Autopsy Saw, Mopec 5000

This Mopec exclusive is the first bone saw developed specifically for autopsy use. It is totally submersible for complete cleaning. The handpiece runs on 40V for a cooler touch, reduced vibration; and the axial mount blades offer safer installation. Your lab and your employees will benefit from this safer, more hygienic autopsy saw.

- **Oscillation:** 13,200 CPM oscillation reduces vibration during use
- **Blades Included:** 4 chrome plated blades included -64 mm circular, 76 mm circular, 51 mm segmented and 64 mm segmented
- **Additional Tools Included:** Blade removal tool
- Weight without power cord 2.8 lbs
- Overload prevention via automatic current limiting mechanism
- Hermetically sealed
- CE certification
- Non-slip grip portable base or mountable base that can be built into autopsy table
- Submersible for up to 15 minutes for safe immersion during cleaning. NOTE: Longer submersion may cause water damage.
- Thick, durable cable prevents saw damage if cable is cut
- NOTE: Extended warranty available

Autopsy Saw, Stryker Model #810 - BD001

The Stryker Autopsy saw remains as the industry standard in anatomic pathology. High speed oscillating action quickly cuts through bone with minimal damage to soft tissue. Used for removing the cranial cap, making linear cuts or sectioning small bone specimens.

- **Voltage:** 120V/60Hz/1PH
- **Blades Included:** 1 Large Section Blade
- **Additional Tools Included:** Allen wrench
- 10 foot cord with hospital grade plug
- Weight with power cord 3.7 lbs
- Weight without power cord 3.2 lbs
- Note: Not for export
- Note: For Stryker Autopsy Saw warranty or repair, please contact Stryker directly at (800) 253-3210.

Bone Dust Collector for Mopec 5000 - BD093

This vacuum will extract all harmful debris and matter. Flexible, clear plastic hood improves visibility. Compatible with the Mopec 5000 Autopsy Saw only.

- Compact and portable, 4 large casters all with brakes, stable base
- Hand piece storage unit, improved stability
- 3 Stage filtration, HEPA filter, cloth filter and paper filter bag
- Easy access to filters
- IP44 water resistance
- Bag capacity 7 liters (1.84 US gallon)
- Top mounted lead for easy removal
- Air volume 90 liters/sec., efficient vacuum system
- Saw is sold separately

SKU
BD093

Bone Dust Collector for Stryker Saw & Mopec Autopsy Saw

Hepa filtration minimizes exposure to particulate matter. The dust collector attaches directly to the autopsy saw for safety and efficiency.

- Hepa Vacuum includes Hepa Filter, Vacuum Hose (102") & Y Bracket
- One Year Warranty
- 115V 60Hz with US plug

Postmortem Polyester Thread, 10 Yard Spool - BA028

High quality, pliable spun thread with exceptional tensile strength. The standard for morgues and mortuaries.

- **Dimensions:** 4 ounce, 10 yards
- **Material:** Vinyl coated polyester
- White color

SKU
BA028

Postmortem Unwaxed Linen Thread, 100 Yard Spool - BA041

A heavy-duty mortuary and autopsy essential for cadaver closures.

- **Dimensions:** 7 cord, 1 pound, 100 yards
- **Material:** Unwaxed Linen
- Natural color

SKU
BA041

Autopsy & Mortuary Accessories

Postmortem Waxed Polyester Thread, 366 Yard Spool - BA024

This postmortem thread is heavy-duty and has a 5 year shelf life. Does not allow liquids to absorb.

- **Dimensions:** 7 cord, 1 pound, 366 yards
- **Material:** Waxed polyester
- Natural color

Sku
BA024

Stapler, Postmortem - AD046

Postmortem Stapler provides a safe, fast and efficient option for skin closure. Reduces needle and sharps exposures. Arrow guide assists in accurate staple placement. It also features an easy-to-read staple counter.

- **Dimensions:** 0.25" staples
- Pre-loaded with 35 staples
- Disposable

Sku
AD046

Autopsy Head Drape & Framework

Helps contain infectious and contaminated materials during autopsy procedures. Easily assembled with a wide variety of head, torso and/or appendage dissections.

