# Krombacher

Krombacher Brauerei was founded in 1803 in the small town of Krombach, nestling in the beautiful Siegerland Hills of Westfalia, central Germany. It was sited to take advantage of the local pure Felsquellwasser® (spring water) still used by the brewery today.

Adhering to the strict German beer purity laws, Krombacher is made using the finest natural ingredients: noble hops, quality malt and pure water. Siegel hops are from Hallertau, premium malt from spring barley and the yeast is Krombacher's own - a different strain is used for each style and pitched fresh for each fermentation. But the most renowned factor in Krombacher's brewing is its use of crystal clear spring water - soft and low in minerals and ideal for producing the Pilsener style of beer that arrived from Bohemia in the late 19th century.

Imported into the UK by Morgenrot since 1987, Krombacher's continual expansion and ability to maintain its leading position in today's challenging beer market is backed by brewery investment, innovation and, above all, by maintaining quality and authenticity.

Krombacher's new Kellerbier is a tribute both to their beer tradition and to their modernity. In bygone times unfiltered cellar beer was reserved for Master Brewers, who sampled it for maturity and quality direct from the cask. Today, thanks to Krombacher's market vision, we can all take pleasure in tasting this original style of lager.

## **Krombacher Pils** - 4.8%abv

*brewed with noble hops, quality malt and pure water giving a wonderful balance with a crispness on the finish adds up to the distinctive Krombacher taste.*

## **Krombacher Kellerbier** - 5.1%abv

*Kellerbier in its pure form - lightly yeasty at first, then aromas from the fermentation become apparent; a penetrating bitterness dominates the flavour.*

## **Krombacher Hell** - 5.0%abv

*this light-coloured lager beer is subtly hopped, making it less bitter than a Pils, and delivers a satisfyingly pleasant malty sweetness.*

# Krombacher

# Krombacher

Krombacher is the largest privately owned brewery in Germany and remains the best selling brand in the competitive Pilsener sector of the domestic market - 1 in every 10 Pils consumed in Germany comes from Krombacher.

When you enjoy a beer that bears the name Krombacher or the Krombacher label, you can be 100% sure that it has been brewed in Krombach under the direct supervision of their Master Brewers. In an age when many beers – including other famous German brands – are brewed away from their home location, often under license by subsidiaries or other companies, this will never be the case with Krombacher. The provenance of a Krombacher is totally guaranteed.

The Kindelsbergturnm has been the defining symbol on the Krombacher label for generations. It is the tower that stands at the top of Kindelsberg, the mountain overlooking the brewery. This symbolises 'home' for the people of the Siegerland.

On the Krombacher emblem, the tower is surrounded by green forest, representing Krombacher beer's singular connection with the countryside - the brewery is situated in its natural surroundings. The source in the lower part of the emblem is a symbol for the unique Felsquellwasser®, from which all Krombacher beers are produced. It is outlined in red, a reference to the iron-rich rocky soil of the Siegerland. The Krombacher emblem is framed by two ears of summer barley, left and right, and by hop cones, above and below.

Thus, all of the ingredients incorporated in the German Reinheitsgebot are represented in the Krombacher logo.

**Krombacher Weizen** - 5.3%abv  
*naturally cloudy and lightly carbonated wheat beer, with soft and sweet aromas reminiscent of honey and banana; restrained bitterness leads to a fruity finish.*

**Krombacher Dark** - 4.7%abv  
*distinct malt-caramel notes with liquorice, spice and coffee notes also discernible; a hoppy bitterness asserts itself slowly to linger on the palate.*

# KROMBACHER

## LOW ALCOHOL

<b>Bottle</b>	code	product	location	vegan	IBU	abv	size	units	format	£ price
	4007	<b>Krombacher Low Alcohol Pils</b>	Kreuztal	YY	23	<0.5%	33cl	24	nrb (4 x 6 pack)	14.74
	4017	<b>Krombacher Low Alcohol Weizen</b>	"	YY	16	<0.5%	33cl	24	nrb (4 x 6 pack)	17.89

# Krombacher

# Krombacher

Krombacher go to great lengths to maximise the quality and taste of their low-alcohol drinks. These thirst-quenchers have a full-bodied, refreshing character and a flavour extremely close to the originals.

“We rely on our own brewing process, developed in Krombach, for our non-alcoholic range. In this way we ensure that our non-alcoholic beers also retain the flavour that is specific to their respective type.” Manfred Schmidt, Krombacher Chief Master Brewer explains.

Krombacher Non-Alcoholic has become a partner of the German Olympic Team and at Rio (2016), Pyeongchang (2018) and Tokyo (2020) all athletes and guests to the 'German House' will drink from the Krombacher portfolio.

## LOW ALCOHOL AND HEALTH

A varied and balanced diet, as well as a healthy lifestyle is very important. Vitamins which are essential for the metabolism are obtained from food. Alcohol-free beer is a true vitamin supplier. 100ml of low alcohol Krombacher Pils contains more than one fifth of the adult daily requirement of Folic acid and 40% of the recommended daily intake of Vitamin B12. Folic acid and vitamin B12 contribute to the reduction of tiredness and fatigue and support normal function of the immune system.

Low alcohol beers also have reduced calories. Low alcohol Pils contains 27kcal/100ml and Weizen 31kcal/100ml, which is about 30% less than 'with alcohol' beers. In comparison, cola has 42kcal/100ml and orange juice 39cal/100ml - so beer is better!

[drinkaware.co.uk](http://drinkaware.co.uk)  
for the facts

**Krombacher Low Alcohol Pils** - <0.5%abv  
Everyday refreshment with true pils flavour. Lightly sweet at first, the sweetness quickly changes to the hoppy, delicately bitter character of Krombacher Pils.

**Krombacher Low Alcohol Weizen** - <0.5%abv  
The full-bodiedness of a Weizen carries appreciably across the palate with the aromas typical of a wheat beer. Lack of alcohol in no way detracts from the taste.

# EICHBAUM

## BADEN-WURTTENBERG, GERMANY

<b>Draught</b>	code	product	location	vegan	IBU	abv	size	units	format	£ price
	3954	<b>Eichbaum Lager</b>	Mannheim	YY	22	4.0%	50 ltr		Keg	119.47
	3951	<b>Eichbaum Premium Pils</b>	"	YY	27	5.0%	50 ltr		"	133.16
	3958	<b>Eichbaum Hefeweizen</b>	"	YY	13	5.0%	50 ltr		"	137.37
	3956	<b>Eichbaum Dunkel</b>	"	YY	28	4.9%	50 ltr		"	134.21

# EICHBAUM

Eichbaum dates from 1679; a Walloon, Jean du Chêne established a brewery with its own tavern, which he named Eichbaum - his surname in German (oak tree in English). It is the oldest brewery in Mannheim, and although it has been at different locations since, its headquarters have always been in the city and it is one of the leading breweries in Baden-Württemberg.

Eichbaum obtains the majority of their hops from the Hallertau, the growing region situated almost in the middle of Bavaria. Hops have been cultivated here since the 8th century and is the largest growing area in Germany. These hops contribute to the delicate tangy taste of Eichbaum. For the malt, Eichbaum primarily uses malting barley from the Palatinate region around the Rhine.

Water used for brewing plays an important role in any beer's character, and Eichbaum relies on water drawn from three of its own wells at a depth of more than 100 metres, where it has been stored for thousands of years below an impermeable layer free from surface influences. Thus, it is of real mineral water quality.

## ***Eichbaum Lager - 4.0%abv***

*traditionally Baden-Württemberg beers are less strongly hopped and taste a little sweeter than those from other regions, giving a malty aroma and rounded flavour.*

## ***Eichbaum Premium Pils - 5.0%abv***

*a light golden colour with a malt based aroma and highlighted citrus and floral hop notes. The taste is well balanced - initially of sweet malt, then a dry bitter finish.*

## ***Eichbaum Hefeweizen - 5.0%abv***

*is a bright wheat beer, just slightly cloudy, with a 50% wheat malt content. Medium bodied, it is fruity and aromatic with spice and citrus notes.*

## ***Eichbaum Dunkel - 4.9%abv***

*is a dark wheat beer with an emphasis on a nose of aromatic malt notes. Light fruity flavours lead into the taste that is tangy and mild with a slight bitterness.*

In a former bakery in Hökarängen is one of Sweden's smallest breweries. They make hand made beer with small scale and local production as catchwords.

Pang Pang have never done anything practical, easy or economic. On the contrary, the philosophy to always go the long way, to deliver a product that no one else has the power to produce; unfiltered and unpasteurised beer contains live yeast cells, which are bottled and labelled by hand.

Pang Pang Brewery wants to convey an experience that extends longer than taste. They want to see every bottle as a cylindrical gallery that can provide a platform for different artistic expressions!

Translated into English as Bang Bang, unique doesn't really cover it when it comes to lone brewer Fredrik, his brewery Pang Pang and his array of full-sensory stimulating, stunning Swedish beers.

Based in Hökarängen, in the south of Stockholm, Pang Pang kick-started the Swedish wave of craft brewing when Fredrik built the brewery in 2010.

Always pushing the envelope, challenging beer stereotypes, in fact challenge anything and everything, Fredrik manages to produce consistent fine beers, no matter what crazy ingredients he throws into his fermenter.

Fredrik's brewed the UK a one off batch of his world famous Shower Beer! Perfect as a body wash - but even better to drink after a very long day at the office.

**Shower Beer - 10%abv**

*A sweet but strong pale ale in a teeny 18 cl bottle designed to gulp in three sips while standing in the shower getting ready for the night.*

Pang Pang brews are only limited by the imagination of Fredrik Tunedal.. and that is a scary thing to contemplate.

Aside from the 'core' beers, Tiki Tango and Flamingo-go, we'll bring in small batches of weird and wonderful beers in bottles and kegs.

**Tiki Tango Pale Ale** - 4.5%abv  
the entry gate to Pang Pang beers. A single hopped - Simcoe - pale ale. Light, fresh and delicious with a wonderful aromatic nose of melon and peaches.

**Flamingo-Go IPA** - 6.0%abv  
Vibrant mango nosed beauty. A sessionable IPA without punching too hard on the hops, its balance nicely with plenty of tropical fruits and a tangy bitter finish.

**Golden Glock Fruit IPA** - 5.8%abv  
a crazy Fruit IPA containing every fruit you can name in five minutes, all bunged into the fermenter and left there until it's ready.

**Gaffa Earl Grey IPA** - 5.8%abv  
Aromatic dry-hopped IPA brewed with bergamott and Earl Grey tea. Bergamott fruit juice is poured into the wort, then Earl Grey tea and peel from the fruit slung in.

**Prepper Double IPA** - 8.0%abv  
strong, hoppy survival beer. When the world as we know it disintegrates as society collapses, this little beauty is all you need to pass the time until the new world rises.

**Bong Water** - 11%abv  
You ever woken up on someone's sofa, reachout for the nearest water source, only to realise that you just chugged down half a gallon of bong water?

Cervecería  Artesana

**palax** 

# Cervecería Artesana

Cervecería Artesana is situated in La Rioja, Spain and has one of the most stunning views from any brewery - the gorge Peñas de Iregua. It was founded in 2012 and is located in Nalda amongst the vineyards.

The brewery produces the Palax and Ceriux range of craft beers, taking full advantage of the pure local spring water - with ideal characteristics for brewing - and quality raw ingredients, as well cutting-edge technology to satisfy even the most discerning beer connoisseurs. The resulting craft beers are rich in nuances and personality.

Palax is a lager available on draught or as bottle conditioned. It is brewed over 7 days and then left to condition for a further 25. It is either kegged with minimal filtration and no pasteurisation or primed to give a secondary fermentation in the bottle for another 3 weeks.

Ceriux is a highly-expressive, double fermented craft ale; made using an ingredient that sets it apart from other beers - grape must. After the initial brewing process it is left to age for over a month and then a secondary fermentation takes place triggered by the addition of concentrated must, provided by the next door winery. The Viura and Tempranillo grape musts add subtle aromas and flavours that make Ceriux delicious and very different.

Winning Silver in the 'Innovation Challenge 2017' Ceriux is "the beer with a touch of wine."

## **Palax** - 4.9%abv

*a bottle-conditioned lager made using Hallertau Tradition hops and German malt. Following on from aromas of honey, flowers and citrus fruits it has a full, rounded taste with more complexity; plus medium carbonation from the secondary fermentation in bottle.*

## **Ceriux Rubia** - 5.4%abv

*translating as 'blonde' is a top fermented ale made from Perle and Cascade hops giving dominant citrus and spice aromas with some grainy malt; medium bodied with a zesty, balanced finish with a vineous character that lengthens its taste profile.*

# CERVESES LA PIRATA

A group of home brew enthusiasts started out in 2004 and soon developed a strong following for their artisan brews. Realising that they could begin production on a larger scale, Cerveces La Pirata was born and these 'Pirates' were finally able to come out of hiding in 2012.

After three years living a nomadic life brewing in other factories, La Pirata opened their first brewery in October 2015 in Súria, a small village 70km from Barcelona.

They have collaborated with half a dozen international craft breweries including Brew by Numbers in London and Against the Grain in the USA. Since its inception, the brewery has won the National Award for the Best Brewery in Fira del Poble Nou (Barcelona) twice, while also picking up other awards including two bronzes at the Global Craft Beer Awards.

La Pirata's beers are based around recipes with a strong malt character base and a high abv. Their philosophy is simple : "Incendiary, artisan and natural" ... and make people smile.

## **La Pirata Suria APA - 5.0%abv**

*gluten free, light and aromatically hoppy with a crisp bitterness that doesn't hide the malt or herbal nuances.*

## **La Pirata Sansa Amber Ale - 6.0%abv**

*reddish, with a touch of bitterness and strong body, the malt characters are interspersed with the hops.*

## **La Pirata Viakrucis IPA - 6.0%abv**

*a good dose of hops, citrus and stone fruits, a balanced bitter and dry finish making it a very easy drinking 6%er*

## **La Pirata Deep Inside Porter - 6.8%abv**

*chocolate and light roast coffee open up to give a very smooth palate with a fruity and satisfying after-taste.*

## **La Pirata Black Block Russian Imperial Stout - 11.2%abv**

*an incendiary beer that warms the heart and soul of the drinker; rich, viscous mouthfeel and a sweet finish.*

# BEER CAT

Beercatalunya SL (BeerCat) has been brewing since 2013 and was set up with help from Manchester's Cloudwater head brewer James Campbell. The whole vibrant craft beer revolution in Spain can actually be traced back to 1992 when Liverpoolian ex-pat Steve Huxley opened the ill-fated brew-pub, the Barcelona Brewing Company. Though recently big brands such as Brewdog and Mikkeller have moved in, there is plenty of interest and activity on the micro level.

BeerCat is based in Vilafranca del Penedès, the capital of the Penedès wine and Cava region situated about 40km from Barcelona. The brewery is housed in a former wine bodega and draws inspiration from the surrounding countryside and viticulture to develop a niche range of beers.

First brewed in collaboration with Magic Rock, La Segadora is flavoured with lemon peel - one of BeerCats recipes using regional ingredients. Others doing so include Flor d'Ordal which is based on the famous dry-cultivated Ordal peaches, and El Taronger, which has the zest of local bitter oranges added.

Also available on a seasonal basis:

Pa l Rosa - 4.8% Wheat beer

Ginger Cat - 6.3% Ginger beer

Flor d'Ordal - 4.8% Peach ale

El Taronger - 5% Orange Winter beer

## **BeerCat Barcelona Blonde** - 5.0%abv

*golden amber colour with a hoppiness reminiscent of a Craft IPA; there is light malt on the nose with more hop fruitiness on the palate and a subtly bitter finish.*

## **BeerCat Siete Vidas Kölsch** - 5.0%abv

*brewed with a German Ale yeast, this has a slight haze with a fruity nose and malty palate; the finish is soft, rounded and smooth.*

## **BeerCat La Segadora IPA** - 7.0%abv

*golden colour, lively carbonation with nice yeasty notes and plenty of hops; lemon and cinnamon are added for flavour and juniper for a bitter bite on the finish.*

# MALA GISSONA

Basque brewer Mala Gissona is based in San Sebastian. Inspired by the local seafarers, they are particularly drawn to the Basque whalers who have ventured around Iceland since, at least, 1412. Links extended to the sailors and Icelanders developing a common 'pidgin' language.

“For ju Mala Gissona” is believed to be the commonly used expression in Iceland to refer to the Basque whalers. It translates as “You’re a bad man” but is an Icelandic slang term given to rough types, even rogues, at first impression, but who then prove to be honest, determined and loyal to their friends.

Mala Gissona beers are far from rough and definitely are honest, intrepid and adventurous - true to craft brewing principles.

The brewery has adapted the technique of secondary fermentation; after priming yeast has been added to a mixing vessel, the beer is then bottled or kegged and left to condition for 10 days at 20°C. The temperature is then reduced to less than 5°C to suspend any further yeast activity.

In keeping with the nautical influence, seaweed is used as a fining agent. And true to the fabulous cuisine of the region these beers are a fine match with seafood; with a range of Pale Ales and a Wheat Beer which is named after the great Belgium jazz guitarist Django Reinhart.

Also available on a seasonal basis  
Shackletown - 6.5% IPA  
Höfn - 4.8% Porter

**Mala Gissona Apatxe APA** - 5.0%abv  
*an American Pale Ale with a golden amber colour and vibrant citrus nose of tangerines and orange peel; a full palate where initial malt sweetness is balanced with a slightly astringent bitterness.*

**Mala Gissona Django R.** - 5.0%abv  
*a Belgium Blanche style of wheat beer brewed with an ale yeast; pale with a fine head, intensely fruity and spicy bouquet with a light, refreshing and lasting finish.*

# CISK

The first brewery in Malta was not established until 1929; Farsons Pale Ale was brewed to meet the requirements of the British garrison and navy stationed on the island. In 1929, Farsons merged with the H.G Simonds brewery from Reading to establish Simonds Farsons Ltd.

In the same year and a short distance from the Farsons brewery, the Marquis John Scicluna, whose family had established the first privately owned local bank, opened the Malta Export Brewery. While Simonds Farsons Ltd had been granted the licence to brew ales, the Malta Export Brewery was granted a temporary exclusive licence to brew Bavarian style lagers under the names Cisk Pilsner and Cisk Munchener. The launch in August 1929 unfortunately coincided with the end of the 'Roaring Twenties', just months before the Wall Street Crash. Following 20 years of rivalry, the Malta Export Brewery merged with Simonds Farsons Ltd in 1948.

The name "Cisk" originates from Scicluna's nickname "ic-Cisk" which developed out of the local mispronunciation of the word "cheque" which was introduced into local circulation by the Scicluna Bank.

Cisk had a definitive role in the transformation of the island's beverage industry, which saw a predominantly wine drinking culture embrace the love of beer. Consumed across the Maltese Islands, Cisk has a strong presence at Malta's traditional social band clubs, known as "kazini".

In 2012 12.5million Euros were invested in a new state of the art brewhouse and in 2016, 27million in a new beverage packaging facility.

Simonds Farsons Cisk Ltd remain independent brewers and committed to the family traditions and heritage that sustained the brand all these years. Cisk beers consistently achieve international recognition confirming their quality and adding to their prestige.

## *Cisk Lager - 4.2%abv*

*golden-coloured, with a distinctive and well-balanced character; its rich hop aroma and pleasant bitterness has made it the natural choice and thirst quencher for beer drinkers who want to savour the original brew, which has remained faithful to its recipe of 1929.*

	3683	<b>Windhoek Draught</b>	”	ΥΥ	17	4.0%	33cl	24	nrb	<b>24.39</b>

# Windhoek

Windhoek is brewed by Namibia Breweries Ltd (NBL) - a pure beer from a dry country. It has a distinctive German heritage: in 1920 immigrants Carl List and Hermann Ohithaver bought four local breweries and consolidated them into South West Breweries (South West Africa being the country's name at the time) based in the capital Windhoek. The brewery name was changed in 1990 when the country gained independence as Namibia.

The German connection continues to this day - at the outset of brewing, Windhoek, NBL adheres to the Reinheitsgebot (German Purity) Law. Unable to grow hops in the country, hops are imported from Germany's Hallertau region, malt barley is sourced from a handful of selected suppliers in Germany and a German yeast strain is used. Water, a precious resource in a desert country, is drawn from a private storage dam 47 miles from the brewery.

NBL's brewery, built in 1986, boasts some of the best equipment in Africa and currently produces 2.2 million hectolitres. Master Brewer Christian Mueller studied for 15 years in Germany and applies craft and dedication to uphold the values of the Reinheitsgebot. It takes 5 weeks of brewing and conditioning before the lager is released for sale with the 100% pure taste of Windhoek. Known and appreciated for their pure, honest taste and reliable authenticity, these are thirst quenching beers from one of the worlds driest countries.

NBL have a strong commitment towards the environment and wildlife. Since 2016 they have made available N\$1million as rewards to anyone who provides a tip-off on rhino poaching leading to the conviction of culprits. In 2017 they have donated a two-seater Piper Super Cub aircraft for use in operations to curb the poaching of Namibia's wildlife.

## *Windhoek Lager - 4.0%abv*

*the use of extra Hallertau hops gives a more distinctive bitterness than Draught with the hoppy character showing through in its crisp aftertaste.*

## *Windhoek Draught - 4.0%abv*

*a more 'sessionable' beer showing a smoother and sweeter malt character from its long lagering - yet remaining deliciously fresh tasting.*

# SLEEMAN

## ONTARIO, CANADA

<b>Draught</b>	code	product	location	vegan	IBU	abv	size	units	format	£ price
	3658	<b>Sleeman Railside Session Ale</b>	Ontario	YY	26	4.2%	30 ltr		1 way Petainer	106.32
	3652	<b>Sleeman Honey Brown Lager</b>	"		18	4.8%	30 ltr		"	111.51

# SLEEMAN

Sleeman despite being Canada's third largest brewing company retains a craft minded vision. Its 'notorious' family history includes piracy and bootlegging for Al Capone.

The company dates back to 1834 when John H Sleeman arrived in Ontario from Cornwall. By 1851 he was supplying small 100 barrel batches from his third brewery in Guelph, Ontario, the location chosen for it's pristine water supply. In 1933 the brewery closed, sold by the family when their liquor licence was revoked and they had to pay off fines incurred for trading beer across the US border during the prohibition.

John W Sleeman - the great, great grandson of John H - who had run an English pub in Canada and started a company importing world beers re-opened a brewery in Guelph in 1985. Original brewing recipes have stayed within the family and these form the basis of Sleeman's portfolio.

Railside Ale is, though, a new recipe 'Session Ale' fitting into this trending segment of US craft brewing, and style-wise is more an American Pale Ale than an IPA. As legend goes, back in the late 19th century, a railway route through Guelph was used to deliver hops to the original Sleeman Silver Creek Brewery. While riding on the rickety rails, loose hops fell overboard onto fields lining the track. Over time these fallen hops began to grow naturally along the rail line and are still to be found in the wild today - the inspiration for this new craft beer.

Honey Brown Lager is a long-standing favourite. It is brewed with Canadian honey in the tradition of cottage breweries at the turn of the century - and is our only beer not suitable for vegans!

