Seeds**
CATALOGUE

norseco.com

The All-America Selection winners are tested for their performance in the garden by a panel of experts from across North America, Canada and the United States. These winners provide gardeners with new, reliable varieties. When you select an AAS winner, you are assured of quality assurance.

Fleuroselect is an international organisation dedicated, for more than 45 years, to the ornamental plants industry. Expert judges and independent professionals of the industry from Europe, Japan, Russia, the United States, China and Thailand meet to evaluate the plants. Fleuroselect awards its prizes based on genuine progress in terms of beauty. Selection of the winners contribute to the industries' development and innovation. Three (3) different prize categories:

Fleuroselect Gold Medal signifies a breakthrough in breeding. This award is only given to varieties that truly excel in innovation, beauty, use and overall performance in the Fleuroselect trials.

new varieties granted Approved Novelty status has been recognized to be sufficiently new and different versus existing cultivars. They, moreover, passed the rigorous requirement for uniformity.

the FleuroStar contest is held annually during the FlowerTrials® week in June in the Netherlands and Germany. The competing varieties are grown by the entering companies and displayed at nine contest locations. An independent panel of more than 30 expert judges from across the industry, including breeders, young plant producers, growers, distributors, trade representatives and journalists choose the winner with the 'wow' effect at the point of sale. Supported by this prestigious award, FleuroStar winners become genuine eye-catchers in garden centres and reach millions of consumer gardens.

Les Exceptionnels® is a Québec selection program which relies on the general public as well as a committee of experts to target the most successful new annual flowers and, starting in 2018, the best vegetable bedding plants. The selection is made among hundreds of horticultural novelties. The evaluations are made throughout the summer. There are three demonstrations and evaluation gardens: the Montreal Botanical Garden, the Roger Van Den Hende Garden in Quebec City and the Daniel A. Séguin Garden in Saint-Hyacinthe, where the public can go to vote for its favorites. The annual winners are determined by the public favorites and approved by a committee of horticultural experts (columnists, garden centres, nurseries, large garden managers, horticultural associations, municipalities).

All-America Selections 2018 Winners

Canna Hyb. South Pacific™ Orange

Compact plant ideal for landscape and container use. This variety is more vigorous, uniform and has more basal ramifications compared to other cannas. Exceptional radiant orange bloom contrasting with its bright green foliage. Pollinator gardens will love this addition. **Second winner AAS to the series!**

Orange 60-2364

Exposure	Height cm	Maturity (week)
Sun	65-80	12

*Two (2) new colors added to the South Pacific™ series: Rose and Ivory.
Four (4) colors in this series.*

Rose 60-2365

Ivory 60-2369

Scarlet 60-2361

Tagetes Super Hero™ Spry

The Super Hero™ Spry is a pretty little French marigold (15-20 cm) with a dark maroon lower petals and golden-yellow centre. It has a uniform and stable color pattern, early to bloom and no deadheading required.

Exposure	Height cm	Maturity (week)
Sun	15-20	7-9

61-4245

61-9774

Zinnia Queeny Lime Orange

This easy-to-grow Zinnia brings a “WOW” factor in the garden. It holds large dahlia-shaped flowers on a sturdy and compact plant. As the flower ages, the unique color evolves from dark coral / peach / orange to light peach with a dark centre. In trial gardens, visitors loved the color and big flowers, making it this year’s favorite. This new AAS and Fleuroselect Gold winner is also perfect for cut flower gardens.

Exposure	Height cm	Maturity (week)
Sun	60	8-10

Capsicum annuum Onyx Red™

Beautiful double-catch plant that steals the show! The contrast between tiny black foliage and tons of shiny red fruit is striking in the garden. Vigorous, in continuous growth, but keeps its compact habit well and has a long shelf life of the fruits on the plant. This winner is perfect for containers or landscaping.

Exposure	Height cm	Maturity (week)
Sun	15-25	12-17

60-2925

Fleuroselect Winners

Zinnia Queeny Lime with Blotch

Vigorous Zinnia with beautiful large flower (6 cm). The lime-green color paired with a dark and unique centre, will draw attention in a bouquet or flower beds. It will surely catch the eye from a distance.