- **Material:** Head drapes: Polyethylene, 0.03 mm thick, non-autoclavable

Sku	Option
BE010	Framework & 4 Head Drapes
BE011	10 Pack of Head Drapes, Framework not Included

Body Rest - BA029

A unique shaped post-mortuary support tool designed to help isolate, shift, and/or secure a body during autopsy or embalming procedures. For use under legs, buttocks, back and arms. Support will grip any table and is chemically resistant.

- **Material:** Rubber

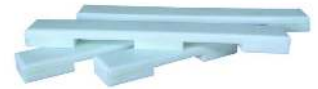

Sku
BA029

Elevating Support Body Slats, 4 pack - BC011

These four body slats can be used to elevate the body on a table during any autopsy or mortuary preparation. Elevation slats provide unobstructed drainage of fluids. Can be used in any anatomical location. Easily cleaned with Mopec BE047 Bench and Surface Cleaner. The suggested placement of the slats are head, shoulders, buttocks and heels.

- **Dimensions:** 22.625" (55 cm) x 2.875" (5 cm)
- **Material:** Chemically resistant polyethylene
- **Quantity:** 4 pack

Sku
BC011

Headrest With Strap - BA079

Stainless steel head rest features adjustable strap for secure positioning.

- **Material:** Stainless steel with #4 satin finish
- Four leveling feet

Sku
BA079

Headrest, Disposable, 6 pack - BA601

Secures cranium during all autopsy and/or mortuary procedures.

- **Material:** Styrofoam
- **Quantity:** 6 per pack
- Disposable

Sk

BA601

Headrest, Plastic - BA026

This plastic headrest provides six different positions for elevating the head or limbs.

- **Dimensions:** 7.25" L x 4.5" W
- **Material:** White Teflon-like, stain-resistant plastic, not autoclavable

Sk

BA026

Headrest, Rubber - BA025

This headrest allows for extra positioning adjustments, deeper curvatures and is of a lighter weight.

- **Dimensions:** 6" L x 4.5" W
- **Material:** Resilient & impervious black rubber, not autoclavable

Sk

BA025

Headrest, Stainless Steel - BA078

A more natural cranial positioning during autopsy and mortuary procedures. The broad convex curve fits within the arch of the neck, allowing the cadaver head to tilt up and rest upon work surface. This configuration allows easy access to the neck and ears without interference from other concave/U style head rests.

- **Dimensions:** 13.75" Long
- **Material:**
- 4 non-slip foot pads for stability

Sk

BA078

Limb Lock - BC012

Exclusively offered by Mopec, this simple self-adjusting design provides a safe and steady method to secure all limb specimens during any surgical or autopsy / pathology dissection. The Limb Lock's unique notched V-shape offers all the benefits of a second set of hands. Multiple units can be utilized simultaneously for larger amputation specimens, and the unit can be easily cleaned with all standard disinfectants.

- **Dimensions:** 8.25" (20 cm) Wide
- **Material:** Heavy gauge stainless steel

Sk

BC012

Mopec's autopsy workstations are industry leading in quality and customization.

Visit www.mopec.com for more information.

Autopsy & Mortuary Accessories

Funnel with Attached Screen - BA077

Stainless steel funnel and screen used for formalin collection systems and specimen pour-off.

- **Dimensions:** Outside diameter is 5" x 5 3/8" H (127 mm x 136.5 mm)
- **Material:** 20 gauge stainless steel and wire mesh

SKU
BA077

Funnel, Stainless Steel

Stainless steel funnel with a side handle that allows for easy transfer of fluids.

- **Dimensions:** 1.9 L (2 qt), 8.75" diameter; 385 ml; 68 ml
- **Material:** Premium grade stainless steel

SKU	Size
BA044	1.9 L
BA043	385 ml
BA042	68 ml

Instrument & Specimen Utility Bin w/ Strainer - BA053

Perforated, multipurpose bin with strainer is ideal for temporary specimen fixation, instruments soaking and/or specimen collection. Site handles allow easy lifting for fast efficient drainage and rinsing. Stackable for easy storage. Should be used in conjunction with Mopec EasySoak Instrument Cleaner – BE046.

