

ADDITIONAL DECLARATIONS OTHER THAN FRUITS AND VEGETABLES

Additional declarations on phytosanitary certificates for exports to the European Union as required in Article 71.2 of the Plant Health Regulation ((EU)2016/2031). The list of plants, plant products and other objects, originating from third countries, and the corresponding special requirements for their introduction into the Union territory is set out in Annex VII of Commission Implementing Regulation (EU) 2019/2072.

The phytosanitary requirements for import of plant products into The Netherlands are based on Commission Implementing Regulation (EU) 2019/2072. **In case of alternative options for meeting import requirements** as mentioned in annex VII of (EU)2019/2072 (Article 71.2 of the Plant Health Regulation ((EU)2016/2031)), details of the option used must appear in the Additional Declaration box of the Phytosanitary Certificate accompanying the consignment. Reference must be made to annex VII of Commission Implementing Decision (EU) 2019/2072 (including the relevant position), as well as the required minimal additional declaration text as it should appear on the certificate (see bold text in the additional declaration document). The same approach has to be followed for Additional Declarations mentioned in other Commission Implementing Decisions.

NOTE: In Annex V and VII of (EU) 2019/2072 phytosanitary requirements without alternative options are also described. These requirements have to be fulfilled although do not have to be mentioned in the Additional declaration box needed of the Phytosanitary Certificate.

Overview of latest changes/additions

Version	Date	Content changed or added
6.49	17-4-2024	Added Vietnam to the list of Pest-free countries <i>Xylella fastidiosa</i>
6.48	10-4-2024	Update Chile PFPS <i>Xylella fastidiosa</i>
6.47	3-4-2024	Correction in point 55 plants for plants of <i>Palmae</i> other than seeds

How to use these pages and annexes

Follow the flow chart to determine which tables to use; see separate annex on this webpage or tick 'flow chart' on the left

1. For details on 'Plants for planting', also check the specific pages and tables
2. Open the table for the specific product
3. Check whether the product is listed; if not, choose another table
4. Choose the origin, be as specific as possible
5. Definitions for 'Origin':

Origin	Means
Third countries	Any country outside the European Union
European countries	EU-countries + Albania, Andorra, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Canary Islands, Faeroe Islands, Georgia, Iceland, Liechtenstein, Moldova, Monaco, Montenegro, North Macedonia, Norway, Russia (only the following parts: Central Federal District (Tsentralny federalny okrug), Northwestern Federal District (Severo-Zapadny federalny okrug), Southern Federal District (Yuzhny federalny okrug), North Caucasian Federal District (Severo-Kavkazsky federalny okrug) and Volga Federal District (Privolzhsky federalny okrug)), San Marino, Serbia, Switzerland, Turkey and Ukraine
Non-European countries	Any country outside Europe
... countries, other than A	The requirement is not valid for country A. The requirement for country A is listed elsewhere
Countries recognized as being free from X	The <i>countries</i> that are mentioned are officially recognized by the EU ¹ as being free from X
Areas recognized as being free from X	The <i>areas</i> that are mentioned are officially recognized by the EU ¹ as being free from X
... countries where X is known to occur ...	This requirement depends on the pest status for organism X in the country of origin (to be determined by the country of origin). If pest X is absent, this declaration does not need to be present on the certificate at all. The requirement is shaded in yellow

¹ The EU officially recognizes a number of countries, or areas within a country, as free from a specific organism. These countries and areas are listed in the table. In those cases the additional declaration indicating the 'country free from ...' can only be used if the country is listed. The same goes for areas: the additional declaration indicating the 'area free from ...' can only be used if the area is listed **and** mentioned on the certificate. It is not obligated to choose the number that is communicated to the Commission

- 1) BOTH a) the full reference text (including the number) (see the column **Required additional declaration full reference text, as it should appear on the certificate**) and b) the text (see column **Required minimal additional declaration text (see in bold) as it should appear on the certificate**) should be mentioned on the certificate.

Example: in case choice is **28 a**, the text should be:

"Consignment complies with Annex VII, point 28 a of Commission Implementing Regulation (EU) 2019/2072: originate in a country free from *Liriomyza sativae* and *Nemorimyza maculosa*."

- 2) In the column **Required additional declaration full reference text, as it should appear on the certificate**, the different possible declarations are shown, divided by 'or'; one of these declarations should be mentioned on the certificate (e.g. 25 a **or** 25 b)
- 3) In some cases more than one additional declaration applies (e.g. 25 a **or** 25 b **or** 25 c; as well as 28 a **or** 28 b).

Example: Cut flowers, Dianthus, origin third country

The certificate should read:

Consignment complies with Annex VII, point **25 a** of Commission Implementing Regulation (EU) 2019/2072: The plants originate in an area free from Spodoptera eridania, Spodoptera frugiperda and Spodoptera litura.

or it should read:

Consignment complies with Annex VII, point **25 b** of Commission Implementing Regulation (EU) 2019/2072: No signs of Spodoptera eridania, Spodoptera frugiperda and Spodoptera litura have been observed at the place of production since the beginning of the last complete cycle of vegetation.

or it should read:

Consignment complies with Annex VII, point **25 c** of Commission Implementing Regulation (EU) 2019/2072: The plants have undergone appropriate treatment to protect them from Spodoptera eridania, Spodoptera frugiperda and Spodoptera litura.

Besides this, the certificate should *also* read:

Consignment complies with Annex VII, point **28 a** of Commission Implementing Regulation (EU) 2019/2072: The cut flowers originate in a country free from *Liriomyza sativae* and *Nemorimyza maculosa*.

or it should read:

Consignment complies with Annex VII, point **28 b** of Commission Implementing Regulation (EU) 2019/2072: The cut flowers, immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Nemorimyza maculosa*.

In the documentary check the emphasis is on the position (25 a, or 25 b, or 25 c; 28 a, or 28 b).

In case more than one declaration should be present, they can be listed as:

Consignment complies with Annex VII, point **25 b**, and point **28 a** of Commission Implementing Regulation (EU) 2019/2072: No signs of Spodoptera eridania, Spodoptera frugiperda and Spodoptera litura have been observed at the place of production since the beginning of the last complete cycle of vegetation and The cut flowers originate in a country free from *Liriomyza sativae* and *Nemorimyza maculosa*.