2018 NOVELTIES VEGETABLES

Chef's Choice Tomato collection

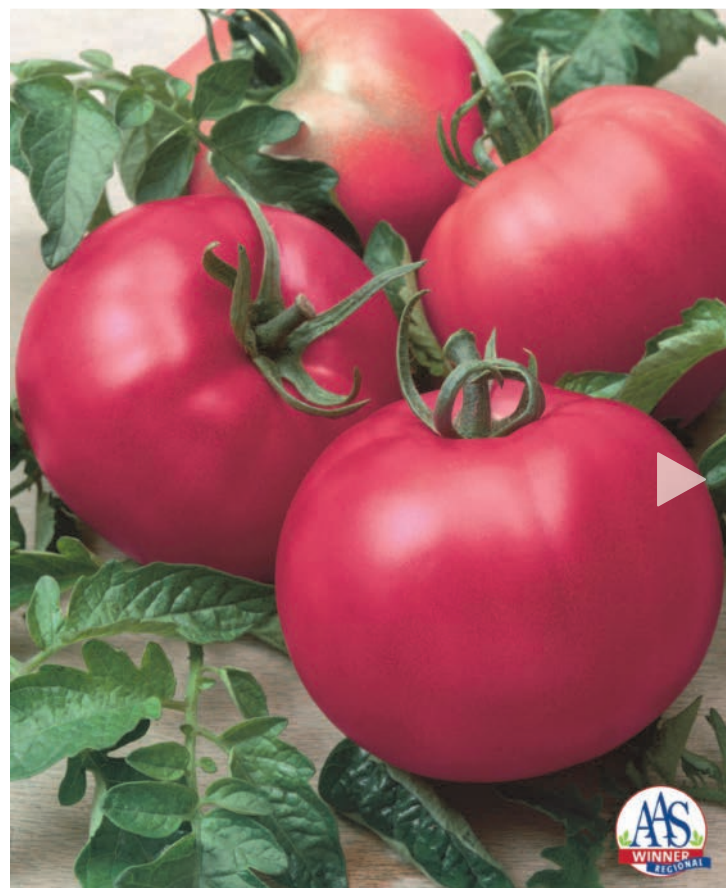

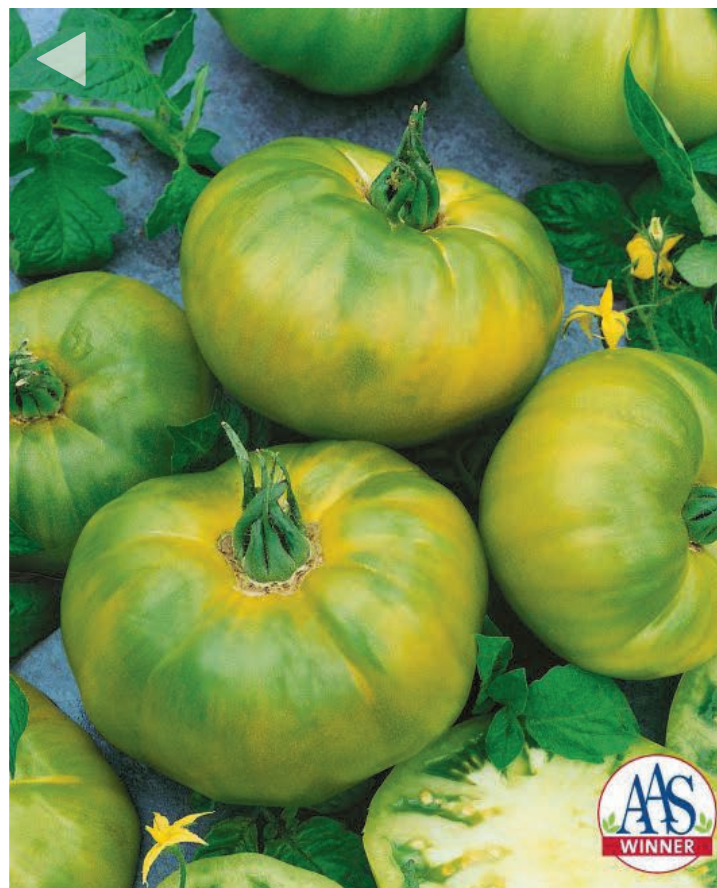

Chef's Choice Green

65-8897-UNT

This addition to the Chef's Choice series produces unique green coloured fruits with subtle yellow stripes and a wonderful citrus-like flavour with a perfect tomato texture. Plant is disease free throughout the season. Perfect for your foodie customers!

Maturity: 75 days.

Untreated seed.

Chef's Choice Pink

65-8896-UNT

To complement the Chef's Choice selection, here is a large pink beefsteak tomato with great yields of 335-400 grams fruits. The perfect acid to sugar balance in this tomato makes it a must for any home chef. Consider stewing or canning these beautiful tomatoes. The potato leaf-like plant has good disease resistance.

Maturity: 85 days.

Untreated seed.

Variety	Maturity	Port	Plant habit	Weight (g)	Type
Chef's Choice Green 65-8897-UNT	75 days	indeterminate	large	250-280	round
Chef's Choice Pink 65-8896-UNT	85 days	indeterminate	large	335-400	round

Sweet Pepper Hyb. Greenbell Green

65-7240-000

Replacement of the Bell Boy variety for transplant production. Average in size, the productive plants gives a harvest of large green fruits with thick walls. The fruits are of a better quality than those of Bell Boy.

Maturity: 67 days.

Sweet Pepper Hyb. Liberty Belle Yellow

Patio Collection 65-7210-UNT

Outstanding new patio pepper with a naturally dwarf habit that makes it perfect for use in patio containers. Large bright yellow fruits, well shaped and very sweet. A strong variety that withstands intense heat without fruit damage or diseases.

Maturity: 55 days.

Untreated seed.

Hot Pepper Hyb. Primero Red

65-7350-UNT

The earliest ripening habanero on the market! Expect huge yields of peppers that are larger than other habaneros. Primero Red has about one third the heat of standard habaneros, letting gardeners appreciate its rich flavour in fresh salsa and cooking.

Maturity: 75 days.

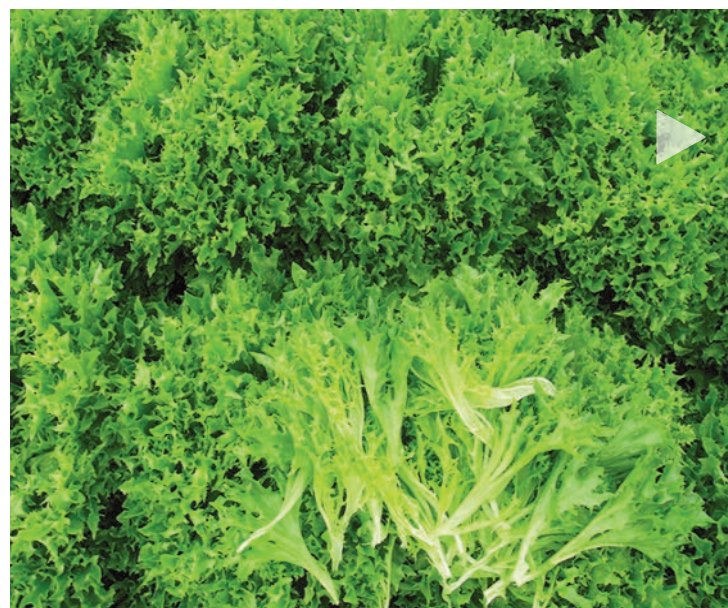

Untreated seed.

