"G. G. Turri & Co." (George G. Turri), the First Patent Attorney officially registered to practise in the Commonwealth of Australia, have acted for, and are now acting for, many successful Inventors (Australian and Foreign).

PROVISIONAL PATENTS, Complete Patents, Designs, &c. G. G. Turri & Co., Patent Attorney No. 1 RIALTO, 499 COLLINS ST., MELBOURNE.

Inventors and Investors (including Farmers, Mechanics,
Artisans, Manufacturers, Etc.) may call or write

MR. TURRI AND/OR HIS ENGINEER WILL SEE CLIENTS.

If there be submitted to us a model, samples or sketches, with
written description, valuable guidance in reply may be anticipated.

SPECIAL DON'T'S FOR INVENTORS.

1. DON'T neglect inventing simple articles of everyday utility that can be inexpensively demonstrated, rather than complex mechanisms. And as a Design Registration costs only 20 per cent. of the expense of a Patent, obtain advice as to which to secure. But a Design only covers a shape or pattern of an article or articles.
2. DON'T baulk at scrapping, modifying, or remaking your models or samples so long as you thereby improve. Early extra costs are much cheaper in the end.
3. DON'T impoverish yourself on your ideas. Patents are delusive. Spend what you can afford to lose if results disappoint. Find others to share expense if much called for; they become highly satisfied if wealth results.
4. DON'T let anyone hold a share in your Invention long without having a written agreement, prepared by a really competent Patent Attorney, detailing the rights and duties of each. Title deeds to Patents must be well worded.
5. DON'T order a Full Patent at first when an inexpensive Provisional Patent will temporarily suit very well. It covers forty countries (5 guineas).
6. DON'T dawdle with the nine or ten months provisional period. Aim first to produce a first-class embodiment; second, to obtain favourable publicity (demonstrate); third, to prepare adequate foundations for Marketing.
7. DON'T neglect Agricultural Shows and Exhibitions. Canvass people in your area who ought to invest or give support.
8. DON'T attempt to sell an invention outright in its early undeveloped stage. It is folly to either sell "for a song," or to over-estimate values.
9. DON'T order Full Patent (whether you have Provisional or not) until you have a Search and Advice as to Prior Patents. The Search should cover Commonwealth and State Patents, but will be more valuable if it includes others. Abridgments of British Specifications at the Melbourne Public Library facilitate inexpensive searching.
10. DON'T fail to obtain further Patents, if necessary, in addition to the first, to cover improvements you think of. The whole becomes, for commercial purposes, one property. To it you may find it will pay to add a Registered Trade Mark.
11. DON'T rush for Patents abroad, nor delay unduly. Numerous Foreign Patents should rarely be applied for, as few pay. Patents will pay handsomely enough (if at all) if secured in United States, Canada, Britain and New Zealand, and, in exceptional cases, you should include such others as India, South African Union, France, and a Petty Patent (possibly a Full Patent) of Germany. Seeing that the International Convention gives you twelve months in which to apply in about forty countries abroad, don't, as a rule, apply sooner than that system requires. (Send to us for a free list of these forty countries.)
12. DON'T limit yourself to one Patent Attorney without good reason.

THE FARMER'S ASSETS!

Assets accumulated by the man on the land are the reward of years of hard work and careful management.

In the hands of an inexperienced Executor these assets may be sadly depleted, and much loss and anxiety brought upon the Widow and Children.

Time has proved the wisdom of appointing a Trustee Company because:—

It is always available—
Has an Expert Staff—
Is subject to the supervision of the Courts—
Offers Guaranteed Security.

THE world's cheapest and most efficient roofing material is Lysaght's "Red Orb" Galvanised Iron. It costs no more than "Blue Orb," and is heavily galvanized for long resistance to weather.

"Red Orb" Galvanized Iron is unsuitable for curving, but it *is* the finest roofing and walling iron procurable. It can be safely walked on without fear of denting.

The A.M.P. is always
ready to help the Farmer
build up his Securities

Show Time is a Good Time to DO IT!

When a man builds up his Life Assurance through the years he establishes a double-barrelled asset. His A.M.P. Policies ensure his family's security after his death, and they give him security while he lives.

Show Time is a good time for a countryman to drop into the A.M.P. Office and talk his plans over with an experienced officer of the Society. An interview will cost nothing, and may show a way of establishing a new financial outlook.

THE EVENT OF SHOW DAY...

"O.K." Spool!

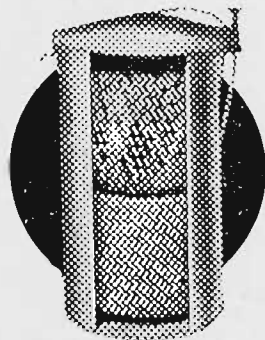

MILLER'S ANCHOR BRAND BINDER AND SEWING TWINES

PATON . 3A

Nothing like the "O.K." spool has ever come the way of the Australian farmer. Wound in a patent fashion, the spool is firmly held to the last inch. Tangling, collapsing and waste are things of the past. The twine—Miller's Anchor Brand—is better than ever. Evenly spun from selected hemp, it is as tough as steel. Specify Miller's Anchor Brand Red Label Binder Twine on the "O.K." spool.

One half-pound 78 inch hank of Miller's "A" Grade Sewing Twine stitches 118 bags securely! Look for the Green Label. It's your guarantee!