- 4) The essence of the content of the declaration is mentioned in the column tables '**Remarks, content of the declaration**'

5) List of synonyms

Listed	Also correct
25.a	25.1
25.b	25.2
28.a	28 option 1
28.b	28 option 2

... 1	First indent
... 2	Second indent
... 3	Third indent
Ook Spaans, Portugees	

- 12) [Table](#) of information provided by non-EU-countries on phytosanitary import requirements for *Xanthomonas citri* pv. *citri*, *Xanthomonas citri* pv. *aurantifolii*, *Cercospora angolensis*, *Grapholita packardi*, *Phyllosticta citricarpa*, *Thaumatotibia leucotreta* in *Capsicum*, *Citrus*, *Fortunella*, *Microcitrus*, *Naringi*, *Swinglea*, *Poncirus*, *Prunus persica*, *Punica granatum*, *Crataegus*, *Cydonia*, *Malus*, *Prunus*, *Pyrus*, *Vaccinium*
- 13) The scientific names of products and organisms mentioned on the certificate should be written conform the official notation.
- 14) Besides the official English notation (EU)2019/2072, the following notations are also accepted:
2019/2072/CE
2019/2072/EU.
- 15) Text in SMALL CAPS and underlined: this is a link to a specified table in the document; use Ctrl+click
- 16) Yellow marked text: in this version added or changed
- 17) Yellow and ~~double struck out~~ text: in this version struck out, in next version deleted

PLANTS FOR PLANTING

TABLE OF CONTENTS

Any type of plants for planting needs an Additional Declaration; for the genera and species listed below a table is available with the specifics; in any other case of plants for planting check the table "All Others"

<i>Abobra</i>
<i>Acacia</i>
<i>Acanthosicyos</i>
<i>Acer</i>
<i>Acer buergerianum</i>
<i>Acer macrophyllum</i>
<i>Acer negundo</i>
<i>Acer palmatum</i>
<i>Acer paxii</i>
<i>Acer pseudoplatanus</i>
<i>Actinidia</i>
<i>Adenocarpus lainzii</i>
<i>Adiantum aleuticum</i>
<i>Adiantum jordanii</i>
<i>Aegle</i>
<i>Aeglopsis</i>
<i>Aesculus</i>
<i>Aesculus californica</i>
<i>Aesculus hippocastanum</i>
<i>Afraegle</i>
<i>Ailanthus altissima</i>
<i>Albizia falcate</i>
<i>Albizia julibrissin</i>
<i>Alectryon excelsus</i>
<i>Alnus</i>
<i>Alnus formosana</i>
<i>Alnus rhombifolia</i>
<i>Amaranthus</i>
<i>Amaranthus retroflexus</i>
<i>Ambrosia</i>
<i>Amelanchier</i>
<i>Ampelopsis arborea</i>
<i>Ampelopsis brevipedunculata</i>
<i>Ampelopsis cordata</i>
<i>Amyris</i>
<i>Anthyllis hermanniae</i>
<i>Arbutus menziesii</i>

<i>Arbutus unedo</i>
<i>Archontophoenix cunninghamiana</i>
<i>Arctostaphylos</i>
<i>Artemisia</i>
<i>Artocarpus chaplasha</i>
<i>Artocarpus heterophyllus</i>
<i>Artocarpus integer</i>
<i>Asparagus</i>
<i>Asparagus acutifolius</i>
<i>Atalantia</i>
<i>Athyrium filix-femina</i>
<i>Azadirachta indica</i>
<i>Baccharis halimifolia</i>
<i>Baccharis pilularis</i>
<i>Baccharis salicifolia</i>
<i>Baccharis salicina</i>
<i>Balsamocitrus</i>
<i>Bauhinia variegata</i>
<i>Benincasa</i>
<i>Betula</i>
<i>Bidens pilosa</i>
<i>Bombax malabaricum</i>
<i>Bouteloua</i>
<i>Brassica</i>
<i>Brachychiton discolor</i>
<i>Brachychiton populneus</i>
<i>Broussonetia papyrifera</i>
<i>Broussonetia kazinoki</i>
<i>Browallia</i>
<i>Brugmansia</i>
<i>Bryonia</i>
<i>Buchloe</i>
<i>Caesalpinia japonica</i>
<i>Cajanus cajan</i>
<i>Calamagrostis</i>
<i>Calibrachoa</i>
<i>Calicotome spinosa</i>

<i>Calicotome villosa</i>
<i>Callicarpa americana</i>
<i>Callistemon citrinus</i>
<i>Calluna vulgaris</i>
<i>Camellia</i>
<i>Camellia oleifera</i>
<i>Camellia semiserrata</i>
<i>Camellia sinensis</i>
<i>Canarium commune</i>
<i>Capsicum</i>
<i>Capsicum annuum</i>
<i>Carpinus</i>
<i>Carya</i>
<i>Casimiroa</i>
<i>Cassia tora tora</i>
<i>Castanea</i>
<i>Castanopsis</i>
<i>Castanospermum australe</i>
<i>Catharanthus roseus</i>
<i>Celtis sinensis</i>
<i>Celtis occidentalis</i>
<i>Cenchrus</i>
<i>Cercidiphyllum</i>
<i>Cercidium floridum</i>
<i>Cercidium sonora</i>
<i>Cercis canadensis</i>
<i>Cercis chinensis</i>
<i>Cercis occidentalis</i>
<i>Cercis siliquastrum</i>
<i>Cestrum</i>
<i>Chaenomeles</i>
<i>Chamaecrista fasciculata</i>
<i>Chenopodium album</i>
<i>Chionanthus</i>
<i>Chionanthus virginicus</i>
<i>Chitalpa tashkentensis</i>

<i>Choisya</i>
<i>Cinnamomum camphora</i>
<i>Cistus</i>
<i>Citrus</i>
<i>Citropsis</i>
<i>Citrullus</i>
<i>Clausena</i>
<i>Clematis cirrhosa</i>
<i>Coelorachis cylindrica</i>
<i>Coccinia</i>
<i>Cocculus laurifolius</i>
<i>Coffea</i>
<i>Combretum kraussii</i>
<i>Conium maculatum</i>
<i>Convolvulus cneorum</i>
<i>Coprosma repens</i>
<i>Cornus</i>
<i>Cornus kousa</i>
<i>Coronilla</i>
<i>Cortaderia</i>
<i>Corylus</i>
<i>Cotoneaster</i>
<i>Crataegus</i>
<i>Crataegus cordata</i>
<i>Cuatresia</i>
<i>Cucurbita</i>
<i>Cucumis</i>
<i>Cunninghamia lanceolata</i>
<i>Cupaniopsis anacardioides</i>
<i>Cyclantera</i>
<i>Cydonia</i>
<i>Cynara scolymus</i>
<i>Cyperus eragrostis</i>
<i>Cyphanthera</i>
<i>Cyphomandra</i>
<i>Cytisus racemosus</i>
<i>Cytisus</i>

