ORDER TODAY WWW.MRMIDDLETON.COM

Unusual Treasures for your Garden from Mr Middleton

At Mr Middleton we are very proud of our reputation supplying top quality flower bulbs to generations of Irish gardeners. In the last 40 years we have introduced more new varieties than any other garden supplier in Ireland and this spring is no different with over 50 new introductions. Many of the varieties we supply are exclusive to Mr Middleton and are only available in small numbers so early ordering is advised.

Our catalogue contains just a sample of the many exciting varieties we sell, many more are available online. Thank you for your support over the past 47 years, we look forward to providing exceptional customer service for many years to come.

WINNER 13 GOLD MEDALS
BLOOM FLOWER SHOW

Mr Middleton supplying Irish gardeners with top quality plants for 47 years.

DELIVERY TIME

Covid 19 has given us all many challenges, for our business the challenge has been around obtaining stock from growers or factories in parts of the world that may be in lockdown.

Buying from us is not like buying a book or a CD, which just has to be picked and packed from a warehouse shelf. We offer specialist plants that come from around the world. Our roses and fruit are grown in Ireland, France, Germany and Holland. Plants must be lifted from the field, inspected to ensure they are certified disease free, then root wrapped and transported to our nursery. Bad weather in any part of Europe can cause delays as growers may not be able to get machinery into the field equally, a Covid lockdown can cause a long delay. Early ordering helps ensure you receive the varieties ordered. We will dispatch your order as soon as possible, please allow 21 days for delivery.

SPLENDID FOXGLOVES

Exceptionally long flowering foxgloves create a dramatic statement all summer. Fabulous densely packed spires of spotted blooms are held high above semi-evergreen foliage through summer and into autumn. Loved by bees and happy in sheltered borders and containers. Prefer moist, well-drained soil in sun or part shade. Hardy perennials/biennial.

GROW THE TALLEST TREE LILIES EVER

Tree Lily Collection

Tree lilies are the breathtaking result of years of painstaking breeding; these incredible varieties of Oriental lily can grow as tall as 2.5m (8ft) in as little as two years. One single Tree Lily bulb can produce up to thirty 20cm (8") trumpet blooms and will take on a shrub-like appearance over the years. The sturdy stalks are almost 5cm (2") thick, so they won't need supporting and the foliage remains lush all season. It couldn't be easier. Grow them through shrubs in borders, against walls and fences, or in large pots for the patio, and let them look after themselves. Height: 2.5m (8'). Spread: 60cm (24"). Each collection contains named varieties, 2 bulbs of each.

6 bulbs €16 Code SB003

12 bulbs €29 Code SB003A

CANNA APRICOT FROST

Compact and free-flowering, Canna 'Apricot Frost' produces eye-catching clusters of huge, pale apricot flowers adorned with gold and deep pink. Adding a strong ornamental interest and immediately give a touch of the tropics to your garden. Aug – Sept 100cm

PLANTS FOR POLLINATORS

Irish grown plants for bees and insects.

Save €30

Wild bees and other pollinators are in decline. Introduce these pollinator friendly plants and flowers to your garden and help bees, butterflies and other beneficial insects to flourish while keeping your garden productive and beautiful! We will select 10 exceptional named varieties for their stunning blooms, glorious fragrances, elegant foliage and a broad range of heights and spreads. Just perfect for creating a cottage garden or filling in gaps in your borders! These exciting perennial plants are exceptional value for money and will get bigger and better each year, filling your garden with colour as well as attracting bees and butterflies.

Perennial plants are generally better sources of pollen and nectar than annuals but they are also cost effective as they grow and flourish over the following years.

Many of these plants will be productive in your garden for 10 years or more, filling your life with beauty while helping the bees and butterflies as well. Includes Salvia, Echinacea, Verbascum, Achillea, Nepeta, Echinops, Scabiosa, Kniphofia, Sedum, Geum. Contents may vary.

HARDY CALANTHE ORCHIDS

We first exhibited these spectacular showy unique plants at Bloom where their brilliance won us a coveted Gold Medal. Working with one of the world's top breeders we are delighted to make these unique plants available for the first time.

