

# Imation Nano Flash Drive

## Use it every day

The **Imation Nano USB Flash Drive** is one of the lightest, most compact flash drives available today. It slips easily into your pocket or briefcase or on to the supplied key chain, which makes it the ideal data storage solution for everyday use!

The Imation Nano USB Flash Drive is small, light and compact, yet still big enough to hold up to 8 Gb of your data. The patented "never-lose" swivel cap, not only never gets lost, but protects the drive too. So you know everything is safe!