- **Dimensions:**
- Top: 20.5" (52.07 cm) L x 16" W (40.64 cm)
- Strainer: 20" (50.80 cm) L x 15" (38.1 cm) W x 5" (12.7 cm) D
- Base: 20" (50.80 cm) L x 15.5" (39.37 cm) W x 7" (17.78 cm) D
- **Material:** Rugged, washable polyethylene
- Approximately 300 holes, 0.25" diameter

SKU
BA053

Instrument Jar, Weighted Base

Ideal for all pathology instruments including forceps, scissors, scalpels, rulers, etc. Easily cleaned or autoclaved. Heavily weighted base reduces tipping concerns.

- **Dimensions:** 2.125" (54 mm) top diameter
- **Material:** Stainless steel

SKU	Height
BA008	4.5"
BA009	7.25"

Instrument Sterilization Trays

The three-piece tray set can be used for sterilization and decontamination of any pathology dissection instrument. Can also be used in conjunction with Mopec EasySoak Instrument Cleaner – BE046.

- **Material:** Stainless steel
- **Dimensions:** 20.75" x 12.75" x 6"

SKU	Option
BA054	Three Piece Set (Solid Pan, Perforated Pan & Cover)
BA017	Solid Pan Only
BA016	Perforated Pan Only
BA015	Cover Only

Instrument Tray & Cover Set, Various Sizes Available

Ideal for storing or soaking dissection instruments. Can be used in conjunction with Mopec's Easy Soak, Instrument Cleaner – BE046.

- **Material:** Stainless steel
- Each set comes with 1 pan and accompanying cover

SKU	Size
BA013	8.5" L x 3" W x 1.5" D
BA011	8.75" L x 5" W x 2" D
BA012	8.75" L x 5" W x 3" D
BA010	17" L x 4" W x 2" D

Instrument Tray & Cover with Flush Handle, 20.75" x 12.75"

Ideal for storing or soaking soiled dissection instruments. Can be used in conjunction with Mopec's Eazy Soak, Instrument Cleaner – BE046.

- **Dimensions:** 20.75" (528 mm) L x 12.75" (324 mm) W
- **Material:** Stainless steel
- Tray and cover sold separately

SKU	Option

Acrylic Bowl - BB024

Multi-purpose, washable acrylic bowl for isolating or weighing specimens.

- **Dimensions:** 5.25" base diameter, 6.25" top diameter
- **Material:** Plastic
- Suitable for use with BB030 BB033 BB061 and BB062 scales

SKU
BB024

Autopsy Scale Stand, Table-Mounted - C0017 (scale not included)

This scale stand bracket is typically welded to the table top. Rotating tube has a locking knob. Main boom is removable and allows the scale to hang over the sink. Scale sold separately.

- **Material:** stainless steel
- **Dimensions:** Scale boom is 1.625" diameter
- Scale not included

SKU
C0017

Autopsy Scale Stand, Wall-Mount - C0016 (scale not included)

Designed to accommodate the wall-mounted scale support socket located on the shelf of any standard autopsy sink. Stand includes a support tube allowing the scale to drain into the main sink. Stand pivots in both directions and secures in place with locking knob. Scale sold separately.

- **Dimensions:** Wall mount bracket provided with 1.625" diameter cantilever weldment.
- Scale not included

SKU
C0016

Autopsy Scale Stand, Wheeled - BB035 (scale not included)

Mobile scale stand brings the scale to any convenient location. The offset center post and weighted base provides secure operation. Durable and easy to clean. Four industrial locking casters provide complete mobility. Scale sold separately.

- **Material:** Stainless steel
- Compatible with BB002 & BB014 scales
- Scale not included

SKU
BB035

Autopsy Scale, Stainless Steel w/ Optional Drain Holes

Features a large display, auto-zero tracking, automatic Power Saver and Hold functions. Last displayed weight remains after the specimen is removed. Available with or without drainage holes in pan.

