

Content Suite at OpenText Enterprise World 2018

July 10–12 | Metro Toronto Convention Centre, Toronto, Canada

Map your path to get the full experience!

Did you know?

Enterprise World 2018 has more than 75 sessions related to OpenText Content Services and Enterprise Content Management—covering technical best practices, strategic insights, product roadmaps and customer success stories. Where should you start?

Ask the experts!

Visit the Enterprise Expo, where you can meet one-on-one with subject matter experts for demonstrations, Q&A and best practices and learn more about the advances included in our most recent releases.

Want a hands-on deep dive?

Join the OpenText crew in our Innovation Lab for the opportunity to evaluate innovative new designs and collaborate with OpenText user-experience designers and researchers.

Join our engineering team at the OpenText Developer Lab to learn how to build applications in beginner and advanced sessions.

Learn and network with OpenText experts and partners at the OpenText Enterprise Expo.

Don't miss this opportunity!

Content Suite at OpenText Enterprise World 2018

Use this handy, Content Suite-focused guide to design the Enterprise World that's best for you. We have identified the main "must see" sessions as well as other breakouts of interest so you can:

- Gain insight into how Content Services is allowing organizations to build on their ECM infrastructure and better integrate processes, automate governance and move to the cloud.
- Get a clear understanding of OpenText Content Services/ECM product direction straight from the experts.
- Hear from customers who have used innovative approaches to address the same challenges and opportunities you're facing.
- Connect with OpenText product gurus, industry thought leaders and fellow customers to ask questions, learn tips and tricks, share stories and build a network to drive future success.

Must-see Content Suite sessions

ECM-100 Strategy and roadmap:
How OpenText Content Services connects content to your digital business

Tuesday, July 10, 1:00 pm-2:50 pm

OpenText is leading the way in the development of Content Services and helping customers integrate with lead business applications, deploy new cloud applications and leverage their existing ECM investments. Join OpenText product leadership for an update on key advances in the OpenText Content and Enterprise Application portfolios:

- Content Services: New offerings, cloud-based applications and industry solutions, plus enhanced integration with leading applications such as SAP®, Microsoft® Office 365® and Salesforce®
- Content Suite, Documentum™ and application platforms: Advances in on-premises, hybrid and cloud offerings to help you leverage and expand your current investment
- Hear from industry thought leaders as they provide real-world insight into the changing ECM landscape

ECM-244 Product update:
What's new in OpenText Content Suite?

Tuesday, July 10, 3:10 pm-4:00 pm

Learn how the latest release of the Content Suite family of products builds on our commitment to simplify the user experience and extend the value of ECM to business processes. See what's new for mobile phones, Smart View updates, data visualization and external file sharing.

What are you looking for?

Content Suite, Extended ECM, capture, archiving, cloud and customer-focused sessions organized by topic