Calanthe are hardy orchids with magnificent flowers that often boast a clove-like fragrance. These are very rare orchids in the wild. Although you may be under the impression that hardy orchids are hard to grow, calanthe are not.

Calanthe orchids prefer light shade and will flower best in slightly moist, rich garden soil but they also tolerate very dark dry shade. They are very easy-to-grow shade perennials that multiply into very large clumps clothed in small but plentiful long spikes that carry dozens of flowers in shades of yellow, pink, red and white.

€20 each Code SB262

BUDDELIA BUTTERFLY TOWER

World Exclusive Butterfly Magnet

Buddleja 'Butterfly Towers' is a world exclusive, from Thompson & Morgan's own breeding programme! This unique, upright Buddleja has a tall, columnar habit, which forms a majestic tower of mauve-purple flowers. Each large, upward-pointing flower provides a valuable source

of nectar that will attract bees and butterflies all summer long. This slender hardy shrub is reliable and easy to grow. It demands much less space than traditional varieties, making an excellent hedging plant for creating colourful garden screens. Height: 2m (6'). Spread: 1m (3').

SECRET TO A PERFECT LAWN

New exclusive Mo Bacter Organic Lawn Fertilizer and Moss Destroyer

MO Bacter slow release organic fertiliser from Belgium is a granular organic fertiliser which destroys moss, feeds grass and improves the soil all in one. MO Bacter Organic Fertiliser is a unique moss destroyer as it will not send your moss black and saves you from back breaking work

One of the major benefits is it destroys moss without leaving any of the unsightly black debris. The dead moss is actually digested by the bacteria (bacillus sp) which is found naturally in the soil but when added to fertiliser it

consumes dead material like thatch and moss making it unnecessary for raking or scarification after treatment... Leaving your lawn looking healthier.

Being organic it is totally safe and unlike some weed and moss killers is not harmful to you, your children or animals. It will not burn plants in your borders if you should spread it beyond your lawn, it does not stain stonework, patios or paths – a massive bonus!

BABYLON EYES

Meet our shrub rose collection 'Babylon Eyes': compact, single-flowered roses producing a rich display of red, yellow, pink or orange flowers with an eye-catching centre in a contrasting colour. 'Babylon Eyes®' produce flowers from March/April until far into autumn, and this shrub rose requires no deadheading. These characteristics – and their unique eye-catching flowers – also make Babylon Eyes roses the perfect choice for use in pots and containers. The introduction of the Babylon Eyes was an immediate success being distinctively different: mass of blooms, continuous flowering, eye catching colours, lush green foliage, compact bushes and strong disease resistance.

ROSE 'SUNSHINE BABYLON EYES'

Constantly in bloom – all summer long, their unique eye-catching flower makes Sunshine Babylon roses the perfect choice for use in pots and containers, lush green foliage, compact bushes and strong disease resistance with a soft scent. Ht 40cm.

BONICA

Excellent Groundcover

A very pretty, yet tough rose, bearing dainty clusters of fragrant flowers on a nice sturdy shrub. Bears dainty clusters of attractive, small to medium-sized, mid pink flowers. They will be followed by a wonderful crop of bright red hips, which last long into the winter. It forms a nice, sturdy shrub with tidy, spreading growth and ample foliage. It is hardy, very healthy and extremely reliable, making it one of the most widely planted of all roses. An excellent choice for covering a bank where low maintenance is required.

ROSE BLACK BACCARA
The florist rose you can grow
in your garden

While bred for the florist trade, this one of a kind hybrid tea also has what it takes to flourish in outdoor gardens. A fantastic highly fragrant Hybrid Tea rose. Deep near black buds and young flowers becoming lighter as the flower matures with tightly bound reflexing velvety petals suspended on tall stems amongst dark glossy green foliage. The velvety texture of the petals and unique burgundy-black colour of the blooms is an instant success in any cut flower garden. The flowers last up to 2 weeks in a vase. Semi-glossy dark green foliage lines the long stems. Enjoy flushes of these beauties throughout the season.