- **Material:** Stainless steel
- **Weight Capacity:** 66 lbs or 30 kg/4.7 stone
- **Readability:** 0.02 kg/0.05 lb
- **Power Requirements:** Battery-operated (4 C batteries, not included) and allows for 250 hours of operation.

SKU	Pan Type
BB013	Solid, no drainage holes
BB014	With 3 drainage holes

Autopsy Scale, Stand Not Included

Two dials provide bi-directional readings. Scale capacity is reached in three indexed pointer revolutions. Optional stainless steel perforated pan assembly.

- **Dimensions:** 9 kg with two 13" (330 mm) glass dials
- **Material:** Stainless steel outer, glass dials, and phosphor bronze rack
- Zero adjustment screw may be used to zero out additional tares up to 10%.

SKU	Option
BB002	Scale, Perforated Pan, Bow & Ring Set
BB037	Perforated Pan, Bow & Ring Set
BB007	Perforated Pan Only
BB009	Solid Pan Only

Compact Digital Scale - BB033

Durable, water-resistant, digital scale is designed for all pathology / laboratory applications. Includes large removable stainless steel and plastic weighing surfaces.

- **Dimensions:** 9.5" x 9" x 5.25"
- **Weight capacity:** 2000 g

SaniPath Cleaning & Disinfecting Wipes - BE036

SaniPath wipes are a one-step cleaning and disinfecting necessity for all pathology/necropsy lab surfaces. The wipes allow you to clean and disinfect in a pinch with or without gloves.

They're effective against a wide range of pathogenic bacteria, viruses and fungi such as HIV-1, H1N1, MRSA, Herpes Simplex 2, Pseudomonas, Staphylococcus, Tuberculosis and Canine Parvo. This product is ideal for lab telephones, computers, keyboards, writing instruments, splash shields, etc. Set these next to pathology photography stations to remove those last minute blood spots and smears. They also come in handy when cleaning pathology lab refrigerators and freezer surfaces. Use daily for a cleaner safer work environment.

- 160 6" x 6.75" premoistened towelettes in a pop-up canister
- EPA approved: EPA Reg. No. 1839-174-74952, EPA Est. No. 5747-MI-01.
- Bleach and Phenol Free
- **NOTE: This product is not available to ship to California**

Sku

BE036

SaniPath Disinfectant Foaming Spray - BE045

SaniPath foaming spray destroys a wide range of pathogenic bacteria, viruses and fungi including HIV-1, H1N1, Herpes Simplex 2, Staphylococcus, Pseudomonas, Canine Parvo and Tuberculosis. Clean, disinfect and deodorize in 10 minutes with the clinging foam. The powerful foaming action is ideal for all heavily soiled vertical or horizontal pathology surfaces such as autopsy tables, body trays, grossing stations, plumbing fixtures and dissection boards. Use at least once a week to keep your lab safe and clean. 32 oz.

- **NOTE: This product is not available in California**

Sku

BE045

SaniPath Disinfecting Spray Cleaner - BE047

Protect your personnel and their work areas with SaniPath Disinfecting Spray, a multi-purpose decontaminating cleaner. It is a bactericidal, fungicidal, virucidal and Tuberculocide. This cleaner is great for spill clean up and should be used daily for pathology and morgue work surfaces including equipment, tables, coolers, cutting stations, instrumentation, floors, computers, and telephones. The mild, lemon fragrance leaves your lab smelling fresh. 32 oz.

- Meets OSHA's Bloodborne Pathogens Standard for decontamination of hard, non-porous environmental surfaces.
- **NOTE: This product is not available in California**

Skus

BE047

Stainless Steel Cleaner & Polish Spray - BE048

Powerful and non-corrosive cleaner for all stainless steel surfaces. The super concentrated biodegradable formula cleans and polishes in one step. Easily remove fresh or dried blood and tissue. Sku
AB302

Forceps, Dura-Strip, Serrated, 8.5" - AG001

Ideal to use for cranial dura removal and dissections. Angled forcep tips allow for precise grip of thin membranes.

