

EasyAccess™ is full featured and value packed.

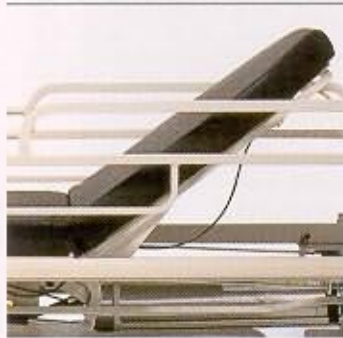

**Extra wide hinged mattress**

Generous 28" wide mattress provides more usable patient surface. Optional 32" wide top available. Easy-to-clean 3" or 4" thick foam mattress pad is hinged for durability.

**Space-saving tuckaway side rails**

Full-length side rails minimize wasted space when up. Quickly and easily lower for zero gap in tucked position for easier patient transfer.

**Fowler assisted backrest**

Power-assisted backrest elevates to a complete 90° angle for effortless patient positioning. Provides quick access to IV pole and O<sub>2</sub> cylinder in any position.

**Trendelenburg/reverse Trendelenburg grab rail**

Effortless patient positioning. Grab rail located at foot end releases, adjusts and locks top into position.

**Self-storing IV pole and O<sub>2</sub> cylinder holder**

Conveniently store under Fowler backrest for quick accessibility without obstruction. IV pole security cable prevents loss.

**Full-length side rails and four corner bumpers**

Non-marring urethane protects walls, doors and other surfaces from marring and scratching.

**Dual side-mount foot pedal**

Conveniently operate easy-action foot pedals on either side. Hydraulic pump raises and lowers litter height quickly and uniformly.

**All-surface carpet casters**

Steer swiftly and smoothly through narrow or busy hallways. Central steering and braking systems are operable from every corner. Locked position prevents stretcher from sliding during patient transfer.

## Customize EasyAccess™ with just the options you need.

**Monitor/Instrument tray**  
Simple to install or remove.  
Measures 15 $\frac{3}{4}$ " x 22 $\frac{3}{4}$ ".  
Folds for compact storage.

**Storage basket**  
Mounts at either head or foot end.  
Large capacity. Convenient access.

**Head/foot push rail**
