

DENR ADMINISTRATIVE ORDER

SUBJECT : ESTABLISHING THE NATIONAL LIST OF THREATENED PHILIPPINE PLANTS AND THEIR CATEGORIES, AND THE LIST OF OTHER WILDLIFE SPECIES

Pursuant to Section 22 of Republic Act No. 9147, otherwise known as the "Wildlife Resources

Conservation and Protection Act", the National List of Threatened Philippine Plants and their

categories, and the List of Other Wildlife Species are hereby established.

Section 1. Definition of Terms. As defined in Section 5 of RA 9147, and Section 1 of DAO No.

2004-15, the following terms shall mean as follows:

1. Common name - refers to the adopted name of a species as is widely used in the country; may be based on English or other foreign name, or Tagalog name, or when no local or vernacular name is available is derived from the meaning of its scientific name; ;
2. Critically Endangered Species - refers to a species or subspecies facing extremely high risk of extinction in the wild in the immediate future. This shall include varieties, I formae or other infraspecific categories;
3. Endangered Species - refers to a species or subspecies that is not critically endangered but whose survival in the wild is unlikely if the causal factors continue operating. This shall include varieties, formae or other infraspecific categories;
4. Other Threatened Species - refers to a species or subspecies that is not critically endangered, endangered nor vulnerable but is under threat from adverse factors, such as over collection, throughout its range and is likely to move to the vulnerable category in the next future. This shall include varieties, formae or other infraspecific categories;
5. Other Wildlife species - refers to non-threatened species of plants that have the tendency to become threatened due to destruction of habitat or other similar causes as may be listed by the Secretary upon the recommendation of the National Wildlife Management Committee. This shall include varieties, formae or other infraspecific categories;
6. Species - refers to the smallest population which is permanently distinct and distinguishable from all others. It is a primary taxonomic unit;
7. Subspecies - refers to a taxonomic subdivision of a species; a population of a particular region genetically distinguishable from other such populations and capable of interbreeding with them;
8. Threatened Species - is a general term to denote species or subspecies that is in one of the categories of wildlife whose populations are at risk of extinction. This shall include varieties, formae or other infraspecific categories;
9. Varieties - refers to geographically isolated populations that differ from one another by fewer characters than do species of the same genus and can be demonstrated to have some degree of infertility;
10. Vulnerable Species - refers to a species or subspecies that is not critically endangered nor endangered but is under threat from adverse factors throughout its range and is

likely to move to the endangered category in the future. This shall include varieties, formae or other infraspecific categories; and,

11. Wildlife - means wild forms and varieties of flora and fauna, in all developmental stages,

including those which are in captivity or are being bred or propagated.

Section 2. List of Threatened Species of Plants and their Categories

Category A. Critically Endangered Species

FAMILY	SCIENTIFIC NAME	COMMON NAME
APOCYNACEAE	<i>Kibatalia longifolia</i> Merr.	Malapasnit
CYATHEACEAE	<i>Cyathea microchlamys</i> Holtt.	Tree Fern

	<i>Diplazium tenuifolium</i> (Copel.) M. G. Price	-

Section 4. Interpretation. In case of conflict between the scientific name and the common name in the actual application, the scientific name shall be the controlling interpretation.

Section 5. Species under more than one category. In case of conflict between the enumeration of species on this Order and the CITES Appendices, the listing in this Order shall prevail. However, for conservation purposes other than the application of penalties under Section 28 of Republic Act No. 9147, the higher category shall apply. 

Section 6. Review and Updating of the List. The Secretary, in consultation with scientific authorities, the academe and the other stakeholders, shall regularly review and update, as the need arises the herein list of threatened plants. Provided that the species listed as threatened shall not be removed therefrom within three years following its initial listing.

Section 7. Collection of Plants and/or By-products and Derivatives. The collection of plants listed under this Order and/or their by-products and derivatives shall be allowed only for scientific or propagation purposes in accordance with Section 23 of **RA 9147** and its Implementing Rules and Regulations. Provided, that only the accredited individuals, business, research, educational or scientific entities shall be allowed to collect for scientific or propagation purposes only.

Section 8. Illegal Acts. It shall be unlawful for any person, group or entity to collect and/or trade the species listed hereof, unless such acts are covered by a permit granted by the DENR pursuant to Section 17 of **RA 9147** and its Implementing Rules and Regulations and Sections 4 and 5 of DAO NO. 2004-55.

Section 9. Effectivity. This Order shall take effect fifteen (15) days after publication in a newspaper of national circulation.

ANGELO T. REYES
Secretary