Cauliflower Hyb. Flame Star Orange

65-3868-000

Superb, pastel orange cauliflower with better tolerance to heat and stress than the Cheddar variety. Medium-large plant.

Maturity: 78 days.

Eazy Leaf Ezrilla Green

65-5663-OPC

Replacement for the Capulin variety. This delicious fast growing lettuce is part of the Eazy Leaf family for a one-cut harvesting. Long, narrow leaf margin with a nicely frilled, medium green base.

Maturity: 55 days.

Organic, Germplus, Coated seed.

Mini Romaine Xalbadora Green

65-5776-OPC

Replaces the Starhawk variety. New mini romaine with great green colour and gloss, with high leaf count. Xalbadora performs great against tip burn and has a wide adaptability.

Maturity: 55 days.

Organic, Germplus, Coated seed.

Norseco 2019-2020

CANNA X GENERALIS | CANNA : Sun • Container, flower bed • 6 s. / gr.

Cannova® Hyb. series : This hybrid canna produces large 10 cm flowers on vigorous and cold tolerant plant. A prolific bloomer, 7 days earlier than Tropical™ series. **M : 12-15 weeks / H : 75-120 cm**

A	▼ Cannova® Orange Shades : Orange flowers on green foliage.	Orange	60-2374
B	▼ Cannova® Red Flamme : Red with small yellow border.	Red w/yellow border	60-2378
	▼ Cannova® Red Shades	Shades of red	60-2376
	▼ Cannova® Rose	Rose	60-2375
C	▼ Cannova® Yellow	Yellow	60-2372

South Pacific™ Hyb. series : This series is more vigorous, more uniform, and has more basal branching than comparison cannas. Pollinator gardens will love this series of a canna that sports uniformly colour flowers over a long blooming period. This series is grown from seeds, not tubers, meaning less chance of succumbing to the disease. **M : 12 weeks / H : 60-80 cm**

	★ ♥ ▼ Hyb. South Pacific™ Ivory	White	60-2369
D	★ ♥ ▼ Hyb. South Pacific™ Orange	Orange	60-2364
E	★ ♥ ▼ Hyb. South Pacific™ Rose	Rose	60-2365
F	♥ ▼ Hyb. South Pacific™ Scarlet	Scarlet	60-2361

Tropical™ series : Extra dwarf variety without viruses. Excellent performance in the garden. **M : 16 weeks / H : 60-75 cm**

	▼ Tropical™ Bronze Scarlet : Scarlet red flowers on bronzed leaves.	Scarlet red	60-2351
	▼ Tropical™ Red	Red	60-2356
	▼ Tropical™ Rose	Rose	60-2355
	▼ Tropical™ White	White	60-2359
G	▼ Tropical™ Yellow	Yellow	60-2352

CAPSICUM ANNUUM | ORNAMENTAL PEPPER : Sun • Container, flower bed • 300 s. / gr.

H	▼ Black Pearl : Pure black foliage with shiny hot dark red fruits when mature. M : 20-25 weeks / H : 35-45 cm	Black and red fruits	60-2936
I	Midnight Fire : An ornamental pepper for landscape ! The well-branched plant produce distinctive dark black foliage accented by purple fruit which mature to bright red. Perfect for stunning Summer and Autumn combination planters, 15 cm, 20 cm pots or gallons. M : 11-17 weeks / H : 23-30 cm	Violet and red fruits	60-2946
J	★ ▼ Onyx Red™ : Winner AAS 2018, it is compact and uniform with dark purple foliage. It produces round fruits that start purple / black and ripens red. This is a wonderful plant for landscaping, borders and / or containers, as it has a good heat tolerance. M : 12-17 weeks / H : 15-25 cm	Black and red fruits	60-2925
	▼ Sedona Sun : Masses of distinctive conical lemon yellow and carrot orange fruits put a brilliant, multicolour display on every plant. Hot peppers. Best in 15 cm and larger pots. M : 12-17 weeks / H : 23-30 cm	Yellow & orange fruits	60-2932

CAREX | CAREX : Sun • Dry flower, flower bed, rock garden • 2000-3000 primed s. / gr. or 150-200 s. mult. / gr.

Carex sp. : Ornamental grasses in beautiful shapes and colours. Easy to grow, long lasting and low maintenance garden plants. Fit into plug programs. **M : 10-14 weeks / H : 20-150 cm**

	▼ Amazon Mist : Height: 25 cm	Green	60-3031
	▼ Bronco : Height: 25 cm	Bronze	60-3032
	▼ Fresh Look : Ornamental grass with cylindrical spikes of pendulous flowers. Easy to grow, prefers damp areas. Height: 100-150 cm	Brown	60-3043
K	▼ Phoenix : Sturdy, upright and green narrow-leafed carex. Easy to grow, long lasting and low maintenance garden plants. Use as an accent in landscapes and planters. Height: 50-60 cm	Green	60-3036
L	Red Rooster : Height: 25 cm	Bronze	60-3035

CELOSIA ARGENTEA | CELOSIA : Sun • Container, flower bed • 1000-1500 s. / gr.

M	▼ Asian Garden : Highly appreciated in the greenhouse for the good branching, almost bushy growth habit and early-to-bloom flower spikes, in the garden, it continues to bloom on sturdy stems, keeping the bright pink color all summer long, holding up even through some of the first frosts. This celosia is a pollinator-magnet, making a sure bet for pollinator-friendly gardens. M : 14-16 weeks / H : 75-100 cm	Bright Rose	60-3415
---	--	-------------	---------

CELOSIA CRISTATA | CELOSIA CRISTATA : Sun • Container, flower bed • 1000-1500 s. / gr.

