023.

Having proven its ability to address problems that are intractable for classical High-Performance Computers, our technology has now reached a level of maturity allowing its implementation in QPUs which will be commercially available to many end-users. The computational power will be available through appliances in HPC centers and on the cloud with QPUs operated at PASQAL's premises.

The QPUs are well suited for applications such as quantum machine learning, optimization and quantum simulation where it has already proven a quantum advantage.

SHORT BIOGRAPHY OF THE DELEGATE

Chayma BOUAZZA is leading the business development activities and international expansion at PASQAL. She received her doctorate degree in Quantum Physics from University PSL – ENS Ulm for her work on quantum gases in Jean DALIBARD's group (CNRS Gold Medal). After her PhD, she joined a consulting company specialized in innovation, where she worked on a wide range of topics (smart mobility, digital transformation, etc.). She joined PASQAL in November 2020, where she is leading the business department. She is also in charge of building collaborations in the Middle East Area.

THOMSON BROADCAST

Guillaume BONNARD

Vice-President

54, Avenue Jean-Jaurès
92700 Colombes, France

Website : <https://thomsonbroadcast.tv/fr/>

COMPANY PROFILE

Since the earliest years of broadcasting, the Thomson name has been synonymous with expertise and innovation at the highest level. A trusted partner to the world's leading broadcasters, Thomson has pioneered many developments that have shaped the industry, leading innovation in solid-state technology, Digital Adaptive Pre-correction (DAP), Digital Radio Mondiale (DRM), and Digital Audio Broadcasting (DAB); winning multiple Emmy® Awards; and gaining more than 50 patents in technologies that have become fundamental to broadcasting.

THOMSON Broadcast is building on this great heritage with a market-leading portfolio of transmission products for terrestrial television, radio broadcasting combined with world-class systems integration services.

With more than 50,000 active Thomson transmission systems deployed worldwide and a global support presence, THOMSON Broadcast continues to forge technologies for the future.

In the last couple of years Thomson Broadcast has deployed full turnkey projects in Cap verde, Angola, Ivory Coast, Morocco and lately signed one of the biggest contract in Mali.

SHORT BIOGRAPHY OF THE DELEGATE

Guillaume Bonnard has over 20 years of experience in International Business Development in various competitive markets in Europe and South-East Asia. With Thomson Broadcast since 2014, Guillaume is the group's Vice President of Global Sales and Services.

Guillaume attended HEC, a graduate business school in the Paris region which included courses in association with New York University, the Leonard Stern School of Business and Harvard Business School and the Tsinghua University in Beijing.

SANOFI

Olivier, CHARMEIL

Executive Vice President, General Medicines

54 rue La Boetie 75008 Paris
Postal index ; City ; Country

<https://www.sanofi.com/en/about-us/governance/executive-committee/olivier-charmeil>

COMPANY PROFILE

Olivier Charmeil oversees Sanofi's General Medicines unit, a diversified portfolio of iconic brands and essential medicines to meet the needs of millions of patients with chronic conditions. He is focused on pioneering possibilities that transform the practice of medicine and help patients manage their health conditions. Olivier and his team are leading the way to bring innovative solutions with the power of digital and technology to promote more sustainable healthcare systems in the future.

Olivier joined Sanofi in 1994 and became a member of the Executive Committee in 2011 when he was appointed Head of Sanofi Pasteur. He has held various positions across the company, most recently as Head of China & Emerging Markets, where he oversaw the company's performance in that area. In June 2020, he was appointed as a member of the Board of the European Federation of Pharmaceutical Industry Associations. Before joining Sanofi, Olivier worked in the Mergers & Acquisitions department at the Banque de l'Union Européenne.

SHORT BIOGRAPHY OF THE DELEGATE

Olivier is a graduate of HEC Paris (Ecole des Hautes Etudes Commerciales) and of the Institut d'Etudes Politiques in Paris.