<i>Dalbergia</i>
<i>Darcyanthus</i>
<i>Datura</i>
<i>Deprea</i>
<i>Digitaria</i>
<i>Diospyros kaki</i>
<i>Diplocyclos palmatus</i>
<i>Discopodium</i>
<i>Dodonaea viscosa</i>
<i>Dombeya cacuminu</i>
<i>Duboisia</i>
<i>Dunalia</i>
<i>Dysochroma</i>
<i>Ectozoma</i>
<i>Encelia farinosa</i>
<i>Ecballium</i>
<i>Echinocystis</i>
<i>Echium plantagineum</i>
<i>Enkianthus perulatus</i>
<i>Elaeagnus</i>
<i>Elaeagnus angustifolia</i>
<i>Eremocitrus</i>
<i>Eremophila maculata</i>
<i>Erigeron</i>
<i>Eriobotrya</i>
<i>Eriolarynx</i>
<i>Erythrina corallodendron</i>
<i>Erythrina coralloides</i>
<i>Erythrina falcata</i>
<i>Erythrina fusca</i>
<i>Eriobotrya japonica</i>
<i>Erodium moschatum</i>
<i>Esenbeckia</i>
<i>Eucalyptus ficifolia</i>
<i>Euphorbia chamaecyse</i>
<i>Euphorbia terracina</i>
<i>Euryops chrysanthemoides</i>
<i>Euryops pectinatus</i>
<i>Exodeconus</i>
<i>Fabiana</i>
<i>Fagus</i>
<i>Fagus crenata</i>
<i>Fagus sylvatica</i>
<i>Fallopia japonica</i>

<i>Fatsia japonica</i>
<i>Ficus</i>
<i>Ficus carica</i>
<i>Ficus hispida</i>
<i>Ficus infectoria</i>
<i>Ficus retusa</i>
<i>Firmiana simplex</i>
<i>Fortunella</i>
<i>Fragaria</i>
<i>Frangula alnus</i>
<i>Frangula californica</i>
<i>Frangula purshiana</i>
<i>Fraxinus</i>
<i>Fraxinus americana</i>
<i>Fraxinus dipetala</i>
<i>Fraxinus latifolia</i>
<i>Fraxinus excelsior</i>
<i>Fraxinus pennsylvanica</i>
<i>Genista</i>
<i>Ginkgo biloba</i>
<i>Gleditsia</i>
<i>Gleditsia triacanthos</i>
<i>Gleditsia japonica</i>
<i>Glyceria</i>
<i>Glycosmis</i>
<i>Grabwvskia</i>
<i>Grammosolen</i>
<i>Grevillea juniperina</i>
<i>Griselinia littoralis</i>
<i>Gurania</i>
<i>Hakonechloa</i>
<i>Hamamelis virginiana</i>
<i>Hawkesiophyton</i>
<i>Hebe</i>
<i>Helianthus</i>
<i>Helichrysum</i>
<i>Heliotropium europaeum</i>
<i>Hemerocallis</i>
<i>Heteranthis</i>
<i>Heteromelis arbutifolia</i>
<i>Hevea brasiliensis</i>
<i>Hibiscus</i>
<i>Hovenia dulcis</i>
<i>Howea forsteriana</i>

<i>Humulus scandens</i>
<i>Hunzikeria</i>
<i>Hyoscyamus</i>
<i>Hystrix</i>
<i>Ilex aquifolium</i>
<i>Ilex cornuta</i>
<i>Ilex vomitoria</i>
<i>Inga vera</i>
<i>Iochroma</i>
<i>Iva annua</i>
<i>Jaborosa</i>
<i>Jacaranda mimosifolia</i>
<i>Jaltomata</i>
<i>Juanulloa</i>
<i>Juglans</i>
<i>Juglans mandshurica</i>
<i>Juglans regia</i>
<i>Juniperus ashei</i>
<i>Kalmia latifolia</i>
<i>Kedostris</i>
<i>Koelreuteria</i>
<i>Koelreuteria bipinnata</i>
<i>Lagenaria</i>
<i>Lagerstroemia</i>
<i>Lagerstroemia indica</i>
<i>Larix decidua</i>
<i>Larix kaempferi</i>
<i>Larix x eurolepis</i>
<i>Larnax</i>
<i>Latua</i>
<i>Lavandula</i>
<i>Laurus nobilis</i>
<i>Leptoglossis</i>
<i>Leucothoe</i>
<i>Leucophysalis</i>
<i>Ligustrum lucidum</i>
<i>Limonia</i>
<i>Liquidambar styraciflua</i>
<i>Lithocarpus densiflorus</i>
<i>Lonicera hispidula</i>
<i>Lonicera implexa</i>
<i>Lonicera japonica</i>
<i>Luffa</i>
<i>Lupinus aridorum</i>

<i>Lupinus villosus</i>
<i>Lycianthes</i>
<i>Lycium</i>
<i>Lycopersicon</i>
<i>Maclura tricuspidata</i>
<i>Magnolia</i>
<i>Magnolia grandiflora</i>
<i>Magnolia virginiana</i>
<i>Mallotus paniculatus</i>
<i>Malus</i>
<i>Malva parviflora</i>
<i>Mandragora</i>
<i>Markea</i>
<i>Medicago arborea</i>
<i>Medicago sativa</i>
<i>Melia</i>
<i>Melananthus</i>
<i>Melilotus</i>
<i>Melissa</i>
<i>Melothria</i>
<i>Merinthopodium</i>
<i>Merrillia</i>
<i>Mespilus</i>
<i>Metternichia</i>
<i>Metrosideros</i>
<i>Metrosideros excelsa</i>
<i>Michelia doltsopa</i>
<i>Microcitrus</i>
<i>Mimosa</i>
<i>Mimosa bracaatinga</i>
<i>Modiola caroliniana</i>
<i>Molinia</i>
<i>Momordica</i>
<i>Morus</i>
<i>Morus alba</i>
<i>Murraya</i>
<i>Musa</i>
<i>Myoporum insulare</i>
<i>Myrtus communis</i>
<i>Nandina domestica</i>
<i>Naringi</i>
<i>Nectouxia</i>
<i>Nealsomitra</i>
<i>Neptunia lutea</i>

