Your Document Solutions Reference Guide

Welcome...

Welcome to the Midwich 2022 guide, where we showcase some of the market's leading print and scan vendors all in one handy to use catalogue.

We are thrilled to see that the print market has started returning to pre-pandemic levels. We've had a surge of enquiries and exciting opportunities that we are, as always, very grateful to work with our channel partners on. As a key distributor to many tier 1 brands, we aim to hold as much stock as we can to be able to service you, our resellers and your end clients. As many of you have seen, it's been a very tricky time for stock right now. More than ever, I encourage you to speak to your Account Manager at Midwich, so that we can work with you on your projects and pipelines to try and minimise the impact as much as we can. We are optimistic that things will return to normal soon.

The market has had a great year in scan, with many key brands largely unaffected by the pandemic, Brexit and stock constraints. Midwich has maintained record sales in market share as the scan market continues to evolve and grow in the low volume and workgroup sectors.

Midwich continues to lead the way in AV strategy with some very exciting resources and tools, all to support our channel partners. This includes Innovation House, home to 50,000 square feet – showcasing some of the latest technology from global brands. These brands include Samsung, Barco, Smart, iiyama, Poly and Neat to name a few. If you haven't been to Innovation House yet, I wholeheartedly recommend putting some time in your diary to come, see and play with the latest innovation; including our very own cinema room designed with comfort in mind with our state-of-the-art screen, audio and plush furniture for that luxury experience.

Don't forget you can supply any Midwich printer or scanner with our very own Mi Support contract, enabling your end client to enjoy complete peace of mind; our 1 to 5 years advanced swap out warranty means no waiting for engineers and takes the pain out of finding out your on-site warranty is a 3-day response! For our resellers, you also enjoy the same peace of mind, knowing that your customers can call our helpdesk directly, 24 hours a day, 5 days a week! Yes 24 hours, so even if you're selling solutions to someone working late in the evening, or they're up and about very early, we are there to support them through their issue. For more information, please speak to your Midwich account manager or drop me a line directly at tressa.whitby@midwich.com.

Dedicated Team

Our Document Solutions Team are dedicated to helping you find the best solution for your customers.

External Visits

Our dedicated field sales team are happy to meet, provide training and help run incentive days.

Delivery Straight to Your End-User Customer

We offer bespoke floor plan delivery and can take the unit exactly where you need it to go.*

Flexible Credit Facilities

Our credit professionals can assist you with credit checks, advice, fraud prevention and other financial services.

EDI Feed

Using a data feed, we can automatically provide up-to-date product specifications, images and pricing straight to your website.

Value Add

Find out more about how Midwich can help you and your customers, from our credit facilities to PDI; we are with you every step of the way.

Introducing **Document Scanners**

Digitalisation in the post-pandemic agile workplace has had positive effects on how we work, allowing easy sharing, accessibility and collaboration. This shift has also addressed consumers' demands for sustainability. Scanners are enabling businesses to stay agile by introducing digital storage while providing tools for productivity and effective communication.

Tailored Solutions

Production Low Volume Document Scanner

Whether you're scanning to a file or folder or initiating a business process, Kodak S3000 Series Scanners set the new standard for superior capture accuracy, unsurpassed protection for paper and data, and ease of use for any industry.

KODS3060

The best information demands the best images

Desktop Scanners

- Multiple connectivity options from USB 3.0 to wireless and network scanners
- Connect to your day to day business processes with **one button document capture with SmartTouch**
- Extract accurate, high quality information with **Perfect Page** technology
- Deploy scanning infrastructure across your business with control and security using **Easy Setup**

Departmental Scanners

- Power through volumes of **up to 25,000 pages per day** with compact departmental workgroup scanners
- Prevent document damage and save time with **Intelligent Document Protection** that listens for and alerts you to potential problems
- **Automate your document processing** with built-in barcode reading and Alaris **Perfect Page** image processing

Production Scanners

- **Reduce processing costs** with capabilities that put users in control
- Leverage **up to 210 page per minute** scanning speeds
- Experience **peak productivity and image quality**
- Sort documents with select models so **post processing costs can be minimised**

Capture Pro Software

- **Cost savings, eliminate inefficiencies of document preparation**
- Customer satisfaction with streamlined business processes
- Increased productivity features, reducing manual data entry and error correction downstream
- The ability to leverage existing technology and investments

Introducing **Printers**

In our evolving workspace, we are adopting more digital processes, however, there is still a need for printed hard copies of documents. Sustainability is at the forefront of consumer demands so printing now needs to have a lesser impact on the environment. We're able to achieve this by providing solutions that offer a lower carbon footprint.