- **Dimensions:** Overall length 8.5" (216 mm)
- **Material:** Standard grade stainless steel
- **Grip:** Smooth
- **Tips:** Sharp

Sku
AG001

Forceps, Extracting, #32 - AB301

Extracting forceps are used for upper cuspids, bicuspid, molars and roots.

- **Dimensions:** Overall length 7.25" L (184 mm)
- **Material:** German grade stainless steel
- **Handle:** Universal American pattern

Sku
AB301

Forceps, Extracting, #69 - AB300

Extracting forceps are used for upper and lower tooth fragments and roots.

- **Dimensions:** Overall length 7.25" L (184 mm)
- **Material:** German grade stainless steel
- **Handle:** American pattern

SKU
AB300

Forceps, Fine Tip, Curved, 6" - AB034

Sharp 1 x 2 interlocking teeth for secure grip with minimal tissue compression. Curved tip allows for enhanced manipulation during dissection.

- **Dimensions:** Overall length 6" (152 mm)
- **Material:** Standard grade stainless steel

SKU
AB034

Forceps, Micro Grooved Tissue, Curved - AB154

Unique octagon handle shape provides a broad area for the finger to grasp for secure, yet delicate dissections. Micro fine tips for precise extraction.

- **Dimensions:** Overall length 3.75" (95 mm)
- **Material:** Premium grade stainless steel

SKU
AB154

Forceps, Micro Iris Tissue

Unique octagon handle shape provides a broad area for the finger to grasp for secure, yet delicate dissections. Used for iris tissue.

- **Dimensions:** Overall length 3.5" (89 mm)
- **Material:** Premium grade stainless steel
- **Tips:** 1 x 2 teeth tips

Forceps, Needle Core Biopsy - AB049

Modified tip design to hold and hook all types of core biopsy tissue.

- **Dimensions:** 4.25" Long (108 mm)
- **Material:** Standard grade stainless steel

SKU
AB049

Forceps, ProCUT Kit - AB079

ProCUT is an innovative tool that assists the pathologist in cutting organs in parallel slices of uniform thickness. ProCUT eliminates the guesswork in cutting a specific thickness of tissue mass. Suitable for use with both conventional and microwave tissue processors. Serial wet tissue slices are taken in a simple step with the unique design of ProCUT.

Movable forceps prongs designed for ergonomic handling of varying sized tissues. Metal side plates secure organ in position. No more complaints about the organ slicing being "too thick" or "not parallel".

- **Dimensions:** Overall length 13" x 3.5" (33 cm x 9 cm)
- **Material:** Laser shaped AISI 304 stainless steel
- 5 mm thickness slice
- PTFE Positioning Base

SKU

AB079

Forceps, CutMATE Starter Kit - AB070

CutMATE forceps were developed to overcome the variability of tissue specimen thickness. They will allow cutting consistent tissue specimen thickness of 2, 3, or 4 mm. The unique "trident-like" design of the 35 mm long ergonomically angled prongs, ensures uniform tissue thickness cutting of tissue lengths that will fit standard, pathology cassettes. The inside surface of the prongs is specially textured to provide the extra grip needed for stabilizing and slicing difficult and hard to hold specimens.

- **Material:** 304 Stainless Steel
- Includes (4) forceps, decontamination rack, and calibration device

AH116

Knife Sharpener, 3 Stage Diamond Hone

This revolutionary, three stage commercial sharpener has Edge Select that lets you choose the edge to match the knife. The diamond abrasive and ultra fine stropping stage sharpens in seconds. The rugged sharpening module detaches easily for cleaning and sanitizing. Precision guides guarantee perfect results every time.

Edges stay sharp up to three times longer. The patented Trizor-Plus edge is extremely long lasting, and it sharpens the full blade, tip to handle.

- **Material:** Rugged, cast metal construction
- Safe for all quality knives
- Suitable for straight edge and serrated knives
- Precise bevel angle control for a 20 degree edge
- Ready to use, left or right handed
- Powerful, high speed motor
- Replacement sharpening cartridge sold separately (AH121)

SKU	Option
AH117	Sharpener

Knife Sharpener, 3 Step, 12.5" - AH030

Mopec's three-step knife sharpener is constructed of durable polypropylene. Sharpen virtually any dull knife with the ceramic rods standing vertically or laying horizontally on your bench top. The AH030 can be used for dull or worn edges, partial dull edges and quick touch ups. Requires no oil or water. Rods can be rotated for sharp new surfaces providing longer stone life.