<i>Nerium</i>
<i>Nerium oleander</i>
<i>Nicandra</i>
<i>Nicotiana</i>
<i>Nicotiana glauca</i>
<i>Nierembergia</i>
<i>Normania</i>
<i>Nothocestrum</i>
<i>Nothofagus obliqua</i>
<i>Olea</i>
<i>Olea europaea</i>
<i>Oryctes</i>
<i>Osmanthus heterophyllus</i>
<i>Ostrya</i>
<i>Pamburus</i>
<i>Panthacantha</i>
<i>Parrotia persica</i>
<i>Parthenocissus quinquefolia</i>
<i>Paspalum dilatatum</i>
<i>Parkinsonia aculeata</i>
<i>Persea</i>
<i>Persea americana</i>
<i>Perovskia abrotanoides</i>
<i>Petchoa</i>
<i>Petunia</i>
<i>Phagnalon saxatile</i>
<i>Phalaris</i>
<i>Phillyrea angustifolia</i>
<i>Phoenix reclinata</i>
<i>Phoenix roebelenii</i>
<i>Photinia x fraseri</i>
<i>Phillyrea angustifolia</i>
<i>Phillyrea latifolia</i>
<i>Phrodos</i>
<i>Phlomis fruticosa</i>
<i>Phyla nodiflora</i>
<i>Physalis</i>
<i>Physochlaina</i>
<i>Pieris</i>
<i>Pithecellobium lobatum</i>
<i>Pinus</i>
<i>Pinus taeda</i>
<i>Pistacia vera</i>
<i>Plantago lanceolata</i>

<i>Platanus</i>
<i>Platanus x hispánica</i>
<i>Platanus mexicana</i>
<i>Platanus occidentalis</i>
<i>Platanus orientalis</i>
<i>Platanus racemosa</i>
<i>Platycarya strobilacea</i>
<i>Plowmania</i>
<i>Pluchea odorata</i>
<i>Podalyria calyptrata</i>
<i>Polygala myrtifolia</i>
<i>Polygala x grandiflora</i>
<i>Portulaca</i>
<i>Populus</i>
<i>Populus fremontii</i>
<i>Populus nigra</i>
<i>Populus trichocarpa</i>
<i>Prosopis articulata</i>
<i>Protium serratum</i>
<i>Protoschwenckia</i>
<i>Prunus</i>
<i>Prunus amygdalus</i>
<i>Prunus armeniaca</i>
<i>Prunus blireiana</i>
<i>Prunus brigantina</i>
<i>Prunus cerasifera</i>
<i>Prunus cerasus</i>
<i>Prunus cistena</i>
<i>Prunus curdica</i>
<i>Prunus domestica</i> subsp. <i>domestica</i>
<i>Prunus domestica</i> subsp. <i>instititia</i>
<i>Prunus domestica</i> subsp. <i>italica</i>

<i>Solandra</i>
<i>Solanum</i>
<i>Solanum aethiopicum</i>

CUT FLOWERS

Chrysanthemum, Dianthus

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries	<p>Consignment complies with Annex VII, point 25 a of Commission Implementing Regulation (EU) 2019/2072</p> <p>or</p> <p>Consignment complies with Annex VII, point 25 b of Commission Implementing Regulation (EU) 2019/2072</p> <p>or</p> <p>Consignment complies with Annex VII, point 25 c of Commission Implementing Regulation (EU) 2019/2072</p>	<p>(25 a) The plants originate in an area free from <i>Spodoptera eridania</i> (Cramer), <i>Spodoptera frugiperda</i> Smith and <i>Spodoptera litura</i> (Fabricius), established by the national plant protection organisation in accordance with the relevant International Standards for Phytosanitary Measures</p> <p>or</p> <p>(25 b) No signs of <i>Spodoptera eridania</i> (Cramer), <i>Spodoptera frugiperda</i> Smith and <i>Spodoptera litura</i> (Fabricius), have been observed at the place of production since the beginning of the last complete cycle of vegetation.</p> <p>or</p> <p>(25 c) The plants have undergone appropriate treatment to protect them from <i>Spodoptera eridania</i> (Cramer), <i>Spodoptera frugiperda</i> Smith and <i>Spodoptera litura</i>.</p>
Third countries	<p>Consignment complies with Annex VII, point 28 a of Commission Implementing Regulation (EU) 2019/2072</p> <p>or</p> <p>Consignment complies with Annex VII, point 28 b of Commission Implementing Regulation (EU) 2019/2072</p>	<p>(28a) The cut flowers originate in a country free from <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i>.</p> <p>or</p> <p>(28b) The cut flowers, immediately prior to their export, have been officially inspected and found free from <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i>.</p>

CUT FLOWERS
Gypsophila, Solidago

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries	Consignment complies with Annex VII, point 28 a of Commission Implementing Regulation (EU) 2019/2072 or Consignment complies with Annex VII, point 28 b of Commission Implementing Regulation (EU) 2019/2072	(28a) The cut flowers originate in a country free from <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i>. or (28b) The cut flowers, immediately prior to their export, have been officially inspected and found free from <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i>.

CUT FLOWERS
Pelargonium

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries	<p>Consignment complies with Annex VII, point 25 a of Commission Implementing Regulation (EU) 2019/2072</p> <p>or</p> <p>Consignment complies with Annex VII, point 25 b of Commission Implementing Regulation (EU) 2019/2072</p> <p>or</p> <p>Consignment complies with Annex VII, point 25 c of Commission Implementing Regulation (EU) 2019/2072</p>	<p>(25 a) The plants originate in an area free from <i>Spodoptera eridania</i>, <i>Spodoptera frugiperda</i> and <i>Spodoptera litura</i>, established by the national plant protection organisation in accordance with the relevant International Standards for Phytosanitary Measures</p> <p>or</p> <p>(25 b) No signs of <i>Spodoptera eridania</i>, <i>Spodoptera frugiperda</i> and <i>Spodoptera litura</i> have been observed at the place of production since the beginning of the last complete cycle of vegetation.</p> <p>or</p> <p>(25 c) The plants have undergone appropriate treatment to protect them from <i>Spodoptera eridania</i>, <i>Spodoptera frugiperda</i> and <i>Spodoptera litura</i>.</p>