About Blended Learning

Document Solutions in blended learning

Students can no longer hand in worksheets to teachers, instead if they want to share documents they must scan them and share electronically.

Tailored Solutions

Wireless Mono Laser Printer

Built for business, this all-in-one is designed with high print volume workgroups in mind. Robust build quality, combined with excellent paper handling options gives true workgroup performance.

MFCL6900DW

Professional A3 Inkjet Wireless All-in-one Printer

This professional A3 printer offers you the ability to print not only in A4, but to also print your reports, presentations, marketing materials or training documents in A3.

MFCJ6540DW

Printers

Designed for sustainability

Businesses across the board are putting a lot of thought and investment into operating more sustainably.

Help your customers improve their business sustainability with our all-round print solutions.

It's impossible to miss – businesses everywhere are trying to be greener and, besides protecting the environment, there are a host of reasons why, from rising energy costs to tighter regulations.

We asked 500 IT decision makers about their IT strategies. 7 in 10 told us that green credentials are a key decision-making factor when choosing a print supplier.

Demonstrating how you can support a customer's own sustainability goals is also becoming a core ask in many procurement processes.

Canon's range of printers are easy to use, featuring customisable touch screens that can be pre-programmed to suit your needs. Their range includes fast 40ppm models, professional level ink quality, Microsoft Universal print support and a range of wide format models.

Tailored Solutions

Highly Productive And Affordable A4 Mono Printer

Boasting fast first print times and speeds of up to 45ppm, duplex and network as standard, plus a 500-sheet paper tray, the ECOSYS P3145DN enables workgroups to power through heavy workloads with ease. Long-life components and enhanced power management help keep running costs and environmental impact low.

KYOP3145DN

Printers

ECOSYS Printers & MFPs cost you and the environment less.

ECOSYS devices are known for their eco-credentials and are highly economical to run.

Kyocera puts its expertise in long-life ceramics at the heart of its technology so customers can benefit from one of the lowest costs per print.

Affordable

ECOSYS devices are designed to minimise direct and indirect costs on consumables and energy usage, so there are no hidden surprises over the lifetime of the device.

Sustainable

Kyocera designs with the environment in mind:

- + ECOSYS long-life drums last up to 600,000 pages.
- + Eco-friendly toner reduces power usage by up to 50%.
- + Their toner is 100% recyclable, and has as few as 10 parts.

Reliable

Known for their superior performance, Kyocera products deliver vibrant colour and crisp black and white printing every time – quality customers depend on.

Introducing **Mobile Printers**

In the past 2 years, flexible working has been widely adopted, drastically changing the workspace, where many employees are deskless or practicing hot desking. Agile working has allowed many to work from where they work best, whether that be the coffee shop, home office etc, increasing the need for mobile printers.

The World Has Changed

Discover ways to adapt to flexible working

The pandemic has accelerated the adoption of remote working, which research shows is likely to be further adopted in the future. Employers must adapt working practices, including document imaging and workflow, to this new reality.

We cover some of the challenges employers are facing such as how employers can support their flexible working staff with the correct IT systems to ensure the same productivity at home as in the office.

[Find out more](#)

Introducing **Label and Barcode Printers**

The COVID-19 crisis accelerated an expansion of e-commerce towards new firms, customers and types of products. Due to the increased demand for e-commerce activity, label and barcode printers have become vital. Labelling is an integral part of branding and the purchase experience, making products stand out in a crowded market.