- **Dimensions:** 12.5" (318 mm)
- **Included:** 3 changeable ceramic rods
- **Included:** Complete instructions

SKU
AH030

Knife Sharpener, Manual - AH119

This sharpener yields incredibly sharp knives for professionals who prefer a perfectly steeled edge. The super-hardened miniature steels use a non-abrasive process to develop uniform, ultra-sharp micro-serrations along the entire edge. The precise angle control ensures professional results every time that extends the life of the knife. The AH119 maintains the original edge geometry and does not round-off the edge.

The miniature steels are adjustable to expose fresh surfaces.

- **Material:** Rugged, cast metal construction
- Safe for all quality knives
- Washable, can be rinsed in a sink

SKU
AH119

Knife Sharpener, Multi-Edge Diamond Hone - AH120

This product has two stages: forming and fining for a razor sharp, longer lasting double bevel edge. It uses a 100% ultra-fine diamond abrasive. Patented, precision guides for sharper edges. Can be used to sharpen straight edges and serrated knives. Precise bevel angle control.

- Suitable for left or right handed individuals
- No assembly required

SKU
AH120

Knife Sharpener, Variable Speed

This variable speed sharpener creates a precise angle and a consistent, exact bevel by sharpening, thinning, and honing which results in a stronger cutting edge. The honing wheels are mounted on parallel shafts that rotate in opposite directions.

- **Material:** Stainless steel case
- Replacement honing wheels available (See AH034)

SKU	Voltage
AH032	110V

Histology Paraffin Chill Tray - BK105

The BK105 Chill Tray is a mobile, self contained refrigeration unit designed to rapidly cool paraffin embedded tissue samples during histologic processing. This high performance, well insulated cabinet unit is designed to save time in the histology laboratory. Paraffin tissue blocks can be quickly chilled in this chamber prior to microtome sectioning. Powered by a quiet, ozone-friendly refrigeration unit with thermostat controls to enable a broad temperature range. This fully sealed unit is able to reach its optimal operating temperature in 15 to 25 minutes. Three inch diameter rubber casters allow for easy storage and mobility throughout the laboratory.

- **Dimensions:** 22" L x 16" W x 32" H, Freeze chamber: 10" x 12" x 6" D
- **Material:** Stainless steel
- **Temperature range:** ambient to -25 degrees C
- Includes 3" casters

SKU
BK105

Histology Paraffin Dispenser - BK500

Paraffin dispenser features a high quality outer casing and a heated valve ensures a smooth and consistent flow of paraffin. Aluminum inner reservoir provides excellent thermal transfer and uniform temperature control. Rapid warm-up with an advanced safety high-temperature shut off.

- **Dimensions:** 8.5" x 16"
- 115 V
- Temperature range: 40 degrees Celsius to 75 degrees Celsius +/- 2 degrees Celsius
- Approximately 1.25 gallons featuring a five liter capacity
- UL and CSA Certified

SKU
BK500

WHAT WE OFFER

QUALITY

Mopec provides American-made equipment and laboratory products to the pathology, histology, necropsy, autopsy and mortuary industries. Founded in 1992, Mopec solutions are among the very best as demonstrated by the vast number of installations in America's top healthcare institutions and facilities.

FLEXIBILITY

Our experienced engineers and architects are happy to partner with your facility managers on new projects or renovations. We will take into consideration current equipment, room measurements, plumbing and fume handling among other needs.

COMMITMENT

Mopec understands that each project is unique, and we support our customers from start to finish. Our knowledgeable sales representatives are available for on-site visits to assist you every step of the way, and our friendly field technicians are specialized in detailed installations.

PLEASE GIVE US A CALL AT (800) 362-8491 OR VISIT US AT WWW.MOPEC.COM FOR MORE INFORMATION.