Olivier has always been passionate by the work done in pharma, because it leads to positive changes in people's lives and societies around the world. Throughout his career, he has led teams in various countries and travelled to many places. Those experiences have forged a strong belief in the importance of diversity in who we are and what we do.

As a father of three multicultural children, he is aware of the power of diversity and inclusion that drive life forward.

SOCIETE GENERALE

COMPANY PROFILE

TotalEnergies is a broad energy company that produces and markets energies on a global scale: oil and biofuels, natural gas and green gases, renewables and electricity. Our 105,000 employees are committed to energy that is ever more affordable, clean, reliable and accessible to as many people as possible. Active in more than 130 countries, TotalEnergies puts sustainable development in all its dimensions at the heart of its projects and operations to contribute to the well-being of people.

SHORT BIOGRAPHY OF THE DELEGATE

A Graduate of Ecole Polytechnique and Chief Engineer of the French Corps des Mines, **Patrick POUYANNÉ** held various positions in the French Industry Ministry and in ministerial offices from 1989 to 1996, including Environment and Industry Technical Advisor to the Prime Minister from 1993 to 1995 and Chief of Staff to the Information Technology and Space Minister from 1995 to 1996.

Patrick Pouyanné joined the company TotalEnergies in January 1997, with positions in Angola and Qatar in 1999.

In August 2002, he was named Senior Vice President, Finance, Economics and Information Systems in Exploration & Production, then Senior Vice President, Strategy, Business Development and R&D in Exploration & Production in 2006.

In January 2012, he was appointed President, Refining & Chemicals and member of the Executive Committee.

On October 22nd, 2014, the Board of Directors appointed Patrick Pouyanné as Chief Executive Officer, and he became simultaneously President of the Executive Committee.

On May 29th, 2015, Patrick Pouyanné was appointed at the Board of Directors and on December 16th, 2015, he was appointed Chairman of the Board of Directors and Chief Executive Officer of the Company.

Patrick Pouyanné is also member of the Board of Cap Gemini, Association Française des Entreprises Privées (AFEP), Institut du Monde Arabe, Ecole Polytechnique and Institut Polytechnique of Paris. Patrick Pouyanné is also President of the Alliance for Education, French association against dropping out of school.

Patrick Pouyanné is a Knight of the Legion of Honor.

CHRISTOPHE GERONDEAU began his career with Total in 1992 as a Process Engineer at the Donges Refinery in France. He subsequently worked in several managerial roles in the construction, commissioning/start-up, and operations of the Leuna Refinery in Germany.

In 1998, he moved to Danang, Vietnam where he established the local LPG affiliate and led its industrial and commercial development. He returned to Europe in 2000, where he was successively Production Manager at the Donges Refinery, New Business Project Manager at Total Headquarters in Paris, Planning & Technical Services Manager at the Zeeland Refinery in the Netherlands, and Head of Strategy – Refining & Logistics for the Refining & Marketing Branch.

In 2009, Christophe Gerondeau joined the Gas & Power Branch in Solar Energy. He was part of the team that identified and secured Total's partnership with California-based, SunPower. Shortly thereafter, he was appointed CEO of Photovoltech in Tienen, Belgium.

Beginning in late 2012, Mr. Gerondeau managed the redesign of the Carling Platform in France and became General Manager of the facility in August 2014. During this time, he was also CEO of Polyblend GmbH in Germany and Chairman of the *Association des Industriels Plateforme Carling Saint-Avoid (AIPCSA)*, a regional business development organization.

On September 1st, 2016, Mr. Gerondeau was appointed President, Chief Executive Officer of Total Petrochemicals & Refining USA, Inc., as well as Country Chair for Total in the United States.

On January 15th, 2020, Mr. Gerondeau was appointed Vice-President Saudi Arabia within the Refining & Chemicals Division of Total. He was also appointed Managing Director of Total Refining & Chemicals Saudi Arabia SAS Branch as well as Country Chair for Total in the Kingdom of Saudi Arabia.
