

Species list for plants native to the Carolinas that were named by André Michaux. The following names were valid at the 1968 publication of Manual of the Vascular Flora of the Carolinas.

Listed Alphabetically by scientific name. Names revised since the publication of Flora Boreali-Americana, 1803, include the revising authors' names. Common name in brackets. Page references in Manual of the Vascular Flora of the Carolinas (RAB) and Wild Flowers of North Carolina (JB) with common name in JB also in brackets. Family name in capitals. Asterisk indicates illustration in RAB, all entries in JB are illustrated.
