

Installation Guide: Sound Board

Model No.: SC-HTE80 and SC-HTE180

Step 1

Placing Sound Board

Model No.: SC-HTE80

When the TV is less than 30 kg, and the pedestal of the TV is within 460mm (width) by 280 mm (depth), you can place the TV on the top of Sound Board. Otherwise, place it at the side of the TV or in a rack.

Model No.: SC-HTE180

When the TV is less than 50 kg, and the pedestal of the TV is within 700mm (width) by 365 mm (depth), you can place the TV on the top of Sound Board. Otherwise, place it at the side of the TV or in a rack.

Step 2

Making the connections

- 1) **Connect an ARC compatible TV**
Connect to the ARC compatible terminal of the TV with an ARC compatible high speed HDMI cable.
- 2) **Connect a non-ARC compatible TV**
Connect to the non-ARC compatible terminal of the TV with an optical digital audio cable.
- 3) **Connect a HDMI compatible device**
You can connect a Blu-ray player, DVD player, etc. with a HDMI cable and listen to the audio through the system.
- 4) **Connect an AUX compatible device**
You can connect other equipments such as Blu-ray player, DVD player, game console, set-top box, etc. with an audio cable and listen to the audio through the system.

Installation Guide: Sound Board

Model No.: SC-HTE80 and SC-HTE180

Step 3

Connecting the AC mains lead

Connect the AC mains lead [AC IN~] only after all the other connections have been made.

Step 4

Switching on the Sound Board

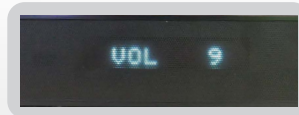

Press [POWER] to switch on the system by remote or on the right side of Sound Board.

Step 5

Selecting audio source and volume

Press [INPUT] repeatedly to select the source by remote or on the right side of Sound Board. (The ordering of audio source channel is: TV → BD/DVD → AUX → BLUETOOTH)
Press [+ VOL-] to adjust the volume of the system.

Installation Guide: Bluetooth Connection

Model No.: SC-HTE80 and SC-HTE180

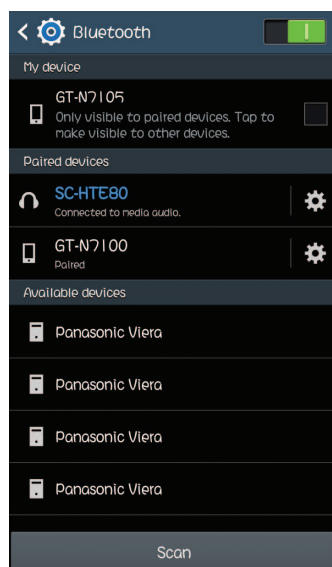

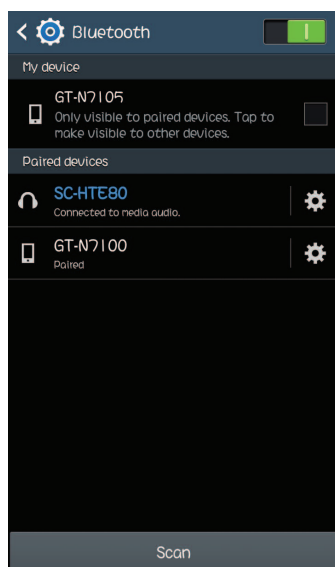

Step 1

Switch on the Bluetooth feature of the Sound Board by pressing [INPUT] by remote or on the right side of Sound Board. Select "BLUETOOTH" function from audio device.

Step 2

Select "SC-HTE80 / SC-HTE180" from the Bluetooth menu of the audio device for pairing. The device connects with this system automatically after pairing is completed. (If prompted for a passkey, input "0000".)

Step 3

You can play an audio device wirelessly through Bluetooth.