## **Railside Session Ale - 4.2%abv**

*a golden, medium bodied ale with a light hop character; its grapefruit aromas are followed by a fruity, citrus finish balanced by hints of malt.*

## **Honey Brown Lager - 4.8%abv**

*a full-bodied lager with a rich copper colour; a touch of natural honey gives it a slightly sweet finish. The distinctive clover honey notes balance the aromas of lightly toasted malt and caramel.*

# QUILMES

<b>Can</b>										
	436	<b>Quilmes Lager</b>	"	YY	12	4.9%	35.5cl	24	can	24.70

# Quilmes

Quilmes brewery was founded in 1890 in Buenos Aires by German immigrant Otto Bemberg. Though named after the area of the city where it was located, the Quilmes were originally a native tribe who lived in the surroundings of Tucumán. In the 17th century, after repeated attempts by the Spanish invaders to control their lands, they were defeated and forced to settle in a restricted colony (reducción) near Buenos Aires, 1000km away from their homeland.

The beer Quilmes quickly dominated the drinks market in Argentina with outlets in all major cities. Having acquired several more breweries, Quilmes was at the forefront of the brewing industry: they made the first malt from Argentine barley in 1921 and this enterprise supplied not only their own breweries but practically the entire national beer industry.

The company grew steadily in the 20th Century. While beer drinking in Argentina fell by almost two-thirds per capita in the economic troubles of the 1970's, Quilmes, which held almost 70% of the remaining national beer market, began a radio and television advertising campaign which has maintained the brands positioning to this very day. Quilmes sponsors the national football team and is also associated with international polo and rugby matches held in Argentina.

Quilmes has a 46% share of its home market - it truly is "Argentina's Favourite Beer" - and this Argentinian icon is enjoying an international reputation with export growth in the Americas, Asia, Australia and Europe.

Quilmes remains a genuine import - brewed only in Argentina. Quality and provenance are assured from the use of Patagonia hops, barley malt grown in the Pampas and pure water from the Andes.

## **Quilmes Lager** - 4.9%abv

*a classic lager that reflects its Germanic brewing heritage: golden colour, rich texture, refreshing light hoppy taste with a crisp, dry, thirst quenching finish.*

## **Quilmes Bock** - 6.3%abv

*a speciality lager with a copper red colour; dominant maltiness and low hopping accentuates its powerful character which carries medium weight.*

# PELFORTH

LILLE, FRANCE

<b>Bottle</b>	code	product	location	vegan	IBU	abv	size	units	format	£ price
	3707	<b>Pelforth Blonde</b>	Mons-en-Barœul	YY		5.8%	25cl	24	nrb (4 x 6 pack)	25.13

# PELFORTH

Pelforth was originally called Pélican and this strong brand image remains to this day. The new adopted name derives from a bit of Pelican 'Pel'; a strong French character 'forte', and finishing with a typically anglicised 'th'.

Pélican, named after a famous foxtrot dance of the era, came into being around 1921 when three Lille brewers Louis Boucquey, Armand Deflandre and Raoul Bonduel, decided to join forces to overcome problems of post-war shortages (especially copper for making the brewing vessels). The Brasserie du Pélican gradually bought the Brasserie Coopérative de Mons en Barœul, founded in 1903, and settled there in 1966. Pélican took the name of Brasserie Pelforth in 1972.

The traditional 'Bière de Garde' ('Beer to Keep') from this region are top fermented ales with notable malt character, fruity, spicy notes and medium to high alcohol. The brewery became renowned for production of its dark beer - Pelforth 43 - first brewed in 1937 and using an English top fermenting ale yeast (as opposed to bottom fermenting lager yeast).

Brewing was halted during the Second World War and restarted in 1950 and a 'Pale' was first brewed in 1963. In 1991 'Pale' and the '43' dark beer were rebranded Blonde and Brune.

Pelforth was bought by the BGI group in 1980, then by the French Brasserie subsidiary of Heineken in 1986 and fully included in the Heineken group in 1988.

Currently the production is mainly from the brewery in Mons-en-Barœul augmented by breweries of Esperance in Schiltigheim and Valentine in Marseille. Pelforth now produce 22 different beers, including seasonal ones, but remains best known for its Blonde and Brune.

## **Pelforth Blonde** - 5.8%abv

*a brasserie beer with a refreshing, distinctive character and a thirst-quenching taste that belies its strength. Its full taste combines malt and fruit flavours with subtle notes of honey and fresh hazelnuts. A light bitterness develops in its lasting after-taste.*

# Avalon

Trabanco have been a proud family business since 1925, synonymous with quality craft cider. They own over 80 hectares of orchards growing traditional apple varieties in the Spanish cider heartland of Asturias, North West Spain. The apples are processed using traditional methods unchanged for centuries; the juice is fermented with indigenous yeasts, in accordance with the guidelines for "Naturally Fermented Quality Cider."

In the early 1990s Trabanco was one of the first companies to incorporate wine making practices, such as employing the equivalent of an oenologist, into cider production. The improvement in both analysis and method, such as helping avoid inadequate or excessive treatments, has resulted in acclaimed consistency and quality.

Trabanco are part of the ATRIA (Association of Integrated Therapies in Agriculture) and belong to AACOMASI (Asturian Association of Cider Apple Growers). Certification by the Quality Guarantee Assurance Authority proves that the sidra has been produced and fermented naturally, and made using traditional methods and apples. This ensures a pure 100% Asturias sidra, which is completely natural and authentic.

Asturian sidra has a distinctive, somewhat special and very different style. It benefits from a little aeration, and is often seen poured from head height into a glass at waist level.

The Avalon brand name references the legendary Arthurian island of Avalon - Ynys Afallon - the place where King Arthur's sword Excalibur was forged. Thus a link is acknowledged between Asturian and Breton cider making to that of the West County and the Celts.

Avalon is bottled unfiltered and is gluten free. Trabanco has received more than 50 cider awards in the past decade.

## **Avalon** - 5.5%abv

*a brilliant pale yellow Spanish Sidra (Cider) with a smooth style and a slow release of fine bubbles forming an attractive and persistent lacy head. The aromas of summer orchards shine through with hints of applewood. The fruit has a wonderful balance between crispness and sweetness making it refreshingly cool.*

# SOLAN DE CABRAS

# SOLAN DE CABRAS

Solán de Cabras is Spain's best known premium water brand. Its distinctive blue bottle stands out in many prestigious restaurants and it is a popular choice amongst sommeliers, chefs and consumers alike.

Solán de Cabras is sourced from a single spring in the Cuenca hills, 950m above sea level, near Beteta, central Spain, 100 miles South East of Madrid. Its healing qualities having been known since Roman times. It became a favourite with Spanish royalty in the 18th century, many of whom visited to benefit from its health giving reputation, and a spa was constructed in 1775.

The first chemical analysis was made in 1790 and the mineral composition has hardly changed since then. This is, in part, down to the dense character of the minerals that make up the aquifer. It has been calculated that rainfall is filtered for 400 years before it re-emerges from the spring, which runs continuously and at a constant temperature of 21 degrees.

Launched in 2006, the distinctive blue bottles have won a World Star Packaging Award. Whilst protecting the vital minerals from sunlight this visual impact conveys high quality and sets the water apart from other brands.

Solán de Cabras is, and always has been, highly regarded in Spain and has an outstanding profile - reflected in the quality and status of restaurants and events such as Madrid Fashion Week. Solán de Cabras is also the official water of Real Madrid Football Club - an elite water for the elite athlete.

Solán de Cabras has to this day achieved a position as the Premier Cru of mineral waters, a symbol of quality, purity and design, after more than two centuries of history.

## *Solán de Cabras*

*Solán de Cabras has a smooth, natural taste which makes it an ideal table water. Its naturally low sodium and high magnesium content helps digestion and reduces gastric acid.*

A collage of various wine-related images including vineyards, wineries, and people. The collage features a mix of colors and textures, with some images showing people working in the vineyard and others showing the finished product or the environment.

# Tribaut Schloesser

## Romery, France

Tribaut-Schloesser was founded in 1929 in the heart of the Champagne region in Romery, near Epernay. Four generations of the family have now built upon their passion and expertise to produce a range of impressively delicate and refined Champagnes.

Tribaut's 25ha of vineyards are situated on sunny south west facing slopes in the very best locations between the Montagne de Reims and the Marne Valley. They are planted with the three principal varietals allowing all of their Champagnes to be produced solely with their own grapes.

### **De Linieres**

*traditional elegant champagne, crisp and dry with delicious green apple fruits from the picturesque vineyards overlooking Romery.*

### **Brut Origine**

*40% Pinot Noir, 30% Chardonnay, 30% Pinot Meunier; 8gm dosage; 36 months ageing - is fruity and middle to full bodied, a nose of apple, brioche and hints of apricot.*

### **Blanc de Chardonnay**

*is a 100% varietal with 7.5gm and 48 months ageing; delicate and refined with a precise palate of citrus fruits and a touch of honey rounded out by brioche notes.*

### **Millésime**

*60% Pinot Noir, 40% Chardonnay with 8gm dosage and 4-6 years lees contact - is rich and full of finesse on the nose and a complex, delicate maturity on the palate.*

### **La Cuvée René**

*30% Pinot Noir, 70% Chardonnay. Fermentation in oak barrels, 6-8 years on the lees before disgorgement. A vanilla and hazelnut nose and delicate, toasty flavours.*

### **Rosé**

*shares the same composition as Origine with 10gm dosage; it has a pink salmon colour with enticing red fruit aromas.*

# Masia Can Mayol

## Penedes, Spain

Masia Can Mayol is one of a number of producers who no longer apply the description Cava to their sparkling wines. They are now labelled as 'Methode Traditionnelle' and 'DO Penedès'; a decision based on the desire to guarantee quality. Cava is a 'production' DO administered in Madrid, not a regional one. As an 'appellation', DO Penedès guarantees at least 12 months ageing (not 9 months required for Cava) and allows more autonomous varieties eg Xarel-lo Vermell used in the rosé. Masia Can Mayol believe that under this DO they can become distinct from low quality and low price Cavas.

Located high in the mountains, 50ha of vines are given to environmentally friendly production in 70 year old vineyards. Emphasis is on the traditional Xarel-lo varietal (hence the brand name) whilst Chardonnay and Pinot Noir have been introduced in recent years.

With the know-how of four generations of winemakers to call upon, the vines have a minimal treatment of organic fertiliser once every three to four years with a determination not to over-work the soil. Thus, production is of high quality and low yields in line with their bio-dynamic principles.

### **Loxarel Reserva**

*Xarel-lo, Macabeu and Chardonnay aged over 28 months with no dosage or sulphites added after disgorging. Fruity aromas, light with a fine, crisp mouthfeel.*

### **Saniger Reserva**

*standard blend of Xarel-lo, Macabeu and Parellada with over 15 months ageing and has a fullish rich and rounded style with a little dosage.*

### **Loxarel Reserva Familiar**

*aged for 48 months, made completely by hand and only disgorged when ordered. Light in taste and complex with almond pastry notes, finishing clean and elegant.*

### **999 Rosé**

*is made from Pinot Noir and Xarel-lo Vermell (red Xarel-lo). Bottle aged for 15 months, fairly full in colour and taste, where raspberry and other red fruits dominate.*

# Pablo Padin

## Rias Baixas, Spain

Bodegas Pablo Padín, began making artisanal wine following the traditional methods employed by the family, however, the evolution of their business allowed them to introduce advanced technology and modern infrastructures, whose results are high quality Albariño wines.

Part of this innovation lies in experimentation, none more so than in their decision to create the first sparkling Albariño - an original concept for Rías Baixas wines and a surprisingly successful wine, full of personality.

The grapes are picked by hand, and production is limited to just a few hundred cases each vintage. Quality and character is assured by being made according to the traditional Méthode Champenoise producing its secondary fermentation in bottle

Feitizo da Noite means 'Spell of the Night', in Galician, and evokes the enigmatic and intriguing essence of a sparkling Albariño; the magic trapped in its bubbles and its elegant, seductive and sophisticated nature, without forgetting its Galician roots.

The 'Gato Negro' references the magical Black Cat, so often the companion of the Bruja (witch) in Galician, and Western European folklore.

### Awards Feitizo

Silver - Concours des Oenologues de France 2015

Bronze - International Wine Challenge 2015

Bronze - Decanter World Wine Awards 2015

### *Feitizo da Noite - Albariño*

*sparkling Brut; a fresh wine, with a very refined character notable for its creamy mouth-feel and a light crispness that makes it perfect to drink as an aperitif or accompanying light foods.*

# Ora Wine Group

## Veneto, Italy

The Ora Wine Project was born in late summer 2010 during a convivial aperitif whilst viewing the stunning landscape of the Prosecco Superiore vineyards from Cison di Valmarino's Castelbrando restaurant. Young founders and school friends Elia Dal Cin and Mattia Solinas (pictured right) were both born in the famous Conegliano-Valdobbiadene DCG area.

Elia became an art student and interior designer. Mattia studied five years at Royal School of Viticulture and Oenology in Conegliano and then Economics and Management. Their idea, vision and dream was of an innovative and dynamic approach with a brand that can best represent them - artistically and viticulturally - and promote their own birthplace.

Ora own 16ha in Conegliano-Valdobbiadene, though as they are bottled outside the area they have only a DOC designation. Optimum winemaking techniques are used: harvest is by hand, the best grapes are carefully selected and the most modern vinification of the 'charmat' method is employed.

'Fuoribolla' is an expression used in Veneto to indicate a non perfect inclination of a plane and surface but also, figuratively, to address a person who thinks and acts in unconventional ways, 'outside of the box'.

"Imperfection is the new perfection" is the wine's motto. As bubbles don't follow a fixed and predetermined path, elegance and perfection can be reached by unpredictable and imperfect ways.

Fuoribolla is Mattia and Elia's homage to the 'creative insanity' that distinguishes their young and unconventional style and approach to wines.

### **Fuoribolla - Glera**

*made by the Martionotti-Charmat method from 100% Glera (Prosecco) grapes with 12g/ltr. Typical fruity notes of apple, peach and flowers like acacia; it is dry, fresh, light in body and well-balanced.*

# Mionetto

## Veneto, Italy

The origins of Prosecco have ancient roots and date back at least as far as Roman times. The success of the wine, even in those ancient days, has given a strong boost to the development of viticulture and enology in the whole north-east of Italy.

Mionetto are based in the beautiful hills of Valdobbiadene, founded in 1887 by inspired master winemaker Francesco Mionetto. Coupled with close ties to the culture of its native region, his legacy continues to be reflected in the La Pieve and Mionetto labels.

In its 130 years of history, Mionetto has become a flagship for the area and a shining example of Prosecco production on the international scene.

Passion, tradition, research and excellence are the fundamental values of this unique winery and brand, with its unmistakable style.

### **La Pieve Spumante**

*La Pieve has a straw yellow colour with an intense and characteristic floral fragrance. It is fresh, harmonious and pleasantly lively on the palate.*

*Also available as Frizzante in screwcap*

### **Mionetto Vivo Rose**

*is a lovely sparkling wine that is deeply coloured and soft textured with plenty of sweet fruit character and a gentle fizz.*

# Bodegas Budeguer

## Mendoza, Argentina

The Budeguer family have their roots in sugar cane production in the Tucumán region of Argentina. Juan José Budeguer realised his dream to have his own winery when, in 2005, 100ha of land in Maipú was purchased and planted with vines. The first harvest was in 2008 and they began building their own winery in Agrelo, 35km south of Mendoza City, in 2011.

Water for irrigation is drawn from a specially constructed reservoir and the Andes, 60-100km away, form an impressive backdrop to the winery. Winemaker Juan Manuel Mallea, previously worked worldwide in wineries from Ribera del Duero to Australia. He has been in charge since the first harvest and 2012 saw Budeguer awarded the accolade of Best New Mendoza Winery.

Grapes for Tucumen Malbec and Cabernet come from their 110ha estate in Maipú (they have a further 20ha in Agrelo). The soils are silty, alluvial sand, and river rock, the climate Continental and warmer than other parts of the region.

Taking its name from the Budeguer family home in TUCUmán and their winery home in MENDOza, the Tucumen label was commissioned from leading designer Guillo Milia. The colours are inspired by the painted houses of the old town of Boca, and the typefaces from old street posters of the 1930s and 40s with the aim to reflect both the Mendoza and Tucumán regions. The collage conveys the cultures, styles, colours and textures of the two lands whilst highlighting the exciting, bright, fun and expressive nature of the wines.

### **Tucumen - Malbec**

*is vinified to a medium intensity to emphasise fruit and softness; a short contact with new American oak gives light vanilla and toast notes making a very approachable style of Malbec.*

### **Tucumen - Cabernet Sauvignon**

*has spicy and pepper notes along with black fruits and eucalyptus; vanilla from the American oak is well integrated and adds to the sweet and delicate impact of its tannins.*

# San Juan de la Frontera

## San Juan, Argentina

San Juan de la Frontera is a close-knit family business who can trace their credentials back to their winemaking grandfather who emigrated to Argentina from Italy in the late 1900s. Their father bought their first vineyards in 1977 and in 2002 they added a winery. This dated from the 1950's so was kitted out with modern, Italian made, equipment.

San Juan de la Frontera is located in the Tulum Valley at the foot of the Andes. It has a semi-desert climate and vines depend on snow melt from the mountains for irrigation, which is drawn from rivers and underground.

The vineyard's focus on Malbec - 54ha are planted, along with 18ha of Cabernet Sauvignon and 15ha of Tannat. There are smaller areas of Cabernet Franc, Petit Verdot, Tempranillo and, as befits their Italian heritage, Bonarda and Aglianico. A minimum use of chemicals is practiced in the vineyards.

The winery, overseen by Carlos, head winemaker who has been in charge since 2002, is capable of vinifying up to 2.5million litres and only grapes grown in their own estates are used for their wines.

The consultant winemaker is Daniel Ekkert, previously with Cruz de Piedra and Bodegas Argento, and renowned for his work with the Malbec varietal.

There are two contrasting labels - the classically designed Incienso or the more contemporary looking Scribble.

### *Incienso - Malbec*

*with 5% Tannat added, is soft and nicely balanced between sweet fruit and dry tannins. Black fruits, spice and mocha entice the nose and palate which is rounded off with creamy vanilla notes.*

# Bodegas Fincas Patagonicas

## Mendoza, Argentina

Fincas Patagonicas was built in 1999 when the Californian company Kendall Jackson expanded into Argentina. The winery was bought in 2003 by the Argentine family Ortiz who already had vineyards in the region.

They have successfully changed the direction of the Tapiz brand, from one aimed at the American market to wines with international appeal. Tapiz markets itself as “Argentine heritage with cosmopolitan flair” showcasing the extraordinary qualities of contemporary Argentine winemaking.

A combination of a diversity of terroir in 140ha of vineyards, one of the most technological wineries in Argentina and an emphasis on quality fruit and structure has produced a range of classically styled, award winning wines. They can be considered as textbook interpretations of the varietals. Jean Claude Berrouet, winemaker at Ch. Petrus from 1964 - 2007, now acts as a consultant both to Tapiz and to the famous Bordeaux Château.

### *Tapiz - Torrontés*

*reveals delicate and intense aromas of flowers and tropical fruits. It is fresh and well balanced with a round and persistent finish.*

### *Tapiz Rosé - Malbec*

*an intense rosé colour; a seductive nose with a full fruit character, touches of ripe cherries and delicate floral hues. Fresh, balanced with a long aftertaste.*

### *Tapiz - Malbec*

*8 months in oak with an exceptional concentration of fruit. A powerful nose with aromas of red berries, black fruits and raspberries plus a good firm structure.*

### *Tapiz Reserve - Malbec*

*14 months ageing in French and American oak; aromas of red mature fruit combined with touches of vanilla and chocolate. Smooth in the mouthfeel, balanced, with velvety and sweet tannins.*

# Byrne Vineyards

## South Australia

Byrne Vineyards has resulted from three generations of hard toil in the vineyards. In 1963, Eric and Romla Byrne purchased the Devlin's Pound property near Overland Corner in South Australia and planted this limestone based vineyard to a range of grape varieties, most notably Shiraz, Cabernet and Chardonnay. In 1995 they acquired the Morgan (Scotts Creek) vineyard which was established by then owners Penfold's, under the guidance of Max Schubert, during the 1970s. Due its close proximity to the Barossa, excellent limestone soils and ideal climate these vineyards were for premium wine production.

So, having originally grown grapes for other major wineries, Byrne Vineyards started producing its own wines from the estate vineyards in 2008. It has gone from strength to strength winning many accolades.

Eric and Romla's sons Rob and Terry Byrne are now joined by Rob's daughter Petria and have continued the family passion for wine, vineyards and viticulture, Winemaker Peter Gajewski brings a wealth of experience to his role including a term as senior winemaker at Penfolds.

Woolpunda originates from a beautiful vineyard with breathtaking views once used for sheep farming - the word Punda means water.

### **Woolpunda - Chardonnay**

*Delicate straw in colour, with a fragrant honeydew melon and perfumed citrus blossom aromas lead to consistent flavours of melon and stone fruits. Providing a mouth filling palate with a lingering finish.*

### **Woolpunda - Shiraz**

*Deep crimson in colour, with ripe cassis and plum aromas, accompanied by spices and subtle oak. A full bodied palate intense with raspberry and mulberry fruits and with anise and mocha accents.*

### **Woolpunda - Cabernet Sauvignon**

*Dark cherry red with juicy blackberry fruit aromas that have soft notes of vanilla and cedar. Full bodied and rich, with smooth hints of French oak, are ideal with barbecued meats and stir fries.*

# McPherson Wines

## South East Australia

McPherson Wines had its beginnings in 1968 when Andrew McPherson, with his father Jock, first started winemaking, swiftly earning a reputation as true innovators in the country's blossoming wine industry.

In 1974, Andrew began winemaking in his own right, and has spent his working life to date in the wine industry. He lives in the beautiful hills of the Strathbogie Ranges overlooking the vines that grow their most famous wine, the Basilisk Shiraz Mourvedre.

1993 saw the establishment of McPhersons first vineyard holdings in the Murray Darling region near Mildura. The Murray Darling is so named for the two great rivers that run through the region the Murray River and the Darling River. One of the most significant grape growing areas in Australia, the region is over 350km wide (east to west) and is renowned for its production of soft, generously flavoured wines - giving consistency, reliability and value for money.

The winery is situated just outside the town of Nagambie in Central Victoria. Winemaker Jo Nash worked under Andrew McPherson's tutelage, and in 2011 she was appointed chief winemaker at McPherson Wines.

McPherson Wines provide the juice for these wines in line with their uncompromising quest for quality and commitment. Over the years they have maintained the high standard of winemaking and aim to consistently over deliver at every price point.

### **Scribble - Verdelho**

*plenty of pineapple and tropical fruit - create your own tasting notes or scribble oodles of doodles!*

### **Water Stop - Chardonnay**

*ripe flavours of melon and peaches, a full texture and yet a crisp and nicely rounded feel.*

### **Water Stop - Shiraz**

*soft and rounded with ripe plums and blackberries and a light spicy twist to end with.*

# Sevenhill Cellars

## Clare Valley, Australia

Sevenhill Cellars were the first winery to be established in the Clare Valley. In 1851 a small number of Austrian immigrants purchased 100 acres of land, naming it Sevenhills after the seven hills of Rome.

The first grapes grown by the Society of Jesus (Jesuits) were to provide sacramental wine. Sevenhill are the only remaining Jesuit-owned winery in Australia, the wines support their Missions charitable work.

The now 72ha of vineyards are planted with 20 grape varieties, the average age of the low yield vines is 75 years. An altitude of 400m ensures cool nights during the hot summer months, critical to the rich and concentrated ripening of the fruit.

Winemaker Liz joined Sevenhill Cellars for the 2006 vintage and immediately made her mark winning International Awards on her first vintages.