CUT FLOWERS

Rosa

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Canada India United States	<p>Consignment complies with Article 5 point 1 a of Commission Decision 2022/1265/EC</p> <p><i>The name of the area mentioned on the certificate in box 'place of origin'</i></p> <p>or</p> <p>Consignment complies with Article 5 point 1 c of Commission Decision 2022/1265/EC</p>	<p>(5.1 a) The specified plants have been grown through their entire life in an area free from Rose Rosettevirus, as established by the national plant protection organisation concerned, in accordance with the relevant International Standards for Phytosanitary Measures. The name of that area shall be stated in the phytosanitary certificate under 'place of origin'.</p> <p>or</p> <p>(5.1.c) The specified plants have been grown through their entire life in a place of production where neither symptoms of Rose Rosette virus nor of the specified vector have been observed during official inspections since the start of the last growing season. and the specified plants, other than plants for planting, have been inspected, and in case of symptoms, sampled and tested prior to export for the presence of Rose Rosette virus and found free from Rose Rosette virus.</p>

CUT FLOWERS

Orchidaceae

(such as Aranda, Aranthera, Dendrobium, Mokara, Oncidium, Vanda)

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries other than Thailand	<p>Consignment complies with Annex VII, point 29 a of Commission Implementing Regulation (EU) 2019/2072</p> <p>or</p> <p>Consignment complies with Annex VII, point 29 b of Commission Implementing Regulation (EU) 2019/2072</p>	<p>(29a) (name of country) is free from <i>Thrips palmi</i></p> <p>or</p> <p>(29b) The cut flowers, immediately prior to their export, have been officially inspected and found free from <i>Thrips palmi</i></p>
Thailand	<p>Consignment complies with the Annex point 29.1 a of the Commission Implementing Decision (EU) 2019/2072</p> <p>or</p> <p>Consignment complies with the Annex point 29.1 b of the Commission Implementing Decision (EU) 2019/2072</p> <p><i>Optie b: details of the treatment are indicated on the certificate</i></p>	<p>(29.1 a) The place of production is free from <i>Thrips palmi</i> on official inspections carried out at least monthly during the three months prior to export.</p> <p>Or</p> <p>(29.1 b) have undergone an appropriate fumigation treatment to ensure free from <i>Thrips palmi</i></p>

CUTTINGS

Only the products most commonly imported as cuttings are listed in this section.

These are:

- Brugmansia
- Chrysanthemum (Dendranthema)
- Dianthus
- Euphorbia pulcherrima
- Jasminum polyanthum
- Pelargonium
- Persea americana
- Solanum jasminoides

For any other cuttings check whether they are listed in the table for herbaceous species and/or the table of plants for planting.

Percival in accordance with the procedure referred to in Article 107 of Decision (EU) No 2016/2031 have been complied with in the country of origin.</p>

PLANTS FOR PLANTING

In the 'Table of contents' all plants for planting, taken up in one of the tables in this section, are listed. You may use 'Search' to find the specific table.

Please note the category 'All others'. This means that for any plants for planting this is the minimal requirement.

Definition of 'plants for planting' (or 'plants intended for planting'):

- plants which are already planted and are intended to remain planted or to be replanted after their introduction
- or**
- plants which are not planted at the time of introduction, but are intended to be planted thereafter

PLANTS FOR PLANTING

All others

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries	See Additional declaration point 4 for Thrips palmi	
Third countries Plants for planting With roots, other than plants in tissue culture	See Additional declaration point 4.1 for Meloidogyne enterolobii	
Plants for planting With growing media intended to sustain the vitality of the plants, other than plants in tissue culture and aquatic plants	See Additional declaration point 4.2 for Popilia japonica	
Third countries where the relevant Union quarantine pests are known to occur	See Additional declaration point 7 for Viruses	

PLANTS FOR PLANTING

Acacia

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries where <i>Xylella fastidiosa</i> is known not to occur		
Third countries with area's where <i>Xylella fastidiosa</i> is known not to be present	see Attachment 1 EU List of registered countries Product/crop other than seeds Product/crop other than seeds

<p>Third countries where <i>Aromia bungii</i> is known to be present</p> <p>Product/crop other than seeds</p> <p>--next--↓</p>	<p>Consignment complies with Article 11 a of Commission Implementing Decision 2018/1503/EC</p> <p>or</p> <p>Consignment complies with Article 11 b of Commission Implementing Decision 2018/1503/EC</p> <p>or</p> <p>Consignment complies with Article 11 c of Commission Implementing Decision 2018/1503/EC</p> <p>or</p> <p>Consignment complies with Article 11 a of Commission Implementing Decision 2018/1503/EC; that the plants have been grown throughout their life in a place of production which is registered and supervised by the national plant protection organisation in the country of origin and situated in an area, established by that organisation, in accordance with relevant International Standards for Phytosanitary Measures, as known to be free from <i>Aromia bungii</i></p> <p>or</p> <p>Consignment complies with Article 11 b of Commission Implementing Decision 2018/1503/EC; that the plants have been grown during a period of at least two years prior to export, or, in the case of plants which are younger than two years, have been grown throughout their life, in a place of production established as free from <i>Aromia bungii</i>, in accordance with the International Standards for Phytosanitary Measures, and that the following conditions are fulfilled:</p> <p>(i) the place of production is registered and supervised by the national plant protection organisation in the country of origin;</p> <p>(ii) the place of production has been subjected annually to at least two meticulous official inspections for any sign of <i>Aromia bungii</i> carried out at appropriate times, and no signs of <i>Aromia bungii</i> have been found;</p>	<p>11 a (area ...and place of production free from <i>Aromia bungii</i> AND area mentioned on the certificate)</p> <p>or</p> <p>11 b (place of production free from <i>Aromia bungii</i> at least two years prior to export)</p> <p>or</p> <p>11 c (grown form rootstocks, grafted with scions and scions more than 1 cm in diameter at their thickest point at the time of export AND plants were inspected in accordance with point b)</p>
---	---	---

--continuation--

(iii) the place of production is with complete physical protection against the introduction of *Aromia bungii*, or has been subjected to appropriate preventive treatment and surrounded by a buffer zone with a radius of at least 4 km where official surveys for the presence or signs of *Aromia bungii* are carried out annually at appropriate times;

(iv) where the presence or signs of *Aromia bungii* have been found, eradication measures have been immediately taken to restore the pest freedom of the buffer zone;

(v) immediately prior to export, consignments of the plants have been subjected to a meticulous official inspection for the presence of *Aromia bungii*, in particular in stems and branches of those plants. That inspection has included targeted destructive sampling. Where consignments include plants originating in sites which at the time of their production were located in a buffer zone, where presence or signs of *Aromia bungii* had been found, destructive sampling of the plants of that consignment has been carried out at the level set out in the following table:

Number of plants in lot	Level of destructive sampling (number of plants to be destroyed)
1-4 500	10% of lot size
>4 500	450

Consignment complies with Article 11 c of Commission Implementing Decision 2018/1503/EC; that the plants have been grown from rootstocks which fulfil the requirements of point (b), grafted with scions which meet the following requirements:

(i) at the time of export, the grafted scions are no more than 1 cm in diameter at their thickest point;

(ii) the grafted plants have been inspected in accordance with point (b)(ii).

