Dear Mr. McGaughey:

Subject: Request for Additional Information - Protective Sleeves
for LPRMs

In your letter dated December 22, 1982, you requested that the Grand Gulf operating license (NPF-13) be amended to allow for the installation of protective sleeves on the LPRM assemblies. A preliminary review of this letter indicated that insufficient information had been supplied for our evaluation. To expedite our review, we discussed the deficiencies of the submittal with Mr. Guy Cesare of your staff on January 4, 1983.

Specifically, we requested detailed information in the following areas:

- (a) Sleaving Modification - Engineering Drawing, Materials Identification, Method of Attachment, Number and Location of Modified LPRMs, MP&L Safety Evaluation.
- (b) Radiological Assessment - Details of Survey for Personnel Entry prior to and during modification.
- (c) Training - Quality Control for Acceptance, Procedures, to protect core assemblies, Debris consideration.

As yet, we have not received any of this information. When it is received, we will process the license amendment as expeditiously as possible. If you have any questions concerning this request, please contact M. Dean Houston, Project Manager (301) 492-7564.

Sincerely,

A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