### **Four Buckets - Chardonnay**

*unoaked with lifted aromas of grapefruit and citrus peel, followed by delightful flavours of lemon, vanilla and honeydew melon on the palate. The finish is crisp.*

### **Four Buckets - Touriga Nacional/Shiraz/Malbec**

*an easy-drinking, mellow blend of medium weight with a deep, inky colour, attractive plum and red berry fruit and spicy tannins with earthy notes on the palate.*

### **St Ignatius - Cab Sauv/Merlot/Malbec/ Cab Franc**

*An elegant, classic 'Bordeaux blend' made from premium fruit and aged in old and new French oak. Dense, dark berry flavours and concentrated spicy fruits finished with smooth vanilla oak.*

### **Brother John May - Shiraz**

*Br. John May, Jesuit Winemaker, has personally selected this Shiraz as being the finest red wine made at Sevenhill from the vintage. Old vines and craft winemaking including fermentation in open slate vats and basket pressing.*

# Sevenhill Cellars

## Clare Valley, Australia

The Inigo range honours St Ignatius, the Jesuits' founder and features estate grown single varietals. The label's deep grey colour was chosen to connect with the widely seen local slate - used not just as building materials but for the unique, and irreplaceable, slate vats and fermenters that are perfect for controlling the temperature during the winemaking.

At Sevenhill, they combine the natural advantages of the region's climate and terroir with a commitment to maintaining low yields from their 95 hectares of vineyards. This approach means their winemakers work with fruit that is rich and concentrated, qualities that flow through to the elegant flavour and structure of our wines

The Inigo range are a perfect representation of that methodology..

### *Inigo - Riesling*

*A typical cool climate style with just 2gm residual sugar: highly aromatic orange and honey blossom is followed by a crisp palate.*

### *Inigo - Verdelho*

*Clare's climate has many similarities with the Portuguese region producing much riper Verdelho wines; fresh and vibrant with a fruit sweetness.*

### *Inigo - Barbera*

*Low cropping (70% of the young bunches are discarded) with higher tannins than the softer Italian style; aromatic bouquet of sweet spices with herbal notes.*

### *Inigo - Shiraz*

*Plots of Sevenhill Shiraz vines are 170 years old, some of the oldest in Australia, pre-dating phylloxera. Wonderfully concentrated with plenty of ripe fruit.*

### *Inigo - Cabernet Sauvignon*

*Often regarded as Clare Valley's finest red, matured in French oak barrels; prominent red berry fruits with hints of violets and a palate of blackcurrant and spice.*

# Chaffey Bros.

## Eden Valley, Australia

Chaffey Bros. Wine Co. are winemaking brothers-in-law Daniel Chaffey Hartwig and Theo Engela. Daniel is the most recent of the Chaffey descendants to ply their ancient trade.

Barossa born and bred, he was immersed in the wine business from an early age and spent 11 years working as a wine consultant to Australia's leading winemakers.

The creation of Chaffey Bros. Wine Co. represents the fruition of a life long dream. In 2012, Daniel was joined by brother-in-law Theo as the other "Chaffey Brother".

Their wines make statements as bold as the avant-garde labels! Minimal intervention winemaking emphasises pure structured fruit and utilises the lost art of judicious small batch blending. The results epitomise the new style of Barossa and Eden Valleys.

The Eden Valley is a unique region where the Riesling vine can interpret the rocky soils with an extraordinary interplay of floral aromas, steely minerality and lemon and lime acidity.

This expressive grape rewards winemaking restraint to deliver detailed and compelling flavours. The resulting wine retains a purity of fruit that accurately reflects how delicious the ripe grapes are on the vine.

*Not Your Grandma's - Riesling*  
an aromatic lift of lemongrass and lime combines with a light spritz on the palate, which delivers quite powerful fruit with a lovely length and a minerality and apple blossom finish.

# Vina Indomita

## Valle Central, Chile

Viña Indomita was founded with a specific objective to differentiate itself from other major Chilean wine producers. Led by Roberto Carranca, the young and dynamic winemaking team at Indomita skillfully craft wines from a stunning new winery, perched overlooking the vineyards with cellars partially built into the hillside.

State-of-the-art thermostatic stainless steel tanks control the fermentation process to the utmost degree and the results are of consistent high quality..

'Cantus' is latin for 'Singing' and was used as an adjective for any organised activity when mixing traditional folk singing with drinking! These loose traditions harkback to the early Middle Ages in Europe and which these same Europeans brought with them to Latin America.

The Cantus range are designed to offer tasty, straight forward and accessible single varietal wines, perfect for sipping and singing.

**Cantus - Sauvignon Blanc**  
*has an intense, expressive citrus nose and wonderful fruit balanced with delicate herbaceous notes.*

**Cantus - Chardonnay**  
*is wonderfully fresh and fruity - full of delicious, ripe, peachy flavours and a lively, zesty, mouthfeel.*

**Cantus Rosé - Cabernet Sauvignon**  
*is ruby pink coloured, fresh and fruity on the nose with mouthfilling red fruits giving a silky soft finish.*

**Cantus - Merlot**  
*has well defined varietal aromas with plenty of plum and blackcurrant fruit: a fruity, easy drinking wine.*

**Cantus - Cabernet Sauvignon**  
*incredibly pure and ripe fruit with rich cassis and sweet spices; subtle tannins and the finish rounded.*

# Sutil Family Wines

## Valle Central, Chile

Sutil is a family owned company which has been in constant search of quality in their wines. The wines they make are a clear expression of a very committed team who work with the best fruit coming from the most well-known wine producing regions in Chile.

The winery was founded by Juan Sutil and Diego Garcia de la Huerta, who was the lead winemaker until his death in 2010. The Sutil family remain directly involved in the business on a daily basis. Juan Sutil's passion for wine encouraged him to start planting vines in the early 80s and establish Viña Sutil in 2000.

Located in Peralillo, in the heart of the Colchagua valley, with over 500ha planted in Chile's best known regions, the winery receives fruit from surrounding vineyards and areas. It has a large capacity - 7,179,000 ltr, - a proportion of which is matured in French and American oak barrels.

The wines are blended from the Limarí, Maipo, and Colchagua Valleys and offer tremendous delicacy and complexity that demonstrate the authenticity of their enology.

Rayun is a word that a native Chilean people, the Mapuche, use to talk about the flowering of a plant, or to wish good portents. The word itself means "Bloom"; for Sutil, Rayun is the birth of a new wine that wishes well to everyone who drinks it!

### **Scribble** - Malbec

*bright, characterful and cheerful - create your own tasting notes or scribble oodles of doodles!*

### **Rayun** - Sauvignon Blanc

*has aromas of pineapple, and citrus, a striking clean palate with balanced acidity and a good aftertaste.*

### **Rayun** - Merlot

*exhibits a bouquet of cherry and raspberry and some floral notes. A balanced wine for very easy drinking.*

# Vina Indomita

## Casablanca & Maipo, Chile

The spirit of Viña Indómita is present in every corner of its imposing winery constructed in Casablanca that offers unrivalled views to the valley and a barrel cellar dug into the hill where guests can appreciate sophisticated wines that reflect the land and region where they are grown.

The winery works hard to protect the environment including; the generation of renewable energies; measures geared at using resources like water and energy efficiently; the use of light bottles to reduce carbon emissions and conservation programmes to protect the native forest, flora and fauna.

The Indomita winery is 80km from Santiago and 40km from Valparaiso on the coast. It has 400ha of vineyards in Maipo - famous for its Carmenère production - and 200ha in Casablanca - the cool climate region that excels in growing Sauvignon Blanc and Pinot Noir.

The Cantus Reserva levels offers a quality upgrade for the basic entry level varietals. Often produced with first press juice, hand selected vineyard plots and with longer ageing in bottle before release.

They offer a significant increase in ripeness, character and fruit, without compromising on price.

**Cantus Reserva - Sauvignon Blanc** is pure, exuberant and fruity. Packed full of grassy, tropical fruit with a lovely tangy finish - an impressive 'step-up' from entry level Sauvignon.

**Cantus Reserva - Pinot Noir** shows wild strawberry and raspberry fruits dominating a soft palate which leads through to an assertive finish with hints of raspberry and vanilla.

**Cantus Reserva - Carmenère** has concentrated, plummy fruit, touches of chocolate and spice. The palate is full bodied and the finish has good tannins and structure.

# Sutil Family Wines

## Casablanca, Limari, Maipo, & Colchagua, Chile

Chono was pioneered by Sutil's famous winemaker Alvaro Espinoza. He was awarded the International Wine Challenge "Wine Personality of the Year" in 2007. Over time he developed a wine philosophy that Chile had exceptional regional potential that required very specific planting and matching of grape to soil.

Chono wines represent the nomadic spirit of viticulture that invites us on an adventure through Chile's finest terroirs in constant search for new places and experiences. These wines come from specific blocks of vineyards in the Limari, Casablanca, Colchagua, and Maipo Valleys.

Chono is, therefore, a proposition of terroirs, where each variety comes from very careful lot selection of the best grapes from the best regions. They are Single Vineyard wines of great expression that lead consumers to an amazing journey along the most important and well-known D.O.s of Chile.

**Chono - Sauvignon Blanc**  
has an extremely expressive nose with aromas of grapefruit, asparagus and green pepper. It is juicy and very fresh with a pleasant and balanced crispness.

**Chono - Carmenère**  
plum, blackberry and cassis aromas plus hints of spice and black pepper. 12 months in French and American oak gives a soft, rounded wine with pleasant tannins.

**Chono - Syrah**  
is made in an elegant style with velvety tannins from 12 months in oak. It gives floral and lavender aromas plus smokey notes within the usual ripe fruit and spice.

**Chono - Cabernet Sauvignon**  
a plethora of cherries, raspberries, vanilla, coconut and spice with a hint of cinnamon. Its elegant toasted notes from 12 months in oak confer potency and complexity.

# Octerra

## Languedoc, France

Les Grand Chais de France is the No.1 privately owned winemaker in France. Founded by Joseph Helfrich in 1979, they have been making wines in the Languedoc-Roussillon region for nearly 30 years.

Gently rocked by the Tramontane and Marin winds, the vineyards benefit from an ideal Mediterranean climate and a kaleidoscope of soils of different hues.

Octerra is a perfect blend of 2 classic Languedoc white grapes; Chardonnay & Viognier. Designed to be an accesible, fruit driven white suitable for any occasion.

*Octerra - Chardonnay/Viognier displaying the characteristics of these varietals, the wine has a fine, fruity bouquet and delicious notes of tropical fruits and a harmonious and crisp finish.*

# Les Vignerons

## Languedoc, France

From the vine to the barrel, the vinification of the wine is monitored by seasoned oenologists who are always ready to take up new challenges – a passion shared by all with the aim of achieving the very best in terms of the typicality and quality for our wine.

They work every day to cultivate their vineyards, respecting nature and using sustainable wine-growing techniques to maintain a fine balance between tradition, knowledge and technology.

Les Vignerons is literally 'The Vintners' blend of 2 classic Languedoc red grapes Carignan & Syrah. Designed to be a soft, spicy red suitable for any occasion.

*Les Vignerons - Carignan/Syrah the powerful structure of Carignan is blended with a fruity Syrah giving a soft berried wine that finishes with a silky mouthfeel.*

# Laurent Miquel

## Languedoc, France

Laurent Miquel is a family-run estate based at Château Cazal Viel in Saint Chinian, originally acquired in 1791, which had previously been farmed by the monks of the nearby Abbey of Fontcaude. They also have another property, Château Les Auzines in Corbières.

Their drive towards quality began in the 1970s. Henri Miquel planted many new Syrah vines and rejuvenated old ones. Earning himself the title of “Mr Syrah” he delivered his first solo vintage in 1980. In 1996 Henri was joined by his son Laurent, the 8th generation winemaker, as the first plantings of the Viognier vines began to show great promise.

Their wines have been highly praised by Tim Atkin and Jancis Robinson from “the most reliable and forward looking winery in the Languedoc”.

### *Père et Fils - Chardonnay*

*matured on the lees in stainless steel tanks and light filtration before bottling: expressive aromas of exotic fruits with a hint of fennel and a long buttery finish.*

### *Solas - Viognier*

*well-balanced with medium body. Aromas of stone fruits with hints of almond and honeysuckle and characteristic fruit flavours of apricot and peach.*

### *Père et Fils Rosé - Cinsault Syrah*

*pale pink in colour, this blend epitomises the best of southern French rosés, with a fresh, smooth texture and delicious red fruit flavours.*

### *Père et Fils - Merlot*

*aged for 3 months in oak; light-medium bodied with some herbacious notes on the nose, showing berry fruit on the palate and soft tannins on the finish.*

### *Solas - Syrah*

*aged for 6 months in oak barrels (20%); comparatively light nose and soft palate, its toned down spice and pepper character gives more focus to the berried fruits.*

# Hecht & Bannier

## Languedoc, France

Maison Hecht & Bannier is a 'Negociant Eleveur' dedicated to sourcing and then blending wines from the Mediterranean regions. They started in 2001 with partners Gregory Hecht and François Bannier assembling four cuvées of Southern France appellations.

Convinced that the Roussillon to Provence region has not yet received the international recognition that it deserves for its quality and diverse vineyards, they have expanded their passion for blending and now visit hundreds of producers to select the best juice. Often the grapes come from vineyards in the cooler foothills where it isn't unusual to see hundred year-old vines.

The goal is to have the H&B label become the bench-mark for wines in a range of appellations, allowing wine-lovers to discover the extraordinary quality and wealth of the region.

Each blend is usually based on 5 to 10 samples from the 15-30 that have been pre-selected; some very good wines are rejected because they do not express H&B's vision of the appellation. The blend can change between vintages to remain true to each specific geographical origin, while emphasising particularly successful grapes or vineyards in each harvest.

Once the long selection process has come to an end, H&B then begin to create the blends and decide the 'elevage' options. The overriding aim is to conserve the typical Mediterranean strength in their wines while preserving balance and vitality for all the appellations produced.

**H&B Blanc** - Picpoul/Roussanne/Grenache Blanc  
Picpoul brings its vivid character, which, blended with the Roussanne's fullness delivers citrus fruits and white flower notes, that combine perfectly in an aromatic nose and rounded palate.

**H&B Rouge** - Syrah/Grenache/Carignan  
a fruit driven wine, that's matured exclusively in concrete tanks without any use of barrels, a lovely wine that reveals notes of red fruits and then spicy and peppery shades.

# Clos La Coutale

## Cahors, France

Clos La Coutale dates from 1850 and was replanted in 1885, 15 years after the phylloxera epidemic destroyed the entire Cahors region. It now covers 60ha and under the leadership of passionate winemaker Philippe Bernède has led a 30 year journey from tradition to modernity.

The vineyards stand on the alluvial floor of the Lot river. Its soil is particularly suitable for vines, for it contains gravels, silicates and limestone clays. Because of the lie of the land, facing south-west, the estate is sheltered from the cold winds that blow from the "Causses" region (an upland plateau), and consequently it enjoys a micro-climate which ensures that the vines and their fruit fully ripen early in the season.

The vines have an average age of 25 years and are grown organically without the use of chemical fertiliser or pesticides. The yield is on average 45hl/ha which enables regular quality over the years. According to tradition, the grapes are picked off from the stalks.

The vineyard is divided into a number of parcels, in order to produce a number of carefully selected wines. Each plot is vinified separately with a long maceration. Fermentation is carried out in thermo-controlled vats, and, as befits a wine for laying down, the fermenting process takes place at a temperature of 28°C (80°F) over a period of 15-18 days. Regular "pigeage" (breaking-up of the layer formed on top of the juice) ensure maximum extraction for the bouquet and the fruit. These wines are blended in the January following the harvest and aged in oak casks and barrels for 8 - 10 months to create a full balance between the tannins and the fruit.

The legendary 'Black wine of Cahors' is predominantly made from the Malbec grape - though in this region it is known as Côt or Auxerrois. Way before Argentina made the varietal 'famous', Malbec was an important grape in Bordeaux, and still is in the long-lived wines from Cahors - the 1959 Clos La Coutale is still drinking superbly.

*Clos La Coutale - Malbec/Merlot; made from 80% Malbec and 20% Merlot, the latter adding refinement to the bouquet and softening the power of the former, making it very drinkable in its youth. This wine will age well for up to 10 years.*

# Le Havre de Paix

## Cotes de Gascogne, France

Meaning 'The Haven of Tranquility', Le Havre de Paix evokes images of warmth and sunshine. A traditional rural way of life far removed from the hassle and stress of modern city living.

The region, located between the Landes forest and the Pyrénées mountains, has an oceanic climate which has an ideal balance of sunshine, rain and cool winds.

The white wines from Gascony have a classic light freshness, somewhat reminiscent of White Bordeaux, but with a soft, smooth character.

Perfect House White

### *Le Havre de Paix Blanc*

*well balanced with aromas of pear and apple, the palate is crisp and softly fruited with a lemon zest finish.*

# Le Havre de Paix

## Aude, France

Here Le Havre de Paix references the beautiful rolling hills, coastal lagoons and hills of the Aude region of South West France, which includes the ancient cities of Carcassonne and Narbonne and the wine regions Minervois and Corbières where grapes have been cultivated for nearly 2000 years.

The grapes are sourced from vineyards in Languedoc-Roussillon regions, from light, sandy, alluvial soils.

The reds of Aude are classically light, fruity and easy drinking.

Perfect House Red..

### *Le Havre de Paix Rouge - Grenache/Syrah*

*soft, easy drinking, fruity wine of plum and damson fruit backed by a little spice and tannin on the finish.*

# Les Vignobles Montagnac

## Picpoul de Pinet, France

Located in the historic centre of Languedoc, Vignobles Montagnac have been producing wine since 1937, comprising 500 winemakers from 8 communes farming 2000ha of vineyards.

The AC Picpoul de Pinet is a small area dedicated to growing the varietal. Set on a plateau just a few miles from the coast it is bordered by the Thau sea-lake on the south side and cliffs to the north into which the Hérault river has carved out deep gorges. The humid winds from the sea help the late maturation of the grape, and this, along with the limestone soils, makes for a zesty and aromatic wine.

*Dom. de la Serre - Picpoul is harvested at night to ensure maximum crispness of the fruit. This Picpoul is a delightful white wine, full of citrus vitality with a mineral backbone and a zippy, clean acidity.*

# Hecht & Bannier

## Cotes de Provence, France

H&B's grapes for this rosé are selected from the cooler parts of the upper Provence vineyards. The higher altitudes also allow a full maturity without excessive sugar. The blend is completed with grapes from the limestone foothills that add some minerality; and Cinsault, planted a few metres from the Mediterranean Sea, brings a subtle, salty and anise expression.

Vines are harvested at night between 3.00 - 9.00am in order to avoid oxidation and to preserve the fresh characteristics of the terroir and varietal. The Grenache and Syrah are macerated together in concrete and stainless steel tanks.

*H&B Rosé - Grenache|Cinsault|Syrah a delightful pale pink rose with expressive floral notes backed by fennel and anise. It offers immense charm and minerality on the finish. The glass stopper makes for an innovative, faultless, closure.*

# Vignerons Ardechois

## Ardeche, France

Vignerons Ardéchois is a group of co-operative wineries created in 1967 and comprises of 14 cellars located in the southern half of the Ardèche. Most of the grapes harvested by its 1,500 members are transformed into wine at one of these sites. It is the largest single wine producer in the Rhône. Its control of 6,500ha of vineyards accounts for 85% of the vines planted in IGP Ardèche (formally Vin de Pays des Côtesaux de l'Ardèche). It produces around 70% of all IGP wines within the Rhône-Alpes region and also AOC wines of Côtes du Rhône and Côtes du Vivarais.

The Ardèche borders the west of the Rhône. In the 1960s substantial government grants encouraged the returning 'pieds noirs' of Algeria to replant the vineyards. The harsh stony soils of the area are extremely fertile, allowing a large annual production without compromising quality.

"We are aiming for wine which has good fruit, an elegant palate and balance on the finish" states winemaker Luc Tallaron. Red grapes are sourced from sandstone terraces around the village of Rosières and white grapes from the limestone soils of Alba and Vogue.

**Les Terrasses White** - Sauvignon/Grenache  
boasts appetising floral and fruity aromas; the palate is fresh, with mineral nuances and discreet citrus notes.

**Cuvée Orélie** - Sauvignon/Chardonnay  
light and supple with floral and grassy characteristics mixing with citrus flavours on the palate.

**Les Terrasses Rosé** - Grenache/Syrah  
is bright and vibrant; the fragrant bouquet exhales fruity aromas and the finish is dry.

**Gris de Cabernet** - Cabernet Sauvignon  
has a light pink-orange hue with aromas of red and black fruits and a round and fresh finish.

**Les Terrasses Red** - Merlot/Syrah  
is deep in both colour and taste; the palate is lively with a good, robust fruit driven structure.

# Cave d'Estezargues

## Rhone, France

Founded in 1965, Les Vignerons d'Estézargues is located in the Gard département on the 'wrong' side of the Rhône, some 20km west of Avignon. It handles fruit sourced from almost 400ha of vines, mostly classified as either Côtes du Rhône or Côtes du Rhône Villages Signargues.

Unlike on the right bank of the river, the vineyards here are more dispersed and tend to be located in smaller pockets, often within individual clos, and surrounded by woodland. Rather than the monoculture of the plains to the east, the terrain here is more undulating with some moderate slopes. Whilst it is possible to find the typical galets (shingle stones) of the region, the soils here are made up more of red clay and pebbles.

During the early 1990s, the co-operative moved towards a more qualitative approach and rather than selling wine off in bulk, began to concentrate on bottled sales, creating a range of ten individual domaine wines, sourced from the most significant members.

In the cellar, only natural yeast fermentations are employed and sulphur levels are kept to an absolute minimum. Neither is there any fining or filtration on any of the red wines. Being one of the warmer pockets of the southern Rhône, the vines tend not to be under too much threat from rot and the crop arrives at the cellar in a healthy condition, which helps negate the use of additives; the natural alcohol and tannins within the wines adding to their stability.

**Coteaux du Pont du Garde** - Grenache/Syrah  
an organic IGP blend with a forceful nose of pepper and liquorice and chewy, jammy prune and hedgerow fruits on the palate. The finish is smooth and slightly lighter with integrated tannins.

**Côtes du Rhône** - Grenache/Syrah/Mourvèdre  
50% Grenache, 30% Syrah and 20% Mourvèdre blend gives a medium bodied wine with forward pepper and spice notes, a touch of liquorice and sweet fruit moving through to a mouth covering tarry finish.

# Chateau Fargueriol

## Rhone, France

Châteauneuf-du-Pape is the largest and most important appellation in the southern Rhône, with over 3,000 hectares of vineyards and easily 80 independent growers. Châteauneuf-du-Pape produces more wine than the rest of northern Rhône in total.

The name literally translates to “The Pope’s New Castle” and, indeed, the history of this appellation became firmly entwined with papal history when Pope Clement V relocated the papacy to the town of Avignon in 1308.

This classic wine region famously produces marvelously ripe red wines, perfectly combining both the heat and herbs of the south. This basic style is then enhanced by the blending of the 14 permitted grape varieties allowed, which includes Grenache, Mourvèdre and Syrah.

The characteristic terroir of Châteauneuf comes from a layer of stones called “galets” (pebbles). The rocks are remnants of Alpine glaciers that have been smoothed over millennia by the Rhône. The stone retains heat during the day and releases it at night which can have an effect of hastening the ripening of grapes. The stones can also serve as a protective layer to help retain moisture in the soil during the dry summer months.

Château Fargueirol and the Revoltier family have long wine connections. The Revoltiers have been wine producers since 1340. Back in the 17th century they owned Château Fargueirol although they had to leave during the French Revolution. Joseph Revoltier returned in 1974, during a time of wine crisis, to buy the old estate that included 10ha of vineyards. They have now tripled the cultivated area thanks to hard work and dedication, and have a traditional approach while keeping an open mind to employing modern techniques.