For the purposes of point (a), the name of the area shall be mentioned under the entry 'place of

<p>Third countries where <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i> are known to occur</p> <p>Product/crop other than bulbs corms plants of genera Gramineae Rhizomes seeds tubers plants in tissue culture</p>	<p>Consignment complies with Annex VII, point 8 a of Commission Implementing Regulation (EU) 2019/2072</p> <p><i>The name of area mentioned on the certificate in box 'Additional declaration' or box 'Place of origin'</i></p> <p>or</p> <p>Consignment complies with Annex VII, point 8 b of Commission Implementing Regulation (EU) 2019/2072</p> <p><i>The name or a registration code of the registered production site shall be included on the certificate in box "Additional declaration"</i></p> <p>or</p> <p>Consignment complies with Annex VII, point 8 c of Commission Implementing Regulation (EU) 2019/2072</p>	<p>The plants have been grown in nurseries and (8 a) originate in (name of area) established by the national plant protection organisation in the country of origin as being free from <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i> in accordance with relevant International Standards for Phytosanitary Measures which is mentioned on the phytosanitary certificate referred to in Article 71 of Decision (EU) No 2016/2031, under the rubric 'Additional declaration',</p> <p>or (8 b) originate in (name of place of production) established by the national plant protection organisation of the country of origin as being free from <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i> in accordance with the relevant International Standards for Phytosanitary Measures, and which is mentioned on the phytosanitary certificate referred to in Article 71 of Decision (EU) No 2016/2031, under the rubric 'Additional declaration', and declared free from <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i> on official inspections carried out at least monthly during the three months prior to export,</p> <p>or (8 c) immediately prior to export, have been subjected to an appropriate treatment against <i>Liriomyza sativae</i> and <i>Nemorimyza</i></p>

	<i>Details of the treatment mentioned in the respective box of the certificate</i>	<p><i>maculosa</i> and have been officially inspected and found free from <i>Liriomyza sativae</i> and <i>Nemorimyza maculosa</i>.</p> <p>Details of the treatment referred in point (c) shall be mentioned on the phytosanitary certificate referred to in Article 71 of Decision (EU) No 2016/2031.</p>
<p>Third countries</p> <p>Product/crop Aquatic plant other than seeds</p>	<p>Consignment complies with Annex I 1, point 1 of Commission Implementing Decision 2012/697/EC;</p>	<p><i>"Aquatic plants" is not a botanical name. The requirement mentioned here is applicable for any plant that can only grow in water or soil that is permanently saturated with water</i></p> <p>the specified plants were inspected immediately prior to export and found free from Pomacea</p>

PLANTS FOR PLANTING

GRAIN

Triticum, Secale and x Triticosecale

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
<p>Afghanistan, India, Iran, Iraq, Mexico, Nepal, Pakistan, South Africa, United States (countries where <i>Tilletia indica</i> is known to occur)</p>	<p>Consignment complies with Annex VII, point 75 a of Commission Implementing Regulation (EU) 2019/2072</p> <p><i>Area mentioned on the certificate in 'Place of origin'</i></p> <p>or</p> <p>Consignment complies with Annex VII, point 75 b of Commission Implementing Regulation (EU) 2019/2072</p> <p><i>Tested and found free from Tilletia indica mentioned on the certificate under the rubric 'name of produce'</i></p>	<p>(75a) the grain originates in (name of area) where <i>Tilletia indica</i> Mitra is known not to occur. The name of the area or areas is mentioned on the phytosanitary certificate referred to in Article 71 of Decision (EU) No 2016/2031, under the rubric 'place of origin',</p> <p>or</p> <p>(75b) no symptoms of <i>Tilletia indica</i> Mitra have been observed on the plants at the place of production during their last complete cycle of vegetation and representative samples of the grain have been taken both at the time of harvest and before shipment and have been tested and found free from <i>Tilletia indica</i> Mitra in these tests; the latter is mentioned on the phytosanitary certificate referred to in Article 71 of Decision (EU) No 2016/2031, under the rubric 'name of produce' as 'tested and found free from <i>Tilletia indica</i> Mitra'.</p>

NATURALLY OR ARTIFICIALLY DWARFED PLANTS

Naturally or artificially dwarfed plants for planting other than seeds

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries	See Additional declaration point 4 for Thrips palmi	
Third countries Plants for planting With roots, other than plants in tissue culture	See Additional declaration point 4.1 for Meloidogyne enterolobii	
Plants for planting With growing media intended to sustain the vitality of the plants, other than plants in tissue culture and aquatic plants	See Additional declaration point 4.2 for Popilia japonica	
Third countries where the relevant Union quarantine pests are known to occur	See Additional declaration point 7 for Viruses	
Third countries other than: Albania, Andorra, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Canary Islands, Faeroe Islands, Georgia, Iceland, Liechtenstein, Moldova, Monaco, Montenegro, North	Consignment complies with Annex VII, point 30 of Commission Implementing Regulation (EU) 2019/2072 <i>Active ingredient, concentration and date of application of these treatments has been mentioned on the certificate under the rubric 'Disinfestation and/or disinfection treatment'</i>	(a) the plants, including those collected directly from natural habitats, have been grown, held and trained for at least two consecutive years prior to dispatch in officially registered nurseries, which are subject to an officially supervised control regime, (b) the plants in the nurseries referred to in point (a) of this entry: (i) at least during the period referred to in point (a) of this entry: – were potted, in pots which are placed on shelves at least 50 cm above ground, – have been subjected to appropriate treatments to ensure freedom from non-European rusts, and the active ingredient, concentration and date of application of these treatments has been mentioned on the phytosanitary certificate referred to in Article 71 of Decision (EU) No 2016/2031, under the rubric 'Disinfestation and/or disinfection treatment'.