Address Label Printer

The arrival of the QL-700 Labeller makes label printing faster, easier and more affordable than ever before, whether you're producing address labels, CD/DVDs, ID passes or barcode labels. Its compact size belies its big capability for performance, with the capacity to produce up to 93 labels a minute. Speed is just as impressive when it comes to setup, with no installation of drivers or software necessary for hassle-free plug and print usage.

QL700

TOSHIBA

Introducing **Solutions**

We believe that printing should be simple, which is why we offer a variety of added-value services on our document solution products. Printing software should not be rocket science but enable ease and establish innovation within an environment.

CONTACT YOUR ACCOUNT MANAGER FOR MORE INFORMATION

Mi Support

Expect More.

Upgrade to our next day swap out warranty with expert support from 1 to 5 years

For more information about Mi Support, please contact our team:

08715 277044

misupport@midwich.com

www.midwich.com/misupport

Mi Support is an affordable enhanced warranty available on all our AV products, that provides your client with a next day solution in the event of a hardware failure to get their audio visual system back up and running faster.

With a Mi Support contract your client gets far more than a hardware warranty. We include unlimited access to our premium helpdesk for

technical support. Clients can also access our manufacturer accredited training programmes to support the deployment and ongoing management of their hardware.

Our CTS accredited engineers can support with optional onsite assistance, training and arrange installation of your hardware print devices.

What's included?

- > Advanced replacement hardware dispatched next working day or onsite
- > Engineering support / service technician dependant on product and contract
- > Unlimited helpdesk tickets
- > Unlimited technical support
- > Free next day shipping of your replacement hardware
- > 1-2-1 webinar and remote support setting up and fault finding
- > Unlimited access to attend Midwich engineer tutor led training courses at sites across the UK
- > All parts and labour on any manufacturing defect

Mi Hardware as a service

Replacement Guarantee

Protect your hardware from becoming inefficient or obsolete. If something goes wrong, our service desk will arrange replacement parts or hardware guaranteed.

Bundled Maintenance and Support

Additional service options are bundled within your monthly rental agreement. Our optional monitoring solution tracks the effectiveness of your equipment in conjunction with your Zoom or Microsoft Teams environment.

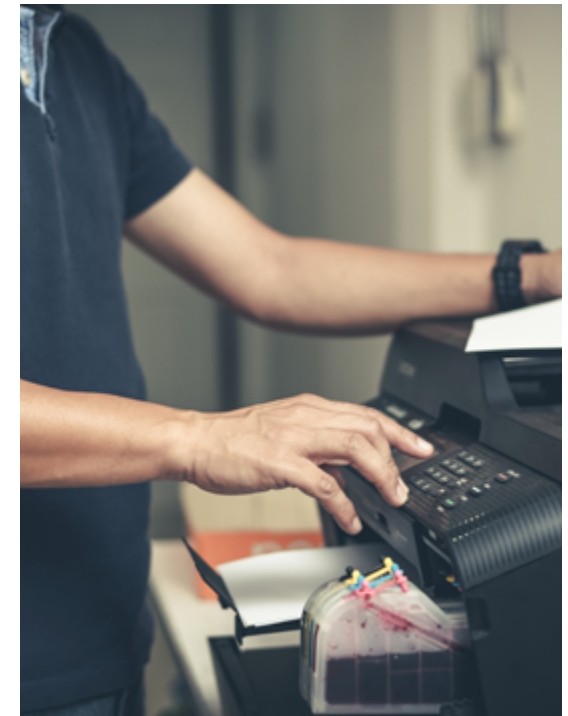

Flexible End-of-Term Options

Refresh, extend or own the technology at the end of agreement term.

Financial Benefits

Mi Hardware is a 36-month term, with a minimum cost requirement designed for businesses that prefer not to own their technology solutions. This means preserving cash flow for revenue generating business activities.

Mi Hardware pairs the latest hardware rental and Midwich UK&I group added value services at a monthly affordable price. Kit your customers out with the latest technology, flexible upgrade options and next-day solution replacement guarantee.