### *Ch. Fargueirol, Chateauneuf du Pape*

*60% Grenache, 20% Syrah 10% Mourvèdre and 10% others - each varietal vinified separately with 6-9 months maturation in large oak barrels. Black cherry and spice nose, long and fruity palate, leathery finish. Ready to drink but can benefit from years in the cellar.*

# Chateau Comigne

## Corbieres, France

Château de Comigne is blended from several grape varieties that will vary from vintage to vintage. Aged in oak barrels, the wine has good storage potential and optimum drinking is 3-5 years after release.

The vineyards from which the grapes are harvested include those of Château de Comyn. This estate was built in the XIII century for Louis XV and restored after Napoleon. Initially, it was the summer residence of French monarchs and used for hunting events, thanks to proximity of the forest. The estate has since been divided among several owners, but many historic buildings are still preserved including the church, manor house and former home of the priest.

**Ch. Comigne** - 30% Carignan, 30% Syrah, 20% Grenache, 10% Mourvèdre, 10% Cinsault.  
*intense, full and round, with hints of pepper and spices.  
The tannic structure is rich and smooth, which gives the wine a good ageing potential of five years.*

## Hecht & Bannier

### Minervois, France

H&B Minervois expresses the sun-filled and spicy personality of Syrah in harmony with the softness of Grenache and the intensity of Carignan. 70% of the blend is aged in new, first and second year oak barrels of differing sizes.

Most of the grapes are sourced from the dry areas of Les Mourels and Les Coteaux where the vines grow, along with the garrigue, on sandstone soils that are less sensitive to dryness. To the west, Syrah is planted in cooler places which take advantage of the oceanic influences. Growing on limestone clay soils, these grapes are able to withstand a dry year thanks to the clay subsoil's water retention capacity. .

*H&B Minervois - Syrah|Grenache|Carignan reveals intense berry fruit flavors dominated by the rich and peppery Syrah; this wine is exceptionally soft with silky fruitiness coming from the Grenache.*

## Hecht & Bannier

### Maury, France

Maury - a dark dessert wine - is made from very old and very low yielding vines of Grenache Noir, these grapes providing very high levels of concentration.

There is a skill to find balance in a wine which possesses a high level of sugar. This is achieved in two ways. Firstly the fermentation is stopped at a relatively low level of residual sugar (less than 100gr/l). Secondly, grapes with a deep tannic structure are selected and made into a big, dense wine whose fermentation is stopped by the addition of pure alcohol. After blending and ageing in oak casks, H&B Maury finds a perfect balance between sugar and tannins without a high acidity level.

*H&B Maury - Grenache aromas of cherry, gingerbread and bramble, a palate of dark and candied fruit. Immediately enjoyable, it promises a long evolution and keeping for several decades, which will see it gain in complexity and richness.*

# Alliance Loire

## Haut-Poitou, Loire, France

The Loire Valley is among the oldest wine regions in Western Europe, with archaeological evidence of vineyard plantations around the Nantes area in Roman Times.

The Loire river, some 1000km long, has a significant effect on the mesoclimate of the region, adding the necessary extra few degrees of temperature that allows grapes to grow when the areas to the north and south of the Loire Valley have shown to be unfavourable to viticulture.

A characteristic of many Loire wines (both red and white) is the high acidity which highlights the fresh, crisp flavours of their youth, but many can also develop further complex characteristics with some bottle age.

AOC status was granted to Haut-Poitou in 2011 and covers a fairly small area of 186ha hectares of vineyards to the north of Poitiers in the Vienne - this is less than 20% of the total vines planted in the region

The vineyards are mostly on hillsides or the folds of the plateaux for a better exposure to the sun. These "fiefs de vigne" are a grouping of vineyards in islets and is characteristic of the Haut-Poitou region,

Haut-Poitou lies a short distance to the south of the Loire Valley, near the town of Neuville-de-Poitou. Here the Sauvignon Blanc grape offers much of the character of a Touraine, but with exceptional value compared with the grand Sancerre or Pouilly-Fume.

Le Bois de la Tour is the result of a rigorous selection in the 10ha vineyard.

***Le Bois de la Tour** - Sauvignon Blanc  
very intense with aromas of lemon and exotic fruits  
with a crisp, citrus, mouthwatering finish. The  
expressive gooseberry and grassy flavours retain an  
excellent balance and clean zingy finish. Capable of  
ageing 5 years.*

# Cave Saint-Verny

## Cotes d'Auvergne, Loire, France

Cave Saint-Verny is the sole co-operative in the Puy-de-Dôme. Originally called Cave des Coteaux it was founded in 1950 and suffered a chequered history, coming close to being dissolved in the late 1980s.

The Cave was rescued in 1991 by a 15 million Francs investment from Limagrain, Europe's largest agricultural seed specialist. A new cellar with 37 temperature controlled, stainless steel tanks replaced the concrete vessels in 1993, and was the first in the region to install a de-stemming machine.

Resident oenologist Olivier Mignard has been at the Cave Saint-Verny since 1999 and has instigated a rigorous assessment of all the vineyards under his control - totalling 200ha and 115 adhérents meaning an average holding of less than two hectares per member.

Given the new interest in 'Volcanic Wine', Auvergne is the largest volcanic area in Europe. Dormant volcanos form a line of peaks that not only influence the soil but provide a barrier to the westerly weather.

The vineyards are located on the eastern edge of the chain stretching, intermittently, 80km and sharing the same latitude as Bordeaux and northern Rhone, although at a higher altitude.

Chardonnay is the only permitted white in the appellation, though the region's main emphasis is on reds. Gamay and Pinot Noir are traditionally blended to give distinctive mineral wines which can be enjoyed at classic room temperature, but are even more pleasant when served slightly chilled.

### **Les Volcans** - Chardonnay

*light lime on the nose develop into a more forward fruit salad character - the palate gives a little creaminess with a full finish backed by a crisp, mineral edge.*

### **Les Volcans** - Gamay/Pinot Noir

*a 50/50 blend where the grapes are de-stemmed and fermented in tank but without any Beaujolais style carbonic-maceration. Cherry aromas, light, smooth mouthfeel with hedgerow fruits on the finish.*

# Roger Reverdy Cadet

## Sancerre, Loire, France

Roger Reverdy's small production winery, Domaine Trois Noyers, is based in the top village of Verdigny a few kilometers from Sancerre itself. "Trois Noyers" means "three walnut trees".

The vineyard area covers 10ha and is divided into a majority of Sauvignon Blanc (about 7ha) for the Sancerre Blanc and rest planted with Pinot Noir for the Sancerre Rouge and Sancerre Rosé. The wines of Roger Reverdy Cadet & Fils are regular award winners at domestic and international tastings..

*Sancerre, Domaine des Trois Noyers - Sauvignon Blanc undergoes fermentation in stainless steel tanks for a 'New World' style of Sauvignon. Upfront aromatic nose of nettles and blackcurrant leaves, the palate is full with crisp citrus fruit and a long balanced finish.*

*Sancerre Rosé, Domaine des Trois Noyers - Pinot Noir an aromatic, crisp rose with a gorgeous earthy nose underneath which are prominent red berry fruits - the finish is dry and light.*

# Domaine Roger Pabiot

## Pouilly-Fumé, Loire, France

Roger Pabiot is a 4th generation winemaker working from a 21ha domaine in Tracy-sur-Loire which includes some 80 year old vines - the average age is 25 years. The varied terroir includes the four different soils of the region: hard limestone, flinty clay, sandy terraces and Kimmeridgian marl - each lending particular characteristics to the final wine.

*Pouilly-Fumé, Coteau des Girarmes - Sauvignon Blanc more fruit driven than the flinty style of Pouilly Fumé. An engaging nose giving a slight elderflower bouquet; soft fruit emerges from a light, clean, minerally palate, rounded off with a hint of lime: fine and elegant.*

# Les Vignerons de la Noelle

## Muscadet, Loire, France

The “La Divatte” cuvee is made from grapes grown on the left bank of the Loire, upstream from Nantes.

The appellation covers 23 communes to the south-east of Nantes, around Vallet, Clisson, Le Loroux Bottereau, and Vertou. Located between the Sèvre and the Maine rivers, the terroir is a mix of volcanic rock with great deal of light, stony soil, either silica-based or more alkaline.

Muscadet is well known as a perfect accompaniment to fish and seafood dishes, and also white meat dishes, especially when the wine is a few years old.

*La Divatte - Melon de Bourgogne a Muscadet Sèvre et Maine Sur Lie that is aged on lees for 8 months to give more roundness, adding light stone fruit to its intense, grassy dryness. It is enjoyably crisp whilst young, but will age well for several years.*

# Cave de Saumur

## Saumur, Loire, France

Saumur vineyards cover more than 800ha on the south bank of the Loire. The soils are based on the Jurassic hard limestone, a shallow and rocky soil resulting from the degradation of this base material.

Cabernet Franc is a very popular grape in this region where it is well-suited to the slightly cooler climate and is noted for its hardiness. Earthy and vegetal aromas can often be an important part of the grapes character giving a rustic edge

Awards:

Recommended (89 points) - Decanter 2016

*Les Plantagenets - Cabernet Franc soft, round and fruity in the mouth; its tannins are supple and low enough to allow the wine to be served chilled for light summer drinking.*

# Chateaux de Fesles

## Anjou, Loire, France

Château de Fesles which is in the village of Thouarcé was built nearly 1000 years ago on the summit of one of the four hills that now make up the Bonnezeaux appellation. With 33ha of vines, including 14ha of AC Bonnezeaux (the largest holding of anyone) it is, without doubt, the best known estate in the area.

Pierre-Jean Sauvion, a fourth generation winemaker, has spent time in both California and Australia. Back in Anjou he now vinifies wines, under the 'La Chapelle' label, right through the spectrum from whites to reds, completely dry to very sweet and on to sparkling.

The proximity of the River Layon and its morning mists favour the development of Botrytis or Noble Rot, to concentrate the grapes so as to produce Bonnezeaux, one of the greatest dessert wines in the world. The grapes - from Chenin Blanc vines with an average age of 50 years- are hand-picked over the course of usually six 'tries' and the wine is matured for 15 months in oak barrels. The result has fabulous length and serious long-term cellaring potential.

### *Ch de Fesles Sec - Chenin Blanc*

*given one month in oak and aged for a further six on the lees. The nose is dominated by lime blossom and elderflower, the palate is very well balanced around a smooth fullness of dried fruits, elderberry and light toasty notes with mouthwatering lime and citrus finish.*

### *Ch de Fesles Anjou Rosé - Gamay/Grolleau*

*30% Gamay, 70% Grolleau; a salmon pink colour with a floral and fruity explosion of red (strawberry, raspberry) and dark (blackberry, blueberry) fruits. A smooth initial mouth-feel confirms the aromatic richness, a tangy and lightly caramelised finish express great harmony.*

### *Ch de Fesles Bonnezeaux - Chenin Blanc*

*a dessert wine with intense floral and stone fruit aromas in its youth; candied fruit and spice notes plus honey and nuts develop with maturity - which can be 30 years. Opulent, complex and full-bodied.*

# Chateau Anniche

## Bordeaux, France

Michel Pion's family has been based in the village of Haux since Napoleonic times. 72ha of the 80ha estate is planted with vines which include nearly all the major varietals of Bordeaux.

The irreplaceable know-how that stems from several generations of wine producers is today applied alongside the latest technological equipment and wine-making methods. Marrying tradition with modernity, vinification is carried out in a new winery with temperature controlled stainless-steel vats and oak barrels for ageing.

This modern and precise control during the fermentation process is carried out alongside a strictly traditional method of maceration. The "assemblage", or mixing, of the different grape varieties focuses essentially on their blending, the objective being to ensure harmony and balance.

In keeping with their principles of sustainable viticulture to maintain biodiversity, and aware of the decimation of the bee population, Château Anniche have installed beehives, nestling between the vines and acacia trees.

**Ch. Anniche Blanc** - Semillon/Sauvignon  
75% Semillon, 25% Sauvignon. Medium weight, its lime and lemongrass notes are followed by developing floral and ripe stone fruit highlights.

**Ch. Anniche Rouge** - Merlot/Cabernet Sauvignon  
a 50/50 blend, unoaked but kept for 18 months before release. It is fruity, medium bodied, with a minty blackcurrant character.

**Ch. Haut-Roquefort, Cadillac** - Semillon  
is a Sauternes style dessert wine: 100% Semillon from 2ha of very old vines. The wine has a bright golden colour and an aromatic candied fruit bouquet.

# Chateau La Pointe Bouquey

## St Emilion, Bordeaux, France

Château La Pointe Bouquey is located in the heart of Saint-Emilion appellation.

Wine is vinified in the traditional way and aged in oak barrels, keeping potential is 5-6 years.

*Ch La Pointe Bouquey - Merlot/Cabernet Sauvignon an 80% / 20% blend showing elegant aromas and flavours woven with notes of blackcurrant and plum, complemented by nuances of tobacco leaf and oak.*

# Chateau des Laurets

## Puisseguin St Emilion, Bordeaux,

The 95ha of Château des Laurets straddle two appellations: Puisseguin-Saint-Émilion and Montagne-Saint-Émilion, of which 45ha are reserved for production of the wine that bears its name.

Until 2003, Château des Laurets was an underachieving winery, its wine mostly sold in bulk to Bordeaux negotiants. Bought by Benjamin de Rothschild, the focus was changed to the winery's own labels and it now ranks among the most promising new wineries of Saint-Émilion.

The property is visually stunning, from the magnificent 19th-century chateau with its unusual architecture and octagonal central tower to the old stables, lake and sloping vineyards encompassing the estate.

Château des Laurets focuses on Merlot complemented by Cabernet Franc. The grapes are harvested by hand, then sorted and de-stemmed before being transferred to tanks made of wood, stainless steel or concrete and 100% temperature controlled. The wines mature in these tanks for 14 to 18 months.

*Ch. des Laurets - Merlot/Cabernet Franc a 80% / 20% blend giving a dark plum character with dried cranberry and red tart fruit on the palate. The finish has a more earthy edge with noticeable tannins.*

# Chateau Clair Moulin

## Medoc, Bordeaux, France

Château Clair Moulin is located in Saint-Yzans-de-Mèdoc, north of Saint-Estèphe. Its clay and limestone vineyards are planted with 50% Cabernet Sauvignon, 45% Merlot and 5% Petit Verdot.

Château Clair Moulin is owned by Xavier Berrouet who produces a very traditional Medoc wine. His wines remain youthful for around five years and then start to mature.

*Ch. Clair Moulin - Cab. Sauvignon/Merlot/Petit Verdot a soft and well balanced wine with aromas of red fruits, cedar wood, and vanilla; layers of fruit on the palate are rounded off by silky, already integrated, tannins.*

# Ronan by Clinet

## Bordeaux, France

Ronan by Clinet is made by the winemaking team at Pomerol's celebrated Château Clinet, created with a modern and distinctive style.

Grapes are carefully sourced from selected properties situated close to Château Clinet in appellations that include Côtes de Castillon, Côtes de Bourg, Lussac St-Emilion and Bordeaux.

The winemaking team in their new, state-of-the-art winery and chai - specifically built to develop the Ronan wines - have crafted a new take on Claret: forward, soft and fresh with a balanced texture and a persistent, flavoursome finish.

### *Ronan by Clinet - Merlot*

*100% Merlot - aromatic with hints of cherry, raspberry and blackcurrant, enlivened with sweet pepper, a silky blackberry theme and twist of spice. "A staggeringly serious wine for the price" Mathew Jukes.*

## Ch. le Coteau 'Cuvee Chappaz'

### Margaux, Bordeaux, France

Château Le Coteau is a small estate in Margaux that neighbours Rauzan Ségla, Giscours and Issan. Its 12ha is planted with 65% Cabernet Sauvignon, 25% Merlot, 8% Cabernet Franc and 2% Petit Verdot. No herbicides or insecticides are used. The soil, composed of pebbles and gravel, is very poor and retains a lot of heat - perfectly suited to cultivation of vines. The high temperature is mediated by the climatic influence of the nearby Garonne river.

The winery's 13 stainless steel tanks allow the different plots and varietals to be vinified separately. Ageing is in French oak barrels, one third of new wood, for 12-16 months.

*Ch. le Coteau - Cab Sauv|Franc|Merlot|Petit Verdot offers aromas of dark cherries, roasted plum, spices, tobacco and a touch of herbs. Medium to full-bodied with a lush, velvety texture nicely balanced throughout.*

## Chateau Siaurac

### Lalande de Pomerol, Bordeaux, France

Château Siaurac, at 46ha the largest estate in Lalande de Pomerol, is now benefiting from investment by the global Artemis Group - which also has interests in Château Latour amongst many others. With this financing, Siaurac is one of the few estates to have secured the consultant services of iconic winemaker Jean-Claude Berrouet, ex Pétrus - which lies less than half a mile away. The estate is planted with 75% Merlot, 20% Cabernet Franc and 5% Malbec.

In the vineyards all pesticides and herbicides have now been stopped, but it will take time for the soils to recover, and they hope to slowly move over to 100% organic farming by 2021. A new orchard was planted last year, and recently installed beehives both help with pollination.

*Ch Siaurac - Merlot|Cabernet Franc 80|20 blend vinified in temperature controlled concrete vats with 12 months in oak - medium bodied with black cherry, cassis and spice. Full, juicy and quaffable with a wonderful level of fruit and great structural balance.*

# Chateau d'Armailhac

## Pauillac, Bordeaux, France

Château d'Armailhac, an 1855 Classified Growth under the name Mouton d'Armailhacq, covers 70ha in the northern part of Pauillac. The terroir is of light and very deep gravelly soil - the preference of Cabernet grapes, although all the traditional Médoc grape varieties are planted. The average age of the vineyard is 46 years, but nearly 20% of the total surface area dates back to 1890.

The key harvesting decisions are made by an analytical and research laboratory which also monitors Château Mouton Rothschild. The dry 2004 vintage led to the following blend; Cabernet Sauvignon 58%, Merlot 25%, Cabernet Franc 14%, Petit Verdot 3%.

### *Ch d'Armailhac*

*once opened up it shows blackcurrant, blackberry and fresh red fruit mingled with cedar wood notes. Well integrated tannins develop on the palate revealing a fruit flavoured concentration on the finish.*

# Chateau Clerc Milon

## Pauillac, Bordeaux, France

Château Clerc Milon has 41ha of vines in the north-east of the Pauillac appellation, near Château Mouton Rothschild. Environmentally-friendly integrated vinegrowing techniques are employed, keeping the use of pesticides to a minimum. Close monitoring and strict parcel selection are on a par with those practised at Mouton Rothschild.

A wine with considerable ageing potential; powerful, fruity and full-bodied, Château Clerc Milon displays all the typical elegance of the finest Pauillac wines. The 2004 vintage comprises: Cabernet Sauvignon 58%, Merlot 29%, Cabernet Franc 11%, Petit Verdot 1% and Carmenère 1%.

### *Ch Clerc Milon*

*the nose displays perfectly ripe fruit, with notes of liquorice and verbena. From a full palate the flavours build towards a rich and harmonious balance; the tannins are well-rounded, silky and creamy; underpinning the vanilla is spicy oak.*

# Arthur Metz

## Alsace, France

Arthur Metz founded in 1904, is ideally placed at the northern end of Alsace. The company is involved in the whole process of wine growing and production.

They have two pressing and vinification centres: the Vendangeoir de Scharrachbergheim and another at Epfig. Sourcing from across the region they select the best terroirs for the varieties. Arthur Metz is in partnership with more than 720 vineyard owners over a vast 1050ha. They oversee the work in the vineyards and monitoring of the vinification process to ensure optimum quality.

The wine-growing region of Alsace, one of the northernmost in France and in Europe, encompasses 119 little towns from Marlenheim in the north to Thann in the south. Parallel to the Rhine, it extends for 120 km and is only a few kilometres wide. The vineyards comprise 15,500 hectares of vines.

Nestled in the eastern foothills of the Vosges, the vineyards blanket a range of hills of the lower Vosges at an average altitude of between 200 and 400 metres. The predominantly southern and southeastern exposures, as well as the particularly elevated height of the vines, offer the grapes maximum sunlight. The natural barrier of the Vosges hills impacts on the very unique climate found in Alsace, which is semi-continental and benefits from low rainfall.

**Arthur Metz 'Caveau' - Riesling**  
*is a fresh and well rounded style of wine with aromas of orange and mandarin, finishing off with typical mineral notes.*

**Arthur Metz 'Caveau' - Pinot Gris**  
*reveals subtle hints of pear and stone fruit; the palate has supple notes of peach, apricot and a final touch of citrus.*

**Arthur Metz 'Caveau' - Gewürztraminer**  
*intense golden yellow colour with aromas of flowers, lychee and passion fruit. Rich, full-bodied and well-structured.*

# Domaine Roger Luquet

## Maconnais, France

Domaine Roger Luquet is a genuine family operation dating back five generations. Its major growth occurred when Roger Luquet took over the running of the 4.7ha estate in 1966.

The original vineyards situated in the centre of the village of Fuissé were expanded and the Domaine incorporated others in St Véran in 1972 and Mâcon Blanc in 1984. A total of 30ha are planted exclusively with Chardonnay giving a production capacity of over 240,000 bottles.

Roger, the 4th generation of the Luquet family, retired in 2007 (although he continues to help out during the busy times) handing over to the 5th - son Patrick working in sales and son-in-law Thierry Mathieu responsible for developments of the vineyards. With daughter Christine working at the Domaine since 1987, Luquet is a family enterprise with a true family spirit and a shared passion.

This passion is evident in their wines. Luquet's philosophy has always been to vinify each plot of vines in separate tanks to maintain their authenticity and retain their typicité, i.e. varietal or regional character. Most of the wine is vinified in temperature-controlled stainless steel tanks. This allows the wine in each tank to be individually cooled to control alcoholic fermentation or to be heated if required during winter, and also to accelerate the process of full malolactic fermentation.

### **Mâcon Villages** - Chardonnay

*is light, fruity and classy - a wine that can be drunk young and over the following 3 years and a great alternative to entry level Burgundies.*

### **St. Véran** - Chardonnay

*a little fuller on the palate, is made from 25-35 year-old vines. Stainless steel tanks and traditional vinification preserves the character of the very stony terroir.*

### **Pouilly-Fuissé** - Chardonnay

*is a classically generous and rich wine, with a hint of hazelnuts, toasted almonds and exotic fruit - the wine can be kept for 6 years.*

# Producteurs de Fleurie

## Beaujolais, France

Located north of Lyon in eastern France, Beaujolais overlaps Burgundy in the north and Rhône in the south. The picturesque Beaujolais vineyards run along the Saône River, where winemakers have crafted deliciously supple and fruity wines since the days of Ancient Rome.

The region has ideal growing conditions. It receives plenty of sunshine and has granite-based soils that lend excellent structure to the wines.

Fleurie itself is found in the north of Beaujolais and covers an unbroken area of three square miles. The soil here is almost entirely made up of pinkish granite that is unique to this part of Beaujolais.

Below the main village, the terrain is deeper with a little clay. These wines are fuller bodied and age well; time in the bottle reveals darker fruits, spice and often some smoky qualities.

Producteurs de Fleurie was formed in 1927 and are the oldest established Cave in the Beaujolais region. With over 320 members working 300ha of the region's vineyards (which is 35% of the Appellation) they are producing one third of all Fleurie AC wines.