<p>Macedonia, Norway, Russia (only the following parts: Central Federal District (Tsentralny federalny okrug), Northwestern Federal District (Severo-Zapadny federalny okrug), Southern Federal District (Yuzhny federalny okrug), North Caucasian Federal District (Severo-Kavkazsky federalny okrug) and Volga Federal District (Privolzhsky federalny okrug)), San Marino, Serbia, Switzerland, Turkey and Ukraine</p>	<p><i>Sealed number and registration number of the registered nursery indicated under the rubric 'Additional declaration'</i></p>	<p>– have been officially inspected at least six times a year at appropriate intervals for the presence of Union quarantine pests of concern in accordance with Decision (EU) No 2016/2031, and these inspections have also been carried out on plants in the immediate vicinity of the nurseries referred to in point (a) of this entry, at least by visual examination of each row in the field or nursery and by visual examination of all parts of the plant above the growing medium, using a random sample of at least 300 plants from a given genus where the number of plants of that genus is not more than 3000 plants, or 10 % of the plants if there are more than 3000 plants from that genus,</p> <p>– have been found free, in these inspections, from the relevant Union quarantine pests of concern as specified in the previous indent, infested plants have been removed and the remaining plants, where appropriate, have been effectively treated, and have been held for an appropriate period and inspected to ensure freedom from such pests,</p> <p>– have been planted in either an unused artificial growing medium or in a natural growing medium, which has been treated by fumigation or by appropriate heat treatment and has been of any Union quarantine pests,</p> <p>– have been kept under conditions which ensure that the growing medium has been maintained free from Union quarantine pests and within two weeks prior to dispatch, have been:</p> <ul style="list-style-type: none"> - shaken and washed with clean water to remove the original growing medium and kept bare rooted, or - shaken and washed with clean water to remove the original growing medium and replanted in growing medium which meets the conditions laid down in (i) fifth indent, or - subjected to appropriate treatments to ensure that the growing medium is free from Union quarantine pests, and the active ingredient, concentration and date of application of these treatments have been indicated on the phytosanitary certificate referred to in Article 71 of Decision (EU) No 2016/203 under the rubric 'Disinfestation and/or disinfection treatment'. <p>(ii) were packed in closed containers which have been officially sealed and bear the registration number of the registered nursery, and this number has been indicated under the rubric 'Additional declaration' on the phytosanitary certificate referred to in Article 71 of Decision (EU) No 2016/203, enabling the consignments to be identified</p>
---	---	--

AQUATIC PLANTS

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries Product/crop other than seeds	Consignment complies with Annex I 1, point 1 of Commission Implementing Decision 2012/697/EC	<i>"Aquatic plants" is not a botanical name; the requirement mentioned here is applicable for any plant that can only grow in water or soil that is permanently saturated with water</i> the specified plants plants were inspected immediately prior to export and found free from Pomacea
Third countries	See Additional declaration point 4 for Thrips palmi	
Third countries Plants for planting With roots, other than plants in tissue culture	See Additional declaration point 4.1 for Meloidogyne enterolobii	
Third countries where the relevant Union quarantine pests are known to occur	See Additional declaration point 7 for Viruses	

MACHINERY

Machinery and vehicles destination: Ireland, France (Brittany), Portugal (Azores), Finland, Northern Ireland

Origin	Required additional declaration full reference text, as it should appear on the certificate.	Required minimal additional declaration text (see in bold) as it should appear on the certificate.
Third countries	Consignment complies with Annex X , point 1 a of Commission Implementing Regulation (EU) 2019/2072 <i>or</i> Consignment complies with Annex X , point 1 b of Commission Implementing Regulation (EU) 2019/2072	The machinery has: (1a) been cleaned and free from soil and plant debris when brought to places of production, where beets are grown; <i>or</i> (1b) come from an area where (Beet necrotic yellow vein virus) BNYVV is known not to occur.

ATTACHMENT 1: XYLELLA

EU LIST OF REGISTRATED COUNTRIES REGISTERED AS BEING FREE FROM XYLELLA FASTIDIOSA

EU-Member States where *Xylella fastidiosa* is known not to occur:

Austria, Belgium, Bulgaria, Croatia, Republic of Cyprus, Czech Republic, Denmark, Estonia, Finland, Germany, Greece, Hungary, Ireland, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Romania, Slovakia, Slovenia and Sweden

Import of specified plants for planting (not seeds) is forbidden unless named in the lists below

Third countries where *Xylella fastidiosa* is known not to occur

Country	Date		Country	Date
Australia	25 November 2020		Norway	28 January 2021
Bosnia and Herzegovina	23 February 2021		Serbia	18 December 2020
Canary Island	19 February 2021		South Africa	21 April 2021
Egypt	19 October 2020		Tanzania	14 September 2023
Japan	25 February 2021		Thailand	24 December 2020
Kenya	30 November 2020		Tunisia	28 December 2020
Moldova, Republic of	24 November 2020		Türkiye	26 November 2020
Montenegro	18 November 2020		Uganda	31 May 2021
Morocco	18 January 2021		United Kingdom	22 December 2020
New Zealand	25 November 2020		Vietnam	17 April 2024
North Macedonia	22 December 2020			

Status updated following Article 28 of Commission Implementing Registration (EU) 2020/1201

Additional declaration

Consignment complies with Article 28 of Commission Implementing Regulation (EU) 2020/1201

and

Xylella fastidiosa is not present in the country

Beware, it is possible you need more additional declarations. See ADDITIONAL DECLARATION PER SECTOR

Third countries with areas where *Xylella fastidiosa* is known not to occur

Country	Pest free area	Date
Ethiopia	Lume district, Dugda district, Koka district, Atem Tena district, Ziway district, Boset district, Jeju district, Abomsa district, Kunzila district and Bahir-Dar district	26 April 2023
Ghana	Volta Region	1 March 2023
Israel	all the territory except part of area 21: (211) Hula Basin and (212) Eastern Upper Galilee	1 March 2023
Sri Lanka	Gampaha District	28 February 2024
United States of America	Oregon (County: Benton, Clackamas, Columbia, Douglas, Hood River, Jackson, Josephine, Klamath, Lane, Linn, Marion, Multnomah, Polk, Yamhill) Washington (County: Benton, Franklin, Grays Harbor, Skagit, Thurston, Walla Walla, Whatcom) Michigan (County: Ottawa, Van Buren)	21 February 2024