N	Dracula : This Celosia cristata deploys a unique and big flower at the top of the plant. In the greenhouse flower is red and foliage green. Outdoors, foliage is darker, purple-toned and flower is darker purple. Good mid-height, border plant. M : 9-12 weeks / H : 20-40 cm	Red	60-3436
O	Drawf mixture : Cockscomb with crested flower heads in splendid colors. Ideal for bedding. M : 14 weeks / H : 30 cm	Mixed colors	60-3430

CELOSIA PLUMOSA | CELOSIA PLUMOSA : Sun • Container, flower bed • 1000-1500 s. / gr.

A	Bright Sparks Scarlet : Replacing Arrabona, the new Bright Sparks Scarlet stands out from the competition with its large 7.5-10 cm plumes, very well branched habit and great heat tolerance. The extra branching results in more flowers per plant and the bloom size on the secondary flowers also matches the initial flower. These blooms are also less prone to colour fade. M : 12-14 weeks / H : 27-33 cm	Scarlet	60-3326
B	Chinatown : Stunning visual impact. Long flower spikes on foliage that darkens in the sun. M : 11-12 weeks / H : 35-40 cm	Bright red	60-3346
	Dragon's Breath™ : Produces unique green-red foliage and blazing-red, long-lasting flowers on vigorous plant. Fantastic performance under hot and humid conditions, it is a perfect choice for landscaping for bright red color. Extra large flowering variety. M : 14-16 weeks / H : 60 cm	Red	60-3376
	Fashion Look Mix : A mixture of all the colours in the "Fresh Look" series plus the bronzed leaf "Smart Look". M : 12-13 weeks / H : 35 cm	Mixed colors	60-3369
C	First Flame™ Purple : Unique colour to this type of celosia. M : 11-14 sem. / H : 25-35 cm	Purple	60-3341
D	New Look® : Plumes carried on bronze foliage. M : 12-13 weeks / H : 35 cm	Deep red	60-3366
	Century series : Long 30 cm plumes. Used by cities and landscapers. M : 12-13 weeks / H : 60 cm		
E	Century Mixture	Mixed colors	60-3350
	Century Red	Red	60-3356
	Fresh Look series : Outstanding floral display. Vigorous. Exceptional garden performance. M : 12-13 weeks / H : 35 cm		
F	Fresh Look Gold	Golden yellow	60-3361
	Fresh Look Mix	Mixed colors	60-3360
G	Fresh Look Orange	Orange	60-3364
H	Fresh Look Red	Red	60-3363
	Fresh Look Yellow	Yellow	60-3362
	Glorious series : Improvement and replacement of the Gloria series. Flowers earlier and more uniform. Ideal for trays and 10 cm containers. M : 8-11 weeks / H : 30 cm		
	Glorious Mix	Mixed colors	60-3330
	Glorious Orange	Orange	60-3334
	Glorious Red	Red	60-3336
	Smart Look series : Outstanding floral display. Vigorous. Exceptional garden performance. M : 12-13 weeks / H : 30 cm		
	Smart Look Red : Several flower spikes on bronze foliage. More compact, with more branches than New Look.	Red	60-3367
I	Smart Look Romantica : Produces spikes that start out salmon and become deep rose as they mature.	Deep rose	60-3365

CELOSIA SPICATA | CELOSIA SPICATA : Sun • Container, cut flower, dry flower, flower bed • 1000-1500 s. / gr.

J	Flamingo Feather : Used in landscaping. M : 14 weeks / H : 100 cm	Soft pink	60-3405
---	---	-----------	---------

CHRYSANTHEMUM MULTICAULE | CHRYSANTHEMUM : Sun • Container, flower bed • 700 s. / gr.

K	Moonlight : Small single flowers with a gold centre. M : 12-14 weeks / H : 15 cm	Lemon yellow	60-3922
---	--	--------------	---------

CLEOME SPINOSA | CLEOME : Sun, semi-shade • Flower bed, fragrant flower • 500-600 s. / gr. or 500-600 primed s. / gr.

Sparkler™ Hyb. series : Scented, compact hybrid plant with a bushy habit. Very floriferous. Better germination. **M : 10-12 weeks / H : 100-120 cm**

L	Sparkler™ Blush	Soft pink	60-4451
	Sparkler™ Lavender	Lavender	60-4458

DIANTHUS INTERSPECIFIC | DIANTHUS INTERSPECIFIC : Sun • Container, edible flower, flower bed, fragrant flower • 150-300 pelleted s. / gr.

Supra™ Hyb. Series : M : 12-14 weeks / H : 25 -30 cm

A	Hyb. Supra™ Pink : This bushy plant blooms prolifically showing novel mottled pink flowers sporting frilly petal edges that hold up even in summer heat and drought. No deadheading needed for this vigorous grower which delivers fancy flowers spring, summer and fall.	Pink	61-3785
B	Hyb. Supra™ Purple : Flowers with indented petals in a vibrant colour. Prolific bloomer, tolerant to heat.	Purple	61-3787

DICHONDRA ARGENTEA | DICHONDRA : Sun • Container, hanging basket • 200 s. / gr.

C	Silver Falls : Trailing foliage. Vigorous, resistant to hot dry climates. M : 13-14 weeks / H : 90-120 cm	Silvery	60-6409
----------	--	---------	---------

DICHONDRA REPENS | DICHONDRA : Sun • Container, hanging basket • 60 multi. s. / gr.