'Arenite' is the name of the pinky, crumbly terroir of the La Madone vineyards, rated as among the best vineyards in Fleurie. Goblet trained vines on the south east facing vineyards lie below the Chapel of the Madonna on the hill. The Gamay vines range from 40 to 90 years of age.

Grapes are hand-picked and whole-berry fermented for 8-10 days (traditional carbonic maceration) followed by a further 2 to 3 days on the skins to assist with aromas. There is no use of cultured yeasts and the first press wine is left to mature for 8 months before bottling.

*Fleurie, La Madone - Gamay  
for a 'light' wine the palate is intense and forthright  
with notes of ripe cherry and red fruit. The finish is  
delightfully round and supple with good concentration.*

# La Chablisienne

## Chablis, France

Possibly the most famous white wine in the world, in fact it is so famous in its own right, it can be overlooked that the wines are exclusively made from the Chardonnay grape.

The region is geographically quite far north of the rest of Burgundy, and as such has a subtle difference in style. Usually more austere, with great minerality and a touch of lime. Oak is used sparingly, given rise to the classic expression of unoaked Chardonnay.

La Chablisienne is a co-operative that dates back to 1923 and now comprises a group of nearly 300 winegrowers who have full control over the winery.

### **Petit Chablis 'Pas si Petit'** - Chardonnay

*Pas si Petit, meaning "not so small" spends 6 months on the lees giving a full fruity character and a richness on the finish that transcends its belittled name.*

### **Chablis 'La Pierrelée'** - Chardonnay

*La Pierrelée ("the stones") refers to the stoney soils of the region and the mineral edge of classic Chablis style. The wine has great minerality, is crisp yet full of fruit.*

### **Chablis Les Vénérables** - Chardonnay

*is from an average of 35 year old vines. The wine is matured for 14 months on the lees and in oak barrels. A mineral palate is off-set by floral and citrus nose.*

### **Chablis 1er Cru Beauroy** - Chardonnay

*from SE facing left bank vineyards; a Cru noted for a lighter style of Chablis. 12 months lees ageing in steel tanks and oak barrels gives a fleshy, rounded fruit.*

### **Chablis 1er Cru Vaillons** - Chardonnay

*again with a SE aspect, Vaillons is separated from Montmain by a thin 300m strip of flat land on the hillside. Straw, lime and aromas with orange blossom..*

# Maison Francois Martenot

## Burgundy, France

Maison François Martenot dates from a domain that was created in 1859 by Léonce Bocquet, then sole owner of Château du Clos Vougeot. Lucien Gustave Martenot acquired the domain in the early 20th Century.

Located in Savigny-les-Beaune, Maison François Martenot is now managed by Charlotte Martenot who has extended the portfolio of wines to cover the entire Burgundy region, with 24 different appellations from regional to Grand Cru.

*Mersault - Chardonnay is aged in oak barrels for 9 to 12 months before bottling. With a golden colour, the nose combines vanilla, butter and hazelnut aromas; in the mouth, the wine is both firm, mellow and delicate.*

# Chartron et Trebuchet

## Burgundy, France

Louis Trébuchet and Jean-René Chartron joined forces in 1984 and, from their base in Puligny-Montrachet, began to specialise in white wines from the area.

Vincent Sauvestre, a fourth generation winegrower succeeded them as owners of the House, bringing 240ha of vines in the Côte de Nuits and Côte de Beaune including three Grand Crus and twelve Premier Crus wines.

*Chassagne Montrachet - Chardonnay aromas of honeysuckle, verbena and hazelnut and a flinty, mineral palate that moves towards toasty, buttery notes. Ageing gives a more honeyed and ripe pear character with an opulent soft palate.*

*Chassagne Montrachet 1er Cru Embazées - Chardonnay from 50 year old vines; traditional vinification in French oak barrels with complete malolactic fermentation. As the wine opens up, toast and spice notes appear; a good level of crispness and structure for long term ageing.*

# Chateau. de. Miraudet

## Burgundy, France

Domaine Château Miraudet is located in the heart of the Côtes du Couchois appellation with an area of 13.5ha of vineyards on the slopes, facing south-south-east, at the edge of the Côte de Beaune.

For its red wines Domaine Château Miraudet practices a traditional vinification: de-stemming, cold maceration for 4 to 5 days followed by 10 days in vats at a temperature around 25°C which allows extraction of the tannins, giving gentle wines with robust colors and developed aromas.

### *Bourgogne Rouge - Pinot Noir*

*a welcoming ruby red colour evoking the soft red fruits of a classic Pinot Noir. In the mouth, the wine is full, rich and fruity. with a nice fleshy roundness and finish.*

# Nuiton Beaunoy

## Burgundy, France

Nuiton-Beaunoy is, above all, the history of the pioneer winegrowers of the Hautes-Côtes de Nuits and Hautes-Côtes de Beaune. They worked unceasingly and side by side to develop the art of vine cultivation and wine production in the valleys that sustained human activity and that connect with the slopes of the Côte d'Or

From across the area, the associated winegrowers of the Cave des Hautes-Côtes, under the banner of Nuiton-Beaunoy, lovingly craft wines to express the extraordinary patchwork of vineyard parcels found in the Côte d'Or.

Nuiton-Beaunoy, brings together 115 associated winegrowers from the Côtes and the Hautes-Côtes de Beaune. The total vineyard area is some 520ha, giving an average production of 25,000 hectolitres of wine.

### *Beaune 1er Cru - Pinot Noir*

*Deep red with a ruby hue; aromas of red fruits which on the palate gradually give way to spices, tobacco and earthy leather. The finish is pleasantly rounded, backed by a firm elegant tannic structure.*

# Vignerons de Buxy

## Burgundy, France

The Cave des Vignerons de Buxy is at the heart of the Burgundy vineyards and over the past twenty years has successfully set up ambitious development and investment policies.

It was created with the determination of the Côte Chalonnaise winegrowers to pool their talents in a common project to tend the vines, make the wine and market and sell their produce together. 270 members, 120 wine-growing families and 40 employees are involved.

Thanks to their diligence, the passion for their vocation and their deep attachment to the soil, these winegrowers have managed to develop authentic wines rooted in the appellation and sold direct, not through a negotiant.

Givry and Mercurey are small villages in the Côte Chalonnaise region. The AOC Givry was established in 1946, AOC Mercurey earlier in 1936 both regions primarily produce Pinot Noir.

The red wines of these villages are characterised by their deeper color, when compared to neighbouring appellations and also more full bodied. The wines of Mercurey are especially noted for their hints of spicy cherry.

These well made examples typically drink at their peak between 5–12 years after vintage.

### *Givry - Pinot Noir*

*Crimson colour, with purplish glints and typical aromas of Pinot Noir - blackcurrant, morello cherry - with liquorice, spices and developing leather notes with age. Medium tannins with a 'racy' character.*

### *Mercurey - Pinot Noir*

*Deep red with ruby glints, pleasant aromas of red fruits backed by a firm elegant tannic structure. Red fruits gradually give way to herbal notes, spices, tobacco, and leather. Pleasantly round and very firm.*

# Schmitt Sohne

## Mosel & Nahe, Germany

Schmitt Söhne has been in business for over 200 years, from when the Schmitt ancestors settled in the small village of Longuich, located along the Mosel River in the Mosel-Saar-Ruwer wine region, and began managing vineyards and producing wine. Now in the 4th generation, Schmitt Söhne is one of Germany's largest and most successful wine exporters.

In 1919, Hilar Schmitt, the great-grandfather of today's owners, founded the company as a small regional winery. In 1934 Peter Vitalis Schmitt expanded his father's business and distributed their wines throughout Germany, expanding to a European export market in 1953.

While continuously developing winemaking and looking for ways to incorporate new technologies and techniques, Schmitt Söhne never lose sight of the traditional way of producing exceptional German wines. Their policy has remained the same for over 200 years: produce the best wines possible using only top-quality grapes.

At Schmitt Söhne's winery, still located in Longuich, they have increased production capabilities, updated and expanded a computer network to efficiently handle all aspects of the winery, from quality control to customer service and shipments.

**Piesporter** - Riesling|Müller-Thurgau  
*beautifully fragrant, medium-bodied with upfront fruit with hints of peaches and green apples (approx 35 g/l).*

**Liebfraumilch** - Riesling|Silvaner|Müller-Thurgau| Kerner  
*the most popular style of wine from Germany; fresh and fruity with a medium sweetness of 35 g/l.*

**Söhnlein Brillant White**  
*fruity and off-dry (trocken) with long lasting tropical fruits and a natural sweetness.*

**Söhnlein Brillant Red**  
*light red with a grapey bouquet, medium sweetness (halbtrocken) and a light mousse.*

## Rheinhessen, Germany

German wine is light, lively and fruity, thanks to the unique climatic and geological conditions. The diversity of Germany's wines is based on the country's varying soil types and grape varieties.

Quality levels follow the German wine law and are determined by the degree of ripeness which the grapes have achieved upon harvest. Riper grapes provide more aroma and more flavour, hence a more expressive and flavorful wine. Sweetness in a wine, an attribute independent of its quality level, does not just depend on the ripeness of grapes but on the winemaker's decision regarding the fermentation process.

Germany is the world's 3rd largest producer of Pinot Noir but is often overlooked in favour of more fashionable regions such as New Zealand and Australia, not to mention the classic Red Burgundy.

### **Niersteiner**

*a medium-bodied, fragrant wine with upfront fruit, a touch of spice and a mild soft finish: approx 35g/l sugar.*

### **Flying Goose - Riesling**

*a modern dry style (7gm of sugar) with upfront fruit flavours of peaches and apricots, a well-rounded middle palate that is soft and rich with a lingering dry finish.*

### **Flonheimer Adelberg**

*Spätlese style (approx 48g/l sugar) : a smooth, rich wine with an intense flavour and deliciously fruity.*

### **Appenheimer Abtey - Ortega**

*Auslese style (approx 60g/l sugar): honey-coloured with a sweet smell of apricot and a fine fruitiness.*

### **Dr Schmitt | Global Roaming - Pinot Noir**

*a very light colour with off dry (6g/l) raspberry and cherry fruit and plenty of character on a lingering dry finish. It has 6gm of residual sugar and can be served chilled.*

# Schloss Koblenz

## Nahe, Pfalz & Rheinhessen, Germany

Wein & Sekthaus Schloss Koblenz is an associated company of Josef Drathen, one of Germany's leading suppliers of wine.

The Drathen winery has been in family possession for over 100 years whose forefathers originated from the Netherlands making their way to the Moselle via Linz on the Rhine River. The Peter Josef Drathen winery was founded in 1860 with its home in St. Aldegund and was renamed in 1927 as the Josef Drathen winery through settlement of the estate.

On the death of the founder Josef Drathen in 1939 the winery was run by his widow Else, her niece Grete Gesthüsen with her husband Hugo until 1969.

On 1 July 1969 the next generation took over and successfully ran the business for about 30 years. By using careful business policies it was possible to open a completely new and modern winemaking facility in the business park on Zell-Barl in 1993. Since 1996 the management of the business has been in the hands of the younger generation of the family represented by Tim Gesthüsen and Jürgen Zirwes

The sweetness of German wine needs to have a harmony with the grapes natural acidity to give a balanced taste. Drathen's state-recognised laboratory provides the cellar masters with an analysis for the tolerance of each and every wine are are thus able to guarantee the highest level of unchanging product quality..

**Sieboldinger Konisgarten** - Kerner  
a modern dry style (7gm of sugar) Well rounded and balanced, fruity, light and having approximatly 45 g/l of residual sugar

**Rudesheimer Rosengarten** - Riesling  
a Spätlese with a sweetness of 52 g/l; a very elegant, fruity and well-balanced Riesling.

**Schloss Koblenz Lieblich** - Dornfelder  
an off-dry red wine approx with 42g of sugar; the aromas are of cherries and blackberries with a touch of spice. Low in tannins so can be served chilled.

# Joachim Flick

## Rheingau, Germany

Königin Victoriaberg has an interesting history. It acquired its name after Queen Victoria and Prince Albert attended a wine tasting at the Hochheim am Main vineyard in 1845. Thanks to her enthusiasm she allowed to give her name to one of the most beautiful and best vineyard in the area. As a commemoration, an English neo-Gothic monument (pictured on the label) was erected amongst the vines.

Since then, wine from Hochheimer Victoriaberg is a listing in the cellars of Buckingham Palace and in the British Embassy in Berlin and often opened on official occasions. It was served twice on the last visit of Queen Elizabeth II in June 2015.

Joachim Flick Winery is based in the town of Wicker in the Rheingau region. Their acclaimed Strassenmühle estate has a history spanning over 700 years.

The Flick family has been in the agricultural and winemaking industry for many generations. The winery business came in greater focus when Joachim Flick took over the reins in 1973 and the Königin Victoriaberg vineyards were purchased a few years ago.

Königin Victoriaberg wine is presented in a tall fluted bottle and sealed with innovative glass closere. The wine itself is elegant, subtle and yet with superb richness: a wonderful example of what can be achieved with Riesling from the Rheingau.

The complexity of the wine is just starting to develop and, whilst excellent now, it will continue to mature and take on a typical 'old Riesling' character for future drinking..

**Königin Victoriaberg - Riesling**  
*a superb example of an elegant and subtle Riesling. It has a light petal nose with stone fruits - apricot and peach - coming through on the palate and refreshing lime on a long finish yet with enough richness to develop with age.*

# Casa Vinicola Bennati

## Veneto, Italy

Casa Vinicola Bennati is an old established house, founded in 1920 by Annibale Bennati, in the area of Cazzano di Tramigna, just a few kilometers from Soave. Annibale was the son of the famous Antonio, or 'Toni Recioto' as he was called in honour of the raisin wine of that name..

In this vinicultural heartland, their vineyards are in a prime position and are protected by the surrounding hills. High quality is assured by astute management and hand-picking is still carried out with optimum care.

In the early years the company restricted its activity to producing esteemed local wines, specifically the ageing of Amarone - which are still the flagship wines of the range. Subsequently, under the winemaking direction of a younger generation of the family, Bennati has extended its interest to international grapes and wines from surrounding areas, concentrating on regional character and the quality of varietals.

'Cornale' represents the entry 'Casa' wines, soft, fruity and lower in alcohol than other richer fuller styles.

'Rocca Bastia' represent a classic 'International' pair of Chardonnay and Merlot, each with its own subtle Italian flair.

**Cornale Bianco** - Garganega/Chardonnay  
light bodied with notes of fruit salad and ripe banana plus a good, lively palate.

**Cornale Rosso** - Cabernet Sauvignon/Corvina  
soft and with plenty of depth from plum and red cherry fruit with a smooth finish.

**Rocca Bastia** - Chardonnay  
an inviting bouquet of tropical fruits and nuts capturing the palate with a fine crispness and full finish.

**Rocca Bastia** - Merlot  
dark ruby red, full plummy palate with herbal notes and a light finish with a charming softness.

# Casa Vinicola Bennati

## Veneto, Italy

The Veneto region is protected from the harsh northern European climate by the Alps, the foothills of which form the Veneto's northern extremes.

These cooler climates are well suited to crisp, fresh white varieties like Pinot Grigio, Garganega and Trebbiano. It is also ideal for producing, light, fruity rosé wines from Corvina, Rondinella and Molinara grapes.

In recent years Pinot Grigio has grown from relative obscurity to stand alongside Chardonnay, Riesling and Sauvignon Blanc as one of the dominant white wine grapes globally.

The grapes of Soave never reached the same heights and, despite a peak in popularity in the 60's and 70's, the wines remain far behind their cousin in terms of volume. However, historically Soave was viewed as the the rightful white partner to Chianti as the most important wines of Italy. As such they became the first zones in Italy to be recognised by Royal Decree in 1931.

Bardolino is closely associated with the beautiful landscape around Lake Garda, with the region touching the south eastern shores. The Classico zone surrounds the local towns and villages, including Bardolino and Garda.

***I Gadi & Corte Pitora - Pinot Grigio**  
a superb full, rich style: fruity flavours of lime, stone fruits, lychee with a delicious intensity.*

***Soave Classico 'Libet' Soraighe** - Garganega/Trebbiano  
with aromas that are particularly striking; it has a rich body, pleasant tannins and a well balanced softness.*

***Bardolino Rosé 'Esivo' Chiaretto** - Corvina/Rondinella  
cherry-red rosé, light-medium bodied; flavours and aromas of peach and blossom with a crisp, dry finish.*

***Bardolino Rosso 'Corte Pitora' Classico** - Corv./Rond.  
cherry and violets on the nose. with an harmonious and delicate structure making for excellent easy drinking.*

# Casa Vinicola Bennati

## Veneto, Italy

Casa Vinicola Bennati has from its outset been devoted to producing the local wine Valpolicella, specifically the ageing of Amarone. These are still the flagship wines of their portfolio. We list four wines from three 'levels'.

The grapes - Corvina, Rondinella and Molinara, for Valpolicella Classico are sourced from this designated DOC area and after vinification have a short maturation in large oak casks.

For Ripasso, meaning 'repassed', this wine is macerated with the pomace left behind from the making of Amarone, giving much richer aromas and taste.

Grapes for Amarone are harvested some three weeks later than usual to allow for a greater concentration. The bunches are put in small crates inside the "fruttaio", a large room where ventilation is controlled by opening windows, allowing the grapes to shrivel. At the beginning of the new year, the grapes are de-stemmed and pressed; berries and must are put into tanks to macerate for 20 days and winemaking begins.

### ***I Gadi Valpolicella Classico***

*alluring ripe cherry, plum, vanilla flavours and a marvellous well balanced taste with supple tannins.*

### ***Soraighe Valpolicella Ripasso***

*elegant notes of ripe red fruit (especially cherries) on an undertone of vanilla, tobacco and cacao; the palate is very supple, distinctively velvety and long-lasting.*

### ***Bennati Amarone della Valpolicella 'Elite'***

*oak ageing gives a remarkable warm bouquet reminiscent of dried fruits and spices rounded off with the classic bitter almond taste of Amarone and intense scents of stewed fruit and jam.*

### ***Bennati Amarone della Valpolicella 'Cerasum'***

*intense scents of ripe fruit and jam with delicate floral notes and tertiary ones of tobacco and cinnamon. Very elegant on the palate with a complex finish of cherries, blackberries and raspberries.*

# Cantine Levorato

## Veneto, Italy

Cantina Levorato s.r.l. was founded in 1928 in Dolo, in the renowned area of Riviera del Brenta, between the two famous cities of Padua and Venice. Initially it was a wine-pressing cellar managed by Umberto Levorato, selling wines in casks and demijohns mostly in Venice and in the small towns along the Naviglio del Brenta.

Later, Gino and Giovanni, respectively Umberto's brother and son, with great tenacity and proficiency, decided to begin bottling wines under their own labels, and so began Cantine Levorato.

Nowadays the tradition goes on and has developed itself with Carlo, Giovanni's son, taking care of business with his sister Silvia and brother Marco. Together they deeply modified and modernized the production and management of the company, successfully establishing the family business in the foreign market.

Currently Cantina Levorato produces around 80000 bottles per day, of which 95% is exported to the US, UK and Germany. They sell a wide range of wines from the most important Italian wine-growing regions, such as Veneto, Friuli Venezia Giulia, Abruzzo, Puglia and Sicily.

Their particular speciality is Pinot Grigio. Where grapes are vinified by soft pressing with a 15-20 day fermentation before being held in steel tanks prior to bottling, allowing for a greater concentration of fruit, whilst retaining the classic aromatic freshness of the varietal.

**Antico Casale - Pinot Grigio**  
*slight maceration gives a pale straw-yellow colour, good aromas and dry flavour with a pleasant apricot finish.*

**St Apostoli - Pinot Grigio**  
*is fermented off the skins; light to medium bodied and off dry with a fruity aroma and a good length.*

**Antico Casale - Pinot Grigio Blush**  
*has a light pink colour with floral and blackcurrant aromas and a soft off-dry and satisfying finish.*

# Roberto Sarotto

## Piedmont, Italy

Poderi della Collinetta are wines made with the great passion of a famous winemaker, Roberto Sarotto. He has a strong belief in traditional values, but at the same time not afraid to take new ways and can be considered a "local pioneer" in the wine field..

His family run company owns a number of estates. stretching over 50ha of vineyards located in some of the best wine producing areas of Piemonte.

The Sarotto family trace their history back to the end of the 18th century and from the 1800's began making wine from their own vineyards. The business underwent expansion from 1870's to 1930's -during these years, the family specialised in the production of Dolcetto, exporting it in bulk in wooden barrels as far away as England in the early 1900's.

The export market was lost with the war, and the vineyards were later decimated by the phylloxera pest. Roberto's grandfather worked and replanted the vineyards from 1950 but the grapes were sold to dealers until the early 1980's, when Roberto, graduated from the local wine-making school. Since 1991 all the grapes grown on the estates have been vinified in the winery, and the range of wines produced was extended in the same year with the purchasing of a 20ha in Barolo.

**Gavi 'Poderi della Collinetta'** - Cortese bouquet of floral overtones and captivating hints of pineapple, apricot and peach; the palate is pleasingly fresh with marked apple characteristics.

**Dolcetto del Alba 'Poderi della Collinetta'** - Dolcetto a speciality grape of Piedmonte, Dolcetto 'little sweet one' has strong pigments and high tannins so a short maceration and vinification in stainless steel tanks gives a full, fruity wine with a dry lingering aftertaste.

**Barolo 'Poderi della Collinetta'** - Nebbiolo "the king of wines and the wine of kings". 24 to 30 months in oak barrels; a full-bodied, dry taste that's rich, yet smooth and well-balanced and bulging with fruit and spiciness.

# The Wine People

## Tuscany, Italy

Viticulture in Tuscany dates back to settlements in 8th Century BC and by the 3rd Century BC there were already literary references by Greek writers about the quality of Tuscan wine,

Historically Monasteries were the main producers and purveyors of the region, but, as the rising merchant classes emerged in Italy during the middle ages, newly established 'Wine Merchants' would become important and highly influential.

Part of the success of Tuscan Reds are due to the extremely poor soil quality. This highly desirable factor is much sought after by vintners as it helps force lower yields and higher quality levels.

Chianti emerged a distinct region in its own right during the 18th Century, until its formal creation as an official province in 1932.

Volpetto Chiantis are based on the traditional Sangiovese grape but are totally modern wines, made using the best possible up-to-date methods to bring out the very best in the grape variety. They are classic styles updated to suit the contemporary palate for fruit-driven wines.

Volpetto, meaning fox cub, takes this name as a symbol of the Tuscan countryside. While previously feared, now foxes seen in their natural habitat are considered a sign that the area is in harmony with nature.

**Chianti Volpetto** - Sangiovese/Cannaiolo  
an unoaked blend, mainly of Sangiovese with a small percentage of Cannaiolo. It is well structured and full bodied, lively and intense with lots of juicy, mouthfilling crushed berry fruit and finishing with silky tannins.

**Chianti Riserva Volpetto** - Sangiovese  
100% Sangiovese, hand selected to ensure the best fruit and aged for 12 months in oak. It has a highly concentrated bouquet and is full-bodied, giving a smooth yet complex wine with a deep intensity of fruit and a powerful long finish.

# Casa Vinicola Bennati

## Piedmonte, Italy

Casa Vinicola Bennati also source fruit from other selected vineyards in Italy, which they ship and bottle in Veneto allow greater access to a range of Italian wines, all from one source.

Barbera is often overlooked by its more illustrious cousin Nebbiolo, it produces high yields and is known for deep color, low tannins - perfect for producing good quality wines in a more approachable style than Barolo.

