1. Qualitative Information on the Settlement of Accounts for the Quarter of the Fiscal Year under Review

### (1) Explanations on the operating results

To overview the global economic situations during the consolidated first-quarter period of the fiscal year under review, the U.S. economy continued to show a tone of expansion due to strong consumer spending and improvements in corporate performance. In Europe, the economy was recovering slowly as the manufacturing industry showed a sign of recovery. In the emerging countries, there was a slowdown in economic growth. Overall, the global economy has enjoyed a mild recovery. However, due to the issue of the looming departure of the U.K. from the European Union, the risk of a further downturn of the emerging economies and other factors, the global economy in the future has become more uncertain.

In Japan, in spite of the abrupt appreciation of the yen, the economy has remained in the phase of modest recovery.

In our electronic parts industry, in the market for smart phones, its major market, sales in terms of both amount and volume almost remained flat compared to the corresponding period of the previous fiscal year. However, the market of parts for car-mounted devices, healthcare and home electric appliances, among others is continuing to expand rapidly and the electronic parts market as a whole is expected to maintain a solid expansion.

Under these circumstances, the Mitsumi Group experienced an increase in orders received for products related to car-mounted devices, among others as initially planned. However, due to the abrupt appreciation of the yen, for the first-quarter period of the fiscal year under review, on a consolidated basis, net sales amounted to \(\frac{\frac{4}}{32}\),633 million (95.5% in comparison with the corresponding period of the previous fiscal year).

With regard to profits and losses, similarly due to the abrupt appreciation of the yen, the Company registered an operating loss of \$3,491 million (an operating loss of \$1,696 million for the corresponding period of the previous fiscal year) and a recurring loss of \$6,112 million (a recurring loss of \$1,040 million for the corresponding period of the previous fiscal year). Net loss attributable to owners of the parent amounted to \$5,807 million (a net loss of \$1,193 million attributable to owners of the parent for the corresponding period of the previous fiscal year).

#### (2) Explanations on the financial condition

As of the end of the first quarter of the fiscal year under review, on a consolidated basis, total assets accounted for \$154,770 million, down \$7,954 million from the end of the previous fiscal year, due principally to a decrease of \$8,687 million in cash and deposits and a decrease of \$7,018 million in trade notes and trade accounts receivable in spite of an increase of \$5,229 million in inventories and an increase of \$2,302 million in tangible fixed assets.

Total liabilities accounted for \$69,922 million, up \$1,476 million from the end of the previous fiscal year, due principally to an increase of \$2,108 million in trade notes and trade accounts payable.

Total net assets accounted for \$84,848 million, down \$9,431 million from the end of the previous fiscal year, due principally to a decrease of \$5,807 million in retained earnings and a decrease of \$3,969 million in foreign exchange translation adjustment.

As a result, the net worth ratio as of the end of the first quarter of the fiscal year under review decreased by 3.1 percentage points from the end of the previous fiscal year to 54.8%.

(3) Explanations on the forecasts of consolidated business results and other future forecast information

With regard to the forecast of consolidated business results for the fiscal year ending March 31, 2017, please refer to the "Notice on the Adjustment to the Forecast of Business Results and the Recording of Non-Operating Expense (Foreign Exchange Loss)" publicized on August 2, 2016.