D	Emerald Falls : Round, trailing foliage. Plants are fuller but not as long as Silver Falls. M : 13-14 weeks / H : 90-120 cm	Green	60-6408
----------	--	-------	---------

DRACAENA INDIVISA | DRACAENA : Sun, semi-shade, shade • Container • 350 s. / gr.

E	Indivisa : Popular narrow leaved variety. M : 30 weeks + / H : 60 cm	Green	60-6850
----------	---	-------	---------

ERIGERON KARVINSKIANUS | ERIGERON : Sun • Container, ground cover, hanging basket • 13000 s. / gr.

F	Profusion : Small daisy-like flowers that change from white to pink at maturity. M : 16 weeks / H : 30 cm	White	60-7120
----------	--	-------	---------

EUCALYPTUS | EUCALYPTUS : Sun, semi-shade • Container, cut flower, dry flower, fragrant flower • 2000 s. / gr.

	Silver Dollar : Round medium size leaves. M : 16 weeks / H : 15 cm	Blue green	60-7349
G	Silver Drop : Small round leaves. M : 16 weeks / H : 20 cm	Blue green	60-7329

EUPHORBIA GRAMINEA | EUPHORBIA : Sun, semi-shade • Container, flower bed, ground cover, hanging basket • 650-750 s. / gr.

H	Hyb. Glitz : Glitz is the first seed annual Euphorbia on the market. It has an open architecture, allowing for better looking mixed combos. Heat and drought tolerant, it is mid-vigorous and good branching plant. M : 10-13 weeks / H : 25-35 cm	White	60-7439
----------	---	-------	---------

FRAGARIA X ANANASSA | STRAWBERRY : Sun • Container, hanging basket • 2000 s. / gr.

Neutral days : Very nice strawberry varieties that carry different colours of flowers on vigorous plants. They produce fruits all summer long. M : 20 weeks / H : 25 -30 cm

I	Hyb. Delizz® : First ever AAS strawberry winner, Delizz® plants are easy to grow and produce an abundant harvest throughout the growing season. The wonderful sweet strawberry burst of flavor and plants have a nice uniform and compact size. This variety produces white flowers.	White	64-3821
J	Hyb. Gasana : Very nice strawberry varieties that carry different colours of flowers on vigorous plants. They produce fruits all summer long.	Rose	64-3823
	Hyb. Montana : Produces extra large white flowers followed by an abundance of sweet conically-shaped, medium-large fruits during whole summer.	White	64-3819
K	Hyb. Ruby Ann : Produces a ruby-red cascade of flowers and sweet fruits during whole summer. Fruits are medium sized and have typical strawberry-like sweet conical shape.	Red	64-3816
L	Hyb. Summer Breeze Pink : Double bright pink flowers.	Pink	64-3853
M	Hyb. Summer Breeze Rose : Double dark rose flowers. Fleurostar 2018 winner.	Deep rose	64-3855
N	Hyb. Toscana : FleuroStar 2011-2012 award, deep rose single and semi-double flowers. Many runners, conical sweet and juicy fruits.	Deep rose	64-3825
	Temptation : Improvement of the variety Sweetheart.	White	64-3836

FUSEABLES® PETUNIA/BACOPA | PETUNIA/BACOPA MULTI-SPECIES FUSEABLES® : Sun • Container, hanging basket • 200-300 multi. s. / gr

O	Blue Dawn : Mix of Petunia Easy Wave® Rosy Dawn & Bacopa Bluetopia® Blue. M : 9-12 weeks / H : 75-90 cm	Pink & blue	61-9901
----------	--	-------------	---------

GAURA LINDHEIMERI | GAURA : Sun, semi-shade • Container, flower bed, mass planting • 60-65 s. / gr.

P	Sparkle White : All America and Fleuroselects, this early-blooming, naturally compact and free-flowering variety is easy to grow. Drought-tolerant, it produces 3.5 cm white flowers. Perennial in zone 5b, we grow it as an annual under our conditions. M : 13-15 weeks / H : 60-70 cm	White	60-7779

GOMPHRENA GLOBOSA | GOMPHRENA : Sun • Cut flower, dry flower, flower bed • 400 s. / gr. or 300 pelleted s. / gr.

A	Ping Pong Purple : Ping Pong Purple delivers an explosion of color in containers and mass plantings. It also adds height and dimension making it terrific as a garden cut flower. Some other benefits of Ping Pong include easy production, drought tolerance and few maintenance requirements. M : 11-12 weeks / H : 40-50 cm	Purple	60-8838
B	Strawberry Field : Easy to grow, heat tolerant. Ideal in mass plantings. Also used for cut flowers, fresh or dried. M : 10-12 weeks / H : 80 cm Gnome series : Compact plants do well under hot conditions and in full sun. M : 10-12 weeks / H : 15 cm	Red	60-8816
C	Gnome Mixture	Mixed colors	60-8820
	Gnome Purple	Purple	60-8828

GOMPHRENA PULCHELLA | GOMPHRENA : Sun • Cut flower, dry flower, flower bed • 400 s. / gr. or 300 pelleted s. / gr.

D	Fireworks : Produces more blooms per plant than other gomphrenas. The unique style of its flowers gives Fireworks exceptional flower power. Can be used the same way as Verbena bonariensis. Suitable also for field or garden cut flower production. M : 13-15 weeks / H : 120 cm	Hot pink	60-8888
----------	---	----------	---------

GYPSOPHILA ELEGANS | GYPSOPHILA : Sun • Container, hanging basket • 400 multi. s. / gr.

Gypsy series : Double and semi-double flowers. Constant blooms. M : 10-12 weeks / H : 30 cm

E	Gypsy Deep Rose	Deep rose	60-9238
F	Gypsy White imp.	White	60-9239

HELIANTHUS ANNUUS | SUNFLOWER : Sun • Flower bed • 15-50 s. / gr.