Bennati's Piemonte Barbera is a fine example of great value winemaking

### *Cornale - Barbera*

*a fine example of this famous regional grape, with forward cherry aromas and a warm velvety taste - all that a well structured, easy drinking red wine needs.*

# Casa Vinicola Bennati

## Abruzzo, Italy

The DOC region for Montepulciano d'Abruzzo covers a vast expanse of land in the Abruzzo region between the Apennines foothills down to a few miles inland from the Adriatic coast.

The region is one of Italy's most mountainous with more than 65% of all Abruzzo being considered mountainous terrain with the Apennines peaks reaching up to 9000 feet above sea level. The hillside vineyards planted on calcareous clay benefit from warm and significant sun exposure that is ventilated by dry breezes coming off the Adriatic.

The wine is not be confused with 'Vino Nobile di Montepulciano', a Tuscan wine made from Sangiovese and other grapes.

### *Ca 'Brigiano - Montepulciano d'Abruzzo*

*hand harvested with fermentation in steel tanks and without oak. It has generous fruit, medium bodied with a deep red colour and a softness that creates a very appealing style.*

# Cantine Iorio

## Campania, Italy

Cantine Iorio is proud of guarding, through its everyday work, the traditions of its region. It is situated in Torrecuso, a hilly district located in the heart of the Sannio and beside the Taburno Regional Park. Here vines represent the cultural and social identity of the whole wine making area so much that Torrecuso is known as 'The town of Aglianico'.

Owners Pietro and Luca founded a new and modern cellar in 2004, their local knowledge ensuring the right mix between tradition and innovation.

The main object at the beginning of their project was to recover both abandoned lands and the surviving experience of local grape growers. The resulting success inspired them to produce high quality wines using the best selected grapes from the territory. Falanghina and Aglianico are two of the finest, and oldest, varieties in Italy. They thrive in the volcanic soils of the area, Falanghina especially, acquiring a mineral edge.

Awards:

Falanghina del Sannio: Silver - IWSC 2017

Falanghina del Sannio & Aglianico del Sannio:

Silver Medals - Concours Mondial de Bruxelles 2017

**Jadis Bianco** - Falanghina/Trebbiano

*nice light aromas with herbal, fennel and floral notes; fruit develops on the mid palate with a citrus finish.*

**Jadis Rosso** - Aglianico/Montepulciano

*lovely vibrant wine - a bright cherry nose, full of red fruits and dry tannins with a lighter weight and finish.*

**Cantine Iorio 'Taburno'** - Falanghina del Sannio

*delicate bouquet of white flowers and exotic fruits leads into a complex palate with a fine balance of softness and crispness, finishing with fennel and herbal notes.*

**Cantine Iorio** - Aglianico del Sannio

*malolactic fermentation followed by 8 months in steel tank - no oak; a wine of intense fragrance with red fruits and spices makes a deep, rich 'porty' character with a soft finish of elegant tannins.*

## Casa Girelli 'Fontella'

### Lazio, Italy

Founded in the late Nineteenth century, Casa Girelli is a historic Italian company that has made the art of winemaking its vocation.

Focusing on producing exceptional value wines from regions located all over Italy, they are able to bring together a portfolio that offers fantastic variety and great value.

The grapes are selected from gently rolling hillside vineyards in Castelli Romani, north eastern Frascati. Harvest occurs in the nighttime to ensure the maximum freshness of fruit when it arrives in the vineyard.

*Frascati - Malvasia/Trebbiano*

*Delicate bouquet of peaches, pineapple and passion fruit. Medium-bodied on the palate with the perfect balance of fruit and crisp acidity.*

## Casa Girelli 'DeCanal'

### Puglia, Italy

Casa Girelli has a know-how acquired through many years of experience in winemaking. The main elements are: speed, competence, care, research and the commitment to constantly improve.

Casa Girelli's philosophy could be summarised: "Utmost attention to detail and constant research are key to achieving reliable superior quality in winemaking, with no compromise."

Zinfandel is closely related to Primitivo, which has been grown in southern Italy for millennia. The vines are trained using the traditional Alberello basso and Spalliera method and the production is around 70 hl/ha. It produces wonderful ripe and expressive red and rosé wines.

*Decanal Blush - Zinfandel*

*a lovely combination of berry fruits and sweet spices, which burst out of the glass. The highlight is an attractive note of lush morello cherries.*

# Cantine Levorato

## Puglia, Italy

The main and constant target of the company is the customer satisfaction, achieved by high-qualified staff, taking advantage of cutting-edge technologies, creating new product lines in order to satisfy each customer request.

Cantina Levorato provided itself with a self-monitoring code to comply with the strictest national and international regulations.

Levorato sourced the finest Primitivo fruit from Puglia to bottle into their house 'Levorato' brand.

*Levorato - Primitivo di Puglia*  
a charming, fragrant, soft, fruity, jammy wine with a smooth rounded finish, - its intense dark and red fruit character is quite typical of traditional southern reds.

# Cantine Levorato

## Sicily, Italy

The company participates in the most important national and international wine fairs and was awarded several times in events and competitions.

Now as then, they work with the same commitment, determination and accuracy of the founders of Cantina Levorato, joining tradition and innovation with passion for their work.

Levorato sourced the finest Nero d'Avola fruit from Sicily to bottle into their house 'Levorato' brand.

*Levorato - Nero d'Avola di Sicilia*  
lightly oaked but packed with spice and liquorice making a dense and chewy wine, balancing big juicy fruit and tannins on the finish.

# The Wine People

## Sicily, Italy

TWP Wines is run by Stefano Girelli, whose family has been at the heart of Italian winemaking for three generations. The portfolio stretches the length of Italy, from the Veneto, to Tuscany, to Puglia and Sicily, and the focus is on organic viticulture. Many of the wines are certified organic and all are made in an eco-friendly way, with a long-term commitment to the environment and are therefore brands of integrity.

Leading consultant winemaker, Stefano Chioccioli, uses the best possible indigenous grapes to create wines with a great quality to value ratio, with individuality and character - wines which speak of their terroir.

Dea del Mare, the Sea goddess, is a beneficent and independent power of nature - not feared, but understood to be a part of life, followed by birth and renewal each time the vines are pruned.

**Dea del Mare - Catarratto/Pinot Grigio**  
60/40 blend with all the hallmarks of Pinot Grigio's citrus fruits on the nose and a palate of crisp green apple balanced by subtle minerality from Catarratto.

**Dea del Mare - Pinot Grigio**  
crisp citrus fruit aromas accompanied by soft honey undertones; the taste is refreshing, lingering with zesty green apple flavours.

**Miopasso - Fiano**  
left on the lees and given a light filtration so that the perfectly ripened grapes combine with crisp, citrus acidity to make it fresh and floral with touches of honey.

**Canapi - Shiraz**  
intense garnet in colour and a prominent nose with plenty of blackcurrant, black pepper and spices. The palate is full of dark berry fruit, cassis and cherries.

**Miopasso - Nero d'Avola**  
an incredibly intense nose featuring black pepper and spices. The palate offers layers and layers of fruit with excellent balance and complexity.

# Ohau Estate

## Ohau, New Zealand

Ohau Winery, a new venture in a new region, has been gaining awards since its very first harvest in 2009. Nestled in the small village of Ohau in New Zealand's lower North Island, the estate is crafting a range of aromatically expressive wines with intense fruit flavours.

The area's terraced, alluvial soils are similar to some of the best sites in Marlborough. It has a temperate climate, comparable to Nelson and Hawkes Bay, giving minimal frosts at the beginning and low rainfall at the end of the growing season.

The Tararua Ranges provide a backdrop to the new vineyards at Ohau where 40 hectares are planted, with potential for more further up the valley. The region is well known as an agricultural hot-spot prized for its market-garden produce. For centuries the area has been shaped by the Ohau River, which has laid down deposits of gravel, resulting in a stony yet fertile soil.

Ohau are the first producers to plant in this fledgling region, 40ha were initially planted with vines between 2006 and 2008, 70% of which are Sauvignon Blanc (Pinot Gris being the other signature grape). A variety of different clones and rootstock were used to add diversity and minimise risk. The area now boasts a distinct and unique regional style of aromatic qualities and intense fruit flavours for the grapes.

Jane Cooper is regarded as one of New Zealand's leading winemakers and has won numerous domestic and international awards for her wines. She works closely with her team in Ohau to ensure the best fruit comes off the vineyard, and aims to preserve the distinctive Ohau vineyard characteristics.

Ohau's philosophy is to be courageous, creative and inventive - yet always unpretentious.

*Waitonga Falls - Sauvignon Blanc*  
softly upfront, and somewhat less aggressive than others, though with all the hallmarks of great New Zealand varietal character; gooseberry, grass, nettles and a crisp light finish to captivate the palate.

# Supper Club Wines

## Marlborough & Central Otago, New Zealand

Supper Club draws its inspiration from the Supper Clubs of London during the 1940's where patrons could dine, drink and dance in less formal surroundings. Like its namesake this wine is to be enjoyed in the company of good food and friends. Both the wine and the stylish label should become talking points over dinner; the dancing is optional!

2015 is Supper Club's 5th vintage. It draws its Sauvignon grapes from two blocks - Dillions Point on the Eastern side of Marlborough is more fertile and has silt based soil giving fuller fruit; Rapaura Road's 23 year old vines are planted on a dry old river bed and those stony and flinty characteristics very much come through in the wine.

The Pinot Noir is selected from three single vineyards in Alexandra, Cromwell Basin and Gibbston Valley within Central Otago.

Young 'Rockstar' winemaker Nick Entwistle is responsible for the Sauvignon and has encapsulated all the finest qualities of Marlborough. The Pinot is a collaboration between one of Central Otago's celebrated winemakers Dean Shaw and Supper Club owner Alastair Picton-Warlow.

**Supper Club - Sauvignon Blanc**  
*a true expression of Marlborough, characterised by intense tropical and passionfruit aromatics in combination with more delicate citrus and floral notes. These attributes translate generously onto the palate, which is bursting with tropical fruit, ripe citrus and fine mineral acidity with just 3gm of residual sugar.*

**Supper Club - Pinot Noir**  
*aged in a selection of new to four year old French oak barriques, blended after ten months before undergoing minimal fining and filtration. Bright, rich, redcurrant and blackberry fruit aromatics are followed by a dense palate showing generous, warm flavours, elegant texture and a persistent, lingering finish.*

# Ormonde Cellars

## Western Cape, South Africa

Ormonde Private Cellar is situated in Darling on the West Coast of South Africa, where the rugged Darling Hills roll and fall along the contours of an ancient granite intrusion. These molten rocks, forced from the earth to 300m above sea level, guard the Atlantic Ocean while banks of fog roll to the foot of the hills, blessing the vineyard with coolness and moisture.

The Cape Floral Kingdom is the richest reservoir of plant species in the world, comprising 9600 species. The Darling wine region is home to 600 of these species flowering from September each year. *Gladiolus Carinatus*, commonly known as blouppie, thrives on our terroir and symbolises the unique character and quality of our wines.

Respectful of the environment, Ormonde manage their vineyards with this responsibility in mind and are a member of the Biodiversity in Wine Initiative and in keeping with a 'Save the Bee' campaign they do not spray insecticides.

## Friends of the Honey Bee

Did you know that Bees pollinate over two thirds of the world's crops?

We are reliant on them for much of the food we eat. But the use of insecticides compounded with the loss of wildflower habitats and the mysterious Colony Collapse Disorder has created a serious decline of the bee population.

Planetbee aims to raise awareness of the bee amongst wine drinkers. The back label highlights the importance of this and the problem facing bees. It helps consumers take action as a donation is made on the sale of each bottle and is on target to raise £10,000 for the British Bee Keepers Association.

**50p from each bottle sold is donated to the Friends of the Honey Bee Charity.**

*Planetbee - Chenin Blanc encapsulates the fruit and fragrant blossom aromas loved by bees. It has a welcoming bouquet and is dry and lightly fruited with a crisp finish.*

# McGregor Wines

## Wellington & Robertson, South Africa

McGregor Winery, situated outside the village of the same name in the Breede River Valley, was established in 1948, part of the history and the proud Scottish heritage of the village. The modern day winery continues the philosophy of its founding fathers, to produce exceptional quality wines from the unique and varied soils of the area.

Grapes for Butterfly Tree wines are grown in terroir ranging from the cooler climate of the Rivieronderend Mountains to the more temperate conditions of the King's River Valley. This selecting contributes to the unique wine styles and flavour profiles which make the Butterfly Tree wines stand out.

**Butterfly Tree - Chenin Blanc**  
welcomes you with lively, fruity, guava and green herb flavours with a hint of lime. Prominent on the palate they are well balanced with the initial aromas and a crisp, clean, lingering finish.

**Butterfly Tree - Pinotage**  
a light style with fruity aromas of berries and ripe banana, complimented by delicate wood maturation flavours. An easy drinking, medium bodied wine with soft sweetish tannins.

# Villiera Wines

## Stellenbosch, South Africa

Villiera is a large farm on the edge of the Stellenbosch appellation. For over 30 years the Griers of Villiera have been unlocking the marvels of nature to create the distinctive wines and sparkling wines that bear the family name.

Of the 400ha around half is dedicated to vineyards with the balance set aside as a wildlife reserve. This is the quintessential family business, with cousins Simon and Jeff working in the vines and cellar respectively, whilst Jeff's sister, Cathy, runs the sales and marketing.

One of the early supporters of 'green' viticulture, viticulturist Simon Grier has always been a keen supporter of maintaining environmentally friendly vineyard practices. The farm has not sprayed insecticides for the past thirteen years and a flock of 1000 Peking ducks are responsible for some natural pest control.

The Grier's are also responsible for running several social upliftment projects off the farm, including a day care centre for educating the 30-odd children, belonging to Villiera's farm workers, and an after-school club. There is also a commitment to the Pebbles Project, teaching the kids the benefits of environmental awareness.

Villiera are also highly active in environmental awareness. There is a strong focus on water conservation, recycling and a greening project, which entails the planting of 1000's of indigenous trees on the farm.

This philosophy has led to a vibrant eco-system on the farm, including huge flocks of guinea fowl and pheasant as well as steenbok, Cape foxes, grey mongooses, porcupines and the threatened blue crane.

***Jasmine Fragrant White** - Muscat/Riesling/Gewurz. composed of 43 % Muscat, 33 % Riesling and 24 % Gewürztraminer the grapes are picked slightly earlier than usual to retain freshness and ensure a lighter style. Cold fermentation in the winery also ensures the retention of maximum fruit character A floral, slightly spicy white wine which is fresh, light and slightly sweet (15g/ltr) but complex enough to drink with food (fusion and spicier dishes).*

# Solms Delta

## Franschhoek, South Africa

Solms Delta is an old farm, dating back to 1690, with 23ha of vines planted at the Paarl end of the Franschhoek Valley by owner (and renowned neuroscientist), Professor Mark Solms. The first wines were produced from the 2004 harvest.

At Solms-Delta they celebrate what it means to be South African. The food, the people, the music and, of course, the wine, telling the stories of where they come from and sharing ownership and profits equally with their workers. They bring a sense of pride, belonging and ownership to those who have, for generations, called their historic farm home.

Recent changes in management, the introduction of Rosa Kruger as consultant viticulturist, plus the arrival of two young and talented winemakers in Hagen Viljoen and Joan Heatlie have given the farm a greater focus. The cellar is full of exciting new wines which are set to emerge over the next couple of years.

The wine names are all Afrikaans and, just like the wines and the labels, express the unique identity that one associates with the history and culture of the Cape.

Langarm, or 'straight-arm', is a dance style that captures the mood of the Cape at the end of the working week and often performed to 'Boeremusiek' (farmers' music). It is danced with arms outstretched, like demented surfers. Dismissed as strange and comical by all outsiders, the wine is better appreciated.

**Solms Astor Langarm** - Pinotage|Touriga|GSM  
Langarm is a red Cape blend of Pinotage, Touriga Nacional, Shiraz, Grenache Noir and Mourvèdre grapes sourced from various vineyards, including sites on the Solms-Delta farm. Fermentation is at a warm temperature for maximum fruit extraction but there is no extended skin contact and only a short time in oak. Fruit driven and nicely rustic wine showing supple tannins with plums, stewed fruits and hints of spice.

# Painted Wolf Wine Co.

## Swartland & Coastal Region South Africa

Painted Wolf was founded by Jeremy and Emma Borg whose winemaking adventures began in 2005 with a friend offering some grapes that were surplus to requirements. Their 'home fermentation' experiment has led, via the help of winemaking experts and international finance, to a full time operation.

Painted Wolf is now the preferred name for South Africa's Wild Dog. The winery both supports the conservation of this species and draws inspiration from it - the wines, like the animal, are colourful, energetic and balanced in full flight.

With a shared philosophy and passion Painted Wolf donate 5% of their turnover to TUSK, a long established charity helping the rarest and most endangered of Africa's animals including the dwindling numbers of African Wild Dogs.

Painted Wolf do not own their own cellar but make a 'den' in a winery which can change from vintage to vintage. 'The pack' is made of growers who provide the grapes and wine makers who give assistance. Fruit is sourced from Kasteelsig in Swartland, (one of the most highly rated vineyards in South Africa), Devon Hills in Stellenbosch and Southern Cross and Leeuwenkuil, in Paarl, the latter is the current home to the 'den'.

### *The Den - Chenin*

*blended from three distinct batches - cold fermented, oak contact and significant lees contact. The result has a great texture and a long layered finish.*

### *The Den - Pinotage*

*is medium-bodied with chewy black fruit laced with melted tar, Provençal herbs and fennel, leading to a big, spicy finish with integrated oak.*

### *The Den - Cabernet Sauvignon*

*blended with a little Merlot and Shiraz is medium to full bodied with typical flavours of blackcurrant, brambly fruit, cigar box augmented by toasty oak.*

# Bodegas Lozano

## La Mancha, Spain

Bodegas Lozano was established in 1853 when wine was first produced from their vineyards. Four generations later, the company, which was founded in 1920 when the first winery was built, is the largest privately owned, family run Bodega in Spain and the 5th largest overall.

Situated in the heart of La Mancha at Villarrobledo, Bodegas Lozano own almost 1000ha on two estates within 5 miles of the winery. La Carrasca and Los Salvadores are planted with 11 different varieties. Collaborating with more than 1000 local growers to source and vinify additional requirements the Bodega uses technology that is both modern and managed to the very highest standards.

The winery works closely with the local community and has worked with generations of the same family growers who surround the estate.

“Our lands represent the work and lives of our people and our effort will also be our best legacy.”

### **Aromar Blanco** - Macabeo

*has a light floral nose with a crisp and juicy pineapple and citrus finish.*

### **Costa Cruz Blanco** - Verdejo/Sauvignon

*thirst quenching blend of these crisp tasting varieties gives a wine dominated by citrus and tropical fruits.*

### **Costa Cruz Rose** - Tempranillo/Grenache

*sturdy, typically Spanish blend with dry yet fruity red berries and soft forest fruits on the palate.*

### **Aromar Tinto** - Tempranillo/Grenache

*expressive aromas of red and black fruit; light bodied with cherry and a little spice on the palate.*

### **Costa Cruz Tinto** - Tempranillo/Shiraz

*soft and rounded Tempranillo style with 20% Shiraz; dark berries to the fore and a mellow and delicious finish.*

# Quinta de Aves

## La Tierra de Castilla, Spain

The estate, Finca La Cañada, which comprises 500ha and several farms was acquired in the 1980s. After 25 years dedicated to improving the quality of the vineyards the family of founder Don Manuel Casado Casla decided to start producing and bottling their own wines under the brand Quinta de Aves.

A winery was built in 2006, integrated into the vineyard. An unobtrusive, functional building, partially underground, was designed in line with the company philosophy: respect of the environment, traditions and technological modernity.

The building is on a hill overlooking the countryside. Set within Pyrenean and Holm oak groves, its colours match the landscape and its profile is designed for it to blend in with the surroundings, go unnoticed and leave nature to take the leading role.

The 75ha of vineyards are on a plain at about 725m surrounded by hills; the soil is limestone quartzite and slate. There is little summer rainfall but the subsoil of calcium carbonate has excellent ability to retain water.

The Syrah grapes are sourced from 7ha of 14 year old vines. Harvesting is carried out at night because of the heat. Being close to the vineyards, grapes are able to be transported to the cellar in as short a time as possible. The must is transferred to the tanks by gravity, thanks to the height difference of the hillside. There are 49 stainless steel tanks, digitally controlled and heat is provided by a bio-mass boiler.

There is a current interest in 'Volcanic Wines', and Quinta de Aves is from one of the most important volcanic regions in the Iberian Peninsular - Campo de Catatrava.

Awards:

Gold - Gran Seleccion Castilla La Mancha 2016

Bronze - International Wine Challenge 2016

### *Noctua - Syrah.*

*has a deep, long lasting aroma of red fruits and strawberry with the merest touch of spice; the finish is long and surprisingly soft and silky for a Syrah.*

# Bodegas Torreduero

## Toro, Spain

Toro is one of five DOs found in Castilla y Leon and lies west of Ribera del Duero and northwest of Rueda. The climatic character of the region is harsh and extreme with hot summers and very cold winters. Just west of Rueda, Toro is one of the driest areas of Spain with annual average rainfall of just 12".

Vines that survive produce wines of intense aroma and flavour - historically producing, alongside Priorat, some of the weightiest reds in Spain. The modern style is lighter and better balanced.

Wine making in Toro has enjoyed a long and colourful history pre-dating the Romans. When phylloxera wiped out vineyards in the 19th century, those in Toro escaped due to the region's dry, sandy soils. Vines from here were used to replant vineyards in other regions in Spain and many vineyards in Toro still have pre-phylloxera vines.

In the past 20 years the regions potential has been discovered - by big names from Rioja, Ribera del Duero and Bordeaux establishing their own estates, and by winemakers looking to showcase the best of artisan wines and modern winemaking.

Bodegas Torreduero is a small modern Bodega founded in 2001 situated in the town of Toro on the banks of the Duero river. The running of it is now in the hands of Felipe Nalda Jr - son of Felipe Snr, the winemaker at the noted Rioja producers Bodegas Riojanas, who are the owners.

*Viores Semi Crianza - Tinto de Toro (Tempranillo)  
100% Tinto de Toro (the regional name for Tempranillo)  
with 5 months in new American oak which helps  
develop the full fruity flavours and well developed  
structure that is typical of wines from the region.*

# Ego Bodegas

## Jumilla, Spain

Ego Bodegas, now a decade old, is a boutique winery driven by three concepts - Ego, Talento, Infinito. These are: Ego, the concept of I; Talento, the capacity for the performance or execution of an occupation; Infinito, the limitless power of the dream.

Its 25ha of vineyards include varieties such as Tempranillo and Syrah, but the main focus is on the local native variety Monastrell - many of these vines are about 50 years old. They are situated in a special location within the region of Jumilla, one of the driest wine areas of Spain. The climate means the grapes grow as small bunches with a good concentration of sugar, excellent acidity and thicker skins.

While the surroundings are rural and rustic, the winery and its technology are both modern and meticulously managed. The intriguing Gorú image is that of a local character who lived as a hermit.

**Gorú Blanco** - Moscatel|Chardonnay  
harvested at optimal ripeness, intense aromas are achieved by low temperature fermentation. Typical floral notes from the Moscatel, weight and balance is added by the Chardonnay and an overall crisp finish.

**Marionette** - Monastrell|Syrah  
has had 2-3 months ageing in American oak giving its intense, potent fruit some toasted notes. Smooth in the mouth with a forceful structure, it is vivid, fruity and spicy with delicious tannins.

**Gorú** - Monastrell|Syrah|Petit Verdot  
fuller style than the Marionette with 4 months ageing. Outstanding intense aroma of black cherries and parma violets; ripe fruit adds a rich mouthfeel with spice, soft tannins, vanilla and cinnamon notes on the finish.

