Phaser® 8500 / 8550

Introducing the Xerox Phaser 8500 / 8550 color printers. Offering a powerful performance advantage, super fast print speeds and incredible ease of use. Plus, brilliant color that gets you noticed. All at an unbeatable price.

The obvious choice for color printing.

WorkCentre® C2424

Introducing the Xerox WorkCentre C2424 color multifunction system. A one-of-a-kind business solution offering printing, copying and scanning – plus superb color output – all in one affordable device. No other multifunction delivers such a value-packed combination of performance, versatility and ease of use.

Meet your office needs.

So, look no further busy workgroups – these top performers are ready for business.
The choice is simple: Xerox.

Phaser® 8500/8550

WorkCentre® C2424

A colorful choice...

More choices means your office gets exactly what it needs. The Xerox Phaser 8500 and Phaser 8550 printers deliver the amazing color quality and legendary ease of use of solid ink print technology. Want more functionality? The Xerox WorkCentre C2424 multifunction is the same great printer with the addition of copy and scan capabilities. All are built to meet your performance requirements *and* your budget.

Uncomparable quality

Stand out from the corporate crowd with color that makes an impact. Whether you're printing reports and presentations or graphics and web pages, solid ink color is so lush and vibrant, it turns heads.

- Provides fast, versatile prints for everyday jobs. And for knockout resolution when you really want to impress, there's 2400 FinePoint™ print mode on the Phaser 8550 and WorkCentre C2424. Your copy and print output have never looked so good.
- Expect color that's truer, more saturated and remarkably consistent – from your morning coffee through to the late night crunch.
- 85,000 page duty cycle. Built with muscle to deliver the reliability and production capacity you need in a busy workgroup.

Go ahead, get creative. Print on business card stock, invitations, transparencies, labels and more. You can expect the same brilliant output no matter what the media.

print

Phaser 8500/8550

Feature-packed printing at an unbeatable price

Think you can't afford a high performance color printer? Think again. These printers come with more features for less.

- Want speed? You've got it. The Phaser 8550 printer is so fast you can expect up to 30 ppm in full color! Your first page out is as fast as 5 seconds. Or choose the Phaser 8500 printer for up to 24 ppm in color.
- The Intelligent Ready feature learns your printing habits and warms up the system when you're most likely to use it.
- Features that are optional on competitors' products come standard. Namely, true Adobe® Postscript® 3™, networking, and job accounting. On the Phaser 8550 you get advanced paper handling features such as automatic two-sided printing, collation and booklet printing. The standard internal hard drive on the 8550DX adds save/secure/proof print and extended font storage.

WorkCentre C2424

Additional functionality at a great price

Three-in-one value. Advanced printing, copying and scanning seamlessly integrated into one device.

- Built fast to increase your productivity. Full-page color at up to 24 ppm and as fast as 6 seconds until the first print out.
- Walkup copying is a breeze and the range of copy features is standout.
- Multi-tasking enables you to take on two jobs at once – so if you're printing, you can still copy or scan.
- You don't pay extra for time-saving features such as automatic two-sided printing, collation, booklet making, save/secure/proof print and extended font storage. These features come standard.

Scanning transforms the way you work

Use the power of scanning to efficiently organize, edit and distribute information. Scan documents straight to your PC, to a public folder, or to password protected mailboxes. It's as simple as making a copy.

The C2424DX configuration adds more scanning tools. Convert paper documents into editable and searchable digital documents, view and organize scans on a thumbnail based Visual Desktop, and more.

Elegantly simple design

Sometimes it's the little things – like replenishing supplies – that slow you down. Not with the Phaser 8500 / 8550 printers and WorkCentre C2424 multifunction. They are designed to make office life more efficient.

- Installation and network configuration is easy – just four clicks and you're done.

- Run out of color ink? No problem. You can continue to print in black-only mode if you prefer. (8500 / 8550 only)

- Compact, no mess, solid ink sticks can be dropped into their slots anytime.

- A built-in Web Server lets you manage, configure and monitor these networked devices from anywhere.

- Built smart. Automatic job monitoring tracks your print job's progress, and an internet support system enables you to get help quickly should you ever need it. Plus, the Support Centre utility provides quick access to user documentation, tools and utilities.

- You can keep a personal mailbox on the internal hard drive (8550DX / C2424). So if you're late for a meeting and need an extra copy of something you've printed – just walk up to the device, select the stored job and print.
- Keep tabs on office activity. The Usage Analysis Tool enables you to collect, organize and analyze job accounting data.

Superior design and ease of use

Both the Phaser 8500/8550 and WorkCentre C2424 devices are built with large paper trays so you can get big jobs done without interruption.

- 1 Use 100-sheet Tray 1 for heavy paper up to 80 lb. cover (220 gsm), business cards, envelopes, transparencies and more.
- 2 Standard 525-sheet Tray 2 feeds up to 32 lb. bond (120 gsm).
- 3 Add one or two 525-sheet high-capacity paper feeders to boost your capacity to as much as 1,675 sheets.
- 4

Automatic 2-sided printing saves time and money.

Keep it simple. Solid ink has one-third of the parts of lasers. That makes it more reliable and easy to use.
