MP ink achieves natural and high quality prints on a wide range of media

<p>MPink</p> <p>OK! PRESS Strong against bending and stretching</p>	<p>Latex ink</p> <p>OK! PRESS Due to ink fixation at high temperature, available applications are limited</p>
<p>UV ink (soft type)</p> <p>OK! PRESS Strong against bending and stretching, but the printed surface is rough and less color developing</p>	<p>UV ink (hard type)</p> <p>NG! PRESS Weak against bending and stretching, and the printed surface is rough</p>

- Equivalent to eco solvent ink in “Weather resistance”, “Abrasion resistance”, “coloring property”
- Produces smooth surface and natural finish, preserves the original texture of the print materials
- Fit vacuum forming, thermoforming processing applications because it is resistant to heat and elongation

User-friendly functional capability

Brover heater accelerates gentle drying the printed surface to provide consistent print quality

Wider opening helps ease of daily maintenance

[Space saving design]
Easy installation stand as standard equipment
*10kg take-up unit is optional

MUTOH Status Monitor (MSM)
monitoring the printer's operation status in real time

MSM monitors your MUTOH printer status on your PC or smart phones. It enables you to confirm printing data volume, ink consumption, and also printing performance, statistical information, cost etc. through the print history.

It requires user registration to download MSM.