**Gorú 38 Barrels** - Monastrell|Cab Sauvignon  
selected quality grapes have 20-30 days maceration and 10 months in French and American oak. Delicate black fruit with smokey notes; structured and subtle with sweet tannins conferring elegance to its fruity intensity.

# Bodegas Almosenas

## Almansa, Spain

Almanseñas is a modern winery based in the Venta la Vega estate, named after a famous ancient hostelry on the Camino Real route.

The winery is located in a privileged natural environment near the town of Almansa (Albacete). It is a land rich in water, with excellent farmland and a perfect atmosphere that generates the ideal conditions to give life to unique and expressive wines.

The 215 ha of vineyards are on limestone soils with pebbles on the surface and have sandy rather than clay areas. Over 100 ha are planted with Monastrell and Garnacha. The average height is 850m above sea level and the climate is a mixture of Continental and Mediterranean.

The Mugron, the legendary mountain formation, is responsible for containing rainfall in the form of storms, avoiding damage to the integrity of the vine, while acting as a natural barrier to pests, creating a special microclimate that makes the land be cultivated in a natural and ecological way, without any chemical or added treatment. At the top of 'El Mugrón', you can find evidence of past civilizations including the ancient Iberian settlement of Castellar de Meca.

This magic triangle, water, earth and air, are the fundamental basis of our concept.

The Bodega specialises in the traditional vines of the region. Aldea is 100% Monastrell (Mourvèdre). The variety can be a difficult grape to grow, preferring "its face in the hot sun and its feet in the water" - it needs very warm weather, a low leaf to fruit ratio but adequate water to produce intensely flavoured fruit that is not overly jammy or herbaceous.

### *Aldea de Adaras - Monastrell*

*aged mainly in steel tanks, though 20% has 6-8 months in new French oak barrels, creating a full, fruity, spicy wine.*

# Bodegas Alvarez de Toledo

## Bierzo, Spain

Alvarez de Toledo family have cultivated vines in Bierzo since the 15th century. The vineyards are located in the “Gold Mile” of El Bierzo’s wine region. This superbly orientated terrain has the best soils of the entire region and surrounds the towns of Villafranca del Bierzo and Valtuille de Arriba.

The land, recognized as a World Heritage Site and World Biosphere Reserve, has a unique microclimate well suited to the agriculture of the area, giving the vines a special character. Being situated in a valley, the climate is mild and humid. The soils are composed of a mixture of fine elements, quartz and slate. Water flows from the mountains down into the valleys. The vineyards are planted mainly on humid dark soil which is slightly acidic and low in carbonates.

Godello is the principal grape planted for white wines in this region and is a speciality of northwest Spain. It is highly aromatic and is noted for making balanced wines of exceptional quality with a great fruity and floral bouquet.

Mencia, the regional red varietal, has something of the light style of good Beaujolais or Loire Valley Cabernet Franc, yet also a character of its own and, with the use of oak, affords good wine makers plenty of room for expression.

### **Alvarez de Toledo - Godello**

*is a fruity, persistent and elegant white with a good backbone to the palate. It has a pale yellow colour with hints of fennel on the nose and, picking up mineral notes from the soil, finishes with light citrus accents.*

### **Alvarez de Toledo - Mencia**

*is aged 10 months in oak and expresses the unique character of the Mencia grape - wonderfully scented, with light yet juicy mulberry fruit and liquorice, nicely structured with age.*

# Quinta del Obispo

## Castilla Y Leon, Spain

Located in an area of exceptional beauty, on a ridge of sandy soil and south orientation, Quinta del Obispo ('The Bishop's Country House') is one of the best vineyards in Albares de la Ribera near León.

The village's origins date back to the ninth century with the establishment of the Monastery of St. Mary and St. Martin, and the estate sits on the ancient vineyards of Don Antolin Lopez, Archbishop of Tarragona in the early twentieth century, in whose honour the vineyard is now named.

With 20ha of vineyards planted in an average altitude of 700-900m. above sea level, Quinta del Obispo presents a portfolio of forward-looking wines planted to benefit from the specific climate and soils of the area. In this land of great wine tradition the grapes are grown using time honoured procedures without ignoring the latest technological advances.

The Chardonnay and Gewürztraminer vines, with an average age of 15 years, are grown on gentle slopes at 780-900m above sea level.

All the grapes are harvested by hand and pass quickly from the vineyards to winery. This process, performed daily in harvest season, ensures the freshness of the fruit and provides an ideal start to the winemaking process.

Fermentation of grapes last for 22 days in stainless steel tanks with wild yeasts from the bunches and a further one month on the lees adds complexity.

*Quinta del Obispo - Chardonnay/Gewürztraminer  
90% Chardonnay with 10% Gewurztraminer; a dry,  
complex wine with intense varietal aromas of green  
apple, ripe peach, fennel and exotic fruits.*

# Bodegas Domino de Tares

## Bierzo, Spain

Grupo Dominio de Tares has always wanted to offer the world the native varieties of north western Spain. The project centres around two wineries: Dominio de Tares, in El Bierzo, and Dominio Dos Tares, in León.

The winery at San Román de Bembibre was founded in 2000, eleven years after the initiation of Designation of Origin Bierzo, and became one of the pioneers in the area.

From the very beginning, it made a commitment to the region and to obtaining the best grapes from the best estates for both the red and white varieties of the region, Mencía and Godello, selected from the vineyards containing the most interesting soils and locations.

Established vineyards with vines between 40 and 90 years old are the keys to the wines. The winery has gone about acquiring them and now has guaranteed access to grapes from 30ha, both owned and leased.

Domino de Tares combine traditional practices in the vineyards with a modern approach in the winery - the aim to produce wines showcasing the essence and uniqueness of the regional varieties. Headed by Technical Director Rafael Somonte it is a young team who enjoys their winemaking - a reflection of the passion they feel for their land - committed to creating wines that are a success among critics and which have put Bierzo on the map.

La Sonrisa's fruit is sourced from vineyards composed of slate and schist over clay-based soil, fertilised with just sheep manure. The grapes are harvested by hand, fermented with natural yeasts and the wine, whilst youthful in style, undergoes five months maturing on its lees in tank with racking every four weeks.

### Awards:

Silver (90 points) - Decanter WWA 2017

89 points - Guía Peñín 2016

### *La Sonrisa de Tares - Godello*

*a captivating citrus scented nose with green apples; the refreshing palate has a mineral acidity, light, soft body and long finish.*

# Bodegas Domino Dostares

## Castilla Y Leon, Spain

Grupo Dominio de Tares specialise in the native varieties of north western Spain. After founding Bodegas Dominio de Tares, in El Bierzo in 2000, it established Bodega Dominio Dostares, situated in Parajes de Los Oteros near León in 2005.

Dominio Dostares is dedicated to proving the great potential of the native variety Prieto Picudo to the world. This rare grape, virtually unique to Castilla y Leon whose name translates as “dark, pointed”, is used to create both light rosés and deeply pigmented reds. In the latter it provides big tannins, retains good acidity and responds well to oak ageing.

Prieto Picudo grows best in difficult terrains, hot and dry being its preference as it has a high degree of drought resistance. Here it is grown on a plateau of clay and chalk over river flints at a height of 850m. Dominio Dostares has some exceptional vineyards, within its 15ha it has vines between 80 and 115 years old including the largest area of hundred-year-old vines still found in the region of Los Oteros.

Cumal vineyards are clay and limestone over river flints, simply fertilised with just sheep manure and each vine yields 3kg. Fermentation is with natural yeasts in stainless steel tanks for 28 days before ageing in 225lt oak casks.

### Awards:

93 points - Guía Peñín 2016

Silver medal - Vinalies 2013

Gold medal - IWC Catavinum 2012

Silver medal - Concours Mondial Bruxelles 2011

Gold medal - International Wine Guide 2011

92 points - Parker 2011

### *Cumal - Prieto Picudo*

*aged for 12 months in French and American oak plus another 12 months in the bottle. A full wine with aromas of red and black berries, rose, almonds and pistachios. A dense palate very dry with big tannins and plenty of ripe wild berries.*

	3419	<b>Agerre - Bodegas Agerre</b>	Txakoli	2015	11.5%		Υ		12	8.49

# Bodegas Agerre

## Getariako Txakolina, Spain

Agerre have been growing grapes in the family owned, single vineyard in Getaria for three generations. Emilio Agerre is the winemaker and currently runs the winery with the help of his wife and son. Annual production is just 12,000 cases.

Txakoli (pronounced 'Tcha-Ko-Lee') is a slightly sparkling, very dry and very crisp white wine with a comparatively low alcohol content. It is produced entirely in the province of Gipuzkoa in the Basque Country.

The Atlantic environment is the perfect habitat for growing the Txakoli grape. The soils are sandy loam over gravel and the steepness of the coastal hills allows further good drainage. The vines range from 10-30 years old, and are trained to a height of around 6ft. helping to avoid moisture from the ground and maximise ventilation.

The wine is made from 100% (Hondarribi Zuria). Fermentation is in whole clusters, which allows for more dynamic flavours. Native yeasts are used and there is 6 weeks of contact with the lees. Txakoli is not a fully sparkling wine but has a natural 'spritz'. It is traditionally poured from head height into the glass held at waist level - this flamboyant serving aerates the wine and helps add a certain 'sparkle'.

Txakoli is perfect light drinking and, for the Basque people, often accompanies seafood pinchos.

### *Agerre - Txakoli*

*a crisp, refreshing wine with a slight effervescence. Notes of fresh citrus and green apple with good acidity and minerality.*

# Vinedos Singulares

## Rias Baixas, Spain

After years of visiting countless wine-producing regions and developing a great deal of experience in producing and marketing wines, the Barrero brothers - Luis and Carlos - created the Viñedos Singulares (Singular Wines) project. The results of their travels are now stocked in some of the best restaurants in Barcelona.

Their journey started in June 1993 when two brothers confess to their father their dream of travelling to Santiago in the summer holidays and they ask him to lend them his beloved old red Seat 128 so that they can drive there.

They are young, adventurous and no more than twenty-five years old. Their father, an elderly, prudent man who is a wine-lover, lends them his car for two weeks in August on one condition: they must return with the best red wine in the Iberian Peninsula.

The brothers, who have been brought up to follow the family wine-making tradition, set off on the journey without believing in miracles, but with the conviction that the most prized treasures are those that have remained undiscovered. Near Santiago, on a local road in the Rias Baixas region, an inopportune flat tyre obliged them to stop and take a walk under the stars to seek help. They come to an old farmhouse surrounded by vineyards.

They knock on the door in desperation and a man opens it. The man offers them shelter and two glasses of wine which he says he harvests and produces using his own methods. It is not a red wine but neither is it of this world. There, in that small winery, they discover the gem they were looking for and their particular pilgrimage makes sense:

Erasmus was quite right when he said, "Wine speaks the truth".

### ***Luna Creciente*** - Albariño

*is made using traditional methods to maintain Albariño character whilst leaving a delicious sensation in the mouth. Crisp and floral, melon and stone fruit flavours with a coastal minerality.*

# Bodegas Pablo Padin

## Rias Baixas, Spain

Galicia has a long winemaking tradition popularized by the Romans cultivating the vine, and later, the Route to Santiago influenced the winemaking techniques. These wines had been exported to other European regions since the end of the Middle Ages, however, for centuries, Galicians kept the privilege to enjoy one of the finest white wines known.

The recovery of the native Albariño variety in the mid-20th century, allowed production of higher quality wines that gained in prestige. The foundation of Rias Baixas D.O. in the 80's was a qualitative leap in the professionalisation of the vine-growers, and placed these wines among the best in the world.

Pablo Padín are the amalgamation of two families who honed their knowledge and experience over years of producing their own wines. In the 1980s they started up a small business project to supply the growing regional market for Albariño wine and have achieved great acclaim.

Bodegas Pablo Padín S.L. maintains all the enthusiasm and vitality to keep improving in order amaze every time their wines are uncorked.

NB - Don't forget to check out their Sparkling Albarino on page 43

Awards Segrel:

Gold - Concours Mondial de Bruxelles 2015

Bronze - Decanter World Wine Awards 2015

Best Spanish White over £10 - Wines from Spain Awards 2014

### *Eiral - Albariño*

*has intense, fruity aromas and delicate hints of flowers, highlighting the strong character, and an excellent representation of the grape - ideal for both enthusiasts and those discovering Rías Baixas.*

### *Segrel - Albariño*

*has great varietal character with marked floral notes plus stand out herbaceous and fruity aromas; a fresh, tasty, balanced acidity with an elegant aftertaste enhanced by a hint of citrus.*

# Bodegas Campos de Enanzo

## Navarra, Spain

Founded in 1958, Bodegas Campos de Enanzo is a co-operative in the town of Murchante, located in the southernmost part of the D.O. in an area called “La Ribera Baja”, meaning the lower river - south of the Ebro. Currently there are 269 “socios” who are shareholders in the operation, cultivating 750ha of vines.

Campos de Enanzo takes its name from the Navarran word “enanzar” which is to be lively, energetic and painstaking at work. They have been working with “enanzo” in the vineyards and winery for more than fifty years.

Ideal winemaking conditions join forces with the age-old, Navarrese, winemaking tradition, which have been handed down from generation to generation and is now scrupulously cared for by the Designation of Origin Navarra.

The grapes used to produce these wines grow on land where the famous Karrikiri bulls (used in the Pamplona Bull Run) once used to graze, giving rise to wines which, just like these animals, are both sturdy and unique.

The co-operative was one of the pioneers in remodelling its vineyards, ensuring they were predominantly planted with noble varieties such as Tempranillo, Cabernet Sauvignon, Viura and Chardonnay. In the last few years it has made significant investments in the latest technologies with the aim of improving grape reception and winemaking facilities.

### **Karrikiri Blanco** - Viura

*the grapes are harvested at optimum ripeness which helps achieve an attractive, bright, refreshing wine that is delicate yet possessing an intense nose with fruity and citric aromas.*

### **Karrikiri Tinto** - Tempranillo|Garnacha

*made from carefully selected Tempranillo grapes with 15% Garnacha blended in. Careful winemaking retains the character of lively red berried fruit with a good balance of softness and grip.*

# Bodegas Paniza

## Carinena, Spain

Located in the town of Paniza, the Bodega was founded in 1953, one of 31 wineries in Cariñena - a region that was a pioneer of the Denomination of Origin categorisation. Cariñena is the oldest of these DOs in Aragón and the second oldest in Spain.

La Fea was the nickname of “Isabel The Catholic” as she was known, the Queen of Castille (1474-1504) and of Aragon (1479-1504).

Unfortunately, she wasn't very pretty and she was not initially popular with the people. However, through her genuine care for her subjects she became renowned and much loved. Their marriage became the basis of the unification of Spain.

Like the Queen, “La Fea” is a range of wines that are powerful and with character!. “La Fea” is an honest wine, clear, that keeps inside a world of sensations to discover, the rootedness to land and the “good-work” of its people along the years.

By closely working with Panizo we have created to exceptional value Reserva and Gran Reserva wines.

These wines reflect the huge potential to be unlocked in Cariena.

Truly well made, oak-aged Reds, are no longer just the province of Rioja and Ribera del Duero.

### **La Fea Reserva - Tempranillo**

100% old vine Tempranillo aged in American oak barrels for 12 months. Complex bouquet of dried fruit, vanilla, balsam and liquorice; delicate, balanced, with pleasant tannins and a persistent fruity finish.

### **La Fea Gran Reserva - Tempranillo|Garnacha|Cab.Sauv**

a 50|40|10% blend aged 24 months in American and French oak. Smooth, harmonious and elegant with subdued tannins, it has a refined finish bursting with vanilla oak and fruity wild red berries.

## Bodegas Paniza

### Carinena, Spain

Paniza's vineyards have parcels of 30 year old vines on calcareous clay soil and a small proportion over 40 years old on alluvial pebble, reserved for the top wines. The highest vineyards go up to an altitude of 850m and benefit from a continental climate: cold winters and hot summers with contrasting cool evenings.

The wines have an excellent concentration of colour, sugar, flavour and aroma. The old traditional bush-vines are hand-picked while new plantings are trellised allowing for a mechanised harvest.

La Fea blends traditional Spanish varietals with recognisable 'International' varietals; a marriage that results in modern, fruit driven wines with a classic Spanish touch.

#### *La Fea Blanco - Viura|Chardonnay*

*lively blend with light maceration. Aromas of apple and pineapple backed by floral notes; the palate is smooth, light, with a pleasing, crisp harmony.*

#### *La Fea Tinto - Tempranillo|Garnacha|Syrah*

*Unoaked blend of 40% Tempranillo, 40% Garnacha plus 20% Syrah. Forward blackberry and dark cherry aromas; smooth and full with an aftertaste of fruit and tannin.*

## Covinca

### Carinena, Spain

Covinca draws on the best grapes from almost 1700 ha of vineyards to process in its modern winery at Longares.

The grapes are hand picked from low yielding 30 year old bush vines in mainly unirrigated plots growing at 600m.

#### *Viña Oria - Garnacha*

*an unoaked 100% Garnacha wine with obvious red fruit aromatics and a mid-weight, easy drinking, well balanced palate.*

# Bodegas Nivarius

## Rioja, Spain

Nivarius translates as 'ice house' or 'snow-drift' and references the common sight in the vineyards in winter. The name Nivei means 'snow'.

Bodegas Nivarius is the only winery in La Rioja to produce solely white wines. Its 11 ha of vineyards dedicated to Tempranillo Blanco - a genetic mutation of a single red vine discovered in 1988 - is the largest planting in the world. Based in Nalda, 17km from Logroño, the La Nevera and Valdecabos vineyards are north facing and 800m above sea level. This aspect and height gives cooler than average temperatures and helps produce highly aromatic, fresh and fruity grapes.

Winemaking is dedicated to preserving the characteristics of the different varietals. To prevent oxidation during pressing, a membrane is used to cover the grapes throughout. Each block is vinified separately, with maceration times and fermentation temperature adjusted to squeeze the most varietal expression from the grapes.

### *Nivei - Tempranillo Blanco/Viura*

*a delightfully refreshing new take on white Rioja - made from a base of 70% Tempranillo Blanco and 20% Viura complemented with Verdejo, Chardonnay, Sauvignon Blanc, and Malvasia varieties. It has an intense bouquet, highly floral with stone and citrus fruits; dry and fresh on the palate - overall, very well-structured.*

### *Nivarius - Tempranillo Blanco*

*100% Tempranillo Blanco fermented in 3500 ltr French oak vats and aged on the lees for 7 months. Its medium intense nose is marked by flowers, white fruit and fennel; the complex palate has a very rounded feel with a final crispness that lengthens the palate to a long spicy aftertaste. Production is only 13,000 bottles.*

### *Nivarius - Maturana Blanca*

*Maturana Blanca is the oldest grape variety known in Rioja mentioned as early as 1622 and now being rediscovered. Nivarius' vines were planted in 2009. It has light spice notes with layers of intense tropical fruit. Its crispness lends an elegant freshness with excellent ageing potential to 2020. 6,000 bottles made.*

# Bodegas Vallemayor

## Rioja, Spain

Vallemayor is the result of the dreams and vision of Luis Perez Fonca. He was forced by an illness to retire from working in the long established family vineyards and began selling wines from his home town of Fuenmayor. After many years he was able to realise his dream of building his own winery to develop his passion for the elaboration of wonderful Rioja wines.

The high quality of these wines ensured a commercial success and Luis' sons took over in 1996, registering the new name Vallemayor for the still family owned business.

Nowadays Luis Carlos and Rafael Perez run the company with the same passion as their father, and still draw on the advice of their mother Fabiola Gonzalez.

The 70ha estate, growing predominantly Tempranillo, is owned by the family and they have direct control over a further 60ha of local growers. The winery, built in 1984, has undergone recent improvements and expansion. A new visitor centre with a beautiful tasting room now welcomes customers and the high quality of the wines is guaranteed by completely new winemaking machinery.

Vallemayor combines modern technology and traditional knowledge for the elaboration of their wines, Fermentation is in stainless steel tanks at controlled temperatures. American and French oak 225 ltr casks for the ageing are replaced when they're six years old, assuring the best quality for the wines.

**Vallemayor & Tondeluna Blanco** - Viura/Sauvignon  
Viura and now with 10% Sauvignon added - light and delicate with refreshing lime and citrus finish.

**Vallemayor Rosado** - Tempranillo/Garnacha  
a 50/50 blend giving a classic Spanish rosé style dominated by expressive primary fruit flavours.

**Vallemayor & Tondeluna Tinto** - Tempranillo  
100% varietal and unoaked and easily appreciated with an expressive character full of red fruits and liquorice.

# Bodegas Castillo de Maetierra

## Valles de Sadacia, Spain

The brainchild of the innovative and exciting Spanish wine producers Vintae. They are not just a wine company, they represent a new way of experiencing wine:

“Only by dreaming of revolutionising the wine world will we be able to do so”.

Vintae are based in La Rioja, but with Libalis they are experimenting with the non-traditional.

Libalis is a unique wine, capable of fascinating consumers with its unique packaging, as well as surprising and seducing the most demanding connoisseurs. Beyond the label is a bottle full of clear, fresh nectar.

Produced mostly from Moscatel, this ancient grape variety is no longer recognised by the DO Rioja - and so can't be sold as such. But that didn't stop Vintae who would rather put out the finest possible wine, than conform to a rigid set of rules.

Libalis is a explosion of taste. It is the beginning of many special moments, as many as you want to create.

This wine is especially suitable to drink in good company, whether with friends, family or your partner, at any time of the day or night.

It pairs perfectly with any type of seafood or fish. It is great for a light lunch or dinner, as it is very light, fresh and easy to drink and it asks for another sip with a good meal.

*Libalis - Moscatel de Grano Menudo|Viura|Malvasía an unusual blend giving a modern, complex wine with a deep, elegant, fragrant and floral bouquet. In the mouth it is an explosion of taste; silky-smooth, fruity; medium bodied and well-balanced with a long and pleasant off-dry aftertaste.*

# Bodegas Vallemayor

## Rioja, Spain

### **Vallemayor Barique** - Viura

the grapes from 50 year old vines are picked at full ripeness and have a double fermentation in oak giving vanilla, ripe pears and toasty notes from the wood.

### **Vallemayor Viña Encineda** - Tempranillo

100% Tempranillo from 25 year old vines in a single estate, with 6 months in new American oak and bottled unfiltered. The final wine is reminiscent of the oldest vinification methods - wonderfully structured.

**Tondeluna Crianza** - Tempranillo|Mazuelo|Graciano  
90%,5%,5% blend of grapes using toasted American oak to give more softness and sweetness with an upfront bouquet of red fruits, liquorice and vanilla.

**Vallemayor Crianza** - Tempranillo|Mazuelo|Graciano  
same proportions as Tondeluna but a different use of oak to give more complexity: aromas of black cherry and dark fruits, toasty notes from the wood and secondary sensations from the malolactic fermentation.

**Vallemayor Reserva** - Tempranillo|Mazuelo|Graciano  
85% Tempranillo, 10% Mazuelo, 5% Graciano. Red fruit and hints of liquorice come from the grapes; vanilla, coffee and spice notes from the oak appear on a secondary level, diffused behind the fruit.

**Vallemayor Viña Cerradilla** - Tempranillo|Mazuelo  
from Vallemayor's prize estate of 60 year old vines on a south-south-east unirrigated slope of chalky, stony soil. The 90% Tempranillo and 10% Mazuelo grapes have a long ageing - 20 months in new French oak.