Additional declaration

Consignment complies with Article 29 c of Commission Implementing Regulation (EU) 2020/1201

and

The host plants have spent there entire life in the area (name of area)

Under the rubric 'Additional declaration' or 'Place of origin' The name or code of area shall be indicated

Beware, it is possible you need more additional declarations. See ADDITIONAL DECLARATION PER SECTOR

Third countries with pest free production places where *Xylella fastidiosa* is known not to occur

Country	Pest free production site	Date
Brazil	Due to privacy issues the list PFPS of Brazil is not publically listed. Please ask at KCB or Naktuinbouw	13 April 2021
Chile	Due to privacy issues the list PFPS of Chile is not publically listed. Please ask at KCB or Naktuinbouw	10 April 2024
China	Due to privacy issues the list PFPS of China is not publically listed. Please ask at KCB or Naktuinbouw	6 March 2024
Colombia	Due to privacy issues the list PFPS of Colombia is not publically listed. Please ask at KCB or Naktuinbouw	5 September 2023
Costa Rica	Due to privacy issues the list PFPS of Costa Rica is not publically listed. Please ask at KCB or Naktuinbouw	30 December 2021
El Salvador	Due to privacy issues the list PFPS of El Salvador is not publically listed. Please ask at KCB or Naktuinbouw	7 June 2023
Mexico	Due to privacy issues the list PFPS of Mexico is not publically listed. Please ask at KCB or Naktuinbouw	28 February 2024
South Korea	Due to privacy issues the list of PFPS of South Korea is not publically listed. Please ask at KCB or Naktuinbouw	5 July 2023
Sri Lanka	Due to privacy issues the list PFPS of Sri Lanka is not publically listed. Please ask at KCB or Naktuinbouw	24 April 2023
United States of America	Due to privacy issues the list of US PFPS is not publically listed. Please ask at KCB or Naktuinbouw	21 February 2024
Uzbekistan	Due to privacy issues the list PFPS of Uzbekistan is not publically listed. Please ask at KCB or Naktuinbouw	27 December 2023
Vietnam	Due to privacy issues the list of PFPS of Vietnam is not publically listed. Please ask at KCB or Naktuinbouw	26 June 2023

Additional declaration

For specified plants, other than plants which have been grown for the entire production cycle in vitro, originate in an area where *Xylella fastidiosa* is known to be present:

Under the rubric 'Additional Declaration'

Consignment complies with Article 30.1 c of of Commission Implementing Regulation (EU) 2020/1201

and

the host plants have been produced for their entire production cycle in one or more sites authorised as pest free by the national plant protection organisation in accordance with Article 31 and that the host plants have been transported in closed containers or packaging, ensuring that infection with the specified pest through its vectors cannot occur;

under the rubric 'place of origin', the name or code of the pest free production site(s) shall be indicated

For specified plants, which have been grown for the entire production cycle in vitro, originate in an area where *Xylella fastidiosa* is known to be present:

Under the rubric 'Additional Declaration'

Consignment complies with article 30.2 d of Commission Implementing Regulation (EU) 2020/1201

and

the host plants have been produced in vitro for their entire production cycle in one or more sites authorised as pest free by the national plant protection organisation in accordance with Article 31 and that the host plants have been transported in closed containers or packaging, ensuring that infection with the specified pest or any of its known vectors cannot occur;

under the rubric 'place of origin', the name or code of the pest free production site shall be indicated.

Beware, it is possible you need more additional declarations. See ADDITIONAL DECLARATION PER SECTOR

ATTACHMENT 2: Anoplophora

Additional declaration for *Anoplophora chinensis*

Acer spp., Aesculus hippocastanum, Alnus spp., Betula spp., Carpinus spp., Citrus spp., Cornus spp., Corylus spp., Cotoneaster spp., Crataegus spp., Fagus spp., Lagerstroemia spp., Malus spp., Melia spp., Ostrya spp., Photinia spp., Platanus spp., Populus spp., Prunus laurocerasus, Pyrus spp., Rosa spp., Salix spp., Ulmus spp. and Vaccinium corymbosum

Plants for planting having a stem or root collar diameter of 1 cm or more at their thickest point, other than seeds

Origin	Required additional declaration full reference text	Required additional declaration (as it should appear on the certificate)
Third countries where <i>Anoplophora chinensis</i> is known not to be present	<p>Consignment complies with Article 11 of Commission Implementing Regulation (EU) 2022/2095</p> <p>See list of free countries</p>	<p>The plants originate from a country where <i>Anoplophora chinensis</i> is known not to be present</p>
Third countries where <i>Anoplophora chinensis</i> is known to be present	<p>Consignment complies with Article 12 of Commission Implementing Regulation (EU) 2022/2095</p> <p>1. Specified plants originating in third countries where the specified pest is known to be present shall be accompanied by a phytosanitary certificate indicating the 'Additional Declarations'</p> <p>The name of the pest-free area shall be mentioned on the certificate under the rubric "Place of Origin"</p> <p>The surveys referred to in the first subparagraph, point (a), have been based on the Authority's General guidelines for statistically sound and risk-based surveys of plant pests, while the survey design and sampling scheme used has been able to identify with a sufficient level of confidence, a</p>	<p>(a) The plants have been grown throughout their life in a place of production which is registered and supervised by the national plant protection organisation in the country of origin and situated in a pest-free area established by that organisation in accordance with relevant International Standards for Phytosanitary Measures and on the basis of official surveys</p> <p>or</p> <p>(b) The plants have been grown during a period of at least two years prior to export, or in the case of plants which are younger than two years, have been grown throughout their life in a place of production:</p> <p>(i) Established as free from <i>Anoplophora chinensis</i> in accordance with International Standards for Phytosanitary Measures</p> <p>(ii) Registered and supervised by the national plant</p>

<p>--continuation--</p> <p>low level of presence of infested plants.</p> <p>The surveys referred to in the first subparagraph, point (b)(iv), second indent, have been based on the Authority's General guidelines for statistically sound and risk-based surveys of plant pests, the survey design and sampling scheme used have been able to identify with at least 95 % confidence level of presence of infested plants of 1 %. In case signs of the specified pest have been found, eradication measures have been immediately taken to restore the pest freedom in the buffer zone.</p> <p>The size of the sample for the inspection referred to in the first subparagraph, point (b)(v), shall be such as to enable at least the detection of 1 % level of infestation with a level of confidence of 99 %.</p> <p>2.