Giant

G	Mammoth Russian : Popular large flower variety. M : 80 days / H : 300 cm	Yellow	61-8833
----------	---	--------	---------

Tall

H	Autumn Beauty : This taller, branching sunflower variety produces red, yellow, gold, orange, russet and burgundy flowers. It blooms from midsummer through fall and is great pollinator plants. M : 80 days / H : 150-225 cm	Mixed colors	61-8860
I	Hyb. Sunfinity™ : Innovative hybridization to create an interspecific hybrid sunflower that flourishes all summer long! Sunfinity provides incredible consumer value and differs from other varieties with its superior branching, producing multiple uniform flowers per plant and providing season long flowering in both garden and patio containers. It is a facultative long day plant offering fast crop times well-suited for late spring and early summer sales. M : 11-13 weeks / H : 120 cm	Yellow w/ black centre	61-8832
	Hyb.Sunrich™ Orange : Pollen free 10 to 15 cm flower. World's most popular variety for cut flower. M : 60-65 days / H : 90 cm	Orange	61-8844
	Hyb.Tiffany™ : Pollen free, for the production of cut flowers. 10-15 cm flowers. M : 70-85 days / H : 180 cm	Orange w/ dark centre	61-8852
J	Ring of Fire : Produces several lateral 13-15 cm flowers with a reddish brown centre. M : 70-75 days / H : 150 cm	Golden yellow / red center	61-8847
K	Soraya : Produces 20 branches per plant. 12-15 cm flowers. M : 65-80 days / H : 180 cm	Orange	61-8845

Small to medium

	Hyb.Sunny Smile™ : Compact and branching plant. Day neutral. M : 50-55 days / H : 45 cm	Yellow w/ black centre	61-8801
L	Hyb.Suntastic Golden Yellow with Dark Center : The new reference of dwarf sunflower and the smallest on the market. Plant is very floriferous producing several waves of 12-15 cm flowers, up to 3 waves of 5-8 flowers, for a total up to 20 flowers per plant! M : 65 days / H : 30-50 cm Pacino® series : Superb series that produces lateral branches. 12 cm flower. M : 70-75 days / H : 30-40 cm	Yellow w/ black centre	61-8812
M	Pacino® Cola	Gold w/ black centre	61-8824

	▼ Shock Wave® Volt Mix	Blue, white, red	61-5273
	▼ Shock Wave® Yellow	Yellow	61-5262

Tidal Wave® Hyb. series : Large flowers literally cover the vigorously spreading plants that rarely need deadheading because new blooms continuously pop up and cover the old, spent blooms. Plants first grow outward, then up, and finally in both directions to make an outstanding, shrublike shape that continues to hold its form all season. An excellent landscape performer with terrific Botrytis tolerance and quick recovery from rain, the plants resist lodging so they won't fall open and expose a bare centre like other petunias can. M : 12-16 weeks / H : 76-152 cm

B	▼ Tidal Wave® Red Velour : The new 2015 AAS Winner Tidal Wave Velour Red shows gorgeous deep red velvety blooms that don't fade even in the heat of summer.	Red Velour	61-5496
C	▼ Tidal Wave® Silver : More vigorous than Wave. Flowers have purple veins.	Silvery lavender	61-5491

Wave® Hyb. series : Spectacular. They spread out in waves. They are like "Surfinias".
M : 12-16 weeks / H : 90-120 cm

D	▼ Wave® Lavender	Lavender	61-5443
	▼ Wave® Mysty Lilac	Soft lilac	61-5447

RICINUS COMMUNIS | RICINUS : Sun, semi-shade • Flower bed • 2 s. / gr.

E	Impala : Tall well branched evergreen shrub with lobed leaves with dark green foliage. M : 8-12 weeks / H : 150 cm	Red	61-6716
F	Red Giant : The best red available with no trace of green. Stems, leaves and flowers show deep shiny red colour. Excellent for borders and roundabouts. M : 8-12 weeks / H : 130 cm	Red	61-6746
	Carmencita series : Tall well branched evergreen shrub with lobed leaves. Keep the seeds out of reach of children because it is poisonous. M : 8-12 weeks / H : 150 cm		
	Carmencita Pink : Dark green foliage	Soft pink	61-6725
G	Carmencita Red : Bronze foliage	Red	61-6726

RUDBECKIA HIRTA | RUDBECKIA : Sun • Container, cut flower, flower bed • 1500-2000 s. / gr.

Tall

	Autumn Colors : Large 12 cm mixture of single flowers on tall plants. M : 14-16 weeks / H : 50-60 cm	Red & bronze	61-7170
H	Cherokee Sunset : Large double and semi-double flowers. Mixture of yellow, bronze, orange and brown. M : 14-16 weeks / H : 60-75 cm	Mixed colors of yellow, bronze, orange & brown	61-7160
	Cherry Brandy : Large single flowers in a unique colour that varies from deep red to red bicolor. Tolerant to heat. M : 14-16 weeks / H : 60-70 cm	Red	61-7161
	Denver Daisy : Flower with large 12 to 15 cm flowers decorated with rusty red rings. Strong dense stems. Whether resistant. M : 14-16 weeks / H : 50-60 cm	Golden yellow mahogany center	61-7176
I	Indian Summer : Very large 15 to 20 cm single and semi-double flowers. M : 14-16 weeks / H : 100 cm	Golden yellow	61-7162
J	Prairie Sun : Very large single 15 to 20 cm flowers with a dark green centre. M : 14-16 weeks / H : 70-80 cm	Soft yellow	61-7172