- > Tailored, affordable hardware solutions and services that can be globally provisioned
- > Reliable, high-quality UC endpoints and displays
- > Complete bundles with optional Mi Support services included that you won't find anywhere else
- > Reduced risk via extended warranty assurance
- > Greater flexibility to scale up or down as your clients business needs change
- > Guaranteed loyalty for the duration of the contract term

Pre-Delivery Inspection

Midwich offer unrivalled logistics and credit facilities, but what you might not know is that we also offer a fully bespoke Pre-Delivery Inspection (PDI) service.

Whether it's for a single print device or multi-fleet national roll-out, we have you covered. As a value-add distributor, we understand the importance of reputation. Our enhanced services ensure that we meet and exceed both your needs and the needs of your end user client, so that you feel confident to use us as an extension of your services.

WEEE accreditations for full waste management services

Preloaded with management software

Training

Hardware fully tested prior to install at site

Logistics using dedicated vehicles

Whatever your need, from green button test to removal of legacy equipment including WEEE disposal, we can create a bespoke solution that is reliable and professional.

Kofax scan software enables organisations to work like tomorrow – today.

With over 25,000 global customers and over 850 resellers in over 90 countries, Kofax lead the way in automation software, helping organisations transform their work. Not only does Kofax software help reduce costs, manual work and errors, it improves customer engagement.

CAPABILITY PILLARS

ADVANCED ANALYTICS

Increase visibility, gain deep operational insights, reduce risk/non-compliance, and eliminate operational inefficiencies.

PROCESS ORCHESTRATION

Improve high-value customer journeys, streamline operations and exploit new business opportunities.

RPA

Employ software robots to automate repetitive tasks and manual processes, enhancing the work of human talent by enabling them to focus on innovative, customer-focused initiatives.

COGNITIVE CAPTURE

Modernise slow, manual, error-prone or expensive processes related to processing documents and electronic data.

MOBILITY & ENGAGEMENT

Communicate and transact with customers via mobile; efficiently, effectively and securely.

Contact your account manager to discover more about Kofax and the scanning software we can provide you

Easy, secure and smart printing

PaperCut is a trusted print management software that helps hundreds of millions of people around the globe to both minimise waste and maintain an easy printing experience.

PaperCut helps reduce waste and control costs by subtly changing the behaviour of organisations. This software is full of features that encourage responsible printing.

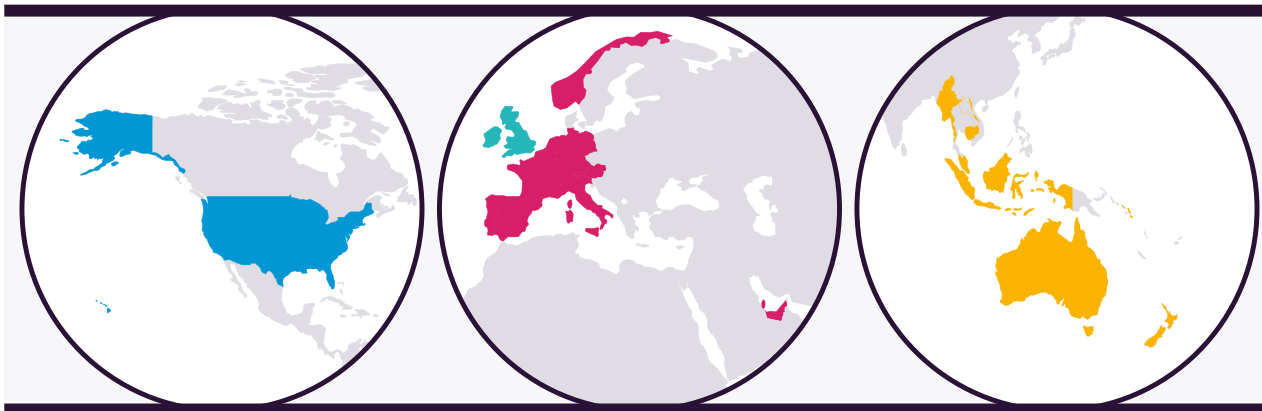

PaperCut helps control device access, implement secure print releases and digitally sign and watermark print jobs, helping to take security to another level.

PaperCut is easy to use no matter what device you are printing from, whether PC, laptop or BYOD, printing has never been easier.