**Vallemayor Gran Reserva** - Tempranillo|Mazuelo|Graciano  
80%,10%,10% blend with a stately character. Due to its long stay in bottle, the first sensation is that of poise, then a building intensity that denotes its oak ageing and gives good fruit development.

# Bodegas Castelo de Medina

## Rueda, Spain

Castelo de Medina, founded in 1996 by three wine lovers, is based in the heart of Rueda, in a little village called Villaverde de Medina.

The 190ha of vines, are planted on a plateau 750m above sea level where, sheltered by surrounding mountains, summer temperatures reach 30-40C though with cool nights. The vineyards are situated next to the winery, thus ensuring complete freshness during the harvest.

The winery is built in traditional Castilian architectural style: face brick, stone, wrought iron and wood. It has advanced technological equipment allowing high quality elaboration whilst maintaining the traditional principles of the area, and concentrating on white varietals, notably Verdejo, the native grape of the region, and Sauvignon Blanc. Progressive and innovative in their approach to wine making, the results are superb; from the crisp racy Vega del Pas wines, to the fuller, more structured whites under the Medina label.

The winery are regular award winners - the highlights of which are Gold for Medina Verdejo & Medina Sauvignon in the Spanish CINVE tasting, Silver for the same wines from Concours Mondial de Bruxelles and Silver and Commended respectively at the International Wine Challenge.

### **Vega del Pas - Verdejo**

*offers a fine varietal style giving aromas of grass, fennel and tropical fruits; balanced and crisp on the finish.*

### **Vega del Pas - Sauvignon Blanc**

*sits between dry French and aromatic New Zealand styles of Sauvignon - peachy fruit and pears dominate.*

### **Medina - Verdejo**

*has aromas of fresh-cut grass, anise, fennel, and hints of apple. In the mouth, it is ample, robust, fresh and very well-balanced with a persistent finish.*

### **Medina - Sauvignon Blanc**

*crisp with aromas of tropical fruits; grassy and fresh in the mouth with a lovely smoothness across the palate and finish that is very long with a lingering sensation.*

# Bodegas Trus

## Ribera del Duero, Spain

Bodegas Trus was born in 1999 with the aspiration and idea of producing wines of great quality and personality that are a true reflection of "pais y pericia" - 'country and expertise'.

Bodegas Trus is located in the cradle of the Ribera del Duero. The quality of its wines is intimately related to the provenance of the grapes. The vineyards are in the triangle of Pesquera, a privileged area due to its ideal micro climate and height. Trus benefits from the orientation of their vineyards, within the valley up to Pinel de Abajo, that are at an altitude of 800 metres.

'Trus' stands for Tierra, Roble, Uve and Sol - Earth, Oak, Grape and Sun. It is an acronym used to symbolise the coming together of these four natural elements to create perfect wines.

**EARTH.** A rich variety of minerals in the ground contribute to the personality of the grapes.

**OAK** barrels hand crafted in the best tradition and used to perfectly compliment the wine as it gently ages in the cellars.

**GRAPES** hand selected from the finest local varieties, best adapted to the local conditions of Pesquera in the Ribera del Duero.

**SUN** "the element that leads." Plenty of sun throughout the year brings top quality grapes, perfectly ripe for the vintage each September.

**Tramuz** - Tinta del Pais (Tempranillo) has a vibrant purple colour, a complex nutty nose and palate dominated by fruit aromas of cherry and cinnamon, its softness and approachability enhanced by 3 months in French oak.

**Trus** - Tinta del Pais (Tempranillo) oak aged for 4 months, it is soft and reminiscent of spicy, vanilla chocolate that mingles with flavours of cherry, plums and figs on an earthy, smokey finish.

# Bodegas Martin Berdugo

## Ribera del Duero, Spain

Martin Berdugo founded in 2000 are a modern, progressive, family company; easily witnessed by the contemporary architecture of the winery and the minimalist 'spot' motive on the labels. Less obvious though is their constant evolving and experimentation with the wine making.

Martin Berdugo looks for improvement at every harvest and have a passion to bring what they call an "element of difference" to those who share their taste and wine philosophy: one of style, flair, communication, discovery and "the creation of unforgettable moments".

The estate consists of a single 87ha vineyard of Tinto del Pais (Tempranillo) grapes located and surrounded by the Duero River; a major part of the vineyard is on alluvial beds covered with large stones.

The quality of the wines is influenced by a number of natural factors and, importantly, an attitude that "everything counts" - the use of leading edge technology to help in grape selection, meticulous spring and summer pruning, weather predictions and terroir profiling.

The location of the cellar - surrounded by the vineyard - guarantees the reception of the manually harvested grapes in optimal conditions, where after the wine is vinified in sixteen 25,000 litre stainless steel vats and aged in 360, mainly American, oak barrels.

**Berdugo Joven** - Tinta del Pais (Tempranillo)  
*a fashionable wine with a young soul; unoaked with plenty of red fruit character, it will make fine drinking for two to four years after harvest. Both their wines are bottled unfiltered.*

**Berdugo Crianza** - Tinta del Pais (Tempranillo)  
*is aged in new oak barrels for 12 months to provide notes of a wider spicy complexity but always keeping its fruity personality; it will develop for up to ten years.*

# Bodegas Masia Can Mayol

## Penedes, Spain

Loxarel is the brand name of the 4th generation family owned estate which, under the vision of Josep Mitjans, converted to organic production in 2002 then biodynamic in 2005. The 50ha of vineyards, located high in the mountains, are structured around environmentally friendly production not simply organic cultivation. For example, Loxarel carry out green pruning with a flock of 250 sheep and goats which eat the vine leaves without touching the fruit as, before they mature, the grapes are too astringent and unpalatable.

Highlighting their concern for the environment, labels take their names from Goddesses of earth and fertility in Greek and Roman mythology. The Loxarel range mixes modern experimentation with tradition; organic and bio-dynamic certified, all the wines are bottled unfiltered.

### **Cora** - Muscat|Xarel-lo

has light honeysuckle and floral aromas from the Muscat; the palate is dry with a bracing citrus crispness from the Xarel-lo.

### **Amaltea Blanco** - Garnatxa|Xarel-lo

Grenache Blanc and Xarel-lo grapes give fine tropical fruit and ripe pear aromas, plenty of weight for a dry wine with a fresh and balanced acidity.

### **Petit Arnau** - Pinot Noir|Merlot|Xarel-lo

sports a dominant orange pink colour; it is a typically full style Spanish rosé - powerful and dry with dramatic red fruit attributes.

### **Ops** - Garnatxa Negra

now 100% Grenache with malolactic fermentation and five months in clay amphoras during its vinification; a full wine with great tannins and structure.

### **Eos** - Syrah

malolactic fermentation in barrels and the oak ageing give sweet vanilla on the nose and palate; elegant spice notes add to its coffee and dark cherry finish.

# Vinedos Singulares

## Monsant, Spain

In June 1993 the young brothers dreamt of travelling to Santiago and asked their father to lend them his beloved old red Seat 128 to drive from Barcelona. This trip ignited their desire to discover wines.

15 years later, having developed a great deal of experience in marketing, the Barrero brothers - Luis and Carlos - created the Viñedos Singulares (Singular Wines) project. They began another journey searching out the best wines of Spain. The results of their travels are now stocked in some of the best restaurants in Barcelona.

### *El Veinat - Garnatxa (Grenache)*

*sourced from vineyards planted in the 1990s this has an aromatic bouquet of red fruit, vanilla and herbs. A subtle, balanced wine with silky tannins and a fresh, light feeling in the mouth.*

# Bodegas Cellars Unio

## Priorat, Spain

Cellars Unio has its roots in a 1940s farmers' union based in the Catalan city of Reus. It is now a co-operative covering 4400ha and 4 cellars with a strong commitment to the land and the people working it.

The vines grow in poor, rocky soils. They are planted on mountain slopes in terraces at an altitude of between 100 and 700 metres above sea level. Most of the land in Priorat is composed of silica slate, known by the locals as "llicorella", and it is the llicorella that gives Priorat wines their unique character.

Average production per vine is often less than 1kg, and this bestows excellent properties upon the grapes, which become pure gold in the hands of a good winemaker.

### *Tendral - Garnacha/Mazuela*

*is full-bodied and concentrated, with 6 months oak aging. Aromas of red fruits, with hints of raisins plus chocolate and opulent spice in the mouth, the finish is very long and well-balanced.*

## California, USA

California's wonderful year-round weather is as good for their wine as it is for their population. Laid back, easy going and fun.

Abundant sunshine ensures a consistent and long grape growing season, while the diversity of our terroir supports a multitude of winegrape varieties and surprising flavour variation within them.

California's 1,300 kilometers (800 miles) of rugged coastline expose nearby vineyards to natural "air conditioning" in the form of fog and breezes, making for exceptional Chardonnay, Pinot Noir and other cool climate varieties. Warmer interior valleys receive the same cooling effect thanks to rivers, lakes and deltas, perfect for richer, fuller Zinfandel.

Hard-earned secrets of soil, climate and vine have been passed from generation to generation, providing California wine with its unique legacy and spectacular range.

You might say Californians are serious about wine and relaxed about everything else. Well, maybe not everything else: from a thriving technology industry to revolutionary green farming, they work hard and innovate constantly.

But when you're surrounded by natural wonder and constant sunshine, it's pretty easy to smile. Of course, a glass of California wine always helps.

**Sun Gate - Chardonnay**  
*is Californian sunshine in a glass. A delicious, light-bodied Chardonnay packed full of citrus, apple and floral notes with the just lightest touch of vanilla.*

**770 Miles - Zinfandel**  
*is a classic rich Zinfandel from California's Central Valley. Flavours of coffee, blackberries and red berries on a warm and very lingering finish.*

**Waters Edge - Zinfandel Blush**  
*is a soft fruity gently sweet rosé wine with hints of strawberries and raspberries. All you need is a bucket of ice to go with it.*

# Wilson Vineyard

## Clarksburg, California, USA

The Wilson Family has been farming the fertile land in Clarksburg for over three generations. Nestled among the Sacramento Delta waterways just east of the San Francisco Bay Area, the fertile Clarksburg AVA extends into three counties. Most of its wine-growing areas are contained within Yolo and Sacramento counties, with a small southern portion in Solano County.

The climate in Clarksburg features warm days tempered by cool coastal winds and fog which moves inland from San Francisco Bay. The terrain is mostly flat with mineral-rich alluvial, clay and silt soils. These soils suit a limited number of the noble wine-grape varieties, most of which are fussy, requiring free-draining soils and reliable warmth. The over-fertile, poor-draining soils found across Clarksburg are more suited to high yields than high-quality, refined wine styles.

The Crusher Wines are a testament to an enduring partnership between the winemaking tradition of the Sebastiani family and the Wilsons, a respected grape-growing family with deep roots in Clarksburg, California.

Fittingly named for the point in the winemaking process where the fruit of one family's labours literally gives way to those of the other, The Crusher wines highlight the vibrancy and beauty of the fruit produced in the up-and-coming Clarksburg appellation.

Much like Napa Valley just 20 miles to the West, considerable temperature fluctuations between cool nights and hot days make Clarksburg perfectly suited for growing premium wine grapes. Despite this, land remains more affordable and wines from the Clarksburg appellation are quickly gaining a reputation for outstanding quality and value.

### *The Crusher - Viognier*

*A full bodied wine with rich, ripe and rounded fruit. There is an immediate impact from the aromas of pear, green apple and honeysuckle. On the palate there are apricot, orange zest and sweet pineapple with a hint of toasted coconut. The finish is big and impressive.*

# {Noble Vines}

## Monterey, California, USA

{Noble Vines} focus on selected clones of well known grape varieties - vintners have historically singled out the most admired vines, naming each with a unique number to identify its exceptional attributes. {Noble Vines} have planted in their prime located, family owned estates - Clay Station and San Bernabe - where the vines will flourish best.

Located seventy-five miles east of San Francisco, Lodi is noted for its warm day, cool night Mediterranean climate and its distinctive sandy and cobble-stone soils which provide the ideal environment for Cabernet grapes. Clay Station Vineyard is located at the foothills of the Sierra Nevada Mountains.

Monterey benefits from its proximity to the Pacific Ocean; warm days and cool nights with fog blown down the valley determine the perfect growing conditions for Chardonnay and Pinot Noir - developing ideal flavour, concentration and balance in the wines. The gentle slopes of San Bernabe Vineyard give one of the most diverse single vineyards in the world, with multiple microclimates and varying in soil types.

*{Noble Vines} - 446 Chardonnay is made from grapes of a single vineyard; the juice has undergone malolactic fermentation, battonage and oak ageing - medium bodied with creamy spice.*

*{Noble Vines} 337 - Cabernet Sauvignon aged in American and French oak it exhibits appealing aromas of black cherry, ripe currant and lightly roasted coffee notes.*

*{Noble Vines} - 181 Merlot aromas of black cherry, vanilla and toasty spice; soft tannins and fresh fruit flavors of currant and cherry mingle gently with spicy cedar and vanilla.*

*{Noble Vines} - 667 Pinot Noir is cool fermented and has a little light oak barrel-ageing in a mix of French and American oak. It shows wonderful aromas of black cherry; earthy with a touch of vanilla.*

# Rutherford Wines

## Lodi, California, USA

Rutherford Wine Company, 50 years old and spanning 3 generations, is family owned and managed with a portfolio of wines representing the rich diversity of California's outstanding appellations.

The winery is located on Napa Valley's scenic Silverado Trail. Of Napa's 14 designated AVA's (American Viticultural Area), this district is renowned for producing unsurpassed premium varietal grapes. Rutherford have been critically acclaimed in the Wine Enthusiast, Wine Spectator and Decanter. Robert Parker described them as "best value in Napa Valley" and they were named 'Napa Winery of the Year' at the 2013 New York International Wine Competition.

What is outstanding is their uncompromising and ecologically far-sighted approach to wine-making. This is an ethical imperative for Rutherford. They are more labour intensive than other commercial winegrowing methods, the efforts are rewarded with fruit rich in flavour and character - and great fruit is a prerequisite for making great wine.

Rutherford are committed to sustainably farming, producing and bottling their wines. The winery and estate vineyards are certified sustainable by the California Sustainable Winegrowing Alliance. Responsible farming is good for the land, good for the grapes and ultimately good for the wine.

This is philosophy witnessed in the Predator which references not the strength of the wine but "Natural Predation" - an eco-friendly strategy to control harmful insects in the vineyards. The label displays a Ladybird, a natural insect predator, which feed on destructive aphids in the vineyards.

### *Predator Old Vine - Zinfandel*

*harvested from 50 year old vines, the grapes produce a wine that is very concentrated and complex. Great fruit-forward flavours of sweet black cherries and raspberries, with bold aromas of exotic spice. A real "chewy" wine.*

# Bodegas Baron

## Sanlúcar, Jerez, Spain

Bodegas Barón can trace its origins back to 1631 and thus be the oldest of sherry bodegas. It has been in the hands of its current family since 1984 and now headed by two dynamic young brothers. It is both one of the oldest and one of the most progressive quality producers.

They have 14ha of vineyards and two bodegas. Molinillos, the oldest in Sanlúcar, whose central naves date back to 1631 and where the 150 year old soleras of Anselmo Paz are held. The larger, more modern, El Hato is used for storage and holds 10,000 butts.

### **Micaela Manzanilla**

*pale straw colour, clean intense aromas of fruit and cut grass; classic salty notes on the palate with refreshing crispness on the finish.*

### **Micaela Fino**

*golden yellow with copper notes and a nutty aroma. It is dry and expressive with plenty of dried fruit character on the palate and some saline and iodine notes.*

### **Micaela Amontillado**

*rich golden colour with a nose bursting with chocolate, caramel, almonds and wood. Silky palate - almonds resurface with a touch of spice in the flavour profile.*

### **Micaela Cream**

*dark amber with an intense smell of caramel and almonds which characterise the palate along with raisins and candied fruit.*

### **Micaela Oloroso**

*deep and rich with lively aromas of orange peel, almonds and hazelnuts. The taste is dry and powerful rather than sweet with a sharp and crisp finish.*

### **Micaela PX**

*dark and sweet with raisins and figs on the nose supplemented by coffee, chocolate and liquorice on the palate to give a warming, velvety mouthfeel.*

# Bodegas Barón

## Sanlúcar, Jerez, Spain

After the Micaela range, Xixarito represents the second tier of wines from Bodegas Barón. An uber fashionable design led label is aimed at the more discerning and style conscious consumer or establishment. The montage of images depict events in the family's history.

Soluqua is Barón's premium range, sourced from the old wines that used to be reserved for family consumption - now made available to all. Named after the Latin for Sanlúcar, the themed labels are inspired by the traditional mudejar tiles seen around the town.

### **Xixarito Manzanilla**

*delicate bouquet reminiscent of camomile, almonds and brioche. The palate is dry and refreshing with a smooth, lingering aftertaste.*

### **Xixarito Amontillado**

*deep amber with subtle aromas of hazelnut, herbs and spice. Its development on the palate is complex with the long aftertaste including nuts and wood.*

### **Xixarito Oloroso**

*mahogany colour with pronounced aromas of walnuts and balsam plus truffles and leather. The taste is round and full bodied; the finish long and complex.*

### **Xixarito PX**

*ebony coloured with great viscosity. The nose is dominated by dried fruits - raisins, figs, dates - plus chocolate and coffee and a rich sweetness to the palate.*

### **Soluqua Manzanilla**

*intense bouquet of wood, flowers and nuts. It is very dry with great weight on the palate to balance the acidity and crisp bitterness on the finish.*

### **Soluqua PX**

*aged throughout in American oak; a dark, dense and mature sherry with aromas of roasted coffee, honey, brandy and cherry liqueur with a raisiny palate.*

# C N Kopke

## Oporto. Portugal

Established in 1638 by Christiano Kopke and his son, Nicolau Kopke, the House of Kopke is the eldest Porto wine export firm. Through many generations, the Company was run by several representatives of the Kopke family, obtaining an excellent reputation for its wines.

Kopke passed to the Bohane family at the end of the 19th century, who tried to run it from London, where they had most of their economic interests. The distance and the two World Wars disabled the control of the Company and they decided, then, to sell it.

In 1953 and after some negotiations, Manuel Barros, bought Kopke and since then it belongs to the Barros Group which includes other port houses such as Hutcheson and Feuerheerd. Manuel Barros and his Sons, João and Manuel, ran the company until the middle of the 1970s.

In 2006 the Sogevinus Group, looking to widen its presence in Port wines, took control of the company, the vineyards and production of Kopke along with Hutcheson and Feuerheerd.

### **Kopke Fine White**

*Oak-aged for 5 years giving a wonderful, medium-sweet style; a sweet citrus and lemon verbena finish is balanced by good acidity like an expensive Sauternes.*

### **Kopke 10 Year Old Tawny**

*attractive red-tawny colour; rich and delicate nose, dominated by the intense presence of dried fruits and vanilla notes with a well balanced palate and finish.*

### **Kopke Late Bottled Vintage**

*complex and aromatic nose, on which the intense aromas of very ripe berries prevail, especially blackberry and raspberry, with subtle notes of pepper and wood.*

### **Kopke 10 Year Old Tawny**

*spicy aromas add to the dried fruits and the elegant notes of wood and honey. Smooth and round with a nutty character to the aftertaste.*

# MORGENROT - TERMS & CONDITIONS

## 1. Availability

Stock availability, technical information, vintages, grape varieties any other product specific data are subject to fluctuations or change without notice.

## 2. Prices

We reserve the right to change prices without notice.

## 3. Terms

a. The prices quoted are exclusive of VAT. Cash is payable on or before each delivery.

b. Credit account payments will be due in accordance with any agreed terms set between the seller and buyer, these agreed terms will be subject to change at any point by the Morgenrot (herein after called the Seller).

c. Overdue accounts: Interest at 2% per calendar month will be charged thereafter on all overdue accounts without any prejudice to our rights to pursue such outstanding sums.

## 4. Payment

a. by Cheque/ BACS / Standing Order made payable to Morgenrot Group PLC. Payments are accepted with prior arrangement and confirmation with a director of the Seller otherwise no liability can be accepted.

It remains the responsibility of the buyer to ensure that any payments made to the seller or its representatives are receipted, either by asking for a receipt or that any payments made are acknowledged and signed for as being received upon the delivery note or invoice.

b. We regret that further orders will not be despatched whilst any overdue account remains unpaid and shall be liable to be put on stop until settlement is received.

## 5. Delivery

Delay in delivery shall not give rise to any liability upon the Seller or entitle the Buyer to cancel the contract whether or not any time or date is given for delivery. The goods shall be at the Buyer's risk on any delivery or collection to the Buyer arranged by the Buyer's carrier. Damage in transit: When the price of the goods includes the cost of delivery outside the Seller's premises, the Seller will replace, free of charge, goods lost or damaged in transit, provided the Buyer or consignee shall:

a. Give the Seller notice by telephone on the day of delivery, confirmed in writing within three days from the day of delivery, detailing the nature of the loss and damage; and

b. Where the goods are delivered by outside carriers comply with such carrier's conditions of carriage for notification of such claims.

c. Return of stock due to fault or condition, can only be accepted if legitimate fault, due to product or its packaging. Any damage that is judged to have been caused due to negligence by the buyer will not be accepted for credit.

d. The Buyer is required to provide correct information for delivery, the seller takes no responsibility for the delay or return of stock due to information being incorrect and will apply re-delivery passed on by our carrier.

## 6. Claims

a. Direct, indirect or consequential loss or damage: except as provided in 5b of the Unfair Contract Terms Act, 1977 (liability for death or personal injury resulting from negligence), the Seller accepts no responsibility in any circumstances for any direct, indirect or consequential loss or damage, howsoever arising, which the Buyer may sustain in connection with goods supplied.

b. Indemnity - the Buyer shall indemnify the Seller against all claims in respect of any loss, injury or damage sustained by a third party arising from the sale of the goods to the Buyer howsoever caused.

## 7. Title

a. The goods shall be retained by the Seller until payment in full is received. In the event of non-payment by the Buyer by the payment date or if the Buyer shall in the opinion of the seller be unable to settle their commitments, the seller shall be entitled to enter any premises where the goods may be and recover possession of same.

b. Under no circumstances shall title pass to another party until full payment to the Seller.

c. Any conditions of contract that the purchaser may purport to impose shall form no part of the contract between the purchaser and the company. Any variation of these terms and conditions of contract must be agreed in writing and none of the company's employees or agents has any authority to bind the company by any oral agreement at variance with these terms and conditions of sale.

d. In the event of stock being returned to settle any outstanding account, the value of that stock shall be assessed and will only be accepted upon the possible re-sale of that stock, which will affect the actual value of the goods after taking into account the original date of purchase, vintage and condition of products returned.

## 8. Credit Accounts

a. Credit accounts opened only on completion of a customer assessment form, and upon the approval of a bank and two trade references, and home address details.

b. A new business, which cannot supply trade references would require a personal guarantee to be completed by the owner or chief executive of the business requesting credit.

## 9. Force Majeuro

This "Seller" shall not be liable for the failure to fulfil any terms of any transaction governed by these conditions of sale if fulfillment has been delayed, hindered or prevented by any circumstances whatsoever which is not directly within its control.

## 10. Law

The contract shall be subject to and interpreted in accordance with the laws of England and Wales.

**ORDERS CAN ONLY BE ACCEPTED ON CONDITIONS OF CUSTOMERS AGREEMENT TO THE ABOVE CONDITIONS.**

**Prices** are subject to market fluctuation, exchange rate and Government duty or vat increases, or goods remaining unsold. Split cases may incur a surcharge and individual picking charges from our bonded warehouse.
