HOLSTERS

Why use a HOLSTER ?

A holster, allows you to have your device at hand at all times . Hanging on a belt, shoulder strap, thigh or forklift, provides you with easy-in and easy-out access, so you can have hands free access when ever you need it.

Our holsters are made of 1680D polyester, which makes them very lightweight. and extremely wear-resistant.

Various ergonomic combinations exist to adapt to each use and each morphology.

PROTECTIVE CASES

Why to use a PROTECTIVE CASE ?

Despite the resistance of hardened devices, adding an extra layer of protection for harsh environments is essential to preserve the durability of the device during intensive use.

Our protective cases meet the most demanding military standards (MIL STD...). This robustness protects your device against thousands of falls, shocks and vibrations.

A multitude of options, ergonomic and portable accessories are available to facilitate the daily work of your users: shoulder straps, straps, vehicle supports...

OUR EXPERTISE TO SERVICE OF YOUR BUSINESS

For 27 years, we have been experts in the design and manufacture of mobile protective solutions for data entry terminals. Let our know-how, benefit your productivity, with the most qualitative materials and functionality.

With 2 factories in France, and an integrated R&D department, MOBILIS can offer you a wide range of customization possibilities : logos, colors, portability options... We are flexible to adapt our products to your business use, and to all the criteria of your environment.

CUSTOM MADE

Various of customizable options to adapt to your needs : logo, colors, portability options, materials...

DEDICATED SOLUTIONS

Each of our products are designed according to the model of the device, its functionalities and its complementary accessories.

SUSTAINABILITY

Our products are designed with materials scrupulously selected by our R&D teams for their quality.

A COMPLETE OFFER

Our solutions are sold in complete kits with the necessary accessories.

TOTAL COST OF OWNERSHIP

Protecting your device means reducing the risk of breakage, and therefore the cost of repair. It also means improving the productivity of your users.

A FRENCH COMPANY

Our 2 factories in France and our integrated R&D center allows us to control the entire production chain. From design to conception.

OUR TEAMS ACCOMPANY YOU IN YOUR FUTURE PROJECTS !