Small to medium

K	Cappuccino : Magnificent 10 to 15 cm flowers with a dark centre. M : 13-14 weeks / H : 50 cm	Amber & ochre	61-7166
	Maya : First dwarf, double flowering Rudbeckia. Strong stems hold the 9-12 cm bright yellow flowers upright. M : 13-14 weeks / H : 45-50 cm	Golden yellow	61-7140
	Ruby Ruby : Unique red colour in a compact double flowered Rudbeckia. Heat tolerant with a long flowering season. M : 12-13 weeks / H : 25 cm	Red	61-7126
L	Sahara : Sahara is a delightful mix of caramel, soft pink and red blooms on the same plant. Flowers are semi-double to fully double. It shows good heat tolerance and great for amateur cut flowers as well. M : 14-16 weeks / H : 50 cm	Caramel, pink, red	61-7165
	Sonora : Large 8 cm flowers. M : 13-14 weeks / H : 35 cm	Gold w/ black centre	61-7142
	Becky series : Large single flowers on very compact plants. M : 12-13 weeks / H : 20 cm		
	Becky Cinnamon Bicolor	Yellow w/ red centre	61-7151
M	Becky Mix	Mixed colors	61-7150
N	Becky Orange	Orange	61-7154

Norseco 2019-2020

ZINNIA INTERSPECIFIC | ZINNIA : Sun • Container, flower bed • 150 s. / gr.

Single flowers

Profusion Hyb. series : Most popular series in its category producing single flowers. Very tolerant to Powdery Mildew. **M : 10-12 weeks / H : 30-40 cm**

A	Profusion Red : We have waited for years for this true red colour in zinnias which doesn't fade in summer's intense rays. Growers love Profusion zinnias since they are easy to grow, uniform and show outstanding greenhouse and garden performance. It is also a favorite of pollinators.	Red	61-9843
B	Profusion Sunrise Mix	Fire, yellow & white	61-9847
	Profusion White	White	61-9849
C	Profusion Yellow	Yellow	61-9842

ZINNIA MARYLANDICA | ZINNIA : Sun • Container, flower bed • 150 pelleted s. / gr.

Double Flowers

Double Zahara™ series : Produces splendid, large, double 6 cm flowers. **M : 11-12 weeks / H : 40-50 cm**

D ★	Double Zahara™ Bright Orange	Orange	61-9831
E	Double Zahara™ Cherry Imp.	Magenta pink	61-9825
F ♥	Double Zahara™ Fire	Scarlet orange	61-9824
G	Double Zahara™ Mixture : New mix with Cherry, Salmon Rose, Yellow, Fire and White.	Mixed colors	61-9830
H	Double Zahara™ Raspberry Ripple : New Bicolour added to the series. Note that the colour rose will be more accentuated with cooler temperature and as flower age with more heat, the white comes out more.	Rose bicolour	61-9829
I ★	Double Zahara™ Salmon	Salmon	61-9832
	Double Zahara™ White	White	61-9833
	Double Zahara™ Yellow	Yellow	61-9822

Single flowers

Zahara™ series : A heat loving series that has very low water needs. Outstanding in sunny, hot and dry conditions. Flowers are 20% larger. Continuous flowering with minimal plant care. Exceptional garden performance with superior disease tolerance. **M : 11-12 weeks / H : 40-50 cm**

	Zahara™ Bonfire Mixture : Red, deep orange et yellow	Mixed colors	61-9820
	Zahara™ Cherry	Cherry red	61-9817
	Zahara™ Mix	Mixed colors	61-9810
	Zahara™ Raspberry	Raspberry rose	61-9811
	Zahara™ Raspberry Lemonade Mix	Rose & yellow bicolor	61-9821
	Zahara™ Red	Red	61-9813
J	Zahara™ Starlight Rose	White & rose	61-9814
K ♥	Zahara™ Sunburst : The flowers bursts open gold, followed by the appearance of a red stripe down the centre of each petal. Cold night temperature will thicken the stripe.	Gold & red	61-9818
	Zahara™ White	White	61-9819
L	Zahara™ Yellow	Clear yellow	61-9812

Norseco 2019-2020

PAVAVER RUPIFRAGUM | SPANISH POPPY : Sun • Cut flower, flower bed • 12000 s. / gr.

A **Double Tangerine Gem** : Magnificent double flowers. H : 60 cm Tangerine orange 3 June to Aug. 63-4194

PENSTEMON DIGITALIS | PENSTEMON : Sun • Container, flower bed • 3000 s. / gr.

B **Mystica** : The color of the flower contrast superbly with the bronze foliage. H : 70-80 cm Lavender Rose 4 May to July 63-4376

PEROVSKIA ATRIPLICIFOLIA | PEROVSKIA : Sun • Container, flower bed • 1000-1300 s. / gr.

C **Blue Steel** : This aromatic, silvery foliage plant carries clouds of small blue flowers on strong silver stems that do not break easily. Controlled habit in the landscape is comparable to the vegetative leader. Use 1 to 3 plugs in 1-gallon container or 3 to 5 per 2-gallon container. H : 45-60 cm Blue 4 July to Sept. 63-4461

PHYSALIS ALKEKENGII | PHYSALIS : Sun, semi-shade • Dry flower, flower bed • 600 s. / gr.

D **alkekengi** : Decorative plant with lantern shaped fruits. H : 60 cm Orange 3 July to Sept. 63-4756

PLATYCODON GRANDIFLORUM | PLATYCODON : Sun, semi-shade • Container, flower bed • 1200 s. / gr.

E **Sentimental Blue** : Large flowers with 2 point star-shaped petals. H : 20 cm Blue 3 July-Aug. 63-5311

RUDBECKIA FULGIDA | RUDBECKIA : Sun • Cut flower, flower bed • 900 s. / gr.