CATTLE

Stewards in Chief—Beef Cattle: J. E. ROBERTSON, Esq.
Dairy Cattle: G. L. WILSON, Esq.

The breeding year for all Cattle (including Fats) dates from 1st July in each year.

Nurse Cows are not to be entered for competition, but pens will be provided, at 2/6 each, if application is made at time of entry.

Cow or Heifer entered as "in milk" can be transferred to the "in calf" class, if she has not calved prior to judging day, or vice versa.

Cows or Heifers entered in the "in calf" classes must be stripped out prior to entering the judging ring.

Judges have the right to order any cow competing for Championships to be milked dry before finally awarding the prizes.

In all sections feed sheds are available for exhibitors. Charge, 12/6 during the currency of the Show. Feed-mixing bins may be hired for 2/6 each. Exhibitors are not permitted to stack feed in the Cattle Pavilions.

Cows and Heifers in Milk must be in the yards on Wednesday, 18th September, and be fully milked out prior to 5 p.m., at which hour they will be stripped out in the presence of the Stewards, or whom they may appoint. They will be judged first on Thursday morning.

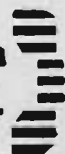

Entries of milking stock (Sections 16 to 24 inclusive) will only be accepted subject to the following regulations regarding the disposal of milk.

In order that the Society can comply with the provisions of the Dairy Supervision Act, exhibitors are not permitted to dispose of milk prior to and during the currency of the Show, either by sale or gift, other than to the Society's agent, who is situated at the Milk Room (beside the No. 1 Cattle Pavilion). All milk will be purchased according to butter fat value, based upon a complete test of the bulked milk, and returns forwarded to exhibitors after the Show. No milk will be paid for unless approved milk utensils are used and hygienic methods are adopted.

Entries limited to three in each class (except where otherwise specified) from any one exhibitor.

Only one exhibitor will be recognised as an owner from any one holding, and any exhibitor who enters, or permits the entry of any of his stock, in the name of any other exhibitor, shall be disqualified.

JUDGING ARRANGEMENTS (CLASS 149).

The steers are to be weighed alive on the day previous to judging and the live weights handed to the Judge. In the first place, the steers are to be judged alive (by the Shorthorn Judge in the Shorthorn ring) on the lines of breed characteristics and suitability for the beef trade. A maximum number of 40 points can be awarded to exhibits when alive.

The steers are to be sold by auction at the Show Grounds on behalf of the exhibitor, and on Friday, 27th September, they will be slaughtered in the presence of the Judge (a butcher), weighed for dead weight, and judged on appearance when dressed, for color, quality and value of meat, hide and offal. The maximum number of points which can be awarded for the dead carcass, hide and offal is 60. The live weight is also to be furnished to the carcass judge, who has power to have the carcass cut as he wishes in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, the meat must be placed on exhibition for two days at butchers' shops within a radius of six miles from Melbourne G.P.O., due notice of days and place to be given to the public. GISBORNE STUD

Champion steer of the Melbourne Centenary Show, bred and exhibited by Mr. J. A. Beattie, of Gisborne Stud, Billenbah, via Narrandera. Mr. J. A. Beattie is President of the Hereford Society of Australia.

BILLENBAH STUD is not merely in the forefront of advancement, but it is one of the oldest in Australia, tracing back to 1868, when Mr. J. A. Beattie's father, the late Henry Beattie, founded a stud with pure-bred Hereford cows he purchased at the dispersal sale of William Lyall's famous Harewood Stud, at Tooradin, Victoria. To mate with these excellent foundation females Henry Beattie then purchased and imported from Herefordshire, England, a first-class sire, Cop Hall, bred by Mr. Thomas Fenn. These early foundations were laid at Mt. Aitken, Victoria, where operations continued till 1893, when the stud was moved to Gisborne Park.

In 1888 Henry Beattie gave the Herefords a fillip in Australia by importing Figaro, the first prize yearling at the Royal Windsor Show, England. At the same time he imported three heifers whose blood was destined to have a definite beneficial influence down the generations.

RED POLLS.

JUDGING ARRANGEMENTS.

The steers are to be weighed alive on the day previous to judging and the live weights handed to the judge. In the first place, the steers are to be judged alive (by the Red Poll judge, in the Red Poll ring) on the lines of breed characteristics and suitability for the beef trade. A maximum number of 40 points can be awarded to exhibits when alive.

The steers are to be sold by auction at the Show Grounds on behalf of exhibitor, and on Friday, 27th September, they will be slaughtered in the presence of the judge (a butcher), weighed for dead weight, and judged on appearance, when dressed, for color, quality and value of meat, hide and offal. The maximum number of points which can be awarded for the dead carcass, hide and offal is 60. The live weight is also to be furnished to the carcass judge, who has power to have the carcass cut as he wishes, in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, the meat must be placed on exhibition for two days at butchers' shops within a radius of six miles from Melbourne G.P.O., due notice of days and place to be given to the public. The judges are to be asked to furnish reports on this competition to the Red Poll Cattle Breeders' Association of Australasia, Temple Court, 422 Collins Street, Melbourne.

DENBIGH
AYRSHIRE STUD.

The "Denbigh" herd is a commercial one. The Cows are large-framed, vigorous, healthy, with long teats and dark in color, and are heavy yielders throughout the year. Ayrshire

breeders and those anxious to build up profitable herds can buy Denbigh bulls that will sire heavy producers. We are always glad to receive visitors and show them our Ayrshires.