F **Goldsturm Apex** : Popular variety with a dark brown nearly black cone-chaped centre. Seed treated for a more uniform germination. H : 65 cm Yellow 3 July to Sept. 63-7364

RUMEX SANGUINEUS | RUMEX : Sun • Border, flower bed • 1500 s. / gr.

G **Bloody Dock** : Thin foliage decorated with bright red veins. Superb contrast in arrangements. Edible. H : 35 cm Green 3 * 63-7235

SAGINA SUBULATA | SAGINA : Sun, semi-shade • Ground cover • 45000-55000 s. / gr.

H **Crispy** : Lasting pale green foliage that forms a carpet. Prefers damp areas. H : 10-15 cm White 3 June-July 63-7410

SALVIA NEMEROSA | SALVIA : Sun, semi-shade • Flower bed, fragrant flower • 500 s. / gr.

New Dimension series : 1st year blooming. Compact and well branched plant carries flower spikes. Colours more intense when seed grown. H : 25 cm

I **New Dimension Blue** : The most intense blue colour from seed. Blue 5 July to Sept. 63-7544

New Dimension Pink : The most intense rose colour from seed. Pink 5 July to Sept. 63-7545

SALVIA SUPERBA | SALVIA : Sun, semi-shade • Flower bed, fragrant flower • 1000 s. / gr.

Queen series : 1st year blooming. Produces several floral spikes. H : 40-60 cm

J **Blue Queen** : Height: 40 cm Violet blue 4 June to Aug. 63-7531

Rose Queen : Height: 60 cm Rose 4 June to Aug. 63-7575

SEDUM FORSTERIANUM | SEDUM : Sun, semi-shade • Flower bed, ground cover, rock garden • 18000-22000 s. / gr.

K **forsterianum oracle** : Excellent companion plant with greyish-green foliage. H : 25 cm Yellow 3 August 63-8103

SEDUM SP. | SEDUM : Sun, semi-shade • Flower bed, ground cover, rock garden • 18000-22000 s. / gr.

L **acre yellow** : 1st year blooming. Creeping plant with green foliage. H : 10 cm Yellow 3 June-July 63-8102

SEDUM SPURIUM | SEDUM : Sun, semi-shade • Flower bed, ground cover, rock garden • 18000-22000 s. / gr.

M **spurium voodoo** : Round deep red leaves. Flowers 2nd year after a cold period. H : 15 cm Bright pink 3 June to Aug. 63-8104

SEDUM USSURIENCE | SEDUM : Sun, semi-shade • Flower bed, ground cover, rock garden • 18000-22000 s. / gr.

N **Turkish Deligh** : Very compact sedum with unique nearly black foliage. Produces carmine red flowers. H : 20 cm Deep burgundy 3 July-Aug. 63-8105

Sales conditions

PRICE

We make every effort to guarantee the lowest possible prices. However, certain uncontrollable situations may cause us to change prices during the year. We also reserve the right to correct prices in the case of a misprinting error.

VOLUME DISCOUNT

Volume discounts may apply for orders over 4000\$ (cuttings, plugs, perennials and seeds combined). Contact our Customer Service for more information.

AVAILABILITY

Back Orders

This situation can arise when products are not received from our suppliers. When this problem occurs, we clearly indicate, on your bill, the product that will follow later and will ship them as soon as possible.

CROP FAILURES AND SUBSTITUTIONS

When taking delivery of your order, it may be possible that we could not supply a given product due to an insufficient harvest or because the product is already «out of stock». In these cases, we will replace the unavailable variety with a similar our upgraded product. If you do not accept substitutes, please clearly indicate it on the order form.

ORDER ACKNOWLEDGEMENT

For each booking order, an acknowledgement will be sent to you by mail within a period of two (2) weeks. If you do not receive this acknowledgement or if you notice any error in the document, quickly notify our Customer Service.

METHODS OF PAYMENT

We accept cash, Interac, cheque or Visa and MasterCard for orders that are less than 5,000\$. To facilitate your transactions, you can prefer to open an account. For more information on this subject, please contact your sales representative.

INTEREST ON PAST DUE ACCOUNTS

A monthly 2% interest fee will be applied to any amounts past due on the requested payment date indicated on the invoice.

REIMBURSEMENT POLICY

Seeds and inert products

We will reimburse or credit returned goods only with proof of purchase, within 10 days following the purchase.

No reimbursement or credit will be given after 10 days of the purchase. In exceptional circumstances, return fees of 15% of the value of the goods, will be applied. Seeds must be returned sealed, in their original packaging accompanied by the purchase order or invoice. Transportation costs for the return will be at the client's expense. Due to the short shelf span, special seeds and pre-germinated products cannot be returned.

OUR WARRANTY

NORSECO Inc. guarantees that our seeds follow the rules and regulations of the Provincial and Federal laws in effect.

NORSECO Inc. makes no other representation, guarantee or condition, explicit or implied, of any nature whatsoever, on the seed, the subsequent crop or the absence of disease in the seed.

If a human mistake is made during packaging, NORSECO Inc. can be held responsible for the value of the invoice or payment made by the buyer. Norseco is not responsible for any loss of product, loss of revenue or any other special, accessory or indirect damage.

NORSECO will not be held responsible for the loss of product, loss of revenue or any other special, accessory or indirect damage.

SHIPPING COSTS

Seeds

Shipping is free of charge for orders **over \$50** from Quebec, Ontario, and Atlantic Provinces. FOB Laval for other regions.

APPLICABLES TAXES

Quebec

Federal goods and services sales tax- (GST) 5%

Quebec sales tax- (QST) 9.975%

Ontario

Harmonised sales tax- (HST) 13%

New-Brunswick, Nova Scotia, Prince-Edward-Island, Newfoundland and Labrador

Harmonised sales tax- (HST) 15%

The other provinces are subject to the Federal tax on goods and services - (GST) 5%
